Basis Under the Act for Proposed Rule Changes. The Board has adopted the proposed rule changes pursuant to Section 15B(b)(2)(A) of the Act which authorizes and directs the Board to adopt professional qualification standards for municipal securities brokers and municipal securities dealers and persons associated with municipal securities brokers and municipal securities dealers.

Comments Received from Members, Participants, or Others on Proposed Rule Changes. Comments were not solicited or received on the proposed rule changes.

Burden on Competition. The Board is of the opinion that the proposed rule changes will not impose any burden on competition.

On or before March 3, 1977, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule changes, or

(B) Institute proceedings to determine whether the proposed rule changes should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submissions should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 17, 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 19, 1977.

[Release No. 34-13196; File No. SR-MSRB-77-2]

MUNICIPAL SECURITIES RULEMAKING BOARD

Self-Regulatory Organizations; Proposed Rule Changes

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on January 19, 1977, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGES

The Municipal Securities Rulemaking Board (the "Board") is filing herewith proposed amendments to rule A-3(d) (hereinafter sometimes referred to as the "proposed rule changes").

The proposed rule changes provide a procedure for the nomination and election of successor members of the Board. The term of office of the 15 initial members of the Board, who were appointed by the Securities and Exchange Commission (the "Commission") pursuant to section 15B(b)(1) of the Securities Exchange Act of 1934 (the "Act"),[1] expires on September 4, 1977. Rule A-3(d) provides that five of the initial members of the Board shall be elected for a succeeding one-year term and five initial members for a succeeding two-year term, and that five individuals who are not initial members of the Board shall be elected for a three-year term, and that all other future members of the Board shall be elected for three-year terms. The rule, however, does not presently provide a procedure for these elections.

The proposed rule changes provide for the nomination by the chairman of the Board and election by the Board of those initial members of the Board who will serve successive one- and two-year terms beginning in September 1977. Under the proposed rule changes, the Board would also appoint a Nominating Committee in each year beginning in 1977, consisting of the five Board members whose terms are due to expire that year and six persons other than Board members, two representing bank dealers, two representing municipal securities brokers and non-bank municipal securities dealers, and two representing the public. In appointing the Nominating Committee, the Board would be required to give consideration to the need for broad geographic representation and representation of diverse sizes and types of municipal securities brokers and municipal securities dealers on the Committee.

The Nominating Committee would solicit public recommendations for nominees to the Board for a period of 60 days. Thereafter, the Nominating Committee would nominate three persons for each Board position to be filled. In making such nominations, the Nominating Committee would be required to give consideration to the need to maintain broad geographic representation on the Board, as well as diversity in the size and type of municipal securities brokers and municipal securities dealers represented. The nominations to the Board would be confidential. The Board would elect from the slate of nominees submitted by the Nominating Committee one person for each of the Board positions to be filled, giving consideration to the need for broad geographic representation on the Board as well as diversity in size and type of municipal securities brokers and municipal securities dealers represented.

Rule A-3(d) presently prohibits any member of the Board from succeeding himself or herself in office. The proposed rule changes would also prohibit a broker-dealer representative or bank representative from being succeeded in office by any person associated with the municipal securities broker or municipal securities dealer with which the Board member was associated at the time of expiration of his or her term.

STATEMENT OF BASIS AND PURPOSE

Purpose of Proposed Rule Changes. The purpose of the proposed rule changes is to provide a procedure for the nomination and election of successor members of the Board. In adopting the proposed rule changes, the Board sought to achieve four goals: to provide equal representation on the Board by bank dealers, securities firms and public members, as mandated by the Act and set forth in existing rule A-3(d), within the framework of staggered terms of office; to assure broad diversity in geographical background and sized and type of banks and firms represented on the Board; to establish a fair and workable procedure for the nomination and election of successor members of the Board; and to tailor a suitably deliberative framework for the nomination and election of successor members of the Board. The Board believes that the proposed rule changes provide a procedure for the nomination and election of successor Board members which will take into account the views and recommendations of all sectors of the municipal securities industry and of the public at large in as fair a manner as possible, recognizing that the Board is not a membership corporation.

Basis Under the Act for Proposed Rule Changes. The Board has adopted the proposed rule changes pursuant to section 15B(b)(2)(B) of the Act which directs the Board to establish fair procedures for the nomination and election of members of the Board and assure fair representation in such nominations and elections of municipal securities brokers and municipal securities dealers. Such rules shall provide that the membership of the Board shall at all times be equally divided among public representatives, broker-dealer representatives, and bank representatives, and that the public representatives shall be subject to approval by the Commission to assure that no one of them is associated with any broker, dealer, or municipal securities dealer and that at least one is representative of investors in municipal securities and at least one is representative of issuers of municipal securities. Such rules shall also specify the term members shall serve and may increase the number of members which shall constitute the whole Board provided that such number is an odd number.

The proposed rule changes were also adopted pursuant to section 15B(b)(2)(I) of the Act which authorizes and directs the Board to adopt rules providing for the operation and administration of the Board.

Comments Received from Members, Participants or Others on Proposed Rule Changes. On November 23, 1976, the Board issued an exposure draft of the proposed rule changes and solicited comments thereon. The Board received letters of comment from the following persons:

Bank of America N.T.&S.A., National Association of Securities Dealers, Inc. ("NASD"), Shearson Hayden Stone Inc. ("Shearson"), State Farm Mutual Automobile Insurance Company ("State Farm"), Wauterlek & Brown, Inc. ("Wauterlek & Brown").

Both the Bank of America and the NASD suggested that the Board examine procedures utilized by other self-regulatory organizations to determine whether additional industry participation could be achieved in the selection of Board members. In accordance with these suggestions, the Board considered the possibility of providing for a petitioning procedure similar to that of the NASD in which generally each member firm and branch office of supervisory jurisdiction in a district is given one vote for petitioning purposes. However, given the special characteristics of the Board, including the fact that it is not a membership corporation, the Board has concluded that the procedures incorporated in the proposed rule changes will result in the most equitable and administratively feasible selection of Board members possible under the circumstances.

The fact that the Board is not a membership corporation is significant in several respects pertinent to the matter of elections. Thus, the Board's constituency is much more difficult to define than that of the NASD and the proper weight to assign to each segment of the constituency more difficult to determine. One possibility would be to assign one vote to each securities firm and bank dealer that had paid the Board's initial fee. Under this system, however, disproportionate representation would be given to the more numerous small firms. In addition, firms that paid the Board's initial fee but have ceased doing a municipal securities business would nonetheless be entitled to vote. Alternatively, voting weight could be scaled to the total dollar amount of municipal securities underwritten by each firm and bank dealer during the prior year. To do so, however, would exclude the sizeable number of firms and bank dealers that do not participate in underwriting activity.

All of the possible methods of assigning voting weight to achieve an equitable allocation in a nonmembership context appear to present severe administrative problems, involving substantial financial cost to the Board and therefore the industry and onerous reporting requirements. The Board questions whether any of these burdens can be justified when weighed against the possible benefits to be obtained, particularly in light of the strict requirments set forth in the proposed rule changes that broad representation be achieved both in the nominating process and on the Board. In addition, the Board understands that the NASD's petitioning procedure has been used on not more than two occasions in the more than 35 years it has been in effect, a fact which underscores the disparity, for the Board's purposes, between the difficulties and costs in establishing a similar procedure as against the benefits to be realized.

One final and critical factor in the Board's consideration of possible election procedures was the need to achieve broad representation on the Board, not only according to the categories specified in the Act—securities firm representatives, bank dealers and public members—but also with respect to geography, and size and type of firm. The Board believes that these criteria can best be met by the more direct and flexible selection procedures of a representative nominating committee than by an at-large election.

The Board notes that aside from the comments discussed above, no municipal securities broker or municipal securities dealer has questioned the fairness or appropriateness of the election procedures set forth in the proposed rule changes.

On another point, the NASD suggested that the final slate of nominees be circulated for review and comment by the industry and general public. The Board concluded, however, that such a procedure would be counterproductive for several reasons. First, the Board expects the Nominating Committee to engage in such investigation of a nominee's background and qualifications as may be necessary to demonstrate his or her capabilities and eligibility for Board membership and that therefore there would be little benefit to be gained in this respect from public review of the nominees. Second, public circulation of the names of nominees would tend to emphasize nominees' political popularity instead of their capabilities and would tend to favor individuals from large financial centers or with well-known firms. Finally, the Board believes that the most capable individuals would be reluctant to enter a three-way contest which carried with it the possibility of being identified thereafter as a person not elected to the Board.

The NASD suggested that a prohibition be added against individuals from the same organization succeeding each other on the Board. The proposed rule changes incorporate this suggestion.

The NASD also suggested that at least one Board member be required to be a representative of "small" municipal securities brokers and municipal securities dealers. The Board concluded that it was unnecessary to make such provision in view of the requirements of the proposed rule that both the Nominating Committee and the Board give consideration in selecting new Board members to the size and type of municipal securities brokers and municipal securities dealers represented on the Boad. The Board also believed it would be inappropriate to require representation of any one size or type of firm without doing so for all sizes and types.

Both the NASD and Wauterlek & Brown suggested that the proposed rule provide for broader publication of the request for recommended nominees. The NASD suggested publication in two financial journals instead of one and Wauterlek & Brown suggested that the notice be sent to the Board's mailing list. The Board anticipates assuring wide distribution of the notice, including distribution to the Board's mailing list, and did not deem it necessary to incorporate more specific requirements in the text of the rule.

State Farm recommended that the Board require at least one member of the Board and Nominating Committee to be a representative of the property and liability insurance industry. In view of the requirement of the Act that at least one Board members be representative of investors in municipal securities and the requirement in the proposed rule changes that the public be represented on the Nominating Committee, the Board believed it would be inappropriate to incorporate more specific language on this point in the rule.

Burden on Competition. The proposed rule changes do not affect the conduct of business by any broker, dealer or municipal securities dealer, and the Board has therefore concluded that the proposed rule changes do not impose any burden on competition.

On or before March 3, 1977 or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submission should file 6 copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted on or before February 17 1977.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

JANUARY 21, 1977.

The text of the proposed rule is as follows:

A-3(d) *Nomination and Election of Members.*[1]

(i) Except for the initial members of the Board, members shall be nominated and elected in accordance with *the* procedures specified *by this rule.* [of the Board. The public representatives on the Board shall, prior to their assumption of office, be subject to approval by the Commission to assure that no one of them is associated with any broker, dealer or municipal securities dealer and that at least one is representative of investors in municipal securities and at least one is representative of issuers of municipal securities.] The members of the Board elected to succeed the initial members shall consist of five of the initial members who shall serve for a succeeding term of one year, five of the initial members who shall serve for a succeeding term of two years, and five individuals who are not initial members, who shall serve for a term of three years; provided, however, that each such category of initial members shall include at least one public representative, one broker-dealer representative and one bank representative. Subsequent to such first election of members, all members of the Board shall be elected for terms of three years, so that the terms of office of one-third of the whole Board shall expire each year. Except for the succeeding terms for initial members as hereinbefore provided, no member of the Board may succeed himself in office *and no broker-dealer representative or bank representative may be succeeded in office by any person associated with the municipal securities broker or municipal securities dealer with which such member was associated at the expiration of his term.*

(ii) Not later than March 15, 1977, the chairman of the Board shall announce the names of five initial members of the Board whose membership on the Board will terminate on September 4, 1977, and shall nominate, after consultation with the other members of the Board, five initial members to serve for a succeeding term to expire September 4, 1978, and five initial members to serve for a succeeding term to expire September 4, 1979. Each such category of initial members shall include at least one but no more than two public representatives, broker-dealer representatives and bank representatives.

(iii) In each year, prior to March 15, 1977 and prior to February 15 of each year thereafter, the Board shall appoint a Nominating Committee composed of eleven members. The membership of the Nominating Committee shall consist of the five members of the Board whose terms expire during such year and six persons who are not members of the Board, two of whom shall be associated with and representative of bank dealers, two of whom shall be associated with and representative of municipal securities brokers and municipal securities dealers other than bank

[1] *Italics* in paragraph (i) indicate additions; brackets indicate deletions. The text of paragraphs (ii) through (vii) is new.

dealers, and two of whom shall not be associated with any broker, dealer, or municipal securities dealer. In appointing persons to serve on the Nominating Committee, the Board shall take into consideration such factors as the need to achieve broad geographic representation on such Committee, as well as diversity in the size and type of municipal securities brokers and municipal securities dealers represented on such Committee.

(iv) Not later than April 15, 1977 and March 15 of each year thereafter, the Nominating Committee shall publish a notice in a financial journal having general national circulation among members of the municipal securities industry, soliciting public recommendations for nomination for the positions on the Board to be filled in such year. Such notice shall require that recommendations be accompanied by a statement of the position for which the person is recommended, the background and qualifications for membership on the Board of the person recommended and information concerning such person's association with any broker, dealer or municipal securities dealer. The Nominating Committee shall accept recommendations pursuant to such notice for a period of at least 60 days. Any interested member of the public, whether or not associated with a municipal securities broker or municipal securities dealer, may submit recommendations to the Nominating Committee. The names of all persons recommended to the Nominating Committee shall be made available to the public upon request.

(v) Not later than July 15, 1977 and June 15 of each year thereafter, the Nominating Committee shall nominate three persons for each of the Board positions to be filled and shall submit such nominations to the Board. In making such nominations, the Nominating Committee shall take into consideration such factors as the need to maintain broad geographic representation on the Board, as well as diversity in the size and type of municipal securities brokers and municipal securities dealers represented. Each nomination shall be accompanied by a statement indicating the position for which such person is nominated, the nominee's qualifications to serve as a member of the Board, and information concerning the nominee's association with any broker, dealer, or municipal securities dealer. The names of the nominees will be confidential.

(vi) The Board will elect the ten initial members of the Board nominated in accordance with paragraph (d)(ii) of this rule for the terms for which they are nominated and shall elect from the slate of nominees submitted by the Nominating Committee one person for each of the other Board positions to be filled, taking into consideration such factors as the need to maintain broad geographic representation on the Board, as well as diversity in the size and type of municipal securities brokers and municipal securities dealers represented. Newly elected members of the Board will assume office on September 5 in the year in which they are elected.

(vii) The public representatives on the Board will, prior to their assumption of office, be subject to approval by the Commission to assure that no one of them is associated with any broker, dealer or municipal securities dealer and that at least one is representative of investors in municipal securities and at least one is representative of issuers of municipal securities.

NATIONAL MARKET ADVISORY BOARD

Meeting

This is to give notice, pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. 1 10(a); that the National Market Advisory Board will conduct open meetings on February 14 and 15, 1977 in the Basement Auditorium, United California Bank, 707 Wilshire Boulevard, Los Angeles, California. Initial notice of this meeting was published in the FEDERAL REGISTER on December 28, 1976.

The Board will also conduct open meetings on March 14 and 15, and April 18 and 19, 1977, in Room 776, 500 North Capitol Street, Washington, D.C. The summarized agenda for these meetings will be published in the FEDERAL REGISTER at a later date.

The summarized agenda for the Februrary meeting is as follows:

1. Discussion of the Board's report to the Securities and Exchange Commission regarding restrictions on off-board transactions in listed securities by exchange members.
2. Discussion of possible pilot projects relevant to issues considered, or to be considered, by the Board.
3. Discussion of future agenda of the Board and enumeration of topics which should be further considered prior to September, 1977.
4. Discussion of such other matters as may properly be brought before the Board.

Further information may be obtained by writing Martin L. Budd, Executive Director, National Market Advisory Board Staff, Securities and Exchange Commission, Washington, D.C. 20549.

GEORGE A. FITZSIMMONS,
Secretary.

[Application No. 06/06-5183]

FIRST VALLEY LTD.

Application for a License To Operate as a Small Business Investment Company

An application for a license to operate as a small business investment company under section 301(d) of the Small Business Investment Act of 1958, as amended (Act) (15 U.S.C. 661 et seq.) has been filed by First Valley Limited (Applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1976).

The officers, directors and stockholders are as follows:

Manuel A. Ferran, President, General Manager, Director and 6.6% Stockholder, 435 Amherst Drive, NE, Albuquerque, New Mexico 87107.

Lenton Malry, Vice President, Director and 6.6% Stockholder, 3000 Sandta Clara, SE, Albuquerque, New Mexico 87106.

Sosimo Padilla, Treasurer and Director, 3920 Las Vegas Drive, SW, Albuquerque, New Mexico 87105.

Larry L. Lamb, Secretary, Director and 6.7% Stockholder, 4804 Ridgecrest Circle, SE, Albuquerque, New Mexico 87108.

Bernard P. Metzgar, Director and 6.6% Stockholder, 9508 Parsifal Place, NE, Albuquerque, New Mexico 87111.

Wilfred J. Brandiwine, 60% Stockholder, 1423 South Club, Carlsbad, New Mexico 88220.

Farrell L. Lines, 6.6% Stockholder, 13201 Cedar Brook, NE, Albuquerque, New Mexico 87111.

The Applicant, a New Mexico Corporation, will be located at 1900 Bridge Boulevard, S.W., Albuquerque, New Mexico 87105.

It will begin operations with $500,000 of paid-in capital and paid-in surplus derived from the sale of 5,000 shares of common stock to seven individuals.

The Applicant will not concentrate its investments in any particular industry. As a small business investment company under section 301(d) of the Act, the Applicant has been organized and chartered solely for the purpose of performing the functions and conducting the activities contemplated under the Act, as amended from time to time, and will provide assistance solely to small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose

participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the Applicant include the general business reputation and character of the proposed owners and management and the probability of successful operations of the Applicant under this management, including adequate profitability and financial soundness, in accordance with the Act and SBA rules and regulations.

Any person may, not later than February 11, 1977, submit to SBA written comments on the proposed Applicant. Any such communication should be addressed to the Deputy Associate Administrator, 1441 L Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Albuquerque, New Mexico.

(Catalog of Federal Domestic Assistance Program No. 59.011, Small Business Investment Companies.)

Dated: January 19, 1977.

PETER F. MCNEISH,
Deputy Associate Administrator for Investment.

OFFICE OF THE SPECIAL REPRESENTATIVE FOR TRADE NEGOTIATIONS

CERTAIN ALLOY TOOL STEEL QUANTITATIVE LIMITATIONS

Reallocation

By Proclamation 4445 of June 11, 1976 (41 FR 24101, June 15, 1976), as modified by Proclamation 4477 of November 16, 1976 (41 FR 50969), temporary quantitative limitations were placed on the importation into the United States of certain articles of stainless or alloy tool steel. Pursuant to paragraph (6) of Proclamation 4445, the authority to make changes in the quantitative restrictions provided for by Proclamation 4445, as modified, is delegated to the Special Representative for Trade Negotiations. Pursuant to subparagraph (d) of headnote 2, subpart A, part 2 of the Appendix to the Tariff Schedules of the United States (TSUS), the Special Representative may allocate or reallocate a specific quota quantity to any country or instrumentality subject to restriction if he determines that it is necessary or appropriate to do so in order to assure equitable treatment.

In order to provide equitable treatment for Austria regarding the importation of certain alloy tool steel, I have determined that it is appropriate to provide a separate quota quantity for Austria for the restraint periods beginning June 14, 1977 and June 14, 1978 for alloy tool steel of the type provided for in item 923.26, subpart A, part 2 of the Appendix to the TSUS.

Accordingly, pursuant to paragraph (6) of Proclamation 4445, of June 11, 1976, and subparagraph (d) of headnote 2, subpart A, part 2 of the Appendix to the TSUS, item 923.26 is hereby modified as follows:

[In short tons]

Item	Articles	Quota quantity effective on or after—		
		June 14, 1976	June 14, 1977	June 14, 1978
	Alloy tool steel of the types provided for in items 608.52, 608.76, 608.78, 608.85, 608.88, 609.06, 609.07, and 609.08:			
923.26	Other (see headnote 2(a)(iii)):			
	Japan	3,500	3,700	3,800
	European Economic Community	3,400	3,500	3,600
	Canada	1,900	2,000	2,000
	Sweden	8,500	8,600	8,700
	Austria (for the periods beginning on or after June 14, 1977)	.....	2,322	2,385
	Other:			
	Countries (including Austria for the period ending June 13, 1977) entitled to the rate of duty column No. 1 (total)	3,600	1,378	1,415
	Other (total)	6	6	6

This modification will be effective January 27, 1977.

Signed: January 19, 1977.

FREDERICK B. DENT,
Special Representative for Trade Negotiations.

DEPARTMENT OF STATE

[Public Notice CM-7/22]

UNITED STATES ADVISORY COMMISSION ON INTERNATIONAL EDUCATIONAL AND CULTURAL AFFAIRS

Meeting

The U.S. Advisory Commission on International Educational and Cultural Affairs will meet in open session in Ottawa, Canada, on February 18 and 19 from approximately 9:00 a.m. until 5:00 p.m.

On February 18 the Commission will meet with Canadian government and university officials to discuss ways in which international educational and cultural exchange programs can contribute to improved relations between Canada and the United States. The Canadian government will determine the sites for the meetings.

On February 19 from 9:00 a.m. until 12:00 noon, the Commission will meet in the American Embassy, 100 Wellington Street. There will be one item on the agenda: A general discussion of the Commission's activities in 1977.

Anyone wishing to attend any part of these sessions must advise the Staff Director no later than February 14, 1977. Telephone: (202) 632-2764. Members of the public will be accommodated according to the space available.

Dated: January 18, 1977.

W. H. WELD, Jr.,
Staff Director, Commission Secretariat.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[FRA Docket No. EP-1, Notice 1]

PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS

Notice of Proposed Procedures

The Federal Railroad Administration (FRA) is in the process of developing specific implementing instructions which

incorporate the general procedures established by the Secretary of Transportation in DOT Order 5610.1B, "Procedures for Considering Environmental Impacts" (39 FR 35234). These instructions will be issued as an internal FRA Order, and will establish procedures and define the responsibilities of individual offices within FRA for insuring full consideration of the environmental impacts of all major Federal actions undertaken by this agency in compliance with the National Environmental Policy Act (42 U.S.C. 4321 et seq.), the Department of Transportation Act (49 U.S.C. 1651 et seq.), and various other environmental statutes and administrative procedures cited in the proposed Order.

The proposed procedures include the identification of specific programs under the jurisdiction of the FRA within which individual actions are to be considered "major Federal actions" which must be subjected to an environmental assessment to determine their specific environmental effects. This assessment will provide the basis for a determination as to the appropriateness of a negative declaration or the necessity for the preparation of an environmental impact statement in compliance with NEPA. Instructions for the preparation of either a negative declaration or an environmental impact statement include guidelines as to their form and content as well as specific assignment of responsibility for the various aspects of the environmental process to appropriate offices within FRA. In addition, staff responsibilities are also assigned to assure that there will be the opportunity for open citizen involvement in the environmental analysis of all major FRA actions which will significantly affect the quality of the human environment.

These proposed procedures are being published for public comment in compliance with the guidelines of the Council on Environmental Quality (40 CFR Part 1500), and the provisions of paragraph 4a of DOT Order 5610.1B, "Procedures for Considering Environmental Impacts". Interested persons are invited to participate by submitting written comments on the proposed procedures. Communications should identify the FRA docket number, and should be submitted to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW, Washington, D.C. 20590.

Communications received before March 14, 1977, will be considered before these procedures are finalized.

All comments received will be available for examination by interested persons at any time during regular working hours in Room 5101, Nassif Building, 400 Seventh Street, SW, Washington, D.C. 20590.

In consideration of the foregoing, the following "Procedures for Considering Environmental Impacts" are proposed to read as stated below.

This notice is issued under authority of the National Environmental Policy Act, 42 U.S.C. 4321 et seq; Executive Order 11514, 35 FR 4247; Council on Environmental Quality Guidelines 40 CFR 1500, and DOT Order 5610.1B.

Issued in Washington, D.C. on January 19, 1977.

ASAPH H. HALL,
Administrator.

PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS

1. *Purpose.* This Order establishes procedures for the consideration, preparation, and processing of environmental impact statements and related documents for FRA actions.

2. *Authority.* This Order implements DOT Order 5610.1B, dated September 30, 1974 and provides instructions for implementing section 102(2)(C) of the National Environmental Policy Act (hereinafter "NEPA"), section 4(f) of the Department of Transportation Act of 1966 (45 U.S.C. 1653(f), hereinafter "the DOT Act"), section 309 of the Clean Air Act of 1970, as amended (42 U.S.C. 1857 et seq., hereinafter "the Clean Air Act"), section 106 of the National Historic Preservation Act of 1966 (16 U.S.C. 470(f), hereinafter "the Historic Preservation Act"), sections 303 and 307 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.), section 2 of the Fish and Wildlife Coordination Act (16 U.S.C. 662), and various Executive Orders relating to environmental impacts.

3. *Background*—(a) *The National Environmental Policy Act (NEPA)* establishes a broad national policy to promote efforts to improve the relationship between people and their environment and provides for the creation of the Council on Environmental Quality (SEQ). NEPA sets out certain policies and goals concerning the environment, and requires that, to the fullest extent possible, the policies, regulations, and public laws of the U.S. shall be interpreted and administered in accordance with those policies and goals.

(b) *Section 102 of NEPA* is designed to ensure that environmental considerations are given careful attention and appropriate weight in all decisions of the Federal Government. Section 102(2)(C) requires that all agencies of the Federal Government shall:

> Include in every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed statement by the responsible official on—
>
> (i) The environmental impact of the proposed action,
>
> (ii) Any adverse environmental effects which cannot be avoided should the proposal be implemented,
>
> (iii) Alternatives to the proposed action,
>
> (iv) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and
>
> (v) Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.
>
> Prior to making any detailed statement, the responsible Federal official shall consult with and obtain the comments of any Federal agency which has jurisdiction by law or special expertise with respect to any environmental impact involved. Copies of such statement and the comments and views of the appropriate Federal, State, and local agencies, which are authorized to develop and enforce environmental standards, shall be made available to the President, to the Council on Environmental Quality and to the public as provided by Section 552 of Title 5, United States Code, and shall accompany the proposal through the existing agency review processes.

(c) *Section 102(2)(A) of NEPA* requires all agencies to "utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and decision making which may have an impact on man's environment * * *."

(d) *Guidelines from the President's Council on Environmental Quality*, published in 38 FR 20549, 40 CFR 1500 et seq., August 1, 1973, provides guidance to agencies for preparation of environmental impact statements.

(e) *DOT Order 5610.1B*, Procedures for Considering Environmental Impacts, published in 39 FR 35234, September 30, 1974, establishes general procedures to be employed by the Department of Transportation, and directs that each operating administration in the Department issue implementing instructions which incorporate the general procedures of the Order and apply them with more specificity to the programs of the operating administration.

(f) *Section 4(f) of the DOT Act* states, "It is hereby declared to be the national policy that special effort should be made to preserve the natural beauty of the countryside and public park and recreational lands, wildlife and waterfowl refuges, and historic sites. The Secretary * * * shall not approve any program or project which requires the use of any publicly owned land from a public park, recreation area, or wildlife and waterfowl refuge of national, State, or local significance as determined by the Federal, State, or local officials having jurisdiction thereof, or any land from an historic site of national, State, or local significance as so determined by such officials unless (1) there is no feasible and prudent alternative to the use of such land, and (2) such program includes all possible planning to minimize harm to such park, recreational area, wildlife and waterfowl refuge, or historic site resulting from such use."

(g) *Section 106 of the National Historic Preservation Act* requires the head of any Federal agency having jurisdiction over a Federal or federally-assisted undertaking to take into account, prior to approving the undertaking, its effect on any district, site, building, structure, or object that is included in the National Register of Historic Places, and to give the Advisory Council on Historic Preservation a reasonable opportunity to comment on the proposed undertaking.

For additional background, refer to paragraph 2, "Background" of DOT Order 5610.1B, "Procedures for Considering Environmental Impacts."

4. *Definitions*—(a) *Environmental Assessment.* This is an administrative record which describes the probable impact of the proposed action on the quality of the human environment. This record is used to determine the significance of the environmental impact of the proposed action, and the need for the preparation of a negative declaration or an environmental impact statement.

(b) *Environmental Impact Statement.* This is a report required by section 102(2)(C) of the NEPA to accompany a proposal for any major Federal action which significantly affects the human environment through the review process.

(c) *Negative Declaration.* This is a report which is required to be prepared to accompany a proposal for any major Federal action which does not significantly affect the quality of the human environment through the review process.

(d) *4(f) Determination.* This is a document which must be prepared with respect to any program or project which requires the use of any land from any public park, recreation area, wildlife and waterfowl refuge, or historic site of national, State, or local significance as determined by the Federal, State or local officials having jurisdiction thereof. The determination must document that (1) there is no feasible and prudent alternative to the use of such land, and (2) such program or project includes all possibe planning to minimize harm resulting from such use.

(e) *Major Federal Action Significantly Affecting the Quality of the Human Environment.* The following actions are to be considered major Federal actions significantly affecting the quality of the human environment:

(1) Any action producing an effect that is not minimal on properties protected under section 4(f) of the DOT Act, or section 106 of the Historic Preservation Act;

(2) Any action that is likely to be highly controversial on environmental grounds;

(3) Any action that is likely to have a significant adverse impact on natural, ecological, cultural, or scenic resources of national, State or local significance;

(4) Any action that is likely to be controversial regarding relocation housing;

(5) Any action that (A) divides or disrupts an established community or disrupts orderly, planned development or is inconsistent with plans or goals that have been adopted by the community in which the project is located; or (B) causes increased congestion;

(6) Any action that (A) is inconsistent with any Federal, State or local standard relating to the environment; or (B) has a significantly detrimental impact on air or water quality or on ambient noise levels for adjoining areas, or involves the possibility of contamination of public water supply system, or affects ground water, flooding, erosion, or sedimentation, or

(7) Other action that directly or indirectly significantly affects human beings by creating an adverse impact on the enviroment.

5. *Action Covered*—(a) *General.* An environmental assessment must be performed for all major FRA actions. Section 3.b of the DOT Order 5610 sets forth general categories of actions that require such an assessment, and section 3.c. sets forth those categories that do not require such an assessment. Section 3.c.(7) permits the operating administrations to exempt certain activities from the requirement of preparing an assessment.

(b) *Environmental Assessment Required.* Actions within the following categories are major FRA actions that will require environmental assessment to determine whether individual projects or classes of projects significantly affect the quality of the human environment and must therefore be the subject of an environmental impact statement:

(1) Demonstration projects:

(2) Financing (through redeemable preference shares and loan guarantees) of construction, rehabilitation or improvement of railroad facilities or equipment;

(3) Financing of capital expenditures (through grants and loan guarantees) for intercity rail passenger service;

(4) Financing (through grants) for the rehabilitation improvement or conversion of railroad passenger terminals;

(5) Financing (through grants) for rehabilitation and improvement projects requiring new rights-of-way in conjunction with the continuation of local rail freight service; and

(6) Construction activities undertaken in conjunction with the Northeast Corridor Rail Passenger Service Improvement Program (NECIP) other than those activities which do not involve, either by themselves or as integral components of larger projects, sufficiently serious effects to justify the costs of completing an Environmental Impact Statement.

(c) *Class of Actions.* A general class of actions may be covered by a single environmental assessment, negative declaration, or environmental impact statement when the environmental impacts of all the actions (and alternatives thereto) are substantially similar.

6. *Environmental Assessments*—(a) *Scope.* The environmental assessment should utilize an interdisciplinary approach in identifying the type, degree of effect, and probability of occurrence of primary, secondary and cumulative potential environmental impacts (positive and negative) of the proposed action and of alternative courses of action. The depth of coverage should be consistent with the magnitude of the project and its expected environmental effects.

(b) *Documentation.* Documents used as a basis for the assessment must be included in the program file to support the assessment, and to assist in the preparation of any subsequent documents required by this Order.

(c) *Timing.* The environmental impacts of a proposed action covered by this Order should be assessed concurrently with the initial technical and economic studies.

(d) *Staff Responsibilities.*—(1) Program Office.

(i) Determine, regarding each program action, the necessity for an environmental assessment.

(ii) Prepare the necessary environmental assessments for each program action that is subject to this Order.

(iii) Determine whether preparation of a negative declaration or environmental impact statement is appropriate for each of its program actions.

(2) Office of Policy and Program Development—RPD.

(i) Provide the program office with advice concerning the scope and content of an environmental assessment.

(3) Office of the Chief Counsel—RCC.

(i) Provide advice and assistance in interpreting and applying the requirements for an environmental assessment to program offices and RPD.

(ii) Review for legal sufficiency the program office's determination regarding the necessity for an environmental assessment.

(iii) Review for legal sufficiency each program office determination as to whether a negative declaration or an environmental impact statement should be prepared.

7. *Negative Declarations.* A negative declaration shall be prepared for all major actions which have been determined to have no significant environmental impact.

(a) *Coordination.* A negative declaration need not be coordinated outside the FRA, but must be made available to the public upon request.

(b) *4(f) Determination.* A 4(f) determination may be required even though a negative declaration is appropriate for a particular action. In this case the material set forth in section 11(b)(11) below shall be set forth in a separate document accompanying the negative declaration.

(c) *Staff Responsibility*—(1) Program Office.

(i) Prepare the negative declaration and necessary supporting documentation.

(ii) Decide whether a 4(f) determination is necessary, and if so, prepare the required documentation.

(2) Office of Policy and Program Development.

(i) Review for concurrence all negative declarations.

(ii) Review for concurrence all decisions concerning the need for a 4(f) determination and all 4(f) determinations prepared in conjunction with a negative declaration.

(iii) Maintain lists of negative declarations and proposed negative declarations.

(3) Office of the Chief Counsel.

(i) Review for legal sufficiency all negative declarations.

(ii) Review for legal sufficiency all 4(f) determinations prepared in conjunction with a negative declaration.

(4) Federal Railroad Administrator—ROA.

(i) Approve all negative declarations and associated 4(f) determinations.

8. *Form and Content of Negative Declarations.* All negative declarations shall be prepared in accordance with the format below. The negative declaration should include and identify clearly a description of the project, action or proposal, and sufficient data and environmental findings to support the conclusion as to the impact upon the quality of the human environment.

NEGATIVE DECLARATION FOR FEDERAL RAILROAD ADMINISTRATION PROJECT, ACTION OR PROPOSAL

The following project (action or proposal) has been reviewed and it has been determined that the project (action or proposal) will have no foreseeable significant impact upon the quality of the human environment.

(a) Description of project (action or proposal).

(b) Environmental data and analysis.

(c) Conclusion.

Date

Signature of Originator of Negative Declaration

9. *Citizen Involvement Procedures*—(a) *Timing.* After it has been determined that an environmental impact statement is required for a particular FRA action, citizen involvement in the environmental analysis is encouraged and should be sought as early as possible.

(b) *Staff Responsibilities*—(1) Program Office.

(i) Implement citizen involvement procedures, including development of mailing lists of parties interested in each of its programs.

(ii) Notify parties interested in a program of the decision to prepare an environmental impact statement and solicit their comments on the environmental effects of the proposed program action at an early stage in the preparation of the draft impact statement.

(2) Office of Policy and Program Development.

(i) Provide advice and assistance to program offices in applying citizen involvement procedures.

(ii) Maintain a list of actions for which negative declarations or environmental impact statements are being prepared by FRA and submit a current list of these actions to the Assistant Secretary for Environment, Safety and Consumer Affairs (TES) and CEQ not less than quarterly. This list shall be available to the public upon request.

(3) Office of the Chief Counsel.

(i) Determine whether or not a hearing is required or appropriate with respect to FRA actions, and provide legal counsel at such hearings as necessary.

10. *Environmental Impact Statements*—(a) *Timing.* (1) Draft statements shall be prepared early enough in the development of a project so that analysis of the environmental effects and exploration of alternatives to the proposed action are significant inputs to the decision making process.

(2) A time period for comments on the draft statement must be specified. This period may not be less than 45 days from the date of the Federal Register notice of availability of the statement that is published by CEQ. Requests for extensions of the period for comment shall be granted whenever possible.

(3) For actions involving a public hearing, the draft statement must be made available to the public at least 30 days prior to the hearing.

(4) (i) A draft environmental impact statement must be available to Federal, State, and local agencies and to the public at least 90 days prior to any major administrative action on a proposal or project.

(ii) A final enviromnnatel73 god nigh

(ii) A final environmental impact statement must be made available to those who commented on the draft and to the public at least 30 days prior to any major administrative action on a proposal or project.

(iii) If the final environmental impact statement is filed with CEQ within 90 days after a draft statement has been circulated for comment, furnished to the CEQ and made public pursuant to this section, the 30-day period provided for in subsection (a)(4)(ii) of this section and the 90-day period may run concurrently.

(iv) Exceptions to these time periods may be made for emergency procurement or when advance public disclosure will result in significant added costs of procurement to the Government.

(b) *Staff Responsibility*—(1) Program Office.

(i) Coordinate all communications with an applicant or prospective applicant concerning environmental matters covered by this Order.

(ii) Prepare the draft environmental impact statement for each of its program actions.

(iii) Decide whether a 4(f) determination is necessary, and if so, prepare the required documentation.

(iv) In consultation with RPD, prepare lists of agencies having jurisdiction or special expertise and interested parties to whom the draft environmental impact statement should be distributed for comment.

(v) Review and analyze comments submitted in response to the draft statement and prepare final environmental impact statement.

(vi) Determine whether a change made in a proposed action after approval of the final statement is substantial, or new information regarding environmental impacts is significant.

(vii) Notify RPD and RCC of any substantial changes made in a proposed action after approval of a final statement, or of significant new information regarding the environmental impacts of the proposed action.

(viii) Assure, through internal supervision, funding agreements, and project review procedures, that any actions set forth in an approved environmental impact statement to minimize adverse impacts are carried out.

(2) Office of Policy and Program Development.

(i) Review for concurrence decisions to prepare an environmental impact statement.

(ii) Review for concurrence all decisions concerning the need for a 4(f) determination and all 4(f) determinations prepared in conjunction with an environmental impact statement.

(iii) Circulate the draft statement for comment to agencies and interested parties identified in cooperation with the program office, to CEQ (five copies, and to TES (two copies).

(iv) Review for concurrence all final statements.

(v) Provide TES two copies of the final statement and copies of all comments submitted on the draft, and coordinate TES concurrence.

(vi) Provide for required distribution of final statement: CEQ (five copies); appropriate State, regional, and metropolitan clearinghouses; appropriate public places such as local public libraries, FRA regional offices, offices of applicant or grantee; appropriate offices of EPA; all Federal, State and local agencies and private organizations who commented substantively on the draft statement; and individuals who request copies.

(vii) Consult with TES and CEQ on the need for, or desirability of, recirculating an amended statement when a substantial change is made in a proposed action after approval of the final statement, or significant new information regarding environmental impacts comes to light.

(3) Office of the Chief Counsel—RCC.

(i) Review for legal sufficiency the draft environmental impact statement.

(ii) Review for legal sufficiency the final environmental impact statement.

(iii) Review for legal sufficiency all 4(f) determinations prepared in conjunction with an environmental impact statement.

(iv) Review for legal sufficiency any deviation from action to minimize environmental impacts set forth in an approved final statement.

(4) Federal Railroad Administrator—ROA.

(i) Approve all draft and final environmental impact statements and 4(f) determinations originating in FRA, after concurrence of TES, TES concurrence may be assumed unless, within two weeks of receipt of a final statement, TES notifies FRA to the contrary.

(c) *Decisions reserved to the Secretary.* If an action requires the personal approval of the Secretary or Deputy Secretary pursuant to a request by either of them, TES, TGC, or FRA, the statement shall be accompanied by a brief cover memorandum from the Administrator requesting the Secretary's or Deputy Secretary's approval of the action.

(1) The memorandum shall have signature lines for the concurrence of the

Assistant Secretary for Environment, Safety, and Consumer Affairs, the General Counsel, and the Deputy Secretary and for the approval of the Secretary or Deputy Secretary.

(2) TES, in conjunction with the Executive Secretary, is responsible for informing the Assistant Secretary for Congressional and Intergovernmental Affairs and the departmental Office of Public Affairs of the Secretary's decisions so they, in coordination with the FRA, may take the appropriate actions.

11. *Form and Content of Environmental Impact Statement.* All environmental impact statements shall be prepared in accordance with the format below.

(a) *Form.* (1) Each statement will be headed as follows:

DEPARTMENT OF TRANSPORTATION

FEDERAL RAILROAD ADMINISTRATION

Draft (Final) Environmental Impact Statement pursuant to section 102(2)(C) (42 U.S.C. 4332 (2)(C).)

(2) The heading specified in paragraph (1) shall be modified to indicate that the statement also covers section 4(f) of the DOT Act and/or section 106 of the Historic Preservation Act, as appropriate.

(3) The format for the summary to accompany draft and final environmental statements is as follows:

SUMMARY

DEPARTMENT OF TRANSPORTATION

FEDERAL RAILROAD ADMINISTRATION

(check one) ( ) Draft ( ) Final

(name, address and telephone number of contact individual)

(i) Name of Action (check one) ( ) Administrative Action. ( ) Legislative action.

(ii) Brief description of action indicating what States (and counties) are particularly affected.

(iii) Summary of environmental impacts.

(iv) List of the alternatives considered, their environmental impacts.

(v)(A) (For draft statement) List all Federal, State, and local agencies and other parties from which comments have been requested.

(B) (For final statements) List all Federal, State and local agencies and other sources from which written comments have been received.

(vi) Dates the draft statement and the final statement if issued were made available to the Council on Environmental Quality and the public.

(b) *General Content.* This subsection is intended to provide guidance on the content of environmental statements. Additional guidance is expected to be obtained from research reports, guidance on methodology, and other technical material which is pertinent to evaluation of related environmental factors. The following points are to be covered, where relevant.

(1) A description of the proposed action, a statement of its purpose, the nature and extent of the FRA's involvement in the proposed action, and a description of the environment affected, including summary technical data, maps, diagrams, and other information adequate to permit commenting offices and the public to assess the potential environmental impacts.

(i) Highly technical and specialized analyses and data should be avoided in the body of the draft or final statement.

(ii) The sources of data used to identify, quantitfy, or evaluate any environmental consequence should be noted.

(2) The relationship of the proposed action to the adopted or proposed land use plans, policies, controls, and objectives issued by governments having jurisdiction over affected communities.

(3) The probable impact of the proposed action on the environment. This requires assessment of both the positive and the negative environmental effects, including primary, secondary and other foreseeable effects within the following areas:

(i) Standards Concerning Noise, Air and Water Pollution. The statement shall reflect sufficient analysis to predict the effects of the proposed action on attainment and maintenance of any applicable environmental standards established by law or administrative determination. The following documentation must be included:

(A) Consultation with the agency responsible for the State water pollution control program about consistency of the proposed action with standards and regulations regarding storm sewer damage, sedimentation control, and other non-point source discharges.

(B) The comments or determinations of the offices charged with administration of the State's implementation plan for air quality on the consistency of the project with State plans for the implementation of ambient air quality standards.

(C) Conformity to adopted noise standards, compatible, if appropriate, with different land uses.

(ii) Relocation Housing. Where relocation housing will be involved, information should be provided which discusses the availability of relocation housing (see requirements in 49 CFR 25.53; DOT 5620.1, Replacement Housing Policy, dated June 24, 1970).

(iii) Energy Supply and Natural Resources Development. Where applicable, the statement shall reflect consideration of whether the project or program will have any effect on either the production or consumption of energy and other natural resources and discuss such effects if they are significant.

(iv) Flood Hazard Evaluation. When an alternative under consideration encroaches on a flood plain, the statement shall include evidence that studies have been made and evidence that consultations with agencies with special expertise have been carried out. Necessary measures to handle flood hazard problems shall be described, in compliance with Executive Order 11296 and Flood Hazard Guidelines for Federal Executive Agencies promulgated by the Water Resources Council.

(v) Wetlands or Coastal Zones. Where wetlands or coastal zones are involved, the statement shall include:

(A) Information on location, types, and extent of wetlands areas which might be affected by the proposed action.

(B) An assessment of the impacts expected to result from both construction and operation of the project on the wetlands and associated wildlife, and measures to minimize adverse impacts.

(C) A statement by the appropriate representative of the Department of the Interior, and any other responsible officials with special expertise, setting forth their views on the impacts of the project on the wetlands, the worth of the particular wetlands areas involved to the community and to the nation, and recommendations as to whether the proposed action should proceed and, if applicable, along what alternative route or under what mitigating conditions.

(D) Where applicable, a discussion of how the proposed action relates to the State coastal zone management program for the particular State in which the project is located.

(vi) Construction Impacts. Statements should appropriately address such matters as the following, identifying any special problem areas:

(A) Noise impacts from construction and any specifications setting maximum noise levels.

(B) Disposal of spoil and effect on borrow areas and disposal sites (include any specifications).

(C) Measures to minimize effects on traffic and pedestrians.

(D) Consideration of non-point source pollution such as might result from water runoff.

(vii) Land Use and Urban Growth. The statement shall include, to the extent relevant and predictable:

(A) The effect of the proposed action on land use, development patterns, and urban growth.

(B) Where significant land use and development impacts are anticipated, identify public facilities needed to serve the new development and any problems or issues which would arise in connection with these facilities and the comments of agencies that would provide these facilities.

(4) Alternatives to the proposed action, including those not within the authority of the FRA. Section 102(2)(E) of NEPA requires the responsible agency to "study, develop, and describe appropriate alternatives to recommended courses of action in any proposal which involves unresolved conflicts concerning alternative uses of available resources".

(5) Any probable adverse environmental effect which cannot be avoided, such as water or air pollution, undesirable land use patterns, or impacts on public parks and recreation areas, wildlife and waterfowl refuges, or historic sites, damage to life systems, traffic congestion, threats to health, or other consequences adverse to the environmental goals set out in section 101(b) of NEPA, 42 U.S.C. 4331(b).

(6) The relationship beween local short-term uses of man's environment and the maintenance and enhancement of long-term productivity. This section shall contain a brief discussion of the extent to which the proposed action involves tradeoffs between short-term environmental gains at the expense of long-term losses, or vice versa, and a discussion of the extent to which the proposed action forecloses future options.

(7) Any irreversible and irretrievable commitments of resources that would be involved in the proposed action should it be implemented. This requires identification of unavoidable impacts and the extent to which the action irreversibly curtails the range or potential uses of the environment. "Resources" means not only the labor and materials devoted to an action but also the natural and cultural resources lost or destroyed.

(8) An indication of what other interests and considerations of Federal policy are thought to offset the adverse environmental effects of the proposed action. If a cost-benefit analysis has been performed, the extent to which environmental costs have been reflected in the analysis should be stated.

(9) A discussion of problems and objections raised by other Federal agencies, State and local entities and citizens in the review process, and the disposition of the issues involved and the reasons therefor. (This section may be added at the end of the review process to the final text of the environmental statement.)

(10) Underlying studies, reports, and other information obtained and considered in preparing each section of the statement should be identified.

(11) Publicly-Owned Parklands, Recreational Areas, Wildlife and Waterfowl Refuges, and Historic Sites (§ 4(f), DOT Act).

(i) Protected land proposed to be used. Describe any publicly owned land from a public park, recreation area or wildlife and waterfowl refuge or any land from an historic site which would be effected or taken by the proposed program or project, including the size of the land proposed to be affected or taken, available activities on the land, use, patronage, unique or irreplaceable qualities, relationship to other similarly used land in the vicinity of the proposed project, and maps, plans, slides, photographs, and drawings in sufficient scale and detail to show clearly the proposed project. Include a description of impacts of the proposed program or project on the land and changes in vehicular or pedestrian access.

(ii) Significant area. Include a statement of the national, State, or local significance of the entire park, recreation area, wildlife or waterfowl refuge, or historic site as determined by the Federal, State or local officials having jurisdiction thereof. In the absence of such a statement, protected land is presumed to be located in an area of national, State or local significance. Any statement of insignificance by the official having jurisdiction is reviewed by FRA to determine whether such statement is capricious. Where land proposed to be used is part of Federal lands administered for multiple uses, the Federal official having jurisdiction over the lands shall determine whether the lands are in fact being used for public park, recreation, wildlife, waterfowl, or historic purposes.

(iii) Alternatives. Where applicable include similar data for each alternative design or location. For each alternative, include detailed cost estimates (with figures showing percentage differences in total project costs), analysis of technical feasibility, analysis of any unique problems, and evidence that the monetary cost, resource consumption, community disruption, or other economic and social costs from the alternatives would reach extraordinary magnitudes.

(iv) Describe all planning undertaken to minimize harm to the protected area and state the actions taken or to be taken to implement this planning. Measures to minimize harm may include the following:

(A) Measures to maintain or enhance the natural beauty of the land used;

(B) Replacement of land and facilities, providing land or facilities, or providing for functional replacement of the facility; and

(C) Design measures to minimize harm; e.g., tunneling, cut and cover, cut and fill, treatment of embankments, planting, screening, maintenance of pedestrian or bicycle paths, and noise mitigation measures. Design measures should be proposed and selected with the assistance of appropriate interdisciplinary design personnel.

(v) Evidence of concurrence or description of efforts to obtain concurrence of Federal, State, or local officials having jurisdiction over the property regarding the action proposed and the measures planned to minimize harm.

(vi) If land acquired with Federal grant money (Department of Housing and Urban Development "open space" funds or Bureau of Outdoor Recreation "land and water conservation" funds) is involved, the final statement shall include evidence of concurrence or description of efforts to obtain concurrence of the grantor agency.

(vii) If Federal lands or interests in lands are involved in railroad-highway grade crossing or railroad-highway bridge projects, the final environmental statement shall include the results of the filing with the Secretary of the Department supervising such lands or interests as required by 23 U.S.C. 317.

(viii) The General Counsel (TGC) will determine application of section 4(f) to public interests in land, such as easements, reversions, etc.

(ix) A specific statement that there is no feasible and prudent alternative and that the proposal includes all possible planning to minimize harm to the "4(f) area" involved.

(12) Properties and Sites of Historic and Cultural Significance. The statement should document actions taken to preserve and enhance districts, sites, buildings, structures, and objects of historical, architectural, archeological, or cultural significance which would be affected by the proposed action.

(i) Draft environmental statements should include identification, through consulting the National Register and applying the National Register Criteria (36 CFR Part 800), of properties that are included in or eligible for inclusion in the National Register of Historic Places that may be affected by the project. The National Register is published in its entirety each February in the FEDERAL REGISTER. Monthly additions and listings of eligible properties are published in the FEDERAL REGISTER the first Tuesday of each month. The Secretary of the Interior will advise, upon request, whether properties are eligible for the National Register.

(ii) If application of the Advisory Council on Historic Preservation's (ACHP) Criteria of Effect (36 CFR Part 800) indicates that the proposed action will have an effect upon a property included in or eligible for inclusion in the National Register of Historic Places, the draft environmental statement should document the effect. Evaluation of the effect should be made in consultation with the State Historic Preservation Officer (SHPO) and in accordance with the ACHP's Criteria of Adverse Effect (36 CFR Part 800).

(iii) Determinations of no adverse effect should be documented in the draft statement with evidence of the application of the ACHP's Criteria of Adverse Effect, the views of the appropriate State Historic Preservation Officer, and any results obtained by submitting the determination to the ACHP for review.

(iv) If the project will have an adverse effect upon a property included in or eligible for inclusion in the National Register of Historic Places, the final environmental statement should include either an executed Memorandum of Agreement or comments from the Council after consideration of the project at a meeting of the ACHP and an account of actions to be taken in response to the comments of the ACHP. Procedures for obtaining a Memorandum of Agreement and the comments of the Council are found in 36 CFR Part 800.

(v) To determine whether the project will have an effect on properties of State or local historical, architectural, archaeological, or cultural significance not included in or eligible for inclusion in the National Register, the program office shall consult with the State Historic Preservation Officer, with the local official having jurisdiction of the property, and where appropriate, with historical societies, museums, or academic institutions having expertise about the property. If publicly owned land from a public park, recreation area, or wildlife and waterfowl refuge would be used, the information required under paragraph 11(b) of the body of this Order (see especially subparagraph 11.(b)(11)), should be sought concurrently.

APPENDIX A—PROCEDURES FOR CONSIDERING ENVIRONMENTAL IMPACTS NORTHEAST CORRIDOR PROJECT

1. *Purpose.* This Appendix establishes staff responsibilities for the coordination of consideration of environmental impacts resulting from major FRA actions undertaken by the Northeast Corridor Project ("NECP"). All provisions of this Order, except those relating to staff responsibilities, shall apply to the Northeast Corridor Rail Passenger Service Improvement Program ("NECIP") to the same extent as they apply to other FRA programs. For the purpose of this Appendix "project action" shall mean any NECP action taken pursant to Title VII of the RRRRA.

2. *Environmental Assessments.* Staff responsibilities.

(a) *Northeast Corridor Project—NECP.*

(1) Determine, regarding each project action, the necessity for an environmental assessment.

(2) Prepare the environmental assessments for each project action as determined necessary under subparagraph (1).

(3) Determine whether preparation of a negative declaration or environmental impact statement is appropriate for each of its project actions.

(b) *Office of the Chief Counsel—RCC.*

(1) Review for legal sufficiency each NECP determination under subparagraph (a)(1) that the preparation of an environmental assessment is not necessary.

(2) Advise NECP with respect to the legal sufficiency of its determination as to whether a negative declaration or an environmental impact statement should be prepared.

(c) *Office of Policy & Program Development—RPD.*

(1) Advise NECP regarding practices and procedures in making the determinations required under this section and in preparing environmental assessments.

3. *Negative Declarations.* Staff Responsibilities.

(a) *Northeast Corridor Project.*

(1) Prepare negative declarations and necessary supporting documentation.

(2) When necessary, prepare the documentation for a 4(f) determination.

(3) Approve all negative declarations and associated 4(f) determinations.

(b) *Office of the Chief Counsel.*

(1) Review for legal sufficiency all negative declarations and accompanying 4(f) statements.

(c) *Office of Policy & Program Development.*

(1) Advise NECP regarding practices and procedures in preparing negative declarations and associated 4(f) statements.

(2) Maintain lists of negative declarations and proposed negative declarations.

(d) *Federal Railroad Administrator.*

(1) Approve all negative declarations and associated 4(f) determinations for NECP project actions that NECP in its discretion determines (i) establish or change major project policy, or (ii) are likely to be highly controversial.

4. *Citizen Involvement Procedures.* Staff Responsibilities.

(a) *Northeast Corridor Project.*

(1) Implement citizen involvement procedures with respect to NECP project actions, including the development of mailing lists of interested parties.

(2) Notify interested parties of the decision to prepare an environmental impact statement and solicit their comments on the enevironmental effects of the proposed project action at an early stage in the preparation of the draft impact statement.

(3) Report to RPD monthly on the status of preparation of all negative declarations and environmental impact statements concerning NECIP project actions.

(4) Consult with RCC concerning the requirement or appropriateness of a hearing with respect to project actions.

(b) *Office of the Chief Counsel.*

(1) Determine with respect to NECP project actions whether or not a hearing is legally required, or advise NECP as to whether a hearing is appropriate, and provide legal counsel at such hearings as necessary.

(c) *Office of Policy & Program Development.*

(1) Provide advice and assistance to NECP program offices in applying citizen involvement procedures.

(2) Maintain lists of actions for which negative declarations or environmental impact statements are being prepared by NECP and submit a current list of these actions to TES and CEQ not less than quarterly. This list shall be available to the public upon request.

5. *Environmental Impact Statements.* Staff Responsibilities.

(a) *Northeast Corridor Project.*

(1) Coordinate all communications with an applicant or prospective applicant concerning environmental matters covered by this Order.

(2) Prepare draft environmental impact statements for project actions for which the preparation of an environmental impact statement is determined appropriate under section 2(a)(3) of this Appendix.

(3) In consultation with RCC prepare lists of agencies and interested parties to whom the draft environmental impact statement should be distributed for comment.

(4) Circulate the draft statement for comment to agencies and interested parties identified in the program list required to be prepared under subparagraph (3) above, and to CEQ (five copies), TES (two copies), and RPD (two copies).

(5) Review and analyze comments submitted in response to the draft statement and prepare the final environmental impact statement.

(6) Provide TES and RPD two copies of the final statement, and copies of all comments submitted on the draft, and coordinate TES concurrence.

(7) Provide for required distribution of final statement to CEQ (five copies), appropriate State, regional, and metropolitan clearinghouses; appropriate public places such as local public libraries, FRA regional offices, offices of applicant or grantee, appropriate offices of EPA, all Federal, State and local agencies, and private organizations who commented substantively on the draft statement, and individuals who request copies.

(8) Assure, through internal supervision, funding agreements and project review procedures, that any actions set forth in an approved environmental impact statement to minimize adverse impacts are carried out.

(9) Determine when a change made in a proposed action after approval of the final statement is substantial, or new information regarding environmental impacts is significant.

(10) Notify RCC of any substantial changes made in a proposed action after approval of a final statement, or of significant new information regarding the environmental impacts of the proposed action.

(11) Consult with TES, CEQ and RCC on the need for, or desirability of, recirculating an amended statement when a substantial change is made in a proposed action after approval of the final statement, or significant new information regarding environmental impacts comes to light after concurrence of TES.

(12) Approve all draft and final impact statements and 4(f) determinations for NECP project actions. Concurrence by TES may be assumed, unless TES, within two weeks of receipt of a final statement, notifies FRA to the contrary.

(b) *Office of the Chief Counsel.*

(1) Review for legal sufficiency all draft environmental impact statements.

(2) Review for legal sufficiency all final environmental impact statements.

(3) Review for legal sufficiency all 4(f) determinations.

(4) Review for legal sufficiency any deviation from actions to minimize environmental impacts set forth in an approved final statement.

(5) Review for legal sufficiency any NECP determination concerning whether a change made in a proposed action after approval of the final statement is substantial, or new information regarding environmental impacts is significant.

(6) Review for legal sufficiency any NECP determination regarding consultation with TES and CEQ concerning the need for, or desirability of, recirculating an amended statement when a substantial change is made in a proposed action after approval of the final statement, or significant new information regarding environmental impacts comes to light.

(7) Respond to Freedom of Information Act requests for access to, or copies of, draft or final statements and comments.

(c) *Office of Policy & Program Development.*

(1) Provide NECP with advice concerning practices and procedures applicable to the preparation and circulation of draft and final environmental impact statements.

(d) *Federal Railroad Administrator.*

(1) Approve, after concurrence of TES, all draft and final impact statements and 4(f) determinations for project actions which NECP in its discretion determines (i) establish or change major project policy, or (ii) are likely to be highly controversial. Concurrence by TES may be assumed, unless TES, within two weeks of receipt of a final statement, notifies FRA to the contrary.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX 77-2; Notice 1]

H. C. M. COMPANY, INC.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

H. C. M. Company, Inc. of Yakima, Washington, has petitioned for a 3-year exemption from 49 CFR 571.121 Motor Vehicle Safety Standard No. 121 Air Brake Systems, on the basis that compliance would cause it substantial economic hardship.

The petitioner is a manufacturer of "straddle trailers" which it defines as "a specialized agricultural commodity hauling trailer which features 'drive over' hydraulic lifting arms which suspend

the load for transit." H. C. M. manufactured eight straddle trailers in 1975 and "no other vehicles." The vehicles are equipped with air brake systems but, according to petitioner, "there are no manufacturers currently making components which can be adopted to these axles to achieve the requirements of Motor Vehicle Safety Standard 121 with regard to 'antiskid'." A mechanical spring parking brake could be added to achieve compliance but that "would cause over-width of the vehicle" which would mean it could be neither sold nor operated. Petitioner argues that the exemption would be in the public interest since fruit producers and haulers have found the trailer uniquely suitable to their needs. An exemption can be viewed as consistent with the objectives of the National Traffic and Motor Vehicle Safety Act since "the (current) air brakes have a safety record of 100 percent." The company had a net income of $16,250 in the fiscal year ending December 31, 1975. A denial would cause the demise of the company.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise or judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition for exemption of the H. C. M. Company, Inc. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent practicable. Notice of final action on the petition will be published in the FEDERAL REGISTER.

Comment closing date: February 22, 1977.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410), delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on January 17, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[FR Doc.77-2380 Filed 1-26-77;8:45 am]

[Docket No. IP75-2; Notice 2]

TOYOTA MOTOR SALES, USA INC.

Petition for Exemption From Notice and Recall for Inconsequential Noncompliance

This notice grants the petition by Toyota Motor Sales, USA Inc. (Toyota) to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 et seq.) for a noncompliance with 49 CFR 571.101, Federal Motor Vehicle Safety Standard No. 101, Control Location, Identification, and Illumination, on the basis that the noncompliance is inconsequential as it relates to motor vehicle safety.

Notice of the petition was published on November 26, 1975, (40 FR 54852) and an opportunity afforded for comment.

Toyota discovered that about 69,000 1974 Corona model vehicles were manufactured "without word identification on the headlamps, hazard warning signal, and washer-wiper controls" as required by S4.2 of Standard No. 101. The company believes that this "technical noncompliance" will have no effect upon motor vehicle safety as the controls in question "were identified by symbols on the controls and an explanation of the symbols appeared in the owner's manual."

Two comments were received on the petition. General Motors supported the petition "to the extent that the identification of vehicle controls solely by the use of symbols without accompanying word identification will have no effect on motor vehicle safety". The petition was opposed by Moray Leonard Fleming of Ringwood, New Jersey, owner of one of the affected Toyotas. In Mr. Fleming's opinion the hazard warning switch is poorly identified, both at its location in the vehicle and in the operator's manual. According to this Toyota owner "it was three months before I knew what the switch was for, or how to work it. I am still concerned that other drivers of my vehicle, or future owners, may not know what this switch is for".

The NHTSA considers that the symbols identifying the lighting and windshield wiper-wash controls are sufficiently clear to designate functions without verbal identification. The hazard warning signal control, however, has only been mandated on passenger cars since January 1, 1969, and its symbol, one triangle within another, allowed only since January 1, 1972. Mr. Fleming's comment was taken seriously as an indication that both the control and its symbol might still be unfamiliar to the motoring public. However, a review of the agency's consumer complaint files has turned up no complaints whatever regarding the hazard warning system control or its identification on the Toyota or on any other passenger car. Further, the agency recently proposed (41 FR 46460) that many controls be identified by symbols alone, with words simply as an optional supplement. The public comments filed with NHTSA support the proposal. Accordingly, it is hereby found that the noncompliance herein described is inconsequential as it relates to motor vehicle safety and the petition of Toyota Motor Sales, USA Inc. is hereby granted.

(Sec. 102, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8.)

Issued on January 17, 1977.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

[FR Doc.77-2381 Filed 1-26-77;8:45 am]

TRUCK AND BUS SAFETY SUBCOMMITTEES

Public Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Truck and Bus Safety Subcommittees of the National Highway Safety Advisory Committee and the National Motor Vehicle Safety Advisory Council. The subcommittees will meet on February 24 from 9:00 a.m. to 12:00 noon at the Granada Royale Hotel, 1635 N. Scottsdale Road, Tempe, Arizona.

The agenda will consist of the Task Force report on organization and discussion of future activities and old/new business.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meetings. Any member of the public may present a written statement to the subcommittees at any time.

This meeting is subject to the approval of the appropriate DOT officials.

Additional information may be obtained from the NHTSA Executive Secretary, Room 5215, 400 Seventh Street, S.W., Washington, D.C. 20590, telephone 202-426-2872.

Issued in Washington, D.C., on January 19, 1977.

WILLIAM H. MARSH,
Executive Secretary.

[Docket No. FE76-1; Notice 2]

AVERAGE FUEL ECONOMY STANDARDS FOR PASSENGER AUTOMOBILES FOR 1981-84 MODEL YEARS

Invitation for Applications for Financial Assistance to Rulemaking Participants

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Invitation for applications for financial assistance.

SUMMARY: This notice invites applications for financial assistance from parties who wish to participate in the rulemaking proceeding for the development of average fuel economy standards for passenger automobiles manufactured in model years 1981-84. The National Highway Traffic Safety Administration (NHTSA) may provide financial assistance to individuals or organizations which can effectively supplement the record of that proceeding but which are financially unable to participate.

DATES: DEADLINE FOR SUBMISSION OF APPLICATIONS: February 11, 1977.

ADDRESSES: SUBMIT APPLICATIONS TO: Administrator, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590. Applications should be clearly marked for the attention of the Director of the Office of Automotive Fuel Economy.

FOR FURTHER INFORMATION CONTACT:

Roger Fairchild, Office of Chief Counsel (N40-30), National Highway Traffic Safety Administration, 400 7th Street, S.W., Washington, D.C. 20590, (202-426-2993).

SUPPLEMENTARY INFORMATION: On January 13, 1977, the Department of Transportation (DOT), in conjunction with NHTSA, published a notice (41 FR 2863) establishing a demonstration program of one year duration for funding of individuals or organizations which desire to participate in designated NHTSA proceedings under the National Traffic and Motor Vehicle Safety Act of 1966, as amended, the Motor Vehicle Information and Cost Savings Act, as amended, and the Highway Safety Act of 1966, as amended.

Under regulations set forth in the notice for conducting the demonstration program, applications for assistance for participating in the proceeding are to be submitted in response to an invitation which will usually be published along with the initial FEDERAL REGISTER notice commencing the proceeding. Due to the limited funds available for the demonstration program, NHTSA will publish invitations primarily for those proceedings with the greatest potential impact on the general public. After the deadline specified in an invitation for submission of applications, all those applications submitted before the deadline will be evaluated by a panel of NHTSA and DOT officials to determine whether each applicant is eligible to receive funding under the regulations. In general, an applicant is deemed eligible if (1) it represents an interest the representation of which can reasonably be expected to contribute to a full and fair determination of the issues in the proceeding, (2) its participation is reasonably necessary to represent that interest, (3) it can competently represent that interest, and (4) it lacks sufficient financial resources to participate in the absence of such assistance. If more than one applicant representing the same or similar interest is deemed eligible, the panel either will select the applicant which can make the strongest presentation or, will select more than one applicant if the eligible applicants seek to present significantly different points of view or proposals. Compensation is available only for reasonable out-of-pocket expenses necessary to the applicant's participation. Payment is made as soon as possible after the selected applicant has completed its work and submitted a claim. Interested persons may obtain a copy of the regulations for the demonstration program from the person identified above as the contact for further information.

This notice initiates the above procedures with respect to the 1981-84 passenger automobile average fuel economy standards rulemaking proceeding. Section 502(a)(3) of the Motor Vehicle Information and Cost Savings Act provides for the issuance, by July 1, 1977, of average fuel economy standards for in each of the model years 1981 through 1984. These standards must be set at a level which is the maximum feasible average fuel economy level and which results in steady progress toward meeting the statutorily imposed 1985 standard of 27.5 miles per gallon. The Administrator commenced this proceeding on September 23, 1976, by publishing an ANPRM (41 FR 41713) soliciting certain specified technical and economic information relevant to establishing these standards.

Although the 1981-84 standards proceeding was initiated before the commencement of the financial assistance demonstration program, and notwithstanding the limited time remaining for development of useful, detailed comments, NHTSA deems it appropriate to solicit funding applications for this proceeding. The importance of these fuel economy standards to the general public requires the encouragement of public participation in the rulemaking proceeding.

These standards pose significant issues relating to energy conservation, the environment, vehicle safety, consumer preferences regarding vehicle size, design and performance, and the costs of acquiring, maintaining and operating vehicles. For example, if the entire passenger automobile fleet averaged 27.5 miles per gallon, the daily savings in gasoline consumption would be up to two million barrels compared to the gasoline that would be consumed if the average were that of the model year 1975 fleet. These savings would aid in the short run in lessening this country's dependence on foreign petroleum and thereby aid in solving the associated problems regarding international balance of payments and this country's vulnerability to future interruptions of its petroleum supply. The 1973-74 interruption significantly affected individual mobility and many aspects of the national economy. The standards may have an environmental impact of concern to many persons since reducing gasoline consumption will contribute to reducing the need for additional exploration, extraction, transportation, and refining of petroleum and other sources of hydrocarbon liquid fuels for motor vehicles.

One of the means of improving fuel economy, reducing vehicle weight, may increase the chance of occupant injury in motor vehicle accidents. Thus, one issue will be whether there will be any need for compensatory safety measures. Part of the effort to reduce vehicle weight will probably entail substituting light weight materials like aluminum and plastics. Such substitution raises questions regarding the effects of decreased demand for steel, the possibility of solid waste disposal problems associated with the increased use of plastics, and increased consumption of scarce natural resources.

In addition to changes in vehicle weight, the standards may also lead manufacturers to make changes in vehicle interior and exterior size, noise, and acceleration capability. The effect of the changes on the range of consumer choice and on the acceptability of new vehicles to consumers will be another issue.

Each application submitted pursuant to this notice should identify which of these or other issues the applicant proposes to address and the manner in which the applicant proposes to do so.

Applicants are urged to submit their applications by the deadline specified above. Under the regulations for the demonstration program, consideration of late applications is at the discretion of the panel of officials that will review the applications.

Issued on January 24, 1977.

JOHN W. SNOW,
Administrator.

[FR Doc.77-2737 Filed 1-26-77;8:45 am]

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions of each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety and that the granting of the relief will not be dangerous to the public interest.

Abbott, Gilbert S., Route 5, Box 347, Shelbyville, Kentucky, convicted on September 17, 1965, in the Tremble Circuit Court, Bedford, Kentucky.

Allen, Rodney D., Sr., Box 584, Cass Lake, Minnesota, convicted on November 13, 1972, in the Minnesota District Court, Ninth Judicial District, Cass County, Minnesota.

Barnett, Lonnie R., 4218 South Juneau, Seattle, Washington, convicted on July 2, 1968, in the Superior Court, Kings County, Washington.

Beeler, Lawrence E., 226 Orchas Street, Port Angeles, Washington, convicted on April 17, 1974, in the Superior Court of Callum County, Washington.

Bend, J. T., 5441 Arlington Street, St. Louis, Missouri, convicted on October 20, 1972, in the United States District Court, Eastern District, Missouri.

Brown, Jack L., 3016 E. Presidio, Tucson, Arizona, convicted on March 21, 1947, in the District Court, Clovis, New Mexico.

Campbell, David M., 209 West Tobias Street, Flint, Michigan, convicted on or about November 28, 1972, in the Genesee Circuit Court, Michigan.

Carmichael, Jack L., 2027 South Perkins, Indianapolis, Indiana, convicted on March 1, 1957, in the Circuit Court in and for Scott County, Indiana.

Carter, Edward J., 888 Pallister, Detroit, Michigan, convicted on September 12, 1963, in the Recorder's Court, Detroit, Michigan.

Chartier, Earl H., Rt. 1, Waukomis, Oklahoma, convicted on May 28, 1969, in the District Court of Garfield County, Oklahoma.

Cherry, Douglas W., R.D. 4, Box 448½, Lehigh Drive, Leechburg, Pennsylvania, convicted on June 20, 1973, in the Court of Common Pleas, Armstrong County, Pennsylvania.

Colson, Charles W., 1350 Ballantrae Lane, McLean, Virginia, convicted on June 3, 1974, in the United States District Court, Washington, D.C.

Combs, Robert L., 629 Warwick Drive, Montgomery, Alabama, convicted on June 30, 1972, in Montgomery County Court, Montgomery, Alabama.

Cornett, David A., 308 Pine, Manton, Michigan, convicted on March 8, 1974, in the Wexford County Circuit Court, Cadillac, Michigan.

Davis, Otee, 1380 Shawmut Place, St. Louis, Missouri, convicted on July 7, 1972, in the United States District Court, Eastern District, Missouri.

Delrow, Michael Allen, 727 East Lincoln, Little Chute, Wisconsin, convicted on December 27, 1973, in the Circuit Court, Waupaca County, Wisconsin.

Dublin, Hugh P., Jr., Route #1, Tennessee Colony, Texas, convicted on September 30, 1963, in the Criminal District Court No. 5, Harris County, Texas.

Ervin, James C., 1906 South 17th Street, Yakima, Washington, convicted on October 6, 1945, in the Yakima County Superior Court, Yakima, Washington.

Fyffe, Randy L., 5868 South Villa Lane, Indianapolis, Indiana, convicted on October 19, 1962, in the Court of Common Pleas, Montgomery County, Ohio.

Fiveash, Roy J., Route 1, Box 304–A, Saucier, Mississippi, convicted on April 5, 1972, in the United States District Court, Southern District, Mississippi.

Fowler, Kenneth, Route 6, Box 20, Lebanon, Tennessee, convicted on December 11, 1974, in the Criminal Court of Wilson County, Tennessee.

Frederick, Vernon C., III, 2901 Westheimer, Houston, Texas, convicted on March 2, 1972, in the 176th District Court of Harris County, Texas.

Gambill, Robert B., Route 6, Box 361–A, North Wilkesboro, North Carolina, convicted on January 27, 1959, in the Wilkes County Superior Court, Wilkesboro, North Carolina; and on August 3, 1959, in the Catawba County Superior Court, North Carolina.

Gunnde, Frank J., P.O. Box 15061, Marmet, West Virginia, convicted on December 9, 1960, in the Intermediate Court for Kanawha County, West Virginia.

Hafner, Francis J., 70 Ashford Avenue, Pittsburgh, Pennsylvania, convicted on October 23, 1952, on February 26, 1953, on November 24, 1953, in a Special Court Martial, United States Navy, Philadelphia; and on March 31, 1954, in a General Court Martial, United States Navy, Philadelphia; and on June 28, 1955, in a General Court Martial, United States Navy, Boston, Massachusetts; and on May 27, 1957, in the Allegheny County Court, Pennsylvania.

Hall, Calvin Arthur, 1329 N. Second Avenue, Upland, California, convicted on December 7, 1956, in the Superior Court, Los Angeles County, California.

Harmon, Martin C., Route 1, Box 18AA, Hereford, Arizona, convicted on September 19, 1950, in the Boyd Circuit Court, Ashland, Kentucky.

Harrigan, Jack T., Jr., 2105 Anderson Street, Petersburg, Virginia, convicted on January 15, 1969, in the Criminal Court, Sullivan County, Blountville, Tennessee.

Hawkins, Frankie A., 712 West Taylor, Lovington, New Mexico, convicted on October 20, 1970, in the Lea County District Court, Lovington, New Mexico.

Hiller, Henry E., 369 15th Street, Box 215, Pomeroy, Washington, convicted on June 5, 1973, in the Garfield County Superior Court, Pomeroy, Washington.

Hollingshead, Ronald L., 4821 Sahler Street, Omaha, Nebraska, convicted on March 4, 1968, in the District Court, Washington County, Blair, Nebraska.

Jones, Jack Lee, Box 93, Clarksburg, Missouri, convicted on January 2, 1968, in the Circuit Court of Moniteau County, Missouri.

Kiernan, Eugene A., Jr., 334 S. Whiting Street, Alexandria, Virginia, convicted on February 9, 1971, in the City of Alexandria Circuit Court, Virginia.

Lee, Joe R., 2500 Minor Avenue East, Seattle, Washington, convicted on June 12, 1959, in the Superior Court, King County, Washington.

Lock, Charles W., 3622 Deerford Avenue, Lakewood, California, convicted on March 2, 1967, Los Angeles County Superior Court, Long Beach, California.

McCreary, Sheila K., 506 Hammond Street, Newport Newa, Virginia, convicted on March 29, 1973, in the Hustings Court, Newport News, Virginia.

McNemar, Kenneth L., Jr., 6229 Tanager, Houston, Texas, convicted on September 26, 1972, in the 180th District Court, Harris County, Texas.

Mars, Robert L., 1044 Southwest McFadden, Chehalis, Washington, convicted on February 22, 1974, in the Superior Court of Washington.

Marshbanks, Rothey Eugene, 7712 E. Waverly, Tucson, Arizona, convicted on or about January 24, 1968, in the United States District Court for the Eastern District of Maryland.

Miller, Steven C., 512 East Wilcox Avenue, Peoria, Illinois, convicted on June 4, 1973, in the United States District Court for the Northern District of Illinois, Eastern Division.

Morgan, Joseph W., 4000 Boardman Street, Minneapolis, Minnesota, convicted on September 8, 1967, on October 31, 1967, and on November 18, 1970, in the District Court, Hennepin County, Minnesota; and on December 17, 1970, in the District Court, Second Judicial District, Ramsey County, Minnesota.

Morningstar, Rex E., Rural Route 3, Cassopolis, Michigan, convicted on November 9, 1973, in the Cass County Circuit Court, Michigan.

Nalepinski, Donald E., Route #4, Box 24A, Sparta, Wisconsin, convicted on February 12, 1974, in the Circuit Court, Grant County, Wisconsin.

Oliver, Kelly M., 114 South 44th, Muskogee, Oklahoma, convicted on June 26, 1975, in the Oklahoma County District Court, Oklahoma City, Oklahoma.

Parker, Warren J., 5125 East Washington, Stockton, California, convicted on December 27, 1955, in the Superior Court of California, in the County of San Madeo; and on September 12, 1960, in the Superior Court of California, County of San Francisco.

Ponder, Leon C., Route 1, Box 281–A, Brent, Alabama, convicted on September 7, 1973, in the United States District Court for the Northern District of Alabama.

Pugh, Jeffrey C., Box 911, Ferrum College, Ferrum, Virginia, convicted on April 10, 1973, in the Circuit Court of Franklin County, Rocky Mount, Virginia.

[Notice No. 77-2]

TECHNICAL SUBCOMMITTEE OF THE ADVISORY COMMITTEE ON EXPLOSIVES TAGGING

Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given that a closed meeting of the Technical Subcommittee to the Advisory Committee on Explosives Tagging will be held on February 23 and 24, 1977, in Room 5041, Federal Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C., beginning at 9:00 a.m. (e.s.t.).

The Technical Subcommittee will discuss detailed proprietary scientific and technical data concerning various candidate explosive tagging systems that can be used in the detection and identification of explosives. The information which will be presented and discussed during the meeting will constitute trade secrets and commercial or financial information from a person privileged or confidential within the ambit of Title 5, United States Code, section 552(b)(4). Accordingly, the meeting of the Technical Subcommittee of the Advisory Committee on Explosive Tagging will, under authority of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463), not be open to the public.

All communications regarding this Advisory Committee meeting should be addressed to the Bureau of Acohol, Tobacco and Firearms, Washington, D.C. 20226, Attention: Mr. Robert F. Dexter, Committees Manager, Technical Services Division, Explosives Technology Branch, Room 8233.

Signed: January 21, 1977.

REX D. DAVIS,
Director.

VETERANS ADMINISTRATION

SPECIAL MEDICAL ADVISORY GROUP

Meeting

The Veterans Administration gives notice pursuant to Pub. L. 92–463 that a meeting of the Special Medical Advisory Group, authorized by 38 U.S.C. 4112(a), will be held in the Administrator's Conference Room at the Veterans Administration Central Office, 810 Vermont Avenue, NW, Washington, DC on February 28, and March 1, 1977. The purpose of the Special Medical Advisory Group is to advise the Administrator and the Chief Medical Director relative to the care and treatment of disabled veterans, and other matters pertinent to the Veterans Administration's Department of Medicine and Surgery.

The general session will convene at 8:30 a.m. on February 28. It will be open to the public up to the seating capacity of the room. Because this capacity is limited, it will be necessary for those wishing to attend to contact Mr. R. E. Lindsey, Executive Secretary, Special Medical Advisory Group, Veterans Administration Central Office (Phone 202–389–2588) prior to February 25, 1977.

Dated: January 21, 1977.

By direction of the Administrator.

ODELL W. VAUGHN,
Deputy Administrator.

FOURTH SECTION APPLICATION FOR RELIEF

JANUARY 24, 1977.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be estblished at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before February 11, 1977.

FSA No. 43309—*Vinyl Acetate from Points in Texas.* Filed by Southwestern Freight Bureau, Agent, (No. B–652), for interested rail carriers. Rates on vinyl acetate, in tank-car loads, as described in the application, from South Bay City and Texas City, Texas, to Dayton, N.J., and Elkton, Maryland.

Grounds for relief—Market competition.

Tariff—Supplement 27 to Southwestern Freight Bureau, Agent, tariff 12–J, I.C.C.

No. 5219. Rates are published to become effective on February 21, 1977.

By the Commission.

ROBERT L. OSWALD,
Secretary.

[No. 36508]

MIDWEST FREIGHT CAR COMPANY—PETITION FOR DECLARATORY ORDER—SWITCHING CHARGES AT CLINTON, ILLINOIS

Directing Modified Procedure for This Proceeding

It appearing, That, upon referral order by the Circuit Court of Cook County, Illinois Law Division, the Midwest Freight Car Company, filed a petition on January 10, 1977, seeking a declaratory order under section 554(e) of the Administrative Procedure Act with respect to certain questions as described in the petition; and good cause appearing therefor:

It is ordered, That this matter appears susceptible of handling under the modified procedure, and therefore petitioner and Illinois Central Gulf Railroad Company, complainant in the court action, and any interested parties subsequently permitted to intervene, should comply with rules 45 to 54, inclusive, of the Commission's General Rules of Practice, and the filing and service of the pleadings is to be as follows: (a) opening statement of facts and argument by petitioner and any parties supporting petitioner on or before 20 days from the date of service of this order; (b) 30 days after that date, statement of facts and argument by replicant and any supporting parties; and (c) reply by petitioner and any supporting parties 20 days thereafter.

It is further ordered, That any pleadings filed responsive to this order shall be served upon all parties subsequently permitted to intervene.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by forwarding appropriate notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

Dated at Washington, D.C., this 17th day of January, 1977.

By the Commission, Commissioner Hardin.

ROBERT L. OSWALD,
Secretary.

[Docket No. 36508]

MIDWEST FREIGHT CAR COMPANY—PETITION FOR DECLARATORY ORDER—SWITCHING CHARGES AT CLINTON, ILLINOIS

Instituting Proceeding

• *Purpose:* The purpose of this notice is to inform the public that upon petition by the Midwest Freight Car Company and pursuant to the Administrative Procedure Act (5 U.S.C. 554(e)) a declaratory order is sought in regard to charges for certain switching services. •

The Illinois Central Gulf Railroad filed an action at law in the Circuit Court of Cook County, Illinois Law Division, *Illinois Central Gulf Railroad Company* v. *Midwest Freight Car Company*, No. 76 L 21052, seeking to recover $421.14 for switching services rendered petitioner Midwest Freight Car Company at Clinton, Ill., during the period between April 3, 1973 and February 11, 1976. On December 30, 1976, Midwest filed a counterclaim in that action seeking recovery of $36,385.10 in charges paid to the said railroad for switching at Clinton during the period between November 17, 1973, and October 28, 1976.

A petition for a declaratory order was filed by Midwest pursuant to a referral order of January 4, 1977, from the Court to decide:

(1) Whether or not the switching charges involved in the complaint and counterclaim were applicable to the switching services referred to therein under section 6 of the Interstate Commerce Act.

(2) Whether or not such switching charges, if applicable to such services, were just and reasonable as applied thereto under section 1 of the Interstate Commerce Act.

Petitioner Midwest operates a railroad freight car manufacturing and repair facility at Clinton which is served exclusively by the Illinois Central Gulf Railroad. The charges sought to be collected by the Illinois Central Gulf Railroad are for switching of new and rebuilt cars to and from weighing scales for purposes of determining the tare weight of the cars prior to the first line-haul movement. The charges which Midwest seeks to recover are charges paid for switching railroad-owned and privately-owned freight cars to its facility for repairs. Midwest alleges in its instant petition that neither of these types of switching movements are covered by published switching charges, but, instead, are included as an element in line-haul rates with no further charges being justified.

By order served concurrently with this publication, the proceeding is being set for handling under the modified procedure. Oral hearings do not appear necessary at this time and are not contemplated.

Any interested parties subsequently permitted to intervene should comply with rules 45 to 54 (49 CFR 1100.45 to 1100.54), inclusive, of the Commission's General Rules of Practice, and the filing and service of pleadings is to be as follows: (a) opening statement of facts and arguments by petitioner and any parties supporting petitioner on or before 20 days from the date of service of this order; (b) 30 days after that date, statement of facts and argument by replicant and any supporting parties; and (c) reply by petitioner and any supporting parties 20 days thereafter.

All written submissions will be available for public inspection during regular business hours at the offices of the Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C.

Issued in Washington, D.C., January 17, 1977.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-2723 Filed 1-26-77;8:45 am]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

[Notice No. 7]

JANUARY 18, 1977.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 5227 (Sub-No. 23TA), filed January 4, 1977. Applicant: ECONOMY MOVERS, INC., P.O. Box 201, Mead, Nebr. 68041. Applicant's representative: Gailyn L. Larsen, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Containers*, from the plantsite and storage facilities of Tote Systems, Division of Hoover Ball and Bearing Co., at or near Dyersburg, Tenn., to points in the United States (except Alaska and Hawaii), for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. P. A. Hartwig, Sales Manager, Tote Systems, Division of Hoover Ball and Bearing Co., P.O. Box 456, Beatrice, Nebr. 68310. Send protests to: Max H. Johnston, District Supervisor, 285 Federal Bldg., & Courthouse, 100 Centennial Mall North, Lincoln, Nebr. 68508.

No. MC 17605 (Sub-No. 3TA), filed January 7, 1977. Applicant: RONALD E. WATSON, P.O. Box 184, Ross, Ohio 45061. Applicant's representative: John L. Alden, 1396 W. Fifth Ave., Columbus, Ohio 43212. Authority sought to operate as a *contract carrier*, by motor vehicle, over regular and irregular routes, transporting: *Paper and paper products and papermill products*, from the facilities of Champion International Corporation, at Cincinnati, Ohio, to points in Ohio, Illinois and Indiana as follows: from the facilities of Champion International Corporation, at Cincinnati, Ohio, over U.S. Highway 127, to junction Bypass U.S. Highway 50, thence over Bypass U.S. Highway 50 to Cleves, Ohio, thence over U.S. Highway 50 to junction U.S. Highway 31, thence over U.S. Highway 31 to Sellersburg, Ind., and thence over U.S. Highway 31E to Jeffersonville, Ind.; and from the facilities of Champion International Corporation, at Cincinnati, Ohio, over U.S. Highway 127 to Greenville, Ohio, thence over Ohio Highway 571 (formerly Ohio Highway 71) to the Ohio-Indiana State line, thence over Indiana Highway 32 via Muncie, Ind., to Anderson, Ind., thence over Indiana Highway 9 via Alexandria, Ind., to Marion, Ind. (also from Muncie over Indiana Highway 3 to junction Indiana Highway 18, thence over Indiana Highway 18 to Marion; also from junction Indiana Highways 3 and 28 over Indiana Highway 28 to junction Indiana Highway 9, thence to Marion as specified above), thence over Indiana Highway 15 to Wabash, Ind., thence over U.S. Highway 24 to the Indiana-Illinois State line, and thence over irregular routes, to points in that part of Illinois bounded by a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 36 to Jacksonville, Ill., thence along U.S. Highway 67 to the Illinois-Iowa State line, at Rock Island, Ill., thence along the Illinois-Iowa State line to the Illinois-Wisconsin State line.

Thence along the Illinois-Wisconsin State line to Lake Michigan, thence along the shore of Lake Michigan, to the Illinois-Indiana State line, and thence along the Illinois-Indiana State line to the point of beginning, including the points named and points on the indicated portions of the highways specified; and service is authorized to and from all intermediate points on the above-specified regular routes, from the facilities of Champion International Corporation, at Cincinnati, Ohio, over irregular routes, to Columbus, Connersville, Ft. Wayne, and Madison, Ind., and points in Ohio; Paper and paper products, over irregular routes, from the facilities of Champion International Corporation, at Cincinnati, Ohio, to points in that part of Illinois on and north of U.S. Highway 40, east of U.S. Highway 67, and south of U.S. Highway 36, those in that part of Indiana on and north of U.S. Highway 40 (except Fort Wayne, Ind.), those in that part of Michigan on and south of Michigan Highway 21, and to Milwaukee, Racine and Beloit, Wis.; St. Louis, Mo.; Erie, Pa.; and Buffalo and Rochester, N.Y.

Supporting shipper: Champion International Corporation, Knightsbridge Drive, Hamilton, Ohio 45020. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514–B Federal Bldg., 550 Main St., Cincinnati, Ohio 45202.

NOTE.—The destination territory is identical to that presently held by the applicant. By this application, applicant seeks to serve the new warehousing facilities utilized by its existing contract shipper, under a continuing contract with Champion International Corporation, for 180 days.

No. MC 29120 (Sub-No. 199TA), filed January 5, 1977. Applicant: ALL-AMERICAN, INC., 900 W. Delaware, P.O. Box 769, Sioux Falls, S. Dak. 57104. Applicant's representative: Ralph H. Jinks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electric ranges and/or*

microwave ovens and such commodities as are used in the manufacture of electric ranges and/or microwave ovens, including materials, supplies, and accessories, between the plantsite and/or storage facilities utilized by Litton Microwave Cooking Products, at Sioux Falls, S. Dak., on the one hand, and, on the other, points in Indiana, Ohio and Michigan, restricted to traffic originating at or destined to the above-named facilities at Sioux Falls, S. Dak., for 180 days. Supporting shipper: Litton Microwave Cooking Products, Litton Systems, Inc., 1405 Xenium Lane, Minneapolis, Minn. 55441. Send protests to: J. L. Hammond, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 369, Federal Bldg., Pierre, S. Dak. 57501.

No. MC 61396 (Sub-No. 320TA), filed January 4, 1977. Applicant: HERMAN BROS., INC., 2565 St. Marys Ave., P.O. Box 189, Omaha, Nebr. 68101. Applicant's representative: John E. Smith II (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, from the plantsites and storage facilities of ConAgra, Inc., at Omaha, Nebr., to joints in Iowa, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Ed Duncza, Supervisor, of Fleet Operations, ConAgra, Inc., 200 Kiewit Plaza, Omaha, Nebr. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Suite 620, 110 N. 14th St., Omaha, Nebr. 68102.

No. MC 103066 (Sub-No. 51TA), filed January 4, 1976. Applicant: STONE TRUCKING CO., 4927 S. Tacoma, P.O. Box 2014, Tulsa, Okla. 74101. Applicant's representative: C. L. Phillips, Room 248, 1411 N. Classen, Classen Terrace Bldg., Oklahoma City, Okla. 73106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat by-products*, as defined by the Commission, from Madison and Omaha, Nebr., to points in Massachusetts, New York, New Jersey and Pennsylvania, and from Memphis, Tenn., to points in New York, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: Armour Food Company, Greyhound Tower, 111 W. Clarendon Ave., Phoenix, Ariz. 85077. Send protests to: Joe Green, District Supervisor, Room 240 Old Post Office Bldg., 215 N.W. Third St, Oklahoma City, Okla. 73102.

No. MC 112184 (Sub-No. 50TA), filed December 17, 1976. Applicant: THE MANFREDI MOTOR TRANSIT COMPANY, 11250 Kinsman Road, Newbury, Ohio 44065. Applicant's representative: John P. McMahon, 100 E. Broad St. Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Corn products*, in bulk (except corn oil, in bulk), from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia, with no transportation for compensation on return except as otherwise provided, restricted to service performed under a continuing contract with Car-Mi, Inc., of Dayton, Ohio, for 180 days. Supporting shipper: Car-Mi, Inc., P.O. Box 14303. Send protests to: James Johnson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 181 Federal Office Bldg., 1240 E. Ninth St., Cleveland, Ohio 44199.

No. MC 112963 (Sub-No. 63TA), filed January 4, 1977. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, Mass. 01866. Applicant's representative: Leonard E. Murphy (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, in bulk, in tank vehicles, from Naples, N.Y., to Laconia, N.H., for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days of operating authority. Supporting shipper: White Mountain Vineyard, Inc., R.F.D. No. 2, Province Road, Laconia, N.H. 03246. Send protests to: D. W. Hammons, District Supervisor, Interstate Commerce Commission, 150 Causeway St., Room 501, Boston, Mass. 02114.

No. MC 114004 (Sub-No. 158TA), filed January 7, 1977. Applicant: CHANDLER TRAILER CONVOY, INC., 8828 New Benton Highway, Little Rock, Ark. 72209. Applicant's representative: Winston Chandler, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles (except travel trailers and recreational vehicles), *and buildings*, in sections, moving on wheeled undercarriages (except prefabricated building) from Lindsay and Dinuba, Calif.; Berthoud, Colo.; Lake City and Oneco, Fla.; Ellaville and Woodbury, Ga.; Monroe, Ind.; Dryden and Reed City, Mich.; Slayton, Minn.; Sherman, Miss.; Central City and York, Nebr.; Lillington, N.C.; Claysburg, Pa.; Buffalo, N.Y.; Wills Point, Commerce and Honey Grove, Tex.; and Mt. Jackson, Va., to points in the United States including Alaska, but excluding Hawaii, for 180 days. Supporting shipper: Champion Home Builders Co., 5573 N. St., Dryden, Mich. 48428. Send protests to: William H. Land, Jr., District Supervisor, 3108 Federal Office Bldg., 700 W. Capitol, Little Rock, Ark. 72201.

No. MC 110420 (Sub-No. 763TA), filed January 7, 1977. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Joseph K. Reber (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcohol*, in bulk, from the plantsite and storage facilities of Archer Daniels Midland Company, at Decatur, Ill., to points in the United States (except Alaska and Hawaii), restricted to traffic originating and destined to points named, for 180 days. Supporting shipper: Archer Daniels Midland Company, P.O. Box 1470, Decatur, Ill. 62525. Send protests to: Gail Daugherty, Transportation Assistant, Interstate Commerce Commission, Bureau of Operations, U.S. Federal Bldg., and Courthouse, 517 E. [Notice No. 8]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JANUARY 19, 1977.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 28060 (Sub-No. 32TA), filed January 7, 1977. Applicant: WILLERS, INC., 1400 N. Cliff Ave., Sioux Falls, S. Dak. 57104. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Road, NE., Atlanta, Ga. 30326. IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JANUARY 21, 1977.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR part 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 7, 1977. A copy must also be served upon applicant on its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 61825 (Sub-E756), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture* between points in Idaho, Montana, North Dakota, Oregon, and Washington, and points in California, Nevada, South Dakota, Utah, and Wyoming on and northwest of a line beginning at San Francisco, Calif., and extending northeast along Interstate Highway 80 to junction California Highway 4, thence east along California Highway 4 to junction California Highway 26, thence northeast along California Highway 26 to junction California Highway 88, thence northeast along California Highway 88 to junction Nevada Highway 88, thence north along Nevada Highway 88 to junction U.S. Highway 395, thence north along U.S. Highway 395 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction U.S. Highway 50 Alternate, thence north along U.S. Highway 50 Alternate to junction Nevada Highway 2, thence northeast along Nevada Highway 2 to the Nevada-Utah State line, thence north along the Nevada-Utah State line to junction Interstate Highway 80, thence east along Interstate Highway 80 to junction U.S. Highway 187, thence north along U.S. Highway 187 to junction Wyoming Highway 28, thence northeast along Wyoming Highway 28 to junction U.S. Highway 287, thence north along U.S. Highway 287 to junction Wyoming Highway 789, thence northeast along Wyoming Highway 789 to junction U.S. Highway 26, thence northeast along U.S. Highway 26 to junction U.S. Highway 20, thence north along U.S. Highway 20 to junction U.S. Highway 16, thence east along U.S. Highway 16 to junction Interstate Highway 90, thence east along Interstate Highway 90 to junction U.S. Highway 14 Alternate, thence southeast along U.S. Highway 14 Alternate to junction U.S. Highway 385, thence southeast along U.S. Highway 385 to junction South Dakota Highway 40.

Thence east along South Dakota Highway 40 to Rapid City, S. Dak., thence east along U.S. Highway 14 to Box Elder, S. Dak., thence north along unnumbered Highway to the Elk Creek, thence east along the Elk Creek to the Cheyenne River, thence northeast along the Cheyenne River to Lake Oake, thence northeast along Lake Oake to junction U.S. Highway 212, thence east along U.S. Highway 212 to junction South Dakota Highway 45, thence north along South Dakota Highway 45 to junction South Dakota Highway 20, thence east along South Dakota Highway 20 to junction South Dakota Highway 37, thence north along South Dakota Highway 37 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 81, thence north along U.S. Highway 81 to junction South Dakota Highway 10, thence east along South Dakota Highway 10 to the South Dakota-Minnesota State line, on the one hand, and, on the other, those points in Georgia on and east of a line beginning at the South Carolina-Georgia State line and extending southwest along U.S. Highway 29 to junction U.S. Highway 129, thence south along U.S. Highway 129 to Macon, Georgia, and thence south along U.S. Highway 41 to the Georgia-Florida State line. The purpose of the filing is to eliminate the gateway of Bassett, Va.

No. MC 61825 (Sub-E757), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. BOX 385, Collinsville, Va. 24078. Applicant's representative: Harry Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Oregon and Washington, and points in California, Idaho, Montana, Nevada, and points in North Dakota on and northwest of a line beginning at San Francisco, Calif., and extending northeast along Interstate Highway 80 to junction California Highway 4, thence east along California Highway 4 to junction California Highway 160, thence north along California Highway 160 to junction California Highway 12, thence east along California Highway 12 to junction California Highway 88, thence east along California Highway 88 to junction Nevada Highway 88, thence north along Nevada Highway 88, to junction U.S. Highway 395, thence north along U.S. Highway 395 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction Nevada Highway 21, thence north along Nevada Highway 21 to junction U.S. Highway 40, thence east along U.S. Highway 40 to junction U.S. Highway 93, thence north along U.S. Highway 93 to junction Interstate Highway 80 N, thence east along Interstate Highway 80 N to junction Interstate Highway 15 W, thence northeast along Interstate Highway 15 W to junction U.S. Highway 191, thence north along U.S. Highway 191 to junction U.S. Highway 287, thence east along U.S. Highway 287 to the Montana-Wyoming State line, thence north and thence east along the Montana-Wyoming State line to junction U.S. Highway 212, thence northeast long U.S. Highway 212 to junction U.S. Highway 10, thence east along U.S. Highway 10 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction U.S. Highway 10, thence east along U.S. Highway 10 to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction North Dakota Highway 41, thence north along North Dakota Highway 41 to junction North Dakota Highway 200.

Thence east along North Dakota Highway 200 to junction North Dakota Highway 3, thence north along North Dakota Highway 3 to junction North Dakota Highway 19, thence east along North Dakota Highway 19 to junction North Dakota Highway 20, thence north along North Dakota Highway 20 to junction North Dakota Highway 17, thence east along North Dakota Highway 17 to junction North Dakota Highway 1, thence north along North Dakota Highway 1 to junction North Dakota Highway 5, thence east along North Dakota Highway 5 to junction North Dakota Highway 18, thence north along North Dakota Highway 18 to the United States-Canadian International Boundary line, on the one hand, and, on the other, those points in Georgia on and bounded by a line beginning at the South Carolina-Georgia State line and extending southwest along U.S.

Highway 29 to junction U.S. Highway 129, thence south along U.S. Highway 129 to Macon, Ga., thence south along U.S. Highway 41 to junction U.S. Highway 341, thence northwest along U.S. Highway 341 to junction U.S. Highway 41, thence north along U.S. Highway 41 to junction U.S. Highway 19, thence north along U.S. Highway 19 to junction U.S. Highway 76, thence east along U.S. Highway 76 to junction Georgia Highway 75, thence north along Georgia Highway 75 to the Georgia-North Caroline State line, thence east along the Georgia-North Carolina State line to the Georgia-South Carolina State line, and thence south to point of beginning. The purpose of this filing is to eliminate the gateway of Bassett, Va.

No. MC 61825 (Sub-E758), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street, NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, between points in Washington, and points in California, Idaho, Montana, and Oregon on and northwest of a line beginning at Eureka, Calif., and extending south along U.S. Highway 1 to junction California Highway 36, thence east along California Highway 36 to junction California Highway 3, thence northeast along California Highway 3 to junction California Highway 299, thence east along California Highway 299 to junction U.S. Highway 395, thence north along U.S. Highway 395 to junction Oregon Highway 31, thence northwest along Oregon Highway 31 to junction U.S. Highway 97, thence north along U.S. Highway 97 to junction Oregon Highway 218, thence east along Oregon Highway 218 to junction Oregon Highway 19, thence north along Oregon Highway 19 to junction Oregon Highway 206, thence east along Oregon Highway 206 to junction Oregon Highway 74, thence east along Oregon Highway 74 to junction U.S. Highway 395, thence northeast along U.S. Highway 395 to junction Oregon Highway 11, thence northeast along Oregon Highway 11 to the Oregon-Washington State line, thence east along the Oregon-Washington State line to the Washington-Idaho State line, thence north along the Washington-Idaho State line to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction Montana Highway 200, thence east along Montana Highway 200 to junction U.S. Highway 87, thence northeast along U.S. Highway 87 to junction Montana Highway 232, thence north along Montana Highway 232 to junction Montana Highway 233, and thence north along Montana Highway 233 to the United States-Canadian International Boundary line, on the one hand, and, on the other, those points in Georgia on and bounded by a line beginning at the Tennessee-Georgia State line and extending south along Georgia Highway 71 to junction U.S. Highway 41, thence south along U.S. Highway 41 to junction Georgia Highway 53, thence south along Georgia Highway 53 to junction U.S. Highway 27, thence south along U.S. Highway 27 to junction Georgia Highway 100, thence south along Georgia Highway 100 to junction Georgia Highway 166, thence west along Georgia Highway 166 to the Georgia-Alabama State line, thence south along the Georgia-Alabama State line to the Georgia-Florida State line, thence southeast along the Georgia-Florida State line to junction U.S. Highway 41, thence north along U.S. Highway 41 to junction U.S. Highway 341, thence northwest along U.S. Highway 341 to junction U.S. Highway 41, thence north along U.S. Highway 41 to junction U.S. Highway 19, thence north to junction U.S. Highway 76, thence east along U.S. Highway 76 to junction Georgia Highway 75, thence north along Georgia Highway 75 to the Georgia-North Carolina State line, thence west along the Georgia-North Carolina State line to the Georgia-Tennessee State line, and thence west along the Georgia-Tennessee State line to point of beginning. The purpose of this filing is to eliminate the gateway of Basset, Va.

No. MC 61825 (Sub E759), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture parts*, from points in Georgia on and east of a line beginning at the South Carolina-Georgia State line and extending southwest along U.S. Highway 29 to junction U.S. Highway 129, thence south along U.S. Highway 129 to junction U.S. Highway 23, thence southeast along U.S. Highway 23 to junction U.S. Highway 441, thence south along U.S. Highway 441 to junction Georgia Highway 158, thence southeast along Georgia Highway 158 to junction U.S. Highway 82, thence east along U.S. Highway 82 to junction U.S. Highway 1, thence southeast along U.S. Highway 1 to the Georgia-Florida State line, to points in Washington, and points in California, Idaho, Montana, Nevada, and Oregon on and northwest of a line beginning at Fort Bragg, Calif., and extending south along California Highway 1 to junction California Highway 20, thence southeast along California Highway 20 to junction California Highway 16, thence southeast along California Highway 16 to Sacramento, Calif., thence northeast along Interstate Highway 80 to junction U.S. Highway 95, thence northeast along U.S. Highway 95 to the Oregon-Idaho State line, thence north along the Oregon-Idaho State line to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction U.S. Highway 95, thence north along U.S. Highway 95 to junction Idaho Highway 13, thence north along Idaho Highway 13 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 10, thence south along U.S. Highway 10 to junction U.S. Highway 91, thence north along U.S. Highway 91 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 191, thence north along U.S. Highway 191 to junction U.S. Highway 87, thence east along U.S. Highway 87 to junction Montana Highway 200, thence east along Montana Highway 200 to junction Mountain Highway 13, thence north along Montana Highway 13 to junction U.S. Highway 2, thence east along U.S. Highway 2 to junction Montana Highway 16, thence north along Montana Highway 16 to junction Montana Highway 5, thence east along Montana Highway 5 to the Montana-North Dakota State line, and thence north along the Montana-North Dakota State line to the United States-Canadian International Boundary line, restricted against the transportation of those commodities requiring special equipment. The purpose of this filing is to eliminate the gateway of points in Smyth County, Va., Lynchburg, and Bedford, Va.

No. MC 61825 (Sub-No. E777), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture parts*, between points in Delaware, on the one hand, and, on the other points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of Bassett, Va.

No. MC 61825 (Sub E785), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, New Furniture* and *Furniture parts*, from New York, N.Y., and points in New Jersey on and south of U.S. Highway 202, and points in Pennsylvania on and south of a line beginning at New Jersey-Pennsylvania State line and extending southwest along U.S. Highway 202 to Norristown, Pa., thence west along U.S. Highway 422 to junction U.S. Highway 322, thence west along U.S. Highway 322 to Harrisburg, Pa., thence southwest along U.S. Highway 15 to junction U.S. Highway 15 Business, thence south along U.S. Highway 15 Business to junction U.S. Highway 15, and thence south along U.S. Highway 15 to the Pennsylvania-Maryland State line, to points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, restricted against the transportation of Class A and B Explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateway of Roanoke, Va.

No. MC 61825 (Sub E786), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry Jordan, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, New furniture*, and *Furniture parts*, from points in Maryland on and north of a line beginning at the Pennsylvania-Maryland State line and extending east along U.S. Highway 40, thence east along U.S. Highway 40 Alternate to junction U.S. Highway 40 near Frederick, Md., thence east along U.S. Highway 40 to junction Maryland Highway 144, thence east along Maryland Highway 144 to Baltimore, Md., thence to the Chesapeake Bay, thence northeast along the shores of the Chesapeake Bay and Elk River to the Chesapeake and Delaware Canal, and thence east along the Chesapeake and Delaware Canal to the Maryland-Delaware State line, to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, Wyoming, and points in Nebraska, North Dakota and South Dakota on and west of a line beginning at the Kansas-Nebraska State line and extending north along Nebraska Highway 161 to junction U.S. Highway 34, thence northeast along U.S. Highway 34 to junction Nebraska Highway 61, thence north along Nebraska Highway 61 to junction U.S. Highway 6, thence northwest along U.S. Highway 6 to the Nebraska-Colorado State line, thence north along the Nebraska-Colorado State line to junction Nebraska Highway 27, thence north along Nebraska Highway 27 to junction U.S. Highway 26, thence northwest along U.S. Highway 26 to junction Nebraska Highway 29, thence north along Nebraska Highway 29 to junction U.S. Highway 20, thence west along U.S. Highway 20 to the Nebraska-Wyoming State line, thence north along the Nebraska-Wyoming State line to the Nebraska-South Dakota State line, thence east along the Nebraska-South Dakota State line to junction South Dakota Highway 71, thence north along South Dakota Highway 71 to junction U.S. Highway 385, thence southeast along U.S. Highway 385 to junction South Dakota Highway 79, thence north along South Dakota Highway 79 to junction South Dakota Highway 168, thence northwest along South Dakota Highway 168 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction North Dakota Highway 21, thence east along North Dakota Highway 21 to junction North Dakota Highway 22, thence north along North Dakota Highway 22 to junction North Dakota Highway 23, thence east along North Dakota Highway 23 to junction U.S. Highway 83, and thence north along U.S. Highway 83 to the United States-Canadian International Boundary line, restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateway of Roanoke, Va.

No. MC 61825 (Sub E787), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, New furniture*, and *Furniture parts*, from points in Maryland on and north of a line beginning at the Pennsylvania-Maryland State line and extending south along Interstate Highway 81 to junction U.S. Highway 40, thence east along U.S. Highway 40 to Hagerstown, Md., thence east along U.S. Highway 40 Alternate to junction U.S. Highway 40 near Frederick, Md., thence east along U.S. Highway 40 to junction Maryland Highway 144, thence east along Maryland Highway 144 to Baltimore, Md., thence to the Chesapeake Bay, thence northeast along the shores of the Chesapeake Bay and Elk River to the Chesapeake and Delaware Canal, and thence east along the Chesapeake and Delaware Canal to the Maryland-Delaware State line, to points in Nebraska, North Dakota, and South Dakota on and east of a line beginning at the Kansas-Nebraska State line and extending north along Nebraska Highway 161 to junction U.S. Highway 34, thence northeast along U.S. Highway 34 to junction Nebraska Highway 61, thence north along Nebraska Highway 61 to junction U.S. Highway 6, thence northwest along U.S. Highway 6 to the Nebraska-Colorado State line, thence north along the Nebraska-Colorado State line to junction Nebraska Highway 27, thence north along Nebraska Highway 27 to junction U.S. Highway 26, thence northwest along U.S. Highway 26 to junction Nebraska Highway 29, thence north along Nebraska Highway 29 to junction U.S. Highway 20, thence west along U.S. Highway 20 to the Nebraska-Wyoming State line, thence north along the Nebraska-Wyoming State line to the Nebraska-South Dakota State line, thence east along the Nebraska-South Dakota State line to junction South Dakota Highway 71, thence north along South Dakota Highway 71 to junction U.S. Highway 385, thence southeast along U.S. Highway 385 to junction South Dakota Highway 79, thence north along South Dakota Highway 79 to junction South Dakota Highway 168, thence northwest along South Dakota Highway 168 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction North Dakota Highway 21, thence east along North Dakota Highway 21 to junction North Dakota Highway 22, thence north along North Dakota Highway 22 to junction North Dakota Highway 23, thence east along North Dakota Highway 23 to junction U.S. Highway 83, and thence north along U.S. Highway 83 to the United States-Canadian International Boundary line, restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateway of Roanoke, Va.

No. MC 61825 (Sub-E788), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 16th Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Clocks, New Furniture, and Furniture parts*, from points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, to New York, New York, and Newark, New Jersey, and points in New Jersey within 15 miles of Newark, N.J., restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment, (2) *Materials, equipment and supplies*, used in the manufacture and distribution of clocks, new furniture, and furniture parts (except in bulk), from points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, to New York, New York, and Newark, New Jersey, and points in New Jersey within 15 miles of Newark, N.J., restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateways of Bedford and Lynchburg, Va., and Baltimore, Md.

No. MC 61825 (Sub-No. E801), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture, and furniture parts*, from those points in North Carolina on and east of a line beginning at the Virginia-North Carolina State line and extending along U.S. Highway 52 to the North Carolina-South Carolina State line, and points in South Carolina on and east of a line beginning at the North Carolina-South Carolina State line and extending south along U.S. Highway 221 to junction South Carolina Highway 176, thence southeast along South Carolina Highway 176 to junction U.S. Highway 52, thence south along U.S. Highway 52 to junction South Carolina Highway 7, thence south along South Carolina Highway 7 to junction South Carolina Highway 171, thence south along South Carolina Highway 171 to the Atlantic Ocean, to points in Arizona, California, Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, restricted against the transportation of class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate gateway of Ridgeway, Va.

No. MC 61825 (Sub-No. E802), filed March 5, 1976. Applicant: ROY STONE

TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture, and furniture parts*, from points in South Carolina on and bounded by a line beginning at the North Carolina-South Carolina State line and extending south along U.S. Highway 25 to junction U.S. Highway 221, thence south along U.S. Highway 221 to the South Carolina-Georgia State line, thence southeast along the South Carolina-Georgia State line to the Atlantic Ocean, thence northeast along the Atlantic Coast to Folly Beach, S.C., thence north along South Carolina Highway 171 to junction South Carolina Highway 7, thence north along South Carolina Highway 7 to junction U.S. Highway 52, thence north along U.S. Highway 52 to junction U.S. Highway 176, thence northwest along U.S. Highway 176 to junction U.S. Highway 221, thence north along U.S. Highway 221 to the South Carolina-North Carolina State line, and thence west along the South Carolina-North Carolina State line to point of beginning, to points in California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, and points in Arizona, Colorado, Nebraska, and New Mexico on, north and west of a line beginning at the United States-Mexico International Boundary line near Douglas, Ariz., and extending north along U.S. Highway 666 to junction U.S. Highway 550, thence east along U.S. Highway 550 to junction New Mexico Highway 17, thence northeast along New Mexico Highway 17 to junction Colorado Highway 17, thence northeast along Colorado Highway 17 to junction Colorado Highway 140, thence east along Colorado Highway 140 to junction U.S. Highway 160, thence east along U.S. Highway 160 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction Colorado Highway 96, thence east along Colorado Highway 96 to the Colorado-Kansas State line, thence north along the Colorado-Kansas State line to the Kansas-Nebraska State line, thence east along the Kansas-Nebraska State line to junction U.S. Highway 281, thence north along U.S. Highway 281 to junction Nebraska Highway 74, thence east along Nebraska Highway 74 to junction Nebraska Highway 14, thence north along Nebraska Highway 14 to junction U.S. Highway 6, thence northeast along U.S. Highway 6 to junction Nebraska Highway 66, thence east along Nebraska Highway 66 to junction U.S. Highway 34, and thence east along U.S. Highway 34 to the Nebraska-Iowa State line, restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateway of Ridgeway, Va.

No. MC 61825 (Sub-No. E803), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture and furniture parts*, from points in South Carolina on and west of a line beginning at the North Carolina-South Carolina State line and extending south along U.S. Highway 25 to junction U.S. Highway 221, and thence south along U.S. Highway 221 to the South Carolina-Georgia State line, to points in California, Idaho, Montana, Nevada, North Dakota, Oregon, Utah, Washington, and Wyoming, and points in Arizona, Colorado, Nebraska, and South Dakota on and northwest of a line beginning at the United States-Mexico International Boundary line near Lakeville, Ariz., and extending north along Arizona Highway 85 to junction Arizona Highway 86, thence east along Arizona Highway 86 to junction Indian Trail 15, thence north along Indian Trail 15 to junction Arizona Highway 93, thence north along Arizona Highway 93 to junction U.S. Highway 89, thence north along U.S. Highway 89 to junction Arizona Highway 64, thence northeast along Arizona Highway 64 to junction U.S. Highway 89, thence north along U.S. Highway 89 to junction U.S. Highway 160, thence northeast along U.S. Highway 160 to junction U.S. Highway 550, thence north along U.S. Highway 550 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction Colorado Highway 135, thence north along Colorado Highway 135 to junction Taylor Road, thence northeast along Taylor Road to junction Rainbow Lane, thence east along Rainbow Lane to junction Colorado Highway 306, thence east along Colorado Highway 306 to junction U.S. Highway 24, thence south along U.S. Highway 24 to junction U.S. Highway 285, thence northeast along U.S. Highway 285 to junction U.S. Highway 85, thence north along U.S. Highway 85 to the Colorado-Wyoming State line.

Thence east along the Colorado-Wyoming State line to the Colorado-Nebraska State line, thence east along the Colorado-Nebraska State line to junction Nebraska Highway 71, thence north along Nebraska Highway 71 to junction U.S. Highway 30, thence east along U.S. Highway 30 to junction U.S. Highway 385, thence north along U.S. Highway 385 to junction Nebraska Highway 2 thence east along Nebraska Highway 2 to Mullen, Nebr., thence northeast along unnumbered highway to Valentine, Nebr., thence north along U.S. Highway 83 to the Nebraska-South Dakota State line, thence east along the Nebraska-South Dakota State line to junction U.S. Highway 81, thence north along U.S. Highway 81 to junction South Dakota Highway 46, thence east along South Dakota Highway 46 to junction South Dakota Highway 10, and thence east along South Dakota Highway 10 to the South Dakota-Iowa State line, thence north along the South Dakota-Iowa State line, thence north along the South Dakota-Iowa State line, to junction South Dakota-Minnesota State line, thence north to the South Dakota-Minnesota State to junction North Dakota-Minnesota State line, and thence north to the North Dakota-Minnesota State line, restricted against the transportation of Classes A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateway of Ridgeway, Va.

No. MC-61825 (Sub-No. E804), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture, and furniture parts*, from points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending south along U.S. Highway 421 to junction U.S. Highway 321, thence southeast along U.S. Highway 321 to junction U.S. Highway 321A, thence southeast along U.S. Highway 321A to junction U.S Highway 321, thence southeast along U.S. Highway 321 to junction North Carolina Highway 127, thence south along North Carolina Highway 127 to junction North Carolina Highway 10, thence southwest along North Carolina Highway 10 to junction North Carolina Highway 18, thence south along North Carolina Highway 18 to junction U.S. Highway 74, thence east along U.S. Highway 74 to junction North Carolina Highway 216, thence southwest along North Carolina Highway 216 to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction U.S. Highway 52, thence north along U.S. Highway 52 to the North Carolina-Virginia State line, thence west along the North Carolina-Virginia State line to the North Carolina-Tennessee State line, and thence south along the North Carolina-Tennessee State line to point of beginning, to points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, and points in Colorado, Nebraska, and New Mexico on, west and north of a line beginning at the Texas-New Mexico State line and extending north along U.S. Highway 285 to junction U.S. Highway 285 Alternate, thence north along U.S. Highway 285 Alternate to junction U.S. Highway 285, thence northwest along U.S. Highway 285 to junction New Mexico Highway 3, thence north along New Mexico Highway 3 to junction U.S. Highway 85, thence northeast along U.S. Highway 85 to junction U.S. Highway 160.

Thence east along U.S. Highway 160 to junction U.S. Highway 350, thence northeast along U.S. Highway 350 to junction U.S. Highway 50, thence east along U.S. Highway 50 to Fort Lyon, Colo., thence north along unnumbered highway to junction Colorado Highway 96 at Haswell, Colo., thence east along Colorado Highway 96 to junction U.S. Highway 287, thence north along U.S. Highway 287 to junction U.S. Highway 40, thence east along U.S. Highway 40 to junction U.S. Highway 385, thence north along U.S. Highway 385 to junction U.S. Highway 24, thence east along U.S. Highway 24 to the Colorado-Kansas State line, thence north along the Colorado-Kansas State line to the Kansas-Nebraska State line, thence east along the Kansas-Nebraska State line to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction U.S. Highway 281, thence north along U.S. Highway 281 to junction U.S. Highway 30, thence northeast along U.S. Highway 30 to junction Nebraska Highway 15, thence north along Nebraska Highway 15 to junction Nebraska Highway 91, thence east along Nebraska Highway 91 to junction U.S. Highway 275, thence north along U.S. Highway 275 to junction Nebraska Highway 9, thence north along Nebraska Highway 9 to junction Nebraska Highway 51, and thence east along Nebraska Highway 51 to the Nebraska-Iowa State line, restricted against the transportation of Classes A and B explosives, commodities in bulk, and those requiring special equipment.

The purpose of this filing is to eliminate the gateways of Lynchburg, and Bedford, Va.

No. MC-61825 (Sub-No. E805), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture, and furniture parts*, from those points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending southeast along U.S. Highway 19E to junction North Carolina Highway 194, thence south along North Carolina Highway 194 to junction U.S. Highway 221, thence south along U.S. Highway 221 to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction North Carolina Highway 216, thence northeast along North Carolina Highway 216 to junction U.S. Highway 74, thence west along U.S. Highway 74 to junction North Carolina Highway 18, thence north along North Carolina Highway 18 to junction North Carolina Highway 10, thence northeast along North Carolina Highway 10 to junction North Carolina Highway 127, thence north along North Carolina Highway 127 to junction U.S. Highway 321, thence northwest along U.S. Highway 321 to junction U.S. Highway 321 Alternate, thence northwest along U.S. Highway 321 Alternate to junction U.S. Highway 321, thence northwest along U.S. Highway 321 to junction U.S. Highway 421, thence northwest along U.S. Highway 421 to the North Carolina-Tennessee State line, and thence southwest along North Carolina-Tennessee State line to point of beginning, to points in Arizona, California, Idaho, Montana, Neveda, North Dakota, Oregon, Utah, Washington, and Wyoming, and points in Colorado, Nebraska, New Mexico, and South Dakota on, north and west of a line beginning at the United States-Mexico International Boundary line at the New Mexico-Texas State line and extending north along U.S. Highway 85 to junction New Mexico Highway 52, thence north along New Mexico Highway 52 to junction New Mexico Highway 78, thence north along New Mexico Highway 78 to junction U.S. Highway 60, thence west along U.S. Highway 60 to junction to New Mexico Highway 117, thence north along New Mexico Highway 117 to junction U.S. Highway 66.

Thence northwest along U.S. Highway 66 to junction New Mexico Highway 57, thence north along New Mexico Highway 57 to junction New Mexico Highway 44, thence southeast along New Mexico Highway 44 to junction New Mexico Highway 96, thence north along New Mexico Highway 96 to junction New Mexico Highway 112, thence north along New Mexico Highway 112 to junction U.S. Highway 84, thence north along U.S. Highway 84 to junction New Mexico Highway 17, thence northeast along New Mexico Highway 17 to junction Colorado Highway 17, thence northeast along Colorado Highway 17 to junction U.S. Highway 285, thence north along U.S. Highway 285 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction U.S. Highway 6, thence northeast along U.S. Highway 6 to junction Interstate Highway 80S, thence east along Interstate Highway 80S to junction Interstate Highway 80, thence east along Interstate 80 to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction Nebraska Highway 2, thence southeast along Nebraska Highway 2 to junction Nebraska Highway 91, thence east along Nebraska Highway 91 to junction Nebraska Highway 7, thence north along Nebraska Highway 7 to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction Nebraska Highway 11, thence north along Nebraska Highway 11 to junction U.S. Highway 18, thence northeast along U.S. Highway 18 to junction South Dakota Highway 37, thence north along South Dakota Highway 37 to junction South Dakota Highway 44, thence east along South Dakota Highway 44 to junction U.S. Highway 81, thence north along U.S. Highway 81 to junction U.S. Highway 16, thence east along U.S. Highway 16 to the South Dakota-Minnesota State line, Restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment. The purpose of this filing is to eliminate the gateways of Lynchburg and Bedford, Va.

No. MC-61825 (Sub-No. E809), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, new furniture, and furniture parts*, from those points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending south along U.S. Highway 129 to Andrews, N.C. thence northeast along U.S. Highway 19 to junction North Carolina Highway 28, thence southeast along North Carolina Highway 28 to junction U.S. Highway 441, thence south along U.S. Highway 441 to the North Carolina-Georgia State line, thence east along the North Carolina-Georgia State line to the North Carolina-South Carolina State line to junction U.S. Highway 221, thence north along U.S. Highway 221 to junction North Carolina Highway 194, thence north along North Carolina Highway 194 to junction U.S. Highway 19E, thence northwest along U.S. Highway 19E to the North Carolina-Tennessee State line, thence southwest along the North Carolina-Tennessee State line to point of beginning, to points in Oregon and Washington, and points in California, Idaho, Montana, Nevada, and North Dakota on, north and west of a line beginning at Monterey, California and extending east along California Highway 68 to junction U.S. Highway 101, thence northwest along U.S. Highway 101 to junction California Highway 17, thence north along California Highway 17 to junction unnumbered Highway at Milpitas, Calif., thence east along unnumbered Highway to junction Interstate Highway 680, thence north along Interstate Highway 680 to junction Interstate Highway 580, thence southeast along Interstate Highway 580 to junction Interstate Highway 5, thence east along Interstate Highway 5 to junction California Highway 132, thence east along California Highway 132 to junction California Highway 108, thence northeast along California Highway 108 to junction California Highway 120.

Thence east along California Highway 120 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction Nevada Highway 8A, thence north along Nevada Highway 8A to junction Nevada Highway 82, thence north along Nevada Highway 82 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction Nevada Highway 46, thence north along Nevada Highway 46 to junction U.S. Highway 40, thence east along U.S. Highway 40 to junction U.S. Highway 93, thence north along U.S. Highway 93 to junction U.S. Highway 93 Alternate, thence northeast along U.S. Highway 93 Alternate to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction Idaho Highway 22, thence northeast along Idaho Highway 22 to junction U.S. Highway 91, thence north along U.S. Highway 91 to the Idaho-Montana State line, thence east along the Idaho-Montana State line to the Idaho-Wyoming-Montana State line, thence north and east along the Wyoming-Montana State line to junction U.S. Highway 212, thence northeast along U.S. Highway 212 to junction U.S. Highway 10, thence northeast along U.S. Highway 10 to junction U.S. Highway 12,

thence east along U.S. Highway 12 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction North Dakota Highway 21, thence east along North Dakota Highway 21 to junction North Dakota Highway 22, thence north along North Dakota Highway 22 to junction U.S. Highway 10, thence east along U.S. Highway 10 to junction North Dakota Highway 31, thence north along North Dakota Highway 31 to junction North Dakota Highway 200A, thence east along North Dakota Highway 200A to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction North Dakota Highway 200,

Thence east along North Dakota Highway 200 to junction North Dakota Highway 41, thence north along North Dakota Highway 41 to junction U.S. Highway 52, thence southeast along U.S. Highway 52 to junction North Dakota Highway 14, thence north along North Dakota Highway 14 to junction U.S. Highway 2, thence east along U.S. Highway 2 to junction North Dakota Highway 3, thence north along North Dakota Highway 3 to junction North Dakota Highway 66, thence east along North Dakota Highway 66 to junction U.S. Highway 281, thence north along U.S. Highway 281 to junction North Dakota Highway 5, thence east along North Dakota Highway 5 to junction North Dakota Highway 20, thence north along North Dakota Highway 20 to the United States-Canadian International Boundary line, restricted against the transportation of Class A and B explosives, commodities in bulk, and those requiring special equipment.

The purpose of this filing is to eliminate the gateways of Bedford and Lynchburg, Va.

No. MC 61825 (Sub-No. E809), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, materials, equipment, and supplies*, used in the manufacture and distribution of clocks, new furniture and furniture parts (except in bulk), from points in Idaho, Montana, North Dakota, Oregon, and Washington, and points in California, Colorado, Nebraska, Nevada, South Dakota, Utah, and Wyoming on, west and north of a line beginning at San Diego, Calif., and extending east along Interstate Highway 8 to junction California Highway 67, thence north along California Highway 67 to junction California Highway 78, thence east along California Highway 78 to junction California Highway 79, thence north along California Highway 79 to junction California Highway 71, thence east along California Highway 71 to junction California Highway 74, thence northeast along California Highway 74 to junction California Highway 111, thence east along California Highway 111 to junction Interstate Highway 10 at Indio, California, thence west along Interstate Highway 10 to junction Interstate Highway 15, thence northeast along Interstate Highway 15 to junction California Highway 127, thence north along California Highway 127 to junction Nevada Highway 29, thence north along Nevada Highway 29 to junction U.S. Highway 95, thence northwest along U.S. Highway 95 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction Utah Highway 56, thence east along Utah Highway 56 to junction Utah Highway 14, thence east along Utah Highway 14 to junction U.S. Highway 89, thence north along U.S. Highway 89 to junction Utah Highway 12, thence northeast along Utah Highway 12 to junction Utah Highway 24, thence northeast along Utah Highway 24 to junction Interstate Highway 70, thence east along Interstate Highway 70 to junction U.S. Highway 163, thence southeast along U.S. Highway 163 to junction Utah Highway 128, thence northeast along Utah Highway 128 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction U.S. Highway 50 at Grand Junction, Colo., thence west along U.S. Highway 50 to junction Colorado Highway 139.

Thence north along Colorado Highway 139 to junction Colorado Highway 64, thence northwest along Colorado Highway 64 to junction U.S. Highway 40, thence east along U.S. Highway 40 to junction Colorado Highway 789, thence north along Colorado Highway 789 to junction Wyoming Highway 789, thence north along Wyoming Highway 789 to junction Wyoming Highway 70, thence east along Wyoming Highway 70 to junction Wyoming Highway 230, thence north along Wyoming Highway 230 to junction Wyoming Highway 130, thence east along Wyoming Highway 130 to junction U.S. Highway 287, thence north along U.S. Highway 287 to junction Wyoming Highway 34, thence northeast along Wyoming Highway 34 to junction U.S. Highway 87, thence north along U.S. Highway 87 to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction Nebraska Highway 61, thence north along Nebraska Highway 61 to junction South Dakota Highway 73, thence north along South Dakota Highway 73 to junction U.S. Highway 18, thence east along U.S. Highway 18 to junction U.S. Highway 183, thence north along U.S. Highway 183, to junction U.S. Highway 16, thence east along U.S. Highway 16 to junction South Dakota Highway 45, thence north along South Dakota Highway 45 to junction South Dakota Highway 34, thence east along South Dakota Highway 34 to junction South Dakota Highway 25, thence north along South Dakota Highway 25 to junction U.S. Highway 14, and thence east along U.S. Highway 14 to the South Dakota-Minnesota State line, to points in South Carolina on and bounded by a line beginning at the North Carolina-South Carolina State line and extending along U.S. Highway 25 to junction South Carolina Highway 11, thence west along South Carolina Highway 11 to junction U.S. Highway 276, thence south along U.S. Highway 276 to junction South Carolina Highway 186.

Thence south along South Carolina Highway 186 to junction South Carolina Highway 135, thence south along South Carolina Highway 135 to junction U.S. Highway 178, thence south along U.S. Highway 178 to junction South Carolina Highway 28, thence southeast along South Carolina Highway 28 to the South Carolina-Georgia State line, thence southeast along the South Carolina-Georgia State line to the Atlantic Ocean, thence northeast along the Atlantic Coast to the Edisto River, thence north along the Edisto River to junction U.S. Highway 15, thence north along U.S. Highway 15 to junction U.S. Highway 178, thence northwest along U.S. Highway 178 to junction U.S. Highway 21, thence northwest along U.S. Highway 21 to junction South Carolina Highway 6, thence northwest along South Carolina Highway 6 to junction South Carolina Highway 60, thence east along South Carolina Highway 60 to junction U.S. Highway 176, thence northwest along U.S. Highway 176 to junction U.S. Highway 221, thence north along U.S. Highway 221 to the South Carolina-North Carolina State line, and thence west along the South Carolina-North Carolina State line to point of beginning, restricted against the transportation of those commodities requiring special equipment. The purpose of this filing is to eliminate the gateways of Bedford and Lynchburg, Va.

No. MC 61825 (Sub-No. E811), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, materials, equipment, and supplies* used in the manufacture and distribution of clocks, new furniture and furniture parts (except in bulk), from points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, Utah, Washington, and Wyoming, and points in Colorado, Nebraska, New Mexico, and South Dakota on, north and west of a line beginning at the United States-Mexico International Boundary line and extending north along the New Mexico-Texas State line to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction New Mexico Highway 52, thence north along New Mexico Highway 52 to junction New Mexico Highway 78, thence north along New Mexico Highway 78 to junction U.S. Highway 60, thence west along U.S. Highway 60 to junction New Mexico Highway 117, thence north along New Mexico Highway 117 to junction U.S. Highway 66, thence northwest along U.S. Highway 66 to junction New Mexico Highway 57, thence north along New Mexico Highway 57 to junction New Mexico Highway 44, thence southeast along New Mexico Highway 44 to junction New Mexico Highway 96, thence north along New Mexico Highway 96 to junction New Mexico Highway 112, thence north along New Mexico Highway 112 to junction

U.S. Highway 84, thence north along U.S. Highway 84 to junction New Mexico Highway 17, thence northeast along New Mexico Highway 17 to junction Colorado Highway 17, thence northeast along Colorado Highway 17 to junction U.S. Highway 285, thence north along U.S. Highway 285 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction U.S. Highway 6, thence northeast along U.S. Highway 6 to junction Interstate Highway 80S, thence east along Interstate Highway 80S to junction Interstate Highway 80.

Thence east along Interstate Highway 80 to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction Nebraska Highway 2, thence southeast along Nebraska Highway 2 to junction Nebraska Highway 91, thence east along Nebraska Highway 91 to junction Nebraska Highway 7, thence north along Nebraska Highway 7 to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction Nebraska Highway 11, thence north along Nebraska Highway 11 to junction U.S. Highway 18, thence northeast along U.S. Highway 18 to junction South Dakota Highway 37, thence north along South Dakota Highway 37 to junction South Dakota Highway 44, thence east along South Dakota Highway 44 to junction U.S. Highway 81, thence north along U.S. Highway 81 to junction U.S. Highway 16, and thence east along U.S. Highway 16 to the South Dakota-Minnesota State line, to points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending southeast along U.S. Highway 19E to junction North Carolina Highway 194, thence south along North Carolina Highway 194 to junction U.S. Highway 221, thence south along U.S. Highway 221 to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction North Carolina Highway 216, thence northeast along North Carolina Highway 216 to junction U.S. Highway 74, thence west along U.S. Highway 74 to junction North Carolina Highway 18, thence north along North Carolina Highway 18 to junction North Carolina Highway 10, thence northeast along North Carolina Highway 10 to junction North Carolina Highway 127, thence north along North Carolina Highway 127 to junction U.S. Highway 321, thence northwest along U.S. Highway 321 to junction U.S. Highway 321 Alternate, thence northwest along U.S. Highway 321 Alternate to junction U.S. Highway 321, thence northwest along U.S. Highway 321 to junction U.S. Highway 421, thence northwest along U.S. Highway 421 to the North Carolina-Tennessee State line, and thence southwest along the North Carolina-Tennessee State line to point of beginning, restricted against the transportation of those commodities requiring special equipment. The purpose of this filing is to eliminate the gateways of Bedford and Lynchburg, Va.

No. MC 61825 (Sub-No. E812), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth St., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clocks, materials, equipment, and supplies* used in the manufacture and distribution of clocks, new furniture and furniture parts (except in bulk), from points in Oregon and Washington, and points in California, Idaho, Montana, Nevada, and North Dakota on, north and west of a line beginning at Monterey, Calif., and extending east along California Highway 68 to junction U.S. Highway 101, thence northwest along U.S. Highway 101 to junction California Highway 17, thence north along California Highway 17 to junction unnumbered highway at Milpitas, Calif., thence east along unnumbered highway to junction Interstate Highway 680, thence north along Interstate Highway 680 to junction Interstate Highway 580, thence southeast along Interstate Highway 580 to junction Interstate Highway 5, thence east along Interstate Highway 5 to junction California Highway 132, thence east along California Highway 132 to junction California Highway 108, thence northeast along California Highway 108 to junction California Highway 120, thence east along California Highway 120 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction Nevada Highway 8A, thence north along Nevada Highway 8A to junction Nevada Highway 82, thence north along Nevada Highway 82 to junction U.S. Highway 50, thence east along U.S. Highway 50 to junction Nevada Highway 46, thence north along Nevada Highway 46 to junction U.S. Highway 40, thence east along U.S. Highway 40 to junction U.S. Highway 93, thence north along U.S. Highway 93 to junction U.S. Highway 93 Alternate.

Thence northeast along U.S. Highway 93 Alternate to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction Idaho Highway 22, thence northeast along Idaho Highway 22 to junction U.S. Highway 91, thence north along U.S. Highway 91 to the Idaho-Montana State line, thence east along the Idaho-Montana State line to the Idaho-Montana-Wyoming State line, thence north and thence east along the Montana-Wyoming State line to junction U.S. Highway 212, thence northeast along U.S. Highway 212 to junction U.S. Highway 10, thence northeast along U.S. Highway 10 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 85, thence north along U.S. Highway 85 to junction North Dakota Highway 21, thence east along North Dakota Highway 21 to junction North Dakota Highway 22, thence north along North Dakota Highway 22 to junction U.S. Highway 10, thence east along U.S. Highway 10 to junction North Dakota Highway 31, thence north along North Dakota Highway 31 to junction North Dakota Highway 200A, thence east along North Dakota Highway 200A to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction North Dakota Highway 200, thence east along North Dakota Highway 200 to junction North Dakota Highway 41, thence north along North Dakota Highway 41 to junction U.S. Highway 52, thence southeast along U.S. Highway 52 to junction North Dakota Highway 14, thence north along North Dakota Highway 14 to junction U.S. Highway 2, thence east along U.S. Highway 2 to junction North Dakota Highway 3, thence north along North Dakota Highway 3 to junction North Dakota Highway 66, thence east along North Dakota Highway 66 to junction U.S. Highway 281.

Thence north along U.S. Highway 281 to junction North Dakota Highway 5, thence east along North Dakota Highway 5 to junction North Dakota Highway 20, thence north along North Dakota Highway 20 to the United States-Canadian International Boundary line, to points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending south along U.S. Highway 129 to Andrews, N.C., thence northeast along U.S. Highway 19 to junction North Carolina Highway 28, thence southeast along North Carolina Highway 28 to junction U.S. Highway 441, thence south along U.S. Highway 441 to the North Carolina-Georgia State line, thence east along the North Carolina-Georgia State line to the North Carolina-South Carolina State line, thence east along North Carolina-South Carolina State line to junction U.S. Highway 221, thence north along U.S. Highway 221 to junction North Carolina Highway 194, thence north along North Carolina Highway 194 to junction U.S. Highway 19E, thence northwest along U.S. Highway 19E to the North Carolina-Tennessee State line, thence southwest along the North Carolina-Tennessee State line to point of beginning, restricted against the transportation of those commodities requiring special equipment. The purpose of this filing is to eliminate the gateways of Bedford and Lynchburg, Va.

No. MC 61825 (Sub-E817), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth Street, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture, Furniture parts*, and *Furniture materials* (except in bulk, from points in Arizona, California, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming, and points in Colorado, Nebraska, and New Mexico on and northwest of a line beginning at the Texas-New Mexico State line and extending north along U.S. Highway 54 to junction New Mexico Highway 3, thence north along New Mexico Highway 3 to junction Colorado

Highway 159, thence north along Colorado Highway 159 to junction U.S. Highway 160, thence east along U.S. Highway 160 to junction Colorado Highway 10, thence northeast along Colorado Highway 167 to junction Colorado Highway 96, thence east along Colorado Highway 96 to junction Colorado Highway 71, thence north along Colorado Highway 71 to junction U.S. Highway 24, thence east along U.S. Highway 24 to the Colorado-Kansas State line, thence north along the Colorado-Kansas State line, to the Colorado-Nebraska State line, thence north along the Colorado-Nebraska State line to junction Nebraska Highway 23, thence east along Nebraska Highway 23 to junction U.S. Highway 283, thence north along U.S. Highway 283 to junction U.S. Highway 30, thence east along U.S. Highway 30 to junction U.S. Highway 183, thence north along U.S. Highway 183 to junction Nebraska Highway 70, thence northeast along Nebraska Highway 70 to junction U.S. Highway 275, thence east along U.S. Highway 275 to junction Nebraska Highway 35, thence northeast along Nebraska Highway 35 to junction U S. Highway 73, and thence north along U.S. Highway 73 to the Nebraska-Iowa State line, to points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending south along North Carolina Highway 226 to junction North Carolina Highway 197, thence southwest along North Carolina Highway 197 to junction U.S. Highway 23, thence south along U.S. Highway 23 to junction U.S. Highway 25, thence south along U.S. Highway 25 to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction U.S. Highway 221, thence north along U.S. Highway 221 to junction U.S. Highway 321, thence northwest along U.S. 321 to junction U.S. Highway 421, thence north along U.S. Highway 421 to the North Carolina-Tennessee State line, and thence southwest along the North Carolina-Tennessee State line to point of beginning. The purpose of this filing is to eliminate the gateway of Bassett, Va.

No. MC 61825 (Sub-E818), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collingsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth Street, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture, Furniture parts*, and *Furniture materials*, except in bulk, from points in Idaho, Montana, Oregon, and Washington, and points in California, Nevada, North Dakota, South Dakota, Utah, and Wyoming on, north and west of a line beginning at the United States-Mexico International Boundary line and extending north along California Highway 111 to junction Interstate Highway 10, thence west along Interstate Highway 10 to junction U.S. Highway 395, thence north along U.S. Highway 395 to junction U.S. Highway 66, thence north along U.S. Highway 66 to junction Interstate Highway 15, thence northeast along Interstate Highway 15 to junction California Highway 127, thence north along California Highway 127 to junction California Highway 178, thence north along California Highway 178 to junction Nevada Highway 52, thence northeast along Nevada Highway 52 to junction Nevada Highway 16, thence north along Nevada Highway 16 to junction U.S. Highway 95, thence northwest along U.S. Highway 95 to junction U.S. Highway 6, thence east along U.S. Highway 6 to junction Nevada Highway 25, thence east along Nevada Highway 25 to junction Utah Highway 56, thence east along Utah Highway 56 to junction U.S. Highway 91, thence northeast along U.S. Highway 91 to junction Utah Highway 20, thence southeast along Utah Highway 20 to junction U.S. Highway 89, thence northeast along U.S. Highway 89 to junction Interstate Highway 70, thence east along Interstate Highway 70 to junction Utah Highway 10.

Thence northeast along Utah Highway 10 to junction U.S. Highway 6, thence northwest along U.S. Highway 6 to junction U.S. Highway 89, thence north along U.S. Highway 89 to junction U.S. Highway 189, thence north along U.S. Highway 189 to junction U.S. Highway 187, thence southeast along U.S. Highway 187 to junction Wyoming Highway 28, thence northeast along Wyoming Highway 28 to junction U.S. Highway 287, thence north along U.S. Highway 287 to junction Wyoming Highway 789, thence northeast along Wyoming Highway 789 to junction U.S. Highway 16, thence northeast along U.S. Highway 16 to junction Interstate Highway 90, thence east along Interstate Highway 90 to Rapid City, S. Dak., thence northwest along U.S. Highway 14 to junction South Dakota Highway 34, thence east along South Dakota Highway 34 to junction South Dakota Highway 73, thence north along South Dakota Highway 73 to junction U.S. Highway 212, thence east along U.S. Highway 212 to junction South Dakota Highway 47, thence north along South Dakota Highway 47 to junction U.S. Highway 12, thence east along U.S. Highway 12 to junction U.S. Highway 281, thence north along U.S. Highway 281 to junction North Dakota Highway 11, thence east along North Dakota Highway 11 to junction North Dakota Highway 1, thence north along North Dakota Highway 1 to junction North Dakota Highway 46, thence east along North Dakota Highway 46 to junction North Dakota Highway 18, thence north along North Dakota Highway 18 to junction U.S. Highway 10, and thence east along U.S. Highway 10 to the North Dakota-Minnesota State line, to points in North Carolina on and bounded by a line beginning at the Tennessee-North Carolina State line and extending south along U.S. Highway 129 to junction U.S. Highway 19 at Andrews, North Carolina, thence northeast along U.S. Highway 19 to junction North Carolina Highway 28.

Thence south along North Carolina Highway 28 to junction U.S. Highway 23, thence south along U.S. Highway 23 to the North Carolina-Georgia State line, thence east along the North Carolina-Georgia State line to the North Carolina-South Carolina State line, thence east along the North Carolina-South Carolina State line to junction U.S. Highway 25, thence north along U.S. Highway 25 to junction U.S. Highway 23, thence north along U.S. Highway 23 to junction North Carolina Highway 197, thence northeast along North Carolina Highway 197 to junction North Carolina Highway 226, thence north along North Carolina Highway 226 to the North Carolina-Tennessee State line, and thence southwest along the North Carolina-Tennessee State line to point of beginning. The purpose of this filing is to eliminate the gateways of Bassett, Va.

No. MC 61825 (Sub-E819), filed March 5, 1976. Applicant: ROY STONE TRANSFER CORPORATION, P.O. Box 385, Collinsville, Va. 24078. Applicant's representative: Harry J. Jordan, 1000 Sixteenth Street, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New Furniture, Furniture parts*, and *Furniture materials*, from points in Oregon and Washington, and points in California, Idaho, Montana, Nevada, and North Dakota on, north and west of a line beginning at Santa Barbara, California and extending northwest along U.S. Highway 101 to junction California Highway 41, thence northeast along California Highway 41 to junction California Highway 198, thence east along California Highway 198 to junction California Highway 43, thence south along California Highway 43 to junction California Highway 137, thence northeast along California Highway 137 to junction California Highway 99, thence northwest along California Highway 99 to junction California Highway 41, thence north along California Highway 41 to junction California Highway 49, thence northwest along California Highway 49 to junction California Highway 120, thence east along California Highway 120 to junction U.S. Highway 395, thence southeast along U.S. Highway 395 to junction U.S. Highway 6, thence northeast along U.S. Highway 6 to junction U.S. Highway 93, thence north along U.S. Highway 93 to junction U.S. Highway 26, thence northeast along U.S. Highway 26 to junction U.S. Highway 20, thence east along U.S. Highway 20 to junction U.S. Highway 191, thence northeast along U.S. Highway 191 to the Montana-Wyoming State line, thence north and thence east along the Montana-Wyoming State line to junction U.S. Highway 212, thence northeast along U.S. Highway 212 to junction U.S. Highway 10.

Thence northeast along U.S. Highway 10 to junction U.S. Highway 83, thence north along U.S. Highway 83 to junction North Dakota Highway 41, thence north along North Dakota Highway 41 to junction North Dakota Highway 200, thence east along North Dakota Highway 200 to junction North Dakota Highway 14, thence north along North Dakota Highway 14 to junction U.S. Highway 52, thence southeast along U.S. Highway 52 to junction North Dakota Highway 3, thence north along North Dakota Highway 3 to junction U.S. Highway 2, thence east along U.S. Highway 2 to junction U.S. Highway 281, thence north along U.S. Highway 281 to junction North Dakota Highway 5, thence east along North Dakota Highway 5 to junction North Dakota Highway 1, thence north along North Dakota Highway 1 to the United States-Canadian International Boundary line, to points in North Carolina on and southwest of a line beginning at the Tennessee-North Carolina State line and extending south along U.S. 129 to Andrews, North Carolina, thence northeast along U.S. Highway 19 to junction North Carolina Highway 28, thence south along North Carolina 28 to junction U.S. Highway 23, thence south along U.S. Highway 23 to the North Carolina-Georgia State line. The purpose of this filing is to eliminate the gateways of Basset, Va.

No. MC 107012 (Sub-No. E16) (partial correction), filed June 3, 1974, published in the FEDERAL REGISTER issue of August 26, 1975, and republished, as corrected, this issue. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: Terry G. Fewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (C) *New furniture*, crated, from Los Angeles County, Calif., to points in Maine, New Hampshire, and Vermont. (Greene County, Ark.) * The purpose of this filing is to eliminate the gateways indicated by asterisks above.

NOTE.—The purpose of this partial correction is to include Part (C) that was omitted in prior publication. The remainder of this letter notice remains as previously published.

No. MC 108449 (Sub-No. E196), filed June 4, 1974. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road, C, St. Paul, Minn. 55113. Applicant's representative: W. A. Mylienbeck (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned goods*, from points in Wisconsin in and north and east of Ozaukee, Washington, Dodge, Columbia, Sauk, Juneau, Wood, Marathon, Lincoln, Oneida, and Vilas Counties, Wis., to points in Iowa on and north of a line beginning at the Iowa-Nebraska State line and extending along Iowa Highway 175 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 24, thence along Iowa Highway 24 to junction Iowa Highway 139, thence along Iowa Highway 139 to the Iowa-Minnesota State line. The purpose of this filing is to eliminate the gateway of Winona, Minn.

No. MC 112070 (Sub-No. E41), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in Pennsylvania, on the one hand, and, on the other, poin's in Iowa; (b) between points in Pennsylvania, on the one hand, and, on the other, those points in Michigan on and west of a line beginning at the International Boundary line between United States and Canada, and extending along Interstate Highway 75, thence along Interstate Highway 75 to the Michigan State line at or near St. Ignace, Mich. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 112070 (Sub-No. E43), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in Indiana, on the one hand, and, on the other, points in Iowa, Wisconsin and Minnesota; (b) between points in Indiana, on the one hand, and, on the other, points in Nebraska, South Dakota, Colorado, Kansas, and Wyoming. The purpose of this filing is to eliminate the gateway of points of Illinois.

No. MC 112070 (Sub-No. E44), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between those points in Nebraska on and east of a line beginning at the South Dakota-Nebraska State line, and extending along U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence west along Nebraska Highway 92 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line, on the one hand, and, on the other, those points in Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line, and extending along U.S. Highway 75, thence along U.S. Highway 75 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E45), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in Brown, Doniphan, and Atchison Counties, Kans., on the one hand, and, on the other, those points in Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line, and extending along Oklahoma Highway 74, to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 64, thence along

filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E46), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colorado 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Pennsylvania, on the one hand, and, on the other, Enid, Okla., and points within 90 miles thereof. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E47), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Tennessee, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of points in Illinois.

No. MC 112070 (Sub-No. E48), filed June 4, 1974. Applicant: GRAY MOVING STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Tennessee, on the one hand, and, on the other, points in Colorado, Kansas and Wyoming. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E49), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Colorado, on the one hand, and, on the other, points in Arkansas. The prpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E50), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in Brown, Doniphan, and Atchison Counties, Kans., on the one hand, and, on the other, those points in Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line, and extending along Oklahoma Highway 74, to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 64, thence along

U.S. Highway 64 to the Oklahoma-Arkansas State line; (b) those points in Kansas on and north of a line beginning at the Colorado-Kansas State line, and extending along Kansas Highway 96, thence along Kansas Highway 96 to junction Kansas Highway 15, thence along Kansas Highway 15 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E51), filed June 4, 1974. Applicnt: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above), Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between points in Kansas, on the one hand, and, on the other, those points in Arkansas on and north of a line beginning at the Oklahoma-Arkansas State line, and extending along Arkansas Highway 16 to junction Arkansas Highway 23, thence along Arkansas Highway 23 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Arkansas-Tennessee State line; (b) between points in Kansas, on the one hand, and, on the other, points in Kentucky. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E52), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, (a) between those points in Kansas on and east of a line beginning at the Kansas-Nebraska State line, and extending along U.S. Highway 81, thence along U.S. Highway 81 to junction Kansas Highway 18, thence along Kansas Highway 18 to junction Kansas Highway 99, thence along Kansas Highway 99 to junction Kansas Highway 57, thence east on Kansas Highway 57 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Kansas Highway 39, thence along Kansas Highway 39 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Kansas-Oklahoma State line, on the one hand, and, on the other, those points in Oklahoma on and west of a line beginning at the Missouri-Oklahoma State line, and extending along Interstate Highway 44 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Oklahoma-Texas State line; (b) between those points in Kansas on and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 159, thence along U.S. Highway 159 to U.S. Highway 59, thence along U.S. Highway 59 to junction Kansas Highway 31, thence along Kansas Highway 31 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Kansas-Oklahoma State line, on the one hand, and, on the other, to those points in Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line, and extending along U.S. Highway 75, thence along U.S. Highway 75 to the Oklahoma-Texas State line; (c) between points in Cherokee and Crawford Counties, Kans., on the one hand, and, on the other, points in Oklahoma. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E53), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Kentucky, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC 112070 (Sub-No. E54), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in South Dakota on and east of the Missouri River, on the one hand, and, on the other, points in Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line, and extending along U.S. Highway 75, thence along U.S. Highway to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of points in Missouri.

No. MC-112070 (Sub-No. E55), filed June 4, 1974. Applicant: GRAY MOVING & STORAGE, INC., 1290 South Pearl, Denver, Colo. 80210. Applicant's representative: D. R. Gray (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared foodstuffs* (except frozen), from Coloma, Mich., to Minneapolis and St. Paul, Minn. The purpose of this filing is to eliminate the gateway of points in Wisconsin on and south of U.S. Highway 10 (except Milwaukee).

No. MC 119767 (Sub-No. E54), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned food* (except dairy products, frozen fruit, frozen vegetables, frozen berries and commodities in bulk, in tank vehicles), from points in Indiana on and north of U.S. Highway 24 to points in Missouri on and east of U.S. Highway 65 and on and west of U.S. Highway 63. The purpose of this filing is to eliminate the gateway of points in Wisconsin within 75 miles of Beaver Dam, Wis. (except Brookfield, Cudahy, Darien, Waukesha, Kenosha, Waupaca, Hilbert, Kaukauna, Mayville, and Watertown, Wis. and points within their respective commercial zones and defined by the Commission).

No. MC 119767 (Sub-No. E56), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except dairy products, frozen foods, frozen fruit, frozen vegetables, frozen berries and commodities in bulk, in tank vehicles), from Coloma, Mich., to points in Laclede, Webster, Wright, Douglas, and Ozark Counties, Mo. and points in Dallas, Greene, Christian, and Taney Counties, Mo. on and east of U.S. Highway 65. The purpose of this filing is to eliminate the *gateways* of points in Walworth and Racine Counties, Wis.

No. MC 119767 (Sub-No. E57), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products, dairy products and by-products, and materials, supplies and equipment* used in the preparation, packing, and sale of these commodities (except in bulk), between points in that part of Illinois on, north and east of a line beginning at the Illinois-Wisconsin State line and extending along Illinois Highway 47 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Illinois-Indiana State line, on the one hand, and, on the other, points in that part of Minnesota on and north of a line beginning at the South Dakota-Minnesota State line and extending along U.S. Highway 14 to New Ulm, Minn., thence along Minnesota Highway 15 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Minnesota-Wisconsin State line, including all points in McLeod, Hennepin, and Washington Counties, Minn. The purpose of this filing is to eliminate the *gateways* of Minneapolis, Minn. and points in the Towns of Rock Elm and Spring Lake, Pierce County, Wis., those in the Towns of Eau Galle, Weston, and Dunn, Dunn County, Wis. and those in the Towns of Waubeck, Waterville, and Durand, Pepin County, Wis.

No. MC 119767 (Sub-No. E58), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products, dairy products and by-products, and materials, supplies and equipment* used in the preparation, packing and sale of these commodities (except in bulk), between points in Indiana, on the one hand, and, on the other, points in Minnesota on and north of a line beginning at the South Dakota-Minnesota State line and extending along Minnesota Highway 30 to junction Minnesota Highway 60 at or near St. James, Minn., thence along Minnesota Highway 60 to junction U.S. Highway 169 near Mankato, Minn., thence along U.S. Highway 169 to junction Minnesota Highway 19, thence along Minnesota Highway 19 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi River at or near Red Wing, Minn. The purpose of this filing is to eliminate the *gateways* of Minneapolis, Minn. and points in the Towns of Rock Elm and Spring Lake, Pierce County, Wis., those in the Towns of Eau Galle, Weston, and Dunn, Dunn County, Wis., and those in the Towns of Waubeck, Waterville, and Durand, Pepin County, Wis.

No. MC 119767 (Sub-No. E59), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products, dairy products and by-products, and materials, supplies and equipment* used in the preparation, packing, and sale of these commodities (except in bulk), between points in Illinois, on the one hand, and, on the other, points in Minnesota on and north of U.S. Highway 12. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn. and points in the Towns of Rock Elm and Spring Lake, Pierce County, Wis., those in the Towns of Eau Galle, Weston, and Dunn, Dunn County, Wis., and those in the Towns of Waubeck, Waterville, and Durand, Pepin County, Wis.

No. MC 119767 (Sub-No. E60), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth Street, N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products and dairy products* (except in bulk, in tank vehicles), from Chicago, Ill., and points in its commercial zone, to points in that part of the Lower Peninsula of Michigan on, north, and east of a line beginning at Lake Michigan near Ludington, Mich., and extending along U.S. Highway 10 to junction U.S. Highway 27, thence along U.S. Highway 27 to Lansing, Mich., thence along U.S. Highway 127 to Jackson, Mich., thence along Interstate Highway 94 to junction Michigan Highway 52, thence along Michigan Highway 52 to the Ohio-Michigan State line. The purpose of this filing is to eliminate the gateway of points in Wisconsin (except Racine, Kenosha, Milwaukee, Brookfield, Fort Atkinson and points in their respective commercial zones).

No. MC 119767 (Sub-No. E61), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., N.W., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared food products and dairy products* (except in bulk, in tank vehicles), from points in Illinois on and north of a line beginning at the Mississippi River near Moline, Ill. and extending along Illinois Highway 2 to junction Winnebago-Ogle County line, thence along the southern boundary of Winnebago, Boone, McHenry and Lake Counties, Ill. to Lake Michigan, to points in that part of the Lower Peninsula of Michigan on, north and east of a line beginning at Lake Michigan near Muskegon, Mich., and extending along Interstate Highway 96 to junction Michigan Highway 37, thence along Michigan Highway 37 to junction Michigan Highway 89, thence along Michigan Highway 89 to junction Interstate Highway 69, thence along Interstate Highway 69 to the Indiana-Michigan State line (except Grand Rapids, Mich.). The purpose of this filing is to eliminate the gateway of points in Wisconsin (except Racine, Kenosha, Milwaukee, Brookfield, Fort Atkinson and their respective commercial zones).

No. MC 119767 (Sub-No. E62), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such glassware, glass containers and closures for glass containers* as are materials, supplies, and equipment used or useful in the preparation, packing, and sale of prepared food products, dairy products and by-products, from points in Indiana on and west of a line beginning at Lake Michigan and extending along U.S. Highway 421 to junction Indiana Highway 43, thence along Indiana Highway 43 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 57, thence along Indiana Highway 57 to the Indiana-Kentucky State line, to points in Minnesota and points in Iowa on and north of Iowa Highway 18. The purpose of this filing is to eliminate the gateway of Burlington, Wis.

No. MC 119767 (Sub-No. E63), filed June 4, 1974. Applicant: BEAVER TRANSPORT CO., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: Henry Seaton, 915 Pennsylvania Building, 425 Thirteenth Street, NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products* (ex-

cept frozen foods), from points in Minnesota on and south of U.S. Highway 12, to points in Ohio on and west of a line beginning at the Sandusky, Ohio and extending south along Ohio Highway 4 to Marion, Ohio, and thence south along U.S. Highway 23 to Portsmouth, Ohio. The purpose of this filing is to eliminate the gateway of points in Wisconsin (except Fort Atkinson, Brookfield, and the commercial zones thereof as defined by the Commission, and Milwaukee, Wis. and except points in Douglas, Bayfield, Ashland, Iron, Vilas, Forest, Florence, Marinette and Door Counties).

By the Commission.

ROBERT L. OSWALD,
Secretary.

[Notice No. 12]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

The following publications include motor carrier, water carrier, broker, and freight forwarder tansfer applications filed under section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act.

Each application (except as otherwise specifically noted) contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application.

Protests against approval of the application, which may include a request for oral hearing, must be filed with the Commission on or before February 28, 1977. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest must be served upon applicants' representative(s), or applicants (if no such representative is named), and the protestant must certify that such service has been made.

Unless otherwise specified, the signed original and six copies of the protest shall be filed with the Commission. All protests must specify with particularity the factual basis, and the section of the Act, or the applicable rule governing the proposed transfer which protestant believes would preclude approval of the application. If the protest contains a request for oral hearing, the request shall be supported by an explanation as to why the evidence sought to be presented cannot reasonably be submitted through the use of affidavits.

The operating rights set forth below are in synopses form, but are demed sufficient to place interested persons on notice of the proposed transfer.

No. MC-FC-76841, filed November 26, 1976. Transferee: O'BOYLE TRANSFER CO., INC., 1800 N Western Avenue, Chicago, Illinois, 60647. Transferor: Carl O. Minnberg, doing business as Calder's Van Company, 1800 N. Western Avenue, Chicago, Illinois, 60647. Applicants' representative: Walter N. New, 10 S. La Salle Street, Chicago, Illinois, 60603. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 95293, issued August 26, 1974, as follows: Household goods as defined by the Commission, Between Chicago, Evanston City and points in New Trier and Niles Townships, Ill., on the one hand, and, on the other, points in Minnesota, Iowa, Nebraska, Wisconsin, Ohio, and Indiana. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-7685, filed December 3, 1976. Transferee: O'CONNOR BROTHERS MOVING AND STORAGE CO., INC., 429-37 Schiller St., Elizabeth, New Jersey 07206. Transferor: Patrick J. O'Connor, Jewel O'Connor, Administratrix, doing business as O'Connor Brothers, 429-37 Schiller St., Elizabeth, New Jersey 07206. Applicants' representative: Frank O'Conor, 429-37 Schiller St., Elizabeth, New Jersey, 07206. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 8526, issued December 5, 1973, as follows: Household goods, between points in Essex, Union, Hudson, and Middlesex Counties, N.J., on the one hand, and, on the other, points in New Jersey and New York. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76872, filed December 15, 1977. Transferee: SALMON RIVER STAGES, INC., P.O. Box 806, Salmon, Idaho 83467. Transferor: Billie G. Peterson, doing business as Salmon River Stages, P.O. Box 806, Salmon, Idaho 83467. Applicant's representative: Billy G. Peterson, Box 806, Salmon, Idaho 83467. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC 1578 issued August 8, 1975, as follows: Passengers and their baggage, and express and newspapers, in the same vehicle with passengers, over specified regular routes between Pocatello, Idaho, and Salmon, Idaho, serving all intermediate points, and the off-route point of Challis, Idaho; Between Idaho Falls, Idaho, and Salmon, Idaho, serving all intermediate points; Between Roberts, Idaho, and Idaho Falls, Idaho, serving all intermediate points; and Between junction Idaho Highway 28 and unnumbered highway (known as Pole Line Road), and the site of the Atomic Energy Plant, serving all intermediate points. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76873, filed December 14, 1976. Transferee: MOTOR LEASING CO., 905 Smelter Ave., P.O. Box 652, Great Falls, Montana, 59403. Transferor: Glacier Transportation, 812 19th St. N., Great Falls, Montana. Applicant's representative: J. Ward Kencke, P.O. Box 652, Great Falls, Montana, 59403. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate No. MC-29477 issued June 24, 1970, as follows: (A) *Passengers and their baggage, and express and mail*, in the same vehicle with passengers, over specified regular routes, between Great Falls, Mont., and Choteau, Mont., serving all intermediate points: *Passengers and their baggage*, from the 15th day of June to the 15th day of September each year, inclusive, over specified regular route between Browning, Mont., on the one hand, and, on the other, Glacier Park Mont.: *Passengers and their baggage, and express* in the same vehicle with passengers, over specified regular route, between Choteau, Mont., and Browning, Mont., serving all intermediate points: (Incidental charter operations may be conducted pursuant to Section 208(c) of the Interstate Commerce Act. (B) *Passengers and their baggage and express*, in the same vehicle with passengers, over specified regular route, between junction U.S. Highway 89 and Montana Highway 219 and Pendroy, Mont., serving no intermediate points: *Passengers and their baggage*, over specified regular route, between Browning, Mont., and Kalispell, Mont., serving no intermediate points: *Passengers and their baggage*, between Browning, Mont., and Glacier Park, Mont., serving no intermediate points: The filed after January 1, 1967, and, therefore, no incidental charter operations are authorized. *Passengers and their baggage* in the same vehicle with passengers, in special and charter operations, over irregular routes, Beginning and ending at points on the routes next above, and extending to points in the United States (including Alaska, but excluding Hawaii). Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210 a(b).

No. MC-FC-76875 filed December 14, 1976. Transferee: MUSTANG TRANSPORTATION INCORPORATED, 3804 Jensen Drive, P.O. Box 21201, Houston, Texas 77026. Transferor: Ramsey Truck Lines, Inc., P.O. Box 1031, Houston, Texas 77001. Applicant's representative: J. G. Dail, Jr., P.O. Box 567, McLean, Virginia 22101. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate of Registration No. MC-133506, issued December 9, 1969, as follows: Oilfield equipment and pipe when moving as oilfield equipment and trenching machines and numerous other specified commodities between points in Texas. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

No. MC-FC-76887, filed December 21, 1976. Transferee: CENTER ENTERPRISES, INC., 5450 South Center Avenue, Summit, Illinois 60501. Transferor: O. K. Motor Service, Inc., 5450 South Center Avenue, Summit, Illinois 60501. Applicant's representative: Carl L. Steiner, Attorney at Law, Axelrod, Goodman, Steiner & Bazelon, 39 South La Salle Street, Chicago, Illinois 60603. Authority sought for purchase by transferee of the operating rights as set forth in Certificates No. MC-52587, MC-52587 (Sub-No. 1), MC-52587 (Sub-No. 2), MC-52587 (Sub-No. 7), MC-52587 (Sub-No. 9), and MC-52587 (Sub-No. 10), issued September 27, 1941, November 19, 1942, April 13, 1940, December 16, 1954, April 27, 1959, and April 25, 1968, respectively as follows: General commodities with the usual exceptions over specified regular routes between specified points in Illinois, Wisconsin, and Indiana; also malt beverages, newspapers, and magazines from Chicago, Ill. to specified points in Wisconsin, and iron and steel articles from the plant site of the Jones & Laughlin Steel Corp. located in Putnam County, Ill. to points in Wisconsin. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76889 filed December 21, 1976. Transferee: EABORN TRUCK SERVICE, INC., 1300 Crafton Boulevard, Pittsburgh, Pennsylvania 15205. Transferor: William R. Eaborn, doing business as Eaborn Truck Service, 1300 Crafton Boulevard, Pittsburgh, Pennsylvania 15205. Applicants' representative: Arthur J. Diskin, Esq., 806 Frick Building, Pittsburgh, Pennsylvania 15219. Authority sought for purchase by transferee of the operating rights of transferor, as set forth in Certificate of Registration No. MC-120757 (Sub-No. 1) issued January 28, 1965, corresponding in scope to certificate of public convenience and necessity No. 86527, dated July 27, 1959, issued by the Pennsylvania Public Utility Commission, as follows: To transport, as a Class B carrier, household goods and office furnishings, in use, between points in the Borough of Carnegie and the City of Pittsburgh, Allegheny County, and within five (5) miles by the usually traveled highways of the limits of the said borough. To transport, as a Class D carrier, household goods and office furnishings, in use, from points in the Borough of Carnegie and the City of Pittsburgh, Allegheny County, and within five (5) miles by the usually traveled highways of the limits of the said borough to other points within seventy-five (75) miles by the usually traveled highways of the limits of the said borough, and vice versa. To transport, as a Class B Carrier, property, excluding store equipment in use, between points in the Borough of Carnegie, Allegheny County, and within five (5) miles by the usually traveled highways of the limits of said borough. To transport, as a Class C carrier, property from points in the Borough of Carnegie, Allegheny County, and within five (5) miles by the usually traveled highways of the limits of said borough to points within thirty-five (35) miles by the usually traveled highways of the limits of said borough; and subject to the following conditions is necessary or proper for the service, accommodation or convenience of the public: First: That the rights, powers and privileges herein granted pertaining to the transportation of property for O. Hommel Company, shall be limited and restricted to the following points of destination: Boroughs of Carnegie, Heidelberg, Rosslyn Farms, Bridgeville, and the Townships of Scott and Collier. Second: That no right, power or privilege is granted to transport to or from the City of Pittsburgh, property, weighing less than six hundred (600) pounds, except freight from The Bell Telephone Company, Union Electric Steel Company, O. Hommel Company and the Superior Steel Company. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a (b).

No. MC-FC-76896, filed December 28, 1976. Transferee: Jekel Moving & Storage Co., 405 36th St., S.E., Grand Rapids, Mich. 49508. Transferor: Robert Jekel and David Jekel, doing business as Jekel Moving & Storage Co., 405 36th St., SE., Grand Rapids, Mich. 49508. Applicants' representative: William B. Elmer. Attorney-at-Law, 21635 East Nine Mile Road, St. Clair Shores, Mich. 49508. Authority sought for purchase by transferee of the operating rights set forth in Certificates Nos. MC-98391 (Sub-No. 2 and MC-98391 (Sub-No. 3), issued September 26, 1975 and May 14, 1975, respectively, to transferor as follows: Household goods as defined by the Commission, between points in Allegan, Barry, Ionia, Kent and Ottawa Counties, Mich., on the one hand, and, on the other, points in Michigan; and between Grand Rapids, Mich., and points in Michigan within 80 miles of Grand Rapids, on the one hand, and, on the other, points in Indiana, Illinois, Ohio, Pennsylvania, New York, and Wisconsin. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-76897, filed December 28, 1976. Transferee: ROBERT J. GARTNER, 3325 West 2nd St., Grand Island, Nebraska 68801. Transferor: Johnsrud Transport, Inc., Highway 9 West, P.O. Box 447, Cresco, Iowa 52136. Applicants' representative: Bruce A. Bullock, Attorney at Law, 530 Univvac Building, Omaha, Nebraska 68106; Patrick E. Quinn, Attorney at Law, P.O. Box 82028, Lincoln, Nebraska 68501. Authority sought for purchase by transferee that portion of the operating rights of transferor, as set forth in Certificate No. MC 128075 (Sub-No. 14), issued November 20, 1972, as follows: *Furniture*, from Minneapolis and St. Paul, Minn., to Riceville, Iowa, and points within 30 miles of Riceville, and *Emigrant movables*, between Osage, Iowa, and points in Iowa within 30 miles of Osage, on the one hand, and, on the other, points in Minnesota, and *fertilizer*, from points in Wisconsin to points in Mitchell County, Iowa. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b).

No. MC-FC-76899, filed December 27, 1976. Transferee: DELTA TRANSPORT CORPORATION, 217 Washington Avenue, Carlstadt, N.J. 07072. Transferor: First Transport Corporation, 250 Stanley St., New Britain, Conn. 06050. Applicants' representative: James E. Mahoney, Attorney-at-Law, 84 State St., Boston, Mass. 02109. Authority sought for purchase for transferee of the operating rights set forth in Certificate of Registration No. MC-87335 (Sub-No. 4), issued September 12, 1973, to transferor, as follows: General commodities, with specified exceptions, within Connecticut. Transferee is a carrier holding authority from this Commission under Certificate No. MC-93147. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-76900, filed December 27, 1976. Transferee: RONALD JOSEPH FIORILLO, doing business as RONALD FIORILLO TRUCKING, 1081 Ogden Ave., Bronx, N.Y. 10452, Transferor: Tomaselli Bros. Inc., 60 Thompson St., New York, N.Y. 10012. Applicants' representative: Bruce J. Robbins, Attorney-at-Law, One Lefrak City Plaza, Suite 1515, Flushing, N.Y. 11368. Authority sought for purchase by transferee of the operating rights of transferor set forth in Certificate No. MC-39429, issued June 16, 1943, as follows: Wines, liquors, and groceries, from New York, N.Y., to points in Passaic, Bergen, Union, Essex, Hudson, Middlesex, and Monmouth Counties, N.J. Transferee presently holds no authority from this Commission. Application has not been filed for temporary authority under Section 210a(b) of the Act.

No. MC-FC-76904, filed December 28, 1976. Transferee: WALLACE TRANSPORT INC., P.O. Box 214, Somers Point, N.J. 08244. Transferor: Johnsrud Transport, Inc., Highway 9 West, P.O. Box 447, Cresco, Iowa 52136. Applicants' representative: Raymond A. Thistle Jr., Attorney at Law, Suite 1012, Four Penn Center Plaza, Philadelphia, Pa.; Patrick E. Quinn, Attorney at Law, P.O. Box 82028, Lincoln, Neb. 68501. Authority sought for purchase by transferee of a portion of the operating rights of transferor, as set forth in Certificate No. MC-128075 (Sub-No. 22), issued October 8, 1976, as follows: Cheese, in mixed loads with milk and whey, and milk and whey in mixed loads with cheese, over irregular routes, from the facilities of Associated Milk Producers, Inc., at Rochester, Minn., Parkston, S. Dak. and Blair. Portage and Madison, Wis., to the above-named shipper's facilities at Mason City, Iowa, and *butter* and *cheese*, in mixed loads with milk and whey, and *milk* and *whey*, in mixed loads with butter and cheese, from the facilities of Associated Milk Producers, Inc., at points in Iowa and Minnesota to points in Connecticut, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Rhode Island. Transferee presently holds no authority from this Commission. Application has been filed for temporary authority under Section 210a(b).

[Notice No. 109]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JANUARY 27, 1977.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before February 16, 1977. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76390. By order of January 12, 1977 Division 3, acting as an Appellate Division, approved the transfer to Utah Moving & Storage Company, a corporation, Salt Lake City, Utah, of Certificate No. MC 59462 issued by the Commission October 2, 1945, to Hadley Transfer & Storage Company, Salt Lake City, Utah, authorizing the transportation of general commodities between points in Salt Lake City, Utah, and household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, between Salt Lake City, Utah, and points in Utah within 50 miles of Salt Lake City, on the one hand, and, on the other, points in Wyoming and those in Idaho, except those north of Salmon River Canyon. Thomas M. Zarr, Esquire, Nelson, Harding, Richards, Leonard & Tate, P.O. Box 2465 Salt Lake City, Utah 84110.

ROBERT L. OSWALD,
Secretary.

[Vol. No. 1]

PETITIONS FOR MODIFICATION, INTERPRETATION OR REINSTATEMENT OF OPERATING RIGHTS AUTHORITY

JANUARY 21, 1977.

The following petitions seek modification or interpretation of existing operating rights authority, or reinstatement of terminated operating rights authority.

An original and one copy of protests to the granting of the requested authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247)[1] and shall include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this itme. A copy of the protest shall be served concurrently upon petitioner's representative or petitioner if no representative is named.

No. MC 20861 (Sub-No. 4) (Notice of filing of petition to modify territorial description), filed December 6, 1976. Petitioner: FROZEN FOOD DELIVERY SERVICE, INC., 300 West St., Berlin, Mass. 01513. Petitioner's representative: Frank J. Weiner, 15 Court Square, Boston, Mass. 02108. Petitioner holds a motor *contract carrier* Permit in No. MC 20861 (Sub-No. 4), issued March 18, 1974, authorizing transportation, as pertinent, over irregular routes, of *frozen fruits* and *frozen vegetables*, from Taunton and Southborough, Mass., to points in Connecticut, Rhode Island, and New Hampshire, under a continuing contract, or contracts, with Newton Acres, Inc. By the instant petition, petitioner seeks to broaden the territorial description above through the addition of an additional territorial description to read as follows: "from Seabrook, N.J., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, under a continuing contract, or contracts, with Newton Acres, Inc."

No. MC 108207 (Sub-No. 1) (Notice of filing of petition to remove restrictions), filed December 16, 1976, Petitioner: FROZEN FOOD EXPRESS, INC., 318 Cadiz Street, Dallas, Tex. 75222. Petitioner's representative: Ralph W. Pulley, Jr., 4555 First National Bank Building, Dallas, Tex. 75202. Petitioner holds a motor *common carrier* certificate in No. MC 108207 (Sub-No. 1), issued June 18, 1952, authorizing transportation, as pertinent, over irregular routes, of (1) *Frozen foods, and meats, meat products, and meat by-products* as defined by the Commission (except canned or packaged meats and canned or packaged meat products, other than canned hams, packaged hams, and packaged bacon), dairy products as defined by the Commission, salad dressing, yeast, and uncooked bakery goods; and (2) *frozen foods, and meats, meat products, and meat by-products* as defined by the Commission (except canned or packaged meat products, other than canned hams, packaged hams, and packaged bacon), generally (a) between points in Texas, Louisiana, Illinois, Michigan, Missouri, Oklahoma, Arkansas, and Mississippi; and (b) between Memphis, Tenn., on the one hand, and, on the other, points in Texas, Louisiana, Michigan, Oklahoma, Missouri, Arkansas, Illinois and Mississippi. The territory has been condensed and does not exactly follow language contained in the original Certificate. By the instant petition, petitioner seeks to remove the restrictions in (1) and (2) above.

No. MC 128527 (Sub-No. 38) (Notice of filing of petition to remove restriction), filed December 20, 1976. Petitioner: MAY TRUCKING COMPANY, a Corporation, P.O. Box 398, Payette, Idaho 83661. Petitioner's representative: Edward G. Rawle, 4635 S.W. Lakeview Blvd., Lake Oswego, Oreg. 97034. Petitioner holds a motor *common carrier* Certificate in No. MC 128527 (Sub-No. 38), issued May 15, 1974, authorizing transportation over irregular routes, of *lumber, lumber mill products, particle board, and hardboard paneling*, used in the manufacture of mobile homes, recreational vehicles, and campers, between points in California, on the one hand, and, on the other, points in Ada, Canyon, Payette, and Washington Counties, Idaho, restricted to the transportation of shipments originating at the above-named origin points and destined to the above-named destination points.

By the instant petition, petitioner seeks to delete the restriction "used in the manufacture of mobile homes, recreational vehicles and campers" from the above authority.

No. MC 136408 (Sub-No. 22) (Notice of filing of petition to modify territorial description), filed November 22, 1976. Petitioner: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Petitioner's representative: William J. Hanlon, 55 Madison Avenue, Morristown, N.J. 07960. Petitioner holds a motor *contract carrier* Permit in No. MC 136408 (Sub-No. 22), issued June 29, 1976, authorizing transportation over irregular routes, of *chemicals* (except in bulk in tank vehicles), from Wallingford, Conn., and Linden, N.J., to points in Ohio, Michigan, Indiana, and Illinois, under a continuing contract, or contracts with American Cyanamid Co., of Wayne, N.J. By the instant petition, petitioner seeks to broaden the territorial description above by adding Bound Brook, N.J., as an additional origin point in the authority above.

REPUBLICATIONS OF GRANTS OF OPERATING RIGHTS AUTHORITY PRIOR TO CERTIFICATION

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the FEDERAL REGISTER.

An original and one copy of protests to the granting of the authority must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protest shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) addressing specifically the issue(s) indicated as the purpose for republication, and including a concise statement of protestant's interest in the proceeding and copies of its conflicting

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

authorities. Verified statements in opposition shall not be tendered at this time. A copy of the protest shall be served concurrently upon the carrier's representative, or carrier if no representative is named.

No. MC 111045 (Sub-No. 126) (Republication), filed November 17, 1975, published in the FEDERAL REGISTER issue of December 24, 1975, and republished this issue. Applicant: REDWING CARRIERS, INC., P.O. Box 426, Tampa, Fla. 33601. Applicant's representative: J. Douglas Harris, 1406 Union Bank Building, Montgomery, Ala. 36104. An Order of the Commission, Review Board Number 2, dated December 13, 1976, and served January 17, 1977, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, in the transportation of (1) *cleaning compounds*, in bulk, in tank vehicles, from points in Dade County, Fla., to points in New Jersey, New York, and Connecticut; and (2) *materials* used in the manufacture of cleaning compounds, in bulk in tank vehicles, from Fla.; that applicant is fit, willing, and Connecticut, to points in Dade County, Fla.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder.

NOTE.—The purpose of this republication is to indicate the addition of an additional commodity and territorial description in (2) above, in accplicant's grant of authority.

No. MC 141034 (Sub-No. 2) (Republication), filed March 26, 1976, published in the FEDERAL REGISTER issue of May 20, 1976, and republished this issue. Applicant: MARGIN LEASING, INC., 21 Baltic Road, Worcester, Mass. 01607. Applicant's representative: Ronald I. Shapss, 450 Seventh Avenue, New York, N.Y. 10001. An order of the Commission, Review Board Number 1, dated December 10, 1976, and served December 27, 1976, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, in the transportation of (1) *malt beverages and beverage containers*, between Merrimack, N.H., and East Cambridge, Mass.; and (2) *beverage containers*, between Merrimack, N.H., and Lawrence, Mass., under a continuing contract, or contracts, with Anheuser-Busch, of St. Louis, Mo., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder.

NOTE.—The purpose of this republication is to (I) indicate the nonradial grant of authority in (1) and (2) above rather than radial; and (II) indicate the addition of *beverage containers* as an additional commodity in (1) above, in applicant's grant of authority.

No. W-101 (exemption section 303(e)(2) (Republication), filed July 26, 1968, and published in the FEDERAL REGISTER issue of August 7, 1968, and republished this issue. An Order by the Commission, General Session, dated December 15, 1976, and served December 28, 1976, directs further processing of the proceeding below: Authority sought for cancellation of the above-noted exemption in the name of the RAYMOND INTERNATIONAL, INC., P.O. Box 22718, Houston, Tex. 77027, and reissuance of same to HOFFMAN INTERNATIONAL, INC. (formerly Hoffman Rigging & Crane Service, Inc.), a motor carrier, 560 Cortland St., Belleville, N.J. 07109. Applicant's attorney: Morton E. Kiel, 5 World Trade Center, Suite 6193, New York, N.Y. 10048. Exemption sought to be cancelled and reissued: Transportation, in interstate or foreign commerce, as a water contract carrier (1) by derricks and/or barges and tugs from and to ports on the Atlantic and Gulf coasts of heavy or bulky articles such as tanks, boilers, airplanes, cracking chambers, machinery and similar pieces of freight, and (2) by towing vessels and derrick lighters of contractors' equipment and material, consisting of steam shovels, pile driving rigs, trucks, bulldozers, ditching machines, caterpillar cranes, compressors, dredges, derrick lighters, and other miscellaneous heavy and bulky material used in construction work between construction sites, along the Atlantic coast, on Long Island, N.Y., and along Long Island Sound, Block Island Sound, and their tributary waterways, Narrangansett Bay, Providence River, and in the area defined in the order of March 26, 1941, in Ex Parte No. 140, Determination of the Limits of New York Harbor and Harbors Contiguous Thereto.

NOTE.—This transaction is related to the purchase transaction previously described on November 8, 1972 in the FEDERAL REGISTER at No. MC-F-11701 wherein Hoffman International, Inc. (formerly Hoffman Rigging & Crane Service, Inc.), a motor carrier, proposed to purchase the certificated water carrier operating rights and certain other property of Raymond International, Inc. Authority to acquire the said certificated rights and property was granted by order of the Commission, Division 3, acting as an Appellate Division, served November 8, 1973.

NOTE.—(2) To facilitate processing of this proceeding, copies of all protests should be served upon applicant's and their representative.

NOTE.—(3): (a) The transaction proposed in No. W-101 will be processed under the modified procedure. Applicants have been directed to file opening verified statements in support of the application within 30 days or less of the date of this notice. Protestants must file their verified statements in opposition to the application within 30 days or less of the date of this notice. Applicants must file verified statements in reply within 65 days or less of the date of this notice. (b) All protesting parties as well as applicants must comply with applicable provisions of section 1100.45(b), 1100.46(b), and 1100.47–1100.54, inclusive of the Commission's General Rules of Practice, relating to modified procedure, except that the original and one copy of any statement made pursuant to section 1100.51 shall be filed with the Commission. (c) Copies of any verified statements in opposition must be served upon applicant's and their representative, and a copy of each statement filed with the Commission shall so certify. Similarly, applicants have been directed to serve copies of their verified statements upon protestants. (d) Except for good cause shown, preliminary motions and requests for cross-examination of witnesses or for other relief will not be acted upon prior to the date on or before which all verified statements are required to be filed.

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER OPERATING RIGHTS APPLICATIONS

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 1485 (Sub-No. 13), filed December 27, 1976. Applicant: SCHROLL TRANSPORTATION, INC., 360 Governor Street, East Hartford, Conn. 06108. Applicant's representative: Hugh M. Joseloff, 80 State Street, Hartford, Conn. 06103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, cooked, cured, or preserved*, from the plantsites of M. M. Mades Co., Inc., located in Manchester and Bedford, N.H., to points in Connecticut, Massachusetts and Rhode Island.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either Hartford, Conn. or Boston, Mass.

No. MC 2052 (Sub-No. 10), filed December 22, 1976. Applicant: BLAIR TRANSFER, INC., 203 South 9th Street, Blair, Nebr. 68008. Applicant's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products and meat by-products and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk), from the plantsite and storage facilities utilized by American Beef Packers, Inc., located at or near Omaha, Nebr., and Oakland, Iowa, to points in Maryland, New York, Ohio, Pennsylvania, West Virginia, and the District of Columbia, restricted to traffic originating at the named origins and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at Omaha, Nebr.

No. MC 2135 (Sub-No. 14) (Correction) filed November 12, 1976, published in the FEDERAL REGISTER issue of December 9, 1976, and republished as corrected this issue. Applicant: D. J. McNICHOL CO., a Corporation, 6951 Norwitch Drive, Philadelphia, Pa. 19153. Applicant's representative. Harold P. Boss, 1100 Seventeenth Street, N.W., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such foods, commodities and equipment* as are used in connection with the operation of cafeterias, "whether or not the shipment is moving to or from a cafeteria." (1) from Philadelphia, Pa., to the District of Columbia and points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Rhode Island, and Virginia; and to transport on return to Philadelphia, shipments which have been accepted by a consignee and which are subsequently to be returned to ARA Services, Inc., located at Philadelphia; and (2) between Philadelphia, Pa., on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont, under a continuing contract or contracts with ARA Services, Inc.

NOTE.—Applicant states that the only new territorial authority sought herein is described in "(2)" above. Applicant's permit, No. MC 2135 (Sub-No. 11), authorizes operations from and to the points described in "(1)" above. However, the commodity authorization therein does not specifically include the words "whether or not the shipment is moving to or from a cafeteria." In applicant's opinion, it is now authorized to transport shipments of commodities authorized in its permits, whether or not the shipment is moving to or from a cafeteria, when such service is, in fact, rendered under contract with ARA Services, Inc., within its authorized territory. Applicant is concurrently filing with the Commission a motion to dismiss that portion of the instant application described in "(1)" above, primarily on the ground that applicant may now render such service under its MC 2135 (Sub-No. 11) permit. Dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, the applicant requests it be held at either Philadelphia, Pa., or Washington, D.C.

The purpose of this republication is to include applicant's statement "whether or not the shipment is moving to or from a cafeteria", as stated above and to also include the "note" and dual operations statement which was inadvertently excluded in the FEDERAL REGISTER.

No. MC 5623 (Sub-No. 30), filed December 14, 1976. Applicant: ARROW TRUCKING CO., a Corporation, P.O. Box 7280, Tulsa, Okla. 74105. Applicant's representative: J. G. Dail, Jr., P.O. Box 567, McLean, Va. 22101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractories and refractory products*, (1) from the plantsite of North American Refractories Co., located at or near White Cloud, Mich., to points in Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Louisiana, Montana, Nebraska, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Texas, Utah, Washington, and Wyoming; and (2) from the plantsites of North American Refractories Co., located in Berks, Huntingdon, and Clearfield Counties, Pa., to points in Idaho, Iowa, Kansas, Minnesota, Montana, Nebraska, and Nevada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Cleveland, Ohio.

No. MC 15643 (Sub-No. 7), filed December 10, 1976. Applicant: FOUR WINDS VAN LINES, INC., 7035 Convoy Court, San Diego, Calif. 92138. Applicant's representative: Robert J. Gallagher, 1000 Connecticut Ave. NW., Suite 1200, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Empty household goods shipping containers*, set up or knocked down, between points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Missouri, North Carolina, New Hampshire, New Jersey, New Mexico, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Vermont, Wisconsin, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be heard on a consolidated record with similar application(s) at San Diego, Calif.

No. MC 19945 (Sub-No. 62), filed December 28, 1976. Applicant: BEHNKEN TRUCK SERVICE, INC., Route No. 13, New Athens, Ill. 62264. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, from the plantsite of Cargill, Inc., located at Cahokia, Ill., to points in Missouri.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either St. Louis, Mo. or Washington, D.C.

No. MC 22229 (Sub-No. 112), filed December 16, 1976. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue, S.E., Atlanta, Ga. 30316. Applicant's representative: Harold H. Clokey, 1740 The Equitable Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of Springport Steel Container Corporation, located at or near Springport, Mich., as an off-route point in connection with applicant presently authorized regular-route operations between Lansing, Mich., and Detroit, Mich., and between Jackson, Mich., and Detroit, Mich.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich. and Washington, D.C.

No. MC 29079 (Sub-No. 91), filed December 14, 1976. Applicant: BRADA MILLER FREIGHT SYSTEM, INC., 1210 South Union, P.O. Box 935, Kokomo, Ind. 46901. Applicant's representative: Richard H. Streeter, 704 Southern Building, 15th & H Streets, N.W. Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizers*, herbicides and pesticides (except commodities in bulk), from the plantsite of Knox Fertilizer, located at or near Knox, Ind., to points in Iowa, Kansas, Nebraska and Minnesota.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Indianapolis, Ind.

No. MC 41951 (Sub-No. 31), filed December 16, 1976. Applicant: WHEATLEY TRUCKING, INC., P.O. Box 458, Cambridge, Md. 21613. Applicant's representative: James H. Sweeney, P.O. Box 684, Woodbury, N.J. 08096. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Hallwood, Va., to points in Illinois, Indiana, Michigan, Ohio and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 59117 (Sub-No. 53), filed December 17, 1976. Applicant: ELLIOTT TRUCK LINE, INC., P.O. Box 1, 101 East Excelsior, Vinita, Okla. 74301. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Building, 3535 N.W. 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia, nitrogen fertilizer solutions, and urea liquor*, from the plantsites of Oklahoma Nitrogen Corporation and Bison Chemical Company located at or near Woodward, Okla., to points in Arkansas, Colorado, Iowa, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, South Dakota, and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Oklahoma City, Okla.

No. MC 73165 (Sub-No. 397), filed December 16, 1976. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, 830 North 33rd Street, Birmingham, Ala. 35202. Applicant's representative: William P. Parker (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cooling towers, and accessories, materials and supplies* used for cooling towers (except commodities in bulk), from the facilities of E. D. Goodfellow, Inc., located at Tulsa, Okla., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Tulsa, Okla. or Memphis, Tenn.

No. MC 76032 (Sub-No. 322), filed December 15, 1976. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, Colo. 80223. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), Between Memphis, Tenn., and Kansas City, Mo., as an alternate route for operating convenience only: From Memphis, Tenn., over Interstate Highway 40 to junction Interstate Highway 55, thence over Interstate Highway 55 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 60, located at or near Willow Springs, Mo., thence over U.S. Highway 60 to junction U.S. Highway 65, located at or near Springfield, Mo., thence over U.S. Highway 65 to junction Interstate Highway 44, thence over Interstate Highway 44 to junction Missouri Highway 13, thence over Missouri Highway 13 to junction Missouri Highway 7, located at or near Clinton, Mo., thence over Missouri Highway 7 to junction U.S. Highway 71, located at or near Harrisonville, Mo., thence over U.S. Highway 71 to Kansas City, Mo., and return over the same route, restricted against the handling of local and interline traffic moving between Memphis, Tenn., and Kansas City, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Denver, Colo. or Chicago, Ill.

No. MC 82492 (Sub-No. 140), filed December 16, 1976. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., P.O. Box 2853, 2109 Olmstead Road, Kalamazoo, Mich. 49003. Applicant's representative: Jack H. Blanshan, 205 West Touhy Avenue, Suite 200, Park Ridge, Ill. 60068. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses* (except hides and commodities in bulk), as defined in Sections A and C of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsites and warehouse facilities of Wilson Foods Corporation, located at or near Albert Lea, Minn., to points in Pennsylvania on and west of U.S. Highway 219, and points in that part of New York in and west of Broome, Cortland, Onondaga and Oswego Counties, N.Y., restricted to the transportation of traffic originating at the above-named origin and destined to the named destination points.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Dallas, Tex. or Kansas City, Mo.

No. MC 98327 (Sub-No. 21), filed January 7, 1977. Applicant: SYSTEM 99, 8201 Edgewater Drive, Oakland, Calif. 94621. Applicant's representative: Michael J. O'Neil (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, household goods as defined by the Commission and commodities requiring special equipment), between Portland, Oreg. and the junction of U.S. Highway 20 and Oregon Highway 22; From Portland, Oreg. over Interstate Highway 5 to its junction with Oregon Highway 22, thence over Oregon Highway 22 to its junction with U.S. Highway 20, and return over the same route, as an alternate route for operating convenience only, serving no intermediate points and serving the termini for the purposes of joinder only.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requets it be held at either San Francisco, Calif. or Portland, Oreg.

No. MC 99019 (Sub-No. 8), filed December 16, 1976. Applicant: KILLIAN-BLACK TRUCKING, INC., Roseville and Hydraulic Streets, Buffalo, N.Y. 14210. Applicant's representative: Robert D. Gunderman, Suite 710 Statler Hilton, Buffalo, N.Y. 14202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flour*, in bulk, in tank vehicles, from points in New York, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, Ohio, Pennsylvania, Rhode Island, Vermont and West Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Buffalo, N.Y.

No. MC 100666 (Sub-No. 339), filed December 17, 1976. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, 1129 Grimmett Drive, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 N.W. 58th Street, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Particleboard*, from the plantsite of Louisiana-Pacific Corporation located at or near Clayton, Ala., to points in Arkansas, Louisiana, Oklahoma and Texas.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 103051 (Sub-No. 384), filed December 13, 1976. Applicant: FLEET TRANSPORT COMPANY, INC., P.O. Box 90408, 934 44th Avenue, North, Nashville, Tenn. 37209. Applicant's representative: Russell E. Stone (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid pepper mash*, in bulk, in tank vehicles, from Edenton, N.C. and points in Bertie and Chowan Counties, N.C., to Cades, La.; and (2) *liquid sugar, and blends thereof*, in bulk, in tank vehicles, from Chalmette, Gramercy, Houma, Mathews, Reserve and Supreme, La., to Wilson, N.C.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Nashville, Tenn. or Atlanta, Ga.

No. MC 105813 (Sub-No. 218), filed December 16, 1976. Applicant: BELFORD TRUCKING CO., INC., 1759 S.W. 12th Street, P.O. Box 1936, Ocala, Fla. 32670. Applicant's representative: Arnold L. Burke, 180 North LaSalle Street, Chicago, Ill. 60601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture, earthenware and ceramics*, from Miami, Fla., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Miami, Fla.

No. MC 107403 (Sub-No. 993) (amendment), filed December 3, 1976, published in the FEDERAL REGISTER issue of December 30, 1976, and republished this issue. Applicant: MATLACK, INC., Ten West Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alloys, ores and minerals* (except salt, lime, limestone and fluorspar products), dry, in tank or hopper type vehicles, from the plantsite of C-E

Minerals, located at Wilmington, Del., to points in Ohio and Pennsylvania.

NOTE.—The purpose of this republication is to amend applicant's request for authority. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 112617 (Sub-No. 358), filed December 10, 1976. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, Louisville, Ky. 40221. Applicant's representative: C. R. Dunford (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from Terre Haute, Ind., to points in Illinois, Indiana, and Ohio, and St. Louis, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Louisville, Ky. or Washington, D.C.

No. MC 113267 (Sub-No. 346), filed December 17, 1976. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 3215 Tulane Rd., P.O. Box 30130 A.M.F., Memphis, Tenn. 38130. Applicant's representative: Lawrence A Fischer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and articles distributed by meat packinghouses* as described in Section A of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and hides), from the plantsite and warehouse facilities utilized by Landy of Wisconsin, Inc., located at or near Eau Claire, Wis., to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill. or Minneapolis, Minn.

No. MC 113388 (Sub-No. 113), filed December 17, 1976. Applicant: LESTER C. NEWTON TRUCKING CO., a Corporation, P.O. Box 618, Seaford, Del. 19973. Applicant's representative: Charles Ephraim, 1250 Connecticut Avenue, N.W., Suite 600, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods, food products, food ingredients, animal foods, animal food ingredients and meat by-products* (except in bulk), between the warehouses of Beatrice Foods Co., located at Scranton, Pa. and at or near Allentown, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia and the District of Columbia, restricted to the transportation of traffic orginating at the above named origins and destined to the above destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No, MC 113855 (Sub-No. 367), filed December 17, 1976. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE, Rochester, Minn. 55901. Applicant's representative: Alan Foss, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rock crusher equipment;* and (2) *parts and attachments* for rock crusher equipment, from the plant site of Hewitt-Robbins, Inc., located in Richland County, S.C., to points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be heard on a consolidated record with similar application(s) at either Atlanta, Ga. or Washington, D.C.

No. MC 114457 (Sub-No. 281), filed December 27, 1976. Applicant: DART TRANSIT COMPANY, a Corporation, 2102 University Avenue, St. Paul, Minn. 55114. Applicant's representative: James H. Wills (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising materials*, from Latrobe, Pa., to Ann Arbor, Mich.; and (2) *empty used containers*, from Ann Arbor, Mich., to Latrobe, Pa.

NOTE.—If a hearing is deemed necessary, the applicant requests that it be held at either St. Paul, Minn. or Chicago, Ill.

No. MC 114725 (Sub-No. 77), filed December 27, 1976. Applicant: WYNNE TRANSPORT SERVICE, INC., 2222 North 11th Street, Omaha, Nebr. 68110. Applicant's representative: Arlyn L. Westergren, Suite 530 Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid feed*, in bulk, in tank vehicles, from Shickley, Nebr., to points in Illinois, Iowa, and Kansas.

NOTE: If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 114890 (Sub-No. 74), filed December 23, 1976. Applicant: C. E. REYNOLDS TRANSPORT, INC., P.O. Box A, Joplin, Mo. 64801. Applicant's representative: T. M. Brown, 223 Ciudad Building, Oklahoma City, Okla. 73112. NOTE: If a hearing is deemed necessary, the applicant requests it be held at either Oklahoma City or Tulsa, Okla.

No. MC 115215 (Sub-No. 24), filed December 21, 1976. Applicant: NEW TRUCK LINES, INC., P.O. Box 639, Perry, Fla. 32347. Applicant's representative: Sol H. Proctor, 1101 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber products, poles, posts, timbers, particle board and forest products* (except commodities in bulk), (1) from points in Alabama, North Carolina, South Carolina and Tennessee, to points in Georgia, (2) from points in Louisiana, Mississippi, North Carolina, South Carolina and Tennessee, to points in Florida; and (3) from points in Florida, to points in Georgia, North Carolina, South Carolina and Tennessee.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Jacksonville, Fla. or Atlanta, Ga.

No. MC 115322 (Sub-No. 125), filed December 15, 1976. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: J. V. McCoy, P.O. Box 426, Tampa, Fla. 33601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pet foods* (except commodities in bulk), from Tupelo, Miss. and Red Bay, Ala., to points in Alabama, Delaware, Florida, Georgia, Kentucky, Maryland, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and the District of Columbia.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Mobile or Montgomery, Ala.

No. MC 115904 (Sub-No. 69), filed December 27, 1976. Applicant: GROVER TRUCKING CO., a Corporation, 1710 West Broadway, Idaho Falls, Idaho 83401. Applicant's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Gypsum wallboard*, from the facilities of American Gypsum Company located at or near Albuquerque, N. Mex., to points in Arizona and Colorado; and (2) *gypsum wallboard paper*, from Denver, Colo., and points in its Commercial Zone, to the plantsite of American Gypsum Company located at or near Albuquerque, N. Mex.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Albuquerque, N. Mex., or Washington, D.C.

No. MC 118142 (Sub-No. 141), filed December 27, 1976. Applicant: M. BRUENGER & CO., INC., 6250 North Broadway, Wichita, Kans. 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products and articles distributed by meat packinghouses*, as described in Sections

A and C of Appendix I to the Report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and storage facilities utilized by American Beef Packers, Inc., located at or near Omaha, Nebr. and Oakland, Iowa, to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina and Tennessee, restricted to traffic originating at the named origins and destined to the named destinations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 118202 (Sub-No. 67), filed December 27, 1976. Applicant: SCHULTZ TRANSIT, INC., P.O. Box 406, 323 Bridge Street, Winona, Minn. 55987. Applicant's representative: Robert S. Lee, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packing houses* (except hides and commodities in bulk) from the plantsite and storage facilities of Royal Packing Company, Inc., located at or near National Stockyards, National City, Ill., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island, restricted to traffic originating at the above-named plantsite and storage facilities and destined to the above listed states.

NOTE.—Applicant holds motor contract carrier authority in No. MC 134631 and subs numbers thereunder, therefore dual operations may be involved. An application is now pending to convert this contract carrier authority to common carrier authority in MC 118202 (Sub-No. 60). If a hearing is deemed necessary, applicant requests that it be held at either Minneapolis-St. Paul, Minn., or St. Louis, Mo.

No. MC 118831 (Sub-No. 145) (Correction), filed November 12, 1976, published in the FEDERAL REGISTER issue of December 16, 1976, and republished this issue. Applicant: CENTRAL TRANSPORT, INCORPORATED, P.O. Box 7007, High Point, N.C. 27264. Applicant's representative: Richard E. Shaw (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Kyanite*, dry, in bulk, from points in Appamottox, Buckingham, Charlotte, Cumberland and Prince Edward Counties, Va., to points in North Carolina, South Carolina, Pennsylvania and Richmond and Norfolk, Va.

NOTE.—Applicant seeks to tack the requested authority with its Sub-No. 32 authority at points in North Carolina to transport Kyanite, dry, in bulk, in tank or hopper type vehicles, from points in Appomattox, Buckingham, Charlotte, Cumberland, and Prince Edward Counties, Va., to points in Georgia. The purpose of this republication is to correct applicant's request for authority. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 119619 (Sub-No. 96), filed December 16, 1976. Applicant: DISTRIBUTORS SERVICE CO., a Corporation, 2000 West 43rd Street, Chicago, Ill. 60609. Applicant's representative: Arthur J. Piken, Suite 1515, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food and food poducts* (except commodities in bulk), from the plantsite and facilities utilized by DCA Food Industries, Inc., located at Hillsdale and Jonesville, Mich., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee and Texas.

NOTE.—If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 123157 (Sub-No. 29), filed December 28, 1976. Applicant: CTI, A Corporation, P.O. Box 397, Rillito, Ariz. 85246. Applicant's representative: A. Michael Bernstein, 1441 E. Thomas Rd., Phoenix, Ariz. 85014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flyash*, in bulk, from Arizona and Nevada to Arizona, California, Colorado, Nevada, New Mexico and Utah.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Phoenix, Ariz., or Las Vegas, Nev.

No. MC 123329 (Sub-No. 28), filed December 15, 1976. Applicant: H. M. TRIMBLE & SONS LTD., a Corporation, P.O. Box 3500, Calgary Alberta Canada T2P 2P9. Applicant's representative: Ray F. Koby, 314 Montana Building, Great Falls, Mont. 59401. Application has been filed for temporary authority under section 210a(b).

NOTICE

WILLAMETTE-WESTERN CORPORATION, Foot of North Portsmouth Avenue, Portland, Oregon 97203, represented by Mr. Norman E. Sutherland, White, Sutherland, Parks & Allen, Attorneys at law, 1200 Jackson Tower, Portland, Oregon 97205, hereby gives notice that, on the 13th day of September, 1976, it filed with the Interstate

Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for authority to purchase the operating authority of Atlas Tug Service, held by Rainier National Bank, Guardian of the Estate of Bert Howard and Lester Howard doing business as, with the elimination of duplicating authority, which application is assigned Finance Docket No. 28293.

Atlas Tug Service, pursuant to authority granted in Docket No. W–401, is authorized to perform general towage between ports and points along the Columbia River and its tributaries below and including Bonneville, Oregon, and along the Willamette River and its tributaries below its confluence with the Yamhill River. Operations proposed by Willamette-Western Corporation would be an extension of its present authority permitting general towage to Bonneville, Oregon, on the Columbia River and to the confluence of the Yamhill River on the Willamette River.

Willamette-Western Corporation operates pursuant to a certificate issued in Docket No. W–643 as a common carrier by water between points along the Columbia River and its tributaries below Vancouver, Washington and on the Willamette River below Portland, Oregon, including the ports named.

Willamette-Western has been continuously engaged in the business, among others, of operating tugs and barges on the Columbia and Willamette since incorporation in 1937. Transferee originally operated under the name of Willamette Tug and Barge Company (250 I.C.C. 818). On February 1, 1967, a new certificate was issued in Docket No. W–643 to transferee pursuant to a change of corporate name and a request to this Commission for its order approving the change in name. Transferee operates 34 tugs and 37 cargo barges together with pile drivers, dredges and derrick barges. Transferor, Atlas Tug Service, has been engaged in the operation of tugs and the towing of logs and other traffic on the Columbia and Rivers since inception of the partnership in 1938 pursuant to an oral agreement. No application for temporary authority has been filed under Section 311(b).

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1108.8) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act, 1969*, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, N.W., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 45 days after date of first publication in the FEDERAL REGISTER; that such comments shall be served upon (a) Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Room 5101, 400 Seventh Street, S.W., Washington, D.C. 20590, (b) Mr. Edward H. Levi, Attorney General, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530, and certificate of all such service is given to the Interstate Commerce Commission; and that all other applications, which are inconsistent, in whole or in part, with such applications, and all petitions for inclusion in the transaction, shall be filed with the Commission and furnished to the Docket Clerk, Secretary of Transportation, within 90 days after the publication of notice of the application in the FEDERAL REGISTER.

WILLAMETTE-WESTERN CORPORATION

NOTICE

SSI RAIL CORP., Two Embarcadero Center, San Francisco, California 94111 and ITEL CORPORATION, One Embarcadero Center, San Francisco, California 94111, represented by David M. Schwartz, Sullivan & Worcester, 1025 Connecticut Avenue, N.W., Washington, D.C. 20036 and Martin D. Goodman, SSI Rail Corp., Two Embarcadero Center, San Francisco, California 94111 hereby give notice that on the 7th day of January, 1977, they filed with the Interstate Commerce Commission at Washington, D.C., an application under Section 5(2) of the Interstate Commerce Act for an order approving and authorizing SSI Rail Corp. to acquire common control of the Hartford and Slocomb Railroad Company, an Alabama corporation and now a wholly-owned subsidiary of SSI Rail Corp., and of the McCloud River Railroad Company, a California corporation, including the latter's motor carrier operations, its division the Ahnapee & Western Railway Company of Algoma, Wisconsin, and its wholly-owned subsidiary McCloud River Trucking Company of McCloud, California, by means of purchase of the McCloud River Railroad Company's capital stock from Champion International Corporation, which application is assigned Finance Docket No. 28371.

The nature of the transaction proposed in the application is the purchase of the capital stock of McCloud River Railroad Company from Champion International Corporation by SSI Rail Corp. and approval of common control by SSI Rail Corp. and its parent Itel Corporation of the McCloud River Railroad Company, its motor carrier operations and its division Ahnapee and Western Railway Company, its wholly-owned subsidiary McCloud River Trucking Company, and Hartford and Slocomb Railroad Company. The latter is presently a wholly-owned subsidiary of SSI Rail Corp. The McCloud River Railroad Company operates 80 miles of railroad in the State of California; the Ahnapee and Western Railway Company operates 14 miles of railroad in Wisconsin; and the Hartford and Slocomb Railroad Company operates 22 miles of railroad in Alabama. The McCloud River Railroad Company holds a motor carrier certificate from the Interstate Commerce Commission in No. MC 28759 and the McCloud River Trucking Company holds a California certificate registered with the Interstate Commerce Commission in No. MC 125604 (Sub-No. 2). Common control by the McCloud River Railroad Company and in turn, United States Plywood Corporation, now Champion International Corporation, of the various McCloud River Railroad operations has previously been approved by the Interstate Commerce Commission in No. MC–F–8981.

In the opinion of the applicant, the granting of the authority sought will not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. In accordance with the Commission's regulations (49 C.F.R. 1108.8) in Ex Parte No. 55 (Sub-No. 4). *Implementation — National Environmental Policy Act, 1969*, 352 I.C.C. 451 (1976), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall indicate with specific data the exact nature and degree of the anticipated impact. See *Implementation—National Environmental Policy Act, 1969, supra*, at p. 487.

Pursuant to the provisions of the Interstate Commerce Act, as amended, the proceeding will be handled without public hearings unless comments in support or opposition on such application are filed with the Secretary, Interstate Commerce Commission, 12th and Constitution Avenue, NW., Washington, D.C. 20423, and the aforementioned counsel for applicant, within 45 days after date of first publication in the FEDERAL REGISTER; that such comments shall be served upon (a) Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Room 5101, 400 Seventh Street, S.W., Washington, D.C. 20590, (b) Mr. Edward H. Levi, Attorney General, Department of Justice, 10th and Constitution Avenue, N.W., Washington, D.C. 20530, and certificate of all such service is given to the Interstate Commerce Commission; and that all other applications, which are inconsistent, in whole or in part, with such applications, and all petitions for inclusion in the transaction, shall be filed with the Commission and furnished to the Docket Clerk, Secretary of Transportation, within 90

days after the publication of notice of the application in the FEDERAL REGISTER.

SSI RAIL CORP., ITEL CORPORATION

OPERATING RIGHTS APPLICATION(S) DIRECTLY RELATED TO FINANCE PROCEEDINGS

The following operating rights application(s) are filed in connection with pending finance applications under Section 5(2) of the Interstate Commerce Act, or seek tacking and/or gateway elimination in connection with transfer applications under Section 212(b) of the Interstate Commerce Act.

An original and two copies of protests to the granting of the authorities must be filed with the Commission within 30 days after the date of this FEDERAL REGISTER notice. Such protests shall comply with Special Rule 247(d) of the Commission's General Rules of Practice (49 CFR 1100.247) and include a concise statement of protestant's interest in the proceeding and copies of its conflicting authorities. Verified statements in opposition should not be tendered at this time. A copy of the protest shall be served concurrently upon applicant's representative, or applicant if no representative is named.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 96961 (Sub-No. 3), (Amendment), filed October 29, 1976, published in the FEDERAL REGISTER issue of December 2, 1976, and republished this issue. Applicant: WEST TENNESSEE MOTOR EXPRESS, INC., Faydur Court, Nashville, Tenn. 37210. Applicant's representative: Don R. Binkely, 500 Court Square Building, Nashville, Tenn. 37201. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (A) *General commodities* (except commodities in bulk, household goods and commodities which because of size and weight require special equipment), (1) Between Nashville, Tenn., and Humboldt, Tenn., serving Bruceton, Tenn., and all intermediate points between Bruceton and Humboldt: From Nashville, Tenn., over U.S. Highway 70 to Huntingdon, Tenn., thence over alternate U.S. Highway 70 to Atwood, Tenn., thence over U.S. Highway 79 to Humboldt, and return over the same route, restricted against the transportation of traffic originating at or destined to Humboldt; (2) Between Huntingdon, Tenn. and South Fulton, Tenn., serving all intermediate points: From Huntingdon, Tenn. over Tennessee Highway 22 to Martin, Tenn., thence over U.S. Highway 45E to South Fulton, Tenn., and return over the same route; (3) Between South Fulton, Tenn. and Troy, Tenn., serving all intermediate points: From South Fulton, Tenn. over U.S. Highway 51 to Troy, Tenn., and return over the same route; (4) Between Troy, Tenn. and Tiptonville, Tenn., serving all intermediate points: From Troy, Tenn. over Tennessee Highway 21 to Tiptonville, Tenn., and return over the same route;

(5) Between Tiptonville, Tenn., and Dyersburg, Tenn., serving all intermediate points: From Tiptonville, Tenn. over Tennessee Highway 78 to Dyersburg, Tenn., and return over the same route; (6) Between Dyersburg, Tenn. and Brownsville, Tenn., serving all intermediate points: From Dyersburg, Tenn. over U.S. Highway 51 to the junction of Tennessee Highway 20, thence over Tennessee Highway 20 to the junction of Tennessee Highway 54, thence over Tennessee Highway 54 to Brownsville, Tenn., and return over the same route, restricted against traffic originating at or destined to Brownsville, Tenn.; (7) Between the junction of Tennessee Highway 54 and Tennessee Highway 20 and Bells, Tenn., serving all intermediate points: From the junction of Tennessee Highway 54 and Tennessee Highway 20 over Tennessee Highway 20 to Bells, Tenn., and return over the same route, restricted against traffic originating at or destined to Bells, Tenn.; (8) Between Dyersburg, Tenn. and Troy, Tenn., serving all intermediate points: From Dyersburg over U.S. Highway 51 to Troy, and return over the same route; (9) Between Dyersburg, Tenn. and Milan, Tenn., serving all intermediate points.: From Dyersburg over Tennessee Highway 104 to its junction with Tennessee Highway 77, thence over Tennessee Highway 104 (also Tennessee Highway 77) to Milan, and return over the same route; (10) Between Trenton, Tenn., and Union City, Tenn., serving all intermediate points: From Trenton over U.S. Highway 45W to Union City, and return over the same route; (11) Between Newbern, Tenn. and Dyer, Tenn., serving all intermediate points: From Newborn over Tennessee Highway 77 to Dyer, and return over the same route; (12) Between Milan, Tenn. and Martin, Tenn., serving all intermediate points: From Milan over U.S. Highway 45E to Martin, and return over the same route; (13) Between Trenton, Tenn. and Bradford, Tenn., serving all intermediate points: From Trenton over Tennessee Highway 54 to Bradford, and return over the same route; (14) Between Greenfield, Tenn. and McKenzie Tenn., serving all intermediate points: From Greenfield over Tennessee Highway 124 to McKenzie, and return over the same route;

(15) Between McKenzie, Tenn. and Atwood, Tenn., serving all intermediate points: From McKenzie over U.S. Highway 79 to Atwood, and return over the same route; (16) Between Camden, Tenn., and Buchanan, Tenn., serving all intermediate points: From Camden over Tennessee Highway 69 to Paris, thence over U.S. Highway 641 to Puryear, thence over Tennessee Highway 140 to Buchanan, and return over the same route; (17) Between Paris, Tenn. and Dresden, Tenn., serving all intermediate points: From Paris over Tennessee Highway 54 to Dresden, and return over the same route. (18) Between Paris, Tenn. and McKenzie, Tenn., serving all intermediate points: From Paris over U.S. Highway 79 to McKenzie, and return over the same route. (19) Between Trenton, Tenn. and Alamo, Tenn., serving all intermediate points: From Trenton over Tennessee Highway 54 to Alamo, and return over the same route. (20) Between Memphis, Tenn., and Paris Landing, Tenn., serving points in Carroll and Henry Counties, Tenn., as intermediate and off-route points: (a) From Memphis over Interstate Highway 40 to junction U.S. Highway 70, thence over U.S. Highway 70 to Huntingdon, Tenn., thence over Tennessee Highway 22 to McKenzie, Tenn., thence over U.S. Highway 79 to Paris Landing, and return over the same route; (b) From Memphis over Interstate Highway 40 to junction Tennessee Highway 22, thence over Tennessee Highway 22 to McKenzie, Tenn., thence over U.S. Highway 79 to Paris Landing, and return over the same route; and (c) From Memphis over Interstate Highway 40 to junction Tennessee Highway 69, thence over Tennessee Highway 69 to Paris, Tenn., thence over U.S. Highway 79 to Paris Landing, and return over the same route, restricted in (20) (a), (b), and (c) above against joinder with previously authorized routes, (except that joinder shall be authorized with all authorities to perform service from Memphis, Tenn., to Dyer, Rutherford, Trenton, and/or Bradford, Tenn., and return); and

(21) Between Memphis, Tenn., and Big Sandy, Tenn., serving no intermediate points: From Memphis over Interstate Highway 40 to the junction of Tennessee Highway 69, thence over Tennessee Highway 69 to Camden, Tenn., thence over Tennessee Highway 69 Alternate to Big Sandy, and return over the same route. Alternate routes for operating convenience only: (22) Between Nashville, Tenn., and the junction of U.S. Highway 70 and Tennessee Highway 96, for the purpose of joinder only: From Nashville, over Interstate Highway 40 to junction Tennessee Highway 46, thence over Tennessee Highway 46 to the junction of U.S. Highway 70, and return over the same route; (23) Between Nashville, Tenn., and Camden, Tenn., for the purpose of joinder only: From Nashville over Interstate Highway 40 to junction Tennessee Highway 69, thence over Tennessee Highway 69 to Camden, and return over the same route; (24) Between Nashville, Tenn., and Milan, Tenn., for purposes of joinder only: From Nashville over Interstate Highway 40 to junction U.S. Highway 45, thence over U.S. Highway 45 to junction U.S. Highway 45 East, thence over U.S. Highway 45 East to Milan, and return over the same route; and (25) Between Nashville, Tenn., and the junction of Tennessee Highway 20 and Tennessee Highway 54 for the purpose of joinder only: From Nashville over Interstate Highway 40 to junction Tennessee Highway 20 to the junction of Tennessee Highway 54, and return over the same route.

NOTE.—The purpose of this filing is to convert applicant's Certificate of Registration to a Certificate of Public Convenience and Necessity. The application is being republished to amend applicant request for authority. This matter is directly related to a Section 5(2) finance proceeding in No. MC-F-13011, published in the FEDERAL REGISTER issue of November 18, 1976. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn.

MOTOR CARRIER ALTERNATE ROUTE DEVIATIONS

The following letter-notices to operate over deviation routes for operating convenience only have been filed with the Commission under the Deviation Rules—Motor Carrier of Passengers (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Commission in the manner and form provided in such rules at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of this FEDERAL REGISTER notice.

Each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its request.

MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 717) (Cancels Deviation No. 150), GREYHOUND LINES, INC., Greyhound Tower, Phoenix, Ariz. 85077, filed January 11, 1977. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: From Dallas, Tex., over the Dallas-Fort Worth Toll Road to Fort Worth, Tex., with the following access routes: (1) From Grand Prairie, Tex., over city streets to junction Dallas-Fort Worth Toll Road, and (2) From Arlington, Tex., over city streets to junction Dallas-Fort Worth Toll Road and return over the same routes for operating convenience only. The notice indicates that the carrier presently authorized to transport passengers and the same property over a pertinent service route as follows: From El Paso, Tex., over U.S. Highway 80 to Dallas, Tex., and return over the same route.

MOTOR CARRIER INTRASTATE APPLICATION(S)

The following application(s) for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to Section 206(a)(6) of the Interstate Commerce Act. These applications are governed by Special Rule 245 of the Commission's General Rules of Practice (49 CFR 1100.245), which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, and any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

Florida Docket No. 770029-CCT filed January 12, 1977. Applicant: SMALLEY TRANSPORTATION COMPANY, 2202—38th Street, Tampa, Fla. 33605. Applicant's representative: David C. G. Kerr and Ansley Watson, Jr., 512 N. Florida Ave., P.O. Box 1531, Tampa, Fla. 33601. Certificate of Public Convenience and Necessity sought to operate a freight service as follows: Applicant seeks an extension of its Certificate No. 1013, pursuant to Section 323.03, Florida Statutes, so as to authorize the transportation, as a *common carrier*, of *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, garments on hangers, and commodities in vehicles equipped with mechanical refrigeration), over regular routes and on regular schedules, (1) Between all points in Dade and Broward Counties, Fla., using I-95, U.S. 1, U.S. 41 and U.S. 441, and using all other roads in said counties as alternate routes; (2) Between Sarasota, Fla., and Naples, Fla., using U.S. 41, serving all intermediate points on U.S. 41, and using the following as an alternate route for operating convenience: State Road 675 from U.S. 301 to junction with State Road 70, State Road 70 to Arcadia, Fla., State Road 31 from Arcadia to junction with State Road 80, State Road 80 to Fort Myers, Fla.; (3) Between Orlando, Fla., on the one hand, and, on the other, all points in Dade and Broward Counties, Fla., using U.S. 441, Sunshine State Parkway (Florida's Turnpike), and I-95, serving no intermediate points; and

(4) Between Jacksonville, Fla., on the one hand, and, on the other, all points in Dade and Broward Counties, Fla., using I-95, and serving no intermediate points. Applicant seeks authority to engage in transportation in interstate and foreign commerce within the limits of the intrastate authority sought herein, and further seeks authority to tack or join the authority sought herein with its present authority under FPSC Certificate No. 1013 and Interstate Commerce Commission Certificate of Registration No. MC 121667 and subs. Applicant also seeks authority to operate over the following alternate routes for operating convenience only and serving no points on said routes not otherwise authorized to be served: (A) I-4 between Orlando, Fla., and its junction with I-95; (B) Sunshine State Parkway between I-4 and Broward County, Fla.; (C) State Road 60 between the eastern Polk County Line and the Sunshine State Parkway; (D) State Road 84 (Everglades Parkway) between Naples, Fla., and Broward County, Fla.; (E) U.S. 41 between Naples, Fla., and Dade County, Fla.; (F) State Road 80 between Fort Myers, Fla., and its junction with U.S. 27, and U.S. 27 to the Broward County Line, and (G) U.S. 27 between Polk County, Fla., and Broward County, Fla. intrastate, interstate, and foreign commerce authority sought.

HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304 and should not be directed to the Interstate Commerce Commission.

By the Commission.

ROBERT L. OSWALD,
Secretary.

DEVELOPMENTAL DISABILITIES PROGRAM

Regulations on Grants to States, Nonprofit Agencies, Colleges and Other Organizations

Title 45—Public Welfare

CHAPTER IV—SOCIAL AND REHABILITATION SERVICE, (REHABILITATION PROGRAMS), DEPARTMENT OF HEALTH, EDUCATON, AND WELFARE

PART 416—DEVELOPMENTAL DISABILITIES PROGRAM AND GRANTS FOR INITIAL STAFFING OF COMMUNITY MENTAL RETARDATION FACILITIES

Revocation

CROSS REFERENCE: for a document revoking 45 CFR Part 416, see FR Doc. 77-2229, published in the Rules and Regulations section of this issue under 45 CFR Chapter XIII. This document also establishes 45 CFR Parts 1385, 1386, and 1387, which relate to the Developmental Disabilities Program.

CHAPTER XIII—OFFICE OF HUMAN DEVELOPMENT, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Developmental Disabilities Program

Notice of proposed rulemaking (NPRM) for the Developmental Disabilities Program (Title I, of the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963, as amended) was published in the FEDERAL REGISTER on August 30, 1976 (Part II, Vol. 41, No. 169). Interested persons were permitted 45 days in which to send written comments, suggestions, or objections regarding the proposed regulations. The following statement summarizes the substance of those comments and the Department's responses.

Comments were received from 42 individuals and/or organizations covering 220 items. Three letters commended the Department for writing regulations in layman's language and explaining reasons for positions taken on different issues. However, seven inquiries stated that the proposed regulations lacked specificity and insufficient interpretation of the Act. Responses to specific items will be indicated below. There was a recommendation that the final regulations include as much as possible of the preamble to the NPRM, and that it be distributed to interested agencies and organizations concerned with services to developmentally disabled people. That preamble is included here as an Appendix. Nothing included in the NPRM preamble has been changed as a result of the comments. It is, therefore, included in its entirety. In addition, the present preamble states the bases and purposes of changes made in the regulations.

Consideration was given to the recommendation that the regulations include a part on the activities of the National Advisory Council, and the conduct of special studies required by the Act. The Department's reason for not including them is set forth in the preamble to the NPRM and is reaffirmed here. See Appendix to this document.

It was pointed out that there were numerious instances where "will" and "shall" have been indiscriminately interchanged, and it was recommended that "shall" be used throughout since "shall" implies a duty or obligation to do something. In the majority of instances the language of the regulation repeats that of the Act, and "will" is or can be mandatory also. Accordingly, this suggestion has not been followed.

PART 1385—GENERAL

Comments pertaining to the purpose of the Act, § 1385.1, suggested that the wording be revised to emphasize needs assessment and financial assistance in meeting needs. Section 1385.1(a) has been amended to add identification of need. The Department does not, however, agree that there is need to highlight additionally the provision of financial assistance. In the first place, financial assistance is only one kind of assistance provided for; in the second place, existing language in this Subsection seems to the Department to cover this adequately (i.e., references to "grants" and "support"). Other changes made in this Section include the deletion of "development of regional community programs" since there is no basis in the statute for this item; and the substitution of "university affiliated facilities" for "institutions of higher education" to identify specifically the type of facility supported by grants.

It was suggested that the term "developmental disability" be amended, (§ 1385.2(a)(6)) to include "any child identified as schizophrenic or psychotic," and that such condition "be found by the Secretary." Any change in the definition is delayed until the report to the Congress on the definitional study, required under section 301 of the Act, has been submitted. It would be premature to make such a decision now, since the purpose of the study is to ascertain what additional conditions should be included as developmental disabilities.

The definition for State agencies (§ 1385.2(a)(22)) has been reworded making the term applicable only to State agencies responsible for administering the basic formula grant program and not the agency for the protection and advocacy system. In accordance with Section 113 of the Act, the protection and advocacy system must be independent of any State agency which provides treatment, services, or habilitation to persons with developmental disabilities.

The definition of the "State planning council" has not been amended, as was suggested, to include "supervising the implementation of the State plan" (§ 1385.2(a)(25)). The Department does not concur because it would involve the council in the day-to-day administration of the program. Such involvement would not be consistent with Section 137 of the Act.

The Department concurs with the suggestions made that the reference to "physical and mental disability" in the definition of "substantial handicap" (§ 1385.2(b)(26)) be changed to "physical or mental disability or both." This was done so that it would be clear that in order to be eligible for developmental disabilities services, an individual does not have to have both a physical and a mental disability, since such concurrence of conditions is not required by the Act.

The definition of "urban and rural poverty areas" (§ 1385.2(a)(30)), has been amended to incorporate the definition by the Health Resources Administration (HRA) in its NPRM, dated November 26, 1976, for implementing section 1625 of the Public Health Service Act (42 U.S.C. 300r) as explained on page 36584 of the Appendix. This was done to comply with Congressional intent. Grantees should be aware of the discussion of this issue and of the intention of HRA to publish a list of such urban and rural poverty areas in the FEDERAL REGISTER at a later date. In the interim, States are advised to use this definition since it constitutes the Department's best determination at present.

Section 1385.3, in addition to incorporating the provisions of 45 CFR Part 74, lists certain other Departmental requirements for grants which are applicable to developmental disabilities programs. Several letters suggested that the section be extended to cover all existing legislation and regulations requiring action on the part of grantees. The Department believes it would be counterproductive to list all such references presently applicable, as the list will change from time to time. Moreover, a grantee is bound by all statutes and regulations applicable to it, even if they are not cited in these regulations. The grantee is responsible for knowing what statutes and regulations apply, and the Federal government makes every effort to provide necessary information to grantees.

Despite this general rule, these regulations are amended to provide specific information about the sections of the Rehabilitation Act, as requested in six letters. The reference in § 1385.6 of these regulations is to sections 503 and 504 of the Rehabilitation Act. The Department's purpose in being specific in this instance is to make certain that grantees are aware of the specific portions of that Act which are applicable; and it has done so because of the direct relationship of the Rehabilitation Act to this program. The basis for the change is to conform to Congressional intent.

Section 1385.10(b) has been amended to state that the cost incurred in acquiring land for construction of facilities under Parts 1386 and 1387 is not eligible for Federal financial participation. This repeats Section 102(4) of the Act, and was inadvertently omitted from the NPRM.

PART 1386—SUBPART A—THE STATE PLAN

The majority of comments the Department received on the NPRM concerned the respective roles and responsibilities of the State planning council and the designated State agency(ies). The specific areas of disagreement centered on (1) development and preparation of the State plan; (2) award of individual grants; and (3) control of the annual allotment. Other areas of concern related to responsibility of staff of the council to the State council; preclusion of membership on the council of officers or directors of an entity receiving funds; definition of "program unit" of the designated State agency; and others. The specific comments and recommendations appear under the appropriate sections of this preamble.

With regard to the development and preparation of the State plan, it is clearly Congressional intent that the State council supervise the development of and approve the State plan, but that the State agency prepare the plan. (See page 33, Report No. 94-473, Conference Report to accompany H.R. 4005). These regulations (Section 1386.60) define the role of the council in regard to the development, monitoring, and evaluation of the implementation of the State plan. Three comments suggested that § 1386.1 include a statement that the State plan is to be prepared by the designated State agency under the supervision of the State council. Five other comments recommended that the State be allowed flexibility in assigning this activity. As explained above, § 1386.1 has been amended in order to reflect the intent of Congress. In response to the second and third areas of concern (i.e., award of individual grants and control of funds), it is the Department's belief that Congress intended the State council to remove itself from dealing with individual grant applications, and to be more concerned with advocacy and with comprehensive planning, monitoring, and evaluation of the State plan rather than with the administrative activities. The preamble to the NPRM sets forth the basis and purpose for the regulations dealing with the preparation of the State plan, and also with the award of individual grants. For emphasis and clarity the pertinent part is repeated:

> • • • (Based) upon legislative history, the Department believes that Congress wished to highlight the crucial advocacy role and strengthen the supervisory, planning, and monitoring functions of the State planning councils to meet increased responsibilities effectuated by the 1975 amendments, leaving the actual day-to-day administration of the programs to the designated State agencies. (See Appendix, p. 36583.)

The Department is of the opinion that, through the process of supervising the development of, and approving the State plan, the State planning council may earmark resources that are available to the State for the purpose of achieving goals, and may identify the appropriate State agencies which will participate in carrying out the design for implementation.

Two letters urged the issuance of guidance as soon as possible since it is necessary for proper planning, and for conformance with the requirement that the State plan be submitted 60 days prior to the beginning of the fiscal year for which it is applicable (See § 1386.2). The Department wishes to emphasize that the development of guidelines is a high priority item. With issuance of the final regulations, the Developmental Disabilities Office will devote maximum effort to achieving this goal. The Department believes it is unnecessary to include a waiver provision in the regulations for 1977 fiscal year State plan submission, as requested. There is no basis in the Act for a waiver, and it is not necessary since arrangements were made to allow States to receive funding for fiscal year 1977 without complying with the submission date of 60 days prior to the beginning of the fiscal year, as set forth in § 1386.2 of the regulations.

Inclusion of the process required by OMB Circular A-95 was overlooked in the NPRM but has now been added in § 1386.2(e). This standard requirement provides for the Governor's review as stated in that paragraph.

It was recommended that § 1386.3(c) be amended to make reference to the roles of the State planning councils and State agencies when the State plan provides for participation of more than one agency in the administration or supervising the administration of designated portions of the State plan. The Department believes this is unnecessary because State officials are in the best position to determine how such an apportionment is to be made since it will vary from State to State. In addition, the State planning councils may earmark funds and designate the appropriate State agency to achieve the goals and objectives of the State plan.

The Department has reviewed the comments recommending that an Indian tribal organization be a designated State agency under certain conditions (§ 1386.3). It is the Department's belief that sufficient authority is available to the States to make this determination. Sections 132(b) and 133(b) of the Act provide for participation of more than one State agency in the administration of the State plan and the apportionment of the State allotment in a manner which, to the satisfaction of the Secretary, is reasonably related to the responsibilities assigned to such agencies.

One recommendation received was that the requirement for an identified program unit (§ 1386.4) be deleted. Four others requested a definition of the term "program unit." The Department believes it necessary for efficient and effective administration of the State plan that an office and officer of the designated State agency be assigned as responsible for the day-to-day operations of the program. Therefore, no change has been made in the regulations. However, guidelines will provide additional information regarding the duties and responsibilities of the program unit.

Seven inquiries were received commenting on the use of data from the Adult Disabled Child Program, Social Security Administration, for determining "need for services and facilities" in computing the allotment to the States (§ 1386.10(b)). Suggested sources of information included data from the Bureau of Education for the Handicapped, the number of beneficiaries receiving assistance under the Supplementary Security Income, and others. Another suggestion was that additional weight be given to rural States. The Department will look into these matters and others and issue in NPRM its suggestions for changes at a later date.

In connection with the allotments, the Department received a number of inquiries recommending that for States having an Indian population of 1 percent or more $50,000 be added to the allotment of such State for planning, provision of service and construction of facilities for the Indian developmentally disabled population. This suggestion is inappropriate in view of section 132(a)(1)(A) of the Act which specifies the allotment criteria which must be used. The Department also takes the view that those criteria do encompass such concerns, whereas a fixed sum of additional money would not necessarily have any relevance to actual needs.

Clarification was requested for "developing and implementing plans designed to eliminate inappropriate placement in institutions" and what actions were expected from the State. (§ 1386.12(a)) Another letter asked if "community alternatives" are considered to be part of deinstitutionalization plans. The Department believes community alternatives are, within certain limitations, a part of the deinstitutionalization plan but not all community programs directly affect the institutional population. The Department believes that guidelines are more appropriate for dealing with this complex issue because of the numerous possible ways of meeting the requirement for deinstitutionalization. It is not possible to anticipate all such approaches to the problem. Guidelines will, therefore, provide the necessary flexibility. The Department believes that the establishment of community alternative programs for those inappropriately placed developmentally disabled persons in institutions is a suitable item to be included in the State deinstitutionalization plan (section 133(b)(20), of the Act and § 1386.43 of the regulations). Further, the expenditures for this purpose are allowable for inclusion in the percentage of Federal funds that must be spent for deinstitutionalization (section 132 of the Act and § 1386.12 of the regulations).

Two inquiries were received regarding § 1386.12(d)—Expenditures for proper and efficient administration of the State plan. One pointed out an apparent contradiction between Sections 133(d) and 103 of the Act. Section 103 of the Act sets forth the Federal share for allotments under Part C (the basic formula grant program) which may not exceed 75 percent, except for projects located in poverty areas which may go up to 90 percent of the costs. Section 133(d) limits the Federal share to 50 percent of the cost of administration but not more than 5 percent of the State's allotment or $50,000, whichever is less. In addition, section 133(d)(2) sets a baseline date of June 30, 1975 for the level of State expenditures for administration of the State plan below which the State may not go if it is to receive Federal funds for this purpose. One State noted that this requirement, and the 5 percent limit mentioned above, would result in the loss of Federal funds to the State because of resulting changes that would have to be made in its accounting and fiscal policies and procedures. The Department cannot change the law. However, it will consider

the need for possible legislative amendments.

One commenter asked, in effect, if it was mandatory for the State to request funds under this subsection of the law. Such expenditures could be paid for entirely by State funds, thereby releasing Federal funds for other purposes of the program, i.e., planning, provision of services, and construction of facilities. In this connection, another comment pointed out that the Act does not specify that the "designated State agency" would make the request, but rather that "the State" would. Section 1386.12(d)(1) has, accordingly, been changed to comply with the Act (section 133(d)).

Comments from two other sources recommended that § 1386.16(d) contain authority to resolve conflicts arising between the State council and State administering agencies and that the State plans specify a method by which these differences would be satisfied. The Department believes that this is primarily a matter that must be resolved at the State level, and that the key to successful planning and administration will depend upon the establishment of a clear relationship between the State planning council and the designated State agency. This can be accomplished best if the two groups have an open line of communication and a clear delineation of responsibilities. The Department has confidence in the ability of the State governments to operate their programs.

Five comments dealt with § 1386.16(b) in slightly varying ways. One wanted the regulations to require that the State have a method for resolving differences between the council and the State agency (ies), but did not want the method to be specified. Two recommended that the council review at least annually the activites of the State for compliance. One suggested that it be the actions of the designated State agency that would be reviewed for compliance. All suggested mandatory annual reports.

The Department believes the requirement of a report of results of the review goes beyond the intent of the Act (section 135(b)). Rather, the council must report that it has reviewed the actions of the State for the purposes of determining if the State is complying with the requirements of the plan (and its design for implementation). It will so report in the annual State plan revision. But the Department believes it is not the intent of the Act to require the council to report the results of the review. States are expected to be able to resolve problems identified.

Furthermore, the council is empowered to make such a review at any time it has reason to believe the State may not be in compliance with its plan, and may, at any time, at its own discretion, report results of the review to the Secretary.

As a consequence of this interpretation, the regulation (§ 1386.16(b)) has been revised to require an annual review, and to make the report of the results of the review optional with the Council.

Two comments registered disappointment with the lack of standards for services for developmentally disabled people. The Department has let a contract to study this matter as mandated by the Act. Standards will be published in the FEDERAL REGISTER upon completion of the study, and acceptance by the Department, as indicated in the preamble to the NPRM on August 30. (See Appendix to this document).

It was recommended that § 1386.17 of the regulations set forth the requirements applicants must follow in complying with the provisions of the National Environmental Policy Act and the National Historic Preservation Act. It is the Department's policy to include in the regulations only those provisions which are requirements of the statute and to avoid putting additional requirements on the States. Our purpose is to avoid undue burdens on the States, and is based on our belief that the regulation is specific enough. Information relative to interpreting or providing alternatives to the regulations are best handled in the guidelines.

It was recommended that the Department delete the reference to the occupancy classification of the building under the Life Safety Code (§ 1386.17(b)(1)(ii)) because the requirements are too restrictive. The Department does not concur with the suggestion because it has been our experience that this is the best available standard, although not entirely satisfactory. Upon completion of several studies now underway to update the code, the Department will reexamine its position.

The Department concurs with the recommendation to delete the requirement that hot water shall not exceed 110 degrees Fahrenheit (§ 1386.17(b)(3)). The Department believes this requirement is inappropriate for some community living and transitional training arrangements since not all developmentally disabled persons need such protection. The basis of this change reflects the Department's best judgment that the requirement is too restrictive and is not consistent with current normalization principles.

Rather than require that site location be "community based," as requested, the regulations (§ 1386.17(b)(1)(iii)) have been amended to read: "The site of any facility shall meet the criteria established by the designated State agency for construction." This will allow the States to develop suitable rules for the various types and kinds of facilities that may be constructed under the Act. This removes Federal requirements that might limit States' abilities to make reasonable judgments since they are now charged with the responsibility for the construction program. Should experience indicate to the Department the necessity for greater specificity, the matter will be dealt with when the need arises.

One inquiry regarding methods of evaluation (§ 1386.25) asked for clarification as to whether the State shall develop a system of evaluation in addition to the evaluation system to be developed by the Secretary. The answer is for the State to describe the system it is using until after the study by the Secretary is completed. Then the States will have six months to submit a time-phased plan for implementing the system. This approach conforms to section 110 of the Act.

Detailed draft regulations were submitted by a commenter for implementing the protection of employees' interest in connection with deinstitutionalization plans (§ 1386.27), for specific use as a substitute for the proposed regulations which were thought to provide no guidance to the States nor to establish any specific requirements to implement. The Department has rejected this proposal because, after careful consideration and in cooperation with the Department of Labor, it is the Department's belief that the best way to deal with this problem is in guidelines. It is the Department's policy to include in regulations essentially those provisions which are requirements of the statute for the reasons stated above. The Developmental Disabilities Office in consultation with the Department of Labor will issue guidelines informing applicants as to how they will comply with these requirements.

Recommendations that § 1386.29 be amended to include that "staff shall be responsible to the State council" have been accepted. This change will assure that adequate funds will be made available to the council for carrying out its responsibilities. The Department believes that this change complies with Congressional intent. (See Conference Report, supra p. 36.)

Recommendations that a time limit be imposed on the State planning council for reviewing State plans (§ 1386.30), and that sanctions be imposed for failure to do so, were not accepted because the Department believes they are not appropriate. Section 135 of the Act does not provide for sanctions, except for noncompliance or nonconformity. Therefore, the Department believes it lacks authority to implement such recommendations.

A request was made that the phrase "review State plans 'to the maximum extent feasible'" (§ 1386.30) be deleted. This was not accepted because the statute requires that this be done. (See sections 133(b)(28) and 137(b)(3) of the Act.)

A request was made that § 1386.30 be amended to read as follows: "The State plan shall provide, to the maximum extent feasible, for an opportunity for prior review and comment by the State council of all State plans of the State which relate to programs affecting or *having the potential to affect* persons with developmental disabilities." (Words in italics are suggested additions.) This would put the State on notice that programs other than just those currently providing such services should serve the developmentally disabled population of the State; e.g., transportation and housing programs. The Department does not believe it is necessary to extend the regulation in order to serve the desired purpose. Section 133(b)(28) of the Act is interpreted by the Department to mean both

actual and potential effect since a service not now available to persons with developmental disabilities, but which is needed by them, would affect them negatively.

The Department rejected the request that all State programs submit their plans to the council for "prior coordination of planning activities." To the extent that a State can work out such an arrangement, its planning will be enhanced. But the Act does not authorize the imposition of such a possibly burdensome arrangement, and the laws governing the other programs are not amended by this Act. The difficulties inherent in such a proposal were recognized when Congress included, in its mandate that the State council review other State plans, the phrase "to the maximum extent feasible." (See section 137 of the Act.)

The removal of some of the priorities stated in § 1386.41 was requested on the basis that no criteria are provided. The Act, in section 109, however, requires the Secretary to promulgate regulations applicable uniformly to all the States, prescribing the priorities for service and facilities based on type of service, categories of persons to be served, and type of disability. The regulations do set forth the factors to be used by the States for allocating funds. These are minimum requirements, believed by the Department to be responsive to the most immediately pressing needs of persons with developmental disabilities, rather than, for example, basic research, or long-postponed developmental activities. As the Department gains more experience, it may consider revising or elaborating on these priorities.

One comment expressed concern that the regulations failed to mention the concept of "least restrictive alternatives" in connection with deinstitutionalization and the establishment of community alternatives (§§ 1386.42 and .43). The term "least restrictive alternatives" is not mentioned in the Act, and this concept is a very complicated and fluid subject at this time. For this reason, the Department believes it can best be dealt with in the guidelines because there are myriad possibilities, and flexibility is needed until a greater degree of agreement has been reached by all interested parties.

The Department has not accepted the suggestion that the Section dealing with deinstitutionalization (§ 1386.42), and that the Section dealing with community alternatives (§ 1386.43) be combined. The basis for this nonacceptance is that sections 133(b)(22) and (23) of the Act require that planning be done for both. In addition, section 132(a)(4) of the Act requires the States to expend a specific portion of their allotments for deinstitutionalization.

It was requested that the words "provide for," and "protective service" and "personal advocacy" in §§ 1386.44 and .45, be defined. The Department believes the meaning of the words as used in sections 133(b)(21) and (22) of the Act are self-explanatory.

There were two recommendations that § 1386.45, concerning State plan requirements, be tied in with the protection and advocacy system (§ 1386.70). The Department believes this to be inappropriate because the statute is clear that the protection and advocacy system is to be independent of existing State agencies providing treatment, services, or habilitation to developmentally disabled persons. (See section 113 of the Act.)

Three respondents were concerned about the State's ability to describe in the State plan the quality, extent and scope of services provided or to be provided under other Federally-assisted programs (§ 1386.46). They pointed out that data and information from these programs are not regularly available in a form that readily lends itself to developmental disabilities planning, and that there might be some invasion of privacy of an agency's client records. The Department believes that, as a result of a grant from the Developmental Disabilities Office, a model planning process has been developed which, among other things, indicates the availability of planning data, and provides a strategy to analyze data from other Federally-assisted programs. Training and technical assistance in the use of this process has been provided to the States. The Department reiterates its comments appearing in the preamble of the NPRM:

> The Department further believes that this (the fact that the Act is designed to assure that councils have the capacity for getting cross-agency cooperation) requires that the State planning council and State agency(ies) complement each other's functions through effective working relationships. These regulations restate the statutory requirements to make it clear that planning council members and staff are required to review their own and other State plans, and that such analysis, as a component of a systematic planning process, contributes information on needs, actual and potential resources, and leads to the development of short-term objectives to meet long-term goals. It also contributes to the development of council insight into the best methods to effect cross-agency coordination to develop a reliable system of services for the developmentally disabled persons in the State. (See Appendix to this document.)

The guidelines will provide additional information and assistance to the States for obtaining and using these data.

Another comment received, pertaining to § 1386.46, suggested that it reflect the language of the Act, and that the States be allowed to decide what factors to use in describing the extent of services to be provided. Other than indicating what quality, extent and scope of services are, the language is that found in section 133(b)(2) of the Act. In addition to the factors listed in the regulations which are to be taken into account for "scope and extent of services," provision is made for the State to use "other relevant factors." The Department believes that the regulations do provide flexibility and that no changes are necessary in this section.

It was recommended that the regulations require that the State plan specifically identify and specify need for services and facilities for the Indian developmentally disabled population, and that failure to do so would result in the Department's allocating funds to tribal governments to do their own planning and providing services. Unlike the Older Americans Act and some other statutes, there are no provisions in this legislation which would authorize such a requirement. The State must, however, as part of its policies, establish planning policies for its Indian population as well as for other groups in the State. Furthermore, section 133(b)(11) of the Act provides that "special financial and technical assistance shall be given to areas of urban or rural poverty in providing services and facilities for persons with developmental disabilities who are residents of such areas." Such special assistance applies to Indian populations residing in urban or rural poverty areas.

It was suggested that language, or a new subsection, be added to § 1386.47 which would require a habilitation plan only when services are provided by developmental disabilities funds, and which would require coordination with other agencies using a habilitation plan. The Department believes that the proposed regulations adequately cover these suggestions (See § 1386.1(b)(x)).

In relation to §§ 1386.44 and .45, a definition of the term "provide for" certain services was requested. The Department does not believe it advisable to define services until the study of standards and quality assurance mechanisms, mandated by Section 204 of the Act, has been completed. Definitions used in other Federal-State programs may be used in the meanwhile.

However, to the question of the difference between the meaning of "provide" and that of "provide for," the response is that generally the word "provide" means that the grantee furnishes the service directly; and generally "provide for" means assuring the availability of a service, either by "providing" it directly, or making certain that the service is "provided" by someone else. The Department believes, however, that the difference is seldom critical enough to warrant including these terms in § 1385.2.

One writer urged that the form and reporting procedures for the individual habilitation plan not constitute a burden on small agencies. The law, section 112, spells out the details of the content of the habilitation plan. The Department does not anticipate imposing on any agency any burden in developing, coordinating and revising habilitation plans beyond the requirements of section 112 of the Act, and those reports needed by the State councils to carry out their mandate to evaluate the program. Since reporting forms and procedures are essentially technical in nature, the Department believes that they are best left to guidelines. This will allow greater flexibility in dealing with purely administrative and ministerial matters.

Section 1386.50 deals with the design for implementation of the State Plan. Comments were received from six agencies, four of which took exception to the State agencies' option "to select from alternative strategies" the best method

to achieve goals and objectives as developed by the State council. The remaining two comments indicated that the Section gave control of developmental disabilities funds to the State agency, which control was formerly a responsibility of the State planning council. The Department believes no changes are required in the regulations as they carry out the intent of Congress (Conference Report pages 28 and 33), and reaffirms its position as stated on page 36584 of the Appendix, August 30, 1976.

PART 1386—SUBPART B

STATE PLANNING COUNCIL

One letter stated that appointment of council members (§ 1386.61) by the Governor is contrary to its State law and recommended that the regulations be modified to take into account that situation. There is not provision in the statute for such a waiver. Moreover, section 137(a) of the Act requires that the Governor appoint the council members. Thus, the Department has no choice in the matter.

Another suggestion was that the State council should be independent and free from political influence, and offered five ways that this could be done. The Department believes the present regulations are adequate, and that the States should not be given additional requirements that are not contained in the statute.

The recommendation to delete "officers or directors of entity receiving funds" was edited to omit "directors" since this has no basis in the Act. The remaining limitation is imposed by Section 137(a) of the Act.

In accordance with the Conference Report, p. 36, and as suggested by two commenters, § 1386.62 has been amended to indicate that staff assigned to the council is to be responsible to the council. See previous discussion of Subpart A.

PART 1386—SUBPART C—PROTECTION AND ADVOCACY OF INDIVIDUAL RIGHTS

Five respondents registered disappointment that the regulations contained no guidance or detailed provisions for States to follow in planning and implementing the protection and advocacy system. The Department has reviewed its position stated in the preamble of the NPRM (See the Appendix to this document), and believes that until more experience is available in this program, it is best to allow the States as much flexibility as possible in implementing their protection and advocacy systems. Interim guidelines for the program have been issued by the Developmental Disabilities Office and the results will be carefully monitored and evaluated for updating. As deemed necessary, the Department may issue more detailed regulations later. However, until it has more experience in this program, detailed requirements beyond those already set forth would, of necessity, be arbitrary. The Department is convinced that its interpretation of section 113 of the Act, and its implementation of that Section comport with the intent of Congress.

PART 1386—SUBPART D—PRACTICE AND PROCEDURE FOR HEARINGS TO STATES ON CONFORMITY OF DEVELOPMENTAL DISABILITIES PLANS TO FEDERAL REQUIREMENTS

One major concern expressed about the next section of the regulations, Subpart D, Hearings procedure, pertained to the omission of the State planning council from the list of those to receive a notice of hearing or opportunity for a hearing as required by section 135 of the Act. The regulations have been changed (§ 1386.90) to correct this oversight.

Comments were received concerning § 1386.111(c) (1) and (2) indicating that the proposed rule gives the Secretary's delegate discretion as to whether the allotment shall be authorized at all, or whether the allotment will be limited to categories under or parts of, the State plan not affected by such nonconformity. It was thought that this discretion undermines the requirement that all State plans meet the Federal requirements. In effect, according to the writer, the proposed rule states that the State plan must meet Federal requirements, but if it does not, the State may still receive its allotment. The commenter also observed that: "Balanced against this is the argument that it is pointless to withhold benefits from the developmentally disabled who would be helped by a non-complying State plan." It was suggested that section 135(a) of the Act affords the degree of discretion described in § 1386.111 of the regulations. If a State has no approved plan under section 133 of the Act because the proposed plan is not in conformity with Federal requirements, no allotment would be made until the plan had been corrected and approved. However, if the State's proposals under section 113 and Part B (protection and advocacy system, and university affiliated facilities) meet Federal requirements, they could be approved.

If, on the other hand, a State is finally determined to be out of compliance with its approved plan, the Secretary's delegate would have the option of withholding either all further funding or only that relating to the offending provisions until the noncompliance was corrected. These regulations are consistent with the express language of section 135 of the Act, and, therefore, the Department makes no changes in this Section.

It was recommended that "sign language" be included § 1386.105(a) when testimony is given. This will automatically be done, if needed, just as interpreters may be used for cases involving foreign languages.

PART 1387—DISCRETIONARY GRANTS SUBPARTS A AND B

Comments were received from four agencies regarding the grant programs, three pertaining to the university affiliated program. The Department did not concur with the suggestion to include "paraprofessional and career ladder programs" in § 1387.1(a) because the Department believes it inappropriate for regulations, but it can be handled in the guidelines. In response to a question about § 1387.4, the regulation is proposed for the purpose of implementing what the Department believes to be the Congressional purpose of section 122(b) of the Act of giving priority to applications for programs which will provide services within the community rather than in an institutional setting. Guidelines will provide further details.

Section 1387.22 has been amended, as suggested, to include "institutions of higher education, including community and junior colleges." This change makes it clear that such colleges are eligible applicants for discretionary grants.

MISCELLANEOUS

One agency requested that private profit-making agencies be made eligible for grants under the program. This would require an amendment to the legislation because the Act authorizes only public and nonprofit agencies as eligible grantees (See section 145(a) of the Act).

In addition to the changes described above, other minor editorial and clarifying changes have been included.

Federal financial assistance extended under this part will be subject to the regulations at 45 CFR Part 80 issued by the Secretary of Health, Education, and Welfare, and approved by the President, to effectuate the provisions of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 200d). The purpose is to conform to uniform Federal policies.

Accordingly, the provisions of Pub. L. 94-103, signed October 4, 1975 (Developmentally Disabled Assistance and Bill of Rights Act) are implemented as set forth in the following regulations, which will become effective April 27, 1977. This period of time is considered necessary in order to allow the States opportunity to make those revisions in their State plans consequent to the promulgation of these regulations. It is considered to be an adequate amount of time because the regulations introduce few demands not specified in the law.

Accordingly, the regulations as revised are hereby adopted, and the existing regulations at Chapter IV of Title 45 CFR are revoked.

Chapter IV of Title 45 of the Code of Federal Regulations is amended by revoking Part 416, and Chapter XIII of Title 45 of the Code of Federal Regulations is amended by adding Part 1385, Part 1386, and Part 1387 as follows:

PART 1385—GENERAL

Sec.
1385.1 Purpose of Act.
1385.2 Terms.
1385.3 Grants administrative requirements.
1385.4 Judicial review.
1385.5 State control of operations.
1385.6 Employment of handicapped individuals.
1385.7 Recovery.
1385.8 Good cause for other use of facility.
1385.9 Cooperative or joint effort between States and agencies.
1385.10 Awards.
1385.11 Assurances regarding evaluation system.

AUTHORITY: Pub. L. 91-517; Pub. L. 94-103.

§ 1385.1 Purpose of Act.

The purpose of the Act is to improve and coordinate the provision of services to persons with developmental disabilities and to establish a system for the protection and advocacy of rights for persons with developmental disabilities through:

(a) Grants to assist the States in developing and implementing a comprehensive and continuing plan for identifying and meeting the needs of the developmentally disabled;

(b) Support of activities which contribute to improving the condition of persons with developmental disabilities;

(c) Renovation and modernization of university affiliated facilities which demonstrate the provision of services for the demonstration and interdisciplinary training programs in university affiliated facilities;

(d) Training specialized personnel needed for providing such services;

(e) Provision of technical assistance in the establishment of services and facilities for the developmentally disabled; and

(f) Development and demonstration of new and improved techniques for providing such services.

To these ends, Federal financial assistance is available through (1) basic support formula grants to States; (2) formula grants to States for effecting a system to protect and advocate the rights of developmentally disabled persons; (3) grants to university affiliated facilities and for satellite centers; and (4) grants to public and private nonprofit groups for demonstration projects and projects of national significance.

§ 1385.2 Terms.

(a) For purposes of Parts 1386 and 1387, the terms below are defined as follows:

(1) "Act" means the Developmental Disabilities Services and Facilities Construction Act, as amended by the Developmentally Disabled Assistance and Bill of Rights Act;

(2) "Construction" means (i) the construction of new buildings, acquisition, expansion, remodeling, and alteration of existing buildings, (ii) initial equipment for such buildings including medical and other transportation facilities, and (iii) architect's fees in connection with an approved project. Construction does not include the cost of offsite improvements or the cost of the acquisition of land;

(3) "Costs of administration and operation," for purposes of Part 1387 of this chapter, means those administrative and operating costs of university affiliated facilities which are necessary to support interdisciplinary training programs and demonstration facilities providing services to developmentally disabled persons. Eligible costs shall be specified in guidelines to be issued by the Secretary;

(4) "Cost of construction" means the amount found by the Secretary to be necessary for the construction of a project, approved under Parts 1386 and 1387 of this chapter;

(5) "Demonstration" means, for the purposes of Part 1387 of this chapter, (i) a pilot study or experimental attempt to provide more and better services than are available, for the purpose of testing or establishing standards or methods of service that are practicable and effective for general application in the developmental disabilities program; (ii) provision of a special type of service in order to test its value and to provide information on costs, methods of administration, methods of providing services, or techniques; or (iii) application in new settings of the results derived from previous research or practice for the purpose of determining the effectiveness of new procedures;

(6) "Developmental disability" means a disability of a person which (i) is attributable to mental retardation, cerebral palsy, epilepsy, or autism; (ii) is attributable to any other condition of a person found to be closely related to mental retardation because such condition results in similar impairment of general intellectual functioning or adaptive behavior to that of mentally retarded persons or requires treatment and services similar to those required for such persons; or (iii) is attributable to dyslexia resulting from a disability described in paragraph (a) (i) or (ii); (iv) originates before such person attains age eighteen; (v) has continued or can be expected to continue indefinitely; and (vi) constitutes a substantial handicap to such person's ability to function normally in society;

(7) "Director" means the Director of the Developmental Disabilities Office, Office of Human Development.

(8) "Equipment," for the purposes of construction under Parts 1386 and 1387 of this Chapter, means those items which are necessary for the initial operation of the facility, but does not include supplies such as food, fuel, drugs, and paper;

(9) "Exemplary services" means those specialized services, including adaptation of generic services, for the diagnosis, treatment, education, training, habilitation, and care of persons with developmental disabilities, conducted in or in conjunction with a university affiliated facility (or satellite) for purposes of demonstration or training, which are of replicable high quality;

(10) "Facility for persons with developmental disabilities" means a facility, or a specified portion of a facility, designed primarily for the delivery of one or more services to persons with one or more developmental disabilities;

(11) "Interdisciplinary training" means an integrated educational program utilized reciprocally by two or more disciplines each of which is knowledgeable about or possesses, in relationship to common fields of endeavor, a basic language, a core body of knowledge, certain relevant skills, and an understanding of the attitudes, values, and methods of partcipating disciplines. Interdisciplinary training includes training with practicums which enhance the skills of the trainee in collaboration with or complementing the services rendered by members of other disciplines;

(12) "National Advisory Council" means the National Advisory Council on Services and Facilities for the Developmentally Disabled;

(13) "Nonprofit facility for persons with developmental disabilities" and "nonprofit private institution of higher learning" mean, respectively, a facility for persons with developmental disabilities and an institution of higher learning which are owned and operated by one or more nonprofit corporations or associations no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual; and the term "nonprofit private agency or organization" means an agency or organization which is such a corporation or association or which is owned and operated by one or more of such corporations or associations;

(14) "Population" as applied to any State means the population of that State as determined by the most recent official estimates by the U.S. Department of Commerce made available to the Secretary;

(15) "Project period" means the period of time, not exceeding three years, for which a project is approved for grant support with Federal funds. Such period may be extended by the Secretary beyond three years for a period not to exceed twelve months, and with or without additional funding, in order to permit continuation or completion of the same approved project. The approval and support of a project for the maximum project period shall not preclude additional support of that project beyond such period if such support of the continued project is requested, evaluated, and approved on the same basis as a new or initial application in acordance with § 1387.22 of this chapter;

(16) "Projects of national significance" means projects (i) designed to have a direct impact on developmental disabilities programs throughout the country; or (ii) having an objective or objectives which if achieved could be replicated or result in an improved delivery system for developmental disabilities services or affect national policies or standards; or (iii) involving activities to be conducted in a number of sites in various parts of the country as part of a unified program;

(17) "Public agency" means any State, unit of local government, combination of such States or units, or any department, agency, or instrumentality of any of the foregoing, including State institutions of higher education and hospitals, or any Indian tribal government;

(18) "Satellite center" means an entity which is associated with one or more university affiliated facilities and which functions as a community or regional extension of such university affiliated facilities in the delivery of training, services, and programs to the developmentally disabled and their families, to personnel of State agencies concerned with developmental disabilities, and to others responsible for the care of persons with developmental disabilities;

(19) "Secretary" means the Secretary of Health, Education, and Welfare, or a designee;

(20) "Services for persons with developmental disabilities" means specialized services or special adaptations of generic services directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual with such a disability. Such services include: Diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, training, education, sheltered employment, recreation, counseling of the individual with a developmental disability and of his family, protective and other social and socio-legal services, information and referral services, follow-along services, and transportation services necessary to assure delivery of services to persons of all ages with developmental disabilities;

(21) "State" means the several States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands;

(22) "State agency(ies)" except for the purpose of Part 1386, Subpart C means the State agency or agencies designated in the State plan to administer or supervise the administration of all or designated portions of the State plan;

(23) "State agency for construction" means the sole State agency designated to administer or supervise the administration of grants for construction of facilities for the developmentally disabled under the State plan;

(24) "State plan" means the document or documents submitted by the State to comply with the requirements for participation under Parts 1386 and 1387 of this chapter;

(25) "State planning council" (referred to alternately as "State council" or "council") means that body, the members of which are appointed by the Governor, which is responsible for supervising the development of comprehensive planning for persons with developmental disabilities, monitoring of the plan, and evaluating its results, and which serves as an advocate for persons with developmental disabilities;

(26) "Substantial handicap" means a physical or mental disability or both of such severity that, alone or in connection with social, legal, or economic constraints, it requires the provision of specialized services over an extended period of time directed toward the individual's social, personal, physical, or economic habilitation or rehabilitation;

(27) "Technical assistance" means the furnishing of consultative, technical, and informational services to States, local or other public or private agencies, organizations, or individuals in matters pertaining to planning, provision of services, construction of facilities, and the organization and management of facilities and programs for developmentally disabled persons;

(28) "Title" (except when it refers to the Code of Federal Regulations) means a fee simple, or such other estate or interest (including a leasehold on which the rental does not exceed 4 per centum of the value of the land) as the Secretary finds sufficient to assure for a period of not less than fifty years undisturbed use and possession for the purposes of construction and operation of the project;

(29) "University affiliated facility" means a public or other non-profit facility which is associated with, or is an integral of, a college or university, which aids in demonstrating the provision of specialized services for the diagnosis and treatment of persons with developmental disabilities, and which provides education and training (including interdisciplinary training) of personnel needed to render services to persons with developmental disabilities;

(30) "Urban or rural poverty area" means a census tract, census country division, or minor civil division, as applicable, in which a percentage (which is at least the percentage determined in accordance with the following sentence) of the residents have incomes below the poverty level, as defined by the Secretary of Commerce. The percentage referred to in the preceding sentence shall be derived so that the total population of such areas as a percent of the population of the United States is equal to the total population of the United States with incomes below such poverty level, as a percent of the total population of the United States, plus five percent.

(31) "Volunteer" means a person who provides a service on a non-paid basis, except for reimbursement of actual expenses, and who works in concert with other services toward shared objectives on an individual or group assignment.

§ 1385.3 Grants administrative requirements.

(a) The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles for grants to State and local governments, shall apply to all grants funded under Parts 1386 and 1387 of this chapter.

(b) Attention is called to the applicability, as cited therein, of the provisions of the following parts of Title 45 CFR to grants funded under Parts 1386 and 1387 of this chapter:

45 CFR Part 16—Department Grant Appeals Process
45 CFR Part 46—Protection of Human Subjects
45 CFR Part 75—Informal Grant Appeals Procedures, Subpart A—Indirect Cost Appeals
45 CFR Part 80—Nondiscrimination under Programs Receiving Federal Assistance through the Department of Health, Education, and Welfare—Effectuation of Title VI of Civil Rights Act of 1964
45 CFR Part 81—Practice and Procedure for Hearings under Part 80 of this Title.

(c) Each recipient of assistance under these Parts shall keep records (1) which fully disclose (i) the amount and disposition by such recipient of the proceeds of such assistance, (ii) the total cost of the project or undertaking in connection with which such assistance is given or used, and (iii) the amount of that portion of the cost of the project or undertaking supplied by other sources, and (2) such other records as will facilitate an effective audit.

§ 1385.4 Judicial review.

If any State is dissatisfied with the Secretary's action under § 1386.2 or § 1386.15 such State may appeal to the United States Court of Appeals for the circuit in which such State is located, by filing a petition with such court within sixty days after such action, in accordance with 42 U.S.C. 2694.

§ 1385.5 State control of operations.

Except as otherwise specifically provided, nothing in Parts 1386 and 1387 of this chapter shall be construed as conferring on any Federal officer or employee the right to exercise any supervision or control over the administration, personnel, maintenance, or operation of any facility for persons with developmental disabilities with respect to which any funds have been or may be expended under these parts.

§ 1385.6 Employment of handicapped individuals.

As a condition for the receipt of financial assistance under Parts 1386 and 1387 of this chapter each recipient of such assistance shall take affirmative action to employ and advance in employment qualified handicapped individuals on the same terms and conditions required with respect to the employment of such individuals by the provisions of sections 503 and 504 of the Rehabilitation Act of 1973 which govern employment (a) by State rehabilitation agencies and rehabilitation facilities, and (b) under Federal contracts and subcontracts.

§ 1385.7 Recovery.

The State council shall promptly notify the Secretary in writing if, any time within 20 years after the completion of construction, any facility which received funds under Part 1386, Subpart A and Part 1387, Subpart A of this chapter is sold or transferred to any person, agency, or organization not qualified to file an application under the Act or not approved as a transferee by the State agency; or (b) ceases to be a public or other nonprofit facility for persons with developmental disabilities. Unless there is good cause, in conformance with § 1385.8, for releasing the applicant or other owner from obligation to continue such facility as a facility for developmentally disabled persons, the United States shall be entitled to recover from either the transferor or the transferee (or, in the case of a facility which has ceased to be a public or other nonprofit facility for persons with developmental disabilities, from the owners thereof) an amount bearing the same ratio to the then value (as determined by the agreement of the parties or by action brought in the district court of the United States for the district in which the facility is situated) of so much of such facility as constituted an approved project or projects, as the amount of the Federal participation bore to the cost of the construction of such project or projects. Such right of recovery shall not constitute a lien upon such facility prior to judgment.

§ 1385.8 Good cause for other use of facility.

If, within 20 years after completion of any construction for which a construction grant under the Act has been made, the facility shall cease to be a public or nonprofit facility for persons with developmental disabilities, the Secretary in determining whether there is good cause for releasing the applicant or other owner of the facility from the obligation to continue such facility as a public or other nonprofit facility for persons with developmental disabilities, shall take into consideration the extent to which:

(a) The facility will be devoted by the applicant or other owner to use for another public purpose which will promote the purposes of the Act; or

(b) There are reasonable assurances that for the remainder of the 20 year period other facilities not previously utilized for the care of persons with developmental disabilities will be so utilized and are substantially equivalent in nature and extent for such purposes.

§ 1385.9 Cooperative or joint effort between States and agencies.

An application providing for participating in a joint effort between States or among public or private agencies, or by any combination of such entities, shall be in accordance with the agreements in writing between the entities involved.

§ 1385.10 Awards.

All awards under Parts 1386 and 1387 of this chapter shall be in writing and shall set forth the amount awarded. Awards under Part 1387 of this chapter shall also specify the project period for which support is contemplated.

(a) Federal financial participation shall be available under Parts 1386 and 1387 of this chapter only for those activities approved in the grant award and only in the total amount approved in the award.

(b) Under Part 1386, Subpart A of this chapter, Federal financial participation may be available in expenditures made under the State plan including expenditures for the State council and the administration of the State plan, in accordance with applicable State laws, rules, regulations, and standards governing expenditures by State and local agencies. The cost of acquiring land for a construction project under Parts 1386 and 1387 is not eligible for Federal financial participation. As a condition for Federal financial participation, the annual revision of the State plan and other required reports must be submitted by the State planning council and approved by the Secretary.

§ 1385.11 Assurances regarding evaluation system.

(a) Within six months after the development by the Secretary of an evaluation system in accordance with the Act, as a condition to the receipt of Federal financial assistance under Parts 1386 and 1387 of this chapter, each State shall submit to the Secretary a proposal for a time-phased method of implementing the system. Proposals shall be submitted in the form and at the time set forth in guidelines which will be issued by the Secretary.

(b) Within two years after the date of the development of such a system, each State shall provide assurances satisfactory to the Secretary that the State is using such a system.

PART 1386—FORMULA GRANT PROGRAMS

Subpart A—The State Plan

GENERAL

Sec.
1386.1 Purpose and assurances.

1386.30 Review of all other State plans.
1386.31 Review of State plan.

PROVISION OF SERVICES AND CONSTRUCTION OF FACILITIES

1386.40 Goals and objectives.
1386.41 Allocation of grant funds based on State priorities.
1386.42 Deinstitutionalization.
1386.43 Establishment of community program alternatives to institutionalization.
1386.44 Early screening, diagnosis, and evaluation.
1386.45 Counseling, program coordination, advocacy, follow-along, and protective services.
1386.46 Quality, extent, and scope of services being provided or to be provided.
1386.47 Habilitation plans.
1386.48 Program for construction of facilities.
1386.49 Opportunity for appeal and hearing.

DESIGN FOR IMPLEMENTATION

1386.50 Design for implementation of State plan.

Subpart B—State Planning Council

1386.60 Role of State planning council.
1386.61 Establishment of State planning council.
1386.62 Adequate staff.
1386.63 Duties of the State planning council.

Subpart C—Protection and Advocacy of Individual Rights

1386.70 State system for protection and advocacy of individual rights.

Subpart D—Practice and Procedure for Hearings to States on Conformity of Developmental Disabilities Plans to Federal Requirements

GENERAL

1386.80 Definitions.
1386.81 Scope of rules.
1386.82 Records to be public.
1386.83 Use of gender and number.
1386.84 Suspension of rules.
1386.85 Filing and service of papers.

PRELIMINARY MATTERS—NOTICE AND PARTIES

1386.90 Notice of hearing or opportunity for hearing.
1386.91 Time of hearing.
1386.92 Place.
1386.93 Issues at hearing.
1386.94 Request to participate in hearing.

HEARING PROCEDURES

1386.100 Who presides.
1386.101 Authority of presiding officer.
1386.102 Rights of parties.
1386.103 Discovery.
1386.104 Evidentiary purpose.
1386.105 Evidence.
1386.106 Exclusion from hearing for misconduct.
1386.107 Unsponsored written material.
1386.108 Official transcript.
1386.109 Record for decision.

POSTHEARING PROCEDURES, DECISIONS

1386.110 Posthearing briefs.
1386.111 Decisions following hearing.
1386.112 Effective date of decision by Secretary's delegate.

AUTHORITY: Pub. L. 91-517; Pub. L. 94-103.

Subpart A—The State Plan

GENERAL

§ 1386.1 Purpose and assurances.

(a) *General.* Any State wishing to take advantage of Federal financial assistance under this Subpart must have a State plan approved annually by the Secretary.

(b) *Form and content.* The State plan, which is to be prepared by the designated State agency(ies) in accordance with supervision provided by the State Council, shall contain, in the form prescribed by the Secretary, a specific description of the State's program, the plans and policies to be followed in carrying out the program, a description of the planning process as developed by the State council and utilized in developing the program, and such other information as prescribed by the Secretary. Basic principles for the planning processes and suggested alternative models will be described in guidelines issued by the Secretary. The State plan shall consist of the following parts which shall be amended, reaffirmed, or updated annually as applicable:

(1) A part setting forth data necessary to comply with assurances required in the Act, and all regulations, policies, and

procedures which shall be established by the Secretary;

(2) A part which describes the State goals, annual objectives to achieve the goals, priorities, evaluation methods, and the rationale for annual changes;

(3) A part containing measurable objectives and strategies (i) to reduce and eventually eliminate inappropriate institutional placement of people with developmental disabilities; and (ii) to improve the quality of care and state of surroundings of persons for whom institutional care is appropriate;

(4) A part containing a design for implementation of the plan as set forth in § 1386.50; and

(5) A part containing the following assurances: (i) Authority of the State agency(ies): The State plan shall certify that the State agency(ies) has authority to administer or supervise the administration of all or portions of the State plan, and that nothing in the State plan is inconsistent with State law;

(ii) Funds made available to other agencies: (A) Part of the funds paid to the State will be made available to other public agencies or other nonprofit private agencies, institutions, and organizations for the purposes of carrying out the Act; (B) Such funds shall be expended in accordance with State procedures and standards and in accordance with the requirements contained in these regulations and policies established by the Secretary;

(iii) State participation in carrying out the State plan: That there will be reasonable State financial participation in the cost of carrying out the State plan. Reasonable State participation shall include evidence of the following: (A) That there is an organizational unit responsible for program administration; (B) That adequate staff is available for administration of the plan; and (C) That State appropriated funds will be used in part to support the activities included under the State plan;

(iv) Anticipated contribution toward strengthening services: That the funds paid to the State will be used to make significant contribution toward strengthening services for persons with developmental disabilities in the various political subdivisions of the State, in order to improve the quality, extent, and scope of services.

(v) Maintenance of effort: That funds paid the State under the State plan will be used to supplement and, to the extent practicable, increase the level of funds that would otherwise be made available for the purposes for which the Federal funds are provided, and not to supplant such non-Federal funds. Compliance with such assurance will be deemed to have been met if the aggregate level of State, local, and private non-profit funds available in the State for activities supported under the approved State plan is at least no lower for any fiscal year than it was for the immediately preceding fiscal year as reported in required financial reports, provided that the Secretary may also take into consideration the extent to which the level of such funds for any fiscal year may have included emergency or other funds for an activity of a non-recurring nature;

(vi) Human rights and welfare of individuals receiving services: That the human rights of all persons (especially those without familial protection) receiving services under Parts 1386 and 1387 of this chapter will be protected;

(vii) Services for persons unable to pay: That a reasonable volume of services will be furnished to persons unable to pay therefor. As used in this section, "persons unable to pay therefor" includes persons who are otherwise self-supporting but are unable to pay the full cost of needed services. Such services may be paid for wholly or partly out of public funds or contributions of individuals and private and charitable organizations, or may be contributed at the expense of the provider of services itself. In determining what constitutes a reasonable volume of services to persons unable to pay therefor, there shall be considered the amount of services that may be available through generic agencies. The requirements may be waived if it is demonstrated to the satisfaction of the State agency, subject to subsequent approval by the Secretary, that to furnish such services is not feasible financially;

(viii) Financial support for facilities: That adequate financial support will be available to complete the construction of, and to maintain and operate the facility when such construction is completed. Compliance with this assurance may be made by a showing from the grantee that adequate funds are or will be on deposit in a bank, or that program income from services provided is or will be adequate, or that State and local funds will be made available for maintenance and operation upon completion of construction;

(ix) Payment of construction workers: That all laborers and mechanics employed by contractors or subcontractors in the performance of work on any construction project assisted with funds under this subpart and Subpart A, Part 1387 of this Chapter will be paid at rates not less than those prevailing on similar construction in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (40 U.S.C. 276a–276a–5, known as the Davis-Bacon Act); and the Secretary of Labor shall have with respect to the labor standards specified in this paragraph the authority and functions set forth in Reorganization Plan Numbered 14 of 1950 (15 FR 3176; 5 U.S.C. Appendix) and section 2 of the Act of June 13, 1934 (40 U.S.C. 276c); and

(x) Compliance with assurance for habilitation plans for developmentally disabled persons: Each State receiving an allotment under this Subpart after September 30, 1976, shall satisfactorily assure the Secretary that each program (including programs of any agency, facility, or project) which receives funds from the State's allotment under this Subpart has in effect for each developmentally disabled person who receives services from or under the program a habilitation plan and that such plans are reviewed annually.

(6) A part containing those requirements in §§ 1386.20 through 1386.49.

§ 1386.2 Plan submission and approval.

(a) The State plan (and its annual revisions) shall be submitted by the chairperson of the State council to the Secretary 60 days prior to the fiscal year for which the plan is applicable.

(b) Failure to submit an approvable plan or annual revision prior to the fiscal year for which the plan is applicable shall result in the loss of Federal financial participation in the cost of expenditures during the period of the fiscal year for which an approvable plan or annual or other revision has not been submitted.

(c) Any State plan, amendment, or revision meeting the requirements of the Act, this Subpart, and performance standards to be issued by the Secretary shall be approved.

(d) Final disapproval of any State plan or annual or other revision shall be determined by the Secretary; except that no State plan or any revision thereof shall be finally disapproved until after the State has been given reasonable notice and opportunity for a hearing in accordance with Subpart D of this part.

(e) In accordance with the Office of Management and Budget Circular A-95, the Governor shall be given an opportunity to review and comment on the State plan, plan amendments, and related material, except for periodic statistical, or budget, and other fiscal reports. The Office of the Governor shall have 45 days to review such plan material prior to its submission to the Secretary. Any comments made shall be transmitted to the Department with the documents.

§ 1386.3 Designation of State agency(cies) for administration.

(a) The State plan shall name the designated State agency(ies) which shall administer all or designated portions of the State plan: provided, that a sole State agency is to be designated for administering or supervising the administration of grants for construction.

(b) If the State plan designates more than one State agency to administer the State plan, it shall set forth the portion of the program for which each State agency is responsible.

(c) The State may apportion its allotment among such agencies in proportion to the responsibilities assigned to such agencies for carrying out activities approved under the State plan. Funds so apportioned may be combined with other State or Federal funds authorized to be spent for other purposes, provided the purpose of the State plan will receive proportionate benefit from the combination.

§ 1386.4 Identification of administrative program unit.

The State plan shall provide for and identify a program unit within the designated State administering agency, which has primary responsibility for proper and efficient administration of the State plan.

ALLOTMENTS, FEDERAL SHARE, AND PAYMENTS

§ 1386.10 Allotments to States.

The allotment to the several States shall be computed by the following formula:

(a) Two-thirds on the basis of total population weighted by financial need determined by the relative per capita income as shown by data supplied by the U.S. Department of Commerce for the three most recent consecutive years for which satisfactory data are available.

(b) One-third on the basis of a need factor based on the ratio of beneficiaries in the State receiving benefits under the Adult Disabled Child Program (section 202(d)(1)(B)(ii) of the Social Security Act) related to population of the State age 18–65 as bearing on the national total of such population weighted by the total population of the State.

(c) For the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands, the allotment in any fiscal year beginning July 1, 1975, shall not be less than $50,000. The allotment of each other State in any fiscal year shall not be less than the greater of $150,000, or the amount of the allotment received by the State for the fiscal year ending June 30, 1974.

(d) If the amount appropriated for State allotments for any fiscal year exceeds $50,000,000, the minimum allotment of a State for such fiscal year shall be increased by an amount which bears the same ratio to the amount determined for such State as the difference between the amount so appropriated and the amount authorized to be appropriated for such fiscal year bears to $50,000,000.

§ 1386.11 Reallotment of funds.

The amount of an allotment to a State for a fiscal year which the Secretary determines will not be required by the State during the period for which it is available for the purpose for which allotted shall be available for reallotment by the Secretary from time to time, on such date or dates as may be fixed (but not earlier than thirty days after notice has been published of the Secretary's intention to make such reallotment in the FEDERAL REGISTER), to other States with respect to which such a determination has not been made, in proportion to the original allotments of such States for such fiscal year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates such State needs and will be able to use during such period; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount so reallotted to a State for a fiscal year shall be deemed to be a part of its allotment for such fiscal year.

§ 1386.12 Conditions on uses of allotments.

(a) For the fiscal year ending June 30, 1976, not less than 10 per centum of each State's allotment shall be expended for the purpose of assisting in developing and implementing plans designed to eliminate inappropriate placement in institutions of persons with developmental disabilities. For each succeeding fiscal year, 30 per centum of the State's allotment shall be used for these purposes.

(b) Designation of allotment for construction. The State plan shall specify the per centum of the State's allotment in any fiscal year which is to be devoted to construction of facilities. Such per centum shall be not more than 10 per centum of the State's allotment or such lesser per centum as the Secretary may from time to time prescribe.

(c) Sums allotted to a State in a fiscal year and designated by it for construction and remaining unobligated at the end of such year shall remain available to such State for such purpose in the next fiscal year (and in such year only), in addition to the sums allotted to such State in such next fiscal year; except that if the maximum amount which may be specified for construction for a year plus any part of the amount so specified pursuant to such section for the preceding fiscal year and remaining unobligated at the end of such fiscal year is not sufficient to pay the Federal share of the cost of construction of a specific facility included in the construction program of the State, the amount specified for such preceding year shall remain available for a second additional year for the purpose of paying the Federal share of the cost of construction of such facility.

(d) Expenditures for proper and efficient administration of the State plan. (1) At the request of the State, a portion of the State's allotment shall be made available by the Secretary to pay not more than one-half of the expenditures described in this paragraph for proper and efficient administration of the approved State plan: *Provided*, That not more than 5 per centum or $50,000, whichever is less, shall be available for this purpose. (2) Payments under this section shall be made only on the condition that expenditures from State appropriations for administration of the State plan shall not be less than State expenditures for the fiscal year ending June 30, 1975. (3) Costs identified in the approved State plan as necessary for the administration of the program shall not include costs applicable to provision of services, planning or construction.

§ 1386.13 Federal share.

(a) Except as provided for in paragraph (b) of this section, the Federal share for a State may not exceed 75 per centum of the expenditures incurred by the State under the State plan.

(b) In the case of any project, program, or activity located in an area within a State determined by the Secretary to be an urban or rural poverty area, the Federal share may not exceed 90 per centum of the expenditures incurred by the State under the State plan.

(c) The non-Federal share of any project, program, or activity assisted by a grant under this Subpart may be provided in kind.

(d) For the purpose of determining the Federal share with respect to any activity, program, or project described in the State plan, expenditures on that activity, program, or project by a political subdivision of a State or by a nonprofit private entity shall be deemed to be expenditures by such State, subject to the condition that such expenditures may be included only when made by a political subdivision or nonprofit private agency, organization, or group to which the State agency has made available funds from Federal or State sources for carrying out the approved State plan for the fiscal year.

§ 1386.14 Nonduplication.

In determining the amount of any State's Federal share of the expenditures incurred by it under its approved State plan, there shall be disregarded (a) any portion of such expenditures which are financed by Federal funds provided under any provision of the law other than this subpart, and (b) the amount of any non-Federal funds required to be expended as a condition of receipt of such Federal funds, except as otherwise provided by statute enacted subsequent to the effective date of Pub. L. 94–103, December 18, 1975.

§ 1386.15 Payments for planning, administration, services, and construction.

(a) From each State's allotment for a fiscal year under this subpart, the State shall be paid the Federal share of the expenditures, other than expenditures for construction, incurred during such year under its State plan approved under this part. Such payments shall be made from time to time in advance on the basis of estimates by the Secretary of the sums the State will expend under the State plan, except that such adjustments as may be necessary shall be made on account of previously made underpayments or overpayments under this section.

(b)(1) Payments for construction projects shall be made upon certification by the designated State agency for construction that, based upon its inspection, work has been performed upon a project, or purchases have been made in accordance with plans and specifications approved by the State agency and payment of an installment is due. If the State is not authorized by law to make payments to the applicant, the payment shall be made directly to the applicant. Certification shall be submitted to the Secretary in such form and at such times as required. Final payment for a project shall be made only upon certification by the State agency authorized by State law and designated by the Governor to administer construction grants that appropriate, periodic, and final inspections have been made by appropriate authorities in the State and that all applicable construction standards and other applicable standards and codes have been met.

(2) If the Secretary, after investigation or otherwise, has reason to believe that any act (or failure to act) has occurred requiring withholding of payments (§ 1386.16) payment may be withheld in whole or in part, pending

corrective action or action based on such hearing, after notice has been given to the designated State agency of opportunity for a hearing.

§ 1386.16 Withholding of payments.

(a) Whenever the Secretary, after reasonable notice and opportunity for hearing to the State council and the appropriate State agency(ies), finds that (1) there is a failure to comply substantially with any of the provisions required to be included in the State plan; (2) there is a failure to comply substantially with any regulations of the Secretary which are applicable to this Part, the Secretary shall notify such State council and agency(ies) that further payments will not be made to the State under this Subpart (or, in his discretion, that further payments will not be made to the State for activities in which there is such failure) until he is satisfied that there will no longer be such failure. Until he is so satisfied, the Secretary shall make no further payment under this Subpart to the State or shall limit further payment under this subpart to such State to activities in which there is no such failure.

(b) The State council shall review, at least annually, the State's plan (including the design for implementation) and the actions of the State for the purpose of determining if the State is complying with the requirements of the State plan and its design for implementation and shall notify the Secretary that it has made such a review. The State council may notify the Secretary of the findings of such review.

§ 1386.17 Standards for services and construction of facilities.

(a) Standards for services for persons with developmental disabilities. [Reserved].

(b) Standards for construction and equipment of facilities.

(1) *General.* (i) The standards set forth in this section shall apply to all projects receiving Federal assistance under Subpart A, Part 1386 and Subpart A, Part 1387 of this chapter for construction of new buildings, acquisition, modernization, expansion, remodeling, and alteration of existing buildings and initial equipment for such buildings.

(ii) The designated State agency for construction shall determine in writing the occupancy classification of the building under the Life Safety Code (National Fire Protection Association (NFPA) Bulletin No. 101) 1973 edition or such future revisions as may be approved by the Secretary, to ensure the capability of building occupants to respond in emergencies and for self-preservation.

(iii) The site location of any facility shall meet the criteria established by the State agency designated for construction, and comply with the Department's requirements with regard to the National Environmental Policy Act, Pub. L. 91-190, National Historical Preservation Act, Pub. L. 89-665, Coastal Zone Management Act, Pub. L. 92-583, and National Archeological Preservation Act, Pub. L. 93-291.

(2) *Design and construction of facilities.* (i) Project design and construction of facilities shall be done in accordance with one of the following model codes:

The Building Officials Conference of America—(BOCA).
The Uniform Building Code—(UBC).
The Southern Standard Building Code—(SSB).
The National Building Code—(NBC).

(ii) The codes listed below shall be used with respect to the following specific details:

Life safety: The National Fire Protection Association (NFPA), The Life Safety Code. Bulletin No. 101;
Air conditioning and ventilation systems: NFPA Standards, Nos. 90A or 90B;
Plumbing—National Standard Plumbing Code, (NAPHCC);
Electrical systems—National Electrical Code, NFPA Standard No. 70;
Elevators—American Standard Safety Code for Elevators, Dumbwaiters, and Escalators, ASA-A17 1960.

(3) *Special details.* (i) All doors to toilet rooms and bathrooms shall be equipped with hardware that will permit access in an emergency.

(ii) All paint and applied finishes used in furniture and furnishing shall be free of lead or other materials which may be harmful if ingested by humans, in accordance with Pub. L. 94-317, the Lead-Based Paint Poisoning Prevention Act;

(4) *Equipment.* Initial equipment of the kind and in the quantity necessary shall be provided for the complete functioning of the facility.

(5) *Architectural Barriers.* The building to be constructed, renovated, or modernized will comply with revised standards of the American National Standards Institute, Inc., adopted pursuant to the Architectural Barriers Act of 1968, 42 U.S.C. 4151-4156.

(6) *Hazards—Relocation.* The application, facility, and the operation thereof shall comply, as appropriate, with the following:

(i) Uniform Relocation Assistance Act— Pub. L. 91-646.
(ii) Historic Sites—Pub. L. 89-665.
(iii) Flood Insurance—Pub. L. 93-234.
(iv) Flood Hazards—Executive Order 11296.

STATE PLAN REQUIREMENTS—METHODS OF ADMINISTRATION

§ 1386.20 Methods of administration.

The State plan shall provide for such strategies, policies, and procedures as are necessary for the proper and efficient administration of the State plan. It shall include methods of informing the general public in the State of the kinds and locations of services and facilities which are available under the State plan, and that the State plan is available to interested parties in the State for their information.

§ 1386.21 Personnel administration.

(a) The State plan shall provide that methods of personnel administration will be established and maintained (in the State agencies administering or supervising the administration of the program and in local agencies administering the program) in conformity with the standards for a Merit System of Personnel Administration, 45 CFR Part 70, and any standards prescribed by the U.S. Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 modifying or superseding such standards.

(b) The State plan shall provide that the State agency will develop and implement an affirmative action plan for equal employment opportunity in all aspects of personnel administration as specified in 45 CFR 70.4, Equal employment opportunity. The affirmative action plan will provide for specific action steps and timetables to assure equal employment opportunity. This plan shall be made available for review upon request.

§ 1386.22 Fiscal administration.

The State plan shall provide for such fiscal control and fund accounting procedures as may be necessary to assure the proper disbursement of and accounting for funds paid to the State under this Subpart.

§ 1386.23 Special financial and technical assistance to poverty areas.

The State plan shall provide that special financial and technical assistance shall be given to areas of urban or rural poverty in providing services and facilities for persons with developmental disabilities who are residents of such areas.

§ 1386.24 Reports.

The State plan shall provide that the State agency will make such reports in such form and containing such information, and at such time, as the Secretary may require, and will comply with such provisions as he may find necessary to assure the correctness and verification of such reports. These reports include, but are not limited to, (a) the Developmental Disabilities Office's program performance report and (b) financial reports.

§ 1386.25 Methods of evaluation.

(a) The State plan shall describe the methods to be used to assess the effectiveness and accomplishments of the State in meeting the needs of persons with developmental disabilities in the State.

(b) The State plan shall provide for the implementation of an evaluation system in accordance with § 1385.11 of this chapter.

§ 1386.26 Use of volunteers.

The State plan shall provide for the maximum utilization of all available community resources including volunteers serving under the Domestic Volunteer Services Act of 1973 (87 Stat. 394), and other appropriate voluntary organizations. The use of such services shall supplement, but shall not be in lieu of, paid employees.

§ 1386.27 Protection of employees' interests.

The State plan shall provide for fair and equitable arrangements (as determined by the Secretary after consultation with the Secretary of Labor) to protect the interests of employees affected by actions to carry out the plan described in § 1386.42 including arrangements designed to preserve employee rights and benefits and to provide training and retraining of such employees where necessary and arrangements under which maximum efforts will be made to guarantee the employment of such employees.

§ 1386.28 Membership of State planning council.

The State plan shall contain a current listing of the members of the State council, their names, and the constituency, agency, or organization each represents.

§ 1386.29 Identification of State planning council staff.

The State plan shall (a) provide that the State council will be adequately staffed, consistent with its duties and responsibilities; (b) identify the staff assigned to the council; and (c) specify that the staff shall be responsible to the State council.

§ 1386.30 Review of all other State plans.

The State plan shall provide, to the maximum extent feasible, for an opportunity for prior review and comment by the State council of all State plans of the State which relate to programs affecting persons with developmental disabilities. The State council's responsibilities in obtaining timely access to these other State plans, and the council's recourse if the plans are not made available will be detailed in guidelines to be issued by the Secretary.

§ 1386.31 Review of State plan.

The State plan shall provide that the State council will from time to time, but not less often than annually, review and evaluate its State plan approved under this subpart and submit appropriate revisions to the Secretary.

PROVISION OF SERVICES AND CONSTRUCTION OF FACILITIES

§ 1386.40 Goals and objectives.

The State plan shall describe clearly defined long-range goals and measurable short-term objectives, with primary consideration given to §§ 1386.42 through 1386.45 and to goals which may be established by the Secretary.

§ 1386.41 Allocation of grant funds based on State priorities.

(a) The State plan shall set forth priorities, policies, and procedures for the allocation and expenditure of funds under the plan, based on the established goals and objectives.

(b) Special consideration shall be given to those activities (1) which are located in areas of urban or rural poverty, or (2) which provide services to the more severly handicapped persons.

(c) The State plan shall provide that high priority for approval shall be given to those activities that hold significant promise toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of individuals with such a disability.

§ 1386.42 Deinstitutionalization.

The State plan goals, objectives, and strategies shall address: (a) The elimination of inappropriate placement in institutions of persons with developmental disabilities, and (b) the improvement of the quality of care and the state of surroundings of persons who are appropriately placed in institutions.

§ 1386.43 Establishment of community program alternatives to institutionalization.

The State plan shall support the establishment of community programs as alternatives to institutionalization and support such programs designed to provide services for the care and habilitation of persons with developmental disabilities, and which utilize, to the maximum extent feasible, the resources and personnel in related community programs to assure full coordination with such programs and to assure the provision of appropriate supplemental health, educational, or social services for persons with developmental disabilities.

§ 1386.44 Early screening, diagnosis, and evaluation.

The State plan shall provide for early screening, diagnosis, and evaluation (including maternal care, developmental screening, home care, infant and preschool stimulation programs, and parent counseling and training) of developmentally disabled infants and preschool children, particularly those with multiple handicaps.

§ 1386.45 Counseling, program coordination, advocacy, follow-along, and protective services.

The State plan shall provide for counseling, program coordination, follow-along services, protective services, and personal advocacy on behalf of developmentally disabled adults.

§ 1386.46 Quality, extent, and scope of services being provided or to be provided.

(a) The State plan shall describe the quality, extent, and scope of services being provided, or to be provided, in implementing the State plan, under such other State plans for Federally assisted State programs as may be specified by the Secretary, but in any case including the following Federally assisted programs: Education for the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, and comprehensive health and mental health plans.

(b) The State plan shall describe the quality, extent, and scope of treatment, services, and habilitation being provided or to be provided in implementing the State plan to person with developmental disabilities from funds under this part.

(1) *Quality.* The State plan shall provide that services and facilities furnished under the State plan for persons with developmental disabilities will be in accordance with the standards set forth in § 1386.17.

(2) *Extent.* The State plan shall describe the extent of services to be provided under the plan including: (i) The kinds of needs to be met, and individuals to be served (such as type and severity of disabilities, age groups, economic status), (ii) the geographic location, distribution, and accessibility of services, and (iii) other relevant factors.

(3) *Scope.* The State plan shall describe the scope of the services to be provided, taking into account Federally-aided State and local programs involved, manpower, and financial resources, and other factors, directed toward the alleviation of developmental disabilities, or toward the social, personal, physical or economic habilitation, or rehabilitation of individuals with such disabilities.

(c) The State plan shall describe how Federal funds allotted to the State will be used to complement and augment rather than duplicate or replace services and facilities which are eligible for Federal assistance under other State programs.

§ 1386.47 Habilitation plans.

For the purpose of complying with the assurance regarding individual habilitation plans (§ 1386.1(b)(5)(x)), the State plan shall describe the methods to be used to facilitate an annual review of the individual plans. The State plan shall also describe the requirements of the habilitation plan which shall include at least the following: (a) The plan shall be in writing.

(b) The plan shall be developed jointly by (1) a representative(s) of the program primarily repsonsible for delivering or coordinating the delivery of services to the person for whom the plan is established, (2) such person, and (3) where appropriate, such person's parents or guardian or other representative.

(c) Such plan shall contain a statement of the long-term habilitation goals for the person and the intermediate habilitation objectives relating to the attainment of such goals. Such objectives shall be stated specifically and in sequence and shall be expressed in behavorial or other terms that provide measurable indices of progress. The plan shall (1) describe how the objectives will be achieved and the barriers that might intrefere with the achievement of them, (2) state objective criteria and an evaluation procedure and schedule for determining whether such goals and objectives are being achieved, and (3) provide for a program coordinator who will be responsible for the implementation of the plan.

(d) The plan shall contain a statement (in readily understandable form) of specific habilitation services to be provided, shall identify each agency which will de-

liver such services, shall describe the personnel (and their qualifications) necessary for the provision of such services, and shall specify the date of the initiation of each service to be provided and the anticipated duration of each such service.

(e) The plan shall specify the role and objectives of all parties to the implementation of the plan.

(f) Each habilitation plan shall be reviewed at least annually by the agency primarily responsible for the delivery of services to the person for whom the plan was established or responsible for the coordination of the delivery of services to such person. In the course of the review, such person and the person's parents or guardian or other representative shall be given an opportunity to review such plan and to participate in its revision.

§ 1386.48 Program for construction of facilities.

When a specific portion of the State's allotment is set aside for construction, the State plan shall provide for the development of a program of construction, renovation, or modernization of facilities for the provision of services for persons with developmental disabilities. Such a program shall (a) be based on a statewide inventory of existing facilities and a survey of need; (b) set forth the relative need in accordance with § 1386.41; (c) assign priority to the construction of projects in order of relative need insofar as funds are available for costs of construction and costs of maintenance and operation of such projects.

§ 1386.49 Opportunity for appeal and hearing.

The State plan shall provide for an opportunity for appeal to and hearing before the State agency for construction to every applicant for a construction project who is dissatisfied with any action of the State agency for construction regarding its application.

DESIGN FOR IMPLEMENTATION

§ 1386.50 Design for implementation of State plan.

(a) The State plan shall contain a design for implementation which shall include (1) details of the methods to be used to implement the State plan, (2) specific objectives to achieve the goals set forth in the State plan, (3) a listing of the programs and resources to be used to meet such objectives, (4) priorities for spending of funds provided under this Subpart, (5) a detailed plan for the use of such funds, and (6) a method for periodic evaluation of the design's effectiveness in meeting such objectives.

(b) The designated State agency is responsible for selecting from alternative strategies those best methods which will achieve the goals and annual objectives as developed by the State council. The design for implementation shall identify the programs and activities related to each of the objectives set forth in accordance with §§ 1386.40 through 1386.45 and the amount of funds allocated to each objective. The expenses of the State council are to be included in the design for implementation.

(c) The design for implementation is to be submitted annually as part of the annual State plan revision. Revisions to the design for implementation may be made as necessary by the designated State administering agency and shall be approved by the State council prior to submission to the Secretary.

Subpart B—State Planning Council

§ 1386.60 Role of State planning council.

The role of the State council is to supervise the development of and approve the State plan prepared by the designated State agency(ies) by providing guidance through the establishment of goals and objectives, identification of gaps, and the setting of priorities for the allocation of funds. In order to establish credible goals, the State council shall be responsible for needs assessment, analysis of programs currently and potentially capable of providing services to the developmentally disabled, and establishment of priorities to deal with identified gaps. The State council shall establish methods for monitoring and evaluating the implementation of the State plan to ensure that established goals and objectives are being achieved.

§ 1386.61 Establishment of State planning council.

(a) Each State which receives assistance under this part shall establish a State council which will serve as an advocate for persons with developmental disabilities. The members shall be appointed by the Governor of the State.

(b) Membership. Each State planning council shall at all times include in its membership representatives of the principal State agencies, local agencies, and nongovernmental agencies, and groups concerned with services to persons with developmental disabilities. As a minimum, the following Federal/State programs must be represented by the State agency membership on the council: Education of the handicapped, vocational rehabilitation, public assistance, medical assistance, social services, maternal and child health, crippled children's services, comprehensive health planning, and mental health. At least one-third of the membership of such a council shall consist of persons with developmental disabilities, or their parents or guardians, who are not officers or directors of an entity, or employees of any State agency or of any other entity, which receives funds or provides services under this part.

§ 1386.62 Adequate staff.

Each State receiving assistance under this Part shall engage for its State council personnel adequate to insure that the council has the capacity to fulfill its responsibilities and that the staff shall be responsible to the State council.

§ 1386.63 Duties of the State planning council.

The State council shall—

(a) Supervise the development of and approve the State plan required by this part;

(b) Monitor and evaluate the implementation of such State plan;

(c) To the maximum extent feasible, review and comment on all State plans in the State which relate to programs affecting persons with developmental disabilities;

(d) Submit to the Secretary, through the Governor, such periodic reports as the Secretary may reasonably request; and

(e) Submit revisions of the State plan to the Secretary.

Subpart C—Protection and Advocacy of Individual Rights

§ 1386.70 State system for protection and advocacy of individual rights.

(a) As a condition to a State's receiving an allotment under Subpart A of this part, the State shall provide assurances satisfactory to the Secretary that not later than October 1, 1977, (1) the State will have in effect a system to protect and advocate the rights of persons with developmental disabilities, (2) such system will have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the rights of such persons who are receiving treatment, services, or habilitation within the State, and (3) such system will be independent of any State agency which provides treatment, services, or habilitation to persons with developmental disabilities. The Secretary shall not make an allotment under Subpart A of this part to a State for any fiscal year beginning after September 30, 1977, unless the State has in effect such a system.

(b) The Governor shall designate the agency responsible for administering the protection and advocacy system and shall approve the advocacy plan prior to the approval of the Secretary. Such plan is to be submitted in accordance with this section and guidelines established by the Secretary.

(c) The allotment to the State shall be computed in accordance with § 1386.10 (a), (b) except that the allotment to a State in any fiscal year shall not be less than $20,000.

Subpart D—Practice and Procedure for Hearings to States on Conformity of Developmental Disabilities Plans to Federal Requirements

GENERAL

§ 1386.80 Definitions.

For purposes of this Subpart only:

(a) The term "DDO" means Developmental Disabilties Office.

(b) The term "designee" means any other individual so designated by the Secretary's delegate.

(c) The term "Secretary" means the Secretary of the Department of Health, Education, and Welfare.

(d) The term "Secretary's delegate" means the Assistant Secretary for Human Development, or the Director, Developmental Disabilities Office.

§ 1386.81 Scope of rules.

(a) The rules of procedure in this Subpart govern the practice for hearings afforded by the Department to States pursuant to § 1386.2 or § 1386.16, and the practice relating to decisions upon such hearings.

(b) Nothing in this part is intended to preclude or limit negotiations between the Department and the State, whether before, during, or after the hearing to resolve the issues which are, or otherwise would be, considered at the hearing. Such negotiations and resolution of issues are not part of the hearing, and are not governed by the rules in this subpart, except as expressly provided herein.

§ 1386.82 Records to be public.

All pleadings, correspondence, exhibits, transcripts of testimony, exceptions, briefs, decisions, and other documents filed in the docket in any proceeding may be inspected and copied in the office of the DDO Hearing Clerk. Inquiries may be made at the Central Information Center, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201.

§ 1386.83 Use of gender and number.

As used in this part, words importing the singular number may extend and be applied to several persons or things, and vice versa. Words importing the masculine gender may be applied to females or organizations.

§ 1386.84 Suspension of rules.

Upon notice to all parties, the Secretary's delegate or the presiding officer, with respect to matters pending before him and within his jurisdiction, may modify or waive any rule in this part, unless otherwise expressly provided, upon determination that no party will be unduly prejudiced and the ends of justice will thereby be served.

§ 1386.85 Filing and service of papers.

(a) All papers in the proceedings shall be filed with the DDO Hearing Clerk in an original and two copies. Originals only of exhibits and transcripts of testimony need be filed.

(b) All papers in the proceedings shall be served on all parties by personal delivery or by mail. Service on the party's designated representative will be deemed service upon the party.

PRELIMINARY MATTERS—NOTICE AND PARTIES

§ 1386.90 Notice of hearing or opportunity for hearing.

Proceedings are commenced by mailing a notice of hearing or opportunity for hearing from the Secretary's delegate to the State council and the designated State agency. The notice shall state the time and place for the hearing, and the issues which will be considered, and shall be published in the FEDERAL REGISTER.

§ 1386.91 Time of hearing.

The hearing shall be scheduled not less than 30 days nor more than 60 days after the date notice of the hearing is furnished to the State.

§ 1386.92 Place.

The hearing shall be held in the city in which the regional office of the Department is located or in such other place as is fixed by the Secretary's delegate in light of the circumstances of the case, with due regard for the convenience and necessity of the parties or their representatives.

§ 1386.93 Issues at hearing.

(a) The Secretary's delegate may, prior to a hearing under § 1386.2 or § 1386.16, notify the State in writing of additional issues which will be considered at the hearing, and such notice shall be published in the FEDERAL REGISTER. If such notice is furnished to the State less than 20 days before the date of the hearing, the State or any other party, at its request, shall be granted a postponement of the hearing to a date 20 days after such notice was furnished, or such later date as may be agreed to by the Secretary's delegate.

(b) If, as a result of negotiations between the Department and the State, the submittal of a plan amendment, a change in the State program or other actions by the State, any issue is resolved in whole or in part, but new or modified issues are presented, as specified by the Secretary's delegate, the hearing shall proceed on such new or modified issues.

(c) (1) If at any time, whether prior to during or after the hearing the Secretary's delegate finds that the State has come into compliance with Federal requirements on any issue in whole or in part he shall remove such issue from the proceedings in whole or in part as may be appropriate. If all issues are removed he shall terminate the hearing.

(2) Prior to the removal of any issue from the hearing in whole or in part the Secretary's delegate shall provide all parties other than the Department and the State (see § 1386.94(b)) with the statement of his intention and the reasons therefor and a copy of the proposed State plan provision on which the State and he have settled and the parties shall have oportunity to submit in writing within 15 days, for the consideration of the Secretary's delegate and for the record, their views as to, or any information bearing upon, the merits of the proposed plan provision and the merits of the reasons of the Secretary's delegate for removing the issue from the hearing.

(d) The issues considered at the hearing shall be limited to those issues of which the State is notified as provided in § 1386.90 and paragraph (a) of this section, and new or modified issues described in paragraph (b) of this section, and shall not include issues or parts of issues removed from the proceedings pursuant to paragraph (c) of this section.

§ 1386.94 Request to participate in hearing.

(a) The Department and the State council and the designated State agency are parties to the hearing without making a specific request to participate.

(b) (1) Other individuals or groups may be recognized as parties, if the issues to be considered at the hearing have caused them injury and their interest is within the zone of interests to be protected by the governing Federal statute.

(2) Any individual or group wishing to participate as a party shall file a petition with the DDO Hearing Clerk within 15 days after notice of the hearing has been published in the FEDERAL REGISTER, and shall serve a copy on each party of record at that time in accordance with § 1386.85(b). Such petition shall concisely state (i) petitioner's interest in the proceeding, (ii) who will appear for petitioner, (iii) the issues on which petitioner wishes to participate, and (iv) whether petitioner intends to present witnesses.

(3) Any party may, within 5 days of receipt of such petition, file comments thereon.

(4) The presiding officer shall promptly determine whether each petitioner has the requisite interest in the proceedings and shall permit or deny participation accordingly. Where petitions to participate as parties are made by individuals or groups with common interests, the presiding officer may request all such petitioners to designate a single representative, or he may recognize one or more of such petitioners to represent all such petitioners. The presiding officer shall give each petitioner written notice of the decision on his petition, and if the petition is denied, he shall briefly state the grounds for denial.

(c) (1) Any interested person or organization wishing to participate as amicus curiae shall file a petition with the DDO Hearing Clerk before the commencement of the hearing. Such petition shall concisely state (i) the petitioner's interest in the hearing, (ii) who will represent the petitioner, and (iii) the issues on which petitioner intends to present argument. The presiding officer may grant the petition if he finds that the petitioner has a legitimate interest in the proceedings, that such participation will not unduly delay the outcome and may contribute materially to the proper disposition of the issues. An amicus curiae is not a party but may participate as provided in this paragraph.

(2) An amicus curiae may present a brief oral statement at the hearing, at the point in the proceedings specified by the presiding officer. He may submit a written statement of position to the presiding officer prior to the beginning of a hearing, and shall serve a copy on each party. He may also submit a brief or written statement at such time as the parties submit briefs, and shall serve a copy on each party.

HEARING PROCEDURES

§ 1386.100 Who presides.

(a) The presiding officer at a hearing shall be the Secretary's delegate or his designee.

(b) The designation of the presiding officer shall be in writing. A copy of the designation shall be served on all parties.

§ 1386.101 Authority of presiding officer.

(a) The presiding officer shall have the duty to conduct a fair hearing, to avoid delay, maintain order, and make a record of the proceedings. He shall have all powers necessary to accomplish these ends, including, but not limited to, the power to:

(1) Change the date, time, and place of the hearing, upon due notice to the parties. This includes the power to continue the hearing in whole or in part.

(2) Hold conferences to settle or simplify the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding.

(3) Regulate participation of parties and amici curiae and require parties and amici curiae to state their position with respect to the various issues in the proceeding.

(4) Administer oaths and affirmations.

(5) Rule on motions and other procedural items on matters pending before him, including issuance of protective orders or other relief to a party against whom discovery is sought.

(6) Regulate the course of the hearing and conduct of counsel therein.

(7) Examine witnesses.

(8) Receive, rule on, exclude, or limit evidence or discovery.

(9) Fix the time for filing motions, petitions, briefs, or other items in matters pending before him.

(10) If the presiding officer is the Secretary's delegate, make a final decision.

(11) If the presiding officer is a hearing examiner, certify the entire record including his recommended findings and proposed decision to the Secretary's delegate.

(12) Take any action authorized by the rules in this part or in conformance with the provisions of 5 U.S.C. 551–559.

(b) The presiding officer does not have authority to compel by subpoena the production of witnesses, papers, or other evidence.

(c) If the presiding officer is a hearing examiner, his authority pertains to the issues of compliance by a State with Federal requirements which are to be considered at the hearing, and does not extend to the question of whether, in case of any noncompliance, Federal payments will not be made in respect to the entire State plan or will be limited to categories under or parts of the State plan affected by such noncompliance.

§ 1386.102 Rights of parties.

All parties may:

(a) Appear by counsel or other authorized representative, in all hearing proceedings.

(b) Participate in any prehearing conference held by the presiding officer.

(c) Agree to stipulations as to facts which will be made a part of the record.

(d) Make opening statements at the hearing.

(e) Present relevant evidence on the issues at the hearing.

(f) Present witnesses who then must be available for cross-examination by all other parties.

(g) Present oral arguments at the hearing.

(h) Submit written briefs, proposed findings of fact, and proposed conclusions of law, after the hearing.

§ 1386.103 Discovery.

The Department and any party named in the Notice issued pursuant to § 1386.90 shall have the right to conduct discovery (including depositions) against opposing parties. Rules 26–37 of the Federal Rules of Civil Procedure shall apply to such proceedings; there will be no fixed rule on priority of discovery. Upon written motion, the presiding officer shall promptly rule upon any objection to such discovery action initiated pursuant to this section. The presiding officer shall also have the power to grant a protective order or relief to any party against whom discovery is sought and to restrict or control discovery so as to prevent undue delay in the conduct of the hearing. Upon the failure of any party to make discovery, the presiding officer may, in his discretion, issue any order and impose any sanction (other than contempt orders) authorized by Rule 37 of the Federal Rules of Civil Procedure.

§ 1386.104 Evidentiary purpose.

The hearing is directed to receiving factual evidence and expert opinion testimony related to the issues in the proceeding. Argument will not be received in evidence; rather it should be presented in statements, memoranda, or briefs, as determined by the presiding officer. Brief opening statements, which shall be limited to statement of the party's position and what he intends to prove, may be made at hearings.

§ 1386.105 Evidence.

(a) *Testimony.* Testimony shall be given orally under oath or affirmation by witnesses at the hearing. Witnesses shall be available at the hearing for cross-examination by all parties.

(b) *Stipulations and exhibits.* Two or more parties may agree to stipulations of fact. Such stipulations, or any exhibit proposed by any party, shall be exchanged at the prehearing conference or otherwise prior to the hearing if the presiding officer so requires.

(c) *Rules of evidence.* Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the presiding officer. A witness may be cross-examined on any matter material to the proceeding without regard to the scope of his direct examination. The presiding officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues.

§ 1386.106 Exclusion from hearing for misconduct.

Disrespectful, disorderly, or contumacious language or contemptuous conduct, refusal to comply with directions, or continued use of dilatory tactics by any person at the hearing before a presiding officer shall constitute grounds for immediate exclusion of such person from the hearing by the presiding officer.

§ 1386.107 Unsponsored written material.

Letters expressing views or urging action and other unsponsored written material regarding matters in issue in a hearing will be placed in the correspondence section of the docket of the proceeding. These data are not deemed part of the evidence or record in the hearing.

§ 1386.108 Official transcript.

The Department will designate the official reporter for all hearings. The official transcripts of testimony taken, together with any stipulations, exhibits, briefs, or memoranda of law filed therewith shall be filed with the Department. Transcripts of testimony in hearings may be obtained from the official reporter by the parties and the public at rates not to exceed the maximum rates fixed by the contract between the Department and the reporter. Upon notice to all parties, the presiding officer may authorize corrections to the transcript which involve matters of substance.

§ 1386.109 Record for decision.

The transcript of testimony, exhibits, and all papers and requests filed in the proceedings, except the correspondence section of the docket, including rulings and any recommended or initial decision shall constitute the exclusive record for decision.

POSTHEARING PROCEDURES, DECISIONS

§ 1386.110 Posthearing briefs.

The presiding officer shall fix the time for filing posthearing briefs which shall not exceed 20 days after termination of the hearing. Such briefs may contain proposed findings of fact and conclusions of law, and, if permitted, reply briefs.

§ 1386.111 Decisions following hearing.

(a) If the Secretary's delegate is the presiding officer, he shall, when the time for submission of posthearing briefs has expired, issue his decision within 60 days.

(b) (1) If a hearing examiner is the presiding officer, he shall, within 30 days of the time for submission of posthearing briefs has expired, certify the entire record, including his recommended findings and proposed decision, to the Secretary's delegate. The Secretary's delegate shall serve a copy of the recommended findings and proposed decision upon all parties, and amici, if any.

(2) Any party may, within 20 days, file with the Secretary's delegate exceptions to the recommended findings and proposed decision and a supporting brief or statement.

(3) The Secretary's delegate shall thereupon review the recommended decision and, within 60 days of its issuance, issue his own decision.

(c) If the Secretary's delegate concludes:

(1) In the case of a hearing under § 1386.2, that a State plan does not comply with Federal requirements, he shall also specify whether the State's total allotment for the fiscal year will not be authorized for the State or whether, in the exercise of his discretion, the allotment will be limited to categories under or parts of the State plan not affected by such noncompliance;

(2) In the case of a hearing pursuant to § 1386.16, that the State is not complying with requirements of the State plan he shall also specify whether further payments will not be made to the State or whether, in the exercise of his discretion, payments will be limited to categories under or parts of the State plan not affected by such noncompliance. The Secretary's delegate may ask the parties for recommendations or briefs or may hold conferences of the parties on these questions.

(d) The decision of the Secretary's delegate under this section shall be the final decision of the Secretary and shall constitute "final agency action" within the meaning of 5 U.S.C. 704 and the "Secretary's action" within the meaning of section 138 of the Act. The Secretary's delegate's decision shall be promptly served on all parties, and amici, if any.

§ 1386.112 Effective date of decision by Secretary's delegate.

(a) If, in the case of a hearing pursuant to § 1386.2, the Secretary's delegate concludes that a State plan does not comply with Federal requirements, and his decision provides that the allotment will be authorized but limited to categories under or parts of the State plan not affected by such noncompliance, his decision shall specify the effective date for the authorization of the allotment.

(b) If, in the case of a hearing pursuant to § 1386.16, the Secretary's delegate concludes that the State is not complying with requirements of the State plan, his decision that further payments will not be made to the State, or payments will be limited to categories under or parts of the State plan not affected, shall specify the effective date for the withholding of Federal funds.

(c) The effective date shall not be earlier than the date of the decision of the Secretary's delegate and shall not be later than the first day of the next calendar quarter.

(d) The provisions of this section may not be waived pursuant to § 1386.84.

PART 1387—DISCRETIONARY GRANT PROGRAMS

Subpart A—University Affiliated Facilities

DEMONSTRATION AND TRAINING GRANTS

Sec.
1387.1 Purpose of grant funds.
1387.2 Application content.
1387.3 Eligible applicants.
1387.4 Priority.

CONSTRUCTION PROGRAM

1387.10 Purpose.
1387.11 Application form.
1387.12 Application assurances.
1387.13 Approval of applications.
1387.14 Priority.

Subpart B—Special Project Grants

1387.20 Eligible projects.
1387.21 Nonduplication of Federal funds.
1387.22 Eligible applicants.
1387.23 Application content and procedures.

AUTHORITY: Pub. L. 91–517; Pub. L. 94–103.

Subpart A—University Affiliated Facilities

DEMONSTRATION AND TRAINING GRANTS

§ 1387.1 Purpose of grant funds.

Demonstration and training grants authorized under the Act may be made for the purpose of:

(a) Assisting university affiliated facilities in meeting the cost of administering and operating demonstration facilities for the provision of exemplary services for persons with developmental disabilities, or for interdisciplinary training programs for personnel needed to render specialized services for persons with developmental disabilities;

(b) Supplementing one or more university affiliated facilities funded under these regulations to conduct a feasibility study of the ways in which a satellite center can be established and operated in areas not presently served by a university affiliated facility. These satellite centers shall provide services to persons with developmental disabilities in coordination with existing facilities funded under these regulations or from any other Federally supported program. Supplemental grants to university affiliated facilities for a feasibility study may not exceed $25,000; and

(c) Paying part of the costs of establishing and assisting satellite centers in meeting part of their administration and operation costs.

§ 1387.2 Application content.

Applications for demonstration and training grants may be submitted at the time and in the manner and detail prescribed by the Secretary in guidelines, and shall include the following:

(a) In the case of grants to university affiliated facilities for administration and operation and demonstration facilities and interdisciplinary training programs, evidence of how such university affiliated facility shall provide (1) interdisciplinary training programs for personnel needed to render specialized services to persons with developmental disabilities, and (2) services for persons with developmental disabilities by the operation of demonstration facilities;

(b) In the case of applications for an increase in the amount of a demonstration and training grant to meet the cost of conducting a feasibility study, assurances that such study shall be carried out in consultation with the State planning council for the State in which the facility is located and where the satellite center would be established; and according to guidelines to be issued by the Secretary;

(c) In the case of an application for a grant to establish or to administer and operate a satellite center(s), a copy of the feasibility study which documents the need for such satellite, conducted in accordance with section 121(a)(2) of the Act;

(d) For all applications, an assurance that the services and training programs to be supported are licensed, if necessary, according to the applicable State law(s) and also meet appropriate accreditation standards;

(e) For all applications, reasonable assurance that the grant will not result in decreased State, local, or other non-Federal funds for services for persons with developmental disabilities and for the training of personnel to provide such services; and

(f) For all applications, a statement describing the general methodology by which the project will be evaluated to determine whether objectives have been achieved.

§ 1387.3 Eligible applicants.

The applicant must be a public or nonprofit university affiliated facility or a satellite which has been found eligible to operate such a center.

§ 1387.4 Priority.

In approving applications, the Secretary shall give priority consideration to those programs which demonstrate an ability and commitment to provide within a community, rather than in an institution, services for persons with developmental disabilities.

CONSTRUCTION PROGRAM

§ 1387.10 Purpose.

The Secretary may make grants to university affiliated facilities to assist (a) in meeting the costs of the renovation or modernization of buildings which are being used in connection with an activity assisted by a demonstration and training grant; and (b) for the construction, renovation, or modernization of buildings to be used as satellite centers.

§ 1387.11 Application form.

An application shall be submitted in such form and manner and contain such information as the Secretary may require in addition to assurances required in § 1387.12.

§ 1387.12 Application assurances.

An application for a construction grant under this subpart may be approved by the Secretary only if it is supported by such reasonable assurances as may be required by law or executive order:

(a) The application for assistance is consistent with the appropriate State developmental disabilities plan;

(b) The application has been reviewed and commented upon by the appropriate State council;

(c) The facilities upon completion of construction will meet standards set forth in § 1386.17;

(d) The plans and specifications for the project to be assisted by the grant applied for are in accordance with § 1386.17(b);

(e) Title to the site for such project is or will be vested in the applicant or, in the case of a satellite center, in a public or other nonprofit entity which is to operate the center;

(f) Adequate financial support will be available in conformance with requirements of § 1386.1(b)(5)(viii) of these regulations;

(g) All laborers and mechanics will be paid in accordance with requirements set forth in § 1386.1(b)(5)(ix);

(h) No amendment to an approved application resulting in a substantial change in scope of work, function, or safety of the facility shall be put into effect without prior approval of the Secretary.

§ 1387.13 Approval of applications.

Applications under this subpart shall be reviewed by the Secretary who shall approve or disapprove the proposed project in whole or in part on the basis of established criteria.

§ 1387.14 Priority.

In approving applications under this subpart, the Secretary shall give priority consideration to university affiliated facilities funded under this Subpart for costs of renovating or modernizing existing buildings to enable them to comply with the Architectural Barriers Act of 1968.

Subpart B—Special Project Grants

§ 1387.20 Eligible projects.

Special project grants may be made to assist in meeting the costs of conducting an activity or program, hereinafter referred to as "project," that is intended and designed to benefit persons with developmental disabilities. No project (other than projects of national significance) shall be eligible unless the State or States in which it will be conducted has a State plan approved under Part 1386, Subpart A of this chapter, and unless it addresses one or more of the following:

(a) Demonstrations (and research and evaluation in connection therewith) for establishing programs which hold promise of expanding or otherwise improving services to persons with developmental disabilities (especially those who are disadvantaged or multihandicapped), including programs for parent counseling and training, early screening and intervention, infant and preschool children, seizure control systems, legal advocacy, and community-based counseling, care, housing, and other services or systems necessary to maintain a person with developmental disabilities in the community;

(b) Public awareness and public education programs to assist in the elimination of social, attitudinal, and environmental barriers confronted by persons with developmental disabilities;

(c) Coordinating and using all availability community resources in meeting the needs of persons with developmental disabilities (especially those from disadvantaged backgrounds);

(d) Demonstrations of the provision of services to persons with developmental disabilities who are also disadvantaged because of their economic status;

(e) Technical assistance relating to services and facilities for persons with developmental disabilities, including assistance in State and local planning or administration respecting such services and facilities;

(f) Training of specialized personnel needed for the provision of services for persons with developmental disabilities or for research directly related to such training;

(g) Developing or demonstrating new or improved techniques for the provision of services to persons with developmental disabilities (including model integrated service projects);

(h) Gathering and disseminating information relating to developmental disabilities; and

(i) Improving the quality of services provided in and the administration of programs for such persons.

The Secretary may establish criteria for projects designed to achieve the purposes of the Act to the fullest extent possible within the limitation of available Federal resources.

§ 1387.21 Nonduplication of Federal funds.

In determining the amount of any grant for the costs of any project under this subpart, there shall be excluded, except as otherwise provided by statute enacted subsequent to December 18, 1975, from such costs an amount equal to the sum of (a) the amount of any other Federal grant which the applicant has obtained, or is assured of obtaining, with respect to such project under any provision of law enacted prior to October 4, 1975, and (b) the amount of any non-Federal funds required to be expended as a condition of such other Federal grant.

§ 1387.22 Eligible applicants.

Applications may be made by public and other nonprofit agencies, organizations, and institutions of higher education including community and junior colleges.

§ 1387.23 Application content and procedures.

(a) Applications for grants under this subpart shall be submitted in the form and detail, and in accordance with procedures and deadline dates, as prescribed by the Secretary in guidelines.

(b) The applicant shall provide, concurrently, a copy of an application for a grant under this Subpart to the appropriate State planning council for review and comment at the time the application is submitted to the Secretary. Comment with regard to a particular application must be submitted to the Secretary by the State planning council within 30 days from the date of submission by the applicant in order to assure consideration of such comments.

Effective date: These regulations shall be effective April 27, 1977.

NOTE.—It is hereby certified that this has been screened pursuant to Executive Order No. 11821, and does not require an Inflation Impact Evaluation.

Dated: January 13, 1977.

JULIA V. TAFT,
Acting Assistant Secretary for Human Development.

Approved: January 18, 1977.
Marjorie Lynch,
Acting Secretary.

APPENDIX—Preamble

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Assistant Secretary for Human Development with the approval of the Secretary of Health, Education, and Welfare.

The purpose of the proposed regulations is to implement provisions of the Developmental Disabilities Services and Facilities Construction Act of 1970 (Pub. L. 91-517), as amended by the Developmentally Disabled Assistance and Bill of Rights Act of 1975 (Pub. L. 94-103), hereafter referred to as "the Act." The program is administered by the Developmental Disabilities Office, Office of Human Development.

The new Act is designed to assist States to develop a comprehensive plan which will bring together all available resources so that the developmentally disabled may be served in the most effective, efficient way. The new Act does not provide for separate funds to meet all the needs of the target population; rather it establishes the means for accessing the systems already in use for the general population and encourages special adaptations of these generic services. Funds are to be used to fill gaps in existing generic services and to expand the reach of existing services to new groups of individuals.

Other provisions include establishment of the State planning council as the means for accessing and coordinating generic services, for identifying gaps in services, and for planning ways of filling the gaps. State planning council requirements include supervision of the development of the State plan; approval, mointoring, and evaluation of the implementation of the plan; review, to the extent possible, of all plans in the State which relate to programs affecting persons with development disabilities; and submission of regular reports on its activities. The State planning council is

required to serve as an advocate for persons with developmental disabilities. The Act calls for the State plan to designate one or more State agencies to administer the State plan.

The Act adds a new program of special projects and a new formula grant program for the protection and advocacy of *individual* rights of the developmentally disabled. Other changes brought about by the new Act include a broadened definition of developmental disabilities; increased emphasis on deinstitutionalization of the developmentally disabled by alternative community placement, where possible, and improvement of institutional services; establishment of a State data base and ongoing evaluation activities; increase in the program focus on urban and rural areas of poverty; and establishment and protection of the rights of persons with developmental disabilities (section 113 of the Act), including implementation of individualized habilitation plans and advocacy of individual rights.

Regulations for the new programs and concepts are herewith included. These regulations have been divided into separate Parts to make clear to the general public which specific regulations apply to the different programs administered by the Developmental Disabilities Office, and include a general part to make it easier for the public to locate those regulatory provisions which apply to all or almost all of the different program areas.

The principal purpose of these regulations is to ensure the continued targeting of funds and resources to developmentally disabled individuals through a national, State, and local partnership. To this end, the goal of the program is to enable States to increase the provision of quality services to persons with developmental disabilities through the designs and implementation of a comprehensive and continuing State plan which makes optimal use of Federal, State, local, and private resources, and assures the rights and dignity of all those being served.

A second, but not secondary, purpose is to specify the rights of the developmentally disabled: That developmentally disabled persons have the right to appropriate treatment, services, and habilitation; that programs should be designed to maximize the developmental potential of the person; and that the Federal Government and the States have an obligation to assure that public funds are not provided in programs which do not deliver appropriate treatment, services, and habilitation or do not meet appropriate minimum standards as specified in the Act.

Certain sections of the Act are not included in these proposed regulations. These parts of the Act direct the Secretary to carry out certain activities which are general and administrative in character and do not directly or immediately affect grantees. Accordingly, regulations are not developed for the amendments which revise the components and functions of the National Advisory Council on Services and Facilities for the Developmentally Disabled, hereafter referred to as the National Advisory Council; the conduct of special studies required by the Act, which will be guided by the general policies and procedures governing such activities, modified, as necessary, by the specific requirements of the law; and the administrative aspects of the special projects authority for projects of national significance. Additional information will be published in the FEDERAL REGISTER from time to time as necessary.

It should be noted that the regulations for formula grants to States and grants to university affiliated facilities are removed from Chapter IV of Title 45 of the Code of Federal Regulations and are relocated in Chapter XIII, which covers all programs administered by the Office of Human Development within the Department of Health, Education, and Welfare.

PART 1385—GENERAL

The purpose of this general part of the regulations is to bring together in one place those provisions which are applicable to the other parts of the regulations. The basis for this is the Department's belief that this will make it easier for members of the public to locate such provisions, and that it will avoid unnecessary duplication which would occur if each of the provisions of general applicability had to be repeated in the other parts of the proposed regulations.

This part sets forth the policies and procedures which apply to all of the subsequent parts, such as definition of terms, grant procedures, and other administrative concerns. Part 1385 essentially follows standard Federal policies and procedures, except where specific differences, such as assurances regarding an evaluation system, are required by the Act.

Section 1385.1 of these regulations is aimed at stating the Department's view of the purposes of the Act and is based on the Department's belief that such an expression clearly sets the ground rules and the context for the rest of the regulations.

Section 1385.2 contains definitions of terms applicable to all of the other parts of the regulations.

Section 1385.3 incorporates the provisions of 45 CFR Part 74 and is based upon the Department's belief that it is advantageous to all concerned to follow uniform administrative requirements and cost principles to avoid or minimize mistakes and misinterpretations of administrative provisions since States are generally familiar with Part 74 requirements.

Sections 1385.4, 1385.5 and 1385.6 incorporate into the regulations provisions contained in the statute itself. The Department believes that these provisions (judicial review, State control of operations, and employment of handicapped individuals) are mandatory and that it is helpful, from the standpoint of clarity, to restate these requirements in the regulations.

Sections 1385.7, 1385.8, 1385.9, and 1385.10 also incorporate provisions contained in the statute. The purpose of restating these requirements (recovery, good cause for other use of facility, cooperative or joint effort between States and agencies, and awards) is to avoid any possibility of oversight by the public about these requirements. The basis of these regulations is the belief that they will help alert public and private agencies and members of the public to the existence of these requirements.

Lastly, § 1385.11, concerning assurances regarding evaluation systems, is also for the purpose of incorporating in the regulations an express, statutory provision. The Department believes it is advisable to make clear that compliance with the requirement for the development of an evaluation system is a condition for the receipt of Federal financial assistance under the other parts of the regulations. The purpose of this regulation is to make that point absolutely clear. The Department believes that any condition of Federal financial participation or assistance should be expressly stated in regulations.

PART 1386—FORMULA GRANT PROGRAMS

The purpose of this part of the proposed regulations is to govern the conduct of the Formula Grant Programs and to take cognizance of and implement the changes brought about by the 1975 amendments. Part 1386 is divided into four basic Subparts as described below.

The general provisions of Subpart A, pertaining to State plans, consist of §§ 1386.1 through 1386.4. These regulations are designed to implement the requirements of section 133 of the Act pertaining to State plans, and to define further what that provision requires. The Department believes that these regulations give the greatest assurance that States will, in fact, submit approvable State plans prior to the beginning of the fiscal year, and that the Department will have adequate time to review such submissions properly.

In addition, the Department believes it necessary to make it clear to all States that submission of a State plan at the beginning of a fiscal year is a requirement for Federal financial participation, and that failure actually to submit such a plan will result in the loss of Federal funds for that period of time during which there is no approved State plan in effect.

It is the Department's belief that it is the intention of Congress that the State plan be a viable management tool that reflects the State planning process and the rationale through which expressed needs, priorities, and resource allocations are determined so as to provide the basis for the expenditure of funds under the program. Performance standards, to be issued by the Secretary, will provide criteria for evaluation and approval of the State plan. They may also be used as a tool by the State planning council to develop the State plan.

The Department further believes that Congress has intended that money be paid to States only pursuant to an approved State plan. In the past, some States have failed to submit their plans in a timely manner and this has resulted in a decreased ability on the part of the Department to assure that funds

are, in fact, properly paid and properly utilized. Thus, § 1386.2 requires States to submit proposed plans 60 days prior to the fiscal year to which the plan applies. This time period was selected because of the Department's experience that such a time period would be reasonable to allow for review of proposed State plans.

Furthermore, to ensure that States comply with these requirements, this regulation is designed to make it clear that no Federal financial participation will be provided to a State for any period of time during a fiscal year in which an approved State plan is not in effect. The purpose of this regulation is to encourage States to do advance planning, and it is based on the Department's belief that such an approach is necessary to ensure compliance with the statutory requirement for an annual State plan. This position represents a departure from past practice and is believed necessary because several States have, in the past, failed to submit approvable plans until a significant portion of the fiscal year had elapsed.

This subpart also effectuates the amendments to the basic formula grant program which had been in operation for five years and details the requirements which a State must meet in its State plan to participate in the program. These proposed regulations are based on the Department's belief that they best implement key Congressional policies associated with the formula grant programs.

For example, based upon the legislative history, the Department believes that Congress wished to highlight the crucial advocacy role and strengthen the supervisory, planning, and monitoring functions of the State planning councils to meet increased responsibilities effectuated by the 1975 amendments, leaving the actual day-to-day administration of the programs to the designated State agencies. The Department also believes that the regulations in Subpart A accomplish that goal.

The next section under Subpart A is concerned with allotments, Federal share, and payments of Federal money to the States. These provisions, which encompass §§ 1386.10 through 1386.17, essentially are designed to implement various statutory provisions and do not constitute any major innovations brought about by the statute or by interpretations of the statutory provisions. However, particular attention is directed to proposed § 1386.10(b) which defines the need factor referred to in section 132(a) of the Act. The Act itself refers to allotments being made to States on the basis of the population, the extent of need for services and facilities for persons with developmental disabilities, and the financial needs of the respective States. The statute, however, does not define what is meant by "need" and the purpose of this regulation is to do so. It is based upon the advice of the National Advisory Council and represents what the Department believes to be the best approach available at this time based upon information and comments currently before the Agency.

For the first year of the program, the measure of need adopted was the incidence of developmental disability as reflected by the proportion of the population in the State under age 18. This age was substituted for the age 21 factor used in the former mental retardation program formula, because it corresponds to the age criterion in the definition of developmental disabilities in the Act. The data for measuring need utilized after the first year came from the Social Security Disability Applicant Statistics published by the Social Security Administration and updated periodically. The actual data selected are the number of beneficiaries in the State under the Adult Disabled Child Program as an index of relative need of the State for services and facilities for the developmentally disabled. It is the Department's belief that these data are the best that are available. Suggesions for alternative need data, or for definition of need to determine the extent of need for services and facilities for persons with developmental disabilities for State allocation purposes, are solicited during the comment period.

Further attention is directed to proposed § 1386.14 which relates to nonduplication of funds and which implements section 136 of the Act. This provision differs from preceding provisions due to a change in the law which no longer permits the use of Federal funds for matching even though other Federal legislation allows it:

> In determining the amount of any State's Federal share of the expenditures incurred by it under a State plan approved under section 133, there shall be disregarded (1) any portion under any provision of law other than section 132, and (2) the amount of any non-Federal funds required to be expended as a condition of receipt of such Federal funds.

This will bring about a change in past Department practice, and funds which had been used in the past for matching will, in some cases, no longer be able to be used in such a manner. An example would be funds provided under the Appalachian Regional Development Act. All questions arising under this regulation will, absent an express reference to this Act in subsequent Federal legislation, be referred to the Department's Office of General Counsel for opinion and/or interpretation.

It should be noted that § 1386.17(a), "Standards for services for persons with developmental disabilities," will be published in the FEDERAL REGISTER upon completion of a special study mandated by the Act.

The next subdivision of Subpart A relates to "State Plan Requirements—Methods of Administration," and includes §§ 1386.20 through 1386.31. These regulations are based on the Department's belief that carrying out the purposes of the Act in this area is best accomplished by incorporating in the regulations the requirements and provisions of the Act, clarifying exactly what the Act requires, and, in the case of § 1386.24, specifying the reports which the Secretary deems necessary in this area for purposes of assuring proper operation of the State plan.

The regulations pertaining to personnel administration, special assistance to poverty areas, use of volunteers, protection of employees' interests, etc., are based strictly on the statute and upon the Department's belief that these essentially straightforward provisions allow the greatest flexibility in carrying out technical matters.

The purpose of § 1386.23 is to restate the statutory requirement that the State plan provide that special financial and technical assistance be given to areas of urban or rural poverty in providing services and facilities for persons with developmental disabilities who are residents of such areas. The Joint Conference Report No. 94–473 (page 28) notes that Congressional intent is that these regulations define the poverty areas in the manner required by the National Health Planning and Resources Development Act (Pub. L. 93–641.) Regulations implementing this latter Act have not yet been issued by the Department, and under that Act, until the areas can be determined for the entire country, it cannot be determined on a State-by-State basis. Accordingly, in the interim, until regulations are issued for Pub. L. 93–641, the Department in only requiring that State plans provide for this special financial and technical assistance to areas of urban or rural poverty.

This provides States the maximum flexibility possible until such time as Pub. L. 93–641 regulations are issued. When they are issued, such changes as may be necessary to these regulations will be announced through standard FEDERAL REGISTER procedures. It was deemed advisable not to attempt to spell out in § 1386.24 all of the reports that the Department would or might require, but rather to leave such additional detail to subsequent instructions from the Department.

Sections 1386.28 through 1386.31 incorporate substantive aspects required in the statute for a State plan: Membership of the State planning council, identification of State council staff, review of all other State plans, and systematic review of the State plan. The purpose of these regulations is to emphasize that State planning councils, the core planning authority in the State essential to the maximum effective utilization of available existing and potential resources, can best function when adequately staffed and in an environment of coordination and mutual cooperation with all State agencies concerned with planning or implementation processes related to the program. The basis for these regulations is the Department's belief that the Act is designed so that the State planning council can have the capacity for getting cross-agency cooperation in carrying out its duties.

The Department further believes that this requires that the State planning council and State agency(ies) complement each other's functions through effective working relationships. These regulations restate the statutory requirements to make it clear that planning council members and staff are required to review their own and other State plans, and that such analysis, as

a component of a systematic planning process, contributes information on needs, actual and potential resources, and to the development of short-term objectives to meet long-term goals. It also contributes to the development of council insight into the best methods to effect cross-agency coordination to develop a reliable system of services for the developmentally disabled persons in the State.

The next major area of concern relates to the provision of services and construction of facilities and consists of the proposed regulations found in §§ 1386.40 through 1386.49. The purpose of this subdivision of Subpart A is to insure that, through the description of clearly defined long-range goals and measurable short-term objectives, with primary consideration given to implementing the goals of the Act (deinstitutionalization of the developmentally disabled, early identification of those needing assistance, and provision of protective services, advocacy, and follow-along services) allocations of funds can be based on State priorities. At the heart of these provisions are the regulations at §§ 1386.42 through 1386.45.

The Department believes that detailed requirements are advisable in § 1386.46, dealing with the quality, extent, and scope of services, based upon the assumption that knowledge of such requirements will compel careful consideration of the types of services and assistance being provided to the developmentally disabled.

Similar reasoning relates to § 1386.47, dealing with habilitation plans which are required by the statute. In order to eliminate or reduce the possibility of confusion as to what is meant by a habilitation plan, it was deemed advisable to incorporate the statutory details in the regulations in order to give the greatest guidance with respect to this requirement.

Section 1386.48, dealing with the program for construction of facilities, is designed to set forth the purposes for which such construction programs are proper, and to require assessment of relative need and assignment of priority in order of relative need. It is the Department's belief that such a requirement will help to ensure planning for the best use of limited funds.

The last regulation in this group is § 1386.49 which, consistent with the statute, requires States to afford opportunities for appeal and hearing to applicants for construction projects who are dissatisfied with any action of the State with respect to an application for such a project.

The last subdivision of this subpart, § 1386.50, deals with the design for the implementation of the State plan. This provision is based on section 133(b)(25) of the Act. The purpose of the regulation is to set forth the Department's view as to what must be included in a design for implementation of the State plan in order for it to meet statutory requirements through the selection of the best methodology to achieve the goals and objectives developed by the State planning council. The Department believes that this regulation accomplishes the purpose of informing the States of the essential elements of a valid design, especially the review of alternative strategies, without denying them the flexibility to tailor such a design for implementing the State plan to their specific needs.

Subpart B relates to State planning councils. Proposed §§ 1386.60 through 1386.63 are designed to implement section 137 of the Act which sets forth the duties and responsibilities of State planning councils. These provisions, especially those found in §§ 1386.60 and 1386.63, are based on the Department's belief that the 1975 amendments (Pub. L. 94–103) broadened the responsibility of State planning councils in advocacy, planning, and evaluation. These regulatory provisions provide the statutory specificity regarding the role of the State planning councils, membership, and duties of those councils.

The basis for specifying in § 1386.61(b) the Federal/State program membership on State planning councils is section 133(b)(A) of the Act which requires that a State plan describe the quality, extent, and scope of services provided, or to be provided, under other State plans, but in any case to include the nine programs listed. It is the Department's belief that this requirement in the statute necessitates State council representation of at least these nine programs. The purpose of this regulation is to enable States to meet the statutory requirement to develop an approvable State plan. The Department further believes that this provision, which supports Congressional intent, allows for maximum flexibility in council membership since in many States one member could represent more than one of these program areas and since there is no restriction on the number of council members that may be appointed.

One of the purposes of the Department in promulgating § 1386.63 is to ensure that State planning councils supervise the development of State plans through the provision of guidance, the establishment of goals and objectives, identification of gaps, and the setting of priorities for the allocation of funds. The day-to-day implementation of the State plan is the responsibility of the State agency(ies) designated to administer it. The activities of these designated agencies will be monitored and evaluated through the methods established by the State councils to ensure that goals and objectives established in the State plan are being achieved.

Subpart C concerns the protection and advocacy of individual rights and consists of a single proposed regulation, § 1386.70. The purpose of this regulation is to implement section 113 of the Act by incorporating into the regulatory structure the statutory requirements. The regulation includes provisions for assurances that the States will have a system in effect by October 1, 1977, to protect and advocate the rights of individuals with developmental disabilities as specified in the statute, and that such a system will be independent of any State agency which provides treatment, services, or habilitation to such persons. The regulation does not attempt to establish a single method of implementing the statutory provisions. It is the Department's belief that different approaches may be utilized in order to achieve the substantive goal of establishing an independent agency to pursue the rights of the developmentally disabled. The Department believes it desirable to give States flexibility in the development of such a system. However, guidelines which will assist in the development of an advocacy plan will be issued by the Department to insure that the statutory provisions of section 113 are implemented. This regulation imposes no restrictions on the choice of the agency to plan the system. Rigid restrictions, however, are placed on the agency to be selected or established to implement the system by the Act.

The basis for this is to avoid all possibility of conflict of interest because this system has been established in section 113 of the Act for the purpose of addressing problems of individuals. It is the Department's belief that the State council's advocacy role is to be carried out on behalf of the developmentally disabled population as a whole within a State, and that the basic principle underlying the establishment of the protection and advocacy system in each State is that individuals who are developmentally disabled need to be able to reach outside the system of services in order to assure that their rights are not violated or diminished.

The Act makes these findings respecting the rights of developmentally disabled persons:

> (1) Persons with developmental disabilities have a right to appropriate treatment, services, and habilitation for such disabilities.
>
> (2) The treatment, services, and habilitation for a person with developmental disabilities should be designed to maximize the developmental potential of the person and should be provided in the setting that is least restrictive of the person's personal liberty.
>
> (3) The Federal Government and the States both have an obligation to assure that public funds are not provided to any institutional or other residential program for persons with developmental disabilities that—
>
> (A) Does not provide treatment, services, and habilitation which is appropriate to the needs of such persons; or
>
> (B) Does not meet the following minimum standards:
>
> (i) Provision of a nourishing, well-balanced daily diet to the persons with developmental disabilities being served by the program.
>
> (ii) Provision to such persons of appropriate and sufficient medical and dental services.
>
> (iii) Prohibition of the use of physical restraint on such persons unless absolutely necessary and prohibition of the use of such restraint as a punishment or as a substitute for a habilitation program.
>
> (iv) Prohibition on the excessive use of chemical restraints on such persons and the use of such restraints as punishment or as a substitute for a habilitation program or in quantities that interfere with services, treatment, or habilitation for such persons.

(v) Permission for close relatives of such persons to visit them at reasonable hours without prior notice.

(vi) Compliance with adequate fire and safety standards as may be promulgated by the Secretary.

(4) All programs for persons with developmental disabilities should meet standards which are designed to assure the most favorable possible outcome for those served, and—

(A) In the case of residential programs serving persons in need of comprehensive health-related, habilitative, or rehabilitative services, which are at least equivalent to those standards applicable to intermediate care facilities for the mentally retarded promulgated in regulations of the Secretary on January 17, 1974 (39 FR pt. II), as appropriate when taking into account the size of the institutions and the service delivery arrangements of the facilities of the programs;

(B) In the case of other residential programs for persons with developmental disabilities, which assure that care is appropriate to the needs of the persons being served by such programs, assure that the persons admitted to facilities of such programs are persons whose needs can be met through services provided by such facilities, and assure that the facilities under such programs provide for the humane care of the residents of the facilities are sanitary, and protect their rights; and

(C) In the case of nonresidential programs, which assure the care provided by such programs is appropriate to the persons served by the programs.

Subpart D establishes the practice and procedure for hearings pertaining to State conformity with State plans for the developmentally disabled and with Federal requirements. These regulations are found in §§ 1386.80 through 1386.112 The purpose of these regulations is to create in advance of any hearing, regular procedures for the initiation of hearings, for the determination of the requisite notice and parties, and for the rules which will govern the conduct of the hearing itself and post-hearing actions of the parties and of the Presiding Officer and/or Director of the Developmental Disabilities Office.

The Department believes that these regulations, which are followed by other agencies within the Department, such as the Social and Rehabilitation Service and the Administration on Aging (the latter on an *ad hoc* basis), are fair to all the parties concerned and protect the interests of all potential parties with the least amount of delay and expense consistent with the protection of the rights of all concerned.

PART 1387—DISCRETIONARY GRANTS PROGRAM

Subpart A of proposed Part 1387 addresses university affiliated facilities and is divided into two subdivisions, "Demonstration and training grants" and "Construction programs." Sections 1387.1 through 1387.4 deal with demonstration and training grants. The essential purpose of these regulations is to incorporate the requirements of Part B, Subpart 1 of the Act, as amended. The Department believes that little material additional to that contained in the statute is required or desirable for the purpose of implementing this part of the Act. Section 1387.2 does detail what an application for a demonstration and a training grant must contain. The Department believes that this carries out the directive of section 122(a) of the Act which requires the Secretary to establish the form and manner of making an application and of the required contents of an application. Section 1387.4 is proposed for the purpose of implementing what the Department believes to be the Congressional purpose of section 122(b): Of giving priority to applications for programs which will provide services within a community rather than in an institutional setting. The Department believes that this Congressional purpose is best served by repetition of that priority in the regulations, even though the statutory provision just noted is clear.

Subpart 2 of Part B of the Act deals with construction programs and is implemented in §§ 1387.10 through 1387.14 of the proposed regulations. Section 1387.11 implements the statutory mandate found in section 126 of the Act, as amended, which directs the Secretary to establish the form and manner of submitting an application and the information which such an application must contain.

The purpose of the remaining regulations of this subdivision is to implement the statutory directives found in Subpart 2 of the Act. The Department bases these regulations on its belief that little change is necessary because the statute itself is clear with respect to assurances that are required and the purposes of the program. Section 1387.11, dealing with the form of the application, provides that it will be in such form and manner, and contain such information, as the Secretary may require. This is based upon the Department's belief that flexibility is required in the construction program. The applications will be expected to contain, as a minimum, however, the assurances regarding consistency with the State plan, State planning council review, construction standards, and other statutory requirements detailed in § 1387.12.

Subpart B of Part 1387 pertains to special project grants. The purpose of this Subpart, which consists of the regulations at §§ 1387.20 through 1387.23, is to incorporate into the regulations the statutory purposes for which such grants may be made as set forth in section 145 (a) of the Act. These provisions are based upon the Departments' belief that the statute clearly sets forth what are acceptable purposes of special project grants.

Eligible applicants are described in § 1387.22 and are limited to public and other nonprofit agencies, organizations, and institutions. This definition is consistent with, and implements section 145(a) of the Act.

Section 1387.23 deals with the application content and the procedures for submitting applications. The purpose of this regulation is to make clear that the Secretary, through guidelines, has the authority to elaborate on the content and procedures. The reason for leaving this to guidelines is that, since this Subpart relates to specific applications for special projects, as opposed to Statewide plans, greater diversity in permissible or required content is desirable; therefore criteria will be carefully developed. The Department believes that this can be accomplished more efficiently through guidelines than through the regulatory process, particularly since guidelines afford greater flexibility to both the Department and the applicant.

Paragraph (b), of § 1387.23 of this proposed regulation expressly requires a copy of any application for special project grant (other than projects of national significance) to be submitted to the State planning council for review and comment in order to ensure that the proposed project is consistent with the State plan goals and objectives and the comprehensive planning and monitoring responsibilities of the State planning council.

In summary, many of these proposed rulemaking provisions are restated from the Act. The Department has sought to provide States with maximum flexibility within the terms of the Act and to avoid imposing additional burdens beyond those required by the law. The detailed provisions concerning the content of State plans included in these proposed regulations are required by the statute itself.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Director, Developmental Disabilities Office, Department of Health, Education, and Welfare, 330 C Street, SW., Washington, D.C. 20201, on or before October 12, 1976. Comments received will be available for public inspection in Room 3070, Mary E. Switzer Building, of the Department's offices at 330 C Street, SW., Washington, D.C. 20201, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (202/245–0335). 0335).

PART III

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

RULES FOR VISITOR USE—OTHER THAN DEVELOPED RECREATION SITES

Proposed Rulemaking

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Parts 2920, 6260]

RULES FOR VISITOR USE—OTHER THAN DEVELOPED RECREATION SITES

Proposed Rulemaking

For many years, recreational uses of the public lands, not specifically provided for by existing law, were authorized by special land-use permits issued in accordance with regulations in 43 CFR Part 2920. Pub. L. 93–303, amending the Land and Water Conservation Fund Act of 1965, and the Federal Land Policy and Management Act of 1976 (Pub. L. 94–579), authorized recreational uses of the public lands under permit. Because these recreational uses are now authorized by law, special land-use permits are no longer appropriate for permitting such use, and a new permit system is necessary. Special recreation permits for recreational use at other than developed recreation sites shall generally not be required of individuals or families not making competitive and/or commercial use of the public land.

The purpose of the proposed rulemaking is to continue to allow recreational use of the national resource lands and to ensure a safe and enjoyable recreational experience for users while minimizing the environmental impact of their recreational use. This will be accomplished by a fair and equitable system of special recreation permits for recreational use of areas requiring management of such use needed to ensure a safe recreational experience for the user and to protect natural values.

This rulemaking would provide for issuance of permits and collection of fees for permits under authority contained in Pub. L. 93–303. These regulations would serve to implement the enforcement authority provided in the Federal Land Policy and Management Act of 1976 and the Land and Water Conservation Fund Act of 1965, as amended by Pub. L. 92–347, and 93–303, and on those areas covered by joint agreements between the Bureau of Land Management and State governments as provided for in Title II of the Sikes Act, as amended by Pub. L. 93–452. With exceptions provided by law, the enforcement provisions of the Federal Land Policy and Management Act of 1976 and the Land and Water Conservation Fund Act of 1965, as amended, will apply to all special recreation permits issued for which a fee is charged.

Another purpose is to provide for certain controls necessary in the management of special areas such as trails in the National Trails System and river areas in the National Wild and Scenic Rivers System.

Four categories of permit are recognized: (a) commercial, (b) competitive, (c) motorized recreation vehicle, and (d) special areas. Fees generally will be charged for permits for these four categories of use. The basis for fees shall include, but not be limited to, resource impacts of permitted use, administrative costs, levels of supervision necessary, and comparability with fees charged by other Federal and non-Federal agencies. Fees collected will be used for recreational purposes as provided in the Land and Water Conservation Fund Act of 1965, as amended.

Insurance and bonding stipulations are included for the protection of the public, the users, the operators, and the Government.

Permits issued prior to the effective date of these regulations shall be honored, but new permits will be allowed only under the provisions of these regulations.

The proposed rules, when put into effect, will aid in the management of recreational uses and protection of resource values, and will enhance the public safety and welfare.

It is hereby determined that the publication of this proposed rulemaking is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332 (2)(C)) is required.

In accordance with the Department's policy on public participation in rulemaking (36 FR 8336) interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until March 14, 1977.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Division of Legislation and Regulatory Management, Bureau of Land Management, Room 5555, Interior Building, Washington, D.C. 20240 during regular business hours (7:45 a.m.–4:15 p.m.)

It is therefore proposed to amend 43 CFR Chapter II in the manner set forth below.

PART 2920—SPECIAL LAND USE PERMITS

§ 2920.0–50 [Amended]

§§ 2920.0–2—2920.7 (Subpart 2924) [Deleted]

1. Part 2920 is amended by deleting § 2920.0–5(e), and Subpart 2924.

PART 6260—VISITOR MANAGEMENT

2. Part 6260 is amended by adding Subpart 6263 to the table of sections as follows:

. . . . .

Subpart 6263—Rules for Visitor Use—Other Than Developed Recreation Sites

Sec.

6263.0–1 Purpose.
6263.0–2 Objective.
6263.0–3 Authority.
6263.0–5 Definitions.
6263.0–7 Enforcement.
6263.1 Permits required.
6263.2 Applications.
6263.3 Issuance of permits.
6263.4 Fees.
6263.5 Terms.

3. Part 6260 is amended by adding Subpart 6263 to read as follows:

Subpart 6263—Rules for Visitor Use—Other Than Developed Recreation Sites

§ 6263.0–1 Purpose.

This subpart sets forth the procedures for authorizing certain recreational uses of lands and waters administered by the Bureau.

§ 6263.0–2 Objective.

To establish a permit and fee system for certain recreation uses of lands and waters administered by Bureau.

§ 6263.0–3 Authority.

The rules in this subpart are issued pursuant to: 43 U.S.C. 1201; 43 U.S.C. 1701 et seq.; 43 U.S.C. 1374; 43 U.S.C. 1181a; 16 U.S.C. 460(1–6a); 16 U.S.C. 670g–n; 16 U.S.C. 1271–1287; 16 U.S.C. 1241–1249.

§ 6263.0–5 Definitions.

For the purposes of this subpart:

(a) "Commercial use" is recreational use of the public lands for business or financial gain. When any permittee, employee or agent of a permittee, operator, or participant makes or attempts to make a profit, salary, increase his capital worth, advance or promote his business or financial standing, or supports, in any part, other programs or activities from amounts received from or for services rendered to customers or participants in the permitted activity, as a result of having the special recreation permit, the use will be considered commercial. The collection by a permittee or his agent of any fee, charge, or other compensation which is not strictly a sharing of, or is in excess of, actual expenses incurred for the purposes of the activity or use shall make the activity or use commercial. Use by educational and therapeutic institutions is considered commercial when the above criteria are met. Profit making organizations are automatically classified as commercial, even if that part of their activity covered by the permit is not profit making. Nonprofit status of any group or organization under the Internal Revenue or Postal Laws or regulations does not in itself determine whether an event or activity arranged by such a group or organization is noncommercial. Any person, group, or organization seeking to qualify as noncommercial shall have the burden of establishing to the satisfaction of the authorized officer that no financial or business gain will be derived from the proposed use.

(b) "Actual costs or expenses" are costs or expenses necessarily incurred for the permitted activity or use. These terms include, but are not limited to, the actual costs of such items as expendable equipment and supplies. Actual costs or expenses will not include any salaries, profit, increase of capital worth, allowances, or subsidies of any other activities of the permittee or sponsor, the purchase or amortization of nonexpendable supplies or equipment, any allowance for undersubscribed events, or any monetary compensation for sponsors or participants.

(c) "Competitive use" is any formally organized or structured use, event, or activity on public land in which there are the elements of competition between two or more contestants. Informal, spur-of-the-moment competition is not included.

(d) An "event" is a single, structured, organized, consolidated, or scheduled meeting or occurrence for the purpose of recreational use of the public lands. An event may be composed of several activities.

(e) "Educational use" is use by an institution which has been recognized as educational by Federal, State, or local government bodies, or regional accrediting bodies. Such use must have learning as the major objective, and there must be a teacher-pupil relationship present. National, regional, State, or local accreditation will normally qualify a school as noncommercial, but such accreditation in and of itself does not assure noncommercial status.

(f) An "operator" is a group, association, individual, corporation, or organization which provides recreational services.

(g) A "special area" is an area established as a component of either the National Trails System, the National Wild and Scenic Rivers System, or an area covered by joint agreement between the Bureau of Land Management and a State government as provided for in Title II of the Sikes Act.

(h) "Rider/event" is one vehicle or animal, and driver or rider, regardless of the number of passengers, participating in competitive use of public lands in one event.

(i) A "User day" is any calendar day, or portion thereof, for each individual accompanied or serviced by an operator or permittee on the public lands.

(j) A "motorized recreation vehicle" is any vehicle employing a motor or engine, either internal combustion or noninternal combustion, for propulsion, capable of, or designed for, travel on or immediately over land or water used in any noncommercial, noncompetitive recreational activity; excluding any vehicle used for official government purposes.

§ 6263.0–7 Enforcement.

Any person who violates or fails to comply with the regulations of this subpart is subject to arrest and punishment pursuant to the Federal Land Policy and Management Act of 1976, the Land and Water Conservation Fund Act, the Wild and Scenic Rivers Act, the National Trails Act, the Sikes Act, and other appropriate laws when applicable.

§ 6263.1 Permits required.

Special recreation permits are required for commercial, and competitive recreational uses of lands administered by the Bureau. When 25 or more motorized recreation vehicles are used in an event a special recreation permit will be required for the event. Special recreation permits are also required for use in special areas where the authorized officer determines the criteria of either the Land and Water Conservation Fund Act, the Sikes Act, the Wild and Scenic Rivers Act, or National Trails Act requires their issuance. With the exception of use in special areas, special recreation permits are not required for recreational use by individuals, or individual immediate families. Notice will be given by the authorized officer in the FEDERAL REGISTER and regional news media when special recreation permits are required for recreational use other than commercial, competitive, and motorized recreation vehicle use in a special area. Access points in special areas will also be posted notifying the public of required permits for recreational use, other than commercial, competitive, and motorized recreation vehicle use.

§ 6263.2 Applications.

(a) *Forms and Maps.* Applications for special recreation permits shall be made to the authorized officer on forms approved by the Director, Bureau of Land Management. Applications shall include three copies of a map of sufficient scale and detail to allow identification of the proposed use area on the ground. The authorized officer may waive the requirement for maps where appropriate.

(b) *Supplemental Information.* The authorized officer may require the applicant to submit supplemental information in sufficient detail to evaluate the impact of the proposed event upon the lands and environment, including measures the applicant would take to mitigate impacts on the lands and environment.

(c) *Filing.* (1) The application may be filed in any office of the Bureau having jurisdiction over the lands to be used. Application for commercial, competitive, and motorized recreation vehicle uses must be filed a minimum of 120 days in advance of intended use unless a shorter time is authorized by the authorized officer. This advance filing also may be required of other organized use. Application should be made at the earliest possible time to provide for adequate consideration of the application prior to the intended use period. (2) Within 60 days of the filing date the authorized officer will inform the applicant if the decision on issuing the permit will be delayed. (3) The authorized officer may establish a maximum time by which applications will be accepted prior to date of proposed use.

§ 6263.3 Issuance of permits.

The approval of an application and subsequent issuance of a special recreation permit is discretionary with the authorized officer.

§ 6263.4 Fees.

(a) *Filing fees.* Applicants for special recreation permits for commercial or competitive uses shall include with their application a $10.00 nonrefundable filing fee.

(b) *Use Fees.* (1) Commercial use—a minimum of $25.00 is required for use of not in excess of 100 user days. Payment for use in excess of 100 user days shall be in the amount of $25.00 each additional 100 user days or fraction thereof. (2) Competitive use—the fee is five percent of the gross receipts, $1.00 per participant per day or $10.00 whichever is greater. When use is both commercial and competitive, the competitive fee shall be charged. (3) Special area use—fees may be required for special area uses by other than commercial, competitive, and motorized recreation vehicle users where the authorized officer determines that such charges are consistent with the Land and Water Conservation Fund Act. A minimum fee of $1.00 will be charged for each permit for such use. (4) Motorized recreation vehicle use—a minimum fee of $1.00 will be charged for the permit for each event. (5) The authorized officer may charge larger fees than these minimums consistent with charges made for similar uses by other organizations and governmental agencies in the region of use. (6) Any change in established fees will be made in accordance with 43 U.S.C. 1734 (1976).

(c) *Payment of use fees.* (1) Payment of fees will be required at the time a permit is issued. (2) Where the amount of intended use cannot be precisely determined, the fee will be based on an estimation and payment will be required of that amount. The fee will be adjusted, based on actual use, after use is made. Refunds will be made or additional payment will be required to the extent the payment requirement for actual use varies from the initial amount paid by $10.00. (3) If an applicant is unable to pay the fee in advance, the authorized officer may allow the posting of a payment bond or other guarantee in an amount equal to the actual or estimated fee. The authorized officer will establish a payment date which is no later than 15 days following the use period.

(d) *Exceptions, exclusions, and exemptions.* (1) Nothing contained herein shall authorize Federal hunting, trapping, or fishing licenses, permits, or fees. (2) Fees of this part shall not be charged for commercial or other activities not related to recreation, including, but not limited to, organized tours or outings conducted for educational or scientific purposes related to the resources of the area visited by bona fide institutions established for these purposes. (3) Applicants for waiver of fees on this basis will be required to provide documentation of their official recognition as educational or scientific institutions by Federal, State, or local government bodies and will also be required to provide a statement as to the purposes of the visit proposed. (4) The use of areas for which a fee waiver is requested must relate directly to scientific or educational purposes. (5) No fee shall be charged for those special recreation permits required for: (i) Any hospital patient actively involved in medical treatment or therapy in the area visited; (ii) educational and therapeutic institutions that are not commercial; and (iii) individuals, and individual immediate families in units of the National Wild and Scenic Rivers and National Trails System.

§ 6263.5 Terms.

(a) *General.* (1) A special recreation permit will be revocable at the discretion

of the authorized officer at any time. (2) Permits may be issued for a day, season of use, or such other time period considered appropriate by the authorized officer for the use involved. (3) A special recreation permit will not be issued for an area larger than the authorized officer determines is necessary for the contemplated use. The land may be surveyed or unsurveyed. (4) The operator or permittee will allow the authorized officer, or other duly authorized representative of the Bureau, to have access to and the right to examine any directly pertinent books, documents, papers, and records of the operator or permittee involving transactions related to the permit. The operator or permittee also will allow the authorized officer, or other duly authorized representative of the Bureau, to have access to and the right to examine any directly pertinent books, documents, papers, and records of any employee or agent of the permittee or operator. These allowances and rights terminate 3 years after the expiration of the permit.

(b) *Stipulations.* A special recreation permit will contain such stipulations as the authorized officer considers necessary to protect the lands and resources involved and the public interest in general.

(c) *Bonds.* In addition to a payment bond, the authorized officer may require the posting of a cash or surety bond or other guarantee in such form and in such amount as the authorized officer determines to be sufficient to defray the costs of restoration and rehabilitation of the lands affected by the permitted use. Bonds and guarantees will be returned to the permittee upon satisfactory compliance with all permit stipulations, including restoration and rehabilitation requirements.

(d) *Insurance.* The authorized officer will require all commercial and competitive applicants, and may require other applicants, to obtain and submit a property damage, personal injury, and public liability insurance policy which he judges sufficient to protect the public and the United States. The policy shall name the United States Government as a co-insured and stipulate that the authorized officer of the Bureau of Land Management will be notified 30 days in advance of the termination or modification of the policy.

(e) *Liability.* The permittee shall indemnify the United States against any responsibility or liability for damage, injury, or loss to persons and property which may occur during the permitted use period or as a result of such use.

(f) *Violation of Law.* The conviction of a violation of any Federal or State law or regulation concerning the conservation or protection of natural resources, the environment, endangered species, or antiquities that is related to said special recreation permit may result in the cancellation of the permit and/or denial of any subsequent permit applications.

JACK O. HORTON,
Assistant Secretary of the Interior.

PART IV

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

MINING CLAIMS

Recordation, Filing of Assessment Work and Notice of Intent To Hold Mining Claims

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

[Circular No. 2419]

PART 3830—LOCATION OF MINING CLAIMS

Recordation of Mining Claims and Filing Evidence of Annual Assessment Work or Notice of Intention to Hold Mining Claims

On December 10, 1976, the Department of the Interior/Bureau of Land Management published in the FEDERAL REGISTER (41 FR 54084) a notice and text of a proposed rulemaking that would add a new subpart to Part 3830 of Title 43, Code of Federal Regulations. The purpose of the proposed rulemaking is to implement section 314 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701) (hereinafter called the Act) which requires that within specified periods of time unpatented mining claims be recorded and information concerning assessment work or a notice of intention to hold a claim be filed with the Bureau of Land Management. The proposed rulemaking also implements the general regulatory authority of the Department under the mining law of 1872 (30 U.S.C. 22) providing that the exploration, occupation and purchase of valuable mineral deposits shall be "under regulations prescribed by law." Another purpose of the proposed rulemaking is to coordinate the implementation of section 8 of the Act of September 28, 1976 (16 U.S.C. 1901), which requires the recordation of unpatented mining claims located within the boundaries of the National Park System before September 27, 1977, with the implementation of section 314. The proposed rulemaking applies to both existing and future mining claims located under the Mining Law of 1872 (30 U.S.C. 21–54), as amended.

Interested persons were given 30 days, until January 10, 1977, to submit comments, suggestions, or objections to the proposed rulemaking. More than 160 comments were received and given careful consideration as part of the final rulemaking process.

There were a large number of comments that objected to the proposed rulemaking in general and stated that the Department has exceeded the authority given it by the Congress in section 314 of the Act. We disagree with this contention and feel that the proposed rulemaking in those sections of the regulations which are intended to implement the Act is a careful effort to meet the Congressional purpose of section 314 without unduly burdening the mining community. However, many of these comments objected to sections of the regulations which were issued pursuant to the regulatory authority of the Department under the Mining Law of 1872, supra. Therefore, comments objecting to the regulations as beyond the intent of the Act address the wrong issue and are not accepted. We also received objections to specific sections of the proposed rulemaking as being beyond the authority granted the Department in section 314 of the Act. We will answer each of those objections when we deal with the specific sections of the proposed rulemaking.

We received a number of comments supporting the purpose of the proposed rulemaking and recommending some changes that would improve them. Many comments recognized that the proposed rulemaking was required by the Congress and accepted them in that light.

Another general comment was that only the minimum period was given the public to comment on the proposed rulemaking and the comment period occured during the Christmas and New Year holiday period. We recognize the problems caused by the short comment period and the impact that the holidays had on the number of working days actually available for making comments, but we did not extend the comment period because of the 90-day limit placed on the recording of claims located after the approval of the Act by the Congress. We felt that we had an obligation to the public to have final regulations in effect as soon as possible so that the public would know the procedures they must follow to record their claims.

Even though the Department is publishing this final rulemaking, we recognize the short period of time allowed to analyze the process outlined in the final rulemaking. Therefore, we will carefully observe the practical effects of the implementation of this final rulemaking over the next several months and will make any additional revisions we find necessary to improve the recordation operation mandated by the Congress as amendments to the final rulemaking.

Even though we received no comments on the index to the proposed regulations, we made several changes in the index so that it would agree with changes made in the sections.

We received a few comments on the purpose of the proposed rulemaking. One comment recommended the deletion of the last sentence of the purpose because it exceeded the authority granted in section 314. We were unable to accept this comment because we feel that the Secretary has the authority under the provision of Mining Law of 1872 to require notification of transfer of interest in unpatented mining claims.

We did make a change in the purpose section of the proposed rulemaking by deleting the word "proof" and inserting in lieu thereof the word "evidence". This is a more accurate description of what is furnished in connection with assessment.

One comment objected to the use of the phrase "cloud on the title" in the objectives section of the proposed rulemaking. We did not accept this comment because that phrase is taken directly from the legislative history of the section and is properly used. It was decided that a change was needed in the objectives section to make it clear that this rulemaking was not intended to supersede or replace existing recording requirements under State law, except when specifically changed by the provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701). This amendment makes it clear that there are instances where changes in State law are made by the Act and the proposed rulemaking carries out those changes. An example of a change in State law that is mandated by the Act is the filing requirement that is set on a date certain by the Act but conflicts with some existing State laws.

Comments on the authority section challenged the requirement for filing of the required documents with the Bureau of Land Management, on the basis that this filing superseded the counties as the offices of record for mining claims. These comments were not accepted because their adoption would make the Act meaningless. What was the purpose of Congress if it did not intend what it clearly states in the Act, recordation with the Bureau of Land Management of all unpatented mining claims located on the public lands? Further, neither the Act nor the proposed rulemaking make any change in the requirements of the local jurisdictions, but simply require a second place of recording so that the Government can know the location of unpatented mining claims and can use that information in planning use of its lands.

Comments were made that the authority cited in subsection (c) of § 3833.0–3 of the proposed rulemaking was superfluous and not needed. We disagree and have used the authority cited in subsection (c) as the basis of requiring the recording of transfers of interest and other sections of the regulations not intended to implement the Act. The authority cited in subsection (d) of this section of the regulations is also needed because section 314 of the Act does not provide authority to issue regulations. Such general authority for the Act is contained in section 310 of the Act.

In connection with the definitions section of the proposed rulemaking, a very complicated comment suggested that the use of the term "location" or "located" inferred that acceptance of a certificate of location of a claim by the BLM validated the claim. We found this comment unacceptable because the language of section 314 of the Act specifically states that the recordation of a claim under its provisions in and of itself does not validate the claim.

A comment properly pointed out that the definition of "owner" used in the proposed rulemaking could be read to require the listing of all stockholders of a corporation that owned an interest in a mining claim. We agree that the definition could be misconstrued and have amended it by adding words that make it clear that we are talking about owners of record. Several comments noted the printing error in subsection (f) of the definition sections. We have changed the date from 1972 to 1872.

Some comments suggested that the District Offices of the Bureau of Land Management be made the proper office for purposes of recording of mining claims. We did not accept that suggestion because the State Offices are the location of the master plats and our central records. The District Offices can obtain information from the State Office as it is needed. We did make a minor amendment to subsection (g) of § 3833.0–5 to make it clear that the State Office is the proper office for recordation of mining claims.

Even though we received no comments on subsection (h) of the definition section, we amended it to clarify the term "date of location". We think that the amendment will be helpful to those recording.

We received comments on subsection (i) of the definition section to the effect that what was required as part of the official record was excessive and the subsection should be changed. After careful consideration of those comments, we made a change in subsection (i) that we believe will satisfy most of the objections of those commenting on this subsection.

One point of clarification in subsection (i) was a change requiring that only the documents accompanying the certificate of location at the time it was filed with the State would be required when the claim or site is being recorded with the Bureau. We do not want other documents, such as liens, wills, earlier transfers, etc., filed for record in the local jurisdiction subsequent to the filing of the certification of location. We only want the claimant to file those amendments to the certificate that change the location of the claim. We are not interested in any of the other papers of record.

No comments were received in connection with section 3833.1–1 of the proposed rulemaking, but we amended the section to make it clear that those recording claims located within the boundaries of the National Park System must comply with the provisions of the final rulemaking published by the National Park Service covering recordation of mining claims in the parks.

Almost every substantive comment made on the proposed rulemaking made direct reference to § 38.33.1–2, with special emphasis on the requirements imposed and on the fee imposed in connection with the recordation. There also were other comments made about this section. As a result of the heavy volume of comments on this section, the section was exhaustively reviewed and a number of changes were made in the section.

Comments on subsection (a) of § 3833.1–2 were directed at the need it imposed to meet the requirements of subsection (c) of the section. We have amended subsection (c) and feel that the amendment to subsection (c) resolve the objections made to subsection (a).

Some comments objected to the requirement for recordation within 90 days of a location of a claim imposed in subsection (b). That requirement cannot be changed because it is set by the provisions of section 314 of the Act. We have amended subsection (b) to make it clear that the time of filing set out in subsection (b) will be the time the documents required are received and time stamped in the proper BLM office, not the date of mailing of said documents. This clarification will require the mining claimant to take into consideration the required mailing time when he files his recordation papers.

A large number of strong comments were made about subsection (c) of § 3833.1–2 of the proposed rulemaking. Many of those making comments read the subsection as requiring a survey in order to meet the requirements contained therein. It was not intended that the proposed rulemaking require any mining claimant to go to the expense of a survey to record his claim. It was believed that the requirements of subsection (c) could be met without accomplishment of a survey. As a result of our re-examination of this subsection, it was decided that there was in fact, no need for several of the requirements in the proposed rules. Subsection (c) has, therefore, been amended to eliminate a number of the requirements originally imposed. The amendments will satisfy most of the objections raised in the comments submitted on this subsection and will, at the same time, furnish the Government with sufficient information to meet its need to locate the mining claim site. We believe that the requirements in this final rulemaking can be legally required by the Department, either under the provisions of section 314 of the Federal Land Policy and Management Act of 1976, or the provisions of the Mining Law of 1872.

One area of special concern to those commenting on subsection (c) was the requirement for a map. We have continued to require a map, but have reduced the requirements in connection with the map. As an example, we have changed the scale of the map to one that is generally available from nearly all U.S. Government offices, including BLM offices. We have also changed the subsection so that all that is required on the map is a general location of the claim or site or group of contiguous claims or sites in a quarter of a section. We believe that this new, broader map requirement is in keeping with our precise statement that the claimant is not expected to hire a professional surveyor or engineer.

Because of the numerous comments received on this point, a careful analysis was made of the requirements for a fee imposed by subsection (d) of § 3833.1–2. Although the recordation of mining claims is of direct benefit to the claimant, the Government and the public also receive a benefit from the recordation of mining claims. After carefully weighing these corresponding benefits it was decided that about half of the $10 cost of handling the recordation of a mining claim could be attributed to the public. The service fee has been reduced to $5.00.

No comments were received on § 3833.1–3 and no amendments have been made to that section.

Reconsideration of the sections of the proposed rulemaking dealing with the required assessment work disclosed the fact that the use of the word "proof" was inaccurate. The word "evidence" has been substituted for the word "proof" in those instances where it is used in conjunction with the word "assessment." This rewording more accurately describes what is being required.

Comments on subsection (a) of § 3833.2–1 pointed out that the Mining Law of 1872 did not require evidence of assessment in the first calendar year following the recordation of the location of the claim. We agree with that comment and find that the proposed rulemaking provides for that eventuality. In that case, a notice of intent will be required in that first calendar year after recordation if the claim is not to be deemed abandoned. We also added language making it clear that the filing requirements of this subsection do not cover claims or sites located in the National Park System.

Comments on § 3833.2–2 questioned the reasons for requiring evidence of assessment work that went beyond the affidavit of assessment that is required by the States. Following a review of § 3833.2–2 the section has been amended to call for the filing of a certified copy of the affidavit required by State law. We believe this section, coupled with § 3833.2–3, requires the filing of a notice of intent in those States that do not require an affidavit of assessment work. In addition, the requirement for filing of the residence address of claimants has been deleted as was done in other sections of the proposed rules.

Comments on § 3833.2–3 objected to the definition of what constitutes a notice of intent. We feel that this comment is without merit because the term, which was introduced into the mining law for the first tme by section 314 of the Act, needs to be defined so that everyone understands exactly what it is. The definition, therefore, remains in the final rulemaking. It is the document that is to be filed by a claimant when he cannot file one of the other documents set forth in the Act. This section has also been amended to include sites. Comments pointed out that section 3833.2–4 was incorrect in that tunnel sites cannot be patented. The section has been amended to delete tunnel sites.

A large number of comments on section 3833.3 challenged the Department's authority to require the filing of a notice of transfer under the provision of section 314 of the Federal Land Policy and Management Act of 1976, and suggested that the section should be deleted from the proposed rulemaking. Other comments suggested that the requirement to file notices of transfer made the Bureau of Land Management, instead of the local jurisdictions, the depository of documents affecting the title of mining claims. First, the authority to require the filing of notices of transfers is derived from the authority granted the Department by the Mining Law of 1872 which has never been exercised. Up until the requirement for the recordation of mining claims was imposed, there was no reason to have claimants file a notice of transfer with the Government. With this new recordation requirement and

the necessity of keeping records it imposed, we feel that it is appropriate to exercise this authority and it is being retained in the final rulemaking. Further, the requirements of the rulemaking do not extend to documents other than notices of transfer so do not make the Bureau of Land Management a title repository for mining claims located on public lands, but leaves that function with the local jurisdictions, where we think it logically belongs. While requiring the filing of a notice of transfer, we believe that the final rulemaking now requires the filing of a minimum amount of information.

Several comments suggested that the thirty day time limitation imposed by § 3833.2–4 was too short and should be extended. That recommendation has been accepted and the time limits imposed in the section have been extended to 60 days.

We also accepted the comments that questioned our need for a description of the interest conveyed in the notice of transfer and deleted that requirement.

Finally, because of the large number of comments on the subject, we examined the basis for the imposition of a $10 service fee in connection with the filing of a notice of transfer. The requirement for payment of this fee has been deleted in its entirety because the public, and not the claimant, receives the benefit of the filing.

A large number of comments suggested that section 3833.4 should be changed to make a failure to file prima facie evidence of abandonment rather than conclusive proof of abandonment. We cannot accept these comments because section 314 of the Act provides that failure to comply with the provisions of the Act will be conclusive evidence of abandonment and the claim or site will be void as a matter of law.

A few general comments were made with reference to section 3833.5 to the effect that we should not require recording of mining claims with both the Federal Government and the local jurisdictions. We understand the problem that mining claimants may have with the double recordation but point out that section 314 of the Act requires both filings. We must comply with the Act's provisions.

Our review of § 3833.5 leads us to the conclusion that subsection (d) was not clear as to the action the Government would take in notifying owners of claims or sites who had failed to record or file a notice of transfer. We have redrafted the subsection to clarify it.

Further, we feel that the failure to include language in the proposed rulemaking that deals with actual notice of claims or sites that have not been recorded pursuant to section 314 of the Act could lead to the conclusion that such actual notice implies that the claimant did not have to comply with the requirement to record under the Act. To make it clear that regardless of its form, actual notice of the existence of a claim or site to the Bureau of Land Management does not free a claimant from the recording requirement, we have added subsection (e) to § 3833.5.

We appreciate the interest expressed in the proposed rulemaking and the comments made on them. We found the comments helpful in our effort to promulgate rulemaking that will carry out the responsibilities given us by the Congress and at the same time assist the mining interests in meeting their day-to-day responsibilities.

Accordingly, 43 CFR Part 3830 is adopted with the changes discussed herein.

Effective date: January 20, 1977.

Signed at Washington, D.C. on January 19, 1977.

CHRIS FARRAND,
Deputy Assistant
Secretary of the Interior.

Part 3830 is amended by adding Subpart 3833 to read:

Subpart 3833—Recordation of Mining Claims and Filing Proof of Annual Assessment Work or Notice of Intention To Hold Mining Claims

Sec.

3833.0–1 Purpose.
3833.0–2 Objectives.
3833.0–3 Authority.
3833.0–5 Definitions.
3833.1 Recordation of mining claims.
3833.1–1 Manner of recordation—National Park System.
3833.1–2 Manner of recordation—other Federal lands.
3833.1–3 When recordation not required.
3833.2 Evidence of assessment work/notice of intention to hold claim.
3833.2–1 When filing required.
3833.2–2 Form—evidence of assessment work.
3833.2–3 Form—notice of intention to hold claim.
3833.2–4 When evidence or notice not required.
3833.3 Notice of transfer of interest.
3833.4 Failure to file.
3833.5 Effect of recording and filing.

§ 3833.0–1 Purpose.

One purpose of these regulations is to establish procedures for the recordation in the proper BLM office of unpatented mining claims, mill sites, or tunnel sites on Federal lands, and for the filing in the same office of evidence of performance of annual assessment work or of a notice of intention to hold an unpatented mining claim. Another purpose is to notify the proper BLM office of the transfer of an interest in unpatented mining claims, mill sites or tunnel sites.

§ 3833.0–2 Objectives.

An objective of these regulations is to determine the number and location of unpatented mining claims, mill sites, or tunnel sites located on Federal lands to assist in the management of those lands and the mineral resources therein. Other objectives are to remove the cloud on the title to these lands because they are subject to mining claims that may have been abandoned and to keep the BLM abreast of transfers of interest in unpatented mining claims, mill sites or tunnel sites. These regulations are not intended to supersede or replace existing recording requirements under State law, except when specifically changed by the provisions of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), and are not intended to make the BLM office the official recording office for all ancillary documents (wills, liens, judgments, etc.) involving an unpatented mining claim, mill site or tunnel site.

§ 3833.0–3 Authority.

(a) Subsections (a) and (b) of section 314 of the Act require the recordation of unpatented mining claims and the filing of information concerning annual assessment work performed or a notice of intention to hold such a claim in the proper BLM office within specified time periods. Subsection (c) sets forth the consequences of the failure to file such information or documents within the time limits prescribed.

(b) Section 8 of the Act of September 28, 1976 (16 U.S.C. 1901–1912), requires that all unpatented mining claims within the boundaries of the National Park System shall be recorded with the Secretary within one year after the date of the Act and provides penalties for failure to record.

(c) Section 2319 of the Revised Statutes (30 U.S.C. 22) provides that the exploration, location, and purchase of valuable mineral deposits shall be "under regulations prescribed by law," and section 2478 of the Revised Statutes, as amended (43 U.S.C. 1201), provides that those regulations will be issued by the Secretary.

(d) The Secretary has general responsibility and authority concerning public lands under 43 U.S.C. 2 and section 310 of the Act.

§ 3833.0–5 Definitions.

As used in this Subpart:

(a) "The Act" means the Federal Land Policy and Management Act of 1976 (Pub. L. 94–579; 90 Stat. 2743).

(b) "Unpatented mining claim" means a lode mining claim or a placer mining claim located under the General Mining Law of 1872, as amended (30 U.S.C. 21–54), for which a patent under 30 U.S.C. 29 and 34 CFR 3860 has not been issued.

(c) "Mill site" means any land located under 30 U.S.C. 42.

(d) "Tunnel site" means a tunnel located pursuant to 30 U.S.C. 27.

(e) "Owner" means any person who holds a recorded possessory interest in all or any part of an unpatented lode or placer mining claim, mill site, or tunnel site whether such interest was obtained by location, purchase, gift, inheritance, or other means recognized under law for transfer of the right of possession and enjoyment recognized in the holder of the claim or claims under the General Mining Law of 1872, as amended, *supra*.

(f) "Federal lands" means any land or interest in land owned by the United States as defined by subparagraph (e) of section 103 of the Act and any other land or interest in land owned by the United States which is subject to location and purchase under the General Mining Law of 1872, *supra.*, and 43 CFR Subpart 3811 including, but not limited to, those lands within units of the National Park System, forest reservations within the National Forest System and wildlife refuges within the National Wildlife Refuge System.

(g) "Proper BLM office" means the Bureau of Land Management State Office having jurisdiction over the area in which the lands subject to the regulations are located. (See 43 CFR 1821.2–1 for office location and area of jurisdiction.)

(h) "Date of location" means the date indicated on the notice of location or discovery posted on an unpatented mining claim, mill site, or tunnel site under state law, or, if state law does not require the posting of a notice of location or discovery for unpatented mining claims or tunnel sites the date that the notice of location of the claim was posted in accordance with 43 CFR Parts 3830 and 3840 or if state law does not require the posting of a notice for mill sites, the date that the person who located the site began using or occupying the site for mining or milling purposes.

(i) "Official record of the notice or certificate of location" means the official document of recordation and all accompanying maps, papers or other documents filed for record with the recorder or other officer now authorized to record such instruments under state law in the local jurisdiction where the unpatented mining claim, mill site, or tunnel site is located and any amendments thereof which may change or alter the location of the claim or site.

§ 3833.1 Recordation of mining claims.

§ 3833.1–1 Manner of recordation—National Park System.

The owner of an unpatented mining claim, mill site, or tunnel site located within the boundaries of units of the National Park System must comply with the requirements of the Notice of October 13, 1976, entitled "Claimants of Mining Claims," published on October 20, 1976, at 41 FR 46357, and the requirements of Park Service regulations concerning recordation in 36 CFR Part 9, and copies of all material received by the National Park Service pursuant to that Notice will be given by the Park Service to the proper BLM office. Compliance with the requirements of that Notice will be deemed full compliance with the requirements of section 314 of the Act for all owners of unpatented mining claims, mill sites, or tunnel sites within the boundaries of any unit of the National Park System.

§ 3833.1–2 Manner of recordation—other Federal lands.

(a) The owner of an unpatented mining claim, mill site, or tunnel site located on or before October 21, 1976, on Federal land, excluding land within units of the National Park System, shall file (file shall mean being received and date stamped by the proper BLM office), before October 22, 1979, in the proper BLM office a copy of the official record of the notice or certificate of location of the claim or site filed under state law, or, if state law does not require the recordation of a notice or certificate of location containing the information in paragraph (c) of this section.

(b) The owner of an unpatented mining claim, mill site, or tunnel site located after October 21, 1976, on Federal land shall file (file shall mean being received and date stamped by the proper BLM office), within 90 days after the date of location of that claim in the proper BLM office a copy of the official record of the notice or certificate of location of the claim or site filed under state law or, if the state law does not require the recordation of a notice or certificate of location of the claim or site, a certificate of location containing the information in paragraph (c) of this section.

(c) The copy of the notice or certificates filed in accordance with paragraphs (a) and (b) of this section shall be supplemented by the following additional information unless it is included in the copy:

(1) The name or number of the claim, or both, if the claim has both;

(2) A reference by book and page or other identification number to the county or other local public record of the notice or certificate and, if amended, of the last recorded amendment thereof;

(3) The name, and current mailing address, if known, of the owner or owners of the claim;

(4) The type of claim or site;

(5) The date of location;

(6) For all claims or sites located on surveyed or unsurveyed lands, a legal description shall be furnished. This description shall recite the approximate location of all or any part of the claim or site with a 160 acre quadrant of a section (quarter section) or sections, if more than one is involved. In addition, there must be funished the township, range, meridian and state obtained from an official survey plat or other U.S. Government map showing either the surveyed or protracted U.S. Government grid, whichever is applicable;

(7) A map with a scale of not less than ¼ inch to a mile showing the survey or protraction grids on which there will be depicted the location of the claim or site. Contiguous claims or sites and groups of claims or sites in the same general area may be depicted on this single map so long as the individual claims or sites are clearly identified;

(8) If the individual claim or site or group of claims or sites are located on unsurveyed land and it is not a part of or included in the notice or certificate, there shall also be furnished either a narrative or a sketch describing the individual claim or site or group of claims or sites in reference to some topographic, hydrographic or man-made feature. Such narrative description or sketch shall set forth the boundaries and position of the individual claim or site or group of claims or sites with such accuracy as will permit the authorized officer of the agency administering the surface of the lands to identify and locate the claimed lands on the ground;

(9) Nothing in the requirements for a map and description found in this section shall require the owner of a claim or site to employ a professional surveyor or engineer; and

(10) For claims on O & C lands located pursuant to 43 CFR subpart 3821 and claims located pursuant to Public Law 359, 43 CFR Part 3730, the notice or certificate shall be so marked.

(d) Each claim or site filed shall be accompanied by a $5 service fee which is not returnable.

§ 3833.1–3 When recordation not required.

If the owner of an unpatented mining claim or mill site had on file in the proper BLM office on October 21, 1976, an application for a mineral patent which complies with 43 CFR Part 3860, except the requirements for publication and payment of purchase price (43 CFR 3862.4), or if the owner of an unpatented mining claim or mill site located on or before October 21, 1976, shall file in the proper BLM office an application for a mineral patent, as described above, before October 22, 1979, the filing of the application will be deemed full compliance with the recordation requirements of section 314 of the Act and the owner of that claim or site shall be exempt from the filing requirements of § 3833.1.

§ 3833.2 Evidence of assessment work/notice of intention to hold claim.

§ 3833.2–1 When filing required.

(a)(1) The owner of an unpatented mining claim located on Federal land, excluding land within units of the National Park System, on or before October 21, 1976, shall file before October 22, 1979, and prior to December 31 of each calendar year following the calendar year of recording in the proper BLM office pursuant to this subpart evidence of annual assessment work performed during the preceding assessment year or a notice of intention to hold the mining claim.

(2) The owner of a mill site or tunnel site located on Federal land, excluding land within units of the National Park System, on or before October 21, 1976, shall file before October 22, 1979, and prior to December 31 of each calendar year following the calendar year of recording pursuant to this subpart, in the proper BLM office a notice of intention to hold the mill or tunnel site.

(3) The owner of an unpatented mining claim located within the boundaries of units of the National Park System must comply with the requirements of 36 CFR 9.5(d) for annual filing and copies of all those annual filings received by the National Park Service pursuant to that regulation will be given by the National Park Service to the proper BLM office. Compliance with the requirements of that regulation will be deemed full compliance.

(b)(1) The owner of an unpatented mining claim located after October 21, 1976, shall, prior to December 31 of each year following the calendar year in which such claim was located, file in the proper BLM office evidence of annual assessment work performed during the pre-

ceding assessment year or a notice of intention to hold the mining claim.

(2) The owner of a mill site or tunnel site located after October 21, 1976, shall, prior to December 31 of each year following the calendar year in which such mill or tunnel site was located, file in the proper BLM office a notice of intention to hold the mill or tunnel site.

§ 3833.2–2 Form—evidence of assessment work.

Evidence of annual assessment work shall be in the form of either:

(a) An official copy of the affidavit of assessment work performed filed in the local jurisdiction of the State where the claim or group of contiguous claims are located setting forth the following information:

(1) The serial number assigned to each claim by the authorized officer upon filing of a copy of the official record of the notice or certificate of location or patent application in the proper BLM office;

(2) Any change in the mailing address, if known, of the owner or owners of the claim or claims; or

(b) An official copy of the detailed report concerning geological, geochemical, and geophysical surveys filed in the office of the local jurisdiction in which the claim is located pursuant to the Act of September 2, 1958 (30 U.S.C. 28–1), setting forth the following additional information:

(1) The serial number assigned to each claim by the authorized officer upon filing in the proper BLM office of a copy of the official record of the notice or certificate of location or patent application; and

(2) Any change in the mailing address, if known, of the owner or owners of the claim.

§ 3833.2–3 Form—notice of intention to hold claim.

A notice of intention to hold a mining claim or group of mining claims or mill or tunnel sites shall be in the form of a letter signed by the owner or owners of such claim or site or their agent setting forth the following information:

(a) The serial number assigned to each claim by the authorized officer upon filing in the proper BLM office of a copy of the official record of the notice or certificate of location;

(b) Any change in the mailing address, if known, of the owner or owners of the claim;

(c) A statement that the claim is held and claimed by the owner(s) for the valuable mineral contained therein;

(d) A statement that the owner(s) intend to continue diligent exploration or development of the claim;

(e) The reasons that physical, legal, or other impediments, beyond the control of the owner(s), have prevented his filing an affidavit of assessment work performed or a detailed report of geological, geochemical, and geophysical survey under 43 CFR 3833.2–2 (such impediments may include, but are not limited to, deferment of annual assessment work, in which case the notice must be accompanied by a copy of petition for deferment and the order or decision disposing of such petition); and

(f) As required by section 314(a)(1) of the Act, the date on which a copy of the notice of intention to hold the mining claim, was filed in the office of the local jurisdiction in which the claim is located.

§ 3833.2–4 When evidence or notice not required.

Evidence of annual assessment work performed or a notice of intention to hold a mining claim need not be filed on unpatented mining claims or mill sites for which application for mineral patent which complies with 43 CFR Part 3860 has been filed and final certificate has been issued. (See 43 CFR 3851.5). The filing of an application and issuance of the final certificate will be deemed full compliance with the requirements of section 314(a) of the Act and the owner of that claim or site shall be exempt from the filing requirements of § 3833.2–1.

§ 3833.3 Notice of transfer of interest.

(a) Whenever the owner of an unpatented mining claim, mill site or tunnel site, which has been recorded in accordance with § 3833.1–2, sells, assigns, or otherwise conveys all or any part of his interest in the claim, his transferee shall file in the proper BLM office within 60 days after the completion of the transfer the following information:

(1) The serial number assigned to the claim by the authorized officer upon filing of a copy of the official record of the notice or certificate of location in the proper BLM office; and

(2) The name and mailing address of the person(s) to whom an interest in the claim has been sold, assigned, or otherwise transferred.

(b) Whenever any person acquires an interest through inheritance in an unpatented mining claim, mill site, or tunnel site recorded in accordance with § 3833.1, he shall file in the proper BLM office within 60 days after completion of the transfer the information required by paragraph (a) of this section.

§ 3833.4 Failure to file.

(a) The failure to file such instruments as are required by §§ 3833.1 and 3833.2 within the time periods prescribed therein, shall be deemed conclusively to constitute an abandonment of the mining claim, mill site, or tunnel site and it shall be void.

(b) The fact that an instrument is filed in accordance with other laws permitting filing or recording thereof and is defective or not timely filed for record under those laws, or the fact that an instrument is filed for record under this subpart by or on behalf of some, but not all of the owners of the mining claim, mill site, or tunnel site, shall not be considered failure to file an instrument under this subpart.

§ 3833.5 Effect of recording and filing.

(a) Recordation or application involving an unpatented mining claim, mill site, or tunnel site by itself shall not render valid any claim which would not be otherwise valid under applicable law and does not give the owner any rights he is not otherwise entitled to by law.

(b) Nothing in this subpart shall be construed as a waiver of the assessment work requirements of section 2324 of the Revised Statutes, as amended (30 U.S.C. 28), and compliance with the requirements of this subpart shall be in addition to and not a substitute for compliance with the requirements of section 2324 and with laws and regulations issued by any State or other authority.

(c) Filing of instruments pertaining to mining claims under other Federal law with the BLM or any other Federal agency will not excuse the filings required by this subpart and filings under this subpart will not excuse the filing of instruments pertaining to mining claims under any other Federal law, except for filing a notice or certificate of location under this subpart which is marked by the owner as required by section 3833.1–2(c) (10) hereof, which filing shall satisfy the recording requirement for O & C lands under 43 CFR subpart 3821 and Public Law 359 lands under 43 CFR Part 3730.

(d) In the case of any action or contest affecting an unpatented mining claim, mill site or tunnel site, only those owners who have recorded their claim or site pursuant to § 3833.1–2 or filed a notice of transfer of interest pursuant to § 3833.3, will be considered by the United States as the record owners of such claim or site and will be personally notified of such action or contest. Owners who have not recorded a claim or site or filed a notice of transfer will not be personally served but will be put on notice only by publication and will be bound by any contest proceeding even though they have not been personally served. Diligent search and inquiry for the purposes of contesting the validity of a mining claim under this Title shall only require a search of the records of the proper BLM office and shall not require any other search or inquiry.

(e) Actual notice of an unpatented mining claim or mill or tunnel site by any employee or officer of the United States shall not exempt the claim or site from the requirements of this subpart.

PART V

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

DEBARMENT, SUSPENSION AND INELIGIBILITY OF CONTRACTORS AND GRANTEES; ADMINISTRATIVE SANCTIONS

Title 24—Housing and Urban Development

SUBTITLE A—OFFICE OF THE SECRETARY, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-427]

PART 24—DEBARMENT, SUSPENSION AND INELIGIBILITY OF CONTRACTORS AND GRANTEES; ADMINISTRATIVE SANCTIONS

On Monday, December 13, 1976, a notice of proposed rulemaking was published in the FEDERAL REGISTER (41 FR 54302). This notice proposed revisions to existing regulations in order to improve procedures by which contractors and grantees are excluded from participating in HUD programs because of irresponsible conduct or for other good reason.

The suggestions received, with few exceptions, have been included in the final rule as follows:

1. The proposal changed the maximum debarment period from an identified term of three years to an indefinite period of time. Several commentators took strong exception to this change pointing out that it did not follow the trend of court decisions in this area; that it violated the standard of fairness which is required by the courts; that it could put the Department in the position of having the court invalidate such a procedure; that it did not bear a reasonable relationship to the intention of debarment, i.e., protection of the public; that imposition of all debarments for an indefinite period bears no relationship to the severity and variety of the circumstances which justify debarment; that it discriminates against less informed and less educated contractors not represented by counsel; that a definite period of debarment is necessary to protect the public interest; that removing the obligation from the hearing officer to set a stated debarment term is a derogation of his authority and puts him in the position of merely performing a clerical function; that this procedure presents substantial policy and administrative problems particularly in the record keeping area, e.g., since in excess of a hundred debarment cases are litigated each year the Consolidated List which reflects debarment and suspensions would be filled with stale listings of those who do not seek reinstatement; that purging the Consolidated List of these names would require continuous review of the records; that where the reinstatement of contractors and the necessary purging of the list is on an ex parte administrative basis, there is a greater opportunity for the charge of personal or political favoritism. In view of these comments, the indefinite debarment period that was proposed has been modified. The hearing officer may only impose an indefinite debarment in egregious circumstances; otherwise a time certain must be set up to five years.

2. The suggestion that the term "ineligibility" tends to be ambiguous has been addressed by clarifying that an ineligibility status means a disqualification from HUD programs due to imposition of a sanction by another Federal agency.

3. A commentator recommended that the temporary denial of participation sanction should carry with it a time limitation. Accordingly, the temporary denial rule has been modified to limit the exclusion to a maximum of 12 months.

4. In accordance with a comment concerning conditional participation and temporary denial of participation, the regulation makes clear that this sanction only impacts on the specific program under which it is taken.

5. The suggestion of another commentator has been adopted which will give the field officer imposing a temporary denial of participation or conditional participation the responsibility of advising other field offices of this sanction. A field officer, so advised, may at his option invoke this sanction against the contractor in his jurisdiction. Otherwise the sanction is limited to the jurisdiction of the office which invokes it.

6. In response to the suggestion that some HUD officials were excluded from the authority of invoking sanctions, a definition of "Assistant Secretary" has been added which includes any official bearing the title of Assistant Secretary, Federal Insurance Administrator, Federal Disaster Assistance Administrator, President, Government National Mortgage Association and New Communities Administrator.

7. In response to a suggestion by the Inspector General, the regulations have been amended to indicate that information with regard to sanctions is to be sent to the Office of the Inspector General through the appropriate program office.

8. A commentator pointed out that there is uncertainty as the regulations are presently written whether the Consolidated List is public information. Accordingly, reference to restriction of such list has been deleted.

9. Several commentators objected to the order in which sections were set out in the regulations and suggested that a more meaningful pattern could be developed. Accordingly, the sections have been rearranged.

10. Commentators also objected to the complicated numbering of subsections in § 24.10. This section is replaced by four separate sections and consequently the numbering of the subsections has been simplified.

11. The treatment of a contractor who has been placed on the Consolidated List but inadvertently awarded a contract during an emergency situation has been clarified in response to a commentator who complained of this omission. Also, treatment of a contractor on the Consolidated List who has prior valid contracts with the Government has been clarified to indicate that the contract may be evaluated to determine whether its termination would be in the best interest of the government in light of the facts surrounding the sanction invoked against the contractor.

12. In response to a commentator's suggestion, the subsection describing total restriction of contractors has been amended to include the two exceptions which apply to total restrictions. These exceptions may arise when the debarred contractor is a subcontractor and when a suspended contractor is permitted to do business with the Department because of considerations of the best interest of the Government.

13. The provision absolving a party when failure to perform as a contractor is due to the events beyond his control was criticized by a commentator. This provision has been rewritten to place the burden on the contractor to demonstrate that in fact the events were beyond his control and not due to his negligence.

14. The section on reinstatement procedures has been amended in accordance with a suggestion by a commentator to recognize the authority of the reinstating official to require restitution by the party for losses sustained by HUD on his account.

15. With regard to the repeal of other sanctions which are now imposed by HUD, in response to a suggestion by several commentators, it is specified that the Previous Participation Review and Clearance Procedure is not repealed.

16. With regard to contractors who are presently affected by sanctions which have been repealed, in response to a suggestion of a commentator, provision has been made for such parties to petition for reconsideration or for reduction of the sanction term.

17. It was pointed out by one commentator that under the temporary denial of participation proceedings, categorization of the appeal by a party as a "conference for reconsideration" may indicate to the party that a further appeal is available at the field office level. Since this was not the intent of this section, the term "informal hearing" has been substituted in order that it be made clear that this is the only administrative remedy available before an appeal to the Assistant Secretary may be taken.

18. Several commentators suggested that the authority of the General Counsel to appoint hearing officers should be recinded. This suggestion has been adopted and the Secretary or the Under Secretary have been designated as the officials responsible for hearing officer appointments.

19. It was suggested by one commentator that the decision of the hearing officer should be final within the Department. This suggestion was not adopted because of the Secretary's desire to have the authority to review hearing officer determinations at her discretion. However, the same commentator's suggestion that the Secretary's review should be subject to a time limit has been adopted by providing that the Secretary shall issue a determination on such cases as she chooses to review within thirty days after her decision that review be granted.

The Department has determined that an environmental impact statement is not required with respect to this final rule. A copy of the environmental finding of inapplicability is available for inspection at the Office of the Rules Docket Clerk, Room 10141, 451 Seventh Street, SW., Washington, D.C. 20410. The Department has also determined in accordance with OMB Circular A-107 that this proposal does not have an economic impact. A copy of the economical finding of inapplicability is also available for inspection at the above address.

Effective date: This revision becomes effective as of January 27, 1977.

Accordingly, Part 24 of Title 24 of the Code of Federal Regulations is revised to read as follows:

Sec.

24.0 Policy.
24.1 Scope.
24.2 Authority.
24.3 Applicability.
24.4 Definitions.
24.5 General.
24.6 Causes and conditions applicable to determination of debarment.
24.7 Procedural requirements relating to the imposition of debarment.
24.8 Determination of Hearing Officer; review of determination.
24.9 Authority of Hearing Officer.
24.10 Notice of Determinations.
24.11 Rescission and reinstatement.
24.12 Suspension.
24.13 Causes and conditions under which contractors or grantees may be suspended.
24.14 Period and scope of suspension.
24.15 Restrictions during period of suspension.
24.16 Notice of suspension.
24.17 Other sanctions.
24.18 Temporary denial of participation; conditional denial.
24.19 [Reserved]
24.20 [Reserved]
24.21 Establishment and maintenance of lists of contractors and grantees subject to administrative sanctions.
24.22 Bases for entry.
24.23 Treatment to be accorded contractors or grantees subject to administrative sanctions.

AUTHORITY: Sec. 7(d), Department of HUD Act, 79 Stat. 670; (42 U.S.C. 3535(d)).

§ 24.0 Policy.

In order that this Department may realize the goal of a decent home and a suitable living environment for every American family, it is necessary that grants and contracts awarded by the Department and by those entities with whom it does business be made only to those contractors and grantees which can demonstrate that Government funds will be properly utilized. Department policy requires, therefore, that awards may be made only to responsible contractors and grantees. In evaluating past performance of participants in programs administered by the Department, as well as other relevant aspects of the record and status of the participants, the criteria for debarment and suspension shall be uniform.

§ 24.1 Scope.

This part prescribes procedures relating to:

(a) The debarment of contractors and grantees for cause, temporary denial of participation and conditional participation;

(b) The suspension of contractors and grantees for cause under prescribed conditions;

(c) The placement of contractors and grantees in ineligibility status when they are included in lists which make their participation in federally assisted programs illegal;

(d) Reconsideration of debarment and suspension, and ineligibility.

§ 24.2 Authority.

This part is issued under section 7(d) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

§ 24.3 Applicability.

(a) This part applies to (1) contracts in accordance with 41 CFR, Chapter I, for procurement of property, nonpersonal services (including construction), and personal services (41 CFR 1-3.204); (2) HUD assisted contracts; (3) individuals, state and local governments and public and private organizations who are contractors with or grantees of the Department and to all who receive HUD funds directly or indirectly from such contractors or grantees; (4) participants, or contractors with participants, in programs where HUD is or will be the guarantor or insurer; and (5) former HUD employees.

(b) This part does not apply to (1) contracts with, or grants made to, owners or occupants of real property in connection with the acquisition of such real property, or any interest therein, by a public entity for a HUD assisted program or project where such entity possesses the power of eminent domain: (2) relocation payments to eligible displaced parties; or (3) contracts of direct-all-cash sales of Secretary-owned properties with contractors or grantees against whom administrative sanctions under this part have been taken.

§ 24.4 Definitions.

(a) "Debarment" means, exclusion from participation in HUD programs for a reasonable, specified period of time commensurate with the seriousness of the offense or the failure or inadequacy of performance generally not to exceed five years. However, the hearing officer may exclude a party for an indefinite period because of egregious and willful improper conduct. Debarment also means exclusion from participation by reason of ineligibility under regulations of the Secretary of Labor pursuant to Executive Order 11246, which exclusion continues pending elimination of the circumstances for which it was imposed.

(b) "Suspension" means a disqualification from participation in HUD programs for a temporary period of time because a contractor or grantee is suspected upon adequate evidence of engaging in criminal, fraudulent, or seriously improper conduct.

(c) "Placement in ineligibility status" means a disqualification from participation in HUD programs due to imposition of a sanction by another Federal agency and pending the elimination of the circumstances which constitute the basis for imposition of the disqualification.

(d) "Affiliates." Business concerns are affiliate of each other when either directly or indirectly one concern or individual formulates, directs, or controls the other concern; or has the power to formulate, direct, or control the other concern; or has the responsibility and authority either to prevent in the first instance, or promptly to correct, the offensive conduct of the other concern. Business concerns are also affiliates of each other when a third party is similarly situated with respect to both concerns.

(e) "Consolidated List." A monthly publication which includes the names of contractors and grantees who may not participate in Department programs because of their debarred, suspended or ineligible status.

(f) "Contractors or grantees." Individuals, state and local governments and public or private organizations that are direct recipients of HUD funds or that receive HUD funds indirectly through non-Federal sources including, but not limited to, borrowers, builders, mortgagees, real estate agents and brokers, area management brokers, management and marketing agents, or those in a business relationship with such recipients including, but not limited to, consultants, architects, engineers and attorneys; all participants, or contractors with participants, in programs where HUD is the guarantor or insurer; and Federally assisted construction contractors.

(g) "Financial assistance." Assistance through grant or contractual arrangements; assistance in the form of loans, loan guarantees or insurance; and in addition, award of procurement contracts, notwithstanding any quid pro quo given or whether the Department gives anything of value in return.

(h) "Temporary denial of participation." Unless taken as a result of a pending investigation or an indictment which gives rise to suspension of the contractor or grantee, a temporary denial is an exclusion from HUD programs by an Area Office Director, Insuring Office Director or a Regional Administrator for a specified period not to exceed twelve months. The denial is limited in effect to the jurisdiction of the office initiating the action and the specific program under which this action is taken.

(i) "Conditional participation." An exclusion of a contractor or grantee by an Area Director, Insuring Officer Director or a Regional Administrator from participation in one HUD program, generally pending corrective actions by the contractor or grantee. The exclusion is limited in effect to the jurisdiction of the office imposing the condition and the specific program under which the action is taken.

(j) "Administrative sanction." Any action by the Department under this part which is a limitation upon the right of a contractor or grantee to participate in Department programs.

(k) "Assistant Secretary." Any Assistant Secretary of HUD, the Federal Disaster Assistance Administrator, the Federal Insurance Administrator, the President, Government National Mortgage Association and the New Communities Administrator.

§ 24.5 General.

(a) Debarment, suspension, placement in ineligible status, temporary denial of participation and conditional participation are measures which may be invoked by offices of the Department either to exclude or to disqualify contractors and grantees from participation in Department programs. These measures shall be used for the purpose of protecting the public and are not for punitive purposes.

(b) Department action to exclude or to disqualify contractors and grantees from participation in its programs, or to reconsider such measures, shall be based upon all available relevant facts. Department investigation required to elicit such facts and related evidence shall be conducted by the Office of the Inspector General or by such other office as has been assigned investigative authority.

(c) Where Department action results in an applicant's being denied financial assistance on the basis of his previous conduct with the Department, the applicant is entitled to a hearing in accordance with this part, except that (1) in those Departmental programs where administrative sanctions and hearings are provided by Statute, this Part 24 shall not apply; (2) where the action is based on an indictment or conviction of the party, an appeal of the action is limited to submission of documentary evidence and written briefs to the hearing officer.

(d) Where a party has been adversely affected by Department action on the grounds that he is an "affiliate", the hearing on this issue shall be consolidated with the hearing of any of the principals.

(e) Where a contract or grant has been let to a party named on the Consolidated List because (1) a disaster or emergency situation existed under provisions of the Disaster Relief Act of 1974 (42 U.S.C. 5121 note) or (2) when the grant or contract was let, the party was not then on such list: The contract or grant shall be re-evaluated. If it is determined that termination would be in the best interest of the Government, the contract or grant shall be terminated.

(f) "Hearing Officers." Hearing Officers shall be appointed by the Secretary or the Under Secretary of the Department.

(g) "Precedence of statutes and Executive Orders." Where an office of the Department is required by statute or Executive Order to follow administrative sanction procedures that may differ from the requirements of this part, the statutory or Executive Order procedures shall take precedence. The appropriate liaison officer shall provide the Inspector General with such statutes or Executive Orders and all implementing materials.

(h) "Intervention." At hearings conducted pursuant to this section, any member of the public having an interest in the matter may request participation in the hearing. Participation will be limited to (1) reviewing case files, (2) receiving advance notice of hearings, (3) attending hearing, (4) filing written briefs on the issues presented, and (5) testifying when requested by the Hearing Officer.

(i) "Scheduling information." The General Counsel shall maintain a current schedule of all matters that have been set for hearing. This information shall be available to the public upon request.

§ 24.6 Causes and conditions applicable to determination of debarment.

Subject to the following conditions, the Department may debar a contractor or grantee in the public interest for any of the following causes:

(a) *Causes.* (1) Conviction for commission of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract, or subcontract thereunder, or in the performance of such contract or subcontract.

(2) Conviction under the Federal Antitrust Statutes arising out of the submission of bids or proposals.

(3) Violation of contract provisions, as set forth below, of a character which is regarded by the Department to be so serious as to justify debarment action:

(i) Willful failure to perform in accordance with the specifications or within the time limit provided in the contract.

(ii) A record of failure to perform, or of unsatisfactory performance, in accordance with the terms of one or more contracts: *Provided,* That such failure or unsatisfactory performance has occurred within a reasonable period of time preceding the determination to debar. Failure to perform or unsatisfactory performance which the contractor can show was caused by events beyond its control which were not reasonably foreseeable shall not be considered to be a basis for debarment provided that no fault or negligence of the firm or individual was involved.

(iii) Violation of the contractual provision against contingent fees.

(iv) Payment or acceptance of a contingent fee, which is paid in violation of a contractual or statutory provision against contingent fees.

(v) Violation of the contractual provision requiring affirmative action to provide equal opportunity in the participant's own employment practices.

(4) Any other cause of such serious compelling nature, affecting responsibility, as may be determined by the appropriate Assistant Secretary, to warrant debarment.

(5) Violation of any law, regulation, or procedure relating to the application for financial assistance, insurance, or guarantee or to the performance of obligations incurred pursuant to a grant of financial assistance, or conditional or final commitment to insure or guarantee.

(6) Making or procuring to be made any false statement for the purpose of influencing in any way the action of the Department.

(7) Those found by the Secretary, after hearing and in accordance with procedural requirements of implementing regulations, to have violated Title VI of the Civil Rights Act of 1964. (Title VI and implementing regulations limit a withholding of financial assistance to the particular program, or part thereof, where the noncompliance occurred.)

(8) Those found by the Secretary to have violated any rule, regulation or procedure issued or adopted pursuant to Executive Order 11063, or any nondiscrimination provision included in any agreement or contract pursuant to any such rule, regulation, or procedure.

(9) Conviction under the Organized Crime Control Act of 1970, 18 U.S.C. 1961 et seq. or conviction for the commission of the offense of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, fraudulent use of the mail in connection with commission of such offenses, or conviction for any other offense indicating a lack of business integrity or honesty, which seriously and directly affects the question of present responsibility.

(10) Those who have failed to pay their debts to the Department within a reasonable period of time after a written demand for payment has been made in accordance with 4 CFR Part 102, Standards for the Administrative Collection of Claims and implementing HUD regulations in Part 17 of this title.

(b) *Conditions.* (1) The existence of any of the causes set forth in paragraph (a) of this section does not necessarily require that a contractor or grantee be excluded from departmental programs. In each instance, whether the offense or failure, or inadequacy of performance, be of a criminal, fraudulent, or other serious nature, the decision to debar shall be made within the discretion of the Department and shall be rendered in the best interest of the Government. Likewise, all mitigating factors may be considered in determining the seriousness of the offense, failure or inadequacy of performance, and in deciding whether the Administrative Sanction is warranted.

(2) The existence of a cause set forth in paragraph (a) (1) and (2) of this section shall be established by criminal conviction by a court of competent jurisdiction at the discretion of the appropriate official.

(3) The existence of a cause set forth in paragraph (a) (3), (4), (5), (6), (7) and (8) of this section shall be established upon the evidence presented as determined by the Department and consistent with pertinent statutes and regulations.

§ 24.7 Procedural requirements relating to the imposition of debarment.

(a) *Initiation of action.* When the Department seeks to debar a contractor or grantee (or any affiliate thereof), that party shall be served with written notice by registered or certified mail, return receipt requested, from the Assistant Secretary, proposing the action:

(1) Stating that the action is being considered,

(2) Setting forth the reasons for the proposed action, and

(3) Indicating that such party will be accorded an opportunity for a hearing if he so requests within 10 days from his receipt of notice, and that he may be represented by counsel. For the purposes

of compliance with this section, notice shall be considered to have been received by the addressee if the notice is properly mailed to the last known address of such addressee. Any official having jurisdiction may initiate a debarment action, notwithstanding the concurrent jurisdiction of another office.

(b) *Hearing*—(1) *Request for hearing.* Any contractor or grantee that has been notified of a proposed action is entitled to request an opportunity to be heard and to be represented by counsel. A hearing request shall be made in writing addressed to the official proposing the action. If at the end of such 10 day period, no request has been received, it may be assumed that an opportunity to be heard is not desired, and such official may proceed to make a final determination and so notify the interested party.

(2) *Notice of Hearing.* Upon receipt of a request for an opportunity to be heard, the Hearing Officer shall arrange a prompt and timely hearing. Notice of the time and place of such hearing shall be in writing, transmitted by certified or registered mail, return receipt requested, and shall include a statement indicating the nature of the proceedings and their purpose. It shall be within the discretion of the Hearing Officer to determine the hearing place. In determining the hearing place, the Hearing Officer shall consider the convenience of the parties and the public interest.

(c) *Hearing procedures.* (1) At the discretion of the Hearing Officer, hearings may be open to the public upon request except where issues of National security, trade secrets and personal privacy are present.

(2) Hearings shall be conducted by a Hearing Officer of the Department who shall be responsible for the fair and expeditious conduct of proceedings.

(3) The Department shall be represented by the General Counsel or his designee.

(4) A transcribed record shall be made of the proceeding and shall be made available to the parties upon request.

(5) Counsel for the Department shall proceed first with an opening statement to be followed by Appellant's opening statement. Either party may waive this right.

(6) All witnesses shall testify under oath or affirmation. Department witnesses, if any, shall be first called and may be cross-examined by Appellant. Appellant's witnesses may also be cross-examined.

(7) Counsel for the Department shall make the first closing statement. Appellant shall have the right of last closing statement and final rebuttal.

(8) Formal rules of evidence and procedure applicable to a proceeding in a Court of Law will not be applied. Parties may object to clearly irrelevant material, but technical objections to testimony as used in a court of law will not be sustained.

§ 24.8 Determination of Hearing Officer; review of determination.

(a) After the contractor or grantee has been afforded an opportunity to be heard, the Hearing Officer shall make a written determination on the evidence presented. If it is proposed that the sanction include an affiliate, the Hearing Officer shall rule specifically whether, and to what extent, the determination applies to such affiliate. The Hearing Officer's determination shall be transmitted to all appealing parties by certified or registered mail, return receipt requested.

(b) The Hearing Officer's determination shall be final unless within 30 days the Secretary decides, as a matter of discretion, to review the findings of the Hearing Officer or to have the findings reviewed by a designee of the Secretary. Any party may request such a review in writing within 10 days of receipt of the Hearing Officer's determination.

(c) Where a review is granted, the determination by the Secretary, or the Secretary's designee, shall be based on the record of the initial hearing and shall fully recite the evidentiary grounds upon which the Secretary's determination is made. Such determination shall be issued within 30 days from the decision to grant a review.

(d) Each determination shall become a part of the record.

(e) Notice of the Secretary's decision to review the Hearing Officer's determination and subsequent determination by the Secretary, or the Secretary's designee, shall be given in writing, signed by the Secretary or the Secretary's designee and transmitted by registered mail, return receipt requested.

§ 24.9 Authority of Hearing Officer.

The Hearing Officer, in the conduct of the hearing, has the power among others, to:

(a) Hold conferences to settle, simplify, or fix the issues in a proceeding, or to consider other matters that may aid in the expeditious disposition of the proceeding by consent of the parties or upon his own motion;

(b) Require parties to state their position with respect to the various issues in the proceeding;

(c) Require parties to produce for examination those relevant witnesses and documents under their control;

(d) Rule on motions, and other procedural items on matters pending before him;

(e) Regulate the course of the hearing and conduct of participants therein;

(f) Receive, rule on, exclude, or limit evidence, and limit lines of questioning or testimony which are irrelevant, immaterial or unduly repetitious;

(g) Fix time limits for submission of written documents in matters before him;

(h) Impose appropriate sanctions against any party or person failing to obey an order under these procedures which sanctions may include:

(1) Refusing to allow the disobedient party to support or oppose designated claims or defenses, or prohibiting him from introducing designated matters in evidence;

(2) Excluding all testimony of an unresponsive or evasive witness, and

(3) Expelling any party or person from further participation in the hearing.

(i) Take official notice of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial notice.

(j) Administer oaths of affirmation.

(k) Rule on requests by the public to attend the hearing.

§ 24.10 Notice of Determination by the Hearing Officer or the Secretary.

(a) *Notice to the Assistant Secretary.* (1) The Hearing Officer's determination shall be transmitted promptly to the Department official who invoked the Administrative Sanction.

(2) When the Secretary grants a review of the Hearing Officer's determination, the Assistant Secretary shall be so advised and shall defer notice to the Inspector General until a Secretarial Determination has been issued.

(3) Notice of a Secretarial Determination shall be sent upon issuance to the appropriate Assistant Secretary.

(b) *Notice to Field Offices by the Assistant Secretary.* When a sanction has been invoked or removed by a Hearing Officer which is not reviewed by the Secretary, or after such review is complete, each Field Office shall be notified in writing of the determination. Such notice shall include:

(1) The name of the party and affiliates, if any, against whom the sanction is invoked or removed.

(2) The address of the party, and affiliates where appropriate.

(3) The effect of the determination.

(4) The duration of any sanction invoked.

§ 24.11 Rescission and reinstatement.

(a) *Request for reinstatement.* Six months after the date of the final determination, any contractor or grantee against whom an administrative sanction has been invoked may in writing request reinstatement by the official who invoked the administrative sanction.

(b) *Reinstatement procedures.* The procedures for reinstatement are substantially similar to those invoked in the initial proceedings. Conduct of the reinstatement proceedings under § 24.11 shall be the responsibility of the official who imposed the sanction. Where the party has been suspended or debarred, however, the reinstatement proceeding shall be conducted by a Hearing Officer appointed in accordance with § 24.5(f). In reaching his determination regarding reinstatement, the presiding official must be satisfied that it is in the best interest of the Government to reinstate and also be persuaded from the assurances of the party concerned that he understands the

requirements of the statutes and the administrative rules and regulations and that he will comply with them in the future. The presiding official may require, where appropriate, restitution by the party for losses sustained by the Department on his account.

(c) *Grounds.* Except as otherwise provided by statute, a party may be reinstated subject to this § 24.11 upon the submission of an application, supported by documentary evidence, setting forth appropriate grounds for the granting of relief such as newly discovered material evidence, reversal of a conviction, bona fide change of ownership or management, or the elimination of the causes for which the debarment was imposed.

(d) *Consultation by Field Officers and Assistant Secretaries.* Following reinstatement proceedings, the presiding official shall promptly submit a recommendation concerning the reinstatement. The appropriate Field Officer and Assistant Secretary shall confer with regard to the merits of reinstatement. If there is disagreement between the Assistant Secretary and the Field Officer, the issue shall be referred to the Secretary for final resolution of the request for reinstatement.

(e) *Notice.* When an Administrative Sanction has been rescinded, a report thereof shall be forwarded to the appropriate Assistant Secretary. Notice of reinstatement shall be forwarded to the party so reinstated by certified or registered mail, return receipt requested, by the official taking the reinstatement action.

§ 24.12 Suspension.

Suspension is a drastic action and, as such, shall not be based upon an unsupported accusation. In assessing whether adequate evidence exists for invoking a suspension, consideration shall be given to the amount of credible evidence which is available, to the existence or absence of corroboration as to important allegations, as well as to the inferences which may properly be drawn from the existence or absence of affirmative facts. This assessment shall include an examination of basic documents, such as contracts, inspection reports and correspondence. A suspension may be modified by the office invoking the sanction whenever it is determined to be in the interest of the Government to do so.

§ 24.13 Causes and conditions under which contractors or grantees may be suspended.

(a) The Assistant Secretaries may, in the interest of the Government, suspend a contractor or grantee:

(1) Suspected, upon adequate evidence, of—

(i) Commission of fraud or a criminal offense as an incident to obtaining, attempting to obtain a public contract, or in the performance of Government business or contractual dealings.

(ii) Violation of the Federal antitrust statutes arising out of the submission of bids and proposals; or

(iii) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, receiving stolen property, violation of the Organized Crime Control Act of 1970 or any other offense indicating a lack of business integrity or business honesty, which seriously and directly affects the question of present responsibility; or

(2) For other causes of such serious and compelling nature, affecting responsibility as may be determined in writing by the appropriate Assistant Secretary to warrant suspension. Among such causes are cases where the contractor or grantee is suspected, upon adequate evidence of—

(i) Violation of any law, regulation, or procedure relating to the application for financial assistance, insurance or guarantee or to the performance of obligations incurred pursuant to a grant of financial assistance or conditional or final commitment to insure or guarantee.

(ii) Making or procuring to be made any false statement for the purpose of influencing in any way the action of the Department.

(b) A suspension invoked by another agency for any of the causes set forth in paragraph (a) (1) and (2) of this section may be the basis for the imposition of a concurrent suspension by the Department.

(c) An outstanding indictment of a contractor or grantee, or the naming of a contractor or grantee as an unindicted co-conspirator is adequate evidence of suspected criminal conduct and may be the basis for imposition of a suspension. Conviction of a contractor or grantee is adequate evidence to warrant imposition of a suspension pending debarment.

§ 24.14 Period and scope of suspension.

(a) *Period of suspension.* All suspensions shall be for a temporary period pending the completion of an investigation and such administrative or legal proceedings as may ensue. In cases involving suspected violations of Federal law where prosecutive action has not been initiated by the Department of Justice within 12 months from the date of the notice of suspension, the suspension shall be terminated unless an Assistant Attorney General or a United States Attorney requests continuance for an additional six months. Notice of the proposed removal of the suspension shall be given to the Department of Justice 30 days prior to the expiration of the 12-month period. In no event shall a suspension continue beyond 18 months unless prosecutive action has been initiated within that period. Whenever prosecutive action has been initiated, the suspension may continue until the administrative or legal proceedings are completed. Consideration may be given to debarment in accordance with § 24.6 in conjunction with the suspension procedures.

(b) *Scope of suspension.* (1) Suspension may include all known affiliates of a contractor or grantee.

(2) A decision to include known affiliates in a proposed suspension is an individual determination and, as such, must be made on a case-by-case basis. Among the factors to be considered in making this determination are:

(i) Likelihood of the affiliate's knowledge of or participation in the suspected improper conduct, and

(ii) The impact of its suspension on Department programs.

(3) The criminal, fraudulent, or other seriously improper conduct of an individual may be imputed to the organization with which he is connected when the impropriety involved was performed within the course of his official duty, or with knowledge or approval of the organization.

§ 24.15 Restrictions during period of suspension.

During a period of suspension of a contractor or grantee, the following policies and procedures shall be applicable:

(a) Bids and proposals for financial assistance shall not be solicited from suspended contractors or grantees. If received, bids and proposals shall not be considered and financial assistance shall not be granted to suspended contractors or grantees unless it is determined in writing by the suspending official to be clearly in the best interest of the Government. A determination to consider such bids and make such awards shall include consideration of unique value of the bidder's services, the degree to which the suspected improper conduct reflects upon the bidder's capacity to serve the Department and the overriding need for the bidder's services.

(b) Suspended contractors will be subject to the provisions of § 24.23(c) regarding restrictions on subcontractors.

§ 24.16 Notice of suspension.

(a) The contractor or grantee concerned shall be furnished by registered or certified mail, return receipt requested, a written notice of the suspension by the appropriate Assistant Secretary within 10 days after the effective date of the suspension. The notice shall state as follows:

(1) "Basis of the action." The suspension is based:

(i) On the information that the contractor or grantee has committed irregularities of a serious nature in business dealings with the Government, or

(ii) On irregularities which seriously reflect on the propriety of further dealings of the contractor or grantee with the Government. The irregularities should be described in general terms without disclosing the Government's evidence.

(2) The suspension is for a temporary period pending the completion of an investigation by the Department and/or any other Federal Agency and such administrative or legal proceedings as may ensue.

(3) Bids and proposals for participation in any Department programs will not be solicited from the contractor or grantee and, if received, will not be considered for award unless determined by the Department to be in the best interest of the Government.

(4) The suspended party is entitled to request an opportunity to be heard and represented by counsel in accordance with § 24.7.

(b) Where a matter has been referred to the Department of Justice, the Department shall not give further information to the contractors or grantees concerning the reasons for suspension beyond that stated in the notice of suspension set forth in this section until the Department of Justice has been advised of the inquiry and acquiesces in any such disclosure.

(c) For the purposes of compliance with the section, notice shall be considered to have been received by the addressee if the notice is properly mailed to the last known address of such addressee.

§ 24.17 Other sanctions.

(a) Except for provisions for withdrawal of mortgagee approval by the Mortgagee Review Board (24 CFR Part 25) and the Previous Participation Review and Clearance Procedure (24 CFR 200.210), all sanctions not authorized by this Part 24 are hereby repealed. This includes but is not limited to:

(1) Unsatisfactory Risk Determination (24 CFR 200.200).

(2) Precautionary Measures (24 CFR 200.205–200.208).

(3) Restrictions Pending Correction of Construction Deficiencies (HUD Handbook 4080.1, par. 2–3).

(4) Refusal of Participation Under Section 512 (24 CFR 200.190–200.195).

(5) Warning Letters (HUD Handbook 4080.1, par. 2–2).

(6) Dealer Approval (24 CFR 201.615–201.620).

(b) Limitations on participation of a contractor or grantee imposed prior to the effective date of these regulations under an ancillary procedure shall not be modified unless a final determination under § 24.8(c) so requires. However, such contractor or grantee may petition for reconsideration or for reduction of the sanction term under procedures provided by § 24.18(a) (5).

(c) Procedures under § 24.18 may be utilized to effect the sanctions repealed under this section.

§ 24.18 Temporary denial of participation; conditional denial.

(a) Causes and conditions under which a temporary denial of participation may be invoked.

(1) An Area Director, Insuring Office Director or Regional Administrator may issue an order which denies the participation in Department programs of a contractor or grantee.

(2) Causes for denial of participation shall include:

(i) Adequate evidence that approval of an applicant for insurance would be an unsatisfactory risk;

(ii) Adequate evidence of irregularities in contractor's or grantee's past performance in a Department program; and

(iii) Failure of a contractor or grantee to maintain prerequisites of eligibility to participate in a Department program.

(iv) Causes under § 24.13(a).

(3) Period and scope of temporary denial of participation.

(i) A denial of participation is limited to the program under which the offense occurred.

(ii) Denial or participation shall be for a temporary period pending correction or dismissal of the grounds for the denial, demonstration by the contractor or grantee that it is in the best interest of the Government to resume business with such contractor or grantee, or completion of an investigation and such legal proceedings as may ensue.

(iii) Denial of participation to affiliates shall be in accordance with § 24.14 (b).

(iv) Restrictions imposed by a denial of participation shall not extend beyond the jurisdiction of the official invoking the denial.

(v) The official invoking the denial shall notify all other Area, Insuring and Regional offices of the action. Officials so notified may restrict participation in the appropriate program by the party on this basis without the need for a further hearing.

(4) Notice of temporary denial of participation.

(i) A contractor or grantee shall be furnished by registered or certified mail, return receipt requested, a written notice of the action by the Area Director, Insuring Office Director or Regional Administrator. The denial shall be effective as of the date of the notice.

(ii) The notice shall clearly state the grounds upon which the action is based and shall explain the temporary nature of the action in accordance with paragraph (a) (3) of this section.

(iii) The notice shall explain the impact of the action on the contractor's or grantee's participation in Department programs specifying the program involved and the geographical area affected by the action.

(iv) The notice shall advise the contractor or grantee that a request may be made in writing to the official invoking the action for an opportunity to request reconsideration of the decision.

(5) Informal Hearing.

(i) Upon receipt of a request for an informal hearing seeking reconsideration, the official imposing the action shall promptly arrange such a hearing with the contractor or grantee to reconsider the order.

(ii) The contractor or grantee may be represented by counsel and may present all relevant materials to the official.

(iii) After consideration of the materials presented, the official shall in writing advise the contractor or grantee of his decision to withdraw, modify or affirm his order.

(iv) Where the decision is to affirm the order, the contractor or grantee may appeal in accordance with provisions of § 24.7(b), except that the request shall be addressed to the Assistant Secretary having jurisdiction of the program concerned.

(b) Causes and conditions under which conditional participation may be invoked.

(1) An Area Director, Insuring office Director or Regional Administrator may issue an order of conditional participation to a contractor or grantee.

(2) Causes for an order of conditional participation shall include:

(i) Failure to proceed in accordance with Department specifications;

(ii) Adequate evidence that requirements of a grant or contract will not be satisfied upon completion; and

(iii) Adequate evidence that there may be construction deficiencies in ongoing projects.

(3) Period and scope of an order of conditional participation.

(i) An order of conditional participation is limited to the program under which the offense occurred.

(ii) An order of conditional participation shall apply to affiliates in accordance with § 24.14(b).

(iii) Conditional participation shall be for a temporary period pending satisfaction of the conditions leading to issuance of the order.

(iv) Restrictions imposed by conditional participation shall not extend beyond the jurisdiction of the official issuing the order.

(4) "Notice of conditional participation." Issuance of an order of conditional participation shall be in accordance with § 24.18(a) (4).

(5) "Informal Hearing." Procedures to request reconsideration of an order of conditional participation shall be in accordance with § 24.18(a) (5).

§ 24.19 [Reserved]

§ 24.20 [Reserved]

§ 24.21 Establishment and maintenance of lists of contractors and grantees subject to administrative sanctions.

(a) The Inspector General, shall be responsible for maintenance and consolidation of Department lists relating to administrative sanctions. He shall further maintain debarment lists of other Government agencies which this Department is required by law and Executive Order to observe.

(b) Each Assistant Secretary shall advise the Inspector General of additions or deletions to be made in the lists maintained by the Office of the Inspector General.

(c) The Office of Inspector General shall, in cooperation with the offices of the Department, establish procedures for assuring the timely receipt of information relative to updating the Consolidated List.

(d) All lists shall be kept current. Procedures for issuance of notices of additions and deletions shall be established by the Inspector General. Each Assistant Secretary shall appoint a liaison officer responsible for providing the Office of the Inspector General with current information.

(e) The Consolidated List shall show as a minimum the following information where applicable:

(1) The names of those contractors and grantees against whom HUD has invoked administrative sanctions (in alphabetical order) with appropriate cross

reference where more than one name is involved in a single transaction;

(2) The basis of authority for each action;

(3) The extent of restrictions imposed; and

(4) The name of the office initiating the action, where appropriate.

(f) The Inspector General shall arrange for reproduction and distribution of the Consolidated List. Publication shall be in accordance with entries made under § 24.22. Distribution of such list among Department employees shall be made to those whose duties require access to the list as authorized by the Assistant Secretaries, Area Directors, Insuring Office Directors and Regional Administrators having respective jurisdiction of such employees. Names of entities named in the Consolidated List will be available upon request.

(g) Procedures for submitting requests for information contained in the Consolidated List and distribution of such information shall be established by the Office of the Inspector General.

§ 24.22 Basis for entry.

Entry shall be made on the Consolidated List of contractors and grantees on the following basis:

(a) Those listed by the Comptroller General in accordance with the provisions of section 3 of the Walsh-Healey Public Contracts Act (41 U.S.C. 37), which have been found by the Secretary of Labor to have violated any of the agreements or representations required by that Act.

(b) Those listed by the Comptroller General in accordance with the provisions of section 3 of the Davis-Bacon Act (40 U.S.C.-276a-2(a)), as found by the Comptroller General to have violated said Act.

(c) Those listed by the Comptroller General in accordance with the provisions of Part 5, § 5.6(b) of the regulations of the Secretary of Labor issued pursuant to authority granted under Reorganization Plan 14 of 1950, as found by the Secretary of Labor to be in aggravated or willful violation of the prevailing wage or overtime pay provision of any statutes including the following:

(1) Davis-Bacon Act (40 U.S.C. 276a).

(2) Anti-Kickback Act (18 U.S.C. 874, 40 U.S.C. 276b, c).

(3) The Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330).

(4) National Housing Act (12 U.S.C. 1703).

(5) Hospital Survey and Construction Act (42 U.S.C. 291).

(6) Airport and Airway Development Act of 1970 (49 U.S.C. 1701).

(7) Housing Act of 1949 (42 U.S.C. 1401).

(8) School Survey and Construction Act of 1950 (20 U.S.C. 251).

(9) Defense Housing and Community Facilities and Services Act of 1951 (42 U.S.C. 1501, 1591).

(10) Federal Civil Defense Act of 1950 (50 App. U.S.C. 2281(i)).

(11) Area Redevelopment Act of 1961 (42 U.S.C. 2518).

(12) Delaware River Basin Compact (sec. 15.1, 75 Stat. 714).

(13) Health Profession Educational Assistance Act of 1963 (sec. 721, 77 Stat. 167).

(14) Mental Retardation Facilities Construction Act (secs. 10, 122, 13, 77 Stat. 282, 284, 288).

(15) Community Mental Health Centers Act (secs. 205, 77 Stat. 292).

(16) Housing and Community Development Act of 1974 (42 U.S.C. 5301).

(d) Those listed by the Director of the Office of Federal Contract Compliance on the Contract Ineligibility List which gives the names of contractors and grantees who have been declared ineligible to participate in Government contracting or subcontracting by reason of noncompliance with the Equal Opportunity clause.

(e) Those whom the Department has debarred or suspended in accordance with this part.

(f) Those determined by an executive agency in accordance with section 3(b) of the Buy American Act (41 U.S.C. 10b (b)) to have failed to comply with the provisions of section 3(a) of that Act under any contract containing the specific provisions required by said section 3(a) and made by the agency for construction, alteration, or repair of any public building or public work.

§ 24.23 Treatment to be accorded contractors or grantees subject to administrative sanctions.

(a) *Total restrictions.* No financial assistance shall be made available directly or indirectly to any contractor or grantee that is listed on the basis of § 24.22 or to any affiliate of said contractor or grantee, nor shall bids or proposals be solicited therefrom unless the exceptions of § 24.23(c) or § 24.15(a) apply.

(b) *Partial restrictions.* Where an Area Director, Insuring Office Director or a Regional Administrator has authority to initiate actions for temporary denial of participation or conditional participation, the restriction on providing financial assistance to a contractor or grantee shall apply only within the territory of authority for the respective regional, insuring, or area office.

(c) *Restrictions on subcontracting.* Where a contractor or grantee listed on the Consolidated List is proposed as a subcontractor, the contracting officer or program officer should prohibit or decline to approve subcontracting with that contractor or grantee unless it is determined by the Department to be clearly in the best interest of the Government to do so.

Issued January 19, 1977.

JOHN B. RHINELANDER,
Under Secretary for Housing and Urban Development.

PART VI

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

COMMUNITY DEVELOPMENT BLOCK GRANTS

Program Management

Title 24—Housing and Urban Development

CHAPTER V—OFFICE OF ASSISTANT SECRETARY FOR COMMUNITY PLANNING AND DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-77-292]

PART 570—COMMUNITY DEVELOPMENT BLOCK GRANTS

Program Management

On November 15, 1976, the Department of Housing and Urban Development (HUD) published in the FEDERAL REGISTER (41 FR 50376) proposed amendments to the regulations governing the community development block grant program. The amendments concerned the Secretarial review of performance of a block grant recipient and the sanctions and remedial actions that may be appropriate in various situations.

Interested persons were given until December 16, 1976, to submit written comments. Nearly 30 comments were received and all were given careful consideration. As a result of the comments received, a number of substantive changes have been made and the material has been reorganized for greater clarity. Section 570.911, Sanctions and Remedial Actions, has been divided into two sections: § 570.910, Corrective and Remedial Actions, and § 570.911, Reduction of Annual Grant. In order to accommodate the new § 570.910, the existing section entitled Evaluation by HUD, has been numbered as § 570.908. The following is a description of the major substantive changes that have been made:

1. Paragraph (b) of § 570.909 has been amended by striking the words "where possible" in order to make clear that the Secretary's review of an entitlement recipient's performance will take place in all instances prior to approval of a succeeding year's entitlement application. Also, the last sentence is changed to state that the review of a discretionary grantee's performance will take place prior to final closeout of the grant, rather than prior to making final payment on the grant. This change is made because there is no final payment under the letter of credit procedure; there is a closeout procedure, however, whereby final costs are recognized and accepted.

2. Paragraph (c)(8) of § 570.909 is changed to state that records of comments as well as complaints by citizens and organizations will be reviewed. While this was not previously precluded, it is now specifically mentioned in order to make clear that studies, analyses and other comments will be given due consideration by HUD.

3. A new paragraph (d), entitled Review of Urban Counties, has been added to § 570.909. This is for the purpose of acknowledging that many elements of performance are within the control of participating units of general local government rather than the urban county itself. The overall responsibility of the urban county to carry out the approved program is not, however, diminished in any respect.

4. Several comments suggested that there is nothing in Section 104(d) of the Housing and Community Development Act of 1974, which provides the basis for the Secretary's review of performance, that authorizes HUD to review a recipient's progress in carrying out approved activities. Others suggest that recipients should not be compared with each other. The Department disagrees with that position on the grounds that the specific language of Section 104(d) that the Secretary "determine whether the grantee has carried out a program substantially as described in its application;" the general thrust of the legislation; and the legislative history all suggest that it is HUD's responsibility to review a recipient's progress. The peer group standard for measuring progress is used instead of arbitrary numerical or percentage measures because the latter are inherently unfair and unresponsive to factors that are unique to a particular community or group of communities.

In administering this provision of the regulations, HUD will consider measures of progress, such as expenditure of funds, as an indication of progress only. In the final analysis it is the actual accomplishment of approved activities that determines whether a recipient "has carried out a program" substantially as described in its application.

Consequently, § 570.909(e)(1) is substantially unchanged except that the language regarding corrective and remedial actions is transferred to § 570.910.

5. Paragraph (e)(2) of § 570.909 is revised to set more specific standards for measuring progress in carrying out an approved housing assistance plan (HAP). Most important is the addition of the standard that a one-year housing goal will be considered to be met if the units included in the HAP have reached the stage of a firm financial commitment within a two-year period. This standard is established in recognition of the fact that the many steps involved in developing housing (particularly new construction) are sufficiently time consuming that a recipient will not be able to conclusively demonstrate that the one-year housing goals are being met by the time HUD makes its review of the recipient's next performance report and succeeding entitlement application.

6. Paragraph (f)(1)(ii) of § 570.909 has been amended to state that HUD's review of performance will not include new determinations of eligibility, except where there is substantial evidence challenging the basis for the original finding of eligibility.

7. Paragraph (g) of § 570.909 has been amended by deleting the examples of noncompliance. The examples themselves raised questions and did not substantively contribute to the clarity of the paragraph.

8. A major change has been made in paragraph (h) of § 570.909 regarding the determination required by section 104(d) of the Act that "the applicant has a continuing capacity to carry out in a timely manner the approved Community Development Program." The preamble to the proposed November 15, 1976, regulation stated that it was the Department's interpretation that the statutory requirement for a continuing capacity determination applied only to the Community Development Program and not to the HAP. Several comments provided well reasoned arguments why that interpretation was too literal and narrow. Consequently, the Department has concluded that there is sufficient legislative and administrative authority to apply the continuing capacity standard to performance in carrying out housing assistance plans.

The basic standard for determining continuing capacity has remained essentially unchanged; namely, that a recipient that has made substantial progress in carrying out the program, in conformance with the approved application, and in compliance with applicable laws and regulations, will generally be considered to have a continuing capacity. Where a recipient's performance does not meet the standards in the regulations, however, HUD may review the recipient's administrative capacity to carry out the approved program. HUD may also review a recipient's organizational capacity to carry out the program. For instance, a recipient that does not have a housing authority or similar agency, where such agency is necessary to implement the HAP, may be found to lack a continuing capacity.

9. Several commenters suggested that the word "advise", which is included in paragraphs (b)(5)–(7) of § 570.910, should be changed to "require". For instance, § 570.910(b)(5) states, "Advise the recipient to suspend, discontinue or not incur costs for the affected activity." The significance of using either "advise" or "require" is negligible. If a recipient fails to take the actions specified, the result is the same; namely, more serious sanctions may be taken including the initiation of actions under § 570.913. Consequently, the word "advise" is retained.

10. Paragraph (b)(6) of § 570.910 is amended to except substantial environmental violations from the reprogramming provision.

11. Another major change is to authorize HUD to condition contracts for lack of performance, nonconformance, or lack of continuing capacity, as well as for noncompliance with applicable laws or regulations. This amendment appears in § 570.910(b)(9). Whereas the Department intends to use its authority to condition contracts as a means to achieve performance only in the most extreme cases, it is recognized that there may be instances where this is an appropriate sanction in specific situations. Accordingly, § 570.306(e)(3) is also amended to be consistent with this provision.

12. Section 570.911 is amended to add two provisions: first, that an entitlement amount may be reduced down to zero for a succeeding program year; and second, to provide recipients with the opportunity for an informal consultation prior to reducing an annual grant. These provisions were discussed in the preamble, but were inadvertently omitted from the text, of the November 15, 1976 proposed regulations.

Finally, several comments urged that the Department be more specific throughout the regulations in identifying the specific sanctions or corrective or remedial actions that might be applied in particular cases. The Department has seriously considered this suggestion, but has concluded that such precision is not possible at this time. Each situation is unique. The reasons for noncompliance or lack of progress vary from community to community, as do the appropriate means and ability to improve performance. Each situation will be considered on its own merits, at least until additional experience is gained.

In order to facilitate the Secretary's review of recipient performance, it has been determined to be necessary to make certain changes in the grantee performance report. Section 570.906 is being amended in order to require that, starting with the performance report submitted in Fiscal Year 1977, information will be reported on a cumulative basis.

Section 570.906(a) is revised to require that the performance report include information on all activities underway, completed, or not yet begun, regardless of the year in which a particular activity was first included in the recipient's community development program. This revision will enable HUD, which must review each recipient's past performance prior to approving the next year's application, to base its findings on the most complete information available. Because some recipients have already submitted a performance report and others will be submitting their reports in the near future, § 570.906(a) is further revised to permit a grace period for submission of information on activities included in the recipient's first year community development program. While all entitlement recipients must submit a performance report in accordance with the timing requirements of § 570.300(e), recipients who submit a performance report prior to March 1, 1977, may delay reporting on activities included in the first year's community development program until March 1, 1977.

Section 570.906(b)(1) and (2) are revised to eliminate the reference to a single year.

In connection with the environmental review of these amendments to the regulations, a Finding of Inapplicability has been made under HUD Handbook 1390.1 (38 FR 19182). A copy of the Finding is available for inspection in the Office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

NOTE.—It is hereby certified that the economic and inflationary impacts of these amendments have been carefully evaluated in accordance with OMB Circular No. A-107.

(Title I, Housing and Community Development Act of 1974, (42 U.S.C. 5301 et seq.); sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d).)

Accordingly, Part 570 of Chapter V of 24 CFR is amended as follows:

1. By deleting paragraph (e)(4) and the last full paragraph of § 570.306(e), and revising paragraph (e)(3) to read as follows:

§ 570.306 HUD review and approval of application.

• • • • • •

(e) • • •

(3) There is substantial evidence that there has been, or there will be, a lack of substantial progress, nonconformance, noncompliance, or a lack of continuing capacity, as described in § 570.909. In such case, the reasons for the conditional approval and the actions necessary to remove the condition shall be specified. Failure to satisfy the condition may result in a reduction in the annual grant pursuant to § 570.910(b)(10).

2. By revising § 570.906 (a) and (b)(1) and (2) as follows:

§ 570.906 Performance Report.

(a) *Submission.* Each entitlement recipient shall annually submit a performance report. The performance report shall include information on each activity included in the recipient's cumulative community development program, regardless of the year in which the activity was first included in the program, and regardless of whether the activity is underway, completed or not yet begun. The report must be submitted in accordance with the timing requirements of § 570.300(e); however, recipients who submit a performance report prior to March 1, 1977, may delay reporting on activities included in the first year's community development program until March 1, 1977.

(b) *Contents.*—(1) *Progress on planned activities.* The recipient shall indicate, on a form prescribed by HUD, progress on:

(i) Each activity described in all approved applications;

(ii) Each local option activity;

(iii) Each activity added by HUD-approved program amendments; and

(iv) Each activity added by local program amendment.

(2) *Recipient assessment.* The performance report must include the recipient's assessment of the effectiveness of the program of community development activities conducted under this part in meeting the objectives of this part and the needs and objectives identified in the recipient's application(s).

• • • • • •

§ 570.908 [Redesignated from § 570.910]

3. By renumbering § 570.910 as § 570.908, *Evaluation by HUD.*

4. By revising § 570.909 to read as follows:

§ 570.909 Secretarial review of recipient's performance.

(a) *Objective.* The Secretary will review each recipient's performance to determine whether:

(1) The recipient has carried out a program substantially as described in its application.

(2) That program complied with the requirements of the Act, this part, and other applicable laws and regulations.

(3) The recipient has a continuing capacity to carry out the approved program in a timely manner; and

(4) Sanctions or other corrective or remedial actions described in §§ 570.910–570.913 are appropriate as a result of the above determinations.

(b) *Timing of review.* The Secretary's review of each entitlement recipient's performance will take place at least on an annual basis and prior to approval of the succeeding year's entitlement application. The Secretary's review of a discretionary recipient's performance will take place prior to approval of a subsequent discretionary grant to the same recipient and, in the case of other discretionary recipients, prior to final closeout of the grant.

(c) *Basis of review.* In reviewing each recipient's annual performance, the Secretary will consider all available evidence which may include, but need not be limited to, the following:

(1) The approved block grant application and any amendments thereto;

(2) Reports prepared by the recipient, including the annual performance report described in § 570.906;

(3) Records maintained by the recipient pursuant to § 570.907;

(4) Results of HUD's monitoring of recipient performance;

(5) Audit reports whether conducted by the recipient or by HUD auditors;

(6) Records of drawdowns on the letter of credit;

(7) Evidence of progress in the provision of housing assistance in accordance with goals in the housing assistance plan;

(8) Records of comments and complaints by citizens and organizations, or litigation.

(d) *Review of urban counties.* In reviewing the performance of urban counties, the Secretary will take into consideration both those actions which are within the control of the urban county and those which are within the control of its included units of general local government. A lack of performance on the part of a participating unit of general local government does not relieve the urban county of its obligation to carry out the approved program or to take whatever measures are appropriate to obtain performance by its included units of general local government.

(e) *Substantial progress.* HUD will review a recipient's performance to determine whether the recipient has made substantial progress in carrying out its approved program.

(1) *Community Development Program.* HUD will review a recipient's progress in carrying out approved activities and will take into account such factors as expenditure of funds, obligation of funds, award of third party contracts, and other measures of progress. While HUD will not establish arbitrary numerical or percentage standards for measuring progress, HUD will compare a recipient's progress with that of other recipients of comparable size with similar activities and grant amounts. If a recipient's progress lags substantially behind that of other similar recipients, further reviews may be conducted to determine the reasons for a lack of progress.

(2) *Housing assistance plan (HAP).* HUD will review a recipient's progress in achieving the one-year goals for housing assistance in the most recently approved HAP and the two prior HAPs, and the three-year goals in the two prior HAPs. In measuring progress in achieving HAP goals, HUD will consider a one-year goal to have been met if the recipient has received a firm financing commitment for specific projects or units identified in the HAP within a two-year period. A failure to achieve the one-year HAP goals or to make substantial progress toward achieving the three-year HAP goals may be due to factors not within the control of the recipient. However, HUD will consider the extent to which actions within the control of the recipient have been taken to achieve HAP goals. Such actions include:

(i) The removal of impediments under local ordinances and land use requirements to the development of assisted housing;

(ii) The formation of a local housing authority or execution of an agreement with a housing authority having powers to provide assisted housing within the jurisdiction of the applicant, when necessary to carry out the housing assistance plan;

(iii) The provision of sites, or improvements to sites, or extension of utilities to sites for assisted housing when resources are available, provided that such sites meet the applicable site and neighborhood standards of HUD; and

(iv) Other actions appropriate for implementation of the housing assistance plan.

(f) *Conformance with approved program.* HUD will review a recipient's performance to determine whether the program carried out conforms with the approved application.

(1) *Community Development Program.* HUD will review a recipient's performance to determine whether the activities undertaken during the period under review conform substantially to the Community Development Program described in the application, including any amendments thereto approved by HUD pursuant to § 570.305.

(i) The review may include whether any activities that were undertaken which were not included in the approved Community Development Program, or any amendments thereto, are eligible under § 570.200, conform to the certification under § 570.303(e)(6), and are within amounts not requiring prior HUD approval pursuant to § 570.305.

(ii) HUD's review of activities for conformance with the approved Community Development Program will not include new determinations of eligibility, except where there is substantial evidence challenging the basis for the original finding of eligibility.

(2) *Housing assistance plan.* HUD will review a recipient's performance to determine whether the housing assistance provided conforms to the type of housing to be assisted (new construction, rehabilitation or use of existing housing), the households to be assisted, and the general locations as set forth in the HAP. This review shall also take into consideration the regulations implementing Section 213 of the Act as set forth in Part 891 of this title.

(g) *Compliance.* HUD will review a recipient's performance to determine whether the program carried out complies with the requirements of the Act, this Part, and other applicable laws and regulations.

(h) *Continuing capacity.* HUD will review a recipient's performance to determine whether the recipient has a continuing capacity to carry out the approved program in a timely manner. The primary factors to be considered in arriving at a determination that a recipient has a continuing capacity are those described in paragraphs (e), (f) and (g) of this section.

(i) If the Secretary determines that the recipient has made substantial progress in carrying out the approved program, that the program undertaken conformed substantially to the approved application, and that the program was carried out in compliance with the Act, this part, and other applicable laws and regulations, the recipient will generally be considered to have a continuing capacity.

(ii) A determination that a recipient lacks a continuing capacity may be based on any single one, or any combination of the factors in paragraphs (e), (f) and (g) of this section. Particular attention will be given to efforts of the recipient to accelerate the progress of the program and/or to prevent the recurrence of past instances of nonconformance with the approved application or noncompliance with applicable laws and regulations.

(iii) If there is substantial evidence that the recipient lacks a continuing capacity, HUD will review the recipient's program to determine whether there is an administrative capacity to carry out the approved program in a timely manner. Primary among the factors to be considered will be whether responsibility for administering the program has been assigned to specific departments, agencies or persons, and whether necessary staff has in fact been employed or contracted for. In addition, HUD will consider whether the recipient has the requisite organizational authority, such as a housing authority or similar agency, when required to carry out the approved HAP.

5. By adding a new § 570.910 to read as follows:

§ 570.910 Corrective and remedial actions.

(a) *General.* When the Secretary determines on the basis of a review of a recipient's performance under § 570.909, that the objectives set forth in § 570.909 (a) have not been met, the Secretary will take one or more of the actions authorized in §§ 570.910–570.913. In each instance, the action taken will be designed to, first, prevent a continuance of the deficiency (lack of progress, nonconformance, noncompliance, lack of continuing capacity); second, mitigate any adverse effects or consequences of the deficiency to the extent possible under the circumstances; and third, prevent a recurrence of the same or similar deficiencies.

(b) *Actions authorized.* The following is a listing of actions that HUD may take in response to review of a recipient's performance. Such actions may be taken with regard to either an entitlement recipient or a discretionary recipient and may be taken either singly or in combination, as appropriate to the circumstances.

(1) Request the recipient to submit additional information:

(i) Concerning the administrative, planning, budgeting, management and evaluation functions to determine any reasons for lack of progress;

(ii) Explaining any actions being taken to correct or remove the causes for delay;

(iii) Documenting that activities undertaken were not in nonconformance with the approved program or in noncompliance with applicable laws or regulations; or

(iv) Demonstrating that the recipient has a continuing capacity to carry out the approved program in a timely manner.

(2) Request the recipient to submit progress schedules for completing approved activities.

(3) Issue a letter of warning that advises the recipient of the defiiniency and puts the recipient on notice that more serious sanctions will be taken if the deficiency is not corrected or is repeated.

(4) Advise the recipient that a certification will no longer be acceptable and that additional information or assurances will be required, as provided in § 570.306(b)(1).

(5) Advise the recipient to suspend, discontinue or not incur costs for the affected activity.

(6) Advise the recipient to reprogram funds from affected activities to other eligible activities: *Provided,* That such action shall not be taken in connection with any substantial violation of § 570.603 and 24 CFR Part 58.

(7) Advise the recipient to reimburse the recipient's program account or letter of credit in any amounts improperly expended.

(8) Change the method of payment from a letter of credit basis to a reimbursement basis.

(9) Condition the approval of a succeeding year's application if there is substantial evidence of a lack of progress, nonconformance, noncompliance, or a lack of a continuing capacity. In such cases, the reasons for the conditional approval and the actions necessary to remove the condition shall be specified, as provided in § 570.306(e)(3).

(10) Reduce the recipient's annual grant by up to the amount conditionally approved pursuant to § 570.306(e)(3) where such condition or conditions have not been satisfied.

6. By revising § 570.911 to read as follows:

§ 570.911 Reduction of annual grant.

When the Secretary determines on the basis of a review of an entitlement recipient's performance, that the objectives set forth in § 570.909(a) have not been met, the Secretary may make an appropriate reduction in the entitlement grant amount for the succeeding program year. A reduction will not be made in the entitlement grant amount until at least one of the corrective or remedial actions specified in § 570.910(b) has been taken, and only then if the recipient has not made an appropriate and timely response. The Secretary may reduce the entitlement amount down to zero for a succeeding program year. Prior to making a reduction in the entitlement amount under this section, however, the recipient shall be notified and given an opportunity within a prescribed time for an informal consultation regarding the proposed action.

7. By revising paragraph (b) of § 570.913 to read as follows:

§ 570.913 Other remedies for noncompliance.

• • • • •

(b) *Secretarial actions on payments.* If the Secretary finds a recipient has failed to comply substantially with any provision of this part, including the performance standards set forth in § 570.909, he may, provided his finding of failure to comply is made after reasonable notice and opportunity for hearing:

(1) Terminate payments to the recipient; or

(2) Reduce payments to the recipient by an amount equal to the amount of such payments which were not expended in accordance with this part; or

(3) Limit the availability of payments to programs, projects, or activities not affected by such failure to comply. *Provided, however,* That the Secretary may on due notice revoke the recipient's letter of credit in whole or in part at any time after the initial finding of failure to comply, pending such hearing and a final decision of the Department, to the extent the Secretary determines such action necessary to preclude the further expenditure of funds for activities affected by such failure to comply. The following regulations govern the procedures and practice requirements involving adjudications where the Secretary desires to take action requiring reasonable notice and opportunity for hearing. The regulations in this part shall be liberally construed to secure just, expeditious, and efficient determination of the issues presented. The Administrative Procedures Act (5 U.S.C. 551 et seq.) where applicable shall be a guide in any situation not provided for or controlled by this subpart, but shall be liberally construed or relaxed when necessary.

• • • • •

Effective date: This amendment shall be effective on February 24, 1977.

WARREN H. BUTLER,
Acting Assistant Secretary for Community Planning and Development.

DEPARTMENT OF JUSTICE

Law Enforcement Assistance Administration

■

FEDERAL AND FEDERALLY ASSISTED PROGRAMS AND PROJECTS

Evaluation, Review and Coordination

Title 28—Judicial Administration

CHAPTER I—DEPARTMENT OF JUSTICE

PART 30—FINAL REGULATION RELATING TO THE LEAA IMPLEMENTATION OF THE OMB CIRCULAR NO. A-95 REVISED

Federal and Federally Assisted Programs and Projects; Evaluation, Review and Coordination

The Law Enforcement Assistance Administration hereby amends Part 30 to Chapter I of Title 28 of the Code of Federal Regulations. This regulation will amplify current LEAA regulation governing compliance with OMB Circular No. A-95 Revised entitled "Evaluation, Review, and Coordination of Federal and Federally Assisted Programs and Projects."

On August 27, 1976, the Law Enforcement Assistance Administration published draft regulations proposed to amend 28 CFR Part 30 implementing OMB Circular No. A-95 Revised. 41 FR 36215 (August 27, 1976). Comments have been received and the following modifications have been made to the draft regulations:

Section 30.2(c). Crime Control Act of 1973 is an improper cite to the LEAA authorizing legislation. The proper cite has been substituted.

Section 30.3. Same revision as made to § 30.2(c).

Section 30.3(c)(2). The term "Formula" is inserted before the term "Allocation".

Section 30.3(d). This section is revised to limit the applicability of Subpart E only to 16.500 Law Enforcement Assistance—Comprehensive Planning Grant—programs.

Section 30.4(a). A second sentence is added to allow an applicant to notify either the State or areawide clearinghouses where such clearinghouses have agreed on a single entry point into the review system in that State.

Section 30.4(f). The words "by the areawide clearinghouse" is inserted after the phrase "to be sent" to make it clear that it is the clearinghouse's responsibility to send project notification to local units and not the applicant's responsibility.

Section 30.5(a). A second sentence is added to permit concurrent review of an application by the funding agency and clearinghouses if the applicant, clearinghouses, and funding agency agree to such review.

Section 30.5(c)(3). This has been added as a conforming amendment to implement the change to § 30.5(a).

Section 30.5(d). This subsection is revised for clarification.

Section 30.6(b). A second sentence is added to provide that SF 424 may be used for notification purposes.

Section 30.7(b). The language "by the clearinghouse" is inserted in the first sentence to clarify that receipt is by the clearinghouse.

Section 30.9(a). A second sentence is added as a conforming amendment to implement the change to § 30.5(a).

Section 30.9(d). The term "against" is inserted after the term "recommended".

Section 30.14. This section has been substantially revised to bring it into conformity with Part III of OMB Circular No. A-95 Revised.

Section 30.14(b). This subsection allows the Governor or the Governor's designated agency to permit concurrent review of the State plan by LEAA and the Governor or the designated agency.

Section 30.19(a)(1). The term "SPA" is deleted and the language "areawide comprehensive planning agency" has been substituted.

Section 30.23. The term "the FRC" has been added to the second sentence and the third sentence is deleted. The third sentence in the draft regulation provided: "The SPA may seek the aid of the FRC if LEAA is unable to achieve an acceptable resolution." The reason for this revision is to make the SPA responsible to achieve an acceptable resolution. Where an acceptable resolution cannot be achieved, then the SPA may apply to LEAA for a waiver of this requirement.

Section 30.24(b). The term "a" is inserted before the term "State".

Section 30.24(f). A definition of "State planning agency" is added. Accordingly, paragraphs (f) through (k) are redesignated as (g) through (l).

Section 30.24(m). A definition of "days" is added to mean calendar days.

A number of comments related to clearinghouse functions. LEAA may not alter such functions. However, all comments have been forwarded to the Office of Management and Budget for consideration.

RICHARD W. VELDE,
Administrator.

Accordingly, Part 30 of Title 28 is amended to read as follows:

Subpart A—General Provisions

Sec.
30.1 Purpose.
30.2 Authority.
30.3 Implementation.

Subpart B—Project Notification Procedures

30.4 Notification of intent.
30.5 Application submission.
30.6 Indian tribes.
30.7 Clearinghouse review.
30.8 SPA responsibilities.
30.9 Funding agency responsibilities.
30.10 Requests for exemptions and procedural variations.
30.11 Joint funding.

Subpart C—Direct Federal Development

30.12 Non-applicability.

Subpart D—State Plans

30.13 General.
30.14 Governor's comments.

Subpart E—Coordination of Planning in Multijurisdictional Areas

30.15 Planning and development districts or regions.
activities in multijurisdictional areas.
30.16 Governor's review and comment.
30.17 Consultation in review boundaries.
30.18 Justification for variance.
30.19 Common and consistent planning bases and coordination of related
30.20 Memorandum of agreement signatories.
30.21 Applicant for assistance to accomplish areawide planning.
30.22 SPA implementation of memorandum of agreement requirement.
30.23 Inability to effectuate a memorandum of agreement.

Subpart F—Definitions

30.24 Definitions.

AUTHORITY: OMB Circ. No. A-95 Rev.; Sec. 501, Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3701, et seq.

Subpart A—General Provisions

§ 30.1 Purpose.

The purpose of this regulation is to implement OMB Circular A-95 Revised (41 FR 2052 (January 13, 1976)) for the cooperation with the Law Enforcement Assistance Administration (LEAA) and State Planning Agencies (SPA's) in the evaluation, review, and coordination of LEAA assisted programs and projects.

§ 30.2 Authority.

This regulation is based upon and incorporates OMB Circular No. A-95 Revised, and is promulgated for the:

(a) Encouragement for the use of a project notification and review system to facilitate coordinated planning on an intergovernmental basis for certain Federal assistance programs in furtherance of section 204 of the Demonstration Cities and Metropolitan Development Act of 1966 and Title IV of the Intergovernmental Cooperation Act of 1968.

(b) Securing the comments and views of State and local agencies which are authorized to develop and enforce environmental standards on certain Federal or federally assisted projects affecting the environment pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 and regulations of the Council on Environmental Quality.

(c) Furthering the objectives of Title VI of the Civil Rights Act of 1964; section 262(b) of the Juvenile Justice and Delinquency Prevention Act of 1974; and section 518(c) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3701, et seq.

§ 30.3 Implementation.

Full compliance with OMB Circular No. A-95 Revised is required by all applicants for funds under programs associated with section 205, section 306(a), section 455(a) and section 515(b) of the Omnibus Crime Control and Safe Streets Act of 1968, as amended, 42 U.S.C. 3701, et seq., and section 222(a) and section 224(a) of the Juvenile Justice Delinquency Prevention Act of 1974, Pub. L. 93-415. This regulation and OMB Circular No. A-95 Revised will have applicability to all programs, projects, and activities (or significant substantive changes thereto) for which LEAA assistance is being sought as outlined below:

(a) Subpart B of this regulation and Part I of OMB Circular No. A-95 Revised cover the following programs:

(1) 16.500 Law Enforcement Assistance—Comprehensive Planning Grants.

(2) 16.501 Law Enforcement Assistance—Discretionary Grants.

(3) 16.502 Law Enforcement Assistance—Improving and Strengthening Law Enforcement and Criminal Justice.

(4) 16.515 Criminal Justice Systems Development.

(5) 16.516 Law Enforcement Assistance—Juvenile Justice and Delinquency Prevention—Formula Allocation to the States.

(6) 16.517 Law Enforcement Assistance—JJDP Special Emphasis Prevention and Treatment.

(b) Part II of OMB Circular No. A-95 Revised does not apply to LEAA assisted programs and projects.

(c) Subpart D of this regulation and Part III of OMB Circular No. A-95 Revised cover the following programs:

(1) 16.502 Law Enforcement Assistance—Improving and Strengthening Law Enforcement and Criminal Justice.

(2) 16.516 Law Enforcement Assistance—Juvenile Justice and Delinquency Prevention—Formula Allocation to the Statea.

(d) Subpart E of this regulation and Part IV of OMB Circular No. A-95 Revised cover the following programs:

(1) 16.500 Law Enforcement Assistance—Comprehensive Planning Grants.

Subpart B—Project Notification Procedures

§ 30.4 Notification of intent.

(a) Any applicant undertaking to apply to LEAA or an SPA for assistance for a project or program or major substantive modification thereto under an LEAA assisted project or program covered by this Subpart and Part I of OMB Circular No. A-95 Revised is required to notify both the State and areawide planning and development clearinghouses in the jurisdiction in which the project is to be located of the applicant's intent to apply for assistance at such time as the applicant determines to develop an application. The applicant may notify either the State or areawide planning and development clearinghouses where such clearinghouses have agreed on a single entry point into the review system in that State.

(b) In the case of the applications for projects involving land or water use and development or construction in the National Capital (as defined in section 1(b) of the National Capital Planning Act of 1952, as amended) a copy of the notification is to be sent to the National Capital Planning Commission (NCPC) in addition to the State and areawide clearinghouses.

(c) In the case of an application in any State for an activity that is statewide or broader in nature and does not have specific applicability to areawide or local planning and programs, the notification is to be sent only to the State clearinghouse unless otherwise required by the State clearinghouse.

(d) Notifications shall include a summary description of the proposed project. The summary description shall contain the following information:

(1) Identity of the applicant.

(2) The geographical location of the proposed project. A map should be provided, if appropriate.

(3) A brief description of the proposed project by type, purpose, general size or scale, estimated cost, beneficiaries, or other characteristics which will enable the clearinghouses to identify agencies of State or local government having plans, programs, or projects that may be affected by the proposed project.

(4) A statement as to whether the applicant will be required by the funding agency to submit environmental impact information for the proposed project.

(5) The LEAA program title and number under which assistance will be sought as provided in § 30.5.

(6) The estimated date the applicant expects to formally file an application.

(e) Applicants are encouraged to contact the clearinghouse to which the notification will be sent to obtain notification forms and instructions and to submit the notification containing the preliminary information indicated above to the clearinghouse at the earliest possible time to expedite clearinghouse review.

(f) Notifications of all projects affecting a unit of general local government may be requested by the chief executive of such unit to be sent by the areawide clearinghouse to such chief executive or to such central agency as the chief executive may designate for review and reference to appropriate agencies of such unit.

§ 30.5 Application submission.

(a) All applications for assistance under programs covered by this Subpart must be submitted to appropriate clearinghouses for review prior to their submission to the funding agency. However, concurrent submission of an application to the clearinghouses and the funding agency is permissible only if the applicant, clearinghouses, and funding agency agree to concurrent submission.

(b) Where review by clearinghouse has been completed prior to completion of an application, the applicant is not required to submit a completed application to the clearinghouses prior to submission to the funding agency. However, the applicant may be requested by the clearinghouses to supply an information copy of the completed application when the application is submitted to the funding agency.

(c) Applicants will include with the completed application as submitted to the funding agency:

(1) All comments and recommendations made by or through clearinghouses, along with a statement that such comments have been considered prior to submission of the application;

(2) Where no comments have been received from a clearinghouse a statement that the procedures outlined in this section have been followed and that no comments or recommendations have been received; or

(3) Statements from the applicant and clearinghouses agreeing to concurrent review of the application by the clearinghouses and funding agency.

(d) Applications for annual renewal or continuation grants are subject to review upon request of the clearinghouse; and applications not submitted to or acted upon by the funding agency within one year after completion of the clearinghouse review are subject to re-review upon the request of the clearinghouse.

(e) Applications submitted to clearinghouses for review from nongovernmental applicants are not required to include confidential information concerning the financial status or structure or the personnel of the applicant organization, even though the funding agency may require such information to be sent to the funding agency as part of the application.

§ 30.6 Indian tribes.

(a) Applications from federally recognized Indian tribes are not subject to the requirements of this Subpart or Part I of OMB Circular No. A-95 Revised. However, Indian tribes may voluntarily comply with this Subpart and are encouraged to do so.

(b) The funding agency shall notify the appropriate State and areawide clearinghouses of any applications submitted by federally recognized Indian tribes upon receipt. SF 424 may be used for such notification.

(c) Where a federally recognized Tribal Government has established a mechanism for coordinating the activities of Tribal departments, divisions, enterprises, and entities, such Tribal Government may require upon obtaining approval from LEAA that applications for assistance under programs covered by this Subpart from such Tribal departments, divisions, enterprises, and entities shall be subject to review by such Tribal coordinating mechanism as though it were a State or areawide clearinghouse. Upon receiving such request for approval, LEAA shall transmit the request to the Office of Management and Budget for comment.

§ 30.7 Clearinghouse review.

(a) Comments and recommendations made by or through clearinghouses with respect to any project are for the purpose of assuring maximum consistency of such projects with State, areawide, and local comprehensive plans.

(b) An applicant may generally expect that State and areawide clearinghouses will complete review of a project notification within 30 days after receipt by the clearinghouses of the notification. However, clearinghouses may request an additional 30 days to review the completed application. Where the applicant has not received a response to the applicant's notification from the clearinghouse within the initial 30-day period, the applicant may consider the clearinghouse to have waived its opportunity to review and comment on the proposed project.

(c) If an applicant submits a completed application to State and areawide clearinghouses during the 30-day notification review period, the applicant may expect that the clearinghouses will complete review within 30 days plus the num-

ber of days remaining in the 30 day notification period. If an applicant submits to the clearinghouses a completed application without a project notification, the applicant may expect that the clearinghouses will complete review of the application within 60 days. In all other cases, the applicant may expect that the clearinghouses will complete review of a completed application within 30 days. If clearinghouse review of an application is not completed within these time periods, the applicant may consider that the application has been favorable reviewed and may submit the application to the funding agency for consideration.

§ 30.8 SPA responsibilities.

SPA's shall provide procedures:

(a) For the submission of applications for programs or projects covered by this Subpart to the appropriate clearinghouses.

(b) To insure that all applications contain a State Application Identifier (SAI) number. This is mandatory for use in notifying clearinghouses of action taken on the application.

(c) To insure that all comments have been considered and made a part of the application.

§ 30.9 Funding agency responsibilities.

(a) A funding agency that receives an application that does not carry evidence that appropriate clearinghouses have been given an opportunity to review the application shall return the application to the applicant with instructions to fulfill the requirements of this Subpart. However, if the application is accompanied with statements from the applicant and clearinghouses agreeing to concurrent review by the clearinghouses and the funding agency, the funding agency may, within its discretion, receive the application.

(b) The funding agency must notify appropriate clearinghouses within seven working days of any major action taken on any application that has been reviewed by such clearinghouses. Major actions will include awards, rejections, returns for amendment, deferrals, or withdrawals. The standard multipurpose form, SF 424, as prescribed by Treasury Circular TC 1082 (as revised, October 1975) will be used for this purpose.

(c) Where a clearinghouse has recommended against approval or approval only with specific and major substantive changes and the funding agency approves the application substantially as submitted, the funding agency will provide the clearinghouse with, along with the action notice, an explanation therefor.

(d) Where a clearinghouse has recommended against approval of a project because it conflicts with or duplicates another Federal or federally assisted project, the funding agency will consult with the agency assisting the referenced project prior to acting if it plans to approve the application.

§ 30.10 Requests for exemptions and procedural variations.

(a) LEAA may request an exemption from OMB for certain classes of projects or activities under programs otherwise covered which:

(1) Meet any of the following characteristics: (i) Assistance to organizations and institutions for the provision of education or training not designed to meet the needs of specific individual States or localities.

(ii) Research, not involving capital construction, which is national in scope or is not designed to meet the needs or to address problems of a particular State, area, or locality (except in the case of demonstration or pilot research programs where projects may have an impact on the community or area in which they are being conducted).

(iii) Assistance to education, medical, or similar service institutions or agencies for internal staff development or management improvement purposes.

(iv) Assistance to education institutions or activities that are part of a school's regular academic program and are not related to local programs of health, welfare, employment, or other social services.

(v) Assistance for construction involving only routine maintenance, repair, or minor construction which does not change the use or the scale or intensity of use of the structure or facility.

(vi) Assistance for law enforcement projects involving confidential law enforcement investigative information, techniques, or procedures.

(2) Are of small scale or size or are highly localized as to impact; or

(3) Display other characteristics which might make review impractical.

(b) LEAA may request procedural variations from normal review processes:

(1) On a temporary basis for programs with time constraints brought about because of startup requirements or other unusual circumstances beyond the control of the funding agency.

NOTE.—Delay in fund availability is not normally an acceptable reason for a variation. When a delay is anticipated, applicants should be instructed to have their applications reviewed by clearinghouses in readiness for submission when funds become available.

(2) For programs where statutory or related procedural limitations make the normal review processes impracticable.

(c) All requests from LEAA offices or SPA's through LEAA Regional Offices for exemptions or procedural variations should be routed through the Office of Regional Operations, LEAA, Washington, D.C. 20531.

(d) Individual clearinghouses may exempt certain types of projects from review for reasons indicated above or for other reasons appropriate to the State or area.

(e) Applicants should be aware that in various States State law requires review of applications for Federal assistance under various programs not covered by this Subpart. Implementation of such law is enforced through State rules and regulations, and applications are urged to ascertain the existence of such laws and to acquaint themselves with applicable State procedures.

§ 30.11 Joint Funding.

Applications for assistance to activities under the Joint Funding Simplification Act (Pub. L. 93-510) or any other joint funding authority, which involves activities funded under one or more of the programs covered under this Subpart, will be subject to the requirements of this Subpart.

Subpart C—Direct Federal Development

§ 30.12 Non-applicability.

Part II of the OMB Circular No. A-95 Revised does not apply to LEAA.

Subpart D—State Plans

§ 30.13 General.

The purpose of this Subpart and Part III of OMB Circular No. A-95 Revised is to provide information about the relationship to State or areawide comprehensive planning of the Annual Comprehensive State Plan.

§ 30.14 Governor's comments.

(a) The Governor, or the agency the Governor has designated to perform reviews under Part III of OMB Circular No. A-95 Revised, must be given an opportunity to comment (up to 45 days) on the relationship of the Annual Comprehensive State Plan to comprehensive and other State plans and programs and to those of affected local or areawide jurisdictions. The Governor is urged to involve areawire clearinghouses in the review of State plans, particularly where such plans have specific applicability to or affect areawide or local plans and programs.

(b) A period of 45 days must be provided the Governor or the designated agency to make such comments. Unless otherwise provided for by the Governor or the designated agency, the 45 day period must be afforded prior to submission of the Annual Comprehensive State Plan to LEAA. Any comments made by the Governor or the designated agency must be submitted with the Annual Comprehensive State Plan.

(c) A "State plan" under this Subpart is defined to include any required supporting planning reports or documentation that indicate the programs, projects, and activities for which Federal funds will be utilized. Such reports or documentation will also be submitted for review at the request of the Governor or the agency he has designated to perform reviews under Part III of OMB Circular No. A-95 Revised.

Subpart E—Coordination of Planning In Multijurisdictional Areas

§ 30.15 Planning and development districts or regions.

The States are encouraged to:

(a) Exercise leadership in delineating and establishing a system of planning and development districts or regions in each State, which can provide a consistent geographic base for the planning and coordination of Federal, State, and local development programs.

(b) Use agencies that have been designated to perform areawide comprehensive planning, planning and development districts or regions established pursuant to paragraph (a) of this section (generally, areawide clearinghouses designated pursuant to Part I of OMB Circular No. A-95 Revised) to carry out or coordinate planning. In the case of interstate metropolitan areas, agencies designated as metropolitan areawide clearinghouses should be utilized to the extent possible to carry out or coordinate LEAA assisted or required areawide planning.

§ 30.16 Governor's review and comment.

Prior to the designation or redesignation (or the approval thereof) of any planning and development district or region under the LEAA programs, the Governor(s) of the State(s) in which the district or region will be located must be allowed a period of 30 days to review the boundaries thereof and comment on its relationship to planning and development districts or regions established by the State. Where the State has established such planning and development districts, the boundaries of areas designated under LEAA programs will conform to them unless there is clear justification for not doing so.

§ 30.17 Consultation in review boundaries.

Where the State has not established planning and development districts or regions which provide a basis for evaluation of the boundaries of the area proposed for designation, major units of general local government and the appropriate Federal Regional Council (FRC) will also be consulted prior to designation of the area to assure consistency with districts established under interlocal agreements and under related Federal programs.

§ 30.18 Justification for variance.

The Office of Management and Budget will be notified through the appropriate FRC by LEAA of any proposed designation and will be informed of such designation when it is made, including such justifications as may be required under § 30.16.

§ 30.19 Common and consistent planning bases and coordination of related activities in multijurisdictional areas.

(a) Each SPA will develop procedures and requirements for applications for multijurisdictional planning and development assistance under appropriate programs to assure the fullest consistency and coordination with planning and development being carried on by the areawide comprehensive planning agency or clearinghouse designated under Part I of the OMB Circular No. A-95 Revised. These procedures shall include provision for submission to the funding agency by any applicant for multijurisdictional planning assistance, if the applicant is other than an areawide comprehensive planning agency, of a memorandum of agreement between the applicant and such areawide comprehensive planning agency covering the means by which their planning activities will be coordinated. The agreement will cover but need not be limited to the following matters:

(1) Identification of relationships between the planning proposed by the applicant and that of the areawide comprehensive planning agency and of similar or related activities that will require coordination;

(2) The organizational and procedural arrangements for coordinating such activities, such as: Overlapping board membership, procedures for joint review of project activities and policies, information exchange, etc.;

(3) Cooperative arrangements for sharing planning resources (funds, personnel, facilities, and services); and

(4) Agreed upon base data, statistics and projections (social, economic, demographic) on the basis of which planning in the area will proceed.

(b) Each SPA must provide to LEAA a description of:

(1) The extent to which law enforcement and criminal justice planning regions are consistent with State established planning and development districts or regions together with reasons for any inconsistency.

(2) Procedural arrangements to assure maximum coordination with related planning under other Federal programs citing existing or planned memoranda of agreement and specific Regional Planning Units and/or State agencies which must execute memoranda of agreement.

§ 30.20 Memorandum of agreement signatories.

The signatories to the memorandum of agreement are:

(a) The areawide comprehensive planning agency (usually the areawide A-95 clearinghouse), and

(b) The applicant for assistance to carry out areawide planning if other than (a) above. (Not infrequently paragraph (a) and (b) of this section are the same, in which case no memorandum of agreement is required.)

§ 30.21 Applicant for assistance to accomplish areawide planning.

The applicant referred to in § 30.20(b) will in most cases mean any Regional Planning Units which cover a multijurisdictional area comprising, encompassing or extending into more than one unit of general local government and which does not operate under the auspices of an area-wide comprehensive planning agency.

§ 30.22 SPA implementation of memorandum of agreement requirement.

The SPA is required to implement procedures to assure that the memorandum of agreement required is followed.

§ 30.23 Inability to effectuate a memorandum of agreement.

Where an applicant has been unable to effectuate a memorandum of agreement, the applicant will submit a statement indicating the efforts which were made to secure an agreement and the issues that have prevented it. In such case, the SPA in consultation with the FRC, LEAA, and the designated State clearinghouse, will undertake, within a 30 day period after receipt of the application, resolution of the issue before approving the application, if it is otherwise in good order.

Subpart F—Definitions

§ 30.24 Definitions.

(a) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and any territory or possession of the United States.

(b) "Unit of general local government" means any city, county, township, town, borough, parish, village or other general purpose political subdivision of a State, an Indian tribe which performs law enforcement functions as determined by the Secretary of the Interior, or, for the purpose of assistance eligibility, any agency of the District of Columbia government performing law enforcement functions in and for the District of Columbia.

(c) "Special purpose unit of local government" is any special district, public purpose corporation, or other strictly limited purpose political subdivision of a State.

(d) "LEAA assistance, LEAA financial assistance, LEAA assistance program, or LEAA assisted programs" are programs that provide assistance through LEAA grant or contractual arrangements; these also include technical assistance programs or programs providing assistance in the form of loans. The term does not include any annual payment by the United States to the District of Columbia authorized by article VI of the District of Columbia Revenue Act of 1947 (D.C. Code sec. 47-2501a and 47-2501b).

(e) "Funding agency" is the Law Enforcement Assistance Administration or, in the case of block or formula grant programs, the State Planning Agency which is responsible for final approval of applications for assistance.

(f) "State planning agency" is the agency created or designated by the chief executive of the State or by State law pursuant to section 203(a)(1) of the Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3701, et seq., as amended (Pub. L. 90-351, as amended by Pub. L. 93-83, Pub. L. 93-415, Pub. L. 94-430, and Pub. L. 94-503).

(g) "Metropolitan area" is a standard metropolitan statistical area as established by the Office of Management and Budget, subject, however, to such modifications and extensions as the Office of Management and Budget may determine to be appropriate for the purpose of section 204 of the Demonstration Cities and

Metropolitan Development Act of 1966, and the OMB Circular No. A-95 Revised.

(h) "Areawide" means comprising, in metropolitan areas, the whole of contiguous urban and urbanizing areas; and in non-metropolitan areas, contiguous counties or other multijurisdictional areas having common or related social, economic, or physical characteristics indicating a community of developmental interests; or, in either, the area included in a sub-State district designated pursuant to paragraph 1d, Part IV, Attachment A of the OMB Circular No. A-95 Revised.

(i) "Planning and development clearinghouse or clearinghouses" includes:

(1) "State Clearinghouse" which is an agency of the State government designated by the Governor or by State law to carry out the requirements of paragraph 3, Part I, Attachment A of the OMB Circular No. A-95 Revised.

(2) "Areawide clearinghouse" means:

(i) In non-metropolitan areas a comprehensive planning agency designated by the Governor (or Governors in the case of regions extending into more than one State) or by State law to carry out requirements of OMB Circular No. A-95 Revised.

(ii) In metropolitan areas an areawide agency that has been recognized by the Office of Management and Budget as an appropriate agency to perform review functions under section 204 of the Demonstration Cities and Metropolitan Development Act of 1966, Title IV of the Intergovernmental Cooperation Act of 1968, and OMB Circular No. A-95 Revised.

(j) "Multijurisdictional area" means any geographical area comprising, encompassing, or extending into more than one unit of general local government.

(k) "Planning and developmental district or region" means a multijurisdictional area that has been formally designated or recognized as an appropriate area for planning under State law or Federal program requirements.

(l) "Direct Federal development" means planning and construction of public works, physical facilities, and installations or land and real property development (including the acquisition, use, and disposal of real property) undertaken by or for the use of the Federal Government or any of its agencies; or the leasing of real property for Federal use where the use or intensity of use of such property will be substantially altered.

(m) "Days" means calendar days.

PART VIII

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

■

GOVERNMENT PROPERTY

Procurement

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[41 CFR Part 12–70]

PROCUREMENT REGULATIONS

Government Property

AGENCY: Department of Transportation.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Transportation (DOT) proposes to amend its procurement regulations (DOTPR) by adding a new Part 12–70 entitled "Government Property" and by adding a new Supplement 1 entitled "Manual for Control of Property in Possession of Contractors". These amendments propose requirements for acquiring, using, and disposing of Government property by DOT contractors and propose administrative procedures for DOT personnel. They establish a uniform system of control and accountability of Government property to prevent further inconsistent treatment of DOT contractors. In the absence of comparable coverage in the Federal Procurement Regulations (FPR), these additions supplement the FPR. Public comment is invited.

DATES: Comments by: March 14, 1977.

ADDRESSES: Comments to:

Docket Clerk, OST Docket Number 19, Office of the General Counsel, Department of Transportation, Washington, D.C. 20590.

FOR FURTHER INFORMATION CONTACT:

L. S. Hanson, Chief, Property Management Staff, Office of Installations and Logistics, Department of Transportation, Washington, D.C. 20590. (202) 426–4194.

SUPPLEMENTARY INFORMATION: In general, these regulations would establish for the Department a uniform system for the provision, use, control, accounting, and disposition of Government property used by contractors in connection with the performance of work under DOT contracts. The proposal prescribes policies, procedures, authorities, and responsibilities as necessary to effectuate such a system, with respect to both the preaward and postaward phases of contracting. As proposed, Part 12–70 contains directive material applicable to DOT contracting personnel, whereas Supplement 1 would be applicable to those DOT contractors that are provided Government property.

This proposal was developed in response to a demonstrated need for such directives within the Department. In the absence of a prescribed Departmental system, the contractual and administrative aspects associated with Government-provided property have not been accorded uniform treatment by the various procurement activities of the Department. By the same token, there has been a lack of consistency in the requirements levied on DOT contractors with respect to the control and accountability of Government property. With regard to the matter of consistency, it is recognized that many contractors presently utilize Government property procedures established by other Federal agencies, particularly the Department of Defense, the National Aeronautics and Space Administration, and the Department of Health, Education and Welfare.

Accordingly, in developing this proposal the existing procurement regulations of such agencies were used as guidelines. In some subject areas the DOTPR coverage would be identical to that found in the regulations just cited, while in other areas the coverage of a particular subject would be modified or condensed to accommodate DOT's specific needs. Additionally, pertinent provisions of the FPR and the Federal Property Management Regulations have been referenced where appropriate.

As previously indicated, the New Part 12–70 would provide direction to DOT contracting personnel. Within this part are set forth policies, procedures, authorities, and responsibilities relative to the following general subjects:

(1) Furnishing Government material to contractors;

(2) Providing Government facilities to contractors;

(3) Use of Government facilities in the possession of contractors or subcontractors;

(4) Property administration;

(5) Vesting of title to equipment under research contracts; and

(6) Disposition of excess and residual contract inventory.

Supplement 1 (the manual) would set forth the basic requirements to be followed by contractors in establishing and maintaining control over Government property. It would be incorporated by reference in all contracts under which Government property is provided to contractors, and be made available to each such contractor. Within this manual are contained procedures and responsibilities relative to the following general subjects:

(1) Contractor's assumption of, and relief from, responsibility for Government property;

(2) Records of Government property to be maintained by the contractor;

(3) Identification of Government property;

(4) Conduct of physical inventories;

(5) Care, maintenance, and utilization of Government property;

(6) Passage of title to equipment under research contracts; and

(7) Reports to be provided to the Government.

All comments received before the close of business on the comment closing date (March 14, 1977) will be considered, and will be available for public inspection or copying from 9 a.m. to 5:30 p.m., Monday through Friday, except Federal holidays, in Room 10100, DOT Headquarters, 400 Seventh Street, S.W., Washington, DC 20590. To the extent possible, comments filed after the closing date will also be considered. However, the rule-making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The DOT will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

In consideration of the foregoing, it is proposed to amend Chapter 12 of Title 41, Code of Federal Regulations, by inserting a new Part 12–70 and adding a Supplement 1, to read as set forth below.

Issued in Washington, DC on January 18, 1977.

WILLIAM S. HEFFELFINGER,
Assistant Secretary for Administration.

PART 12–70—GOVERNMENT PROPERTY

Sec.

12–70.000 Scope of Part.

Subpart 12–70.1—General

12–70.101 Definitions.
12–70.101–1 Property.
12–70.101–2 Government property.
12–70.101–3 Provide.
12–70.101–4 Material.
12–70.101–5 Non-expendable.
12–70.101–6 Plant Equipment.
12–70.101–7 Facilities.
12–70.101–8 Nonserverable.
12–70.101–9 Excess and residual contract inventory.
12–70.102 Use for or by contractors of test facilities owned and operated by the government.
12–70.103 Government property contract clauses.
12–70.104 Control of government property.
12–70.105 Disposition of excess and residual contract inventory.

Subpart 12–70.2—Furnishing Government Material to Contractors

12–70.201 Policy.
12–70.202 Procedure.
12–70.203 Changing the amount of material to be furnished by the government.

Subpart 17–70.3—Providing Government Facilities to Contractors

12–70.301 Policy.
12–70.302 Providing government facilities when disposal is limited.
12–70.303 Offers to furnish government facilities.
12–70.304 Changing government facilities to be provided.

Subpart 12–70.4—Use of Government Facilities in the Possession of Contractors or Subcontractors

12–70.401 Policy.
12–70.402 Use of facilities under the cognizance of another department or agency.
12–70.403 Use by another department or agency of facilities under the cognizance of DOT.

Subpart 12–70.5—Property Administration

Sec.
12–70.501 General.
12–70.502 Responsibilities of the contracting officer.
12–70.503 Actions requiring approval of the contracting officer.
12–70.504 Assignment of responsibility for property administration.

12–70.505 Responsibilities of the property administrator.
12–70.506 DOTPR Supplement 1—Manual for Control of Property in Possession of Contractors.
12–70.507 Records of government property.
12–70.508 Contract property control file.
12–70.509 Evaluation and approval of contractor's property control system.
12–70.510 Review of contractor's property control system during contract performance.

Subpart 12–70.6—Vesting of Title to Equipment Under Research Contracts

12–70.601 General.
12–70.602 Conditions of transfer.
12–70.603 Contracts performed at government installations.

Subpart 12–70.7—Disposition of Excess and Residual Contract Inventory

12–70.701 General.
12–70.702 Application of FPR, FPMR and other DOT regulations.
12–70.703 Reports of contract inventory.
12–70.704 Disposition methods and priorities.

Subpart 12–70.8—Contract Closure

12–70.801 Actions by the property administrator.

Subpart 12–70.9—Contract Clauses, Government Property

12–70.901 Contract clauses.

AUTHORITY: Sec. 205(c), 63 Stat. 389; 40 U.S.C. 486(c), 10 U.S.C. 2301–2314.

§ 12–70.000 Scope of Part.

This part sets forth the policies of the Department of Transportation with respect to providing property for use by contractors in connection with procurement by the components of the Department of Transportation, prescribes responsibilities and procedures pertinent thereto, and references applicable contract clauses. This part does not apply to property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments. When lien or title is acquired solely as a result of such payments, the provisions of the partial, advance, or progress payments clauses shall apply, including any modifications to such clauses as may be contained in the contract.

Subpart 12–70.1—General

§ 12–70.101 Definitions.

As used in this part, the following terms have the meaning stated below. Additional definitions applicable to property administration are set forth in DOTPR Supplement 1—"Manual for Control of Property in Possession of Contractors."

§ 12–70.101–1 Property.

Includes all property, both real and personal. For the purpose of this part, it consists of two separate categories—material and facilities.

§ 12–70.101–2 Government property.

Means all property owned by or leased to the Government or acquired by the Government under the terms of a contract. However, the term "Government property" does not include property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments. Government property includes both Government-furnished property and contractor-acquired property as defined below:

(a) Government-furnished property is property in the possession of, or acquired directly by, the Government and subsequently delivered or otherwise made available to the contractor; and

(b) Contractor-acquired property is property procured or otherwise provided by the contractor for the performance of a contract, title to which is vested in the Government.

§ 12–70.101–3 Provide.

As used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property", means either to furnish, as in "Government-furnished property", or to acquire, as in "contractor-acquired property."

§ 12–70.101–4 Material.

Means property which may be incorporated into or attached to an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of a contract. It also includes items of a nonexpendable nature with a unit acquisition cost of less than $50, unless the Government has designated any such items to be classified as plant equipment.

§ 12–70.101–5 Non-expendable.

Means items of Government personal property which:

(a) Have a unit acquisition cost of $50.00 or more, and

(b) Have a life expectancy of one year or more, and

(c) Retain their identity when put into use, and

(d) Are not consumed in the performance of work on the contract.

§ 12–70.101–6 Plant equipment.

Means personal property of a nonexpendable nature (consisting of equipment, machine tools, test equipment, furniture, vehicles, and accessory and auxiliary items) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

§ 12–70.101–7 Facilities.

Means property (other than material) for production, maintenance, research, development, or test, including real property and rights therein, buildings, structures, improvements, and plant equipment.

§ 12–70.101–8 Nonseverable.

When related to Government facilities, means that such property cannot be removed after erection or installation without substantial loss of value or damage thereto, or to the premises where installed.

§ 12–70.101–9 Excess and residual contract inventory.

"Excess and residual contract inventory" means:

(a) Any property acquired by and in the possession of a contractor or subcontractor (including Government-furnished property) under a contract pursuant to the terms of which title is vested in the Government, and in excess of the amounts needed to complete full performance under the entire contract; and

(b) Any property which the Government is obligated to or has an option to take over under any type of contract as a result either of any changes in the specifications or plans thereunder or of the termination of such contract (or subcontract thereunder), prior to completion of the work, for the convenience or at the option of the Government.

§ 12–70.102 Use for or by contractors of test facilities owned and operated by the Government.

(a) The on-site use for or by contractors of existing Government-owned test facilities located at installations owned and operated by the Government may be authorized in connection with the performance of Government contracts only when:

(1) there is no commercial test capability adequate for the testing needs, or

(2) substantial cost savings will result from use of the Government-owned test facilities.

(b) Whenever any such use is authorized, adequate consideration comparable to commercial charges, if any, shall be obtained under any affected contract.

§ 12–70.103 Government property contract clauses.

When Government property is provided under a contract, the contract shall contain the appropriate Government Property clause as referenced in Subpart 12–70.9 of this part.

§ 12–70.104 Control of government property.

The control of Government property shall be in accordance with DOTPR Supplement 1—Manual for Control of Property in Possession of Contractors. Each contract under which Government property is provided shall incorporate this Manual by reference.

§ 12–70.105 Disposition of excess and residual contract inventory.

Excess and residual contract inventory shall be disposed of in accordance with the procedures contained in Subpart 12–70.7 of this part.

Subpart 12–70.2—Furnishing Government Material to Contractors

§ 12–70.201 Policy.

It is the general policy of the Department of Transportation that contractors will furnish all material required for the performance of Government contracts. However, the Government may furnish material to a contractor when it is determined to be in the best interest of the Government by reason of economy, standardization, the expediting of pro-

duction, or other appropriate circumstances.

§ 12–70.202 Procedure.

(a) Material to be furnished by the Government shall be set forth in the solicitation in sufficient detail to permit evaluation by prospective contractors.

(b) Where material is to be furnished by the Government, the contract shall state whether the requisitioning documentation is to be prepared by the contractor or the procuring activity. When the responsibility is placed upon the contractor, such documentation shall be prepared in accordance with the instructions provided by the procuring activity.

§ 12–70.203 Changing the amount of material to be furnished by the government.

(a) At any time after a contract has been entered into, whether as a result of formal advertising or negotiation, the contract may be bilaterally modified to provide for the furnishing of Government material or to increase the amount to be furnished, provided there is adequate consideration for such modification.

(b) When it is anticipated that substantial quantities of Government material will become available for the contract by transfer from another contract or otherwise, the contract may provide that a unilateral increase in the amount of material to be furnished by the Government may be ordered by the contracting officer, and that the contract shall be equitably adjusted therefor.

(c) Unilateral decreases in or substitutions for the material specified under a contract to be provided by the Government may be ordered by the contracting officer, subject to the equitable adjustment of the contract, in accordance with the provisions of the applicable Government Property clause(s) and other terms of the contract.

Subpart 12–70.3—Providing Government Facilities to Contractors

§ 12–70.301 Policy.

(a) It is the policy of the Department of Transportation that contractors will furnish all facilities required for the performance of Government contracts. Facilities will not be provided to a contractor, nor will competitive solicitations offer to provide such property, except as follows:

(1) For use in a Government-owned, contractor-operated plant operated on a cost-plus-fixed-fee basis; or

(2) When the Contracting Officer determines in writing that (i) the contract cannot be fulfilled by any other practical means, or (ii) it is in the public interest.

(b) New facilities will not be provided by the Government where an economical, practical and appropriate alternative exists. Examples include:

(1) Procuring from sources not requiring Government-owned facilities;

(2) Requiring the contractor to make full utilization of subcontractors possessing adequate and available capacity;

(3) Having the contractor rent facilities from commercial sources; and

(4) Using existing Government-owned facilities.

(c) Prospective contractors who propose to use Government facilities, including property offered for use in the solicitation as well as property already in possession of the contractor or his subcontractors, will be required to identify such property in their bids or proposals. Unless prior written approval has been obtained by the procurement Contracting Officer, prospective contractors who propose to use Government facilities already in possession of the contractor or his subcontractors under other contracts will be required to submit written approval for the use of such property from the contracting officer cognizant of such property.

§ 12–70.302 Providing government facilities when disposal is limited.

(a) *Nonseverable property.* Government facilities, other than foundations and similar improvements necessary for the installation of plant equipment, shall not be installed or constructed on land not owned by the Government in such fashion as to be nonseverable, unless the Head of a Procuring Activity determines in writing that such location is necessary, and:

(1) The contract under which such property is provided contains a provision for reimbursing the Government for the fair value of the property at the completion or termination of the contract or within a reasonable time thereafter (for example, in appropriate cases, such a provision may require the contractor to purchase the property at a value to be determined by appraisal, or at a price equal to its acquisition cost less depreciation at a specified rate considering its estimated useful life, or may require the contractor to reimburse the Government for its scrap or salvage value if the Head of a Procuring Activity determines that its estimated useful life will not extend beyond the expiration of the contract or the completion of the work for which the property was provided);

(2) The Government has an option to acquire the underlying land; or

(3) The contract under which such property is provided contains an alternate provision that the Head of the Procuring Activity considers to be adequate to protect the interests of the Government therein. (The authority of the Head of the Procuring Activity under this paragraph may not be delegated.)

(b) *Property Subject to Patent or Other Proprietary Rights.* If patent or other proprietary rights of a contractor may restrict the disposal of Government facilities, the condition in either subparagraph (a)(1) or (a)(3) of this section shall be satisfied before such property is provided.

§ 12–70.303 Offers to furnish government facilities.

(a) Generally, where Government facilities are offered for use in a competitive procurement, the solicitation should provide that the user will assume all costs related to making the property available, to avoid the need for separate evaluation of such costs. Where this is not feasible, or it is otherwise in the Government's interest, the Government may assume such costs provided they are included in the evaluation of bids or proposals.

(b) When a solicitation contains an offer to furnish Government facilities (including an offer to use Government property already in the possession of a prospective contractor), and when the furnishing and use of such property will result in either direct and measurable costs to the Government or direct and measurable savings to the Government, then:

(1) Such costs or savings will be set forth in the solicitation;

(2) The manner in which such costs or savings will be applied in the evaluation of bids or proposals will be set forth in the solicitation; and

(3) Such costs or savings will be considered in the evaluation of bids and proposals.

(c) Government facilities may be offered on an "as is" basis in solicitations for fixed-price type contracts, whether such property is in storage or in the possession of a contractor, provided that the property can be inspected by bidders or proposers prior to the submission of their offers. In such cases, the solicitation will state:

(1) The availability and location of the property, and the conditions under which it may be inspected;

(2) That the property will be offered in its current condition, f.o.b. present location;

(3) That bidders or proposers must satisfy themselves that the property is suitable for their use;

(4) That any costs of transporting, installing, modifying, repairing, or otherwise making the property suitable for use shall be borne by the successful bidder or proposer; and

(5) The bidders or proposers to whom the property is offered, if it is not to be offered to all.

(d) If it is not feasible to make Government facilities available to all bidders or proposers, solicitations offering to furnish such property may limit the offer accordingly.

§ 12–70.304 Changing Government facilities to be provided.

The amount of Government facilities specified under a contract to be provided may be increased by a bilateral modification of the contract. Such increases will be made only when approved in accordance with the policies prescribed in this Subpart 12–70.3 and when the Government receives adequate consideration therefor. Unilateral decreases in or substitutions for the Government property specified under a contract to be provided by the Government may be ordered by the contracting officer, subject to the equitable adjustment of the contract, in accordance with the appropriate Government property clause and other terms of the contract.

Subpart 12–70.4—Use of Government Facilities in the Possession of Contractors or Subcontractors

§ 12–70.401 Policy.

It is the policy of the Department of Transportation to put Government facilities which are in the possession of a contractor or subcontractor to the greatest possible use in the performance of Government contracts or subcontracts. Facilities over which DOT has cognizance and which are in the possession of a contractor or subcontractor will not be authorized for use except for the performance of Government contracts or subcontracts, unless other use of such property is specifically authorized by law or other DOT regulation. When a contractor is authorized to use facilities over which DOT has cognizance for the performance of Government contracts or subcontracts, no charge will be made for such use. However, the Contracting Officer having cognizance of the prime contract must determine that the Government will receive adequate consideration for the use of the property through reduced costs for the supplies or services or otherwise.

§ 12–70.402 Use of facilities under the cognizance of another department or agency.

When a DOT procurement contracting officer has obtained approval for the use by a contractor or subcontractor of Government facilities over which another department or agency has cognizance, and regulations of such department or agency require that the contractor be charged for such use, then the contract will provide for the payment of such charge. It is the responsibility of the contracting officer of the department or agency having cognizance of the property to collect for such charges.

§ 12–70.403 Use by another department or agency of facilities under the cognizance of DOT.

When a contracting officer of another department or agency requests approval for the use by a contractor or subcontractor of facilities over which DOT has cognizance, it is the responsibility of the requesting contracting officer to make any evaluations or other contractual determinations required relative to the furnishing of Government property to a contractor. When the DOT contracting officer cognizant of the property has determined that the property can be made available for the requested use, approval for such use will be granted.

Subpart 12–70.5—Property Administration

§ 12–70.501 General.

This subpart sets forth responsibilities and procedures to:

(a) Assure performance of property control to protect the interests of the Government;

(b) Assure uniformity in the administration of contract provisions relating to Government property; and

(c) Meet management data requirements of the Government.

§ 12–70.502 Responsibilities of the Contracting Officer.

The Contracting Officer is responsible for:

(a) Assuring that all contracts which provide for the use of Government property include necessary provisions relative to the use, control, and disposition of such property, including the appropriate Government Property clause and DOT PR Supplement 1—Manual for Control of Property in the Possession of Contractors;

(b) Performing, or arranging for the performance of, all actions required to effect and carry out the provisions of the contract and this part relative to Government property;

(c) Providing necessary direction to the contractor, either directly or through an authorized representative of the contracting officer, on all matters pertaining to Government property;

(d) Obtaining from the contractor all required reports and other management data; and

(e) Cooperating with and assisting the appropriate DOT accounting office in all matters pertaining to the financial accounting for Government property.

§ 12–70.503 Actions Requiring Approval of the Contracting Officer.

The actions listed below (and which are subject to other applicable provisions of this part) require the written approval of the Contracting Officer, except that the actions set forth in paragraphs (e) and (f) of this section may be approved by an authorized representative of the Contracting Officer who has been designated as such in writing. The contractor will be notified in writing when an authorized representative has been so designated. No other person will be permitted to approve these actions on behalf of the Government—

(a) Providing Government property to a contractor when providing such property has not been previously authorized in the contract.

(b) Changing the amount of Government property specified to be provided in a contract.

(c) Authorizing the use by a contractor of Government property provided under one contract for work under another contract, unless the latter contract specifically authorizes such use.

(d) Relieving a contractor of responsibility for Government property due to loss, damage, destruction, or unreasonable wear or deterioration or unjustifiable consumption in the performance of the contract.

(e) Directing the removal of Government property from the custody of a contractor, the transfer of Government property to another contract or to another contractor (but only when such transfer has been authorized pursuant to paragraph (a), (b), or (c) of this section), or the disposal of Government property.

(f) Approving a contractor's property control system.

§ 12–70.504 Assignment of responsibility for Property Administration.

The Contracting Officer may delegate to another individual the authority to administer the contract requirements and obligations relative to Government property. The individual to whom this authority is delegated will be designated in writing as the Property Administrator for the contract, and the contractor will be notified of such designation in writing. In selecting a Property Administrator, the Contracting Office will consider the qualifications of the individual in terms of training, education, and experience in property matters. When a specific individual has not been designated as Property Administrator, the Contracting Officer is the Property Administrator.

§ 12–70.505 Responsibilities of the Property Administrator.

A designated Property Administrator should be assigned the responsibilities and duties set forth below. This listing is provided for guidance and is not intended to be inclusive or exclusive. Any responsibilities of the Contracting Officer relative to Government property which are not assigned to a Property Administrator remain with the Contracting Officer—

(a) Establishing and maintaining a property control file for each contract.

(b) Evaluating and approving the contractor's property control system.

(c) Reviewing the contractor's property control system during contract performance, to the extent required by § 12–70.510.

(d) Advising the Contracting Officer as to the contractor's noncompliance with approved procedures.

(e) Resolving property administration matters with the contractor's management and with Government procurement, property, accounting, and audit personnel.

(f) Obtaining assistance in property matters from other Government personnel in such technical areas as accounting, audit, disposal, quality assurance, engineering, and pricing.

(g) Providing necessary direction to the contractor on matters pertaining to Government property, including authorization for the commingling of Government and contractor property.

(h) Assisting the servicing DOT accounting office in matters pertaining to financial accounting for Government property.

(i) Analyzing the use or consumption of Government property by the contractor to determine reasonableness of consumption and proper utilization.

(j) Preparing written determinations, for the Contracting Officer's signature, for relieving the contractor of responsibility for Government property due to loss, damage, destruction, or unreasonable wear or deterioration or unjustifiable consumption in the performance of the contract.

(k) Effecting the removal of Government property from the custody of a contractor, the transfer of Government property to another contract or to another contractor, and the disposal of Government property.

(l) Certifying to the Contracting Officer that all Government property provided under a completed or terminated contract has been properly accounted for and disposition effected.

§ 12–70.506 DOTPR Supplement 1—Manual for control of property in possession of contractors.

This manual sets forth basic requirements to be observed by contractors in establishing and maintaining control over Government property provided for performance of contracts with the Department. The manual supplements provisions of the contract that apply to Government property, but does not supersede them. The contract provisions will govern in the event of any conflict with the manual. If there is evidence that Government property will be required in performance of a contract, the Contracting Officer will reference the manual in the solicitation and make it available on request. The manual will be incorporated by reference in all contracts which provide for the use of Government property and will be issued to the contractor at time of award if not previously provided.

§ 12–70.507 Records of government property.

(a) Records of Government property established and maintained by the contractor pursuant to the terms of the contract will be designated and utilized as the official contract records. Exceptions to this policy may be authorized by the Contracting Officer for those contracts in which contract administration is retained by the procurement office involving Government property (1) furnished to a contractor for repair or servicing and return to the shipping organization or (2) furnished to a contractor for use on a Government installation. In such cases, the property will be accounted for as a suspense item within the Government property account designated by the procurement office, and the Government property clause will be appropriately modified.

(b) Maintenance of official records for DOT financial accounting purposes is the responsibility of the DOT accounting activity that provides accounting service to the procurement office responsible for the contract. The Property Administrator will ensure that the servicing accounting activity is provided copies of documents necessary to maintain financial accounting for Government property, including: (1) Government shipments, (2) notices of contractor acquisitions, (3) physical inventory reports, (4) transfers and disposals, and (5) contractors annual financial property reports as specified in DOTPR Supplement 1.

(c) Each procurement office having contracts involving Government property will maintain a consolidated and current listing of all such contracts. This listing is to be primarily used for the purpose of verifying that contractors submit the annual reports prescribed in DOTPR Supplement 1. The Property Administrator will take prompt action to obtain any delinquent reports and will assist the accounting activity as necessary in effecting reconciliation between contractor property reports and the DOT financial accounts.

(d) When contracts involving property are reported for inclusion in the DOT Contract Information System, the procurement office will ensure that input to the system includes the required property code.

§ 12–70.508 Contract property control file.

Upon award of a contract, the Property Administrator will establish a Contract Property Control File which will include as a minimum:

(a) copy of the contract or extract of provisions thereof establishing requirements for property administration (except when the Property Control File is maintained as an adjunct to the contract working file);

(b) letters designating authorized representatives of the Contracting Officer for property matters;

(c) report of initial review, evaluation, and approval of the contractors property control system;

(d) record of visits, property system examinations and analyses, and appropriate work papers;

(e) documents evidencing the furnishing of Government property;

(f) contractor's receipts for Government furnished property;

(g) contractor's notices of acquisitions of contractor purchased or fabricated Government property as prescribed in DOTPR Supplement 1;

(h) contractor's physical inventory and financial property reports as prescribed in DOTPR Supplement 1;

(i) documents evidencing the removal of Government property from the custody of the contractor, the transfer of Government property to another contract or another contractor, and the disposal of Government property;

(j) documents evidencing relief of the contractor from responsibility for Government property due to loss, damage, destruction, or unreasonable wear or deterioration or unjustifiable consumption in the performance of the contract;

(k) any other correspondence affecting the status of Government property under the contract; and

(l) statement of closure of the contract property account.

§ 12–70.509 Evaluation and approval of contractor's property control system.

(a) The choice of the methods to be used for evaluation and approval of the contractors property control system is a matter of judgment by the Property Administrator, predicated on the nature and amount of Government property involved in any particular contract. Regardless of the methods used, it is the responsibility of the Property Administrator to determine that the contractor's system will meet the requirement of DOTPR Supplement 1 and other contract requirements as appropriate.

(b) It is normal contractor practice to provide for the control of property by means of written procedures that communicate the organization's standards, techniques, and instructions to operational personnel for uniform application. However, depending on the number of contractor employees and the nature, quantity, and value of the property, a contractor may not need written procedures for effective management of Government property. In such cases, the Property Administrator, if he agrees that written procedures are not required, will evaluate the adequacy of the contractor's system on the basis of the contractor's explanation of his controls and prepare a brief description of the applicable procedures for inclusion in the Contract Property Control File.

(c) Upon completing his evaluation of the contractor's system, the Property Administrator will prepare a written summary of his findings to support approval of the system or requirement for corrective action prior to such approval. The Property Administrator will forward to the contractor a listing of any deficiencies found as a result of the evaluation. The contractor will be requested to indicate within 30 days his willingness to correct the deficiencies or to forward to the Property Administrator a statement of his position thereon.

(d) When the Property Administrator is not successful in obtaining compliance with contract requirements, he will advise the Contracting Officer. If the Contracting Officer concurs with the Property Administrator, he will advise the contractor in writing of the changes or additions required in his property control system and will establish a schedule for accomplishment of the corrective actions. The contractor will be informed that approval of his property control sysem will be withheld (or withdrawn if previously approved) unless corrective action is accomplished within the specified period. Such notice will also advise the contractor that in the event approval of his property control system is withheld (or withdrawn if previously approved) his liability for loss or damage may be increased. If the contractor fails to make satisfactory progress for correction of the deficiencies in accordance with the schedule, the Contracting Officer will advise him in writing, with a copy to the Property Administrator, that approval of his property control system is, as the case may be, withheld or withdrawn.

(e) When the contractor's property control system is acceptable, the Property Administrator will so advise the contractor in writing. When the contract involves Government property at subcontractor plants or prime contractor secondary locations, and the controls for the property at such locations have been determined to be adequate, the approval will be expanded to include the procedures governing Government property at such locations.

§ 12–70.510 Review of Contractor's Property Control System During Contract Performance.

(a) While the contractor has an incurred obligation to comply, it is incumbent upon the Government to ensure that the contractor does in fact comply with the property control requirements of the contract. The preferred method for carrying out this responsibility is the periodic conduct by the Government of system reviews at the contractor's premises. The need for and frequency of such reviews should be based on case-by-case determinations, considering the particular circumstances relative to a given contract or contractor. When the Property Administrator feels that a system review is necessary, then he must arrange for the conduct of such a review by an appropriate means.

(b) Notwithstanding the requirements of paragraph (a) of this section, it is the continuing responsibility of the Property Administrator to be alert to any indications that the contractor's property control system may be deficient. Examples of such indications are as follows:

(1) Failure of the contractor to acknowledge receipt of Government furnished property;

(2) Failure of the contractor to provide notices of contractor acquisitions of Government property when the contract provides for such acquisition;

(3) Failure of the contractor to submit the annual physical inventory and financial property reports specified in DOTPR Supplement 1;

(4) Discrepancies in contractor's records and weaknesses in control as reflected by the contractor's physical inventory reports;

(5) Contractor's financial property reports do not reconcile with DOT financial control accounts;

(6) Analysis of contractor's costs indicates consumption of material in excess of that considered reasonable;

(7) Inability of the contractor to furnish property listings when requested to do so; or

(8) Analysis of contractor's request for relief of responsibility due to loss or damage indicates inadequate control.

(c) When the Property Administrator has reason to believe that the contractor's property control system is deficient or inadequate, the Property Administrator must take prompt action to obtain correction of such problems. In some cases, discussions with the contractor may suffice. In other cases, it may be necessary to arrange for an on-site system review as discussed in paragraph (a) of this section. Another alternative is to request the conduct of an audit by the appropriate Government contract audit activity. If the situation demands, the procedures set forth in § 12–70.509(d) of this part will be applied.

(d) Records and accounts of Government property will be audited by the Government as frequently as conditions warrant or as may be specifically requested by the Contracting Officer. Audits may take place at any time during the performance of the contract, upon completion or termination of the contract, or at any time thereafter. Audits will include records maintained by the contractor and Government-maintained records for the property involved. Government personnel and the contractor are required to make all property records, including correspondence related thereto, available to the auditors.

Subpart 12–70.6—Vesting of Title to Equipment Under Research Contracts

§ 12–70.601 General.

(a) In accordance with the provisions of 42 U.S.C. 1892, DOT is authorized to transfer title to equipment acquired with research contract funds to nonprofit institutions of higher education and to other nonprofit organizations whose primary purpose is the conduct of scientific research. This statutory authority must be implemented by express provision in the Special Provisions of contracts with eligible contractors, permitting the Contracting Officer to transfer to the contractor title to equipment acquired with research contract funds at any time during the term of the contract or upon its completion or termination. The contract will reserve the right to require the contractor to transfer title to equipment costing $1,000 or more per unit to the Government or to a third party named by the Government, where the third party is eligible under existing statutes. The reservation will provide that the right may be exercised at any time prior to final payment under the contract.

(b) Title to equipment not acquired with research contract funds will not be transferred but will remain vested in the Government.

§ 12–70.602 Conditions of transfer.

In research contracts with eligible institutions and organizations, the Contracting Officer may, upon his own initiative or upon the request of the contractor, transfer title to equipment at any time during the term of the contract or upon its completion or termination. All transfers of title must be based upon a written determination by the Contracting Officer that transfer with respect to the specific items of equipment is consistent with the best interests of the Department. Until such time as title has been transferred, the property will be administered and controlled as "Government property" in accordance with this part and DOTPR Supplement 1. Upon transfer, such equipment ceases to be "Government property"; however, the transfer of title will be subject to the terms and conditions of the contract and the requirements described in DOTPR Supplement 1.

§ 12–70.603 Contracts performed at government installations.

Notwithstanding the provisions of § 12–70.602 of this part, when the contractor is performing at a Government installation and there will be a continuing need for the equipment at that location following completion of the contract, title to such equipment will not be vested in or transferred to the contractor.

Subpart 12–70.7—Disposition of Excess and Residual Contract Inventory

§ 12–70.701 General.

(a) Disposition of excess and residual contract inventory (hereinafter referred to as "contract inventory") must be accomplished in a timely manner and in accordance with statutory and regulatory requirements. Regulations governing the disposition of contract inventory are:

(1) Federal Procurement Regulations (FPR), Part 1–8;

(2) Federal Property Management Regulations (FPMR), Parts 101–43 through 101–45;

(3) DOT Procurement Regulations (DOTPR); and

(4) Other DOT regulations as referenced herein.

All actions taken by Contracting Officers with respect to disposition of contract inventory must be in strict conformance with the above cited regulations.

(b) Contracting Officers will issue disposition instructions expeditiously upon receipt of acceptable contract inventory reports. Contracts involving Government property cannot be closed out until all residual property has been accounted for and/or disposed of and the Government property file of the contract specifically noted to that effect.

(c) The disposal of nonseverable property will be governed by the provisions set forth in DOTPR § 12–70.302.

§ 12–70.702 Application of FPR, FPMR and other DOT regulations.

(a) FPR Subpart 1–8.5 sets forth policies and procedures for the disposition of termination inventory and may also be used for the disposition of contract inventory generally. Pursuant to the authority contained in FPR 1–8.000, FPR Subpart 1–8.5 will be utilized by the Department for the disposition of contract inventory generally.

(b) FPR Subpart 1–8.5 incorporates by reference various requirements and procedures of the FPMR pertaining to disposition of Government property, some of which are optional in nature insofar as contract inventory is concerned. However, it is the policy of the Department, with respect to paragraphs (e) through (h) of § 12–70.704 to effect disposition of contract inventory in accordance with the same requirements and procedures set forth in the FPMR for disposition of other Government excess or surplus property.

(c) The reporting and screening of contract inventory for possible redistribution within DOT will be accomplished in the same manner, and to the same extent, as required for other types of excess property. Procedures applicable to such reporting and screening will be

prescribed in issuances published under the Department's internal management directives system.

§ 12–70.703 Reports of contract inventory.

Requirements and procedures for the submission of contract inventory reports by contractors are set forth in DOTPR Supplement 1. Procedures applicable to the processing of such reports by Contracting Officers are set forth in FPR Subpart 1–8.5.

§ 12–70.704 Disposition methods and priorities.

Subject to the Government exercising its rights to require delivery of any items of contract inventory to satisfy known Government requirements, contract inventory will be disposed of by the following methods in the priority indicated:

(a) Purchase or retention of contractor acquired property at cost by prime contractor or subcontractors (see FPR Subpart 1–8.5);

(b) Return of contractor acquired property to suppliers (see FPR Subpart 1–8.5);

(c) Reassignment within the procuring activity (see § 12–70.702(c));

(d) Redistribution within DOT (see § 12–70.702(c);

(e) Utilization by other Government agencies (see FPMR Parts 101–32 and 101–43);

(f) Donation to eligible donees (see FPMR Part 101–44);

(g) Sale—including purchase at less than cost by prime or subcontractor (see FPMR Part 101–45);

(h) Abandonment or destruction (see FPMR Part 101–45).

Subpart 12–70.8—Contract Closure

§ 12–70.801 Actions by the property administrator.

(a) Upon completion or termination of a contract, the Property Administrator must monitor the actions of the contractor and the Government with respect to the return, transfer, or other disposition of Government property. Prior to closing of the contract, the Property Administrator will determine that:

(1) All Government property provided under the contract has been properly accounted for;

(2) Disposition of Government property has been properly accomplished and documented;

(3) Adjustment documents, including request of the contractor for relief from responsibility, have been processed to completion;

(4) Proceeds from disposals or other property transactions, including adjustments, have been properly credited to the contract or paid to the Government as directed by the Contracting Officer;

(5) All questions as to title to property fabricated or acquired under the contract have been resolved and appropriately documented; and

(6) The Contract Property Control File is complete and ready for retirement.

(b) Upon completion of the above actions, the Contract Property Control File will be annotated accordingly and retired with the contract file.

Subpart 12–70.9—Contract Clauses, Government Property

§ 12–70.901 Contract clauses.

Contract clauses and guidance as to their use in specific types of contracts may be found in the following sections:

(a) 12–7.151–2 Fixed Price Supply Contracts,

(b) 12–7.5002–16 Cost Reimbursement Type Supply Contracts,

(c) 12–7.5102–2 Fixed Price Research and Development Contracts,

(d) 12–7.5202–15 Cost Reimbursement Type Research and Development Contracts,

(e) 12–7.650–7 Fixed Price Construction Contracts.

(f) 12–7.5002–16 Cost Reimbursement Type Construction Contracts,

(g) 12–7.5601–9 Fixed Price Vessel Repair, Alteration or Conversion Contracts.

Exhibit A—Property Condition Codes

Part 1—Introduction

S1–100 *General.*

(a) This Manual sets forth the basic requirements to be followed by contractors in establishing and maintaining control over Government property provided pursuant to the terms of contracts with the Department of Transportation. To to extent of any inconsistency between this Manual and the terms of the contract under which the Government property is provided the terms of the contract will govern. The contractor shall be directly responsible for and accountable for all Government property in accordance with the provisions of the contract, including property provided under such contract which may be in the possession or control of a subcontractor.

(b) Pursuant to the terms of a contract, the Government may acquire a lien or title to property upon the making of partial, advance, or progress payments to the contractor. Property to which the Government has acquired a lien or title solely as a result of such payments will not be subject to the provisions of this Manual. When lien or title is acquired solely as a result of such payments, the provisions of the partial, advance, or progress payments clauses will apply, including any modifications to such clauses as may be contained in the contract.

(c) The contractor shall establish and maintain a system (in accordance with the provisions of this Manual) to control, protect, preserve, and maintain all Government property. This system shall be reviewed and, if satisfactory, approved in writing by the assigned Property Administrator. The contractor shall maintain and make available such records as are required by Part 3 of this Manual and must account for all Government property until relieved of responsibility therefor in accordance with Part 2 of this Manual. Liability for loss, damage, or excessive use of property in a given instance will necessarily depend upon all the circumstances surrounding the particular case and must be considered and determined in accordance with the provisions of the contract. The contractor shall furnish all necessary data to substantiate any request for discharge from responsibility.

(d) The contractor shall require any of his subcontractors who are provided Government property under the prime contract to comply with the provisions of this Manual. Procedures for assuring subcontractor compliance shall be included in the contractor's approved property control system.

(e) In the event any portion of the contractor's property control system is found to be inadequate upon review by the Property Administrator, any necessary corrective action shall be accomplished by the contractor prior to approval of the system.

(f) When Government property is disclosed to be in the possession or control of the contractor but not provided in accordance with the provisions of any contract, the contractor shall, as promptly as possible, (1) record such property according to the established property control procedure, and (2) furnish the Property Administrator with all known circumstances and factual data pertaining to its receipt and a statement as to whether there is a need for retention of such property.

(g) The Contractor shall report to the Property Administrator all Government property in excess of the amounts needed to complete full performance under the contract pursuant to which it was provided, or other existing contracts which authorize the use of such property, within 30 days after disclosure of the condition.

S1–101 *Definitions.*

As used in the Manual: (a) "Accessory item" means an item which facilitates or enhances the operation of equipment but which is not essential for its operation, such as remote control devices.

(b) "Auxiliary item" means an item without which the basic unit of equipment cannot operate, such as motors for pumps and machine tools.

(c) "Capital property" means real property and capitalized equipment.

(d) "Capitalized equipment" means personal property of a nonexpendable nature having a unit acquisition cost of $200 or more.

(e) "Custodial records" means written memoranda or identifying checks of any description or type used to control items issued from tool cribs, tool rooms, stockrooms, etc., such as requisitions, issue hand receipts, tool checks, stock record books, etc.

(f) "Discrepancies incident to shipment" means all deficiencies incident to shipment of Government property to or from a contractor's facility whereby differences exist between the property purported to have been shipped and the property actually received. Such deficiencies include, but are not limited to, loss, damage, destruction, improper status and condition coding, error in identity or classification, and improper consignment.

(g) "Educational or other nonprofit organization" means any corporation, foundation, trust, or other institution operated for scientific or educational purposes, not organized for profit, not any part of the net earnings of which inures to the profit of any private shareholder or individual.

(h) "Government property" means all property, both real and personal, owned by or leased to the Government or acquired by the Government under the terms of a contract. However, the term "Government property" does not include property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments. Government property includes both Government-furnished property and contractor-acquired property as defined below:

(1) Government-furnished property is property in the possession of, or acquired directly by, the Government and subsequently delivered or otherwise made available to the contractor.

(2) Contractor-acquired property is property procured or otherwise provided by the contractor for the performance of a contract, title to which is vested in the Government.

(i) "Individual item record" means a separate card for or document utilized to account for one item of property.

(j) "Material" means property which may be incorporated into or attached to an end item to be delivered under a contract or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use in the performance of a contract. It also includes items of a nonexpendable nature with a unit acquisition cost of less than $50, unless the Government has designated any such items to be classified as noncapitalized equipment.

(k) "Noncapitalized equipment" means personal property of a nonexpendable nature having a unit acquisition cost of $50 or more but less than $200, and other items of personal property regardless of cost when so designated by the Government.

(l) "Nonexpendable" means items of Government personal property which:

(1) Have a unit acquisition cost of $50.00 or more;

(2) Have a life expectancy of one year or more;

(3) Retain their identity when put into use; and

(4) Are not consumed in the performance of work on the contract.

(m) "Property account" means the official records of the Government property provided to a contractor which are established and maintained under the provisions of this Manual. Separate property accounts will be maintained on an individual contract basis.

(n) "Property Administrator" means the individual designated, in writing, by appropriate authority to administer the contract requirements and obligations relative to Government property. He is an authorized representative of the Contracting Officer. When a specific individual has not been designated as Property Administrator, the Contracting Officer is the Property Administrator.

(o) "Provide" as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property," means either to furnish, as in "Government-furnished property," or to acquire, as in "contractor-acquired property."

(p) "Real property" for purposes of accounting classification means:

(1) Land and rights therein;

(2) Ground improvements;

(3) Utility distribution systems;

(4) Buildings; and

(5) Structures.

(q) "Salvage" means property which because of its worn, damaged, deteriorated or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations, but which has some value in excess of its scrap value.

(r) "Scrap" means property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

(s) "Stock record" means a perpetual inventory form of record which shows, by nomenclature, the quantities received and issued and the balances on hand.

(t) "Utility distribution system" means a system (including distribution and transmission lines, substations, and installed equipment forming an integral part of the system), by which gas, water, steam, electricity, sewage, or other utility services are transmitted between:

(1) Outside of the building or structure in which the services are used, and

(2) The point of origin or disposal, or the connection with some other system.

S1–102 *Segregation or Commingling of Government Property and Contractor's Property.*

Ordinarily, Government property, particularly material, should be segregated and kept physically separate from contractor-owned property at all times. However, when advantageous to the Government and consistent with the contractor's authority to use such property, the property may be commingled;

(1) When the Government property is clearly identified and recorded as Government property; or

(2) When scrap of a uniform nature is produced from both Government-owned and contractor-owned materials and physical segregation is impracticable, or when scrap produced from Government-owned materials is insignificant in consideration of the cost of segregation and control; or

(3) When otherwise approved by the Property Administrator.

S1–103 *Written Property Control Procedures.*

It is normal contractor practice to provide for the control of property by means of written procedures that communicate the organization's standards, techniques, and instructions to operational personnel for uniform application. However, depending on the number of contractor employees and the nature, quantity, and value of the property, a contractor may not have a need for written procedures for effective management of Government property. Immediately after the award of an initial contract involving property, the contractor shall forward to the Property Administrator the name, title, address, and telephone number of the contractor's representative to contact for review and discussion of the proposed property control system. If the Property Administrator determines that written property control procedures are not required, the contractor will be so advised.

S1–104 *Audit of Property Control System and Accounts.*

The contractor's Government property control system and accounts will be audited by the Government as frequently as conditions warrant. Audits may take place at any time during the performance of the contract, upon completion or termination of the contract, or at any time thereafter, during the period the contractor is required to retain such records. The contractor shall make all such records, including correspondence related thereto, available to the auditors.

Part 2—Contractor's Responsibility

S1–200 *General.*

This part covers to the extent not otherwise provided in the contract: (1) The duties and responsibilities of the contractor with respect to Government property; (2) the obligations of the contractor with respect to the control of Government property, both physically and administratively; and (3) the liability of the contractor for Government property lost, damaged, or destroyed, or for which the contractor is otherwise unable to account.

S1–201 *Assumption of Responsibility.*

A contractor is responsible for all Government property in his possession or control in accordance with the terms of the contract, including property provided under such contract which may be in the possession or control of a subcontractor. Sources from which Government property may be furnished or acquired are as follows:

(a) *Shipments from Government Activities or Other Sources.* Government property may be shipped to a contractor from agencies of DOT, other Government activities, other contractors, or suppliers. For the purpose of this Manual, the contractor becomes responsible for such property upon delivery of the property into his custody or control. The Government will furnish the contractor with copies of documents necessary to permit the contractor's property records to accurately reflect the transaction.

(b) *Direct Purchase by the Contractor.* For purposes of property control within the scope of this Manual, it will be considered that property purchased by the contractor, for which reimbursement is to be requested, becomes Government property upon its receipt by the contractor. However, this provision will not be deemed to alter or modify contractual provisions relating to passage of title. Direct purchases will be subject to a determination by the contracting officer that the items are allocable to the contract involved and are reasonably necessary therefor.

(c) *Withdrawal from Contractor-Owned Stores.* For purposes of property control, within the scope of this Manual, property withdrawn from contractor-owned stores, for direct charge to the contract, will be considered Government property at the time of approval of the claim for reimbursement, or at the time of issuance for use of such property for the performance of the contract, whichever is earlier.

(d) *Contract Provisions, Termination, Contract Changes.* Pursuant to specific contractual provisions or as a result of termination of a contract, or change orders issued under a contract, the Government may acquire title to property. For purposes of property control, such property will, unless otherwise provided by the contract, be considered Government property upon acceptance of title by the Government.

S1–202 *Evidence of Receipts of Government Property.*

Immediately upon receipt of any Government-furnished property the contractor shall sign and return the Government transfer document to the Property Administrator. For contractor-acquired capital property, the contractor shall submit reports in accordance with S1–203 of this Manual.

S1–203 *Report of Property Purchased or Fabricated.*

As a condition to reimbursement of costs incurred in the purchase or fabrication of capital property, the contractor shall submit itemized reports of such purchases or fabrications. Each item shall be adequately described, including unit cost. Reports shall be provided by the contractor not later than the time he submits his application for payment (public voucher) for the property. Upon request of the Government, the contractor shall submit supporting data for any material cost or noncapitalized equipment included in the voucher.

S1–204 *Discrepancies Incident to Shipment.*

(a) *Government - Furnished Property.* When overages, shortages, or damages are discovered upon receipt of Government-furnished property, the contractor shall provide a statement of the condition and the apparent causes to the Property Administrator. When the quantity or description of property received by a contractor differs from the quantity or description denoted as shipped on the Government transfer document, only that quantity, or property, actually received shall be recorded on the official records of the contractor.

(b) *Contractor - Acquired Property.* The contractor shall take all actions necessary to adjust shortages, overages, or damages in shipment of contractor-acquired property from a vendor or supplier except in those instances where the shipment has moved via Government bill of lading and carrier liability is indicated. In the latter event, the contractor shall report the instance in accordance with paragraph (a) of this section.

S1–205 *Relief from Responsibility.*

Subject to specific instructions of the Contracting Officer, and unless otherwise provided for in the contract, the contractor will be relieved of his property control responsibility for Government property by the following:

(1) *Consumption of Property in the Performance of the Contract.* To the extent that the Property Administrator determines that property has been consumed or expended for proper purpose and in reasonable amounts in the performance of the contract;

(2) *Shipment of Government Property from a Contractor's Facility.* When Government property is shipped from the contractor's facility (except when shipment is to a subcontractor or other location of the contractor) pursuant to the instructions of the Contracting Officer or the Property Administrator;

(3) *Retention by the Contractor.* When the contractor retains, with Contracting Officer approval, Government property for which the Government has received consideration;

(4) *Sale of Property.* For Government property sold pursuant to instructions of the Contracting Officer or the Property Administrator, provided that proceeds from such sale have been received by or credited to the Government;

(5) *Determination by the Contracting Officer.* For Government property which is lost, damaged, destroyed, or consumed in excess of that normally anticipated in a manufacturing, processing, or research operation, and for which the Contracting Officer has determined the extent of liability, if any, of the contractor; *Provided*, That:

(i) Such determination is furnished to the contractor in writing;

(ii) The Government has been reimbursed where required by the determination; and

(iii) Proper disposition of property rendered unserviceable by damage has been accomplished, and appropriate cross-reference is recorded on the determination as to the shipping documents or other documents evidencing disposal; and

(6) *Transfer of Title.* When title to equipment has been transferred to the contractor in accordance with 42 U.S.C. 1892 and thereby ceases to be Government property. However, certain obligations attach to contractor-owned property acquired with contract funds as set forth in Part 7 of this Manual.

S1–206 *Contractor's Liability.*

(a) *Property Discrepancies.* Subject to the terms of the contract, the contractor may be liable when shortages of Government property are disclosed or when Government property is lost, damaged, or destroyed or when there is evidence of unreasonable wear or deterioration or unjustifiable consumption in the performance of the contract.

(b) *Report Requirements.* The contractor shall report all cases of loss, damage, or destruction of Government property in his possession or control to the Property Administrator as soon as such facts become known or when requested by the Property Administrator. The report shall contain all factual data as to the circumstances surrounding such loss, damage, or destruction. A similar report shall be furnished when completed products or end items are lost, damaged, or destroyed while such property is in the possession or control of the contractor. Any loss that may be due to theft must be reported immediately to the local police and the nearest field office of the Federal Bureau of Investigation by the contractor or subcontractor.

(c) *Subcontractor's Liability.* The contractor shall require any of his subcontractors having Government property in their possession or control, which is accountable under the contract, to report to him all instances of loss, damage, or destruction of such Government property. Further procedures shall be in accordance with that prescribed in paragraphs (a) and (b) of this section.

Part 3—Records of Government Property

S1–300 *General.*

This part establishes minimum requirements for records to be established and maintained by the contractor for Government property in his possession or control.

(a) *Policy.* It is the Government's policy to rely upon contractor property control records and to designate and use such records as the official contract records unless an exception has been authorized due to special circumstances. The contractor shall establish and maintain adequate control records, either manual or mechanized, in accordance with the requirements of this Manual for all Government property provided under a contract, including property provided under such contract as may be in the possession or control of a subcontractor. When the subcontractor has a property control system approved by the Government for Government property provided under the subcontractor's own prime contracts, the contractor will utilize records created and maintained in accordance with such approved system unless otherwise directed by the Property Administrator.

(b) *Financial Control System.* The contractor's property control system shall provide financial accounts for Government property (capital and noncapital) in the contractor's possession or control, as prescribed in S1–309(a) of this Manual. The system shall be subject to internal control standards and be supported by property records in the manner described in this Part 3.

(c) *Property Records.* The official records shall be kept in such condition that at any stage of completion of the work under a contract the status of Government property can be readily ascertained.

(1) Separate property records for each contract shall be maintained. Contractors shall furnish the Property Administrator with the name and title of the individual who will have cognizance over all Government property in the contractor's possession and who will be responsible for maintenance of property records.

(2) Property records of the same type which would have been established for components if acquired separately shall be established for such usable components which are permanently removed from items of Government property, as a result of modification, or otherwise.

(3) The contractor's property control system shall contain an adequate locator system or techniques to permit the location of any item of Government property within a reasonable period of time after request therefor.

S1–301 *Pricing.*

Except as provided in paragraph (a) of this section, the contractor's property control system shall contain the unit acquisition price for each item of Government property recorded therein. It is a recognized practice of many contractors to record the unit acquisition price of property on other than the quantitative inventory record, thus requiring the use of supplementary records to ascertain unit prices. Under such circumstances, the supplementary records containing such information shall be identified and recognized as a portion of the official property records.

(a) *Contractor-Acquired and Contractor-Fabricated Property.* The unit acquisition price of contractor-acquired and contractor-fabricated property shall be determined in accordance with the system established by the contractor in conformance with generally accepted accounting principles and consistently applied. Generally, it is desired that separate unit prices be applied to work-in-process items fabricated or acquired by the contractor. However, if the contractor's accounting system is acceptable and if the maintenance of detailed cost records results in excessive accounting cost or is otherwise impracticable considering all circumstances, group pricing may be used for work-in-process inventory. Processed material, fabricated parts, components, assemblies, etc., charged to the contractor's work-in-process inventory, including items in temporary storage while awaiting processing, may be considered as work-in-process for the purpose of compliance with this requirement. Nothing in the foregoing lessens the requirement for quantitative property controls for work-in-process necessary for the proper protection of the Government's interest.

(b) *Government-Furnished Property.* The unit acquisition price of Government-furnished property will be determined by the Government and furnished to the contractor. Transportation and installation costs will not be considered as part of the unit price for this purpose. Normally, the unit price of Government-furnished property will be provided on the transfer document covering shipment of the property to the contractor. In the event the unit price is not provided on the document, action will be taken through the Property Administrator to obtain the information.

S1–302 *Records of Material.*

All Government material furnished to the contractor, as well as other material to which title has passed to the Government by reason of allocation from contractor-owned stores or purchase by the contractor for direct charge to a Government contract or otherwise, shall be recorded in accordance with the contractor's property control system, as follows:

(a) *Material Issued Directly Upon Receipt.* (1) Fixed-Price Contracts. In the case of Government-furnished material which is issued directly by the contractor upon receipt so as to be considered consumed under the contract, the documents evidencing receipt and issue maintained by the contractor will be accepted as property control records.

(2) Cost-Type Contracts. For material, whether Government-furnished or contractor-acquired, issued by the contractor directly so as to be considered consumed under the contract, the Government invoices, contractor's purchase documents, or other documentary evidence of acquisition and issue will be accepted as adequate property records.

(b) *Material Maintained in Stocks.* For material maintained by the contractor in stocks or stores, the contractor's property control system shall be such as to provide the following information:

(1) Contract number or equivalent code designation;

(2) Nomenclature or description of item (including National Stock Number when available);

(3) Quantity received;

(4) Quantity issued;

(5) Balance on hand;

(6) Posting reference;

(7) Date received or issued;

(8) Unit price; and

(9) Disposition action taken.

(c) *Consolidated Stock Record.* When a contractor has more than one Government contract under which Government material is provided, a consolidated record for material may be authorized by the Property Administrator; *Provided*, The total quantity of any item is allocated to each contract by contract number and each requisition of material from contractor-owned stores is charged to the contract on which the material is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

(d) *Custodial Records.* Custodial records shall be maintained for sensitive items, tool crib items, guard force items, protective clothing, and other items for the use of individuals in the performance of their work under the contract.

S1–303 *Records of Noncapitalized Equipment.*

Except where individual item records are necessary for effective control, calibration, or maintenance, summary stock records may be maintained for noncapitalized equipment. The contractor's property control system shall be such as to provide the following minimum information:

(1) Contract number or equivalent code designation;

(2) Noun name of the item;

(3) Manufacturer and model/part number (including National Stock Number when available);

(4) Quantity received;

(5) Balance on hand;

(6) Posting reference and date of transaction;

(7) Unit price;

(8) Location; and

(9) Disposition.

In addition, where appropriate as determined by the Property Administrator, the serial number and/or Government identification number for each item shall be recorded in a permanent manner in the property records and, upon disposition, lined out or otherwise deleted from the record.

S1–304 *Records of Capitalized Equipment.*

(a) *Item Records.* The contractor shall maintain individual item records (manual or mechanized) of each item of Government-owned capitalized equipment which will provide the following minimum information:

(1) Name of the equipment manufacturer;

(2) Manufacturer's model/part number (including National Stock Number when available);

(3) Serial number and year built (when available);

(4) Government identification/tag number;

(5) Noun name of the item;

(6) Acquisition document reference and date;

(7) Location;

(8) Disposition document reference and date;

(9) Contract number or equivalent code designation; and

(10) Unit price. (Unit price will be reduced when accessory and auxiliary items are permanently separated from the basic item of capitalized equipment.)

(b) *Record of Accessory and Auxiliary Equipment.* Accessory and auxiliary equipment which is attached to or otherwise a part of an item of capitalized equipment or has been acquired for use in connection with a specific item shall be recorded on the record of the item of capitalized equipment. In the event the accessory or auxiliary item is not attached to, a part of, or acquired for use with a specific item of capitalized equipment, it shall be recorded as indicated in S1–303 or S1–304(a) of this Manual.

S1–305 *Records of Real Property.*

The contractor shall maintain a continuous itemized record of the description, location, acquisition cost, and disposition of all Government real property including unimproved real property, all alterations, and all construction, whether acquired by purchase, lease, or otherwise. The foregoing records shall be complete, show the original cost of the property and improvements and the cost of changes and additions thereto, and be appropriately classified as indicated in S1–101 (f) of this Manual.

S1–306 *Records of Scrap and Salvage.*

Unless the Property Administrator has determined that such records are not necessary, the contractor shall maintain records of all scrap and salvage generated.

(a) *Records of Scrap.* The contractor's property control system shall be such as to provide the following minimum information:

(1) Contract number, if practicable, or equivalent code designation;

(2) Scrap classification (material content);

(3) Quantity on hand;

(4) Unit of measure;

(5) Posting reference and date of transaction; and

(6) Disposition.

(b) *Records of Salvage.* The contractor's property control system shall be such as to provide the following minimum information:

(1) Contract number, if practicable, or equivalent code designation;

(2) Nomenclature or description of item (including National Stock Number, if available);

(3) Quantity on hand;

(4) Posting reference and date of transaction; and

(5) Disposition.

S1–307 *Records of Related Data and Information.*

The contractor shall maintain property control and accountability in accordance with sound business practice with respect to manufacturing or assembly drawings, installations, operation, repair, or maintenance instructions, or other similar data and information provided to the contractor by the Government. Other requirements set forth in this Manual are not applicable to such property unless specified in the contract or required by the Property Administrator.

S1–308 *Records of Completed Products.*

The contractor shall maintain a record of all completed products produced under the contract as follows:

(a) When there is not any lapse of time between Government inspection and acceptance of the completed products and shipment from the contractor's facility, the records shall, as a minimum, consist of a summary of quantities accepted or shipped. When end items are accepted by the Government and stored with the contractor awaiting shipment, the record shall identify quantities stored, location, and disposition action.

(b) On contracts which provide that completed products are to be retained by the contractor for further use under the contract, or other contracts, such items shall be considered Government-furnished property upon acceptance and shall be recorded as prescribed in this part.

(c) When completed products are returned to a contractor under the terms of a warranty clause, the contractor shall, as a minimum, maintain a record by contract setting forth a description of the items involved, quantities received and returned to the Government, and such other pertinent data as may be required to permit determination that a proper accounting for all property has been made.

S1–309 *Financial Control Accounts and Reports.*

(a) *Control System.* The contractor's property control system shall be such as to provide at any time for each contract the dollar amount of Government property for which he is accountable in the following classifications:

(1) Real property;
(2) Capitalized equipment;
(3) Noncapitalized equipment; and
(4) Material maintained in stocks.

The contractor's accounts shall be susceptible to reconciliation in totals and subtotals as to whether contractor-acquired or Government-furnished.

(b) *Financial Property Reports.* The contractor shall prepare a report as of July 31 each year, for each contract, showing the dollar amount of Government real property and capitalized equipment in the possession of the contractor and his subcontractors. Reports shall be prepared in the format shown below and shall be furnished to the Property Administrator not later than September 15 each year. Subcontract reports shall be consolidated with prime contract reports. The contractor shall certify that the reports have been reconciled and are in balance with the contract property records. If specifically requested by the Property Administrator, the contractor shall submit similar reports for Government noncapitalized equipment and material maintained in stocks.

	Real property	Capitalized equipment	Total
Balance beginning of period			
Acquisitions during period:			
Government furnished			
Contractor acquired			
Dispositions during period:			
Government furnished			
Contractor acquired			
Balance end of period			

Part 4—Identification

S1–400 *General.*

This part establishes minimum requirements for the identification and marking of Government property in the possession or control of the contractor. The contractor shall identify and record all Government property promptly upon receipt, except as may be exempted by this part, and it shall remain so identified. Assigned Government property identification numbers shall be recorded on all applicable receiving documents, shipping documents, disposal documents, and any other documents pertaining to the property control system. Such markings shall be removed or obliterated from the property involved when Government ownership is terminated.

S1–401 *Material and Noncapitalized Equipment.*

All Government material and noncapitalized equipment shall be identified as Government property except in those cases where:

(1) Material or noncapitalized equipment of the same type at the same location is not owned by the contractor, his employees, or other contracting agencies;

(2) Adequate physical control is maintained over sensitive items, tool crib items, guard force items, protective clothing, and other items issued for use by individuals in the performance of their work under the contract;

(3) Property is of bulk type or by its size or general nature of packing or handling precludes adequate markings; or

(4) The property is segregated and kept physically separate from contractor-owned property at all times.

S1–402 *Capitalized Equipment.*

(a) *Equipment Identification.* Unless already marked in compliance with these instructions, all Government capitalized equipment shall be marked by the contractor with a Government identification number except: when the size or nature of the equipment makes it impracticable, or the equipment is accessory or auxiliary and attached to or otherwise a part of an item of capitalized equipment and is required for its normal operations, in which case such item shall be entered and described on the record of the equipment to which it is attached or of which it is otherwise a part. Identification shall be effected by affixing a numbered decal direct to the equipment, or, when practicality dictates, by using indelible ink, acid, or electric etch, steel dies, or any other legible, permanent, conspicuous, and tamper proof method which will identify the equipment with the Government number assigned.

(b) *Position of Markings or Identification.* Identification shall be affixed on the main body of the item, not on a removable part. For practical purposes, identification should be placed where it is conspicuous and readily visible without requiring the item to be moved and where it will not interfere with the functioning, especially if it is a sensitive instrument. If the manufacturer's identification plate or label is in a readily accessible position, a position immediately above or below it is preferable to any other.

S1–500 *General.*

This part establishes minimum requirements for the physical inventory of Government property in the possession or control of the contractor.

S1–501 *Annual Inventories.*

The contractor shall perform an annual physical inventory of the following categories of Government property in his possession or control and shall require such inventories of any subcontractors that are in possession of Government property provided under the contract: (1) Capital property; (2) noncapitalized equipment; and (3) material maintained in stocks. The contractor's procedures for the performance of annual physical inventories constitute a necessary part of the contractor's property control system. For the purposes of this Manual, inventory consists of sighting, tagging or marking, describing, recording, and reporting the property involved, and reconciling the inventory results with the property records.

S1–502 *Reporting Results of Annual Inventories.*

The contractor shall promptly submit to the Property Administrator information as follows:

(1) A list on both a quantitative and monetary basis of all discrepancies disclosed by the inventory in each category of Government property;

(2) A signed statement that physical inventory of Government property under the contract was completed on a specified date and that the contractor's official property records were found to be in agreement with the physical inventory except for the discrepancies noted; and

(3) If specifically requested by the Property Administrator, a list of all items of capital property.

S1–503 *Inventories Upon Termination or Completion.*

Immediately upon termination or completion of a contract, the contractor shall perform a physical inventory adequate for disposal purposes of all Government property applicable to the terminated or completed contract. Further, the contractor shall cause each subcontractor to perform a physical inventory adequate for disposal purposes of all Government property in the subcontractor's possession or control which is applicable to the terminated or completed contract. Within 30 days after the contract's completion or termination, unless the Contracting Officer specifically approves an extension of time, the prime contractor shall submit a final inventory of Government property (including subcontractor property) in the form and detail as prescribed below:

(a) *Form.* Separate reports are required for Government-furnished property and for contractor-acquired property and for each of the following property categories:

(1) Real Property;
(2) Capitalized Equipment;
(3) Noncapitalized Equipment;
(4) Materials;
(5) Salvage; and
(6) Scrap.

(b) *Details Required.* Each item of capital property must be completely identified with sufficient detail to permit verification by reference to the covering reimbursement voucher or (if furnished by the Government) shipping or other documents. To the extent to which they apply, the following particulars are required for all items:

(1) Commercial description, adequate for screening and disposal purposes;
(2) Make, model, type, serial number, and National Stock Number when available;
(3) Government identification number;
(4) Quantity;
(5) Cost;
(6) Condition (use codes listed in Exhibit A of this Manual); and
(7) Location (contractor's facility or other site).

(c) *Copies Required.* Three copies of the inventory reports shall be submitted to the Property Administrator.

(d) *Certification.* The following certification signed by the contractor or an authorized official shall accompany each copy of the inventory schedules:

I do hereby certify as (Title) of (Name of Contractor) that the attached inventory reports are complete and correctly list and describe all items of property furnished to the contractor, or for which the contractor has been or will be reimbursed by the Government, for use in the performance of Contract No. ____ which as of this date have not been consumed in performance of this contract; and that I will immediately notify the Contracting Officer of any change affecting these inventory reports at any time prior to final disposition of the inventory.

(S) _____

Dated _____

(e) *Disposal of Property.* Disposal of property will be directed by the Contracting Officer, or a designated representative of the Contracting Officer, in accordance with the terms of the contract. The contractor shall not make disposition of any property except as so directed.

Part 6—Care, Maintenance, and Utilization

S1–600 *General.*

This part establishes minimum requirements as to care, maintenance, and utilization of Government property in the possession or control of the contractor. The contractor shall be responsible for the proper care, maintenance, and utilization of Government property in his possession or control from the time of receipt of the property until properly relieved of responsibility in accordance with the contract. The removal of Government property to storage, or its contemplated transfer, shall not relieve the contractor of these responsibilities.

S1–601 *Contractor's Maintenance Program.*

(a) *Policy.* The contractor's maintenance program (which shall be approved in accordance with Part 1 of this Manual) shall be such as to provide, consistent with sound industrial practice and the terms of the contract, for:

(1) Disclosure of need for the performance of preventive maintenance;
(2) Disclosure and reporting of need for capital type rehabilitation; and
(3) Recording of work accomplished under the program.

(b) *Preventive Maintenance.* Preventive maintenance is maintenance generally performed on a regularly scheduled basis to prevent the occurrence of defects and to detect and correct minor defects before they result in serious consequences. An effective preventive maintenance program shall consist of, but not be limited to, the following actions:

(1) Inspection of buildings at such periodic intervals as will assure detection of deterioration and the need for repairs;
(2) Inspection of equipment at such periodic intervals as will assure detection of maladjustment, wear, or impending breakdown;
(3) Regularly scheduled lubrication of bearings and moving parts in accordance with a lubrication chart or equivalent plan;
(4) Protection from exposure to deteriorating agents;
(5) Adjustments for wear, repair, or replacement of worn or damaged parts and the elimination of causes of deterioration of associated parts;
(6) Removal of sludge, chips, and cutting oils from equipment which will not be used for a period of time; and
(7) Proper storage and preservation of accessories and special tools furnished with an item of capitalized equipment but not regularly used with it.

(c) *Capital Type Rehabilitation.* The contractor's maintenance program shall be such as to provide for the disclosure and reporting of the need for major repair, replacement, and other rehabilitation work for Government property in the possession or control of the contractor.

(d) *Records of Maintenance.* The contractor's maintenance program shall provide for records sufficient to disclose the maintenance actions performed and deficiencies discovered as a result of inspections.

S1–602 *Utilization of Government Property.*

The contractor's procedures shall be adequate to assure that Government property will be utilized only for those purposes authorized in the contract.

S1–603 *Property in Possession of Subcontractors.*

The contractor shall require any of his subcontractors having Government property in their possession or control adequately to care for and maintain that property and assure that it is utilized only as authorized by the contract. Procedures necessary to assure the accomplishment of this responsibility shall be included in the contractor's approved property control system.

S1–604 *Property Excess to Contract Requirements.*

Government property which becomes excess to contract performance requirements shall be reported to the Property Administrator within 30 days. The contractor's excess declaration shall be prepared in the same manner as prescribed in S1–503 of this Manual. Disposal of excess property will be directed by the Contracting Officer, or a designated representative of the Contracting Officer, in accordance with the terms of the contract. The contractor shall not make any disposition of such property except as so directed.

Part 7—Passage of Title to Equipment Under Research Contracts

S1–700 *General.*

This part covers to the extent not otherwise provided in the contract or elsewhere in this Manual the obligations of the contractor with respect to property acquired with research contract funds, title to which has passed to him. In accordance with the provisions of 42 U.S.C. 1892, DOT is authorized to transfer title to equipment acquired with research contract funds to nonprofit institutions of higher education and to other nonprofit organizations whose primary purpose is the conduct of scientific research. This statutory authority is implemented by express provision in the Special Provisions of contracts with eligible institutions and organizations permitting the Contracting Officer to transfer to the contractor title to equipment acquired with research contract funds at any time during the term of the contract or upon its completion or termination. The contract will reserve the right to require the contractor to transfer title of equipment costing $1,000 or more per unit to the Government, or to a third party named by the Government, at any time prior to final payment under the contract.

S1–701 *Conditions of Transfer.*

In research contracts with eligible institutions and organizations, the Contracting Officer may, upon his own initiative or upon the request of the contractor, transfer title to equipment at any time during the term of the contract or upon its completion or termination. All transfers of title must be based upon a written determination by the Contracting Officer that transfer with respect to the specific items of equipment is consistent with the best interests of the Department. Until such time as title has been transferred, the property shall be administered and controlled as Government property in accordance with Parts 1 through 6 of this Manual. Upon transfer, such equipment ceases to be Government property, however, the transfer of title is subject to the terms and conditions of the contract and this Part 7.

S1–702 *Contractor's Obligations.*

Although equipment ceases to be Government property when title to it is vested in or transferred to the contractor, nonetheless the following obligations attach to the property and the contractor agrees to such obligations by accepting title thereto:

(1) *Utilization.* The contractor agrees to use the property for the benefit of research under the contract and any extensions or successor contracts thereto and to continue to use such property for the benefit of research of interest to the Government;

(2) *Charges with Respect to the Property.* The contractor is not permitted to charge for any depreciation, amortization, or use with respect to such equipment under any Government contract, any Government grant, or any subcontract under a Government contract;

(3) *Transfer of Title to Government.* With respect to each item of equipment having a unit acquisition cost of $1,000 or more, the contractor's ownership rights are qualified by the contractor's express agreement to transfer title to any such items to the Government, or to a third party designated by the Government, in accordance with any written request therefore issued by the Contracting Officer at any time prior to final payment under the contract;

(4) *Control of Property.* The contractor shall maintain a property control system which will provide for adequate identification, recording, location, utilization, maintenance, and physical inventory of equipment acquired with contract funds; and

(5) *Inventories Upon Completion or Termination.* Immediately upon completion or termination of the contract, the contractor shall perform a physical inventory of all contractor-owned equipment acquired with contract funds and having a unit acquisition cost of $1,000 or more. The inventory shall be performed, prepared, and submitted in the same manner as prescribed in S1–503 of this Manual.

DOTPR supplement 1, exhibit A—Property condition codes

[See S1-503 of this manual]

Code	Brief definition	Expanded definition
N-1	New—Excellent	New or unused property in excellent condition. Ready for use and identical or interchangeable with new items delivered by manufacturer or normal source of supply.
N-2	New—Good	New or unused property in good condition. Does not quite qualify for N-1 (because slightly shopworn, soiled, or similar), but condition does not impair utility.
N-3	New—Fair	New or unused property in fair condition. Soiled, shopworn, rusted, deteriorated, or damaged and its utility is slightly impaired.
N-4	New—Poor	New or unused property so badly soiled, rusted, mildewed, deteriorated, or damaged, that its utility is seriously impaired.
E-1	Used—Reconditioned excellent	Used property, but repaired or renovated and in excellent condition.
E-2	Used—Reconditioned good	Used property which has been repaired or renovated and, while still in good usable condition, has become worn from further use and cannot qualify for excellent condition.
E-3	Used—Reconditioned fair	Used property which has been repaired or renovated but has deteriorated since reconditioning and is only in fair condition. Further overhauling required or expected to be needed in near future.
E-4	Used—Reconditioned poor	Used property which has been repaired or renovated and is in poor condition from serious deterioration such as from major wear and tear, corrosion, exposnre to weather or mildew.
O-1	Used—Usable without repairs—Excellent.	Property which has been slightly or moderately used, no repairs required, and still in excellent condition.
O-2	Used—Usable without repairs—Good.	Used property, more worn than O-1, but still in good condition with considerable use left before any important repairs would be required.
O-3	Used—Usable without repairs—Fair.	Used property which is still in fair condition and usable without repairs; however, somewhat deteriorated with some parts (or portion) worn and should be replaced.
O-4	Used—Usable without repairs—Poor.	Used property which is still usable without repairs, but in poor condition and undependable or uneconomical in use. Parts badly worn and deteriorated.
R-1	Used—Repairs required—Excellent.	Used property, still in excellent condition, but minor repairs required (repairs would not cost more than 10 pct of acquisition cost).
R-2	Used—Repairs required—Good	Used property, in good condition but considerable repairs required. Estimated cost of repairs would be from 11 to 25 pct of acquisition cost.
R-3	Used—Repairs required—Fair	Used property, in fair condition but extensive repairs required. Estimated repair costs would be from 26 to 40 pct of acquisition cost.
R-4	Used—Repairs required—Poor	Used property, in poor condition and requiring major repairs. Badly worn, and would still be in doubtful condition of dependability and uneconomical to use if repaired. Estimated repair costs from 41 to 65 pct of acquisition cost.
X	Salvage	Property which because of its worn, damaged, deteriorated or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations, but which has some value in excess of its scrap value.
S	Scrap	Property that has no reasonable prospect of being sold except for the recovery value of its basic material content.

ADVISORY OPINION REQUESTS

Clearinghouse Advisory Committee Charter

FEDERAL ELECTION COMMISSION

[Notice 1977-7, AOR 1976-117 and AOR 1977-2]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. 437f(c) and the procedures reflected in Part 112 of the Commission's Proposed Regulations, published on August 25, 1976 (41 FR 35954), Advisory Opinion Requests 1976-117 and 1977-2 have been made public at the Commission. Copies of AOR 1976-117 and AOR 1977-2 were made available on January 18, 1977. These copies of advisory opinion requests were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, N.W., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A descriptive listing of each of the requests recently made public as well as the identification of the requesting party follows hereafter:

AOR 1976-117: Does a proposed debt settlement with corporate creditors of a 1974 campaign committee conform to 2 U.S.C. 441b?—Requested by Luther Rutherford, Counsel to the Committee to Elect Nelson W. Wolff, San Antonio, Texas.

AOR 1977-2: Is the Constructive Congress Committee "a separate segregated fund established by a trade association" for purposes of the solicitation approval requirements in 2 U.S.C. 441b(b)(4)(D)?—Requested by J. Richard Sewell, Treasurer, Constructive Congress Committee, Washington, D.C.

JANUARY 19, 1977.

JOAN D. AIKENS,
Commissioner,
Federal Election Commission.

[Notice 1977-6]

CLEARINGHOUSE ADVISORY COMMITTEE

Charter

Establishment. The Federal Election Commission, having determined that it is in the public interest in connection with the performance of duties imposed on the Commission by law, hereby establishes the Federal Election Commission Clearinghouse Advisory Committee (the "Committee") pursuant to the Federal Advisory Committee Act, 5 U.S.C. App. I.

Objectives and Duties. 1. The objective of the Committee is to advise the Commission through its Clearinghouse on the best manner in which to allocate Commission resources toward improving the administration of elections throughout the nation.

2. The Committee will draw upon the expertise of its members and other sources (such as national associations of elections-related officials) in order to offer advice and recommendations regarding the topics most deserving of Clearinghouse research efforts. It will also suggest other means for assisting election administrators in the performance of their tasks.

3. The Committee will function solely as an advisory body and will comply fully with the provisions of the Federal Advisory Committee Act.

Members and Chairman. 1. The Committee shall consist of twenty (20) members to be nominated by the Clearinghouse Chief and appointed by the Federal Election Commission. The Commission shall ensure a balanced representation of state election officials, local election officials, and state legislators as well as of major political party affiliation where appropriate. Members will be appointed for two-year terms and serve at the discretion of the Commission. Vacancy appointments shall be for the remainder of the unexpired term of the vacancy.

2. The Chairman will be the Commission's Chief of the Clearinghouse on Election Administration.

Administrative Provisions. 1. The Committee will report to the Commission through the Chief of the Clearinghouse on Election Administration.

2. The Committee will meet every six months except that additional meetings may be called as deemed desirable by the Commission or the Chairman.

3. The Commission Administrative Division and the Clearinghouse will provide clerical and other necessary support services to the Committee.

4. Members of the Committee will not be compensated for their services but will, upon request, be reimbursed for travel expenses and subsistance.

5. The annual cost for operating the Committee is estimated at $15,000–$20,000. This includes one quarter staff year of support services.

6. The Committee may establish such subcommittees of its members as may be necessary subject to the provisions of the law and the approval of the Chairman.

7. The Committee may, by simple majority vote, adopt resolutions and pass recommendations. Such resolutions and recommendations will, however, be only advisory to the Commission and will be restricted to the Commission's activities in support of election administration.

Duration. The Committee shall terminate two years from the date of this charter unless earlier terminated or renewed by proper authority.

JOAN D. AIKENS,
Commissioner,
Federal Election Commission.

Documents normally scheduled on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

ATTENTION: For questions, corrections, or requests for information please see the list of telephone numbers appearing on opposite page.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

PART 1—ADMINISTRATIVE REGULATIONS

Rules of Practice Governing Formal Adjudicatory Administrative Proceedings Instituted by the Secretary

Correction

In FR Doc. 77–184, appearing at page 743, in the issue for Tuesday, January 4, 1977, the second sentence of the effective date paragraph in the second column on page 743 should read as follows:

Proceedings instituted prior to said date shall continue under the applicable rules of practice in effect when the proceedings were instituted, unless the parties to a proceeding agree that the proceeding shall be governed on and after February 1, 1977, by the new uniform rules set forth in the new Subpart H.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 77]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Jan. 30–Feb. 5, 1977. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.377 Lemon Regulation 77.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is showing some improvement early this week. Average f.o.b. price was $4.97 per carton the week ended January 22, 1977 compared to $5.13 per carton the previous week. Track and rolling supplies at 120 cars were up 20 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 25, 1977.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period January 30, 1977, through February 5, 1977, is hereby fixed at 200,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: January 27, 1977.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.77-3066 Filed 1-27-77;11:46 am]

PART 981—ALMONDS GROWN IN CALIFORNIA

Revision of Crediting for Paid Advertising

Notice of a proposal to amend Subpart-Administrative Rules and Regulations (7 CFR 981.441—981.481; 42 FR 3159) by revising § 981.441 which pertains to crediting for paid advertising was published in the November 16, 1976, issue of the FEDERAL REGISTER (41 FR 50452). The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 981, as amended (7 CFR Part 981; 41 FR 26852; 27827, 53650), hereinafter collectively referred to as the "order", regulating the handling of almonds grown in California. The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The proposal was based on a unanimous recommendation of the Almond Board of California.

The notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal; none were received.

The proposal was to revise § 981.441 to clarify and update the current provisions and to delete references to the Board's former name, the Almond Control Board. Section 981.441 pertains to crediting for paid advertising which is authorized pursuant to § 981.41 in the order.

As provided in § 981.441(b), in order for a handler to receive credit for his paid advertising each of his advertisements must be published, broadcast, or

displayed during the crop year for which credit is requested. In the case of outdoor advertising, paragraph (b) provides that the credit granted by the Board shall be that which is appropriate when compared with the applicable rate published in the "Buyers Guide to Outdoor Advertising". Since the Buyers Guide, however, no longer gives rate data on outdoor advertising, outdoor rate cards should be used by the Board as provided in the notice.

Also, a handler may not know the exact amount of his assessment obligation until after June 30, the end of the crop year. In this situation, a handler's expenditures for creditable advertising may be less than the amount he could have credited against his assessment obligation, and he may need an additional period to place more advertising. Thus, § 981.441(b) would also be revised so that no later than September 1 of the subsequent crop year a handler may expend a maximum of five percent of his total creditable advertising obligation as of the June 30 redetermination report. The accompanying documentation must be filed with the Board no later than September 30. Also, a handler utilizing this extension of time, would have to certify to the Board, at time of redetermination, his planned expenditures during the extension period.

Finally § 981.441(b) would also be revised to provide that for advertisements in countries other than the U.S. and Canada, § 981.441(e) would apply. Currently, § 981.441(e)(1) provides that advertising in Canada may be credited, but as proposed, § 981.441(b) would provide such authority.

Section 981.441(d) outlines what portion of a handler's media expenditures may be credited against his assessment obligation in various advertising situations. In the case when the advertisement is a result of a joint effort on the part of a handler or seller of a complementary commodity or product which includes the brand of both, the allowance shall be 50 percent of the total allowable payment to the advertising medium, or the handler's allowable payment thereof, whichever is less. In the case of two complementary commodities or products, the allowance is one-third. Section 981.441(d) would be revised so that a portion of the allowable media expenditures for which a handler would be granted credit, would be determined by the number of manufacturers or sellers of complementary commodities or products, not the number of complementary commodities or products themselves. For an advertisement resulting from joint participation by a handler and a manufacturer or seller of a complementary commodity or product, and including the brands of both, the credit would be 50 percent of the total allowable payment to the advertising medium, or the handler's payment thereof, whichever is less. For an advertisement resulting from joint participation by a handler and two manufacturers or sellers of complementary commodities or products, and including the brands of all three, the credit would be one-third of the total allowable payment to the advertising medium, or the handler's payment thereof, whichever is less.

As previously mentioned, § 981.441(e) provides that credit for media expenditures shall be allowed for advertising conducted in Canada, and for a handler's unreimbursed media expenditures for advertising in any foreign country pursuant to a contract with the Foreign Agricultural Service, USDA, so long as this advertisement meets the requirements of paragraphs (c) and (g) and the limitations of paragraphs f (1) and (2) of § 981.441. Credit for media expenditures for advertising in Canada would be permitted in § 981.441(b). Thus, references to such advertising in Canada in § 981.441(e) are not necessary and would be deleted.

Section 981.441(e) would also be revised in that the provisions in paragraph (e)(2) would be transferred to paragraph (e)(1), and new provisions would be included in paragraph (e)(2). They provide that credit not to exceed in total 10 percent of his creditable obligation for advertising in each crop year, would be granted a handler for his media expenditures for advertising in 10 foreign countries. These countries are Great Britain, France, Italy, West Germany, Denmark, Belgium, Ireland, Luxembourg, The Netherlands, Sweden, Norway, Finland, Switzerland and Japan. Credit would be allowed when claims are substantiated by applicable rate cards. The provisions of this section applicable to domestic advertising would apply to the crediting of advertising in these countries.

The proposal was also to delete, "Control" wherever it appears in § 981.441. The recent order amendments changed the name of the Board from the "Almond Control Board" to "Almond Board of California".

Finally, the first sentence of § 981.441(g) would be revised by adding at the beginning of the second sentence the following: "Except as provided in paragraph (b) * * *." In this way the proposed revision of § 981.441(b), which would permit handlers to file no later than September 30 of the subsequent crop year documentation with the Board for certain advertising expenditures made after June 30, would not conflict with an existing provision of § 981.441(g). Currently, that paragraph provides that no claim for assessment credit shall be granted if it is filed later than July 15 of the succeeding crop year. This conforming change was not included in the notice. However, § 981.441(g) is revised accordingly to conform with the revised § 981.441(b).

After consideration of all relevant matter presented including that in the notice, the information and recommendation submitted by the Board, and other available information, it is found that to amend the administrative rules and regulations as herein set forth will tend to effectuate the declared policy of the act.

Accordingly, Subpart-Administrative Rules and Regulations (7 CFR 981.441–981.481) is amended as follows:

1. In § 981.441, paragraphs (b), (d), (e) and (g) are revised to read as follows:

§ 981.441 Crediting for paid advertising.

* * * * *

(b) Each advertisement must be published, broadcast, or displayed during the crop year for which credit is requested, except: (i) that a maximum of five percent of the total handler creditable advertising obligation as of the June 30 redetermination report may be expended no later than September 1 of the subsequent crop year, and documentation therefor filed with the Board no later than September 30; and (ii) that a handler utilizing this extension certify to the Board, at time of redetermination, his planned expenditures during the extension period. The credit granted by the Board shall be that which is appropriate when compared to the applicable outlet rate published in the domestic or Canadian catalogs of Standard Rate and Data Service, or station or publisher or outdoor rate cards. In the case of claims for credit not covered by any such source, the Board shall grant the claim if it is consistent with rates for comparable outlets. For advertisements in countries other than the United States and Canada, paragraph (e) shall apply.

* * * * *

(d) Credit against the assessment obligation shall be granted:

(1) For 100 percent of the handler's payment to the advertising medium: (i) for a generic advertisement of California almonds; (ii) for an advertisement of the handler's brand of almonds; or (iii) when either of these advertisements includes reference to a complementary commodity or product; or (iv) for a trade media advertisement that displays branded food products containing almonds, or announces a handler's future promotional activities, including joint promotions, and the entire expenditure is borne by the handler.

(2) For an advertisement resulting from joint participation by a handler and a manufacturer or seller of a complementary commodity or product, and including the brands of both, the credit shall be 50 percent of the total allowable payment to the advertising medium, or the handler's payment thereof, whichever is less.

(3) For an advertisement resulting from joint participation by a handler and two manufacturers or sellers of complementary commodities or products, and including the brands of all three, the credit shall be one third of the total allowable payment to the advertising medium, or the handler's payment thereof, whichever is less.

(4) When almond products are advertised, the credit shall be 50 percent of the total allowable payment to the advertising medium, or the handler's payment thereof, whichever is less: *Provided*, That (i) the almond product does not contain nuts other than almonds, (ii) the almond product contains at least 50 percent raw shelled almonds by weight, and (iii) the almond product displays the handler's brand.

(e) Credit for media expenditures in a foreign country shall be granted:

(1) For the handler's unreimbursed media expenditures for advertising in any foreign country pursuant to a contract with the Foreign Agricultural Service, U.S. Department of Agriculture, provided the advertisements meet the requirements of paragraphs (c) and (d), and the limitations of paragraphs (f) (1) and (2), of this section.

(2) For a handler's media expenditures for advertising his brand of almonds in the following countries: Great Britain, France, Italy, West Germany, Denmark, Belgium, Ireland, Luxembourg, The Netherlands, Sweden, Norway, Finland, Switzerland and Japan, credit shall be allowed when claims are substantiated by applicable rate cards. The provisions of this section applicable to domestic advertising also shall apply to the crediting of advertising in these countries. The total of the foreign credit shall not exceed 10 percent of a handler's advertising assessment in each crop year.

* * * * *

(g) A handler must file a claim with the Control Board to obtain credit for an advertising expenditure. Except as provided in paragraph (b), no claim shall be granted if it is filed later than July 15 of the succeeding crop year. Each claim must be submitted on ABC Form 31 and accompanied by appropriate proof of performance as follows:

* * * * *

2. The word "Control" is deleted wherever it appears in § 981.441.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674.)

Dated: January 25, 1977, to become effective March 1, 1977.

CHARLES R. BRADER,
Deputy Director,
Fruit and Vegetable Division.

[FR Doc.77-2884 Filed 1-27-77;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 73—SCABIES IN CATTLE

Areas Quarantined and Released

These amendments quarantine a portion of Lubbock County in Texas because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73, as amended, will apply to the area quarantined.

The amendments release a portion of Weld County in Colorado from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, will not apply to the excluded area, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded area. No areas in Colorado remain under quarantine.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies, is hereby amended as follows:

In § 73.1a, in paragraph (a) relating to the State of Texas, a new paragraph (a)(4) relating to Lubbock County is added and paragraph (g) relating to the State of Colorado is deleted.

§ 73.1a Notice of quarantine.

(a) * * *

(4) The premises of the Lawson Feedlot comprised of the S.E. ¼ of sec. 22, block JS and the S.W. ¼ of sec. 13, block JS in Lubbock County.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

Effective date: The foregoing amendments shall become effective January 24, 1977.

Insofar as the amendments impose certain further restrictions necessary to prevent the interstate spread of cattle scabies, they must be made effective immediately to accomplish their purpose in the public interest. Insofar as the amendments relieve restrictions, they are no longer deemed necessary to prevent the spread of cattle scabies and they should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of January 1977.

NOTE.—The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services.

[FR Doc.77-2786 Filed 1-27-77;8:45 am]

PART 78—BRUCELLOSIS

Subpart D—Designation of Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

BRUCELLOSIS AREAS

The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Noncertified Areas in § 78.22 because it has been determined that they no longer come within the definition of a Certified Brucellosis-Free Area in § 78.1(l):

Montgomery County in Iowa

The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they now come within the definition of a Modified Certified Brucellosis Area in § 78.1(m):

Barbour and Russell Counties in Alabama; Fremont County in Idaho; Delaware and Jones Counties in Iowa

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21 and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1(l):

Pueblo County in Colorado; Effingham County in Illinois; Cedar, Floyd, Poweshiek, and Warren Counties in Iowa.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, and Noncertified Areas, respectively, are amended to read as follows:

§ 78.20 Certified Brucellosis-Free Areas.

The following States, or specified portions thereof, are hereby designated as Certified Brucellosis-Free Areas:

(a) *Entire States.* Arizona, California, Connecticut, Delaware, Hawaii, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, Washington, West Virginia, Wisconsin, Virgin Islands.

(b) *Specific Counties Within States.*

Alabama. Dale, Etowah, Geneva, Henry, Lee.

Arkansas. Baxter, Benton, Boone, Bradley, Calhoun, Carroll, Clay, Cleveland, Columbia, Dallas, Drew, Fulton, Garland, Grant, Greene, Jackson, Johnson, Lafayette, Madison, Marion, Monroe, Montgomery, Newton, Ouachita, Perry, Pike, Polk, Prairie, Searcy, Sharp, Stone, Union, Woodruff, Yell.

Colorado. Adams, Alamosa, Arapahoe, Archuleta, Baca, Bent, Boulder, Chaffee, Cheyenne, Clear Creek, Conejos, Costilla, Crowley, Custer, Delta, Denver, Dolores,

Douglas, Eagle, Elbert, El Paso, Fremont, Garfield, Gilpin, Grand, Gunnison, Hinsdale, Huerfano, Jackson, Jefferson, Kiowa, Kit Carson, Lake, La Plata, Larimer, Las Animas, Lincoln, Logan, Mineral, Moffat, Montezuma, Montrose, Morgan, Otero, Ouray, Park, Phillips, Pitkin, Prowers, Pueblo, Rio Blanco, Rio Grande, Routt, Saguache, San Juan, San Miguel, Sedgwick, Summit, Teller, Washington, Weld.

Florida. Baker, Bay, Brevard, Calhoun, Dade, Dixie, Escambia, Franklin, Gadsden, Gulf, Hamilton, Holmes, Jackson, Leon, Liberty, Monroe, Okaloosa, Orange, Pasco, Santa Rosa, Seminole, Sumter, Taylor, Wakulla, Walton, Washington.

Georgia. Appling, Atkinson, Bacon, Banks, Brantley, Bryan, Bulloch, Burke, Butts, Camden, Candler, Charlton, Chatham, Chattahoochee, Clarke, Clayton, Cook, Crawford, Dawson, De Kalb, Echols, Effingham, Evans, Fannin, Franklin, Glascock, Glynn, Greene, Habersham, Henry, Jeff Davis, Johnson, Jones, Lanier, Laurens, Liberty, Long, McIntosh, Monroe, Peach, Rabun, Richmond, Schley, Screven, Stephens, Taylor, Telfair, Toombs, Treutlen, Twiggs, Upson, Ware, Washington, Wayne, Wheeler, White, Wilkinson.

Idaho. Adams, Bear Lake, Benewah, Blaine, Boise, Bonner, Boundary, Camas, Canyon, Caribou, Clearwater, Custer, Idaho, Jerome, Kootenai, Latah, Lemhi, Lewis, Nez Perce, Oneida, Owyhee, Payette, Power, Shoshone, Teton, Valley, Washington, Yellowstone National Park.

Illinois. Adams, Alexander, Bond, Boone, Bureau, Calhoun, Carroll, Cass, Champaign, Christian, Clark, Clay, Clinton, Coles, Cook, Crawford, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Edwards, Effingham, Fayette, Ford, Franklin, Fulton, Gallatin, Greene, Grundy, Hamilton, Hancock, Henderson, Henry, Iroquois, Jackson, Jasper, Jefferson, Jersey, Jo Daviess, Johnson, Kane, Kankakee, Kendall, Knox, Lake, La Salle, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Madison, Marion, Marshall, Mason, Massac, McDonough, McHenry, McLean, Menard, Mercer, Monroe, Montgomery, Morgan, Moultrie, Ogle, Peoria, Perry, Piatt, Pike, Pulaski, Putnam, Randolph, Richland, Rock Island, St. Clair, Saline, Sangamon, Shuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Union, Vermilion, Wabash, Warren, Washington, Wayne, White, Whiteside, Will, Winnebago, Woodford.

Iowa. Adair, Adams, Audubon, Benton, Black Hawk, Boone, Bremer, Buchanan, Buena Vista, Butler, Calhoun, Carroll, Cass, Cedar, Chickasaw, Clarke, Clayton, Clinton, Dallas, Davis, Des Moines, Dickinson, Dubuque, Emmet, Fayette, Floyd, Franklin, Fremont, Greene, Grundy, Hamilton, Hancock, Hardin, Henry, Howard, Humboldt, Ida, Iowa, Jackson, Jefferson, Johnson, Keokuk, Kossuth, Lee, Linn, Louisa, Lucas, Lyon, Madison, Mahaska, Marion, Marshall, Mills, Mitchell, Monona, Muscatine, O'Brien, Oceola, Page, Palo Alto, Pocahontas, Polk, Pottawattamie, Poweshiek, Plymouth, Scott, Shelby, Tama, Taylor, Van Buren, Wapello, Warren, Washington, Webster, Winnebago, Winneshiek, Woodbury, Worth, Wright.

Kansas. Comanche, Doniphan, Ford, Gove, Graham, Greeley, Haskell, Hodgeman, Johnson, Lane, Logan, Marshall, Pawnee, Phillips, Riley, Scott, Sheridan, Thomas, Trego, Wallace, Washington.

Kentucky. Bell, Breathitt, Campbell, Clay, Edmonson, Floyd, Harlan, Jackson, Johnson, Kenton, Knott, Knox, Lawrence, Lee, Leslie, Letcher, Lewis, Magoffin, Martin, McCreary, Menifee, Morgan, Owsley, Pendleton, Perry, Pike, Robertson, Trimble, Whitley, Wolfe.

Mississippi. Alcorn, Hancock, Harrison, Jackson, Stone, Tishomingo.

Missouri. Audrain, Dallas, Douglas, Dunklin, Franklin, Gasconade, Hickory, Iron, Jackson, Laclede, Lewis, Miller, Moniteau, Montgomery, Perry, Platte, Pulaski, St. Louis, Schuyler, Shelby.

New Mexico. Bernalillo, Catron, Colfax, Dona Ana, Grant, Harding, Hidalgo, Lincoln, Los Alamos, Luna, McKinley, Otero, Rio Arriba, Sandoval, San Juan, Santa Fe, Sierra, Socorro, Taos, Torrance.

South Dakota. Aurora, Beadle, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Campbell, Charles Mix, Clark, Clay, Codington, Corson, Custer, Davison, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Kingsbury, Lake, Lawrence, Lincoln, Lyman, Marshall, McCook, McPherson, Meade, Mellette, Miner, Minnehaha, Moody, Pennington, Perkins, Potter, Roberts, Sanborn, Shannon, Spink, Sully, Todd, Tripp, Turner, Union, Walworth, Washabaugh, Yankton, Ziebach.

Tennessee. Anderson, Blount, Campbell, Carter, Cheatham, Claiborne, Davidson, Decatur, Dickson, Fentress, Grainger, Greene, Grundy, Hancock, Hardin, Jefferson, Johnson, Knox, Lake, Meigs, Morgan, Polk, Roane, Robertson, Rutherford, Scott, Sequatchie, Sevier, Sullivan, Unicoi, Union, Warren, White.

Texas. Brewster, Childress, Comal, Crane, Ector, Gray, Hansford, Hartley, Hemphill, Irion, Jeff Davis, Kerr, Kimble, Lipscomb, Llano, Loving, Mason, Newton, Pecos, Reagan, Roberts, Sterling, Terrell, Val Verde, Ward, Winkler.

Utah. Beaver, Carbon, Daggett, Davis, Duchesne, Emery, Garfield, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, San Juan, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Wayne, Weber.

Wyoming. Albany, Big Horn, Campbell, Carbon, Converse, Crook, Fremont, Goshen, Hot Springs, Johnson, Laramie, Natrona, Niobrara, Park, Platte, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, Weston.

Puerto Rico. Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Camuy, Canovanas (Loiza), Catano, Cayey, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Guanica, Guayama, Guayanilla, Gurabo, Hormigueros, Humacao, Isabela, Jayuya, Juana Diaz, Juncos, Lajas, Lares, Las Marias, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Morovis, Naranjito, Orocovis, Patillas, Penuelas, Ponce, Quebradillas, Rincon, Rio Grande, Rio Piedras, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, San Sebastian, Santa Isabel, Toa Alta, Toa Baja, Trujillo Alto, Utuado, Vega Alta, Vega Baja, Villalba, Yabucoa, Yauco.

§ 78.21 Modified Certified Brucellosis Areas.

The following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

(a) *Entire States*. Alaska, Louisiana, Nebraska, Oklahoma.

(b) *Specific Counties Within States*.

Alabama. Autauga, Baldwin, Barbour, Bibb, Blount, Bullock, Butler, Calhoun, Chambers, Cherokee, Chilton, Choctaw, Clarke, Clay, Cleburne, Coffee, Colbert, Conecuh, Coosa, Covington, Crenshaw, Cullman, Dallas, De Kalb, Elmore, Escambia, Fayette, Franklin, Greene, Hale, Houston, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Lowndes, Macon, Madison, Marengo, Marion, Marshall, Mobile, Monroe, Montgomery, Morgan, Perry, Pickens, Pike, Randolph, Russell, St. Clair, Shelby, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

Arkansas. Arkansas, Ashley, Chicot, Clark, Cleburne, Conway, Craighead, Crawford, Crittenden, Cross, Desha, Faulkner, Franklin, Hempstead, Hot Spring, Howard, Independence, Izard, Jefferson, Lawrence, Lee, Lincoln, Little River, Logan, Lonoke, Miller, Mississippi, Nevada, Phillips, Poinsett, Pope, Pulaski, Randolph, Saline, Scott, St. Francis, Sebastian, Sevier, Van Buren, Washington, White.

Colorado. Mesa, Yuma.

Florida. Alachua, Bradford, Broward, Charlotte, Citrus, Clay, Collier, Columbia, De Soto, Duval, Flagler, Gilchrist, Glades, Hardee, Hendry, Hernando, Highlands, Hillsborough, Indian River, Jefferson, Lafayette, Lake, Lee, Levy, Madison, Manatee, Marion, Martin, Nassau, Okeechobee, Osceola, Palm Beach, Pinellas, Polk, Putnam, St. Johns, St. Lucie, Sarasota, Suwanee, Union, Volusia.

Georgia. Baker, Baldwin, Barrow, Bartow, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Carroll, Catoosa, Chattooga, Cherokee, Clay, Clinch, Cobb, Coffee, Colquitt, Columbia, Coweta, Crisp, Dade, Decatur, Dodge, Dooly, Dougherty, Douglas, Early, Elbert, Emanuel, Fayette, Floyd, Forsyth, Fulton, Gilmer, Gordon, Grady, Gwinnett, Hall, Hancock, Haralson, Harris, Hart, Heard, Houston, Irwin, Jackson, Jasper, Jefferson, Jenkins, Lamar, Lee, Lincoln, Lowndes, Lumpkin, Macon, Madison, Marion, McDuffie, Meriwether, Miller, Mitchell, Montgomery, Morgan, Murray, Muscogee, Newton, Oconee, Oglethorpe, Paulding, Pickens, Pierce, Pike, Polk,

Pulaski, Putnam, Quitman, Randolph, Rockdale, Seminole, Spalding, Stewart, Sumter, Talbot, Taliaferro, Tattnall, Terrell, Thomas, Tift, Towns, Troup, Turner, Union, Walker, Walton, Warren, Webster, Whitfield, Wilcox, Wilkes, Worth.

Idaho. Ada, Bannock, Bingham, Bonneville, Butte, Cassia, Clark, Elmore, Franklin, Fremont, Gem, Gooding, Jefferson, Lincoln, Madison, Minidoka, Twin Falls.

Illinois. Brown, Hardin, Pope, Williamson.

Iowa. Allamakee, Appanoose, Cerro Gordo, Cherokee, Crawford, Decatur, Delaware, Guthrie, Harrison, Jasper, Jones, Monroe, Ringgold, Sac, Sioux, Story, Union, Wayne.

Kansas. Allen, Anderson, Atchison, Barber, Barton, Bourbon, Brown, Butler, Chase, Chautauqua, Cherokee, Cheyenne, Clark, Clay, Cloud, Coffey, Cowley, Crawford, Decatur, Dickinson, Douglas, Edwards, Elk, Ellis, Ellsworth, Finney, Franklin, Geary, Grant, Gray, Greenwood, Hamilton, Harper, Harvey, Jackson, Jefferson, Jewell, Kearney, Kingman, Kiowa, Labette, Leavenworth, Lincoln, Linn, Lyon, Marion, McPherson, Meade, Miami, Mitchell, Montgomery, Morris, Morton, Nemaha, Neosho, Ness, Norton, Osage, Osborne, Ottawa, Pottawatomie, Pratt, Rawlins, Reno, Republic, Rice, Rooks, Rush, Russell, Saline, Sedgwick, Seward, Shawnee, Sherman, Smith, Stafford, Stanton, Stevens, Sumner, Wabaunsee, Wichita, Wilson, Woodson, Wyandotte.

Kentucky. Adair, Allen, Anderson, Ballard, Barren, Bath, Boone, Bourbon, Boyd, Boyle, Bracken, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Carroll, Carter, Casey, Christian, Clark, Clinton, Crittenden, Cumberland, Daviess, Elliott, Estill, Fayette, Fleming, Franklin, Fulton, Gallatin, Garrard, Grant, Graves, Grayson, Green, Greenup, Hancock, Hardin, Harrison, Hart, Henderson, Henry, Hickman, Hopkins, Jefferson, Jessamine, Larue, Laurel, Lincoln, Livingston, Logan, Lyon, Madison, Marion, Marshall, Mason, McCracken, McLean, Meade, Mercer, Metcalfe, Monroe, Montgomery, Muhlenberg, Nelson, Nicholas, Ohio, Oldham, Owen, Powell, Pulaski, Rockcastle, Rowan, Russell, Scott, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Union, Warren, Washington, Wayne, Webster, Woodford.

Mississippi. Adams, Amite, Attala, Benton, Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Claiborne, Clarke, Clay, Coahoma, Copiah, Covington, De Soto, Forrest, Franklin, George, Greene, Grenada, Hinds, Holmes, Humphreys, Issaquena, Itawamba, Jasper, Jefferson, Jefferson Davis, Jones, Kemper, Lafayette, Lamar, Lauderdale, Lawrence, Leake, Lee, LeFlore, Lincoln, Lowndes, Madison, Marion, Marshall, Monroe, Montgomery, Neshoba, Newton, Noxubee, Oktibbeha, Panola, Pearl River, Perry, Pike, Pontotoc, Prentiss, Quitman, Rankin, Scott, Sharkey, Simpson, Smith, Sunflower, Tallahatchie, Tate, Tippah, Tunica, Union, Walthall, Warren, Washington, Wayne, Webster, Wilkinson, Winston, Yalobusha, Yazoo.

Missouri. Adair, Andrew, Atchison, Barry, Barton, Bates, Benton, Bollinger, Boone, Buchanan, Butler, Caldwell, Callaway, Camden, Cape Girardeau, Carroll, Carter, Cass, Cedar, Chariton, Christian, Clark, Clay, Clinton, Cole, Cooper, Crawford, Dade, Daviess, De Kalb, Dent, Gentry, Greene, Grundy, Harrison, Henry, Holt, Howard, Howell, Jasper, Jefferson, Johnson, Knox, Lafayette, Lawrence, Lincoln, Linn, Livingston, Macon, Madison, Maries, Marion, McDonald, Mercer, Mississippi, Monroe, Morgan, New Madrid, Newton, Nodaway, Oregon, Osage, Ozark, Pemiscot, Pettis, Phelps, Pike, Polk, Putnam, Ralls, Randolph, Ray, Reynolds, Ripley, St. Charles, St. Clair, St. Francois, St. Genevieve, Saline, Scotland, Scott, Shannon, Stoddard, Stone, Sullivan, Taney, Texas, Vernon, Warren, Washington, Wayne, Webster, Worth, Wright.

New Mexico. Chaves, Curry, De Baca, Eddy, Guadalupe, Lea, Mora, Quay, Roosevelt, San Miguel, Union, Valencia.

South Dakota. Jones, Stanley.

Tennessee. Bedford, Benton, Bledsoe, Bradley, Cannon, Carroll, Chester, Clay, Cocke, Coffee, Crockett, Cumberland, DeKalb, Dyer, Fayette, Franklin, Gibson, Giles, Hamblen, Hamilton, Hardeman, Hawkins, Haywood, Henderson, Henry, Hickman, Houston, Humphreys, Jackson, Lauderdale, Lawrence, Lewis, Lincoln, Loudon, Macon, Madison, Marion, Marshall, Maury, McMinn, McNairy, Monroe, Montgomery, Moore, Obion, Overton, Perry, Pickett, Putnam, Rhea, Shelby, Smith, Stewart, Sumner, Tipton, Trousdale, Van Buren, Washington, Wayne, Weakley, Williamson, Wilson.

Texas. Anderson, Andrews, Angelina, Aransas, Archer, Armstrong, Atascosa, Austin, Bailey, Bandera, Bastrop, Baylor, Bee, Bell, Bexar, Blanco, Borden, Bosque, Bowie, Brazoria, Brazos, Briscoe, Brooks, Brown, Burleson, Burnet, Caldwell, Calhoun, Callahan, Cameron, Camp, Carson, Cass, Castro, Chambers, Cherokee, Clay, Cochran, Coke, Coleman, Collin, Collingsworth, Colorado, Comanche, Concho, Cooke, Coryell, Cottle, Crockett, Crosby, Culberson, Dallam, Dallas, Dawson, Deaf Smith, Delta, Denton, De Witt, Dickens, Dimmitt, Donley, Duval, Eastland, Edwards, Ellis, El Paso, Erath, Falls, Fannin, Fayette, Fisher, Floyd, Foard, Fort Bend, Franklin, Freestone, Frio, Gaines, Galveston, Garza, Gillespie, Glasscock, Goliad, Gonzales, Grayson, Gregg, Grimes, Guadalupe, Hale, Hall, Hamilton, Hardeman, Hardin, Harris, Harrison, Haskell, Hays, Henderson, Hidalgo, Hill, Hockley, Hood, Hopkins, Houston, Howard, Hudspeth, Hunt, Hutchinson, Jack, Jackson, Jasper, Jefferson, Jim Hogg, Jim Wells, Johnson, Jones, Karnes, Kaufman, Kendall, Kenedy, Kent, King, Kinney, Kleberg, Knox, Lamar, Lamb, Lampasas, La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Live Oak, Lubbock, Lynn, McCulloch, McLennan, McMullen, Madison, Marion, Martin, Matagorda, Maverick, Medina, Menard, Midland, Milam, Mills, Mitchell, Montague, Montgomery, Moore, Morris, Motley, Nacogdoches, Navarro, Nolan, Nueces, Ochiltree, Oldham, Orange, Palo Pinto, Panola, Parker, Parmer, Polk, Potter, Presidio, Rains, Randall, Real, Red River, Reeves, Refugio, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine, San Jacinto, San Patricio, San Saba, Schleicher, Scurry, Shackelford, Shelby, Sherman, Smith, Somervell, Starr, Stephens, Stonewall, Sutton, Swisher, Tarrant, Taylor, Terry, Throckmorton, Titus, Tom Green, Travis, Trinity, Tyler, Upshur, Upton, Uvalde, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Wheeler, Wichita, Wilbarger, Willacy, Williamson, Wilson, Wise, Wood, Yoakum, Young, Zapata, Zavala.

Utah. Box Elder, Cache.

Wyoming. Lincoln.

Puerto Rico. Arecibo, Carolina, Guaynabo, Hatillo, Las Piedras, Naguabo.

§ 78.22 Noncertified areas.

The following States, or specified portions thereof, are hereby designated as Noncertified Brucellosis Areas:

(a) *Entire States*.

(b) *Specific Counties Within States*.

Iowa. Clay, Montgomery.

Puerto Rico. Vieques.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114a–1, 115, 117, 120, 121, 125, 134b, 134f; 37 FR 28464, 28477; 38 FR 19141, 9 CFR 78.25.)

Effective date: The foregoing amendments shall become effective January 28, 1977.

The amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. They should be made effective promptly in order to accomplish their purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 24th day of January 1977.

NOTE: The Animal and Plant Health Inspection Service has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

PIERRE A. CHALOUX,
Acting Deputy Administrator,
Veterinary Services.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER B—PROCEDURAL REGULATIONS

[Docket No. 29626; Regulation PR-162, Amdt. 4]

PART 300—RULES OF CONDUCT IN BOARD PROCEEDINGS

Amendment to Reissuance of Part

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. January 24, 1977 (Incorporate attached regulation.).

Effective: January 24, 1977.

Adopted: January 24, 1977.

This document amends a reissuance of the Board's Rules of Conduct in Board Proceedings, which are interim regulations. It is a response to comments from the public which we called for on the narrow issue of whether the provisions of §§ 300.2a and 300.7 of our regulations or § 300.2(d) of our former regulations unconstitutionally infringed upon First Amendment rights of persons dealing with Board matters and the public. We have concluded that the issues raised by the comments are substantial, that corrective action is warranted, and that the present § 300.2a should be replaced by a new provision directed generally to the elimination of specified conduct rather than the direct limitation of speech or communication.

By PR-154 (41 FR 34587, August 16, 1976) as amended by PR-160 (41 FR 48116, November 2, 1976) the Board reissued on an interim basis, effective October 25, 1976, Part 300 of its Procedural Regulations, Rules of Conduct in Board Proceedings (14 CFR Part 300). Coincidentally with the foregoing issuances, the Board also issued a Notice and a Supplemental Notice of Proposed Rulemaking (PDR-41, 41 FR 34650, August 16, 1976, and PDR-41A, 41 FR 48129, November 2, 1976).

Among other things, the notices called for comment on the provisions of § 300.2a, *Prohibited influence and solicitation*, and § 300.7, *Contacts with other government agencies*, both as set forth in PDR-41 and § 300.2, *Hearing cases; improper influence*, as set forth in the prior regulation. The notices also referred to the discussion of these provisions in the preambles to PR-154 and PR-160. As indicated in the preamble to the latter regulation serious constitutional issues were raised by public comment with respect to limitations on contacts with the media and limitations on the generation of support from third persons for the position of an interested person. We modified our interim regulation to limit their applicability in some of the challenged areas. Otherwise, we deferred consideration of such constitutional issues until receipt of comments on our proposed final rule, which were due on or before December 29, 1976.

Later, the Board determined to expedite its consideration of the constitutional issues to the extent feasible and therefore issued a Supplemental Notice calling for briefs, comments, or arguments on such issues on or before December 20, 1976 (PDR-41B, 41 FR 51036, November 19, 1976). In response thereto comments were filed by the Member Carriers of the National Air Carrier Association and by Reuben Robertson and Aviation Consumer Action Project. The Board finds that it can expedite its resolution of the constitutional issues by separating them from issues raised by other comments and acting upon them now.

The complaints presented to us are that § 300.2 of our prior regulation and §§ 300.2a and 300.7 of our interim regulation unconstitutionally infringe First Amendment rights of persons participating in Board proceedings and the public by direct restraint upon communications to third persons, including the media, and by indirect restraints, arising from both overbreadth and vagueness, which place a "chill" or "chilling effect" on free speech, without appropriate justification, so that constitutional barriers to such regulation are exceeded.

The Board's former regulation, its present interim regulation, and the interim regulation established herein (which we presently intend to include in our final regulation) were and are intended to protect the integrity of our processes rather than to restrain or inhibit free speech, whether or not such speech is critical of the Board. That the Board's intention has governed its administration of these provisions is evidenced by the fact that there has been no serious objection to them on constitutional or other grounds for the many years they have been in effect. Nevertheless, this fact would not justify their continuance in the face of the present comments which appear to be well taken, as a matter of law, in many areas. In light of the legal precedents striking down restraints on free speech,[1] and the fact that problems under our old Rules of Conduct have arisen infrequently,[2] we have determined to replace § 300.2a of our interim regulation, which embodies much of our prior regulation, with a new provision which plainly restricts conduct rather than speech or communication and limits itself to conduct which is unlawful or poses a serious imminent threat to the fair conduct or completion of a Board proceeding or matter.

Specifically, we have prohibited conduct which attempts, directly or indirectly, to affect the judgment of the Board, any of its Members, or its employees by any unlawful means such as (1) the use of deception; (2) the payment of money or other consideration; or (3) any other action or plan which poses a serious imminent threat to disrupt or interfere with the full and fair completion of a proceeding or matter before the Board. Any such conduct will be deemed a violation of the part and brought within the scope of § 300.20 and the remedial actions enumerated therein.

It is the steadfast opinion of the Board that the foregoing prohibitions will neither unconstitutionally restrain or "chill" protected expression or communication nor open up proceeding to destruction through permitted speech. On the contrary, we believe that with such conduct prohibited and with the responsible and intelligent action we can and do anticipate from persons interested in and participating in Board proceedings, there is no occasion to expect difficulties in maintaining the integrity of our proceedings. In view of the Board's obligation to insure such a result, we shall be vigilant in scrutinizing the conduct of our proceedings and in rectifying difficulties that may arise either on an ad hoc basis or by further rulemaking proceedings. We are also of the view that, to the fullest extent possible, the protections afforded by this part should be applicable equally to nonhearing and rulemaking matters, as the regulation provides. Simple fairness requires that such matters, which are of growing number and importance, should not be subjected to attempts to affect the agency's judgment by the means we have prohibited.

Accordingly, the Board hereby amends its Reissuance of Part 300 of its Procedural Regulations (14 CFR Part 300) effective January 24, 1977, as follows:

1. Section 300.2a is revised as follows:

§ 300.2 Prohibited conduct.

It is improper that any person interested in a proceeding before the Board attempt, directly or indirectly, to affect the judgment of the Board or any of its Members or employees by any unlawful means such as the use of deception, the payment of money or other consideration, or any other action which poses a serious imminent threat to disrupt or interfere with the full and fair completion of the proceeding. Any such conduct is prohibited and will be deemed a violation of this part within the meaning of § 300.20.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[1] We find particularly instructive *Chicago Council of Lawyers* v. *Bauer*, 522 F. 2d 242 (7th Cir. 1975); and the cases cited therein.

[2] See the Board's Opinion in the *Service to Saipan Case*, Docket 24421 (attached to Order 75-11-59) disapproved by the President on other grounds, where we stated after an elaborate investigation of carrier conduct problems, "These circumstances have rarely arisen in prior Board cases and are unlikely to arise in the same fashion in future cases." (Mimeo, p. 3.)

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

[Docket No. C-2857]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Interstate Check Systems, Inc. and Gerald A. McColloum

Subpart—Collecting, assembling, furnishing or utilizing consumer reports: § 13.382 Collecting, assembling, furnishing or utilizing consumer reports; 13.382-1 Confidentiality, accuracy, relevancy, and proper utilization; 13.382-1 (a) Fair Credit Reporting Act; 13.382-5 Formal regulatory and/or statutory requirements; 13.382-5(a) Fair Credit Reporting Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 84 Stat. 1127-36; 15 U.S.C. 1601, et seq.)

In the Matter of Interstate Check Systems, Inc., a corporation, and Gerald A. McColloum, individually and as an officer of said corporation.

Consent order requiring an Indianapolis, Ind., credit reporting firm, among other things to cease collecting, assembling, furnishing or utilizing consumer reports in violation of the Fair Credit Reporting Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

It is ordered, That respondents Interstate Check Systems, Inc., a corporation, its successors and assigns, and its officer Gerald A. McColloum, individually and as an officer of said Interstate Check Systems, Inc., and respondents' officers, agents, representatives and employees, hereafter collectively "respondents", directly or through any corporation, subsidiary, division or other device, in connection with the collecting, preparation, assembling or furnishing of consumer reports, as "consumer report" is defined in section 603(d) of the Fair Credit Reporting Act (Pub. L. 91-508, 15 U.S.C. section 1601 et seq.), shall forthwith cease and desist from:

1. Furnishing any consumer report to any person unless such report is furnished: (a) To a person whom respondent then has reason to believe intends, at the time the information is furnished, to use the information:

(1) In connection with a credit transaction involving the consumer on whom the information is to be furnished and involving the extension of credit to, or review or collection of an account of, the consumer; or

(2) For employment purposes; or

(3) In connection with the underwriting of insurance involving the consumer; or

(4) In connection with a determination of the consumer's eligibility for a license or other benefit granted by a governmental instrumentality required by law to consider an applicant's financial responsibility or status; or

(5) In connection with a business transaction involving each consumer reported upon; or

(b) In response to the order of a court having jurisdiction to issue such order; or

(c) In accordance with the written instructions of the consumer to whom the report relates.

2. Furnishing consumer reports in list form, unless the identity of the consumer to whom the information relates is not disclosed on such list and cannot be determined without the use of a unique identifier, such as social security number, driver's license number, or bank account number. The identifier used must be provided by the consumer at the time of the transaction with the user.

3. Failing to maintain reasonable procedures necessary to limit the furnishing of consumer reports to the purposes listed under section 604 of the Act, as provided by section 607 of the Act.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the preparation and/or furnishing of consumer reports, and that respondents secure a signed statement acknowledging receipt of said order from all such personnel.

It is further ordered, That respondents shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporate respondent which may affect compliance obligations arising out of this order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include his current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That respondent shall, within sixty (60) days after service upon him of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this Order.

[1] Copies of the Complaint and Decision and Order filed with the original document.

Commissioner Dole did not participate by reason of absence.

The Decision and Order was issued by the Commission December 17, 1976.

JOHN F. DUGAN,
Acting Secretary.

[FR Doc.77-2800 Filed 1-27-77;8:45 am]

[Docket No. 9039]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Martin Marietta Corp., et al.

Subpart—Combining or conspiring: § 13.400 To discriminate or stabilize prices through basing point or delivered price systems; § 13.405 To discriminate unfairly or restrictively in general; § 13.431 To exchange future price information; § 13.432 To fix and maintain uniform freight charges. Subpart—Selling and quoting on systematic, price matching basis: § 13.2190 Basing points and delivered price systems.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Martin Marietta Corporation, a Corporation; Ideal Basic Industries, Inc., a Corporation; and OKC Corp., a Corporation.

Consent orders requiring three portland cement manufacturers, Martin Marietta Corporation, Rockville, Md., Ideal Basic Industries, Inc., Denver, Colo., and OKC Corp., Dallas, Tex., among other things to offer, for a ten-year period, a point of origin price for bulk portland cement to a customer each time a delivered price is offered. Customers are given the option of furnishing or arranging transportation from the mill at the point of origin price. The Ideal order defines the point of origin price as the delivered price less the actual freight which would have been incurred to the destination. The other two orders define the point of origin price as the delivered price less the unabsorbed or average freight factor included in it. Further, the orders prohibit the exchange of price information among competitors and control of the place of use of portland cement which has been sold to a customer.

The orders to cease and desist, including further orders requiring report of compliance therewith, are as follows: [1]

ORDER AS TO MARTIN MARIETTA CORPORATION

I

Definitions

For purposes of this Order, the following definitions shall apply:

"Portland cement"—a material sold in bulk which includes types I through V as specified by the American Society for Testing Materials, not including either masonry or white cement.

[1] Copies of the Complaint and Decisions and Orders filed with the original document.

"Point of origin price"—price set by respondent for purchases by a customer at a mill or distribution point from which a delivered price is quoted to that customer. The "point of origin price" shall be no greater than the delivered price offered to the customer less the cost of transportation factor which was included by respondent in the delivered price.

"Delivered price"—price set by respondent for purchases by a customer at a designated destination point. "Delivered price" shall include a cost of transportation factor, which factor shall consist of either (i) the non-absorbed actual freight charge to the designated destination point or (ii) the average freight charge for an established geographic area in which that destination point is located.

II

It is ordered, That respondent, its successors and assigns, and its directors, officers, agents, representatives, employees and affiliates (hereinafter "respondent"), directly or indirectly, through any corporate or other device in connection with the sale or distribution of portland cement:

1. Shall within ninety (90) days from the effective date hereof and for a period of ten (10) years thereafter, where a delivered price is offered to a customer from a mill or distribution point, also allow that customer the option of obtaining a point of origin price at that mill or distribution point and arranging or furnishing transportation from that mill or distribution point for the purchase of portland cement in quantities of at least a truckload in bulk cement vehicles (the minimum truckload tonnage to be the truckload minimum for licensed carriers as established by the federal or state agency having jurisdiction over the applicable tariff) when the customer furnishes or arranges transportation physically compatible with respondent's facilities and complies with reasonable loading schedules and loading procedures of respondent.

2. Shall not exchange with its competitors information concerning prices, discount rates and other terms and conditions pertinent to the sale of portland cement, except in connection with a bona fide sale to, or purchase from, any such competitor or in connection with negotiations related thereto.

3. Shall not control or attempt to control the place of use of portland cement which has been sold to a customer, *provided* that, nothing contained herein shall affect respondent's right to obtain contractual assurances necessary to comply with the Robinson-Patman Act.

III

It is further ordered, That, consistent with the definitions contained in Part I of this Order, nothing contained in this Order shall be interpreted as prohibiting respondent, when acting individually, (1) from exercising its right to establish the price at which and to select the customers to which it shall sell; (2) from selling at a point of origin or delivered price established in good faith to meet the equally low price of a competitor; (3) from absorbing all or any part of actual freight charges on shipment to any geographic area; or (4) from charging the same price to all customers within an established geographic area. No pricing practice engaged in by respondent shall be deemed immune or exempt from the antitrust laws by reason of anything contained in this paragraph.

IV

It is further ordered, That all persons in respondent's organization having sales and policy responsibilities with respect to the subject matter of this Order shall be notified of the terms of this Order.

V

It is further ordered, That respondent, pursuant to § 3.61 of the Commission's rules, within ninety (90) days after this Order becomes effective, submit in writing to the Federal Trade Commission a report setting forth in detail the manner and form in which respondent has complied with this Order.

ORDER AS TO IDEAL BASIC INDUSTRIES, INC.

I

Definitions

For the purposes of this Order, the following definitions shall apply:

"Portland cement"—a material sold in bulk which includes types I through V as specified by the American Society for Testing Materials, not including either masonry or white cement.

"Point of origin price"—a price set by respondent for purchases by a customer at a mill or distribution point from which a delivered price is quoted to that customer. The "point of origin price" shall be no greater than the delivered price offered to the customer less the actual transportation costs which would be incurred by the seller if the sale were made on a delivered basis.

"Delivered price"—a price set by respondent for purchases by a customer at a designated destination point, which price includes the cost of transportation to that designated destination point.

II

It is ordered, That respondent, its successors and assigns, and its directors, officers, agents, representatives, employees and affiliates (hereinafter "respondent"), directly or indirectly, through any corporate or other device in connection with the sale or distribution of portland cement:

1. Shall within ninety (90) days from the effective date hereof and for a period of ten (10) years thereafter, where a delivered price is offered to a customer from a mill or distribution point, also allow that customer the option of obtaining a point of origin price at that mill or distribution point and arranging or furnishing transportation from that mill or distribution point for the purchase of portland cement in quantities of at least a truckload in bulk cement vehicles (the minimum truckload tonnage to be the truckload minimum for licensed carriers as established by the federal or state agency having jurisdiction over the applicable tariff) when the customer furnishes or arranges transportation physically compatible with respondent's facilities and complies with reasonable loading schedules and loading procedures of respondent.

2. Shall not exchange with its competitors information concerning prices, discount rates and other terms and conditions pertinent to the sale of portland cement, except in connection with a bona fide sale to, or purchase from, any such competitor or in connection with negotiations related thereto.

3. Shall not control or attempt to control the place of use of portland cement which has been sold to a customer: *Provided,* That, nothing contained herein shall affect respondent's right to obtain contractual assurances necessary to comply with the Robinson-Patman Act.

III

It is further ordered, That, consistent with the definitions contained in Part I of this Order, nothing contained in this Order shall be interpreted as prohibiting respondent, when acting individually, (1) from exercising its right to establish the price at which and to select the customers to which it shall sell; (2) from selling at a point of origin or delivered price established in good faith to meet the equally low price of a competitor; (3) from absorbing all or any part of actual freight charges on shipment to any geographic area; or (4) from charging the same price to all customers within an established geographic area. No pricing practice engaged in by respondent shall be deemed immune or exempt from the antitrust laws by reason of anything contained in this paragraph.

IV

It is further ordered, That all persons in respondent's organization having sales and policy responsibilities with respect to the subject matter of this Order shall be notified of the terms of this Order.

V

It is further ordered, That respondent, pursuant to § 3.61 of the Commission's rules, within ninety (90) days after this Order becomes effective, submit in writing to the Federal Trade Commission a report setting forth in detail the manner and form in which respondent has complied with this Order.

ORDER AS TO OKC CORP.

I

Definitions

For purposes of this Order, the following definitions shall apply:

"Portland cement"—a material sold in bulk which includes types I through V as specified by the American Society for Testing Materials, not including either masonry or white cement.

"Point of origin price"—price set by respondent for purchases by a customer at a mill or distribution point from which a delivered price is quoted to that customer. The "point of origin price" shall be no greater than the delivered price offered to the customer less the cost of transportation factor which was included by respondent in the delivered price.

"Delivered price"—price set by respondent for purchases by a customer at a designated destination point. "Delivered price" shall include a cost of transportation factor, which factor shall consist of either (i) the non-absorbed actual freight charge to the designated destination point or (ii) the average freight charge for an established geographic area in which that destination point is located.

II

It is ordered, That respondent, its successors and assigns, and its directors, officers, agents, representatives, employees and affiliates (hereinafter "respondent"), directly or indirectly, through any corporate or other device in connection with the sale or distribution of portland cement:

1. Shall within ninety (90) days from the effective date hereof and for a period of ten (10) years thereafter, where a delivered price is offered to a customer from a mill or distribution point, also allow that customer the option of obtaining a point of origin price at that mill or distribution point and arranging or furnishing transportation from that mill or distribution point for the purchase of portland cement in quantities of at least a truckload in bulk cement vehicles (the minimum truckload tonnage to be the truckload minimum for licensed carriers as established by the federal or state agency having jurisdiction over the applicable tariff) when the customer furnishes or arranges transportation physically compatible with respondent's facilities and complies with reasonable loading schedules and loading procedures of respondent.

2. Shall not exchange with its competitors information concerning prices, discount rates and other terms and conditions pertinent to the sale of portland cement, except in connection with a bona fide sale to, or purchase from, any such competitor or in connection with negotiations related thereto.

3. Shall not control or attempt to control the place of use of portland cement which has been sold to a customer: *Provided,* That, nothing contained herein shall affect respondent's right to obtain contractual assurances necessary to comply with the Robinson-Patman Act.

III

It is further ordered, That, consistent with the definitions contained in Part I of this Order, nothing contained in this Order shall be interpreted as prohibiting respondent, when acting individually, (1) from exercising its right to establish the price at which and to select the customers to which it shall sell; (2) from selling at a point of origin or delivered price established in good faith to meet the equally low price of a competitor; (3) from absorbing all or any part of actual freight charges on shipment to any geographic area; or (4) from charging the same price to all customers within an established geographic area. No pricing practice engaged in by respondent shall be deemed immune or exempt from the antitrust laws by reason of anything contained in this paragraph.

IV

It is further ordered, That all persons in respondent's organization having sales and policy responsibilities with respect to the subject matter of this Order shall be notified of the terms of this Order.

V

It is further ordered, That respondent, pursuant to § 3.61 of the Commission's rules, within ninety (90) days after this Order becomes effective, submit in writing to the Federal Trade Commission a report setting forth in detail the manner and form in which respondent has complied with this Order.

The Decisions and Orders were issued by the Commission December 20, 1976.

JOHN F. DUGAN,
Acting Secretary.

Title 21—Food and Drugs

CHAPTER 1—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

[Docket No. 75N-0050]

PART 314—NEW DRUG APPLICATIONS

PART 320—BIOAVAILABILITY AND BIOEQUIVALENCE REQUIREMENTS

Procedures for Establishing a Bioequivalence Requirement

Correction

In FR Doc. 77-568 appearing at page 1624 in the issue of Friday, January 7, 1977 the following correction should be made:

On page 1628, third column, the line appearing immediately above paragraph "23" should be deleted and the following should be inserted: "are not bioequivalent drug products.".

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 522—IMPLANTATION OR INJECTABLE DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Mepivacaine Hydrochloride Injection

The Food and Drug Administration approves a new animal drug application (100-703V) filed by Winthrop Laboratories, Division of Sterling Drug, Inc., 90 Park Ave., New York, NY 10016, proposing safe and effective use of mepivacaine hydrochloride injection as a local anesthetic for horses. The approval is effective January 28, 1977.

The Commissioner of Food and Drugs is amending Part 522 (21 CFR Part 522) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 522 is amended by adding a new § 522.1372 to read as follows:

§ 522.1372 Mepivacaine hydrochloride injection.

(a) *Specifications.* Each milliliter of sterile aqueous solution contains 20 milligrams of mepivacaine hydrochloride.

(b) *Sponsor.* See No. 000024 in § 510.600(c) of this chapter.

(c) *Conditions of use.* (1) It is intended for use in horses as a local anesthetic for infiltration, nerve block, intra-articular and epidural anesthesia and topical and/or infiltration anesthesia of the laryngeal mucosa prior to ventriculectomy.

(2) It is administered as follows: for nerve block, 3 to 15 milliliters; for epidural anesthesia, 5 to 20 milliliters; for intra-articular anesthesia, 10 to 15 milliliters; for infiltration, as required; for anesthesia of the laryngeal mucosa prior to ventriculectomy, by topical spray, 25 to 40 milliliters, by infiltration, 20 to 50 milliliters.

(3) Not for use in horses intended for food.

(4) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: This regulation shall be effective January 28, 1977.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: January 21, 1977.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

[FR Doc.77-2778 Filed 1-27-77;8:45 am]

PART 540—PENICILLIN ANTIBIOTIC DRUGS FOR ANIMAL USE

Subpart A—Oral Dosage Forms

AMOXICILLIN TRIHYDRATE FOR ORAL SUSPENSION

The Food and Drug Administration approves a new animal drug application (NADA 55-085V) filed by Beecham Laboratories, Division of Beecham, Inc., Bristol, TN 37620, proposing safe and effec-

tive use of amoxicillin trihydrate for oral suspension in dogs and cats for treating certain bacterial infections of the respiratory tract, genitourinary tract, gastrointestinal tract, skin, and soft tissues. The approval is effective January 28, 1977.

The Commissioner of Food and Drugs is amending Part 540 (21 CFR Part 540) to reflect this approval.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (i) and (n), 82 Stat. 347 (21 U.S.C. 360b (i) and (n))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), Part 540 is amended by adding new § 540.103b to read as follows:

§ 540.103b Amoxicillin trihydrate for oral suspension.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Amoxicillin trihydrate for oral suspension is a mixture of amoxicillin trihydrate with one or more suitable and harmless colorings, flavorings, buffers, sweetening ingredients, preservatives, stabilizers, and suspending agents. When reconstituted as directed in the labeling, it contains amoxicillin trihydrate equivalent to 50 milligrams of amoxicillin per milliliter. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the amount of amoxicillin that it is represented to contain. Its moisture content is not more than 3.0 percent. Its pH, when reconstituted as directed in the labeling, is not less than 5.0 and not more than 7.5. It passes the identity test. The amoxicillin trihydrate used conforms to the standards prescribed by § 440.3(a)(1) of this chapter.

(2) *Labeling.* It shall be labeled in accordance with the requirements of paragraph (c) of this section and § 510.55 of this chapter; in addition, this drug shall be labeled "amoxicillin for oral suspension."

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 514.50 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The amoxicillin trihydrate used in making the batch for potency, safety, moisture, pH, amoxicillin content, concordance, crystallinity, and identity.

(b) The batch for potency, moisture, pH, and identity.

(ii) Samples required:

(a) The amoxicillin trihydrate used in making the batch: 12 packages, each containing approximately 300 milligrams.

(b) The batch: A minimum of six immediate containers.

(b) *Tests and methods of assay—(1) Potency.* Assay for potency by either of the following methods; however, the results obtained from the iodometric assay shall be conclusive:

(i) *Microbiological agar diffusion assay.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Reconstitute the drug as directed in the labeling. Place an accurately measured representative portion of the sample into a suitable volumetric flask and dilute to volume with 0.1*M* potassium phosphate buffer, pH 8.0 (solution 3), to give a stock solution of convenient concentration. Mix well. Further dilute an aliquot with solution 3 to the reference concentration of 0.1 microgram of amoxicillin per milliliter (estimated).

(ii) *Iodometric assay.* Proceed as directed in § 436.204 of this chapter, preparing the sample as follows: Reconstitute the drug as directed in the labeling. Place an accurately measured aliquot (usually a single dose) into an appropriately sized volumetric flask and dilute to volume with 1 percent potassium phosphate buffer, pH 6.0 (solution 1). Mix well. Further dilute with solution 1 to the prescribed concentration.

(2) *Moisture.* Proceed as directed in § 436.201 of this chapter.

(3) *pH.* Proceed as directed in § 436.202 of this chapter, using the suspension reconstituted as directed in the labeling.

(4) *Identity.* Proceed as directed in § 436.311 of this chapter, preparing the sample solution as follows: Place a 2-gram weighed portion of the sample into a 50-milliliter volumetric flask. Dilute to volume with 0.1*N* hydrochloric acid and shake for 5 minutes.

(c) *Conditions of marketing—(1) Specifications.* The drug conforms to the requirements for certification as in paragraph (a) of this section.

(2) *Sponsor.* No. 000029 in § 510.600 (c) of this chapter.

(3) *Conditions of use.* (i) *Dogs.* (a) The drug is used for the treatment of infections caused by susceptible strains of organisms as follows: respiratory tract (tonsilitis, tracheobronchitis) caused by *Staphylococcus aureus, Streptococcus spp., Escherichia coli,* and *Proteus mirabilis;* genitourinary tract (cystitis) caused by *Staphylococcus aureus, Streptococcus spp., Escherichia coli,* and *Proteus mirabilis;* gastrointestinal tract (bacterial gastroenteritis) caused by *Staphylococcus aureus, Streptococcus spp., Escherichia coli,* and *Proteus mirabilis;* bacterial dermatitis caused by *Staphylococcus aureus, Streptococcus, spp.,* and *Proteus mirabilis;* and soft tissues (abscesses, lacerations, and wounds) caused by *Staphylococcus aureus, Streptococcus spp., Escherichia coli,* and *Proteus mirabilis.*

(b) It is administered to dogs at a dosage of 5 milligrams per pound of body weight twice a day, for 5 to 7 days or 48 hours after all symptoms have subsided.

(ii) *Cats.* (a) The drug is used for the treatment of infections caused by susceptible strains of organisms as follows: upper respiratory tract due to *Staphylococcus spp., Streptococcus spp., Hemophilus spp., Escherichia coli, Pasteurella spp.,* and *Proteus mirabilis;* genitourinary tract (cystitis) due to *Staphylococcus aureus, Streptococcus spp., Escherichia coli, Proteus mirabilis,* and *Corynebacterium spp.;* gastrointestinal tract due to *Escherichia coli, Proteus spp., Staphylococcus spp.,* and *Streptococcus spp.;* skin and soft tissue (abscesses, lacerations, and wounds) due to *Staphylococcus spp., Streptococcus spp., Escherichia coli,* and *Pasteurella multocida.*

(b) It is administered to cats at a dosage of 50 milligrams (5 to 10 milligrams per pound) once daily for 5 to 7 days or 48 hours after all symptoms have subsided.

(iii) Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: This regulation shall be effective January 28, 1977.

(Sec. 512 (i) and (n), 82 Stat. 347 (21 U.S.C. 360b (i) and (n)))

Dated: January 21, 1977.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS, DEPARTMENT OF THE TREASURY

SUBCHAPTER M—ALCOHOL, TOBACCO AND OTHER EXCISE TAXES

[T.D. ATF-41; Reference Nos. 277 & 287]

PART 178—COMMERCE IN FIREARMS AND AMMUNITION

PART 181—COMMERCE IN EXPLOSIVES

Black Powder

On December 22, 1975, the Bureau of Alcohol, Tobacco and Firearms published in the FEDERAL REGISTER (40 FR 59207) an amended notice of proposed rulemaking to amend 27 CFR Part 178 (Commerce in Firearms and Ammunition) and Part 181 (Commerce in Explosives) for the purpose of implementing Pub. L. 93–639 concerning black powder. This notice superseded an earlier notice of proposed rulemaking relative to the black powder issue, published on May 20, 1975 (40 FR 21961), by (1) proposing more liberal requirements regarding the preparation and disposition of a transaction record than what had initially been proposed, and (2) eliminating the controls on percussion caps and other igniters, which also had initially been proposed.

BACKGROUND

Pub. L. 93–639 removed the exemption in 18 U.S.C. 845(a)(5) on black powder in amounts of five pounds or less, whether commercially or otherwise manufactured and regardless of its intended use. In lieu of the five-pound exemption, the amended law inserted an exemption for black powder in quantities of fifty pounds or less, percussion caps, safety and pyrotechnic fuses, quills, quick and slow matches, and friction primers; however, the new exemption is specifically restricted to (1) commercially manufactured black powder, and (2) black powder intended to be used solely for sporting, recreational, or cultural purposes in antique firearms, as defined in 18 U.S.C. 921(a)(16), or in antique devices, as exempted from the term "destructive device" in 18 U.S.C. 921(a)(4). 18 U.S.C. 921(a)(4) was also amended to include language exempting antiques such as muzzle-loading cannons used for sporting, recreational, or cultural purposes, from the definition of "destructive device."

The House Judiciary Committee Report No. 93–1570, relating to the new law, placed several expectations on the Bureau. The report made it clear that the intent of Congress was to (1) require retailers to maintain records of their sales of exempted black powder, and (2) require that sporting users identify themselves on the purchase of exempted black powder. This latter expectation was for the purpose of insuring that only sporting users had access to black powder under the new statutory exemption.

In meeting these expectations, the Bureau's proposed regulations required first, that retailers of black powder obtain from the purchaser an executed transaction form which shows the purchaser's name and address and certification that the black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Also, to comply with the intent of Congress that only antique firearms enthusiasts have access to exempted black powder, the purchaser would provide the retailer with proof of identity that he is, in fact, the person executing the transaction form.

Further, the law contemplates that a dealer will maintain records establishing that the purchaser intends to use black powder for the purposes specified in the law. We must, therefore, require that all dealers be licensed to permit ATF officers to enter business premises and inspect records and thereby enable ATF to maintain a check on the distribution of black powder. Moreover, in order to protect the public safety, approval of magazines for the storage of black powder by persons engaged in the business of selling black powder is essential.

SUMMARY OF COMMENTS

Initially, a 30-day period was afforded the public for commenting on the amended proposals; however, to allow more time to evaluate and respond to our proposed regulations, notice of an extension of the comment period for an additional 45 days was published January 27, 1976 (41 FR 3877). Over 1100 comments were received from the public, including letters from sporting magazines; Congressional inquiries as a result of constituent mail; group petitions; and comments from individual antique firearms enthusiasts. The vast majority of those persons commenting were opposed to our proposed regulations on black powder. In fact, a large percentage were opposed to any regulations whatsoever on the issue. Most were of the opinion that ATF had exceeded its authority with respect to our interpretation of the new law. Although the House of Representative Committee Report No. 93–1570, which accompanied the legislation approved by the full Congress, specifically addressed the matter of ATF regulations that would be necessary to implement the bill, many persons still felt that any controls placed on the sale of black powder in quantities of fifty pounds or less were inappropriate.

Those comments which were of a more specific nature objected to (1) the requirement that all dealers in black powder, regardless of the quantity being handled, obtain an explosives dealer's license, and (2) the requirement that a record, on which the purchaser identifies himself and certifies that the black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, be maintained by dealers on all transactions covered by the new exemption.

As explained in the background above, because of the expectations set forth in the House Committee Report, the intent of Congress in passing Pub. L. 93–639 was clearly to place certain restrictions on sales of black powder so as to facilitate enforcement of the law and prosecution of violators. Thus, the Bureau has not changed its basic position concerning the licensing of all black powder dealers, certification by purchasers of exempted black powder, or maintenance of records of transactions in black powder, as originally proposed. Persons who sell black powder, regardless of the quantities involved, must be licensed and must maintain records of sales. Also, purchasers of black powder must identify themselves on purchase of black powder and must certify that the black powder is intended to be used for lawful purposes.

CHANGES TO THE AMENDED NOTICE

In view of the fact that our regulations are imposing new requirements on certain persons, a period of ninety days from the date the regulations are published in the FEDERAL REGISTER is being granted before the regulations take effect. This period allows time for affected persons to familiarize themselves with the new provisions and take any necessary actions. Several sections in Part 181 are amended to reflect the date the regulations become effective and make it clear that this part fully applies to any person engaging in business or operations requiring a license or permit under Part 181 after the effective date. A non-licensed person who has been dealing in black powder in quantities not exceeding five pounds and who wishes to continue dealing in black powder, will be required to file an application for an explosives dealer's license prior to the effective date of these regulations in order to sell black powder after that date. A person who files the required application before the effective date, may sell black powder under 18 U.S.C. Chapter 40, as amended by Pub. L. 93–639, without a license until such time as his application is acted upon by the Bureau.

(Sections 181.1 and 181.45 amended; sections 181.122, 181.123, 181.124, and 181.125 further amended.)

At this time, we are also amending several sections in Part 181 to eliminate references to the effective date of the Organized Crime Control Act of 1970 (October 15, 1970) and the implementing regulations (February 12, 1971). It is no longer necessary to provide specific procedures for those persons who were engaged in business or operations without a license or permit prior to such law and implementing regulations, and who subsequently were required to meet all the provisions of the Organized Crime Control Act of 1970 and Part 181.

(Secs. 181.1, 181.45, and 181.109 amended; secs. 181.122, 181.123, 181.124, and 181.125 further amended.)

In addition to the above editorial changes, we are revising the procedures for reporting thefts or losses of explosive materials. The law requires that all persons report thefts or losses to ATF and local authorities within 24 hours after the discovery of such thefts or losses. Regulations provide that licensees or permittees report thefts or losses to ATF within 24 hours of discovery on Form 4712, Report of Theft or Loss—Explosive Materials, and that all other persons notify ATF in writing within the 24-hour period following discovery. Timely receipt of a report of a theft or loss of explosive materials is critically important to a criminal investigation. Thus, to insure that appropriate ATF officials are informed as soon as possible, we are requiring that the nearest ATF office be notified by telephone within 24 hours of the discovery of a theft or loss, in addition to reporting by mail on Form 4712 or in writing. (§ 181.30 amended.)

SPECIFIC CHANGES TO THE REGULATIONS

In consideration of the foregoing, the proposed regulations, as published in the FEDERAL REGISTER on December 22, 1975, are hereby adopted subject to the following changes:

Section 178.11 is amended as follows:

§ 178.11 Meaning of terms.

* * * * *

Destructive device. (a) Any explosive, incendiary, or poison gas (1) bomb, (2) grenade, (3) rocket having a propellant charge of more than 4 ounces, (4) missile having an explosive or incendiary charge of more than one-quarter ounce, (5) mine, or (6) device similar to any of the devices described in the preceding paragraphs of this definition; (b) any type of weapon (other than a shotgun or a shotgun shell which the Director finds is generally recognized as particularly

suitable for sporting purposes) by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than one-half inch in diameter; and (c) any combination of parts either designed or intended for use in converting any device into any destructive device described in paragraph (a) or (b) of this section and from which a destructive device may be readily assembled. The term shall not include any device which is neither designed nor redesigned for use as a weapon; any device, although originally designed for use as a weapon, which is redesigned for use as a signalling, pyrotechnic, line throwing, safety, or similar device; surplus ordnance sold, loaned, or given by the Secretary of the Army pursuant to the provisions of section 4684 (2), 4685, or 4686 of title 10, United States Code; or any other device which the Director finds is not likely to be used as a weapon, is an antique, or is a rifle which the owner intends to use solely for sporting, recreational, or cultural purposes.

Paragraph (c) of § 181.1 is revised to (1) delete language governing persons engaged in business or operations under this part on October 15, 1970, and (2) add language to govern persons engaged in business or operations under this part on January 4, 1975.

§ 181.1 Scope of regulations.

• • • • •

(c) *Persons engaged in business or operations in black powder on January 4, 1975.* This part fully applies to persons engaged in business or operations in black powder on January 4, 1975, requiring a license or permit under this part, who have filed an application for such license or permit prior to April 28, 1977, and who are continuing such business or operations pending final action on such application.

Section 181.11 is amended as follows:

§ 181.11 Meaning of terms.

• • • • •

Assistant Regional Commissioner. Whenever used in this part shall mean a regional director as defined in this section.

• • • • •

Regional director. A regional director who is responsible to, and functions under the direction and supervision of, the Director, Bureau of Alcohol, Tobacco, and Firearms.

• • • • •

Section 181.22 is revised as follows:

§ 181.22 Alternate methods or procedures; and emergency variations from requirements.

(a) *Alternate methods or procedures.* The permittee or licensee, on specific approval by the Director as provided by this paragraph, may use an alternate method or procedure in lieu of a method or procedure specifically prescribed in this part. The Director may approve an alternate method or procedure, subject to stated conditions when he finds that—

(1) Good cause has been shown for the use of the alternate method or procedure;

(2) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that such alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and

(3) The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of this part.

Where the permittee or licensee desires to employ an alternate method or procedure, he shall submit a written application, in triplicate, to the regional director, for transmittal to the Director. The application shall specifically describe the proposed alternate method or procedure and shall set forth the reasons therefor. Alternate methods or procedures shall not be employed until the application has been approved by the Director. The permittee or licensee shall, during the period of authorization of an alternate method or procedure, comply with the terms of the approved application. Authorization of any alternate method or procedure may be withdrawn whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of such authorization. As used in this paragraph, alternate methods or procedures shall include alternate construction or equipment.

(b) *Emergency variations from requirements.* The Director may approve construction, equipment, and methods of operation other than as specified in this part, where he finds that an emergency exists and the proposed variations from the specified requirements are necessary and the proposed variations—

(1) Will afford security and protection that are substantially equivalent to those prescribed in this part;

(2) Will not hinder the effective administration of this part; and

(3) Will not be contrary to any provisions of law.

Variations from requirements granted under this paragraph are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with such procedures, conditions, and limitations shall automatically terminate the authority for such variations and the licensee or permittee thereupon shall fully comply with the prescribed requirements of regulations from which the variations were authorized. Authority for any variation may be withdrawn whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of such variation. Where the licensee or permittee desires to employ such variation, he shall submit a written application, in triplicate, to the regional director, for transmittal to the Director. The application shall describe the proposed variation and set forth the reasons therefor. Variations shall not be employed until the application has been approved, except when the emergency requires immediate action to correct a situation that is threatening to life or property. Such corrective action may then be taken concurrent with the filing of the application and notification of the Director via telephone.

(c) *Retention of approved variations.* The licensee or permittee shall retain, as part of his records available for examination by alcohol, tobacco and firearms officers, any application approved by the Director under the provisions of this section.

Section 181.26 is amended as follows:

§ 181.26 Prohibited shipment, transportation, or receipt of explosive materials.

(a) No person, other than a licensed importer, licensed manufacturer, licensed manufacturer-limited, licensed dealer, or permittee, shall transport, ship, cause to be transported, or receive in interstate or foreign commerce any explosive materials: *Provided*, That the provisions of this paragraph shall not apply to—

(1) The transportation, shipment, or receipt of explosive materials by a nonlicensed person or nonpermittee who lawfully purchases explosive materials from a licensee in a State contiguous to the purchaser's State of residence if, (i) the purchaser's State of residence has enacted legislation, currently in force, specifically authorizing a resident of that State to purchase explosive materials in a contiguous State, (ii) the provisions of § 181.105(c) are fully complied with, and (iii) the purchaser is not otherwise prohibited under paragraph (b) of this section from shipping or transporting explosive materials in interstate or foreign commerce or receiving explosive materials which have been shipped or transported in interstate or foreign commerce; or

(2) The lawful purchase by a nonlicensee or nonpermittee of commercially manufactured black powder in quantities not to exceed fifty pounds, if (i) the black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, and (ii) the provisions of § 181.105(g) are fully complied with.

(b) No person may ship or transport any explosive material in interstate or foreign commerce or receive any explosive materials which have been shipped or transported in interstate or foreign commerce who (1) is under indictment for, or who has been convicted in any court of, a crime punishable by imprisonment for a term exceeding 1 year, (2) is a fugitive from justice, (3) is an unlawful user of or addicted to marihuana (as defined in section 4761 of the Internal Revenue Code of 1954; 26 U.S.C. 4761) or any depressant or stimulant drug as defined in section 201(v) of the Federal Food, Drug, and Cosmetic Act; 21 U.S.C. 321 (v)), or narcotic drug (as defined in section 4731(a) of the Internal Revenue Code of 1954; 26 U.S.C. 4731(a)), or (4) has been adjudicated as a mental defective or has been committed to a mental institution.

Section 181.30 is amended to change the procedure for reporting thefts or losses of explosive materials.

§ 181.30 Reporting theft or loss of explosive materials.

Any licensee or permittee who has knowledge of the theft or loss of any explosive materials from his stock shall, within 24 hours of discovery thereof, report such theft or loss by telephone to the nearest ATF office and on Form 4712 in accordance with the instructions on the form. Theft or loss of any explosive materials shall also be reported to appropriate local authorities. Any other person who has knowledge of the theft or loss of any explosive materials from his stock shall, within 24 hours of discovery thereof, report such theft or loss by telephone and in writing to the nearest ATF office. Such theft or loss shall also be reported to appropriate local authorities.

Section 181.41(a) is amended as follows:

§ 181.41 General.

(a) Each person intending to engage in business as an importer or manufacturer of, or a dealer in, explosive materials, including black powder, shall, before commencing such business, obtain the license required by this subpart for the business to be operated. Each person who intends to acquire for use explosive materials from a licensee in a State other than the State in which he resides, or from a foreign country, or who intends to transport explosive materials in interstate or foreign commerce, shall obtain a permit under the provisions of this subpart: *Provided*, That it is not necessary to obtain such permit if the user intends to lawfully purchase—

(1) Explosive materials from a license in a State contiguous to the user's State of residence and the user's State of residence has enacted legislation, currently in force, specifically authorizing a resident of that State to purchase explosive materials in a contiguous State, or

(2) Commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices.

• • • • •

Section 181.45 is amended to (1) delete language governing persons engaged in business or operations under this part on October 15, 1970, and (2) add language to govern persons engaged in business or operations under this part on January 4, 1975.

§ 181.45 Original license or permit.

(a) Any person who intends to engage in business as an explosive materials importer, manufacturer, or dealer, or who has not timely submitted application for renewal of a previous license issued under this part, shall file with the service center director for the internal revenue district in which the applicant is to do business an application, Form 4705, in duplicate. The application must be executed under the penalties of perjury and the penalties imposed by 18 U.S.C. 844(a). The application shall be accompanied by the appropriate fee in the form of (1) cash, or (2) money order or check made payable to the Internal Revenue Service. Forms 4705 may be obtained from any regional director or from any district director.

(b) Any person, except as provided in § 181.41(a), who intends to acquire explosive materials from a licensee in a State other than the State in which he resides, or from a foreign country, or who intends to transport explosive materials in interstate or foreign commerce, or who has not timely submitted application for renewal of a previous permit issued under this part, shall file with the service center director for the internal revenue district in which is located his legal residence or principal place of business an application, Form 4707, in duplicate. The application must be executed under the penalties of perjury and the penalties imposed by 18 U.S.C. 844(a). The application shall be accompanied by the appropriate fee in the form of (1) cash, or (2) money order or check made payable to the Internal Revenue Service. Forms 4707 may be obtained from any regional director or from any district director.

(c) Any person engaged in business or operations as a dealer in, or as an importer or manufacturer or user of, black powder requiring a license or permit under this part, and who was engaged in such business or operations on January 4, 1975, and who has filed an application for a license or permit under the provisions of this part prior to April 28, 1977, may continue such business or operations pending final action on his application.

Paragraph (g) is added to § 181.105 as follows:

§ 181.105 Distributions to nonlicensees and nonpermittees.

• • • • •

(g) Notwithstanding any other provision of this section, a licensed importer, licensed manufacturer, or licensed dealer, or a licensed manufacturer-limited or permittee disposing of surplus stocks, may sell or distribute commercially manufactured black powder in quantities of fifty pounds or less to a nonlicensee or nonpermittee if:

(1) The black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, and

(2) The nonlicensee or nonpermittee furnishes to the licensee the transaction record, Form 5400.3, required by § 181.130.

Section 181.106(a) is amended as follows:

§ 181.106 Certain prohibited distributions.

(a) A licensed importer, licensed manufacturer, licensed manufacturer-limited, or licensed dealer shall not distribute explosive materials to any person not licensed or holding a permit under this part, who the licensee knows or has reason to believe does not reside in the State in which the licensee's place of business is located: *Provided*, That the foregoing provisions of this paragraph shall not apply to:

(1) The distribution of explosive material to a resident of a State contiguous to the State in which the licensee's place of business is located, if the requirements of § 181.105(c) are fully met, or

(2) The purchase of commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, if the requirements of § 181.105(g) are fully met.

• • • • •

Section 181.108 is revised as follows:

§ 181.108 Importation.

(a) Explosive materials imported or brought into the United States by a licensed importer or permittee may be released from customs custody to the licensed importer or permittee upon proof of his status as a licensed importer or permittee. Such status shall be established by the licensed importer or permittee furnishing to the customs officer a certified copy of his license or permit (see § 181.104).

(b) A nonlicensee or nonpermittee may import or bring into the United States commercially manufactured black powder in quantities not to exceed fifty pounds. Upon submitting to the customs officer completed Form 5400.3, certifying that the black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, black powder may be released from customs custody. The disposition of the executed Form 5400.3 shall be in accordance with the instructions on the form.

(c) The provisions of this section are in addition to, and are not in lieu of, any applicable requirement under 27 CFR Part 47.

Section 181.109 is amended to delete language referring to the February 12, 1971, effective date of the regulations implementing the Organized Crime Control Act of 1970.

§ 181.109 Identification of explosive materials.

Each licensed manufacturer of explosive materials shall legibly identify by marking all explosive materials he manufactures for sale or distribution. The

marks required by this section shall identify the manufacturer and the location, date, and shift of manufacture. The licensed manufacturer shall place on each cartridge, bag, or other immediate container of explosive materials manufactured for sale or distribution the required mark which shall also be placed on the outside container, if any, used for their packaging: *Provided,* That with respect to explosive materials of small size not suitable for marking on the individual item (for example, blasting caps), it shall only be necessary to place such identification marks on the containers used for their packaging.

Section 181.122 is amended to (1) delete from paragraph (a) reference to the February 12, 1971, effective date for recordkeeping requirements for importers under this part, (2) insert in paragraph (a) recordkeeping requirements for persons engaged in business or operations as importers under this part on January 4, 1975, and (3) add paragraph (f) as follows:

§ 181.122 Records maintained by importers.

(a) Each licensed importers of explosive materials shall take true and accurate inventories which shall include all explosive materials on hand required to be accounted for in the records kept under this part. The licensed importer shall take such an inventory (1) at the time of commencing business, which shall be the effective date of the license issued upon original qualification under this part, or in the case of an importer of black powder who was not required to obtain a license under this part prior to January 4, 1975, such an inventory shall be taken as of April 28, 1977, or at the time of commencing business subsequent thereto; (2) at the time of changing the location of his business to another region; (3) at the time of discontinuing business; and (4) at such other times as the regional director may in writing require. Each inventory shall be prepared in duplicate, the original of which shall be submitted to the regional director, and the duplicate shall be retained by the licensed importer. (See also § 181.127.)

* * * * *

(f) Each licensed importer shall maintain separate records of sales or other distribution made to nonlicensees or nonpermittees of commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Such records shall be maintained in the form and manner prescribed by § 181.130.

Section 181.123 is amended to (1) delete from paragraph (a) reference to the February 12, 1971, effective date for recordkeeping requirements for manufacturers under this part, (2) insert in paragraph (a) recordkeeping requirements for persons engaged in business or operations as manufacturers under this part on January 4, 1975, and (3) add a paragraph (f) as follows:

§ 181.123 Records maintained by licensed manufacturers.

(a) Each licensed manufacturer shall take true and accurate inventories which shall include all explosive materials on hand required to be accounted for in the records kept under this part. The licensed manufacturer shall take such an inventory (1) at the time of commencing business, which shall be the effective date of the license issued upon original qualification under this part, or in the case of a manufacturer of black powder who was not required to obtain a license under this part prior to January 4, 1975, such an inventory shall be taken as of April 28, 1977, or at the time of commencing business subsequent thereto; (2) at the time of changing the location of his premises to another region; (3) at the time of discontinuing business; and (4) at such other times as the regional director may in writing require. Each inventory shall be prepared in duplicate, the original of which shall be submitted to the regional director, and the duplicate shall be retained by the licensed manufacturer. (See also § 181.127.)

* * * * *

(f) Each licensed manufacturer shall maintain separate records of sales or other distributions made to nonlicensees or nonpermittees of commercial manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Such records shall be maintained in the form and manner prescribed by § 181.130.

Section 181.124 is further amended to (1) delete from paragraph (a) reference to the February 12, 1971, effective date for recordkeeping requirements for dealers under this part, (2) insert in paragraph (a) recordkeeping requirements for persons engaged in business or operations as dealers under this part on January 4, 1975, and (3) add paragraph (g) as follows:

§ 181.124 Records maintained by dealers.

(a) Each licensed dealer shall take true and accurate inventories which shall include all explosive materials on hand required to be accounted for in the records kept under this part. The licensed dealer shall take such an inventory (1) at the time of commencing business, which shall be the effective date of the license issued upon original qualification under this part, or in the case of a dealer in black powder who was not required to obtain a license under this part prior to January 4, 1975, such an inventory shall be taken as of April 28, 1977, or at the time of commencing business subsequent thereto; (2) at the time of changing the location of his premises to another region; (3) at the time of discontinuing business; and (4) at such other times as the regional director may in writing require. Each inventory shall be prepared in duplicate, the original of which shall be submitted to the regional director, and the duplicate shall be retained by the licensed dealer. (See also § 181.127.)

(g) Each licensed dealer shall maintain separate records of the sales or other distributions made to nonlicensees or nonpermittees of commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Such records shall be maintained in the form and manner prescribed by § 181.130.

Section 181.125 is amended to (1) delete from paragraph (a) reference to the February 12, 1971, effective date for recordkeeping requirements for manufacturers-limited and permittees under this part, (2) insert in paragraph (a) recordkeeping requirements for persons engaged in business or operations as manufacturers-limited or permittees under this part on January 4, 1975, and (3) amend paragraphs (b) and (c) as follows:

§ 181.125 Records maintained by licensed manufacturers-limited and permittees.

(a) Each licensed manufacturer-limited and each permittee shall take true and accurate inventories which shall include all explosive materials on hand required to be accounted for in the records kept under this part. Such inventory shall be made (1) at the time of commencing business, which shall be the effective date of the license or permit issued upon original qualification under this part, or in the case of a manufacturer-limited of black powder or a permittee using black powder who was not required to obtain a license or permit under this part prior to January 4, 1975, such an inventory shall be taken as of April 28, 1977, or at the time of commencing business subsequent thereto; (2) at the time of changing the location of his premises to another region; (3) at the time of discontinuing business; and (4) at such other times as the regional director may in writing require. Each inventory shall be prepared in duplicate, the original of which shall be submitted to the regional director, and the duplicate shall be retained by the licensed manufacturer-limited. (See also § 181.127.)

(b) A licensed manufacturer-limited disposing of surplus stocks of explosive materials to other licensees or to permittees shall record in the permanent record not later than the close of the next business day following the date of the disposition, the information prescribed in § 181.123(c)(1). Each licensed manufacturer-limited shall maintain separate records of dispositions of surplus stocks of explosive materials to nonlicensees or nonpermittees. Such records shall be maintained in the form and manner as prescribed by § 181.126. Each licensed manufacturer-limited shall maintain separate records of dispositions of surplus stocks of commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Such records shall be

maintained in the form and manner prescribed by § 181.130.

(c) Each permittee shall record in a permanent record the manufacturers' marks of identification (if any), the quantity and class of explosive materials, as prescribed in the Explosives List, the daily acquires, the date of such acquisition, and the name, address and license number of the person from whom explosive materials were obtained. The information rqeired by this paragraph shall be recorded not later than the close of the next business day following the date of such acquisition. A permittee disposing of surplus stocks of explosive materials to other permittees or to licensees shall record in the permanent record not later than the close of the next business day following the date of the disposition, the information prescribed in § 181.124(d). Each permittee shall maintain separate records of dispositions of surplus stocks of explosive materials to nonlicensees or nonpermittees. Such records shall be maintained in the form and manner as prescribed by § 181.126. Each permittee shall maintain separate records of dispositions of surplus stocks of commercially manufactured black powder in quantities not to exceed fifty pounds, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices. Such records shall be maintained in the form and manner as prescribed by § 181.130.

* * * * *

Section 181.126 (c) and (f) are amended as follows:

§ 181.126 Explosives transaction record.

* * * * *

(c) Form 4710 shall be completed in duplicate, the original of which shall be retained by the licensee or permittee as part of his permanent records in accordance with the requirements in paragraph (d) of this section, and the copy shall be forwarded in accordance with the instructions on the form, on or before the close of business on the business day next succeeding that on which the transaction occurs.

* * * * *

(f) A licensee or permittee may obtain, upon request, a supply of Form 4710 from the Director.

Section 181.130 is added as follows:

§ 181.130 Transaction record for black powder to be used in antique firearms or in antique devices.

(a) A licensee or permittee shall not sell or otherwise distribute to a nonlicensee or nonpermittee commercially manufactured black powder in quantities of fifty pounds or less, intended to be used solely for sporting, recreational, or cultural purposes in antique firearms or in antique devices, unless he records the transaction on Form 5400.3.

(b) Prior to the sale or other distribution of the black powder in paragraph (a) of this section to a nonlicensee or nonpermittee who is acquiring it under the provisions contained in § 181.105(g), the licensee or permittee so distributing the black powder shall obtain an executed Form 5400.3 from the distributee. The Form 5400.3 shall contain all the information as indicated by the headings on the form and the instructions thereon or issued in respect thereto, and as required by this part.

(c) Form 5400.3 shall be retained by the licensee or permittee as part of his permanent records in accordance with the requirements of paragraph (d) of this section.

(d) Each Form 5400.3 shall be retained in numerical (by transaction serial number) order commencing with "1" and continuing in regular sequence. When the numbering of any series reaches "1,000,000," the licensee or permittee may recommence the series. The recommenced series shall be given an alphabetical prefix or suffix. Where there is a change in proprietorship, or in the individual, firm, corporate name, or trade name, the series in use at the time of such change may be continued.

(e) The requirements of this section shall be in addition to any other recordkeeping requirement contained in this part.

(f) A licensee or permittee may obtain, upon request, a supply of Form 5400.3 from the Director.

Section 181.141 is revised as follows:

§ 181.141 Exemptions.

(a) *General.* The provisions of this part shall not apply with respect to:

(1) Any aspect of the transportation of explosive materials via railroad, water, highway, or air which are regulated by the U.S. Department of Transportation, and agencies thereof.

(2) The use of explosive materials in medicines and medicinal agents in the forms prescribed by the official United States Pharmacopoeia, or the National Formulary.

(3) The transportation, shipment, receipt, or importation of explosive materials for delivery to any agency of the United States or to any State or political subdivision thereof.

(4) Small arms ammunition and components thereof.

(5) The manufacture under the regulation of the military department of the United States of explosive materials for, or other distribution to or storage or possession by, the military or naval services or other agencies of the United States.

(6) Arsenals, navy yards, depots, or other establishments owned by, or operated by or on behalf of, the United States.

(7) The importation and distribution of fireworks in a finished state, commonly sold at retail for personal use in compliance with State laws or local ordinances.

(8) Gasoline, fertilizers, propellant actuated devices, or propellant actuated industrial tools manufactured, imported, or distributed for their intended purposes.

(b) *Black powder.* Except for the provisions applicable to persons required to be licensed under Subpart D, the provisions of this part shall not apply with respect to commercially manufactured black powder in quantities not to exceed fifty pounds, percussion caps, safety and pyrotechnic fuses, quills, quick and slow matches, and friction primers: *Provided,* That such black powder is intended to be used solely for sporting, recreational, or cultural purposes in antique firearms, as defined in 18 U.S.C. 921(a)(16), or in antique devices, as exempted from the term "destructive device" in 18 U.S.C. 921(a)(4), and the provisions of §§ 181.105(g) and 181.130 are fully complied with.

(18 U.S.C. 847 (84 Stat. 959) and 18 U.S.C. 926 (82 Stat. 1226).)

Effective date: This Treasury decision becomes effective on April 28, 1977.

Signed: June 14, 1976.

REX D. DAVIS,
Director.

Approved: August 5, 1976.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

PART 245—BEER

Correction

On December 30, 1976, the Bureau of Alcohol, Tobacco and Firearms published regulations [FR Doc. 76-38271] amending 27 CFR Part 245, Beer. Those regulations established procedures for qualified small brewers to pay tax at the $7 per barrel rate established by Pub. L. 94-529.

Two minor discrepancies appeared in that document in §§ 245.117a and 245.160. Paragraph (e) of § 245.117a should have contained the phrase "the close of", and paragraph (c) of § 245.160 should have contained the phrase "of tax"; these phrases were inadvertently omitted. As amended, § 245.117a(e) reads as follows:

§ 245.117a Semimonthly return.

* * * * *

(e) *Time for filing returns and paying tax.* The brewer shall file the semimonthly tax return, Form 2034 (5130.7), for each return period, with remittance, not later than the close of the last full calendar day of the return period next succeeding that period.

* * * * *

As amended, § 245.160(c) reads as follows:

§ 245.160 Refund or credit of tax on returned beer.

* * * * *

(c) *Rate of tax.* Brewers who have filed the notice required by § 245.110c and who have paid the tax on beer at the reduced rate of tax shall make claims

for refund, credit, or relief of tax based upon the lower rate of tax. • • •

Signed: January 24, 1977.

REX D. DAVIS,
Director.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1903—INSPECTIONS, CITATIONS AND PROPOSED PENALTIES

PART 1904—RECORDING AND REPORTING OCCUPATIONAL INJURIES AND ILLNESSES

PART 1951—GRANTS FOR IMPLEMENTING APPROVED STATE PLANS

Civil Penalties for First Instance Violations; Employers in Farming Operations With Ten or Fewer Employees; Small Employer Survey; Effect on State Grants; Interpretation

• 1. *Purpose.* Notice is hereby given pursuant to the Administrative Procedure Act, 5 U.S.C. 552(a)(1)(D) and section 8(g)(2) of the Occupational Safety and Health Act of 1970 (hereinafter referred to as the Act) (29 U.S.C. 657(g)(2)) of the Department of Labor's interpretation of the funding limitations in Title I of the Department of Labor-Department of Health, Education, and Welfare Appropriations Act for Fiscal Year 1977 (Pub. L. 94-439) which became effective October 1, 1976, and will cease to be in effect September 30, 1977, unless extended. •

Pub. L. 94-439 places two limitations on the expenditure of funds for the Occupational Safety and Health Administration (hereinafter referred to as OSHA) by providing as follows:

> That none of the funds appropriated under this paragraph shall be obligated or expended for the assessment of civil penalties issued for first instance violations of any standard, rule, or regulation promulgated under the Occupational Safety and Health Act of 1970 (other than serious, willful, or repeated violations under section 17 of the Act) resulting from the inspection of any establishment or workplace subject to the Act, unless such establishment or workplace is cited, on the basis of such inspection, for 10 or more violations: *Provided further*, That none of the funds appropriated under this paragraph shall be obligated or expended to prescribe, issue, administer, or enforce any standard, rule, regulation or order under the Occupational Safety and Health Act of 1970 which is applicable to any person who is engaged in a farming operation and employs 10 or fewer employees.

Because of the one-year duration of the funding limitations of Pub. L. 94-439, this notice does not constitute an amendment to 29 CFR Parts 1903, 1904, and 1951. The purpose of this notice is to interpret the terms of those limitations and their relation to State plans approved under section 18 of the Act. However, in the case of any conflict between provisions of those parts and this notice, the provisions of this notice shall be controlling during fiscal year 1977 unless subsequently extended or provided otherwise by statute or regulation. Notice of the funding limitations has been prepared as a rulemaking document in order to give the public the most effective notice possible.

The Department of Labor appropriations acts for fiscal years 1975 and 1976 exempted employers employing ten or fewer employees from OSHA recordkeeping requirements, except with respect to the provisions of 29 CFR 1904.15 which require exempted small employers to report fatalities and multiple hospitalization accidents and also to participate in the Bureau of Labor Statistics' (hereinafter referred to as BLS) annual statistical survey if the small employers are selected by BLS for such participation. But the appropriations act for fiscal year 1977 (Pub. L. 94-439) did not include this recordkeeping exemption. The present OSHA recordkeeping regulation (29 CFR 1904.15) exempts employers employing seven or fewer employees. OSHA, however, intends to publish in the near future a proposal to amend the recordkeeping regulation to extend the existing exemption to employers of ten or fewer employees. In order to avoid any undue burden on small employers, pending any permanent change in the regulation, OSHA will continue treating employers with 8, 9, and 10 employees as exempt as was provided by the appropriations acts for fiscal years 1975 and 1976. However, as stated above, this exemption for small employers does not, as provided in § 1904.15, apply to those employers selected to participate in the BLS annual survey or to the requirement for reporting fatalities or multiple hospitalization accidents.

2. *Scope.* (a) The first funding limitation under Pub. L. 94-439 is applicable to all employers covered by the Act and will be implemented as follows:

(1) No penalty will be proposed for a first instance other-than-serious violation unless 10 or more total violations are cited. This "10 or more" includes all violations; that is, other-than-serious, serious, willful, repeated, and failure to abate, but does not include *de minimus* violations. If 10 or more violations are cited, all 10 are subject to proposed penalties to be calculated in accordance with the instructions in the Occupational Safety and Health Field Operations Manual (hereinafter referred to as the Manual).

(2) Civil penalties will be proposed in accordance with instructions in the Manual, for all notifications of failure to abate, serious, willful and repeated violations. In addition, if upon reinspection of a workplace, an employer is cited for a violation of the same subsection of a standard which was cited during a previous inspection, the alleged violation shall be treated as a second instance violation and may be accompanied by a proposed penalty regardless of whether the alleged violation is cited as other-than-serious. Citations which include second instance other-than-serious violations with penalties will be accompanied by a brief explanation to the employer as to the reason for the proposed penalty, if fewer than 10 violations are cited.

(3) Grouping of several violations of a single standard into a single alleged violation, and grouping of individual other-than-serious violations which, when considered together, would be a serious violation, will continue according to present policy in the Manual.

(4) The first limitation is applicable to all other-than-serious violations, including violations of the posting requirements under section 17(i) of the Act.

(5) If, as a result of an inspection, a citation was issued for 10 or more violations, and penalties were proposed for some or all of the other-than-serious violations and an amended citation is issued which brings the number of violations below 10, any remaining penalties for first instance other-than-serious violations will be eliminated on the amended citation.

(6) If both safety violations and possible health violations are found in an establishment, a citation will be issued as soon as possible for the safety violations and will not be held awaiting laboratory results. If laboratory results confirm any health violations, a second citation should be issued for the health violations found during the same inspection, but the number of violations will not be totalled from both citations to determine whether 10 or more exist for penalty purposes. Penalties will be proposed, or not be proposed, based on the number of violations in each separate citation.

(7) The limitation will also be applicable to OSHA actions involving penalties in proceedings before the occupational Safety and Health Review Commission.

(b) The second funding limitation (farm-operations) under Pub. L. 94-439 is applicable to all employers covered by the Act who are engaged in a farming operation and employ 10 or fewer employees and will be implemented as follows:

(1) For the purposes of this limitation, a "farming operation" is defined as any operation involved in the growing or harvesting of crops or the raising of livestock or poultry, or related activities conducted by a farmer, on sites such as farms, ranches, orchards, dairy farms or similar farming establishments.

(2) No inspection will be made of an employer engaged in a farming operation if he employs 10 or fewer employees in all his workplaces. Members of the immediate family of the farm employer are not regarded as employees in making the initial determination as to that number.

(3) At the beginning of any inspection the Compliance Safety and Health Officer (hereinafter referred to as the CSHO) will initially determine, by inquiring of the employer, how many employees he has on the day of the inspection. If the employer states that he employs ten or fewer employees, the CSHO will then inquire as to the maximum number of employees he employed at any one time during the twelve months immediately prior to the inspection date. If the employer has had more than 10 employees at any one time during the previous 12 months the CSHO will proceed with the inspection. Where an inspection is conducted based on 11 or more employees employed at the time of the inspection or in the twelve month period prior to the date of the inspection, any further enforcement action will be continued regardless of the number of employees employed at any later date.

(4) Any inspection made of an employer engaged in a farming operation who has more than 10 employees, is subject to all of the provisions of the first funding limitation as stated in 2(a) above.

(5) No consultation services will be provided to any employer engaged in a farming operation if the employer has 10 or fewer employees.

3. *State plans.* Under section 18(c)(2) of the Act and 29 CFR 1902.3(d)(1), a State plan is required to provide a program for the enforcement of State standards which is, or will be, at least as effective as that provided in the Act, and provide assurances that the State's enforcement program will continue to be at least as effective as the Federal program. The provisions of the funding limitations in Pub. L. 94-439 do not limit State authority for the assessment of civil penalties issued for first instance violations of any standard, rule or regulation promulgated under State law, or to enforce any standard, rule, regulation or order, under State law, which is applicable to any person who is engaged in a farming operation and employing 10 or fewer employees.

However, States which engaged in activities for which Federal funds may not be expended under Pub. L. 94-439 will not be reimbursed under sections 23(g) and 24(b) of the Act for any share of funds expended by the State for those activities. States receiving 23(g) and 24(b) grant funds must be able to demonstrate that no portion of the grant funds has been used for the activities prohibited in the funding limitations.

4. *Effective date.* This notice is effective and will continue to be applicable for as long as the funding limitations in Pub. L. 94-439 remain in effect, unless modified or revised by the Assistant Secretary in the FEDERAL REGISTER.

(Sec. 8(g)(2), 84 Stat. 1600 (29 U.S.C. 657(g)(2); 5 U.S.C. 552(a)(1)(D)))

Signed at Washington, D.C., this 19th day of January 1977.

MORTON CORN,
Assistant Secretary of Labor.

[FR Doc.77-2378 Filed 1-19-77;5:06 pm]

Title 39—Postal Service

CHAPTER I—UNITED STATES POSTAL SERVICE

SUBCHAPTER N—PROCEDURES

RULES OF PRACTICE; MISCELLANEOUS AMENDMENTS

AGENCY: United States Postal Service (Judicial Officer).

ACTION: Final Rule.

SUMMARY: The Judicial Officer of the Postal Service hereby issues a complete revision of the rules of practice in proceedings relative to mailability. In addition, the law on ex parte communications is made applicable to the mailability rules of practice and to certain other rules of practice issued by the Judicial Officer.

EFFECTIVE DATE: January 28, 1977.

FOR FURTHER INFORMATION CONTACT: George Davis 202-245-4385.

SUPPLEMENTARY INFORMATION: Acting in accordance with authority delegated to him by 39 CFR 224.1(c)(5)(ii)(D) the Judicial Officer of the Postal Service adopts a complete revision of 39 CFR Part 953, the rules of practice in proceedings relative to mailability. This is done in order to conform these rules with 123.37 of the Postal Service Manual, which provides for administrative appeals of unfavorable mailability decisions in accordance with 39 CFR Part 953.

The Judicial Officer also amends 39 CFR Parts 951, 952, 953, 954, 957, 958 and 959 to make applicable to proceedings under these rules the law on ex parte communications enacted by section 4 of Pub. L. 94-409, 90 Stat. 1246, 1247 (September 13, 1976).

Accordingly, 39 CFR is amended as follows:

PART 951—PROCEDURE GOVERNING THE ELIGIBILITY OF PERSONS TO PRACTICE BEFORE THE POSTAL SERVICE

1. Part 951 is amended by adding new § 951.8 reading as follows:

§ 951.8 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 952—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO FALSE REPRESENTATION AND LOTTERY ORDERS

2. Part 952 is amended by adding new § 952.34 reading as follows:

§ 952.34 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 953—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO MAILABILITY

3. Part 953 is revised to read as follows:

Sec.
953.1 Authority for rules.
953.2 Initiation.
953.3 Notice of Appeal.
953.4 Service of Notice of Appeal, Reply.
953.5 Reply.
953.6 Hearings.
953.7 Compromise and informal dispositions.
953.8 Default; appearances.
953.9 Location of hearing.
953.10 Change of place of hearing.
953.11 Presiding officers.
953.12 Proposed findings of fact.
953.13 Initial decision.
953.14 Appeal.
953.15 Final agency decision.
953.16 Expedition.
953.17 Disposition.
953.18 Ex parte communications.

AUTHORITY: 39 U.S.C. 204, 401.

§ 953.1 Authority for rules.

These rules of practice are issued by the Judicial Officer of the U.S. Postal Service pursuant to authority delegated by the Postmaster General.

§ 953.2 Initiation.

Mailability proceedings are initiated upon the filing with the Docket Clerk of a Notice of Appeal.

§ 953.3 Notice of appeal.

The Notice of Appeal shall: (a) Be accompanied by a copy or description of the determination or ruling upon which the appeal is based; (b) specify the character or content of the matter sought to be mailed; (c) request review of the mailability determination, and (d) specify whether an oral hearing is desired or whether the matter is to be submitted on the written record.

§ 953.4 Service of Notice of Appeal, Reply.

Upon receipt of the Notice of Appeal, the Docket Clerk shall issue a notice setting forth the date for filing a Reply to the Notice of Appeal, the date of the hearing, if one is requested, and the name of the presiding officer. This notice, together with copies of the Notice of Appeal, shall be sent promptly to the General Counsel and to the postmaster at the place of mailing to be served upon the appellant or his agent. A receipt for service upon the appellant shall be obtained and forwarded immediately to the Docket Clerk. If, after 3 days, the postmaster or his agent can find no person to accept service of the notice, it may be delivered in the same manner as other mail addressed to the appellant. A statement, showing the time and place of delivery, signed by the postal employee who delivered the notice shall be forwarded to the Docket Clerk and such statement shall constitute evidence of service.

§ 953.5 Reply

The General Counsel shall Reply to the Notice of Appeal within the time established unless extended by the presiding officer for good cause shown. The Reply shall be filed in triplicate with the Docket Clerk. Allegations not answered shall be deemed admitted.

§ 953.6 Hearings.

(a) The Federal Rules of Evidence (28 App. U.S.C. (Supp. V, 1975)) shall be applicable to the hearings conducted under this part, except that the rules may be relaxed to the extent that the presiding officer deems proper to assure a fair hearing. Evidence presented at the hearing shall be limited to material evidence relevant to the issues as drawn by the pleadings or as defined in the prehearing conference, if any, subject to

such later modifications of the issues as may be necessary to protect the public interest or to prevent injustice and shall not be unduly repetitious.

(b) Objections to the admission or exclusion of evidence shall be in short form, stating the grounds of objections relied upon, and the transcript shall not include argument or debate thereon except as ordered by the presiding officer. Rulings on such objections shall be a part of the transcript.

(c) Formal exceptions to the rulings of the presiding officer made during the course of the hearing are unnecessary. For all purposes for which an exception otherwise would be taken, it is sufficient that a party, at the time the ruling of the presiding officer is made or sought, makes known the action he desires the presiding officer to take or his objection to an action taken, and his grounds therefor.

§ 953.7 Compromise and informal dispositions.

Either party may request the other to consider informal disposition of any question of mailability, and the scheduled hearing date may be postponed for such period of time as may be necessary to accommodate settlement discussions between the parties.

§ 953.8 Default; appearances.

If no Reply to the Notice of Appeal is filed, the General Counsel shall be deemed in default and the Judicial Officer shall instruct the postmaster of the disposition to be made of the matter. If an oral evidentiary hearing is to be held, the appellant may appear at the hearing in person or by counsel. If either party fails to appear at the hearing, the presiding officer shall receive the evidence of the party appearing and render a decision.

§ 953.9 Location of hearing.

Unless otherwise ordered by the presiding officer, the hearing shall be held at the headquarters of the Postal Service, 475 L'Enfant Plaza West, S.W., Washington, D.C. 20260, on the date set in the notice.

§ 953.10 Change of place of hearing.

Not later than the date fixed for the filing of the Reply, a party may file a request that a hearing be held to receive evidence in his behalf at a place other than that designated for hearing in the notice. He shall support his request with a statement outlining: (a) The evidence to be offered in such place; (b) the names and addresses of the witnesses who will testify; (c) the reasons why such evidence cannot be produced at Washington, D.C. The presiding officer shall give consideration to the convenience and necessity of the parties and the relevancy of the evidence to be offered.

§ 953.11 Presiding officers.

The presiding officer at any hearing shall be an Administrative Law Judge qualified in accordance with law (5 U.S.C. 3105) or the Judicial Officer (39 U.S.C. 204). The Chief Administrative Law Judge shall assign cases to Administrative Law Judges upon rotation so far as practicable. The Judicial Officer may, for good cause shown, preside at the reception of evidence in proceedings where expedited hearings (§ 953.16, *infra*) are requested by either party.

§ 953.12 Proposed findings of fact.

Unless otherwise ordered, proposed findings of fact and conclusions of law shall be submitted orally or in writing at the conclusion of the hearing.

§ 953.13 Initial decision.

Unless given orally at the conclusion of the hearing, the Administrative Law Judge shall render an initial decision as expeditiously as practicable following the conclusion of the hearing, and the receipt of the proposed findings, if any. The initial decision shall become the decision of the Postal Service if an appeal is not perfected.

§ 953.14 Appeal.

Either party may file exceptions in a brief on appeal to the Judicial Officer within 5 days after receipt of the initial decision unless additional time is granted. A reply brief may be filed within 5 days after the receipt of the appeal brief by the opposing party.

§ 953.15 Final Agency decision.

The Judicial Officer shall render a final Agency decision or refer the matter to the Postmaster General for decision. The decision shall be served upon the parties and the postmaster.

§ 953.16 Expedition.

For the purpose of further expedition the parties may, with the concurrence of the Judicial Officer, agree to waive any of these procedures. When the Judicial Officer presides at the hearing, he shall render a tentative or final decision after the conclusion of the hearing. Exceptions may be filed to a tentative decision in accordance with § 953.14.

§ 953.17 Disposition.

Mail matter found to be nonmailable shall be held at the post office where detained for a period of 15 days from the date of the Postal Service decision, unless extended by the Judicial Officer. During that time the mailer may make application for the withdrawal of the matter. The Judicial Officer shall order the matter returned to the mailer or otherwise disposed of in accordance with 39 U.S.C. 3001(b).

§ 953.18 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 954—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO THE DENIAL, SUSPENSION, OR REVOCATION OF SECOND-CLASS MAIL PRIVILEGES

4. Part 954 is amended by adding new § 954.26 reading as follows:

§ 954.26 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 957—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO DEBARMENT AND SUSPENSION FROM CONTRACTING

5. Part 957 is amended by adding new § 957.28 reading as follows:

§ 957.28 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 958—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO THE REFUSAL TO RENT OR RENEW POST OFFICE BOXES AND THE CLOSING OF POST OFFICE BOXES

6. Part 958 is amended by adding new § 958.14 reading as follows:

§ 958.14 Ex parte communications.

The provisions of 5 U.S.C. § 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

PART 959—RULES OF PRACTICE IN PROCEEDINGS RELATIVE TO THE PRIVATE EXPRESS STATUTES

7. Part 959 is amended by adding new § 959.31 reading as follows:

§ 959.31 Ex parte communications.

The provisions of 5 U.S.C. 551(14), 556(d) and 557(d) prohibiting ex parte communications are made applicable to proceedings under these rules of practice.

EDWARD F. LUSSIER,
Judicial Officer.

Title 41—Public Contracts and Property Management

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114-43—UTILIZATION OF PERSONAL PROPERTY

Miscellaneous Amendment

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and 40 U.S.C. 486(c), Subpart 114-43.1 of Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective on January 28, 1977.

NOTE.—The Department of the Interior has determined that this document does not contain a major proposal requiring preparation of an Inflation Impact Statement under Executive Order 11821 and OMB Circular A-107.

ALBERT C. ZAPANTA,
Assistant Secretary of the Interior.

JANUARY 17, 1977.

This amendment redesignates 114-43.104 as 114-43.001 to comply with the FPMR format, and the definitions of terms are revised.

1. The Table of Contents is amended to delete 114-43.104 through 114-43.104-52 and add new entries to read as follows:

Sec.

114-43.000	Scope of part.
114-43.001	Definitions.
114-43.001-50	Available personal property.
114-43.001-51	Reportable personal property.
114-43.001-52	Nonreportable personal property.

Subpart 114-43.1—General Provisions

114-43.101	Surveys.
114-43.102	Reassignment of property within executive agencies.
114-43.102-50	Holding bureau utilization.
114-43.102-51	Screening nonreportable available property.
114-43.102-52	Screening reportable available property.
114-43.102-53	Documentation of transfers.

2. Section 114-43.000 is revised and §§ 114-43.001 through 114-43.001-52 are added to read as follows:

§ 114-43.000 Scope of part.

The provisions of this part are applicable to all personal property except—

(a) Automatic data processing equipment and supplies, and

(b) Books, periodicals, other publications, and related material.

§ 114-43.001 Definitions.

§ 114-43.001-50 Availability personal property.

"Available personal property" means any personal property that is no longer needed by the holding activity, and is available for use by other Interior activities.

§ 114-43.001-51 Reportable personal property.

"Reportable personal property" means any personal property that has been determined to be excess to the needs of the Department of the Interior and is required to be reported to the General Services Administration.

§ 114-43.001-52 Nonreportable personal property.

"Nonreportable personal property" means any personal property that has been determined to be excess to the needs of the Department of the Interior and is not required to be reported to the General Services Administration except for sale purposes.

§ 114-43.104 [Deleted]

Section 114-43.104 is deleted in its entirety.

[FR Doc.77-2804 Filed 1-27-77;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 16; Amdt. 99-10]

PART 99—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Conflict of Interest; Revision; Corrections

On January 14, 1977 (42 FR 3118), the Secretary of Transportation caused to be published revisions to the Department of Transportation's regulations governing conflict of interest. This document remedies an omission and makes several technical corrections as follows:

1. In Appendix C, Section II, after the caption "Federal Aviation Administration" and before the caption "Office of General Aviation," the following is inserted:

Associate Administrators
Deputy Associate Administrators

OFFICE OF THE ASSOCIATE ADMINISTRATOR FOR ADMINISTRATION

*Chief, Program Review Staff

OFFICE OF THE ASSOCIATE ADMINISTRATOR FOR POLICY DEVELOPMENT AND REVIEW

*Aviation Policy Specialist

OFFICE OF THE ASSOCIATE ADMINISTRATOR FOR AIR TRAFFIC AND AIRWAY FACILITIES

* Special Assistant
* Chief, Program Management Staff
*Program Analyst, GS-14/15

OFFICE OF CHIEF COUNSEL

*Chief Counsel
*Deputy Chief Counsel
*Assistant Chief Counsel
*Special Assistant to the Chief Counsel
*Special Counsel for Regulations
*Deputy Assistant Chief Counsel
*Branch Chiefs
*Chief, Legislative Staff
*Chief, Environmental Law Staff
Attorney Advisor, Procurement Legal Division, GS-13/15

OFFICE OF CIVIL RIGHTS

Director
Deputy Director
Civil Rights Specialist, GS-13 and above, engaged in Contract Compliance Review

OFFICE OF PUBLIC AFFAIRS

*Assistant Administrator

OFFICE OF AVIATION SAFETY

Assistant Administrator

2. In § 99.735-11(A)(2) delete the word "his" in the second and third lines.

3. In § 99.735-15(a), last line:

(a) Delete the letter "s" from the word "paragraphs."

(b) Change the letter "(j)" to "(h)."

(c) Delete the following word, letter and parentheses: "• • • and (j) • • •".

4. In § 99.735-15(c)(2), delete the brackets "[" "]" after the words "interest" and "participation."

5. In § 99.735-35(b), delete the word "his" from the thirty-fifth line.

6. In § 99.735-37, delete the bracket, "]", from the third line.

7. In Appendix B, Section (s) change the citation 2 U.S.C. 441i to 4411.

Issued in Washington, D.C., on January 19, 1977.

WILLIAM T. COLEMAN, JR.,
Secretary of Transportation.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Eighth Rev. S.O. 1234]

PART 1033—CAR SERVICE

Distribution of Freight Cars

At a Session of the INTERSTATE COMMERCE COMMISSION, Railroad Service Board, held in Washington, D.C., on the 24th day of January, 1977.

It appearing, That there is an acute shortage of freight cars for transporting shipments of citrus pulp, citrus pellets, fertilizer, phosphate (dried or ground, treated or untreated, fish meal, grain, grain products, *salt, soybeans, soybean products, cottonseed hulls, peanut hulls, or soybean hulls; that certain tariff provisions require the use of cars of specified cubic or weight carrying capacities; that the carriers are unable to furnish sufficient such cars to transport shipments of such weights; that cars of lesser capacity are available; that such cars cannot be used because of certain tariff provisions; that there is immediate need to use every available car for transportation of fertilizer and grain; that the inability of the carriers to furnish sufficient fertilizer and grain cars results in great economic loss; and that present regulations and practices with respect to the use, supply, control, moevment, and distribution of fertilizer and grain cars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days notice.

It is ordered, That:

§ 1033.1234 Distribution of freight cars.

(a) Subject to the concurrence of the shipper, carriers may substitute a sufficient number of smaller cars for larger cars ordered to transport shipments of citrus pulp, citrus pellets, fertilizer, phosphate (dried or ground, treated or untreated, fish meal, grain, grain products, salt,[1] soybeans, soybean products, cottonseed hulls, peanut hulls or soybean hulls regardless of tariff requirements specifying minimum cubic or weight carrying capacity. (See exceptions (b) and (c).)

(b) *Exception.* This order shall not apply to shipments subject to tariff provisions requiring the use of twenty-five or more cars per shipment.

(c) *Exception.* This order shall not apply to shipments subject to tariff pro-

[1] Addition.

visions which require that cars be furnished by the shipper.

(d) *Rates and Minimum Weights Applicable.* The rates to be applied and the minimum weights applicable to shipments for which cars smaller than those ordered have been furnished and loaded as authorized by Section (a) of this order shall be the rates and minimum weights applicable to the larger cars ordered.

(e) *Billing to be Endorsed.* The carrier substituting smaller cars for larger cars as authorized by Section (a) of this order shall place the following endorsement on the bill of lading and on the waybills authorizing movement of the car:

Car of (----) cu. ft. and of (----) lbs. or greater capacity ordered. Smaller cars furnished authority Eighth Revised ICC Service Order No. 1234.

(f) *Concurrence of Shipper Required.* Smaller cars shall not be furnished in lieu of cars of greater capacity without the consent of the shipper.

(g) *Exceptions.* Exceptions to this order may be authorized to railroads by the Railroad Service Board, Washington, D.C., 20423. Requests for such exception must be submitted in writing, or confirmed in writing, and must clearly state the points at which such exceptions are requested and the reason therefor.

(h) *Rules and Regulations Suspended.* The operation of all rules, regulations, or tariff provisions is suspended insofar as they conflict with the provisions of this order.

(i) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(j) *Effective date.* This order shall become effective at 12:01 a.m., January 25, 1977.

(k) *Expiration date.* This order shall expire at 11:59 p.m., February 28, 1977, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board, members Joel E. Burns, Lewis R. Teeple, and Thomas J. Byrne.

ROBERT L. OSWALD,
Secretary.

[FR Doc.77-2886 Filed 1-27-77;8:45 am]

[Ex Parte No. MC-19 (Sub-No. 29)]

PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

Practices of Motor Common Carriers of Household Goods (Performance Reports); Correction

In Ex Parte No. MC-19 (Sub-No. 19 (a)) *Practices of Motor Common Carriers of Household Goods (Consumer Protection—Kingpak Carriers)*, order entered January 5, 1976 (not printed), the Interstate Commerce Commission amended § 1056.7(b) of its General Rules and Regulations (49 CFR 1056.7(b)) by excepting so-called "Kingpak" and "pack and crate" carriers from the requirement that motor common carriers of household goods must file an annual performance report (described in § 1056.7(b)) with the Commission. In that proceeding, the Commission also combined former § 1056.7(b)(3)(1) with former § 1056.7(b)(3)(k), renumbered former § 1056.7(b)(3)(a) through (k) as § 1056.7(b)(3)(i) through (xi), respectively, and reworded certain of those subsections. Subsection 1056.7(b)(3)(ix) was reworded to make it clear that household goods carriers must list in their performance reports the percentage of shipments on which claims were filed due to carrier delay. Subsection 1056.7(b)(3)(x) was reworded to make it clear that carriers must report the average number of consecutive days required to settle loss or damage claims. Subsection 1056.7(b)(3)(xi) was phrased to make it clear that the figures sought in that subsection related to a common whole figure, i.e., all those claims settled during the calendar year. Other minor changes were made to the wording of § 1056.7(b)(3)(i) through (viii). Notice of these changes was published in the FEDERAL REGISTER on January 12, 1976 at page 1742.

By order entered November 19, 1976, in Ex Parte No. MC-19 (Sub-No. 29) *Practices of Motor Common Carriers of Household Goods (Performance Reports)*, 125 M.C.C. 766, the Commission determined, among other things, that § 1056.7(b) should be modified by extending the deadline for the filing of performance reports with this Commission to March 31 of each year. The Commission further determined that § 1056.7(b)(3)(x) [referred to in that proceeding as § 1056.7(b)(3)(j)] should be revised to require carriers to furnish more specific information relating to the length of time required for the settlement of claims for loss or damage. Notice of these changes was published in the FEDERAL REGISTER on December 7, 1976, at page 53485.

In drafting the amendments to § 1056.7(b) in Ex Parte No. MC-19 (Sub-No. 29), inadvertently overlooked were the amendments previously made to that subsection in Ex Parte No. MC-19 (Sub-No. 19(a)). Therefore, this notice reflects the proper wording of § 1056.7(b) to reflect the amendments made to that subsection in both of the above-described proceedings. Thus, § 1056.7(b) now provides that motor common carriers of household goods (with the exception of "Kingpak" and "pack and crate" carriers, who are not required to file such reports) must file annual performance reports on or before March 31 of each year. Subsections 1056.7(b)(3)(ix) and (xi) are phrased to conform to the changes made by the Commission in Ex Parte No. MC-19 (Sub-No. 19(a)). Subsection 1056.7(b)(3)(x) has been rewritten to reflect the rephrasing of that subsection by the Commission in both Ex Parte No. MC-19 (Sub-No. 19(a)) [in which the Commission required household goods carriers to list the average number of consecutive days required to settle claims for loss or damage] and in Ex Parte No. MC-19 (Sub-No. 29) [in which the Commission required household goods carriers to list the percentage of claims filed within certain time periods, in addition to the average length of time required to settle claims for loss or damage].

No additional substantive changes have been made to § 1056.7(b).

(49 U.S.C. 301, 302, 304, 308, 316, and 320, and 5 U.S.C. 552, 553, and 559.)

By the Commission.

ROBERT L. OSWALD,
Secretary.

Accordingly, 49 CFR 1056.7(b) has been modified so that it now should read as follows:

§ 1056.7 Information for shippers.

* * * * *

(b) Each motor common carrier of households goods, *except* carriers engaged in the transportation of household goods solely under authority which reads: "Used household goods, restricted to the transportation of shipments having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking", shall on or before March 31 of each year cause to be filed with the Commission's Bureau of Operations, Washington, D.C., and each of the Commission's regional offices, a summary of its service record for the previous calendar year providing the following information:

(1) Name of motor carrier and domicile address.

(2) I.C.C. MC number.

(3) By type of account (c.o.d. shipper, Department of Defense, and national accounts and other Government traffic) specify the following:

(i) Number of shipments delivered and number of estimates on such shipments.

(ii) Percentage of shipments on which there occured a 10 percent or greater over-estimation of charges.

(iii) Percentage of shipments on which there occured a 10 percent or greater under-estimation of charges.

(iv) Percentage of shipments picked up more than 5 days later than specified in the order for service.

(v) Percentage of shipments picked up 1 to 5 days later than specified in the order for service.

(vi) Percentage of shipments delivered more than 5 days later than specified in the order for service.

(vii) Percentage of shipments delivered 1 to 5 days later than specified in the order for service.

(viii) Percentage of shipments on which a $50 or greater claim for loss or damages was filed.

(ix) Percentage of shipments delivered on which a claim was filed for damage or expenses resulting from carrier delay.

(x) (A) Average number of consecutive days required to settle claims for loss or damage (for claims settled during the calendar year).

(B) Percentage of claims for loss or damage settled within 30 days of filing (for claims settled during the calendar year).

(C) Percentage of claims for loss or damage settled within 60 days of filing (for claims settled during the calendar year).

(D) Percentage of claims for loss or damage settled more than 60 days from the date of filing (for claims settled during the calendar year).

(xi) The percentage of claims settled during the calendar year which were settled:

(A) Prior to institution of a law suit by the shipper to recover damages.

(B) After the institution of a law suit by the shipper and prior to the entering of a final judicial decree.

(C) Subsequent to the entering of a final judicial decree.

Copies of this report shall be served upon potential shippers as provided in paragraph (a) of this section. Carriers shall have available supporting documission's Bureau of Operations upon reof such statistics and shall make such documentation available to this Commission's Bureau of Operations upon request. Subjective evaluations by the carrier of its performance may be appended to the objective statistics required above, but on separate pages so as not to obscure in any way the statistical data required by this section.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 967]

[Docket No. AO–354–A2]

CELERY GROWN IN FLORIDA

Supplemental Notice of Hearing on Proposed Amendment of Marketing Agreement and Order

This notice is supplemental to the notice of hearing which was published in the January 13, 1977, issue of the FEDERAL REGISTER (42 FR 2691), regarding a public hearing to be held with respect to a proposed amendment of marketing agreement and Order No. 967, both as amended, regulating the handling of celery grown in Florida.

Subsequent to the publication of the notice of hearing, the Florida Celery Committee unanimously recommended the following proposal as the method of determining Base Quantities rather than that set forth in Proposal No. 4 in the notice published in the January 13 FEDERAL REGISTER. This proposal has not received the approval of the Secretary of Agriculture.

The proposal is as folows:

Amend § 967.37 to read as follows:

§ 967.37 Base quantities.

(a) Base Quantities shall be those which have been established by the Florida Celery Committee for the 1976–77 season and as recorded on December 15, 1976.

* * * * *

Signed at Washington, D.C., on January 26, 1977.

WILLIAM T. MANLEY,
Deputy Administrator
Program Operations.

BEEF RESEARCH AND INFORMATION

Recommended Decision and Opportunity to File Written Exceptions

Correction

In FR Doc. 77–2240, appearing at page 4476 in the issue for Tuesday, January 25, 1977, the following changes should be made:

1. Between the fifth and sixth lines of the second full paragraph on page 4481, first column, insert the words, "projects to be undertaken, and it is".

2. Replace the last two lines of the first full paragraph on page 4483, first column with, "-ual has owned the animal from birth to slaughter.".

3. The next to last word in the fourth line of § 1260.163 on page 4487, third column, should read, "demand".

FEDERAL ENERGY ADMINISTRATION

[10 CFR Part 211]

SPECIAL RULE NO. 8 FOR SUBPART C PROVIDING ENTITLEMENT BENEFITS FOR IMPORTED NO. 2 HEATING OIL

Notice of Proposed Rulemaking and Public Hearing

On January 18, 1977 FEA issued a notice (42 FR 4525; January 25, 1977) providing for public hearings in Minneapolis, Minnesota, and Boston, Massachusetts, and for the filing of written comments with respect to the current price levels for and the adequacy of supplies of middle distillates. The public hearings will be held on Friday, January 28, 1977 and will be continued to Saturday, January 29, if necessary. FEA's announced intention in soliciting public comments on these issues was to provide the agency with background information as to any supply or pricing problems that may arise this heating season, particularly in the North Central and Northeastern states, so that FEA would be able to anticipate and take appropriate action should any such problems develop.

In this notice, FEA invited comments as to whether any regulatory action by FEA was required at this time and, if required, what type of modifications to FEA's regulatory programs would be most appropriate. In this connection, FEA requested comments as to whether the reimposition of controls on a partial or total basis was appropriate and whether, for example, entitlement benefits should be extended to imported middle distillates.

Since the issuance of this notice, FEA has received advice from numerous persons in the North Central and North East regions as to severe potential supply problems for No. 1 fuel oil in the North Central region and No. 2 fuel oil in the North East region. FEA was informed that stocks of No. 1 fuel oil in the North Central region had declined, due to the severity of the winter and to difficulties in transporting that product into the region. In response to the potential supply problems for No. 1 fuel oil in the North Central region in particular, FEA issued an emergency amendment on January 24, 1977 that provided FEA with the specific authority to require refiners to adjust their yields of kerosene-base aviation fuel to levels that permit them to supply that product at a specified allocation fraction, thereby increasing their production and supplies of No. 1 fuel oil. As of the date of this notice, pursuant to the authority set forth in this emergency amendment, FEA has issued orders to six refiners with respect to nine refineries owned by them. FEA is also advised that stocks of middle distillates in the North East region declined by twenty percent during the first two weeks of January.

Due to the extraordinarily high level of demand for No. 2 heating oil caused by the continuing unusually severe winter, FEA has now determined that it should also receive public comment on a specific proposal to extend entitlement benefits to imports of No. 2 heating oil to forestall possible supply problems or preclude severe price increases if the supplies must be made available from imported product. Entitlement benefits for No. 2 heating oil could be expected to induce increased importation of No. 2 heating oil and, thereby, relieve pressures on domestic refineries which are already producing at a very high level of capacity utilization. The extension of entitlement benefits for No. 2 heating oil would also inhibit any tendency for prices of domestically refined No. 2 heating oil to rise to imported product price levels if there is a significantly higher than normal level of imports.

In the January 18 notice of public hearing, FEA did request comments on the level or levels in the distribution system at which the recent price increases for middle distillates have taken place and on whether the current price levels are justified, taking into account normal seasonal increases and the higher costs of any imports into the particular region. FEA will utilize information received at the Boston and Minneapolis hearings, as well as under the comment procedures provided in this proceeding, to make its final determination.

PROPOSED ENTITLEMENT BENEFITS FOR IMPORTED NO. 1 HEATING OIL

Therefore, FEA is hereby proposing the extension of entitlement benefits to imports of No. 2 heating oil in the months February and March 1977 into PAD Districts I through IV. The per barrel entitlement value to be awarded to these imports is proposed as 65% of the applicable per barrel crude oil entitlement value under the entitlements program for the month in which the import takes place. FEA is proposing this 65% entitlement value in conformity with its December 23, 1976 proposal as to the interrelation of the import program and certain changes to FEA's entitlements program with respect to residual fuel oil imports.

In that proposal, FEA set forth its preliminary determination that the proper advantage for domestic refiners refining imported crude oil as compared with offshore refiners was 84 cents per barrel. Thus, to calculate the appropriate entitlement value for purposes of this proposal, FEA has assumed that No. 2 heating oil imports are subject to the 10.5 cent per barrel import tariff, but that such imports are not effectively subject to the 63 cents product import fee, since any fees due have been for the most part offset by tariffs payable as to residual fuel oil imports not subject to the fee. FEA has also assumed that the effective level of import fees and tariffs on crude oil approximates 10.5 cents per barrel, since only slightly in excess of 30% of crude oil imports is subject to the 21 cents per barrel import fee and these fees are offset by the tariff on crude imports. Thus, it appears necessary at this stage to implement the full 84 cents per barrel differential through the entitlements program. Based on a projected $2.40 per barrel crude oil entitlement value for February 1977 (which utilizes the November 1976 value of $2.16 and takes into acount the January 1 OPEC increase), it would be necessary to grant importers $1.56 per barrel, or approximately 65% of $2.40, which will provide domestic refiners with the appropriate 84 cents per barrel advantage.

If adopted, this proposal would be implemented by the addition of a Special Rule No. 8 to the appendix to Subpart C of Part 211. The Special Rule proposed hereby would treat imports of No. 2 heating oil into PAD Districts I through IV in the same fashion that imports of residual fuel oil into the East Coast market are currently provided for under Section 211.67(a)(3). In other words, the importer of record would be the firm eligible to receive an entitlement issuance with respect to the import of the product. Imports from the U.S. Virgin Islands, as is the case with imports of residual fuel oil, would not be eligible for entitlement benefits. Since FEA is not aware of any existing or potential No. 2 heating oil supply or pricing problems in either PAD District V or Puerto Rico, imports into those areas are not proposed to be included in the coverage of the Special Rule.

FEA specifically invites comments on whether imports in the month of April 1977 should also be eligible for entitlement benefits and as to how FEA can be assured that any entitlement benefits awarded under these procedures will be passed through to consumers in the form of current price reductions that anticipate the entitlement revenues to be received for the particular imports. In this latter context, FEA does not believe that it would be appropriate to provide domestic refiners and marketers with these entitlement benefits without reasonable assurances that the benefits would flow through to consumers this heating season, starting with appropriate billing adjustments effective from February 1, 1977. In addition, FEA requests comments on whether other middle distillates, such as No. 2-D diesel fuel, kerosene, and No. 1 oils should also be eligible for import entitlements. Finally, FEA wishes to receive comments as to whether adoption of this proposal would assist domestic refiners in converting their production to yield more motor gasoline, thus enabling gasoline stocks to be increased to normal levels prior to the high demand summer driving season.

Section 7(c)(1) of the FEAA provides that FEA shall, before promulgating proposed regulations affecting the quality of the environment, provide a period of not less than five working days during which the Administrator of the Environmental Protection Agency ("EPA") may provide written comments concerning the impact of such regulations on the quality of the environment. Such comments are required to be published concurrently with or as part of the notice of proposed rulemaking.

Under section 7(c)(2) of the FEAA, the prior review required by section 7(c)(1) may be waived for a period of 14 days if there is an emergency situation which requires taking action at a date earlier than would permit the EPA the five day opportunity for prior comment required under section 7(c)(1). Notice of any such waiver must be given to the EPA and filed with the FEDERAL REGISTER with the notice of proposed or final FEA action and must include an explanation of the reasons for such waiver together with supporting data and factual background information.

Pursuant to section 7(c)(2) of the FEAA, FEA hereby waives the requirements of section 7(c)(1) of the FEAA concerning prior review by EPA of the environmental impact of this rulemaking. This waiver is based on an emergency situation which, as explained above, may very well mandate that FEA take immediate steps to ensure adequate supply and equitable prices to users of No. 2 heating oil. A copy of this notice has been sent concurrent with its issuance to the Administrator for his comments.

In accordance with Executive Order 11821 and OMB Circular A–107, FEA is considering the inflationary impact of this proposal.

PUBLIC HEARING AND WRITTEN COMMENT PROCEDURES

A public hearing on this proposal will be held beginning at 9:30 a.m., on Monday, February 7, 1977, in Room 5041, Federal Building, 1200 Pennsylvania Avenue N.W., Washington, D.C., to receive comments from interested persons. Any person who has an interest in the subject of the hearing, or who is a representative of a group or class of persons which has an interest in the subject of the hearing, may make a written request for an opportunity to make an oral presentation. Such a request should be directed to Executive Communications, FEA, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, and must be received before 4:30 p.m., e.s.t., Wednesday, February 2, 1977. Such a request may be hand delivered to Room 3309, Federal Building, 1200 Pennsylvania Avenue, N.W., Washington, D.C., betwen the hours of 8:00 a.m. and 4:30 p.m., e.s.t., Monday through Friday, except Federal holidays. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he or she is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he or she may be contacted through Friday, February 4, 1977. Each person selected to be heard will be so notified by FEA before 5:30 p.m., e.s.t., Thursday, February 3, 1977, and must submit 100 copies of his or her statement to Executive Communications, FEA, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20461, before 5:30 p.m., e.s.t., Friday, February 4, 1977.

FEA reserves the right to select the persons to be heard at the hearing, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. Each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearing. It will not be a judicial or evidentiary-type hearing. Questions may be asked only by those conducting the hearing, and there will be no cross-examination of persons presenting statements. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested person may submit questions, to be asked of any person making a statement at the hearing, to Executive Communications, FEA, before 4:30 p.m., e.s.t., Friday, February 4, 1977. Any person who makes an oral statement and who wishes to ask a question at the hearing may submit the question, in writing, to the presiding officer. FEA or the presiding officer, if the question is submitted at the hearing, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made and the entire record of the hearing, including the transcript, will be retained by FEA and made available for inspection at the FEA Freedom of Information Office, Room 2107, Federal Building, 1200 Pennsylvania Avenue, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. Anyone may purchase a copy of the transcript from the reporter.

Interested persons are invited to submit data, views, or arguments with respect to this proposal to Executive Communications, Federal Anergy Adminis-

tration, Box KO, Washington, D.C. 20461.

Comments should be identified on the outside envelope and on documents submitted to Executive Communications, FEA, with the designation "Entitlement Benefits for Imported No. 2 Heating Oil." Fifteen copies should be submitted. All comments received by 4:30 p.m., Monday, February 7, 1977, and all relevant information, will be considered by FEA.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, in accordance with the procedures stated in 10 CFR 205.9(f). FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159, as amended, Pub. L. 93–511, Pub. L. 94–99, Pub. L. 94–133, Pub. L. 94–163, and Pub. L. 94–385; Federal Energy Administration Act of 1974, Pub. L. 93–275, as amended, Pub. L. 94–332 and Pub. L. 94–385; Energy Policy and Conservation Act, Pub. L. 94–163, as amended, Pub. L. 94385; E.O. 11790, 39 FR 23185; E.O. 11933, 41 FR 36641.)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is proposed to be amended as set forth below.

Issued in Washington, D.C., January 26, 1977.

DAVID G. WILSON,
Acting General Counsel.

The appendix to Subpart C of Part 211 is amended by the addition of a Special Rule No. 8 to read as follows:

SPECIAL RULE NO. 8

1. *Scope.* This Special Rule provides, for the months February and March 1977, for the issuance of entitlements under § 211.67 with respect to imports of No. 2 heating oil into PAD Districts I through IV.

2. *Entitlement issuances for middle distillate imports.* (a) For purposes of subparagraph (3) of paragraph (a) of § 211.67, imports of No. 2 heating oil into PAD Districts I–IV in the months of February and March 1977 (other than imports into the United States customs territory from the U.S. Virgin Islands) shall be considered an eligible product, and any firm that imports No. 2 heating oil into PAD Districts I through IV for sale or use in those Districts, that is the importer of record under a license issued pursuant to Part 213 of this chapter and that owns the eligible product at the time of importation thereof pursuant to that license shall be considered an eligible firm. Importation for the purpose hereof shall be as defined in paragraph (j) of § 213.27 of Part 213 of this chapter.

(b) The number of entitlements issuable under paragraph (a) above shall be equivalent to sixty-five (65%) percent of the number of entitlements that would be received by a refiner (without giving effect to the provisions of § 211.67(a)) in that month with respect to the inclusion of a number of barrels of crude oil in that refiner's crude oil runs to stills equal to the number of barrels of eligible product imported by that eligible firm.

3. *Reporting requirements.* The reporting requirements set forth in paragraph (j) of § 211.66 shall apply with respect to eligible firms' imports of No. 2 heating oil in the months February and March 1977.

4. *Provisions of Subpart C.* The provisions of Subpart C of Part 211 shall remain in full force and effect except as expressly modified by the provisions of this Special Rule.

[10 CFR Part 212]

PRODUCTION AND SALE OF "IMPUTED STRIPPER WELL CRUDE OIL" FROM UNITIZED PROPERTIES

Proposed Rulemaking and Public Hearing; Correction

On January 19, 1977 the Federal Energy Administration ("FEA") gave notice of a proposed rulemaking and public hearing to consider a proposal to amend 10 CFR 212.75 so as to compute volumes of "imputed stripper well crude oil" produced and sold from unitized properties on a percentage basis. In that Notice FEA indicated that requests to make oral presentations must be received by FEA before 4:30 p.m. on Wednesday, January 26, 1977, and that witnesses would be notified by 4:30 p.m. on Friday, January 28, 1977.

Inasmuch as the January 19 Notice did not appear in the FEDERAL REGISTER until January 25, 1977 42 FR 4491, FEA hereby extends the period for requests to make oral presentations. Such requests must be received by FEA before 4:30 p.m., Tuesday, February 1, 1977; witnesses will be notified by 4:30 p.m., Thursday, February 3, 1977. The public hearing will be held, as scheduled, on Friday, February 11, 1977. In all other respects, the Notice remains unchanged.

DAVID G. WILSON,
Acting General Counsel,
Federal Energy Administration.

JANUARY 25, 1977.

[FR Doc.77–2815 Filed 1–25–77;3:27 pm]

EXPORT-IMPORT BANK OF THE UNITED STATES

[12 CFR Part 405]

RULES GOVERNING PUBLIC OBSERVATION OF EXIMBANK MEETINGS

Implementation of Government in Sunshine Act

In accordance with the Government in the Sunshine Act, 5 U.S.C. 552b, and to implement the provisions of that act, Eximbank proposes to amend Title 12 of the Code of Federal Regulations by adding a new Part 405.

Written comments concerning these proposed regulations are invited from interested persons. Comments should be presented in writing to the Office of the General Counsel, Export-Import Bank of the United States, 811 Vermont Avenue, NW, Washington, D.C. 20571. An original and four conformed copies should be filed with the General Counsel and should disclose the name, title, mailing address and telephone number of the person submitting the comments. All written comments received no later than February 28, 1977, will be considered. Such written comments will be made available until that date for public inspection at the Office of the General Counsel of Eximbank during regular business hours.

The purpose of new Part 405 of Title 12 of the Code of Federal Regulations is to implement sections (b) through (f) of the Government in the Sunshine Act, 5 U.S.C. 552b (b) through (f), and they are made pursuant to section (g) of the Government in the Sunshine Act, 5 U.S.C. 552b(g). They recognize that the public is entitled to the fullest practicable information regarding the decision-making processes of Eximbank, while at the same time the rights of individuals and the ability of Eximbank to carry out its statutory responsibilities should be protected.

Pursuant to the Export-Import Act of 1945, as amended, 12 U.S.C. 635 et seq., Eximbank is directed "to aid in financing and to facilitate exports and imports and the exchange of commodities * * *" In carrying out this statutory mandate, Eximbank is required to provide financial assistance "* * * for specific purposes" i.e., for individual transactions involving the export of U.S. goods and services. Additional statutory provisions require that every transaction "in the judgment of the Board of Directors, offer reasonable assurance of repayment" and that "in authorizing any loan or guarantee, the Board of Directors * * * take into account any serious adverse effect of such loan or guarantee on the competitive position of United States industry, the availability of materials which are in short supply in the United States, and employment in the United States". In order to do so, Eximbank draws upon information supplied by U.S. manufacturers, exporters, service organizations, financial institutions, and foreign borrowers and guarantors. Such information almost always involves information of the kind exempt from disclosure under Exemption 4 of the Freedom of Information Act, 5 U.S.C. 552(b)(4), and is almost always revealed in discussions of each item on the agendas of the regularly scheduled meetings of the Board of Directors or the Executive Committee at which applications for loans, guarantees and insurance are considered. The exact wording of Exemption 4—"trade secrets and commercial or financial information obtained from a person and privileged or confidential"—was included in Exemption 4 of the Government in the Sunshine Act, 5 U.S.C. 552b(4). The Conference Report to the Government in the Sunshine Act indicates that the Exemption 4 contained therein is intended to be read in the same way as the Exemption 4 of the Freedom of Information Act. See Conference Report, Senate Report No. 94–1178, 94th Cong. 2d Session, August 27, 1976 at p. 15.

It should also be noted that in order to comply with its statutory mandate, Eximbank has made use on occasion of information of the kind that would be exempt from disclosure under Sections (8), (9)(A) and (10) of the Government in the Sunshine Act, 5 U.S.C. 552b(c)

(8), (9)(A) and (10), Eximbank is likely to continue to do so in the future.

For these reasons, Eximbank has made a determination to close its regularly scheduled meetings by regulation as provided in § 405.2(b) below. At the same time, Eximbank recognizes that official Eximbank business may be jointly conducted or disposed of in meetings that are not regularly scheduled and will be open to public observation subject to the exemptions contained in the Sunshine Act. Although past practice indicates that non-regularly scheduled meetings rarely occur, nevertheless Eximbank has made provision for them as set out in § 405.2(c) below. In the event that such meetings could be closed pursuant to Sections (4), (8), (9)(A), or (10) of the Government in the Sunshine Act, as cited above, they will be governed by the procedures applicable to regularly scheduled meetings as provided in § 405.3 below. If they are closed pursuant to any other exemption, they will be governed by the procedures set out in § 405.4 below.

Regulations to implement sections (b) through (f) of the Government in the Sunshine Act will become effective on March 12, 1977.

The proposed regulations are set forth below.

Dated: January 25, 1977.

WARREN W. GLICK,
General Counsel.

PART 405—RULES GOVERNING PUBLIC OBSERVATION OF EXIMBANK MEETINGS

Sec.
405.1 Purpose, scope and definitions.
405.2 Closing meetings.
405.3 Procedures applicable to regularly scheduled meetings.
405.4 Procedures applicable to other meetings.
405.5 Certification by General Counsel.
405.6 Transcripts, recordings and minutes of closed meetings.
405.7 Relationship to Freedom of Information Act.

§ 405.1 Purpose, scope and definitions.

(a) Consistent with the principles that: (1) The public is entitled to the fullest practicable information regarding the decision-making processes of the Federal Government, and

(2) The rights of individuals and the ability of the Export-Import Bank of the United States to carry out its statutory responsibilities should be protected, this Part is promulgated pursuant to the directive of section (g) of the Government in the Sunshine Act, 5 U.S.C. 552b(g), and specifically implements sections (b) through (f) of said Act, 5 U.S.C. 552b (b) through (f).

(b) The term "meeting" means any meeting of the Board of Directors of Eximbank at which a quorum is present or any meeting of the Executive Committee of the Board of Directors where deliberations of the Board of Directors or the Executive Committee determine or result in the joint conduct or disposition of official Eximbank business.

(c) The term "regularly scheduled meeting" means meetings of the Board of Directors or the Executive Committee which are held at 10 a.m. on Tuesday and Thursday of each week.

(d) The term "General Counsel" means the General Counsel and his or her designees.

§ 405.2 Closing meetings.

(a) Except where Eximbank finds that the public interest requires otherwise, a meeting, or any portion thereof, may be closed to the public, where the Board of Directors or the Executive Committee determines that such meetings, or any portion thereof, or information pertaining to such meeting, or any portion thereof, is likely to:

(1) Disclose matters that are: (i) Specifically authorized under criteria established by an Executive order to be kept secret in the interests of national defense or foreign policy, and (ii) In fact properly classified pursuant to such Executive order;

(2) Relate solely to the internal personnel rules and practices of Eximbank or any other agency;

(3) Disclose matters specifically exempted from disclosure by statute (other than section 552 of Title 5 of the United States Code), provided that such statute: (i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or (ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Involve accusing any person of a crime, or formally censuring any person;

(6) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) Disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would: (i) Interfere with enforcement proceedings, (ii) Deprive a person of a right to a fair trial or an impartial adjudication, (iii) Constitute an unwarranted invasion of personal privacy, (iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) Disclose investigative techniques and procedures, or (vi) Endanger the life or physica safety of law enforcement personnel;

(8) Disclose information contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions;

(9) Disclose information the premature disclosure of which would: (i) In the case of an agency which regulates currencies, securities, commodities, or financial institutions, be likely to: (A) Lead to significant financial speculation in currencies, securities, or commodities, or (B) Significantly endanger the stability of any financial institution; or

(ii) In the case of Eximbank or any other agency, be likely to significantly frustrate implementation of a proposed agency action; except that subparagraph (ii) shall not apply in any instance where the agency has already disclosed to the public the content or nature of its proposed action, or where the agency is required by law to make such disclosure on its own initiative prior to taking final agency action on such proposal; or

(10) Specifically concern Eximbank's issuance of a subpoena, or Eximbank's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration.

(b) Inasmuch as opening any regularly scheduled meeting, or any portion thereof, to public observation will be likely to result in the disclosure of the kind of information set forth in § 405.2(a)(4), (8), (9)(i) or (10), or any combination thereof, the Board of Directors hereby closes all regularly scheduled meetings to the public.

(c) Any other meeting of Eximbank, or any portion thereof, will be open to public observation except where the Board of Directors determines that such meeting, or any portion thereof, is likely to disclose information of the kind set forth in any subparagraph of § 405.2(a). In the event that the Board of Directors closes such meeting, or any portion thereof, by virtue of § 405.2(a)(4), (8), (9)(i) or (10), or any combination thereof, the procedures set forth in § 405.3 below will apply, and in the event that the Board of Directors closes such meeting, or any portion thereof, by virtue of any of the remaining subparagraphs of § 405.2(a), or any combination thereof, the procedures set forth in § 405.4 below will apply.

§ 405.3 Procedures applicable to regularly scheduled meetings.

(a) *Announcements.* Regularly scheduled meetings of the Board of Directors or the Executive Committee will be held at 10:00 a.m. every Tuesday and Thursday in the Board Room (Room 1141) of the Bank's headquarters. In the event that a regularly scheduled meeting is rescheduled, public announcement of the time, date and place for such meeting will be made at the earliest practicable time in the form of a notice posted in the Office of the Secretary. An agenda setting forth the subject matter of each regularly scheduled meeting will be made available in the Office of the Secretary (Room 1012, telephone number 202–382–2289) at the earliest practicable time, provided that individual items may be added to or deleted from any agenda at any time. Inquiries from the public regarding any regularly scheduled meeting shall be directed to the Office of the Secretary.

(b) *Voting.* At the beginning of each regularly scheduled meeting, the Board of Directors or the Executive Committee

will vote by recorded vote on whether to close such meeting. No proxy votes will be permitted. A record of such vote indicating the vote of each Director will be posted in the Office of the Secretary immediately following the conclusion of such meeting.

§ 405.4 Procedures applicable to other meetings.

(a) *Announcements.* (1) For every meeting which is to be open to public observation or which is to be closed pursuant to any subparagraph of § 405.2(a) other than subparagraphs (4), (8), (9) (i) or (10), or any combination thereof, public announcement will be made at least one week before the meeting of the time, place, and the agenda setting forth the subject matter of such meeting, and whether the meeting, or any portion thereof, is to be open or closed to the public.

(2) Inquiries from the public regarding any such meeting shall be directed to the Office of the Secretary.

(3) The one-week period for the announcement required by subparagraph (a) (1) of this section may be reduced if the Board of Directors or the Executive Committee determines by a recorded vote that Eximbank business requires such meeting to be called at an earlier date. Public announcement of the time, place, and subject matter of such meeting, and whether open or closed to the public, will be made at the earliest practicable time.

(4) The time or place of a meeting may be changed following the announcement required by subparagraph (a) (1) of this section only if public announcement is made of such change at the earliest practicable time.

(5) The subject matter of a meeting or the determination of the Board of Directors or the Executive Committee to open or close a meeting, or any portion thereof, to the public, may be changed following the announcement required by paragraph (a) only if:

(i) A majority of the entire voting membership of the Board of Directors or the Executive Committee determines by a recorded vote that Eximbank business so requires and that no earlier announcement of the change was possible; and

(ii) The Board of Directors or the Executive Committee announces such change and the vote of each Director upon such change at the earliest practicable time.

(6) Individual items may be added to or deleted from any agenda at any time.

(7) The announcements required pursuant to this subsection shall be made in the form of a notice posted in the Office of the Secretary. In addition, immediately following each announcement required by this subsection, notice of: (i) The time, place and subject matter of a meeting which is to be open to public observation or which is to closed pursuant to any subsection of § 405.2(a) other than subparagraphs (4), (8), (9) (i) or (10), or any combination thereof, (ii) The decision to open or close such meeting, or any portion thereof, or (iii) Any change in any announcement previously made shall be submitted for publication in the FEDERAL REGISTER.

(8) The information required by this subsection shall be disclosed except to the extent that it is exempt from disclosure under any subsection of § 405.2 (a).

(b) *Voting.* (1) Action to close a meeting, or any portion thereof, pursuant to any subparagraph of § 405.2(a), other than subparagraphs (4), (8), (9)(i), or (10) or any combination thereof, shall be taken only when a majority of the entire voting membership of the Board of Directors or the Executive Committee votes to take such action.

(2) A separate vote of the Board of Directors or the Executive Committee shall be taken with respect to each meeting, or any portion thereof, which is proposed to be closed to the public pursuant to any subparagraph of § 405.2(a) other than subparagraphs (4), (8), (9) (i) or (10), or any combination thereof, or with respect to any information which is proposed to be withheld under any subparagraph of § 405.2(a), other than subparagraphs (4), (8), (9)(i) or (10), or any combination thereof.

(3) A single vote of the Board of Directors or the Executive Committee may be taken with respect to a series of meetings, or any portion thereof, which are proposed to be closed to the public pursuant to any subparagraphs of § 405.2(a), other than subparagraphs (4), (8), (9)(i) or (10), or combination thereof, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular matters and is scheduled to be held no more than 30 days after the initial meeting in such series.

(4) Whenever any person whose interests may be directly affected by any portion of a meeting which is to be open to public observation submits a request in writing to the Office of the Secretary that the Board of Directors or the Executive Committee close such portion to the public under § 405.2(a) (5), (6) or (7), the Board of Directors or the Executive Committee, shall vote by recorded vote on whether to close such portion.

(5) No proxy vote will be permitted for any vote required under this subsection.

(6) A record of each vote indicating the vote of each Director pursuant to subparagraphs (b) (1), (b) (2), (b) (3) or (b) (4) of this section will be posted in the Office of the Secretary within one day after it has been taken, provided that if a meeting or portion thereof is to be closed, such record shall be accompanied by:

(i) A full writting explanation of the reasons for closing such meeting or portion thereof, and (ii) A list of all persons expected to attend such meeting or portion thereof and their affiliation.

§ 405.5 Certification by General Counsel.

For every meeting closed pursuant to any subparagraph of § 405.2(a), the General Counsel of Eximbank will be asked to certify that in his or her opinion such meeting may properly be closed to the public, and to state which of the exemptions set forth in § 405.2(a) he or she has relied upon. A copy of such certification will be posted in the Office of the Secretary. The original certification together with a statement from the presiding officer of such meeting setting forth the time, date and place of such meeting and the persons present will be retained by Eximbank as part of the transcript, recording or minutes of such meeting described below.

§ 405.6 Transcripts, recordings and minutes of closed meetings.

(a) Eximbank will maintain a complete transcript of electronic recording of the proceedings of every meeting or portion thereof closed to the public, provided, however, that if any meeting or portion thereof is closed pursuant to § 405.2(a) (8), (9) (i), or (10), Eximbank may maintain a set of detailed minutes for such meetings in lieu of a transcript or electronic recording. The entire transcript, electronic recording or set of minutes of a meeting will be made available to the public for inspection and copying in the Office of the Secretary at the earliest practicable time but in any event not later than 20 business days after such meeting has been held. Copies of such transcript or minutes, as well as copies of the transcription of such recording disclosing the identity of each speaker, will be furnished to any person at the actual cost of duplication or transcription. However, Eximbank will not make available for inspection or copying the transcript, electronic recording or minutes of the discussions of any item on the agenda of such meeting which contains information of the kind described in § 405.2(a) above. Requests to inspect or to have copies made of any transcript, electronic recording or set of minutes of any meeting or item(s) on the agenda thereof should be made in writing to the Secretary and if possible, identify the time, date and place of such meeting and briefly describe the item(s) being sought. Eximbank will maintain a complete verbatim copy of the transcript, a complete electronic recording or a complete copy of the minutes of each meeting, or portion thereof, closed to the public for two years after such meeting or one year from the date of final action of the Board of Directors or the Executive Committee on all items on the agenda of such meeting, whichever occurs later.

(b) The determination to withhold information pursuant to paragraph (a) above may be appealed in writing to the General Counsel, who will make a determination to withhold or release the requested information within 20 business days from the date of receipt of the request for review.

§ 405.7 Relationship to Freedom of Information Act.

All requests to inspect or have copied any transcript, electronic recording or minutes described above in § 405.3(c) will be governed by the procedures set forth in this part. Nothing in this part shall effect the procedures set out in Part 404 governing requests for information, under the Freedom of Information Act.

CIVIL AERONAUTICS BOARD

[14 CFR Part 371]

[SPDR-54, Docket 29940, Dated January 25, 1977]

ADVANCE BOOKING CHARTERS

Administrative Expenses

Notice is hereby given that the Civil Aeronautics Board has under consideration an amendment of Part 371 of its Special Regulations (14 CFR Part 371) that would authorize Advance Booking Charter (ABC) operators to charge a fee covering administrative expenses incurred when a substitute is arranged for a canceling participant.

The principal features of the proposed amendments are described in the Explanatory Statement, and the proposed amendment is set forth in the Proposed Rule. This amendment is proposed under the authority of sections 101, 204, 401, 402, and 416 of the Federal Aviation Act of 1958, as amended, 72 Stat. 737, 743, 754, 757, and 771; 49 U.S.C. 1301, 1324, 1371, 1372, and 1386.

Interested persons may participate in the rulemaking through the submission of twenty (20) copies of written data, views, or arguments pertaining thereto, addressed to Docket 29940, Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before February 28, 1977, will be considered by the Board before taking final action on the proposed rules. Copies of such communications will be available for examination by interested parties in the Docket Section of the Board, Room 711, Universal Building, 1825 Connecticut Avenue, N.W., Washington, D.C., upon receipt thereof.

Individual members of the general public who wish to express their interest as consumers by participating informally in this proceeding may do so through submission of comments in letter form to the Docket Section at the address indicated above, without the necessity of filing additional copies.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

EXPLANATORY STATEMENT

Pursuant to § 371.14 of the Board's Special Regulations (14 CFR § 371.14), Advance Booking Charter (ABC) operators may arrange substitutes for a limited number of canceling ABC participants. Section 371.14(a) requires that each participant for whom a new participant is substituted receive a full refund of all monies paid to the charter operator with respect to the charter.

By petition dated October 18, 1976, Docket 29940, Charter Travel Corporation (CTC) requested that the Board adopt an amendment allowing an ABC operator to charge a canceling participant a fee of not more than $25, to cover administrative expenses, whenever the operator arranges a substitute for that participant. Petitioner also requested that this petition be considered simultaneously with its petition in Docket 29866, requesting that the Board amend Part 378a to allow One-stock-inclusive Tour Charter (OTC) operators to find substitutes for cancelling participants.

Answers supporting the petition were filed by ASTI Tours, Gogo International, Duncan Travel Service, Unitours, the Civil Aeronautics Board's Office of the Consumer Advocate (OCA), and jointly by Globus-Gateway Tours and Brendan Tours. No answers opposing the petition were filed.

In support of its request, CTC argued that since ABC operators are precluded from charging cancellation fees when substitutes are arranged, ABC prices must be raised to cover the expenses involved in making such arrangements, thus creating the anomaly that those who travel pay the expenses for those who cancel. Petitioner also pointed out that the Travel Group Charter (TGC) rule, which is the only other special charter rule authorizing air-only charters, permits TGC organizers to charge a fee of not more than 5 percent of the minimum pro rata charter price when substitutes are arranged for cancelling participants.

There is no limit on the cancellation fee an ABC operator may charge if no substitute is found. Gogo International, Unitours, Duncan Travel, and OCA pointed out that due to the expenses involved in arranging substitutions, it is to the advantage of ABC operators to avoid finding substitutes and to charge large cancellation fees. They argued that the current regulations thus provide a disincentive for operators to effect substitutions.

The Board tentatively finds that the described disincentive is indeed inappropriate with respect to non-European ABC's, where substitution privileges should be unfettered, but that it should be retained to discourage substitution in European ABC's. We therefore propose that, for non-European ABC's, an operator may reserve the right to retain up to $25 as an administrative fee to the canceling participant for arranging a substitute.

Duncan Travel, Gobus-Gateway and Brendan Tours, and Unitours all agreed that $25, the amount suggested by petitioner, would be a reasonable ceiling on cancellation fees when substitutes are found. However, Duncan Travel stated that $25 would not fully cover its costs for processing the cancellation and the new reservation. The Board specifically invites those parties filing comments to focus on whether $25 is a reasonable upper limit, and to submit data regarding the actual expenses involved in cancellations and substitutions.

The Boafd has tentatively decided not to state the upper limit as a percentage of the charter price (as is the case for TGC's) because it is not clear that the expenses incurred in arranging substitutions vary according to the price of the charter. However, the Board also invites comments on whether the ceiling should be expressed as a percentage of the air fare or by some other formula, rather than as a specific amount.

The Board has decided to deny CTC's request that this petition be considered simultaneously with its petition in Docket 29866 requesting that the Board amend Part 378a of the Special Regulations (14 CFR Part 378a) to allow tour operators to find substitutes for canceling OTC participants. That petition involves broader issues in a somewhat different area.

PROPOSED RULE

Accordingly, the Civil Aeronautics Board proposes to amend Part 371 of its Special Regulaions (14 CFR Part 371) as follows:

Paragraph (a) of § 371.14, Substitution for charter participants named on filed list, would be amended by adding at the end thereof the clause beginning with the words "except that," so that the paragraph as revised would read as follows:

§ 371.14 Substitution for charter participants named on filed list.

(a) The charter participant for whom a new participant is substituted shall receive a full refund of all monies paid to the charter operator with respect to the charter, except that, with respect to non-European charters, the charter operator may reserve the right to retain an administrative fee of not more than $25 for effecting the substitution.

[Docket No. 76N-0486]

BUBBLE BATH PRODUCTS

Label Warning

The Food and Drug Administration (FDA) is proposing a required caution statement on labels of cosmetic bubble bath products. The statement cautions consumers against product misuse and recommends discontinuance of use and consultation with a physician should injury occur; comments by March 29, 1977.

The Food and Drug Administration has received many complaints from consumers and physicians about adverse reactions caused by bubble bath products. They reported itching and skin rashes; urinary tract, bladder and kidney injuries; and genital disorders. Other persons reported eye irritation and respiratory disorders. A significant number of injuries required medical attention. Copies of consumer injury complaint statistics (Refs. 1 and 2) and all other references cited in this preamble are on file at the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857.

The medical literature contains many reports of urogenital disorders associated with the use of bubble bath products. For example, R. J. Simmons reported in 1955 on cases of vulvovaginitis, many of which he attributed to the use of detergent and perfumed soap products, including bubble bath preparations (Ref. 3). S. Marshall discussed in 1965 a case of urinary frequency, urgency, and marked terminal dysuria (painful or difficult urination) in a 2½-year-old male, which disappeared when bubble baths were discontinued (Ref. 4). In 1967, H. J. Roberts reported five cases of urethral and bladder irritation in diabetic females, precipitated or aggravated by habitual use of bubble bath preparations (Ref. 5). More cases of urinary tract disorders were reported in 1973. Stopping use of the bubble bath eliminated the symptoms (Ref. 6). In 1966, H. N. Bass described four cases of genitourinary tract injuries in children; the injuries were associated with bubble baths. These cases were representative of a total of 16 children with urethral and bladder irritation attributable to use of bubble bath preparations. The symptoms ceased or were alleviated when use of bubble baths were stopped. (Ref. 7.)

Although the ingredients causing the reported consumer injuries could not be determined with certainty by FDA, the available information indicated that the source of the adverse reactions appeared to be alkylarylsulfonate. Alkylarylsulfonates are general purpose detergent and wetting agents for use in industrial, household, and cosmetic products. Some alkylarylsulfonates have been widely used in all types of bubble bath products as detergent and foaming agents. The skin defattening and irritation properties of detergents are widely known (Refs. 4, 8, and 9).

To lower the probability of human hazard, the agency contacted in 1971 all cosmetic firms known to manufacture bubble bath products and requested that they reduce the alkylarylsulfonate content of their formulations to less than 10 percent, preferably to a concentration between 2 and 5 percent, and remove all other harsh ingredients. In addition, the firms contacted were asked to monitor carefully the frequency and types of adverse reactions because a safe concentration of alkylarylsulfonate had not been determined and additional reduction or elimination of the detergent ingredient might be necessary.

The annual number of consumer complaints related to bubble bath products did not change significantly during the ensuing years. In 1970, FDA received 25 consumer reports of adverse reactions to bubble bath products; in 1971 FDA received 14 consumer reports of adverse reactions. For the years 1972 through 1975, the annual complaints totaled 29, 60, 31, and 19, respectively (Refs. 1 and 2).

The number of consumer reports of adverse reactions for 1973, which was 60, was significantly higher than the number of adverse reactions for the other years because of a press and radio solicitation for consumer reports of adverse reactions; this solicitation was initiated by the Federal Trade Commission (FTC) in May 1973 in the Cleveland, Ohio, area. Statistical data confirm this observation: During the period of January 1, 1972 to July 18, 1973, FTC received 29 complaints at its Cleveland, Ohio, district office; for the same period, FDA received, at all its offices, 37 complaints. These data further indicate that many adverse reactions may be expected to remain unreported unless consumers are encouraged to report their experiences; even then, many consumer injuries may not be brought to the attention of FDA.

Other reports of consumer injuries associated with the use of bubble bath preparations were received by FDA through the program of voluntary filing of cosmetic product experiences by cosmetic firms, in accordance with 21 CFR Part 730 and a 3-month survey in 1974 of cosmetic adverse reactions among 10,000 households (Refs. 11 and 12). The voluntarily filed industry data for 1974 and the first half of 1975 included 34 reports of adverse reactions to bubble bath products. Only a limited number of firms have been participating in this program, and the largest distributors of bubble bath preparations did not file their consumer reports of adverse reactions.

The report of the 1974 survey of 10,000 households, "An Investigation of Consumers' Perceptions of Adverse Reactions to Cosmetic Products," which was published in June 1975, included 24 cases of adverse reactions from the use of bubble bath products. Most of the injuries involved itching, redness, rashes, chapping, and fissuring of the skin. Some consumers reported urogenital and respiratory disorders. During September, the panelists reported 15 adverse reactions and 10,705 product uses. Accordingly, the rate of adverse reactions was 14 per 10,000 product uses and was considerably higher than the cumulative rate of 6.9 for all cosmetic product categories.

The tabulations and analyses of the reports of consumer injury received by FDA show that many commercial bubble bath products have caused adverse reactions. The greatest number of complaints is related to the leading children's bubble bath product. The second highest number of complaints is associated with another widely distributed children's product. The majority of injuries and the most severe injuries, i.e., genitourinary tract disorders, were reported in childen, particulaly female children (Refs. 1 and 2).

Representatives of FDA met in 1973 and 1974 on three occasions with representatives of the manufacturer of the leading children's bubble bath product to review the actions taken by the firm and resolve the adverse reaction problem (Refs. 13, 14, and 15). The manufacturer implemented several formulation changes and conducted several animal tests and one human study in an attempt to develop a bubble bath product that would have a lower rate of adverse reactions. In 1974 the firm notified FDA that the label of its bubble bath powder product would in the future bear explicit directions for use and statements cautioning against misuse so as to prevent possible irritation (Ref. 15). The effect of those actions on the adverse reaction level cannot be determined with certainty because comprehensive consumer injury data are unavailable. The available data FDA has received on consumer complaints about bubble bath products in this period indicates no significant reduction in consumer injuries. Since 1972, the annual ratio of adverse reactions to this manufacturer's bubble bath products in relation to the total number of injury reports received on bubble bath products in general, has remained essentially unchanged.

Because of the continuing high rate adverse reactions to bubble bath products and the potential for urogenital tract infection, the Commissioner believes that regulatory action is needed. The Commissioner finds that prolonged or excessive use of bubble bath products contributes significantly to the high incidence of adverse reactions in users, particularly children. One indication that misuse is a contributing factor to the adverse reaction level is that reports of adverse reactions have not declined in recent years despite the changes in formulation and reduction in the alkylarylsulfonate concentration made by the leading manufacturers of bubble bath products.

The effects of soap and detergent solutions on the epidermis, particularly under conditions of repeated exposure, have been documented by B. Idson and M. E. Chernosky in reviews of pertinent scientific literature (Refs. 8 and 16). The skin-modifying effects of soap and detergents have been described also, for example, by J. D. Middleton, B. M. Allen, C. Prottey, and J. Ferguson (Refs. 9, 17, and 18). The removal of sebum from the surface of the skin and the extraction of lipids from the cell membranes of the outer layer of the skin by detergent solutions increase the skin's permeability and permit extraction of hygroscopic, water-soluble substances from epidermal cells. The decrease in hygroscopic substances reduces the water-binding capacity of the epidermis, and hence its flexibility and extensibility, and promotes dryness of the skin. Moreover, denuded, dry skin causes increased friction between one skin surface and another, or skin and clothing, particularly in winter when the relative humidity of the air indoors is low. These epidermal changes, external influences, and related factors may cause itching, redness, chapping, or fissuring of the skin, and in severe cases may induce inflammation and infection. Mucous membranes may undergo similar changes leading to irritation, inflammation, or infection. In severe cases of mucosal damage and microbial attack, urogenital tract infection may occur.

As pointed out by M. E. Chernosky, when skin appears dry and shows signs of damage, dermatologists instruct their patients to avoid soap and detergents as much as possible (Ref. 16). Accordingly, the Commissioner concludes that directions that inform consumers about the conditions of safe use of a bubble bath product, and a mandatory label statement cautioning the consumer about the possible adverse effects of these products and recommending consultation with a physician in cases of persistent irritation, may reduce significantly the occurrence of consumer injury. The effectiveness of cautionary labeling in reducing incidents cannot be determined from past experience because cautionary labeling has only recently come into use by the leading manufacturer and is not as prominent and direct as the labeling proposed below.

The Commissioner further concludes that the additional statement on powder bubble bath products cautioning against the inhalation of the dust of the detergent powder will abate the incidence of respiratory irritation and discomfort. Powder bubble bath products have a tendency to cause dusting when sprinkled into the water, particularly when added near the stream while it is turned on full force. Liquid bubble bath products are not expected to cause this adverse reaction because of their physical form and their ability to mix readily with the water.

The Commissioner has carefully considered the environmental effects of the proposed regulation and, because the proposed action will not significantly affect the quality of the human environment, has concluded that an environmental impact statement is not required. A copy of the environmental impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Because of the many reported adverse reactions to bubble bath products, the Commissioner intends to make these requirements effective 6 months after publication of the final regulation in the FEDERAL REGISTER. The time period between publication of the final regulation and the effective date of the regulation should provide adequate time to make the required label changes. Accordingly, the labels of all products initially introduced into interstate commerce 6 months after publication of the final regulation must bear adequate directions for safe use and the required caution statements.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 601, 602, 701(a), 52 Stat. 1041 as amended, 1054, as amended, 1055 (21 U.S.C. 321(n), 361, 362, 371(a))) and under authority delegated to the Commissioner (21 CFR 5.1) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)), it is proposed to amend Part 740 by adding the following new section to read as follows:

§ 740.17 Bubble bath products.

(a) For the purpose of this section, a bubble bath product is any product intended to be added to a bath for the purpose of cleansing the human body, or for other cosmetic purposes, that contains a detergent or foaming ingredient.

(b) The label of bubble bath products within the meaning of paragraph (a) of this section shall bear adequate directions for safe use and the following caution:

Caution—Use only as directed. Excessive use or prolonged exposure may cause irritation to skin and urinary tract. Discontinue use if rash, redness or itching occur. Consult your physician if irritation persists. Keep out of reach of children.

(c) In the case of products intended for use by children, the phrase "except under adult supervision" may be added at the end of the last sentence in the caution required by paragraph (a) of this section.

(d) In the case of powder products, the phrase "Avoid inhalation of dust to prevent respiratory discomfort" shall be added as the last sentence of the caution statement required by paragraph (a) of this section.

Interested persons may, on or before March 29, 1977, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, written comments (preferably in quintuplicate and identified with

the Hearing Clerk docket number found in brackets in the heading of this document) regarding this proposal. Received comments may be seen in the above office between the hours of 9 a.m. and 4 p.m., Monday through Friday.

The Food and Drug Administration has determined that this document does not contain a major proposal requiring preparation of an inflation impact statement under Executive Order 11821 and OMB Circular A-107. A copy of the inflation impact assessment is on file with the Hearing Clerk, Food and Drug Administration.

Dated: January 18, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

PAPAVER BRACTEATUM

Postponement and Rescheduling of Hearing: Extension of Time for Comments

On December 21, 1976, the Administrator of the Drug Enforcement Administration published a notice in the FEDERAL REGISTER (41 FR 55558) which scheduled hearings to be held on January 27 and 28, 1977, for the purpose of hearing comments on the notice of proposed production and control of Papaver Bracteatum in the United States, which had been published originally in the FEDERAL REGISTER on November 19, 1976 (41 FR 51036).

The hearings on this subject matter, scheduled to be held on January 27 and 28, 1977, have been postponed, and have been rescheduled to be held on March 15, 16, and 17, 1977, at a time and place to be announced in a future supplementary notice to be published within the FEDERAL REGISTER. The time for submission of written comments on this subject matter has been likewise extended to March 17, 1977.

Dated: January 25, 1977.

PETER B. BENNINGER,
Administrator.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing—Federal Housing Commissioner

[24 CFR Part 888]

[Docket No. R-77-311]

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

Schedule A; Fair Market Rents for New Construction and Substantial Rehabilitation

On April 6, 1976, at 41 FR 14662, the Department of Housing and Urban Development (HUD) amended Title 24 of the Code of Federal Regulations, incorporating in Part 888, Subpart A, a revised Schedule A, "Fair Market Rents for New Construction and Substantial Rehabilitation (including Housing Finance and Development Agencies Program)," for all market areas.

Since April 6, 1976, additional comments and data have been received from the Portland, Oregon Area Office indicating a need to establish a rent for a zero-bedroom semi-detached/row unit in the Portland market area.

The Department proposes to incorporate in Part 888, Subpart A, at 41 FR 14719, a revised Schedule A for the Portland market to add a fair market rent for zero-bedroom semi-detached/row housing.

Because it is necessary to the operation of the Section 8 program that fair market rents remain as current as possible, and because interested parties are encouraged at all times to submit information and data on those rents which will be considered in initiating revisions as needed, it has been determined that it is impracticable and unnecessary to provide a 30-day period for comments on these proposed revisions and that a 15-day period is reasonable and in the public interest.

Interested persons are invited to submit written data, comments, suggestions, or objections concerning the proposed revision. Communications should identify the subject matter by title and docket number and should be filed with the Rules Docket Clerk, Office of the Secretary, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410. All relevant material received on or before February 11, 1977, will be considered before adoption of the revision in final form. Copies of comments received will be available for examination during business hours at the above address.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the office of the Rules Docket Clerk, Room 10141, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)).

NOTE.—It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

Issued at Washington, D.C., January 19, 1977.

JOHN T. HOWLEY,
Acting Assistant Secretary for Housing — Federal Housing Commissioner.

PART 888—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—FAIR MARKET RENTS AND CONTRACT RENT AUTOMATIC ANNUAL ADJUSTMENT FACTORS

SCHEDULE A—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAM.)

These Fair Market Rents have been trended ahead two years to allow time for processing and construction of proposed new construction and substantial rehabilitation rental projects.

NOTE: The Fair Market Rents for (1) dwelling units designed for the elderly or handicapped are those for the appropriate size units, not to exceed 2-Bedroom, multiplied by 1.05 rounded to the next higher whole dollar, (2) congregate housing dwelling units are the same as for non-congregate units and (3) single room occupancy dwelling units are those for 0-Bedroom units of the same type.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

GROUP-TERM LIFE INSURANCE

Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by March 14, 1977. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rulemaking is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit a request, in writing, to the Commissioner by March 14, 1977. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 79(c) and 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

PREAMBLE

This document contains proposed amendments to the regulations under section 79 of the Internal Revenue Code of 1954, which provides that the cost of group-term life insurance purchased by an employer on the life of an employee is generally included in the employee's gross income but only to the extent the insurance exceeds $50,000. Insurance other than group-term life insurance (such as whole life insurance) does not qualify for this exemption. An employer can generally deduct the entire amount of premium he pays on behalf of his employees as part of the compensation paid for services rendered, regardless of the nature of the insurance purchased.

The present regulations, as applied by the Service, allow an insurance company to issue a policy (or a package of more than one policy) providing both pure life insurance protection and permanent benefits (such as a paid-up value, cash surrender value, or an equivalent benefit). In 1950, the Service held that the premiums paid by an employer for term life insurance in a combination policy containing both term life insurance and paidup life insurance are excluded from the employee's income. Mim. 6477, 1950-1 C.B. 16, paragraph 4. The regulations under section 79 issued in 1966 adopted this rule because it did not seem necessary to require life insurance companies to write two separate contracts merely to qualify the term insurance portion under section 79. The language of the 1966 regulations was interpreted to allow favorable section 79 treatment for the pure insurance portion of a whole life policy. This interpretation was specifically disavowed in Rev. Rul. 71-360, 1971-2 C.B. 87, and in revised section 79 regulations issued in 1972. Nevertheless, the misinterpretation has continued. In addition, the Service has concluded that there is no way to reconcile the varying methods used by insurance companies to allocate premiums between the (generally tax-free) pure life insurance protection and (taxable) permanent benefits. The allocations of the total premiums set firth in the policies have tended to weigh too heavily toward the pure life insurance protection, resulting in income being treated as tax-exempt that Congress did not intend to be so treated.

These amendments provide that a policy for purposes of section 79 must have no features other than pure group-term life insurance. These amendments contain new rules for determining whether a group-term life insurance policy sold in conjunction with certain other contracts constitutes group-term life insurance for purposes of section 79. A "safe-harbor" provision to enable taxpayers and others to determine easily whether the cost for such group-term life insurance qualifies for favorable section 79 treatment utilizes a new uniform premium rate table that supersedes Table I of 1.79-3(d)(2). The new Table II adopts the rates set forth in the Senate Finance Committee Report that preceded the enactment of section 79. Sen. Rept. No. 830, 88th Cong., 2d Sess., 1964-1 (Part II) C. B. 505, 551. It also applies to determine the cost of group-term life insurance in excess of $50,000 for taxable years of employees beginning after December 31, 1976. The new Table II is being proposed in this notice of proposed rule making because it better reflects the actual cost of group-term life insurance than Table I.

The new restrictions concerning combination sales apply to insurance provided under binding arrangements between employers and insurance companies entered into after November 4, 1976, the date IR-1689 was released by the Service. That news release announced a suspension of all private rulings with respect to combination policies entered into after that date. Insurance provided under binding arrangements entered into before November 5, 1976, will be subject to the old rules if no new employees are added after January 24, 1977.

AMENDMENT TO THE REGULATIONS

Accordingly, it is proposed to amend the Income Tax Regulations (26 CFR Part 1) as set forth below:

Paragraph 1. Section 1.79-1 is amended by deleting the second and third sentences of paragraph (b)(1)(i), by inserting three new sentences before paragraph (b)(1)(ii)(*a*), and by inserting a new paragraph (b)(1)(ii-a) after paragraph (b)(1)(ii). The amended provisions read as set forth below:

§ 1.79-1 General rules relating to group-term life insurance purchased for employees.

* * * * *

(b) *Meaning of terms.* * * *

(1) *Group-term life insurance*—* * *

(ii) *Paid up or similar value.* This paragraph (b)(1)(ii) applies only to insurance protection provided after December 31, 1963, for employees who had such protection before January 25, 1977. Pursuant to binding arrangements between an employer and an insurance company entered into before November 5, 1976 (or renewals thereof). Thus, if an employee who was not protected before January 25, 1977, is provided insurance protection thereafter, this paragraph (b)(1)(ii) does not apply to any insurance protection provided to any employees under the arrangement that protects the newly-covered employee. Similarly, if after November 4, 1976 the allocation of premiums between the cost of pure life insurance protection and other features is changed, or any new feature is sold in conjunction with a group-term life insurance policy, there is a new arrangement, and, consequently, this paragraph (b)(1)(ii) will no longer apply.

* * * * *

(ii-a) *Group-term life insurance provided after November 4, 1976*—(a) *General rule.* This paragraph (b)(1)(ii-a) applies to insurance protection provided after November 4, 1976, except that it does not apply to insurance protection to which paragraph (b)(1)(ii) of this section applies. To qualify as "group-term life insurance" for purposes of section 79, a policy must have no features other than pure group-term life insurance. In addition, when an insurance company (or two or more insurance companies that are members of a controlled group of corporations described in section 1563(a), applied by substituting "50 percent" for "80 percent" whenever the latter percentage appears) sells a group-term life insurance policy to an employer insuring the lives of its employees and in conjunction therewith sells to any person another policy on the life of an employee or an owner-employee (as defined below) that includes term or permanent

insurance, a paid-up value, a cash surrender value, or an equivalent benefit, then the group-term life insurance policy is not "group-term life insurance" for purposes of section 79 if the cost of the group-term life insurance policy includes any of the cost that is properly attributable to the other policy. For purposes of section 79, the cost of a provision permitting an employee to convert (or continue) the term insurance protection after it ceases to be provided by the employer shall be treated as part of the cost of the group-term life insurance with which it is associated, so long as it contains no other benefits (such as cash value) that are available to the employee. For the purpose of this paragraph (b)(1)(ii-a)(*a*), the term "owner-employee" means a person who—

(*1*) Owns the entire interest in an unincorporated trade or business,

(2) In the case of a partnership, is a partner who owns more than 10 percent of either the capital interest or the profits interest in such partnership, or

(3) In the case of a corporation, is a shareholder who owns more than 10 percent of any class of stock in such corporation.

(*b*) *Safe-harbor guidelines.* The restriction contained in the third sentence of paragraph (b)(1)(ii-a)(*a*) of this section ordinarily will be satisfied if the following conditions are met:

(*1*) The contracts for the group-term life insurance and such other benefits have each been filed with and approved by the applicable state insurance department as separate contracts.

(2) The availability, termination, conversion or amendment of one of the contracts has no effect in fact on the other contract (including its continuance).

(3) The premiums charged for the group-term life insurance policy do not exceed in the aggregate the premiums that would be charged if they were computed in accordance with Table II of § 1.79-3(d)(2).

(*c*) *Examples.* The following examples illustrate the application of the restriction of the third sentence of paragraph (b)(1)(ii-a)(*a*) of this section.

Example (*1*). Corporation M purchases a group-term life insurance policy for its employees from insurance company U under which M will purchase decreasing term life insurance on each of its employees. It is contemplated that U will offer to each employee the opportunity to purchase units of paid-up life insurance such that the sum of the units of paid-up life insurance plus the term insurance with respect to each employee remains roughly constant over a period of years. The restriction of the third sentence of paragraph (b)(1)(ii-a)(*a*) of this section applies to such an arrangement.

Example (2). Corporation P purchases a group-term life insurance policy from insurance company V. V gives to its agents a list of P's employees that it obtains by reason of the sale. Its agents call upon P's employees to sell permanent individual life insurance policies. The restriction of the third sentence of paragraph (b)(1)(ii-a)(*a*) of this section does not apply to such an arrangement if such policies are generally available and sold under the same terms and conditions to persons not covered by a group-term life insurance policy issued by V.

Example (*3*). Corporation R purchases a group-term life insurance policy for its employees from insurance company W. A, president and owner of R, requests an individual life insurance policy from W at standard rates even though A is a substandard risk. A makes a full disclosure of such facts to W. W nevertheless issues such a policy. The restriction of the third sentence of paragraph (b)(1)(ii-a)(*a*) of this section applies to such an arrangement.

Par. 2. Section 1.79-3 is amended by

(1) Revising paragraph (d)(1),

(2) Amending that part of paragraph (d)(2) preceding Table I,

(3) Revising the heading of Table I in paragraph (d)(2),

(4) Adding a new Table II to paragraph (d)(2), and

(5) Revising the first sentence of paragraph (d)(3).

These new and added revisions are set forth below:

§ 1.79-3 Determination of amount equal to cost of group-term life insurance.

* * * * *

(d) *The cost of the portion of group-term life insurance on an employee's life.* (1) This paragraph sets forth the rules for determining the cost, for each period of coverage, of the portion of the group-term life insurance on the employee's life to be taken into account in computing the amount includible in the employee's gross income for purposes of paragraph (a)(1) of this section. The portion of the group-term life insurance on the employee's life to be taken into account is determined in accordance with the provisions of paragraph (b) of this section. The appropriate table set forth in paragraph (d)(2) of this paragraph determines the cost for each $1,000 of such portion of the group-term life insurance on the employee's life for each one-month period. The cost of the portion of the group-term life insurance on the employee's life for each period of coverage of one month is obtained by multiplying the number of thousand dollars of such insurance computed to the nearest tenth that is provided during such period by the appropriate amount set forth in the appropriate table. In any case in which group-term life insurance is provided for a period of coverage of less than one month, the amount set forth in the appropriate table is prorated over such period of coverage.

(2) The following tables set forth the cost of $1,000 of group-term life insurance for 1 month computed on the basis of 5-year age brackets. For purposes of the tables, the age of the employee is his or her attained age on the last day of his or her taxable year. However, if an employee has attained an age greater than age 64, he or she shall be treated as if he or she were in the 5-year age bracket 60 to 64. With respect to the cost of group-term life insurance in excess of $50,000 to be included in the income of an employee, Table I applies to determine such cost for taxable years of the employee beginning before January 1, 1977. Table II applies to determine such cost for subsequent taxable years. Table II also applies for purposes of § 1.79-1(b)(1)(ii-a) (relating to the cost of group-term life insurance under policies that are sold in conjunction with certain other contracts).

TABLE I—UNIFORM PREMIUMS FOR $1,000 OF GROUP-TERM LIFE INSURANCE PROTECTION FOR EMPLOYEE'S TAXABLE YEARS BEGINNING BEFORE JANUARY 1, 1977

* * * * *

TABLE II—UNIFORM PREMIUMS FOR $1,000 OF GROUP-TERM LIFE INSURANCE FOR EMPLOYEE'S TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1976

5-year age bracket	Cost per $1,000 of protection for 1-month period
15 to 19	$0.12
20 to 24	.14
25 to 29	.18
30 to 34	.23
35 to 39	.30
40 to 44	.43
45 to 49	.61
50 to 54	.91
55 to 59	1.36
60 to 64	2.06

(3) The net premium cost of group-term life insurance as provided in the tables of paragraph (d)(2) of this section applies only * * *

Occupational Safety and Health Administration

[29 CFR Part 1910]

HAZARDOUS MATERIALS LABELING

Advance Notice of Proposed Rulemaking

The Occupational Safety and Health Administration (OSHA), U.S. Department of Labor, is studying the recommendations of the Standards Advisory Committee on Hazardous Materials Labeling and requests public comment as to whether a standard requiring employers to label hazardous materials should be developed and what should be contained in such a standard to assure that employees are apprised of the hazards to which they are exposed.

Section 6(b)(7) of the Occupational Safety and Health Act of 1970 (84 Stat. 1595, 29 U.S.C. 655) authorizes OSHA to issue standards which "prescribe the use of labels or other appropriate forms of warning as are necessary to insure that employees are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions of safe use or exposure." The Standards Advisory Committee on Hazardous Materials Labeling was established under section 7(b) of the Act (29 U.S.C. 656) to develop guidelines for the implementation of section 6(b)(7) of the Act with respect to hazardous materials. The Committee was requested:

to develop guidelines for categorizing and ranking hazards of materials, and guidelines for prescribing the required warnings of such hazards and related information on symptomatology, protective steps and equipment, and safe handling procedures, by such means as labels, data sheets and training requirements,

and to report to the Assistant Secretary of Labor for Occupational Safety and Health within 270 days following establishment of the Committee. The work of the Committee was to be basically limited to chemicals.

The Advisory Committee began its deliberations on September 19, 1974, and concluded its activities in June 1975. All scheduled meetings were open to the public, and were announced in advance in the FEDERAL REGISTER. The final report of the Committee, endorsed by a majority of the Committee members, was transmitted to the Assistant Secretary on June 6, 1975. There were also three minority reports on various sections of the final report.

Prior to developing specific recommendations, the Committee identified and discussed several major issues. For example, the Committee considered questions relating to classification systems for hazardous chemicals addressing itself to what major classification systems exist, their strengths and weaknesses, as well a their basis of design, and their ability to meet the objectives and scope of such classification systems. Further, questions arose concerning the maintenance, updating, and revision of classification systems, and concerning how a standard should accommodate changing technological developments affecting the classification system? Requirements and practices in these areas have been well established in many industries and by professional associations, as well a regulated by various government agencies and international agreements. The Committee tried to take cognizance of the existing practices in arriving at its final conclusions. Among other materials, the Committee also considered the document, "An Identification System for Occupationally Hazardous Materials," which was prepared by the National Institute for Occupational Safety and Health (NIOSH). A draft of the NIOSH document was given to the Committee members at their first meeting, and they received the final document midway through their deliberations.

The basic premise of the Committee in developing guidelines for categorizing and ranking hazards of materials and for prescribing the required warnings by labels, data sheets and training programs, involved a total system concept. This concept utilizes an integrated program including material safety and health hazard information in the formulation and implementation of an employee training program. Some or all of the parts of the system are required, as warranted by the potential hazard conditions. Under the Committee's recommendations, the determination of the specific hazard classification/ranking of a material, and the implementation of such items as material safety data sheets, hazard placard systems, and labeling systems in employee training and indoctrination programs, would be the specific responsibility of the employer.

In developing guidelines for the hazard classification and ranking of a material, the Committee confined its recommendations to three major categories of hazards: flammability, reactivity, and health. The Committee suggested that the Secretary cousult with other Federal agencies concerned with material hazards, such as the Environmental Protection Agency, the Consumer Products Safety Commission, and the Department of Transportation, to solicit information that would be of assistance to OSHA in the preparation of a proposal for hazardous materials labeling.

The Committee recommendations with regard to label requirements are extensive, as a label affords the most immediate means of informing an employee of the hazards of a particular material.

They are based on the language labeling system developed by a committee of the Manufacturing Chemists Association, certain United Nations symbols, and certain provisions of the regulations of the Federal Hazardous Substances Act.

The Committee recommended that each employer prepare a material safety data sheet to be used in combination with other components of the system such as labels, placards, and employee indoctrination programs to provide employers and employees with relevant information on potentially hazardous materials and situations.

An indoctrination program and continuing employee training concerning potential hazards is recommended by the Committee. The indoctrination program and training include: hazard identification and recognition, relevant symptoms of disease, emergency procedures, and the necessity for accurate recordkeeping.

In addition to considering the above recommendations, OSHA has received other information related to hazardous materials labeling. The Health Research Group submitted a petition on September 27, 1976, requesting that OSHA promulgate a regulation which would require "each employer to post and provide to each employee representative a list of the generic names of all chemicals used and produced at the workplace." In addition, members of Congress have expressed interest in this subject and have suggested that OSHA initiate steps to issue a regulation requiring disclosure to employees of the generic name of chemicals to which they are exposed.

In September 1976, the Committee on Government Operations of the House of Representatives issued a report (House Report No. 94-1688) dealing with chemical dangers in the workplace. As one of its several findings and conclusions, the Committee stated that "the Occupational Safety and Health Administration has failed to implement section 6(b)(7) of the Occupational Safety and Health Act which requires that employees be apprised of and be protected from the hazards to which they are exposed." The Report then commented that OSHA's promulgation of the Threshold Limit Value list (29 CFR 1910.1000) as a standard was an initial step that should be supplemented by "regulations requiring labeling, monitoring, and training." In order to comply with the intent of the recommendations contained in the Committee Report, OSHA is publishing this notice as a preliminary step in the development of a regulation.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on hazardous materials labeling. Comments are specifically requested concerning:

1. Whether a standard on hazardous materials labeling should be issued or be included in the Standards Completion Project or be covered by another mechanism;

2. The source for the list or group of chemicals to be included in this standard (the chemicals contained in 29 CFR 1910.1000, the NIOSH Toxic Substances List, or other source);

3. Each section of the advisory committee recommendations;

4. Suitable alternatives to the recommendations of the advisory committee;

5. The national Institute for Occupational Safety and Health document, "An Identification System for Occupationally Hazardous Materials;"

6. The obligation of an employer to determine the hazards related to the materials to which his employees are exposed;

7. Criteria for establishing categories of hazards;

8. Whether the contents of the labels should be in the nature of a warning or contain descriptive information concerning the hazards of each material;

9. Appropriate training requirements and other means of informing the employee;

10. The listing of generic names for trade name substances covered by the regulation;

11. Supported cost data of the estimated costs of coming into compliance with the recommendations of the advisory committee;

12. The relationship of an OSHA standard on hazardous materials labeling with the authority and regulations of DOT, CPSC, and EPA; and

13. Any other related issues.

Communications must be submitted by March 29, 1977 to the Docket Officer, OSHA, New Department of Labor Bldg., 200 Constitution Avenue, NW., Washington, D.C. 20210. The submissions will be available for public inspection and copying at the above location.

The recommendations of the Standards Advisory Committee on Hazardous Materials Labeling will be available for inspection and copying, upon request, at any of the following addresses:

NATIONAL OFFICE

Department of Labor-OSHA, Room N3620, 200 Constitution Ave., N.W., Washington, D.C. 20210.

[29 CFR Part 1910]

[Docket No. OSH–11A]

OCCUPATIONAL NOISE EXPOSURE

Availability of Post-Hearing Comments and Additional Information on Economic Impact Analysis; Limited Comment Period

Pursuant to notices published in the FEDERAL REGISTER on June 18, 1976 (41 FR 24718) and August 6, 1976 (41 FR 32912), an informal hearing was convened on September 21, 1976 concerning the economic impact analysis (EIA) of the proposed standard on occupational noise exposure, and related issues as set forth in the notices. The hearing extended through October 8, 1976, at which time Administrative Law Judge Jean Greene who had presided at the hearing, announced that the record would remain open for receipt of post-hearing comments for a period of 60 days.

During the hearing, OSHA received many requests for information which was not contained in the economic impact analysis itself, but which was related to its preparation. OSHA's representative at the hearing noted that all requests for additional material would be taken under advisement by the agency, and that a decision would be forthcoming with regard to such material.

As was discussed at the hearing, it would require substantial additional funding and effort to provide the requested information for the record. Much of the requested information could not be made public by the contractor because it was obtained pursuant to pledges of confidentiality. Moreover OSHA cannot make such information available because OSHA does not have it in its possession or control. With regard to requested data the release of which would not breach any pledges of confidentiality, OSHA has decided to take steps to supply such data for the record, and has contracted with Bolt Beranek and Newman, Inc., (BBN), the contractor for the EIA, to make it available.

In addition, BBN has prepared a post-hearing comment, which discusses certain issues that arose at the hearing, particularly those areas of the EIA which have engendered the most comment. This post-hearing comment is now available for inspection and copying at the following address:

Technical Data Center (Docket No. OSH–11A), Room N–3620, Occupational Safety and Health Administration, U.S. Department of Labor, 3rd Street and Constitution Avenue, NW, Washington, D.C. 20210.

The BBN post-hearing comment includes data requested at the hearing which can be furnished without compromising BBN's pledges of confidentiality

OSHA recognizes that participants at the hearing may wish to comment on the additional information contained in BBN's post-hearing comment. Therefore, OSHA hereby reopens the comment period for the limited purpose of permitting participants at the hearing to comment upon the BBN post-hearing comment, for a period of 30 days. Comments must be submitted in quadruplicate to the above address, and must be postmarked on or before February 28, 1977.

At the end of this period the presiding Administrative Law Judge will certify the record of the proceeding to the Assistant Secretary of Labor for Occupational Safety and Health. The proposal will be reviewed in light of all oral and written submissions received as part of the record and final action will be taken based on the entire record developed in this proceeding.

(Sec. 6, Pub. L. 91–596, 84 Stat. 1593 (29 U.S.C. 655); 29 CFR Part 1911; Secretary of Labor's Order No. 8–76.)

Signed at Washington, D.C., this 19th day of January 1977.

BERT M. CONCKLIN,
Deputy Assistant Secretary of Labor.

DEPARTMENT OF THE INTERIOR

National Park Service

[36 CFR Part 66]

RECOVERY OF SCIENTIFIC, PREHISTORIC, HISTORIC, AND ARCHEOLOGICAL DATA: METHODS, STANDARDS, AND REPORTING REQUIREMENTS

Proposed Guidelines

On August 13, 1975, the Department of the Interior distributed a "Statement of Program Approach" with respect to its responsibilities under Pub. L. 93–291, the Archeological and Historic Preservation Act of May 24, 1974 (88 Stat. 174. 16 U.S.C. Section 469a–1 et seq.; hereinafter, "the Act"). Comments have been received from many Federal agencies, State Historic Preservation Officers, and members of the public. The Department expects to publish proposed rulemaking with respect to this aspect of the Act, for comment, in the near future.

Many of the comments received indicate a need for the Department to provide substantive guidance to agencies that undertake to recover scientific, prehistoric, historic, and archeological data; such guidance is also contemplated by the Act. It is the purpose of this notice of proposed rulemaking to provide this information as a part of the Department's proposed overall rulemaking with respect to the Act. This guidance will facilitate the Department's coordination of activities authorized under the Act, and its reporting to Congress on the scope and effectiveness of the program, as required by section 5(c) of the Act. It will also help guarantee the uniform high quality of reports submitted to the Department pursuant to the requirements of section 3(a) of the Act.

The Act provides Federal agencies with a method of mitigating impacts of their undertakings upon those historic properties that contain scientific, prehistoric, historic, or archeological data. This method, data recovery, is not the only method that may be properly applied in order to mitigate project impacts identified through the process prescribed by the National Environmental Policy Act of 1969 (Pub. L. 91–190, hereinafter, "NEPA"). Actions that preserve historic properties in place are usually preferable to the preservation of data alone through data recovery activities, both because such actions usually extend the useful lives of the properties and their data and because they often are less costly. The activities authorized by the Act must also be understood as applicable only to the mitigation of project impacts on the data or research value of historic properties, not on those historic or cultural attributes that are not data related. For example, the Act does not pertain to actions that may be appropriate under NEPA or the National Historic Preservation Act of 1966 (Pub. L. 89–665; hereinafter, "NHPA") to preserve the historical or cultural meaning or integrity of a property to a neighborhood, community, or group.

In order to ascertain when application of the Act to impact mitigation activities may be appropriate, and to apply its provisions wisely, it is necessary that the planning steps required by NEPA, NHPA, and Executive Order 11593 be taken before the Act is invoked; the Act is not a substitute for these planning authorities. It is also obvious that before data can be recovered under the terms of the Act, the districts, sites, buildings, structures, and objects that contain or represent such data must be carefully located and identified. Accordingly, Appendix B is provided setting forth the Department's general guidelines for the location and identification of historic properties.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding these proposed guidelines to the Chief, Office of Archeology and Historic Preservation, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240 on or before March 14, 1977.

Under the terms of the Act, these guidelines are a Department of the Interior responsibility. The budget implications of the Act for other Federal agencies have been presented to the Office of Management and Budget for coordination therewith. It is hereby certified that the economic and inflationary impacts of these proposed guidelines have been carefully evaluated in accordance with Executive Order 11821. The impact will be minor and preparation of an inflation impact statement is not required.

This rulemaking is developed under the authority, *inter alia*, of section 5(c) of the Archeological and Historic Preservation Act of 1974, 16 U.S.C. § 469a–3 *et seq* (1970 ed.). In consideration of the foregoing, it is proposed to amend Chapter 1 of Title 36, Code of Federal Regulations, to add a new Part 66 as follows:

PART 66—RECOVERY OF SCIENTIFIC, PREHISTORIC, HISTORIC AND ARCHEOLOGICAL DATA: METHODS, STANDARDS, AND REPORTING REQUIREMENTS

Sec.
66.1 Definitions.
66.2 Data recovery operations.
66.3 Protection of data and materials.
66.4 Provision of reports to the Department.
Appendix A: Format standards for final reports of data recovery.
Appendix B: Guidelines for the location and identification of historic properties containing scientific, prehistoric, historical, or archeological data.
Appendix C: Professional qualifications.
Appendix D: Recommendations for the procurement of location, identification, and data recovery programs.

AUTHORITY: Sections 2(a), 2(c), 2(j), and 2(k) (without regard to the last sentence thereof), 49 Stat. 666 (16 U.S.C. 462(a), (c), (j), (k)); Section 5(c), 88 Stat. 174 (16 U.S.C. 469a–3).

§ 66.1 Definitions.

(1) *Area subject to environmental impact* is that land area, or areas, where land may be disturbed, or buildings or structures altered, or the environment of historic properties changed, in such a way as to affect their historical value.

(2) *Historic properties* are sites, districts, structures, buildings, and objects that may meet the National Register criteria set forth at 36 CFR 60.6, by virtue of their possession of one or more kinds of historical value. One kind of historical value is data or research value, the known or potential capacity of a property to provide information important to the reconstruction, analysis, and understanding of history.

(3) *History* comprises the events, patterns, and processes of the human past, including those that have affected literate societies and those that have affected pre-literate or nonliterate groups, whose history is sometimes referred to as prehistory.

(4) *Significant data*, as used by the Act, are data that can be used to answer research questions, including questions of present importance to scholars and questions that may be posted in the future.

(5) *Archeological data* are data embodied in material remains (artifacts, structures, refuse, etc.) produced purposely or accidentally by human beings, and in the spatial relationships among such remains.

(6) *Historical data* are data useful in the study and understanding of human life during the period since the advent of written records in the area of concern. The date of inception of the historic period varies from area to area within the United States.

(7) *Prehistoric data* are data useful to the study and understanding of human life during the prehistoric period, i.e., at all time periods prior to substantial contact between the native people of the United States and literate societies. The end point of the prehistoric period varies from area to area within the United States.

(8) *Scientific data*, as used by the Act, are data provided by sciences other than archeology, history, and architecture, that are relevant to an understanding of human life during either historic or prehistoric periods. Ethnographic, biological, geological, paleontological, ecological, and geophysical data, among others, are often important to the understanding of the human past.

(9) *Location and identification study* is the study necessary to determine the locations of, and to evaluate, historic properties. At a minimum it requires background research; if existing data are inadequate to permit the location and evaluation of historic properties, it requires field inspection as well (See Appendix B).

(10) *Data recovery* is the systematic removal of the scientific, prehistoric, historic, and/or archeological data that provide an historic property with its research or data value. Data recovery may include preliminary survey of the historic property or properties to be affected for purposes of research planning, the development of specific plans for research activities, excavation, relocation, preparation of notes and records, and other forms of physical removal of data and the material that contains data protection of such data and material, analysis of such data and material, preparation of reports on such data and material, and dissemination of reports and other products of the research. Examples of data recovery include archeological research producing monographs, descriptive, and theoretical articles, study collections of artifacts and other materials; architectural or engineering studies resulting in measured drawings, photogrammetry, or photography; historic or anthropological studies of recent or living human populations relevant to the understanding of historic properties, and relocation of properties whose data value can best be preserved by so doing.

(11) *Material* means actual objects removed from an historic property as a part of a data recovery program, including but not limited to artifacts, byproducts of human activity such as flakes of stone, fragments of bone, and organic waste of various kinds, architectural elements, soil samples, pollen samples, skeletal material, and works of art.

(12) *Principal Investigator* means the contractor or other person directly responsible for a location and identification, or data recovery project.

(13) *Research design* is a plan, usually generated by the principal investigator, outlining the proposed approach to a location, identification, or data recovery project. Minimally, the design should spell out relevant research problems, research methods, and some predicted results of the study. Research designs are

often modified as the course of research yields new findings.

(14) *Research methods* are procedures and techniques used to record, recover, and/or analyze a body of data such that conclusions may be drawn concerning research problems.

(15) *Research problems* are questions in anthropology, sociology, geography, history, architectural history, art history, and other disciplines of the sciences and humanities that can potentially be answered by studying historic properties. Scientific, prehistoric, historic and archeological data are valuable insofar as they are potentially applicable to the investigation of research problems. Research problems are typically posed as questions about human behavior, thought, or history. Potential answers to such questions, and the ways in which such possible answers may be reflected in the data content of specific historic properties are often spelled out in research designs as hypotheses and test implications.

§ 66.2 Data recovery operations.

(a) Data recovery program operations carried out under the authority of the Act should meet at least the following minimum standards:

(1) All operations should be conducted under the supervision of qualified professionals in the disciplines appropriate to the data that are to be recovered. Qualifications commonly required for professionals are set forth in Appendix C;

(2) The program should be conducted in accordance with a professionally adequate research design. This design should reflect:

(i) An understanding by the principal investigator of the data or research value of the property. This value will normally have been defined as a result of a location and identification study as discussed in Appendix B.

(ii) An acquaintance on the part of the principal investigator with previous relevant research, including research in the vicinity of the proposed undertaking and research on topics germane to the data recovery program regardless of where such research has been carried out.

(iii) The development of a definite set of research problems, taking into account the defined research value of the property, other relevant research and general theory in the social and natural sciences and the humanities that may be pertinent to the data to be recovered.

(iv) A responsiveness to the need to recover from the property to be investigated, a usable sample of data on all research problems that reflect the property's research value, or a clear and defensible rationale for collecting data on a smaller range of problems at the expense of others.

(v) Competence on the part of the principal investigator and his or her staff in the methods and techniques necessary to recover the data contained in the property, and an intention to utilize these methods and techniques in the research;

(3) The program should provide for adequate personnel, facilities, and equipment to fully implement the research design;

(4) The program should provide for adequate consultation with scholars whose research interests would enable them to contribute to the research;

(5) The program should employ methods that insure full, clear, and accurate descriptions of all field operations and observations, including excavation and recording techniques, stratigraphic and/or associational relationships where appropriate, significant environmental relationships, etc. Where architectural characteristics are recorded, such recording should be consistent with the standards published by the Historic American Building Survey (HABS) in "Recording Historic Buildings," by H. J. McKee (National Park Service, 1970). Updated guidelines for recording architectural, engineering, and archeological data may be obtained from the Director, Office of Archeology and Historic Preservation, National Park Service;

(6) If portions or elements of the property under investigation can be preserved, the program should employ methods that make economical use of these portions or elements. Destructive methods should not be applied to such portions or elements if nondestructive methods are feasible;

(7) The program should result in a report or reports detailing the reasons for the program, the research design, the methods employed in both fieldwork and analysis, the data recovered, and the knowledge or insights gained as a result of the data recovery, with reference to the research design and the research value of the property. The report or reports should meet contemporary professional standards, and should be prepared in accordance with the format guidelines set forth in Appendix A;

(8) The program should provide for adequate perpetuation of the data recovered, as discussed at § 66.3. Care should be taken during curation and handling of specimens and records to insure that data are not lost or decimated. Provision must be made for disseminating the report of the program. Appropriate methods for dissemination of results include but are not limited to publication in scholarly journals, monographs, and books, presentation on microfilm or microfiche through the National Technical Information Service or other outlets, and distribution in manuscript form to State Historic Preservation Officers and other appropriate archives and research libraries. Reports submitted to the Department of the Interior pursuant to section 3(a) of the Act will be disseminated as set forth in § 66.4, but nonredundant independent distribution is encouraged. At a minimum, a copy of each report should be provided to the State Historic Preservation Officer; and

(a) Particularly when a data recovery program is conducted upon a potentially complex historic property (e.g., a recent town site; a prehistoric site that may contain many occupation layers, cemeteries, or architectural remains), situations may arise or data be encountered that were not anticipated in designing the program. Adequate provision should be made for modification of the program plan to cope with unforeseen discoveries or other unexpected circumstances.

(b) These guidelines should be regarded as flexible, inasmuch as (a) some specialized types of data recovery (e.g., the relocation of a structure or object) may not require all the operations discussed above, and (b) innovative approaches to data recovery should be encouraged, as long as these have as their purpose the basic purpose set forth in section 1 of the Act.

§ 66.3 Protection of data and materials.

(a) Data recovery programs result in the acquisition of notes, photographs, drawings, plans, computer output, and other data. They also often result in the acquisition of architectural elements, artifacts, soil, bone, modified stones, pollen, charcoal, and other physical materials subject to analysis, interpretation, and in some instances display. Analytic techniques that can be applied to such data and material change and improve through time, and interpretive questions that may be asked using such data and material also change and develop. For these reasons, and to maintain data and material for public enjoyment through museum display, it is important that the data and material resulting from data recovery programs be maintained and cared for in the public trust.

(1) Data and materials recovered from lands under the jurisdiction or control of a Federal agency are the property of the United States Government. They shall be maintained by the Government or on behalf of the Government by qualified institutions through mutual agreement. A qualified institution is one equipped with proper space, facilities, and personnel for the curation, storage, and maintenance of the recovered data and materials. The exact nature of the requisite space, facilities, and personnel will vary depending on the kinds of data and materials recovered, but in general it is necessary for a qualified institution to maintain a loboratory where specimens can be cleaned, labeled, and preserved or restored if necessary; a secure and fireproof storage facility organized to insure orderly maintenance of materials; a secure and fireproof archive for the storage of photographs, notes, etc., and a staff capable of caring for the recovered data and material.

(2) Data recovered from lands not under the control or jurisdiction of a Federal agency, as a condition of a Federal license, permit, or other entitlement, are recovered on behalf of the people of the United States and thus are the property of the United States Government. They should be maintained as provided under § 66.3(1)(a) above. The nonfederal provider of funds should be provided with copies of such data upon request. Material recovered under such

circumstances should be maintained in the manner prescribed under § 66.3(1)(a) insofar as is possible.

(b) Data and material resulting from a data recovery program should be maintained by a qualified institution or institutions as close as possible to their place of origin, and made available for future research.

(c) Data on architectural and/or engineering characteristics, recorded in accordance with the standards discussed at § 66.2.1(e) above, should be filed with the Library of Congress.

§ 66.4 Provision of reports to the Department.

(a) Pursuant to the terms of section 3(a) of the Act, any Federal agency that undertakes a program of data recovery as authorized by the Act shall provide the Department of the Interior with copies of the resulting reports. The Department shall make these reports available to the public.

(b) In order to facilitate public access to these reports, the Department, represented by the Office of Archeology and Historic Preservation, National Park Service, has entered into an agreement with the National Technical Information Service, which agreement provides for the storage on microfiche, and reproduction upon demand, of all final reports on data recovery programs either undertaken by the Department or provided to the Department under the authority of the Act.

(c) Two (2) copies of each final report shall be filed with the Director, Office of Archeology and Historic Preservation, National Park Service, Washington, D.C. 20240. All final reports shall be prepared in accordance with the format standards set forth in Appendix A.

(d) In order to facilitate the Department's fulfillment of its responsibilities under section 5(c) of the Act, to report to Congress concerning the scope and effectiveness of the National Survey and Data Recovery effort, each agency engaging in such activities shall also file with the Director, Office of Archeology and Historic Preservation:

(1) Two (2) copies of each final report on any location and identification study, regardless of whether the study resulted in the actual identification of historic properties;

(2) One (1) copy of each scope-of-work or other description of a proposed location and identification or data recovery program;

(3) One (1) copy of each contract let for any location and identification or data recovery program;

(4) Together with each final report of a location and identification or data recovery program, a statement of the costs incurred by the Federal Government in the conduct of the program; and

(5) Together with each final report of a location and identification or data recovery program, the comments of at least one (1) professional in the field of study represented by the report, and of the State Historic Preservation Officer(s) in whose State(s) the program took place, on the scope and effectiveness of the program reported.

APPENDIX A—FORMAT STANDARDS FOR FINAL REPORTS OF DATA RECOVERY PROGRAMS

The following format standards are required for reports provided to the Department of the Interior under terms of section 3(a) of the Act. They are recommended for other reports provided to the Department pursuant to § 66.4.4(a) as well.

1. Text and line drawings should be clean, clear, and easily reproducible.

2. Photographs should be original black and white positive prints, or high-quality reproductions.

3. Typescript should be single spaced.

4. All pages should be numbered in sequence.

5. Form NTIS-35, available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia, 22161 should be enclosed with each report, partially completed in accordance with the example shown in Figure 1 below.

16. Abstracts

A data recovery project at the Rockpile Site in northwestern Texas (41 XA 1011) was directed to the development of an understanding of settlement organization during the Late Archaic period. The single-component site represented a permanent village occupied by hunters and gatherers. Analysis of faunal and floral remains indicates intensive exploitation of the local environment. Complete excavation of the site revealed evidence of both circular and rectangular houses arranged in rows. Non-random distribution of Alibates flint detritus suggests the possibility of occupational specialization among households. Non-random distribution of non-utilitarian artifacts suggests the recognition of different social statuses.

FORM NTIS-35 (REV. 10-73) ENDORSED BY ANSI AND UNESCO. THIS FORM MAY BE REPRODUCED USCOMM-DC 8265-P74

INSTRUCTIONS FOR COMPLETING FORM NTIS-35 (Bibliographic Data Sheet based on COSATI Guidelines to Format Standards for Scientific and Technical Reports Prepared by or for the Federal Government, PB-180 600).

1. **Report Number.** Each individually bound report shall carry a unique alphanumeric designation selected by the performing organization or provided by the sponsoring organization. Use uppercase letters and Arabic numerals only. Examples FASEB-NS-73-87 and FAA-RD-73-09.

2. Leave blank.

3. **Recipient's Accession Number.** Reserved for use by each report recipient.

4. **Title and Subtitle.** Title should indicate clearly and briefly the subject coverage of the report, subordinate subtitle to the main title. When a report is prepared in more than one volume, repeat the primary title, add volume number and include subtitle for the specific volume.

5. **Report Date.** Each report shall carry a date indicating at least month and year. Indicate the basis on which it was selected (e.g., date of issue, date of approval, date of preparation, date published).

6. **Performing Organization Code.** Leave blank.

7. **Author(s).** Give name(s) in conventional order (e.g., John R. Doe, or J.Robert Doe). List author's affiliation if it differs from the performing organization.

8. **Performing Organization Report Number.** Insert if performing organization wishes to assign this number.

9. **Performing Organization Name and Mailing Address.** Give name, street, city, state, and zip code. List no more than two levels of an organizational hierarchy. Display the name of the organization exactly as it should appear in Government indexes such as Government Reports Index (GRI).

10. **Project/Task/Work Unit Number.** Use the project, task and work unit numbers under which the report was prepared.

11. **Contract/Grant Number.** Insert contract or grant number under which report was prepared.

12. **Sponsoring Agency Name and Mailing Address.** Include zip code. Cite main sponsors.

13. **Type of Report and Period Covered.** State interim, final, etc., and, if applicable, inclusive dates.

14. **Sponsoring Agency Code.** Leave blank.

15. **Supplementary Notes.** Enter information not included elsewhere but useful, such as: Prepared in cooperation with . . . Translation of . . . Presented at conference of . . . To be published in . . . Supersedes . . . Supplements . . . Cite availability of related parts, volumes, phases, etc. with report number.

16. **Abstract.** Include a brief (200 words or less) factual summary of the most significant information contained in the report. If the report contains a significant bibliography or literature survey, mention it here.

17. **Key Words and Document Analysis. (a). Descriptors.** Select from the Thesaurus of Engineering and Scientific Terms the proper authorized terms that identify the major concept of the research and are sufficiently specific and precise to be used as index entries for cataloging.
(b). Identifiers and Open-Ended Terms. Use identifiers for project names, code names, equipment designators, etc. Use open-ended terms written in descriptor form for those subjects for which no descriptor exists.
(c). COSATI Field/Group. Field and Group assignments are to be taken from the 1964 COSATI Subject Category List. Since the majority of documents are multidisciplinary in nature, the primary Field/Group assignment(s) will be the specific discipline, area of human endeavor, or type of physical object. The application(s) will be cross-referenced with secondary Field/Group assignments that will follow the primary posting(s).

18. **Distribution Statement.** Denote public releasability, for example "Release unlimited", or limitation for reasons other than security. Cite any availability to the public, other than NTIS, with address, order number and price, if known.

19 & 20. **Security Classification.** Do not submit classified reports to the National Technical Information Service.

21. **Number of Pages.** Insert the total number of pages, including introductory pages, but excluding distribution list, if any.

FORM NTIS-35 (REV. 10-73) USCOMM-DC 8265-P74

APPENDIX B—GUIDELINES FOR THE LOCATION AND IDENTIFICATION OF HISTORIC PROPERTIES CONTAINING SCIENTIFIC, PREHISTORIC, HISTORICAL, OR ARCHEOLOGICAL DATA

In order to notify the Secretary of the potential loss or destruction of significant scientific, prehistoric, historical, or archeological data pursuant to sections 2, 3 and 4 of the Act, in a manner that will permit the Secretary to act effectively in response to this notification, it is necessary that the agency provide appropriate documentation concerning the nature and significance of all historic properties, subject to impact, that may contain such data. It is recommended that such documentation be generated by agencies in the course of their planning activities carried out under the authorities of the National Environmental Policy Act of 1969 (Pub. L. 91–190) (NEPA), the National Historic Preservation Act of 1966 (Pub. L. 89–665 as amended) (NHPA), Executive Order 11593, and related authorities.

It is important that agencies understand the relationship among NEPA, such general historic preservation authorities as the NHPA, and the Archeological and Historic Preservation Act. NEPA mandates the evaluation of project impacts on the entire environment, including all kinds of cultural resources. One kind of cultural resource is the historic property which is the concern of the NHPA and Executive Order 11593. Section 106 of the NHPA sets forth specific actions to be taken when this kind of cultural resource is subject to effect. Some historic properties contain scientific, prehistoric, historical, and archeological data; the Archeological and Historic Preservation Act of 1974 provides mechanisms for the recovery of such data if and when the planning processes provided for by NEPA, NHPA, and related authorities have resulted in the conclusion that data recovery constitutes the most prudent and feasible method of impact-mitigation.

Identification of cultural resources is an obvious prerequisite to the evaluation of impact on such resources, and to the planning of methods for the mitigation of such impacts. Identification of cultural resources in general through the NEPA process involves a broad, general, interdisciplinary study of all those social and cultural aspects of the environment, both tangible and intangible, that may be affected by the undertaking. Identification of historic properties requires the location of those tangible places and things that may contain or represent historic values, and sufficient study of these properties to determine what their values are and whether these values are of sufficient importance to make the properties eligible for the National Register of Historic Places. In the process of such study, it should become apparent which properties contain significant scientific, prehistoric, historic, or archeological data. Once the undertaking's impact on such properties has been evaluated, it will then be possible to ascertain whether data recovery constitutes an appropriate mitigation action, and it is at this point that the Archeological and Historic Preservation Act can be effectively utilized.

The guidelines presented in this appendix are the same as those required to identify properties eligible for the National Register of Historic Places pursuant to section 106 of NHPA as amended and to sections 2(a), 2(b), and (where applicable) 1(3) of Executive Order 11593. Although prepared for publication under these authorities, they are presented here for the convenience of Federal agencies and other users.

I. *General Conduct of Location and Identification Studies.* Although the exact activities necessary for the identification of historic properties will vary depending on the nature of agency landholdings or jurisdiction and, where applicable, on the nature of the agency's undertaking, the following steps will generally be appropriate.

1. *Background Research and Evaluation of Existing Data.*—a. Since few areas of the Nation have yet been adequately surveyed for historic properties, current lists of such properties seldom provide adequate information for full identification. Documentary research is the starting place for any identification study, however. Systematic study and evaluation of documentary data will usually permit predictions to be made about the kinds of historic properties that may be encountered in the area, and about their possible distributions. Such study may also make it possible to develop a broad evaluatory framework within which the significance of particular properties can be judged. Finally, background research may pinpoint some particular properties that are already adequately documented or properties that are known but need further study to obtain full documentation. In undertaking background research, answers to the following questions should be sought:

(1) Are there known historic properties in the area?

(2) Is knowledge about the presence or absence of historic properties based on a survey or surveys carried out according to the standards set forth in this appendix?

(3) If not, to what extent are survey data lacking?

(4) If the area has not been systematically surveyed, what predictions can be made about the location or kinds of historic properties to be expected based on data from nearby surveyed areas, from the known history of the area, from the constraints known to be imposed by the natural environment, etc.?

(5) Given the known history and prehistory of the region, the social and cultural concerns of its people, and pertinent State, local, and regional plans, what kinds of preservation and/or research priorities appear to be appropriate, and what kinds of historic properties might be important to the satisfaction of these priorities?

b. The agency undertaking a location and identification study, should be vigorous in searching out useful sources of data, and should encourage innovative approaches in their use to predict the locations of properties and to develop evalutory frameworks. It must be recognized, however, that some institutions and organizations that maintain lists, files, or other bodies of unpublished data are legitimately concerned about the integrity of these documents and/or about the cost involved in permitting their use; these concerns shoud be ascertained and, if legitimate, honored. At least the following sources of background data should be consulted:

(1) The State Historic Preservation Officer should be consulted with reference to the State Historic Preservation Plan maintained by his office, to obtain such data as:

(a) Information on properties listed in or nominated to the National Register, properties on other lists, inventories, or registers known to the State Historic Preservation Officer, and properties on which the State has evaluated and unevaluated survey data;

(b) Information on predictive data regarding potential properties in the area;

(c) Recommendations as to the need for surveys in the area;

(d) Recommendations concerning methods that should be used in conducting such surveys and possible sources of professional expertise;

(e) Results of any previous surveys in the area, and the State Historic Preservation Officer's comments thereon; and

(f) Recommendations concerning pertinent State or local laws and policies concerning historic properties.

(2) Basic published and unpublished sources on local history, prehistory, anthropology, ethnohistory, and ecology should be studied to obtain an overview of the region's potential historic property distributions and research or preservation values.

(3) The National Register and other lists or files of data on historic properties should be consulted. The National Register is published in its entirety in the FEDERAL REGISTER, usually in February of each year; additions are published regularly in the FEDERAL REGISTER. The most recent full publication and subsequent additions should be consulted to determine whether any properties exist in an area to be affected by a Federal undertaking. The National Register listings are also accompanied by a list of properties in both Federal and nonfederal ownership which have been determined to be eligible for inclusion as well as a list of pending nominations. The catalogs of the Historic American Buildings Survey and the Historic American Engineering Record maintained by the National Park Service, and any similar surveys and published reports should be utilized. State, university, or professional society historians, architects, architectural historians, and archeologists, and local organizations may also have registers, inventories, catalogs, or other lists of sites or areas with known or presumed historic values.

(4) Persons with first-hand knowledge of historic properties and/or their historic values should be interviewed where feasible and appropriate. Such interviews, and a proper respect for the opinions expressed by those interviewed, are of particular importance where properties of cultural importance to local communities or social groups may be involved. Oral data should be elicited and recorded using existing professional methods such as those prescribed by the Oral History Association, Box 13734, N.T. Station, Denton, Texas 76203.

c. Background research should be undertaken by or under the supervision of professional historians, architectural historians, historical architects, and/or archeologists. It will often be necessary to draw upon the services of specialists such as ethno-historians, anthropologists, sociologists, and cultural geographers to make full use of documentary data.

2. *Field Inspection.* If review and evaluation of existing information fails to produce complete data based upon prior professional examination of the area subject to environmental impact, then the background research should be supplemented by direct examination of the area of concern.

a. Staff and Planning. Field inspection usually can be performed only by professional historians, archeologists, architectural historians, and historical architects. It will sometimes be necessary or useful to call upon additional specialists to deal with particular characteristics of the area. For example, if industrial properties are present the services of an industrial historian or an industrial archeologist may be appropriate, and if the continuing ways of life of local social or ethnic groups are important to understanding historic properties, social or cultural anthropologists and folklorists may be necessary additions to the staff. If paleontological materials are likely in cultural context (i.e. in association with cultural material) the services of a professional paleontologist would be necessary. The exact nature of the appropriate staff will depend on the kinds of data that can be expected

to occur. For example, it is obviously unreasonable to employ an architectural historian in the absence of buildings or structures.

The nature of the area will also affect the kinds of methods that must be employed. Urban areas and rural areas require different approaches. Terrain, vegetation, land ownership and other factors will also affect the time required to conduct an inspection and the kinds of techniques that will be required to complete it. For example, if few indications of archeological sites are likely to appear on the surface of the ground due to vegetation, alluviation, or other factors, it will probably be necessary for archeologists to undertake subsurface testing both to locate sites and to obtain sufficient information for evaluation purposes.

Agencies planning field inspection should take factors such as the above into account in preparing work plans, and should consult with the Secretary, the State Historic Preservation Officer, and/or other qualified persons or groups to determine exactly what special approaches may be necessary.

Adequate records must be kept of all field inspections to clearly indicate what lands were inspected, the degree of intensity with which they were inspected, the kinds of historic properties sought, all historic properties recorded, and any factors that may have affected the quality of the observations.

b. Levels of field inspection: The intensity of field inspection in advance of an undertaking should be commensurate with the projected impact of the undertaking.

An undertaking whose only effects will be indirect and diffuse—for instance an undertaking whose sole effect will be to permit generalized population growth in a large area—will generally require a systematic sample reconnaissance, or some other less intensive field inspection than will an undertaking having definable direct impacts.

The level of project planning will also affect the nature of field inspection undertaken; at an early level of planning, when many options are open for location of project facilities, low-intensity reconaissance may be appropriate to provide planning guidance; when alternative project locations have been reduced, a much more intensive survey will usually be necessary.

Although many different types of field inspections may be appropriate in different situations, such inspections generally fall into two types: reconaissance survey and intensive survey.

3. *Reconnaissance Survey*—Full identification of historic properties for purposes of determination of eligibility and detailed planning normally requires that an intensive survey be conducted as discussed at section I.4 of this appendix. Some agencies however, may find it helpful to their planning activities to conduct reconnaissance surveys in order to obtain preliminary or predictive data on the distribution and nature of historic properties. Reconnaissance survey is designed to provide a general impression of an area's historic properties and their values, and involves small-scale field work relative to the overall size of the area being studied. Although reconnaissance survey will seldom if ever provide sufficient data to insure identification of all historic properties in an area, it should make it possible to identify obvious or well-known properties, to check the existence and condition of properties tentatively identified or predicted from background research, to identify areas where historic properties are obviously lacking, and to indicate where certain kinds of properties are likely to occur, thus making possible a more informed and efficient intensive survey at a later stage in planning.

In areas of potential direct impact from Federal undertakings, reconnaissance survey should be used only as a preliminary to an intensive survey, unless the reconnaissance reveals that it is impossible or extremely unlikely for historic properties to occur in the area. In areas of potential indirect impact, reconnaissance may provide sufficient data to permit an agency to evaluate its possible impacts and to develop plans to assist local agencies in avoiding or mitigating such impacts. In cases where a Federal agency intends to license or permit a State, local, or private undertaking, particularly if the undertaking involves large land areas, a reconnaissance may provide the agency with sufficient information to permit the development of protective stipulations in the permit or license. An agency that participates in many small-scale undertakings in a large region may find it useful to undertake a reconnaissance of the region in order to develop a basis for making decisions about the need for intensive surveys on individual projects, or to obtain guidance in the kinds of survey activities that may be needed. Although a reconnaissance survey will not ordinarily provide sufficient data to insure identification of all historic properties under the jurisdiction or control of, or subject to impact by a Federal agency, it may be a very useful tool for effective agency planning. A reconnaissance survey is preceded by adequate background research as discussed above. In the field an effort is made to gain a sufficient impression of the area under consideration, and its cultural resources, at least to permit predictions to be made about the distribution of historic properties within the area and the potential significance of such properties. For small areas, a superficial visit to the area by professionals in pertinent disciplines (architectural historians, historians, archeologists, and others whose expertise is appropriate to the study of the area) may be sufficient for reconnaissance purposes. Such a reconnaissance should provide an informed general opinion about the kinds of properties that might be encountered and the appropriate methods to be used in completing an intensive survey if such a survey is necessary. For larger areas, a more systematic approach to reconnaissance survey is usually necessary. For archeological resources this usually involves the detailed inspection of selected lands representing a statistically valid sample of the entire area, from which projections can be made to the entire area. Comprehensive drive-through or walking inspections of architecturally significant resources or at least spot-checks of various neighborhoods, within the area, are appropriate for the characterization of architectural resources in such a reconnaissance. Coordination in the field with local parties interested in or knowledgeable about the area's history and historic properties is appropriate during a reconnaissance as during an intensive survey.

4. *Intensive Survey.* An intensive survey is a systematic detailed field inspection done by or under the supervision of professional architectural historians, historians, archeologists, and/or other appropriate specialists. This type of study is usually required to determine the significance of properties and their eligibility for listing in the National Register. It is preceded by adequate background research as discussed above. All districts, sites, buildings, structures, and objects of possible historical or architectural value are examined by or under the supervision of a professional historian, architectural historian, or historical architect. Persons knowledgeable in the history, prehistory, and folkways of the area are interviewed by or under the supervision of a professional historian, ethnohistorian, cultural anthropologist, or folklorist. The surface of the land and all districts, sites, buildings, and objects of possible archeological value are inspected by or under the supervision of a professional archeologist. Historic archeologists are employed where historic sites are likely, prehistoric archeologists are used if prehistsoric sites are probable. Systematic subsurface testing is conducted if necessary to locate or obtain full descriptive and evaluative data. Documentary data necessary to the evaluation of specific properties are compiled and analyzed. A systematic effort is made to identify all properties within the area of concern that might qualify for the National Register, and to record sufficient information to permit their evaluation. All historic properties should be evaluated against the criteria established at 36 CFR 60.6, and supporting documentation should be developed with reference to the standards published in the FEDERAL REGISTER for comment on April 27, 1976, as 36 CFR 63, Appendix A. Since the precise kinds of field activities necessary to identify historic properties vary among the different regions of the United States, it is vital that agencies preparing to undertake intensive surveys consult with the State Historic Preservation Officer and other sources of professional guidance in developing plans for such surveys.

II. *Special Considerations with respect to Submerged Lands.* For submerged lands documentary research by qualified researchers may serve to indicate the need for, and recommended location of, physical and/or electronic surveys for submerged archeological sites and sunken vessels. Because of the specialized nature and problems attending underwater survey activities, agency officials may wish to determine specific survey procedures in consultation with the Director, Office of Archeology and Historic Preservation, National Park Service, Washington, D.C. 20240.

III. *Documenting Location and Identification Studies.* The nature and level of specificity required in documenting a location and identification study will vary somewhat with the scope and kind of undertaking (if any) for which the study is conducted, the kinds of information already on hand about the area being studied, and other factors. In general, however, it is necessary to document the methods used in conducting the study, the assumptions that guided the application of the methods, the results of applying the methods, and any deficiencies in these results that may have arisen from the application or misapplication of the methods. Typically, the deport of a location and identification study should contain the following types of information.

1. *Description of the study area.* Boundaries of the area should be indicated and the rationale used in defining the boundaries should be presented. Topographic and environmental characteristics that might affect the distribution, significance, or preservation of historic properties should be described.

2. *Background research and preparation.* Documentary data and, where relevant, data from oral sources pertinent to the study should be discussed and evaluated. Sources utilized should be identified, and methods of analysis presented and discussed. Background data should be analyred in such a way as to form a basis for planning any necessary field investigations, and for evaluating the significance of properties that may be discovered. Accordingly, the researcher should indicate a familiarity not only with

local history and prehistory, but also with the professional literature in history, architecture, anthropology, archeology, or other disciplines that may provide bases for evaluating historic properties.

3. *Research Design.* The report should also set forth the research design or plan of study that guided the work, discussing what sorts of historic properties were expected in the area, what historic values they might represent, and what strategies were to be employed in seeking the resources. Often it will be possible to make specific predictions about what kinds of properties can be expected in the field and how they ought to appear. The researcher should also set forth any biases or sources of error that can be identified as having potentially influenced the results of the study. For example, researchers trained specifically in prehistoric archeology may be unable to accurately observe historic properties; if this bias is not corrected by adding an historian, historic archeologist, or architectural historian to the study team, it should be explicitly acknowledged in the report as a possible source of error.

4. *Field Inspection.* The composition of the field study team should be presented. An attempt should be made to insure that all pertinent professional disciplines are represented in this team. Names and qualifications of team members and consultants should be presented and their duties discussed. It is the researcher's obligation to employ persons and methods that will insure the accurate recognition of all classes of historic properties. Methods used in seeking, observing, and recording historic properties should be clearly set forth. The extent to which the study area was fully covered by inspectors on foot should be presented, textually and/or using maps and charts. Any portion of the area not inspected, or inspected at a lower level of intensity, should be indicated and discussed. On-the-ground observational procedures should be presented.

a. In reporting the inspection of lands thought to contain nonstructural historic properties, or structures in ruins, the following should normally be discussed:

(1) How surveyors were distributed over the study area, how far apart they were placed and in what directions they walked;

(2) What signs of historic and/or prehistoric activity surveyors were instructed to seek;

(3) What special techniques, if any, were used to seek special kinds of properties thought to occur in the area (e.g., rock art, standing structures), and/or to cope with special difficulties (e.g., pavement, heavy brush, overburden);

(4) If subsurface testing was done, under what conditions it was done, what techniques were used, and where it was done; and

(5) If less than the entire area was inspected, a sampling design should be presented and justified.

b. In reporting the inspection of lands containing buildings, and/or structures, the following should normally be discussed:

(1) How surveyors covered the area—by foot, auto, etc.;

(2) Whether surveyors proceeded individually or as teams;

(3) Intensity of inspection of properties; did the inspection address only facades? exteriors? interiors?

(4) How much of the area was covered at a time; did the inspection cover the entire area, proceed in stages, or cover only a portion? The rationale for the coverage strategy should be presented; and

(5) What kinds of properties were surveyors instructed to seek (e.g., industrial as well as domestic buildings; vernacular architecture as well as "high style" buildings; buildings representing different "themes")?

c. The above categories are not presented as a "check list," but as an example of the kinds of questions that should be answerable using the report of a field inspection. To the extent possible, archeological and architectural/historical inspections should be coordinated, since many properties discovered may be of both archeological and historic architectural importance.

d. All procedures used should be justified in terms of their applicability to the area, its potential properties, its environment, and the plan of study.

5. *Results.* a. If an intensive survey has been done, all historic properties should be clearly and completely described. To the extent possible, documentation of properties should refer to Appendix A to the "Procedures for Requesting Determination of Eligibility," 36 CFR Part 63, published for comment in the FEDERAL REGISTER, April 27, 1976. Documentation can be provided on standard forms or as text, but should be complete and internally consistent.

b. If a reconnaissance survey has been done, the predicted distributions of historic properties should be presented and justified on the basis of background research and field inspection. Specific historic properties actually recorded during the field inspection should be described, insofar as possible, as set forth at section III(5)(a) above.

c. Negative data, as well as positive data should be presented and discussed, i.e., if historic properties were not found, this fact should be noted and, if possible, accounted for.

6. *Evaluation.*—a. Evaluations of historic properties should be made in sufficient detail to provide an understanding of the historical values that they represent, so that this understanding can serve as a basis for managing the properties or planning impact-mitigation programs if necessary. Properties of importance to a community, neighborhood, social or ethnic group should be discussed with reference to the values and concerns of those to whom the properties may be important.

b. If an intensive survey has been done, all historic properties should be evaluated against the criteria of eligibility for the National Register of Historic Places set forth at 36 CFR 60.6.

c. If a reconnaissance survey has been done, to the extent possible, the predicted significance of each kind of historic property likely to occur within the study area should be presented and justified in relation to its general cultural setting, with reference to the criteria set forth at 36 CFR 60.6.

7. *Recommendations.* In most cases it is expected that the report will provide recommendations concerning any need that may exist for further study, evaluation, or, where applicable, impact mitigation.

8. *Accompanying photographs, graphics, and tabular material.* A location and identification study report should contain sufficient photographs, maps, charts, tables, and appendix material to insure its accurate use for study and planning purposes.

APPENDIX C—PROFESSIONAL QUALIFICATIONS

1. Basic professional Occupation Standards. It is essential that any project proposal identify suitably qualified key professional personnel. Basic minimum qualifications for these types of personnel who most often serve as principal investigators and key consultants on contract projects are given below. Agencies which undertake or evaluate identification or data recovery projects using their own employees should also insure that these qualifications are possessed by appropriate staff members in a manner consistent with applicable Civil Service requirements. Professional personnel of the Department of the Interior are available at all times to consult with other Federal, State and local agencies regarding the application of these criteria in given instances. For these services agency officials should contact the Chief, Office of Archeology and Historic Preservation, National Park Service, Department of the Interior, Washington D.C. 20240. In the following definitions, a month of professional experience need not consist of a continuous month of full-time work but may be made up of discontinuous periods of full-time or part-time work adding up to the equivalent of a month of full-time experience.

a. History. The minimum professional qualifications in history are a graduate degree in American history or a closely related field; or a bachelor's degree in history or a closely related field plus one of the following: (a) At least two years of full-time experience in research, writing, teaching, interpretation, or other demonstrable professional activity with an academic institution, historical organization or agency, museum, or other professional institution; or (b) substantial contribution through research and publication to the body of scholarly knowledge in the field of history.

b. Archeology. The minimum professional qualifications in archeology are (a) a graduate degree in archeology, anthropology, or closely related field, or equivalent training accepted for accreditation purposes by the Society of Professional Archeologists, (b) demonstrated ability to carry research to completion, usually evidenced by timely completion of theses, research reports, or similar documents, and (c) at least 16 months of professional experience and/or specialized training in archeological field, laboratory, or library research, administration, or management, including at least 4 months experience in archeological field research and at least one year of experience and/or specialized training in the kind of activity the individual proposes to practice. For example, persons supervising field archeology should have at least 1 year or its equivalent in field experience and/or specialized field training, including at least six months in a supervisory role. Persons engaged to do archival or documentary research should have had at least 1 year experience and/or specialized training in such work. Archeologists engaged in regional or agency planning or compliance with historic preservation procedures should have had at least 1 year of experience in work directly pertinent to planning, compliance actions, etc., and/or specialized historic preservation or cultural resource management training. A practitioner of prehistoric archeology should have had at least 1 year of experience or specialized training in research concerning archeological resources of the prehistoric period. A practitioner of historic archeology should have had at least 1 year of experience in research concerning archeological resources of the historic period. Experience in archeological research in the region where the project will be undertaken is usually desirable.

c. Architectural History. The minimum professional qualifications in architectural history are a graduate degree in architectural history, historic preservation, or closely related field, with course work in American architectural history; or a bachelor's degree in architectural history, with a concentration in American architecture; or a bachelor's degree in architectural history, historic preservation, or closely related field plus one of the following:

(1) At least two years full-time experience in research, writing, or teaching in American history or restoration architecture with an academic institution, historical organization or agency, museum, or other professional institution; or

(2) Substantial contribution through research and publication to the body of scholarly knowledge in the field of American architectural history.

d. Architecture. The minimum professional qualifications in architecture are a professional degree in architecture plus at least 2 years of full-time professional experience in architecture; or a State license to practice architecture.

e. Historical Architecture. The minimum professional qualifications in historical architecture are a professional degree in architecture or a State license to practice architecture, plus one of the following:

(1) At least 1 year of graduate study in architectural preservation, American architectural history, preservation planning, or closely related field and at least 1 year of full-time professional experience on preservation and restoration projects; or

(2) At least 2 years of full-time professional experience on preservation and restoration projects. Experience on preservation and restoration projects shall include detailed investigations of historic structures, preparation of historic structures research reports, and preparation of plans and specifications for preservation projects.

APPENDIX D—RECOMMENDATIONS FOR THE PROCUREMENT OF LOCATION, IDENTIFICATION, AND DATA RECOVERY PROGRAMS

The following recommendations are provided under the Department of the Interior's responsibilities under section 5(c) of the Act, to coordinate all Federal survey and data recovery activities authorized by the Act. They are based on the Department's 30 years of experience in the procurement of archeological, architectural, and historical services in the location, identification, and study of historic properties.

1. The nature of required identification and data recovery programs varies with the kinds of historic properties expected or data to be recovered. The kinds of data to be recovered depend on both the information content of the properties to be investigated and the research questions that can be asked about the properties. Designing responsible identification and data recovery programs is a complex, professional activity, as is judging the quality of proposals from potential contractors and evaluating the final products of work performed. To the extent possible, the Department will assist Federal agencies in designing high-quality scopes-of-work and in evaluating offerers. Those agencies intending to undertake substantial independent data recovery activities, however, should review their staffs and procedures to insure that (1) adequate expertise in archeology, history, architectural history, and/or other appropriate disciplines is represented to provide professional oversight of contract operations, and (2) adequate provision is made for receiving and utilizing input from agencies, institutions, organizations, and qualified individuals who can advise the agency in professional matters relating to archeological and historic data recovery.

2. Because the requirements of any given data recovery program will depend both on the data content of the property and the research questions relevant to its investigation, it is extremely difficult to define standard specifications for required contractual services and end products. As a result, negotiated competitive procurement is recommended for most kinds of data recovery activities. Sole source contracting has been found by the Office of Archeology and Historic Preservation to often result in low quality work by restricting intellectual competition among offerers, and has been difficult to justify within Federal procurement regulations. On the other hand, formal advertising with price as the sole criterion for selection of a contractor has proven to be unsatisfactory as a method of insuring high-quality work because of the lack of a clearly specifiable end product. As a rule, negotiated competitive procurement has been found to be the most effective approach to obtaining high-quality services for location and identification of historic properties as well. Agencies that anticipate the need for very small-scale location and identification projects may find it useful to group these together and solicit proposals for an annual package of jobs. The following procedural steps are recommended in general for the procurement of location, identification, and data recovery programs:

a. Preparation of a Request for Proposals. The request for proposals should include a scope-of-work usually including the following elements:

(1) A description of the undertaking requiring the identification or data recovery activity, including a statement of the present status of planning, status of compliance with historic preservation authorities, and a projected timetable for future actions;

(2) The location of the undertaking including information on the size of the area to be affected, the terrain, access, land ownership, or other factors that might affect the logistics of identification or data recovery;

(3) For identification projects, the kinds of descriptive and evaluatory output required by statute and procedures; and

(4) For data recovery projects, the property or properties to be investigated, and the data or research values the property or properties are (is) known or thought to represent.

b. The request for proposals should be circulated to all qualified and potentially interested contractors, including both local and non-local universities, colleges, museums, private firms, and individuals, and should be advertised in "Commerce Business Daily". Advertising in journals, newsletters, and other media likely to be seen by potential offerers, and distribution through the State Historic Preservation Officer, are desirable. The Department will assist agencies in compiling lists of potential offerers upon request.

c. Offerers should provide proposals for undertaking the requested work, setting forth their staff qualifications, facilities, research designs, and project plans.

d. Proposals should be evaluated for responsiveness and professional quality, and ranked accordingly, prior to a consideration of bids. The Department will provide qualified assistance in evaluating proposals upon request, to the extent permitted by staff limitations.

Dated: January 19, 1977.

GARY EVERHARDT,
Director, National Park Service.

POSTAL SERVICE

[39 CFR Part 6]

GOVERNMENT IN THE SUNSHINE ACT—BYLAWS OF THE BOARD OF GOVERNORS

Proposed Rulemaking

Correction

In FR Doc. 77-1096 appearing at page 2699 in the issue of Thursday, January 13, 1977 the following corrections should be made.

1. On page 2702, middle column, in § 6.1 insert the following line immediately above the last line in the column, "ing may be varied by action of the".

2. On page 2702, third column, in § 6.3 the 16th and 17th lines are transposed and should read:

"previous oral notice, must be sent in sufficient time to reach that address at least".

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

[FRL 676-4]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Texas and New Mexico

On March 21, 1975, the Governor of Texas submitted a revision to the State Implementation Plan (SIP) concerning the re-classification of several Air Quality Control Regions (AQCRs) with respect to particulate matter, sulfur oxides, and carbon monoxide. The public hearing for this revision was conducted by the State on January 16, 1975. On October 1, 1975, the Texas Air Control Board (TACB) was notified of EPA's preliminary analysis results. On August 2, 1976, the Governor submitted a revision to Section IX, Air Quality Surveillance, of the SIP subsequent to a public hearing conducted by the State on April 6, 1976. In this revision, monitoring equipment requirements for sulfur oxides were proposed based on the preliminary evaluation results of the re-classification revision. Therefore, this notice of proposed rulemaking concerns both revisions to the Texas SIP.

AQCR RE-CLASSIFICATION

The priority re-classification revision concerns the pollutants and AQCRs indicated below. The original classifications are compared with the new classifications proposed by the State.

AQCR No.	Name	Pollutant	Original priority	Proposed priority
210	Abilene-Wichita Falls	Particulate	II	III
		Sulfur oxides	II	III
211	Amarillo-Lubbock	Particulate	II	III
		Sulfur oxides	I	III
213	Brownsville-Laredo	Particulate	I	III
214	Corpus Christi-Victoria	Sulfur oxides	I	II
153	El Paso-Las Cruces-Alamogordo	Carbon monoxide	I	III
		Sulfur oxides	I	IA

The criteria for AQCR priority classifications originally promulgated by EPA were measured ambient air quality or estimated air quality where measured data were not available. In addition, population data could be used to classify AQCRs

for carbon monoxide, photochemical oxidants, and nitrogen dioxide if measured air quality data were not available for these pollutants. The original priority classifications shown above were set in 1971. Measured ambient air quality data collected by the TACB for particulate matter and sulfur dioxide were used as the basis for the priority classifications for these pollutants. For carbon monoxide, the priority classification was based on a limited amount of measured air quality data collected by EPA during a three month period (June 26–September 30) in 1971.

EPA Evaluation Results

An AQCR priority classification change is considered warranted and approvable if it can be shown that errors were made in the original measurement or estimation of air quality data. A change from a classification of 1 to a 1A is considered approvable if it can be shown that emissions of a pollutant in an AQCR are predominantly from a single point source.

Particulate Matter

The particulate matter air quality data used to make the original priority classifications for the Abilene-Wichita Falls, Amarillo-Lubbock, and Brownsville-Laredo AQCRs have been reviewed, and these data support the original classification designations. No information was submitted with the State's proposed revision to show that errors were made in data collection and analysis. Measured ambient air quality data in these AQCRs for 1972 through 1975 agree in magnitude with the original data. Since no support for changing the original priority classifications is provided, the revision with respect to particulate is not considered approvable.

Sulfur Dioxide

A limited amount of measured sulfur dioxide air quality data collected by the TACB prior to SIP development were used to make the original priority classifications in the Abilene-Wichita Falls, Amarillo-Lubbock, and Corpus Christi-Victoria AQCRs. The annual arithmetic means and maximum eight-hour averages for each AQCR support the new State proposed priority classifications. Additional support is provided by air quality measurements in 1973, 1974, and 1975. None of these data suggest a priority classification more restrictive than those that are proposed. Therefore, the revision with respect to sulfur dioxide is considered approvable.

For the El Paso-Las Cruces-Alamogordo AQCR, the new State proposed priority classification for sulfur dioxide is 1A. This classification is applicable where emissions are predominantly from a single point source. In 1973, sulfur dioxide emissions from American Smelting and Refining Company in El Paso were 201,546 tons per year. These emissions represent approximately 94 percent of the total sulfur dioxide emissions in the AQCR. The proposed 1A priority classification is therefore considered approvable.

Carbon Monoxide

Measured air quality data for carbon monoxide were collected by EPA during 1971. An eight-hour maximum value of 15.0 milligrams per cubic meter was used in the original classification of the El Paso-Las Cruces-Alamogordo AQCR as priority 1 for carbon monoxide. Since carbon monoxide air quality measurements during 1973, 1974, and 1975 in both the Texas and New Mexico portions of the AQCR are similar in magnitude to the original air quality measurements, there is no indication that the priority classification was incorrect. No information was submitted with the State's proposed revision to show that errors were made in data collection and analysis. Therefore, the revision with respect to carbon monoxide is not considered approvable.

Effects of the Proposed Revision

Priority classifications were made originally to facilitate SIP development and evaluation. Priority classifications now serve only to designate the need for emergency episode control, and to define air monitoring equipment requirements. Based on the proposed classifications for sulfur dioxide, emergency episode plans (§ 51.16) would no longer be required in the Abilene-Wichita Falls and Amarillo-Lubbock AQCRs, and only contingency plans (§ 51.16(g)) would be required in the Corpus Christi-Victoria AQCR and the Texas and New Mexico portions of the El Paso-Las Cruces-Alamogordo AQCR. Air quality surveillance equipment requirements (§ 51.17) for sulfur dioxide would be reduced accordingly for each affected AQCR, including the New Mexico portion of the El Paso-Las Cruces-Alamogordo AQCR.

Air Monitoring Network

The proposed revision to the air quality surveillance network includes the addition of non-continuous monitoring sites in the cities of Arlington, Corpus Christi, Dallas, Gregory, and Midland. Non-continuous sites for Beach City, Beeville, Houston, and San Angelo are deleted from the network. Seven continuous monitoring sites are added in Houston for use during emergency episode situations. A continuous site for downtown Houston is proposed to become operational by 1977. The sulfur dioxide monitoring requirements are changed to reflect the new requirements resulting from priority classification changes as discussed above.

Purpose of Proposal

In the SIP submitted on January 28, 1972, the air quality surveillance portion of the plan met the minimum requirements of § 51.17 of 40 CFR Part 51, and was approved as a result. For many AQCRs existing sites and those planned for installation exceeded minimum requirements. It has become apparent that the air quality surveillance network originally envisioned by the TACB will require more manpower and financial resources than will be available. Therefore, the purpose of this proposed revision is to eliminate unnecessary monitoring sites so that the total network can be effectively supported with available resources.

Review of Public Comments

During discussion of the testimony presented by the Dallas Environmental Health and Conservation Department (EHCD), the EHCD agreed to operate eight high volume particulate sites in the Dallas area. The EHCD also recommended the addition of one of their continuous monitoring sites to the network. The TACB suggested that the site may be added to the network at a later date after data compatability procedures had been completed. The TACB amended the original proposal to include the City of Houston's monitoring sites as real-time emergency episode sites. EPA recommended that a continuous site for carbon monoxide be included in the proposed revision for the downtown Houston area. The TACB amended the proposal to include this recommendation. EPA recommended that continuous carbon monoxide sites be located in the downtown areas of Austin, Dallas, Fort Worth, and San Antonio because such locations are expected to represent "areas of maximum concentration". The TACB maintains that the carbon monoxide monitoring sites should be located in areas of "maximum population exposure."

EPA Evaluation Results

The proposed revision to the air quality surveillance network meets or exceeds the minimum EPA equipment requirements for high volume particulate samplers, gas bubblers for sulfur dioxide, and continuous monitors for sulfur dioxide, carbon monoxide, and photochemical oxidants (measured as ozone). Based on pollutant priority classification, the TACB should designate at least one site as a "maximum concentration" site in the Brownsville-Laredo and Metropolitan San Antonio AQCRs. Sites for measuring particulate matter during air pollution emergency episodes should be designated for the Brownsville-Laredo, Corpus Christi-Victoria, Metropolitan Houston-Galveston, and El Paso-Las Cruces-Alamongordo AQCRs. Maximum concentration and emergency episode sites were properly designated for carbon monoxide and photochemical oxidants. Based on the results of the evaluation, EPA agrees with the proposed revision of the State's air surveillance network.

All previously approved parts of the air quality surveillance system such as sampling schedules, sample analysis, and data handling, which are not affected by the proposed revision, remain in effect.

Copies of the State's proposed SIP revisions along with EPA's rationale for the proposed actions are available for public inspection at the EPA Region VI Office in Dallas, Texas (see complete address below). Copies of these materials are also available at the Environmental Protection Agency, Public Information Reference Unit, Room 2922, EPA Library, 401 M Street, SW., Washington, D.C. 20460.

Interested persons may participate in this proposed rulemaking by submitting written comments to the Environmental Protection Agency, Region VI, 1201 Elm Street, Dallas, Texas, 75270. All comments received on or before February 28, 1977, will be considered.

(Sec. 110(a) Clean Air Act as amended, 42 USC 1856c–5(a).)

Dated: January 4, 1977.

JOHN C. WHITE,
Regional Administrator.

It is proposed to amend Part 52 of Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart GG—New Mexico

§ 52.1621 [Amended]

1. In § 52.1621, the table is revised by changing the classification for sulfur oxides in the El Paso-Las Cruces-Alamogordo. Interstate Region from "1" to "1A".

Subpart SS—Texas

1. In § 52.2270, paragraph (c) is amended by adding paragraphs (10) and (11) as follows:

§ 52.2270 Identification of Plan.

* * * * *

(c) * * *

(10) A revision of priority classifications for particulate matter, sulfur oxides, and carbon monoxide was submitted by the Governor on March 21, 1975. (Non-Regulatory)

(11) A revision of Section IX, Air Quality Surveillance, was submitted by the Governor on August 2, 1976. (Non-Regulatory)

§ 52.2271 [Amended]

2. In § 52.2271, the table is revised by changing the classification for sulfur oxides in the Abilene-Wichita Falls Intrastate Region from "11" to "111", in the Amarillo-Lubbock Intrastate Region from "1" to "111", in the Corpus Christi-Victoria Intrastate Region from "1" to "11", and the El Paso-Las Cruces-Alamogordo Interstate Region from "1" to "1A".

[40 CFR Part 52]

[FRL 676-5]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to Bay Area Air Pollution Control District's Rules & Regulations in State of California

On December 13, 1972, July 25, 1973, November 2, 1973, July 19, 1974, October 23, 1974, January 10, 1975, April 10, 1975, November 3, 1975, February 10, 1976, April 21, 1976, August 2, 1976, and November 10, 1976, the Air Resources Board of the State of California submitted revised Rules and Regulations of the Bay Area Air Pollution Control District (APCD) as a revision to the California State Implementation Plan. The submissions listed above will be addressed in this notice, except when such submissions are deficient in a specific area. In this event, the appropriate portions of the earlier submissions have been evaluated and will be discussed in this notice.

Summary of Regulations Submitted

REGULATION 1

This regulation was submitted on July 25, 1973 and partial revisions to Division 3 of the regulation were submitted on July 19, 1974 and February 10, 1976. Since these three submittals taken together represent the most recent version of this regulation, they will be addressed in this notice.

The changes contained in these submittals that are being acted upon by this package include the following: addition of certain definitions; exceptions for burning; addition of criteria which must be complied with during any burning; addition of authority of the public officer to grant waivers from the open burning requirements if it is necessary for the public safety; and other minor changes of a procedural nature.

REGULATION 2

The November 2, 1973 submittal of this regulation supersedes all previous submittals and is currently effective, except that Division 2 was revised in both the January 10, 1975 and August 2, 1976 submittals; Division 3 was revised in both the July 19, 1974 and the April 21, 1976 submittals; and Divisions 15, 16, 17 and 18 were added in the August 2, 1976 submittal. Additionally, that portion of the July 19, 1974 revision to Division 3 which deals with SO_2 will be covered in a separate Federal Register notice.

Section 3212, submitted by the Air Resources Board on April 21, 1976, which concerns malfunctions is not being acted upon in this notice, but will be addressed in a later Federal Register notice dealing with SIP malfunction provisions.

The significant changes to the Bay Area APCD New Source Review rules, Regulation 2, Division 13, submitted on November 2, 1973, July 19 ,1974, October 23, 1974 January 10 1975, April 10, 1975 November 3 1975, and August 2, 1976, will be acted upon in a separate Federal Register notice.

A new section dealing with continuous in-stack monitoring for specific pollutants was submitted on April 21, 1976. The date by which the State of California is required to meet the provisions of 40 CFR 51.19(e) has been extended from October 6, 1976 to April 6, 1977. Additionally, recently developed state guidelines on continuous in-stack monitoring may cause changes to these as well as other APCD regulations. Therefore, the Federal rulemaking on this subject will occur in a separate Federal Register notice.

Those portions of this regulation concerning transfer of gasoline into stationary storage containers and vehicle fuel tanks submitted on April 10, 1975 and November 3, 1975, are not being acted upon in the notice because of the many unique questions involved in this area of air pollution control. These regulations are to be addressed in a separate Federal Register notice.

This package addresses the following changes contained in the November 2, 1973, July 19, 1974, January 10, 1975, April 21, 1976, and August 2, 1976 submittals: Addition of definitions; revisions to analytical procedures for determining the amount of hydrogen sulfide in samples; addition of regulations controlling reduction of animal matter and asphalt air blowing; and other minor changes of a procedural nature. A regulation controlling odorous substances was also received to be included in the SIP. We are not taking any action on this regulation since it is not a pollutant regulated under the Clean Air Act.

REGULATION 3

Regulation 3 was submitted on July 25, 1973 and revisions were submitted on January 10, 1975, April 21, 1976, and November 10, 1976. This regulation contains specific control requirements for organic emissions from solvent usage, from storage tanks and the filling of transportable containers other than the gasoline vapor control requirements of Regulation 2, as well as a general organic emission limitation.

This package addresses the regulation's approvability and its equivalency to the Federally promulgated organic solvent usage regulation, 40 CFR 52.254.

This package also addresses the approvability of organic liquid storage regulations which contain an exemption if the headspace reactivity is less than 5 percent.

Section 3203, submitted by the Air Resources Board on April 21, 1976, which concerns malfunctions is not being acted upon in this notice, but will be addressed in a later Federal Register notice dealing with SIP malfunction provisions.

REGULATION 4

The July 25, 1973 submittal of this regulation supersedes all previous submittals. This regulation requires the installation of crankcase devices on 1955 through 1962 model year motor vehicles.

REGULATION 5

Regulation 5, Episode Warning System, submitted on July 25, 1973, dealing with the Air Pollution Emergency Contingency Plan, is not being acted upon at this time because the Air Resources Board has indicated to EPA that a revision is forthcoming of all local agency regulations addressing the emergency episode requirements. This action by the State is in response to the recent approval by EPA of the State of California Air Pollution Emergency Episode Plan. The State's plan sets forth requirements the local agencies' plans must meet. A separate Federal Register no-

tice addressing this issue will be published after the submission to EPA of the local agency emergency episode regulations by the State.

REGULATION 6

The February 10, 1976 submittal of this regulation supersedes all previous submittals. This regulation concerns a procedural change to the APCD enforcement authority.

REGULATION 7

The January 10, 1975 submittal of this regulation supersedes all previous submittals. This regulation deals with New Source Performance Standards. This regulation is not required by 40 CFR Part 51 to be incorporated into the SIP, but since it has been submitted as a revision, it is being acted upon by this package. EPA delegated authority to implement and enforce these regulations to the Bay Area Air Pollution Control District in the FEDERAL REGISTER (40 FR 42236) on September 11, 1975.

REGULATION 8

The January 10, 1975 submittal of this regulation supersedes all previous submittals. This regulation deals with Emission Standards for Hazardous Pollutants. This regulation is also not required by 40 CFR Part 51 to be incorporated into the SIP, but since it has been submitted as a revision, it is being acted upon by this package. EPA delegated authority to implement and enforce these regulations to the Bay Area Air Pollution Control District in the FEDERAL REGISTER (40 FR 42236) on September 11, 1975.

PROPOSED ACTION

It is the purpose of this notice to propose approval of all the changes included in the July 25, 1973, November 2, 1973, July 19, 1974, January 10, 1975, February 10, 1976, April 21, 1976, August 2, 1976, and November 10, 1976 submissions, with the exception of the regulations concerning new source review, emergency episode, gasoline vapor recovery, malfunction, in-stack monitoring, and sulfur dioxide, which are not being acted upon at this time. In addition, the portions of Regulation 3 discussed hereafter are proposed to be disapproved.

It is the purpose of this notice to propose disapproval of sections of the Bay Area Air Pollution Control District's (BAAPCD) Regulation 3, dealing with organic solvent controls, contained in the January 10, 1975 submission.

On November 12, 1973 (38 FR 31249), the Administrator promulgated organic solvent usage regulations for the San Joaquin Valley, Sacramento Valley, and San Francisco Bay Area Interstate Air Quality Control Regions, 40 CFR 52.254, as one of the control measures of the California Transportation Control Plan, and as part of the California SIP. On October 2, 1974, the BAAPCD amended their regulations for reactive organic gas emissions, Regulation 3, to be more consistent with EPA's promulgated organic solvent usage control regulations. In reviewing the BAAPCD's regulations, EPA found portions inconsistent with the Federally promulgated regulations. In addition, the regulations submitted on January 10, 1975 contain provisions that conflict with the regulatory amendments made on October 2, 1974.

EPA's organic solvent usage control requirements (40 CFR 52.254) identify categories of sources, and the necessary emission limitations for such sources. Categories of specific concern are oven operations emitting organic materials in excess of 15 pounds per day, non-oven operations emitting organic materials in excess of 40 pounds per day if photochemically reactive solvents are used, and operations emitting organic materials in excess of 3,000 pounds per day if non-photochemically reactive solvents are used.

The BAAPCD emission limitations for organic solvent usage in oven operations (Section 3101.1) and in non-oven operations emitting organic materials in excess of 40 pounds per day if photochemically reactive solvents are used (Section 3101.2) are similar to those promulgated by EPA. However, provision is made, at the discretion of the Control Officer, for alternative means of emission reduction (Section 3101.4) which differ from that specified in the above mentioned emission limitations. Under this approach, the emission reductions that are greater than that required of a source can be credited towards achieving the emission limitations of other sources at a facility. Since the BAAPCD emission reductions are determined on the basis of "reactive organic compounds" rather than on total organic materials, this alternative compliance provision may result in a greater overall emission rate from a facility than would occur if the facility were in compliance with the Federal regulation.

It should be noted here that the BAAPCD enforcement practices concerning the use of this alternative means of emission reduction have not interpreted the term "reactive organic compounds" as defined in Section 2032.1.

Therefore, this BAAPCD alternative compliance approach does not achieve equivalent emission reductions as would the Federal regulation on a source by source basis, and may not achieve equivalent emission reductions as would the Federal regulation for the facility as a whole. This alternative approach neither ensures use of the best available control technology for significant sources of organic solvent emissions, nor does it offer incentives for the use of less polluting alternative technologies for the spectrum of emitting sources. Further, it conflicts with standard control practices employed in other areas of the country, particularly those in use in Southern California, and with EPA research results indicating the need for maximum control of virtually all organic material emissions except methane in order to achieve and maintain the National Ambient Air Quality Standards for Photochemical Oxidants.

The Regulation 3 requirement covering operations emitting organic materials in excess of 3,000 pounds per day if non-photochemically reactive solvents are used (Section 3101.3) is not identical or equivalent to that of EPA. EPA's requirement for this category covers new and existing sources, whereas the BAAPCD's requirement applies only to new or modified sources.

Regulation 3 provides for water to be included as part of the total volume of solvent in making the determination of a solvent's classification as non-photochemically reactive or photochemically reactive (Section 2010 and 2011). The inclusion of water allows a greater percentage of reactive materials than does the solvent classification procedures under EPA's regulation (40 CFR 52.254 (k)).

Regulation 3 defines "85 percent overall" (Section 2001) as the degree of control which results in 85 percent reduction in the quantity of the reactive organic compounds. This is not equivalent to the total organic reduction specified in the Federal regulation (40 CFR 52.254).

Regulation 3 defines "reactive organic compounds" (Section 2032.1) on the basis of the composition of an emission condensate and differs from the Federal method of using the composition of the solvent itself for the reactivity classification. Representative samples are not obtainable from an emission condensate approach for processes with multiple stacks given the range of evaporate characteristics of a solvents components. Therefore, this definition is not equivalent to that specified in the Federal regulation (40 CFR 52.254(k)).

Regulation 3, Division 3, contains source operation exemption provisions: *Provided*, That modern maintenance and operating practices are used. Section 3301.12 exempts all printing presses other than rotogravure printing presses. Section 3302.1 exempts ovens used for epoxy resin casting. Section 3302.5 exempts unheated solvent rinsing containers and unheated coating dip tanks if of 100 gallon capacity or less. Such exemptions are not authorized by Federal regulation (40 CFR 52.254).

The existing BAAPCD control requirements that conflict with the regulatory amendments made on October 2, 1974, are identified below:

Section 1214 dealing with the percentage of reactive organic compounds in the organic gas.

Section 1215 providing an exemption if reactive organic gas emissions are reduced by 85 percent.

Finally, the analytical procedures contained in Division 6 of Regulation 3 have not been modified to reflect the requirements of the organic solvent control provisions and are not adequate to determine the compliance status of a source. No provision is made for determining the concentrations of branched chain ketones, aromatic compounds with 8 or more carbon atoms, or the exempted chemical compounds (ethylbenzene, phenyl acetate, and methyl benzoate) as specified in Section 2032.1. The BAAPCD may have established acceptable analytical procedures for the enforcement of this regulation, but they are not contained in the most recent submittals of Regulation 3.

In summary, these conflicting control requirements and exemptions make the organic solvent control requirements of Regulation 3 less stringent than those promulgated by EPA, and are the basis for this proposed disapproval. All provisions of 40 CFR 52.254 will remain in effect.

It is also the purpose of this notice to propose disapproval of sections of BAAPCD's Regulation 3, dealing with storage of organic liquids, contained in the January 10, 1975 submission.

The BAAPCD emission limitations for storage of organic liquids (§ 3102–3102.6) contain exemption provisions for organics which have a headspace reactivity of 5 percent or less. These sections can allow the storage of gasoline in tanks without a floating roof or a vapor recovery system. It is EPA's intention to propose a Federal Regulation controlling the emissions from the storage of organic liquids which does not contain a headspace reactivity exemption. This action is being taken because National Ambient Air Quality Standards for oxidants are currently being violated in the San Francisco Bay Area Air Quality Control Region and because the BAAPCD regulation represents less control than that obtained through the application of reasonably available control technology.

Therefore, it is the purpose of this notice to propose a Federal replacement regulation which is identical to the BAAPCD's Regulation 3, § 3102–3102.6 without the headspace reactivity exemption provision.

Pursuant to section 110 of the Clean Air Act, as amended, and 40 CFR Part 51, the Administrator is required to approve or disapprove the regulations as an SIP revision and, therefore, invites public comment on the State's submission and his proposed approval or disapproval.

Copies of the proposed revision are available for public inspection during normal business hours at the following locations:

Bay Area Air Pollution Control District, 939 Ellis Street, San Francisco, California 94109.
California Air Resources Board, 1709—11th Street, Sacramento, California 95814.
Environmental Protection Agency, Region IX, 100 California Street, San Francisco, California 94111.
Public Information Reference Unit, Room 2922 (EPA Library), 401 M Street, SW., Washington, D.C. 20460.

Interested persons may participate in this rulemaking by submitting written comments to the Regional Administrator; Attention: Air and Hazardous Materials Division; EPA; Region IX; 100 California Street; San Francisco, California 94111. Relevant comments received on or before February 28, 1977, will be considered.

Comments received will be available for inspection during normal working hours at the Region IX office and the EPA Public Information Reference Unit.

(Sec. 110 Clean Air Act, as amended (42 U.S.C. 1857c-5))

Dated: January 18, 1977.

PAUL DE FALCO, Jr.,
Regional Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[49 CFR Part 228]

[FRA Docket No. HS-2, Notice No. 4]

CONSTRUCTION OF RAILROAD EMPLOYEE SLEEPING QUARTERS

Public Hearing

On December 3, 1976, the Federal Railroad Administration (FRA) published in the FEDERAL REGISTER a notice of proposed rulemaking on regulations concerning the location of railroad employee sleeping quarters in conformity with section 2(a)(4) of the Hours of Service Act (45 U.S.C. 62(a)(4)), as amended by section 4 of the Federal Railroad Safety Authorization Act of 1976, Pub. L. No. 94-348, 90 Stat. 818 (41 FR 53070). Under an extension published in the FEDERAL REGISTER of January 14, 1977, written comments on the rulemaking are due by February 17, 1977 (42 FR 2994). Interim regulations implementing section 2(a)(4) are presently in effect (41 FR 53028; December 3, 1976). FRA administers and enforces the Hours of Service Act under section 6(f)(3)(A) of the Department of Transportation Act (49 U.S.C. 1655(f)(3)(A)) and a delegation from the Secretary of Transportation (49 CFR 1.49(d)).

The Association of American Railroads has requested that FRA "conduct a hearing on the record with the opportunity for interested parties to question all other parties on matters of fact and opinion contained in their respective presentations" to be held "no sooner than twenty days after the due date for the submission of statements herein, to give all parties adequate opportunity to examine the written submissions".

As set forth in 49 CFR Part 211, the FRA Rules of Practice, it is FRA policy that rulemaking hearings are conducted when required by statute or when deemed necessary or desirable (see revision of Part 211 at 41 FR 54181; December 13, 1976). Such hearings are opportunities for the oral presentation of data, views and arguments. FRA rulemaking hearings are not adversary proceedings and the agency is not limited to the hearing transcript or written submissions in fashioning final rules. 49 CFR 211.25. Neither the Hours of Service Act nor any statute which FRA administers requires rulemaking to be conducted "on the record after opportunity for an agency hearing" as that phrase is employed in the Administrative Procedure Act. Indeed, the Hours of Service Act does not require that there be any opportunity for oral presentations. However, FRA does desire to receive the views of interested persons on this topic and to permit such exchange of views as may contribute to an informed agency judgment.

Therefore, FRA will conduct an informal rulemaking hearing at 10 a.m. on March 1, 1977, in Room 6200, Nassif Building, 400 7th Street, SW., Washington, D.C. FRA believes that this hearing date will provide an ample opportunity for persons to review the written submissions in advance and prepare statements for presentation at the hearing. All interested persons are invited to attend and participate.

The hearing will be presided over by a hearing officer designated by the Associate Administrator for Safety. After an introduction on the subject matter, interested persons will be invited to make oral presentations. If necessary to assure full participation, the hearing officer may limit the duration of statements. To the extent possible after completion of initial statements, opportunity will be provided for statements responsive to the comments of other participants. There will be no cross-examination of persons making statements. However, questions will be permitted for the purpose of clarifying the substance of any oral comment.

A transcript of the hearing will be prepared and placed in the public docket. To assist the reporter and the hearing officer, any person intending to deliver a prepared statement is encouraged to make four copies of the statement available to the hearing officer before the start of the hearing. Additional procedures may be announced at the hearing.

Issued in Washington, D.C. on January 24, 1977.

DONALD W. BENNETT,
Associate Administrator for Safety.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 33]

SPORT FISHING

Proposed Opening of Hillside National Wildlife Refuge, Mississippi, to Sport Fishing

Notice is hereby given that it is proposed that 50 CFR Part 33 be amended by the addition of the Hillside National Wildlife Refuge, Mississippi, to the list of refuge areas open for support fishing, which is published at 50 CFR 33.4.

Pursuant to the authority of 16 U.S.C. 668dd(d), as redelegated to the Director of the United State Fish and Wildlife Service at DM 242.1.1, the Director may open refuge areas to sport fishing when a determination has been made that such activity is compatible with the major purposes for which the area was established. As a general rule, most areas within the National Wildlife Refuge System are closed to sport fishing until officially opened by regulation. It is the pur-

pose of this proposed rulemaking to allow sport fishing on Hillside National Wildlife Refuge, which is presently prohibited.

Furthermore, pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)), an environmental assessment has been prepared on this proposal which will help determine whether this rulemaking constitutes a major federal action significantly affecting the human environment. A copy of this assessment is available at the address below.

The policy of the Department of the Interior is, whenever practical, to afford the public an opportunity to participate in the rulemaking process. Therefore, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240, on or before February 28, 1977. All relevant comments received will be considered by the Director prior to the issuance of final rulemaking.

Accordingly, it is proposed to amend § 33.4, in Title 50 of the Code of Federal Regulations as set forth below:

§ 33.40 List of open areas, sport fishing.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

OREGON DUNES NATIONAL RECREATION AREA ADVISORY COUNCIL

Meeting

The Oregon Dunes National Recreation Area Advisory Council will meet on Friday, March 18, 1977, at 10 am, in the NRA Headquarters Conference Room at 855 Highway Avenue, Reedsport, Oregon.

The purpose of the meeting will be to review the Final EIS for the Management Plan and Wilderness Suitability Report and to discuss the ORV closure that went into effect on January 1, 1977.

The meeting will be open to the public. Persons who wish to attend should notify Lorraine Potter, 855 Highway Avenue, Reedsport, Oregon 97467. The telephone number is (503) 271-3611. Written statements may be filed with the Council before or after the meetings.

The Council has established the following rules for public participation. Any member of the public who wishes to speak must be recognized by the Council Chairman. The Chairman will decide the time when public participation will take place.

ROBERT L. SCHRENK,
Area Ranger.

JANUARY 21, 1977.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

NATIONAL ADVISORY COMMITTEE ON AN ACCESSIBLE ENVIRONMENT

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), that meeting of the National Advisory Committee on an Accessible Environment will be held on February 12-13, 9 a.m., at the Stouffer's Denver Hotel, 3203 Quebec Street, Denver, Colorado, 80207.

The National Advisory Committee on an Accessible Environment is established under the 1974 amendments to the Rehabilitation Act, Pub. L. 93-516, 29 U.S.C. 792 et seq. The Committee is established to provide advice, guidance, and recommendations to the Architectural and Transportation Barriers Compliance Board in carrying out its functions.

The meeting of the Committee shall be open to the public. On the first day the Committee Chairman will discuss activities since the previous meeting and call for government spokespersons to report on program activities and plans of the Architectural and Transportation Barriers Compliance Board. On the second day, the Committee will discuss compliance and related procedures. The proposed afternoon agenda calls for the Committee to discuss its organization and plans for future procedures.

Persons interested in attending the meeting should contact Ms. Laurinda Street, SW., Washington, D.C. 20201, Transportation Barriers Compliance Board, Mary E. Switzer Building, 330 C Street, SW., Washington, D.C. 20201, telephone (202) 245-1801.

JAMES S. JEFFERS,
Executive Director, Architectural and Transportation Barriers Compliance Board.

CIVIL AERONAUTICS BOARD

[Docket 27573; Agreement C.A.B. 26095, R-1 through R-12; Agreement C.A.B. 26176; Agreement C.A.B. 26191; Order 77-1-136]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to North Atlantic Cargo Rates; Order on Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of January 1977.

By Order 76-12-98, December 16, 1976, the Board generally approved an agreement among the carrier members of the International Air Transport Association (IATA) establishing North Atlantic cargo rates through September 30, 1977. A joint petition for reconsideration has been submitted by Trans International Airlines, Inc. (TIA), and World Airways, Inc. (World).

In their petition, TIA and World submit that in approving new high weightbreak (10,000 and 34,000 kg.) specific commodity rates as part of the subject IATA agreement the Board included in footnote 13 of the order a "gratuitous statement regarding the relationship between cargo charter costs and the costs of high weightbreak scheduled cargo services", which petitioners allege has no evidentiary basis in the record and appears to prejudge important issues in the *Transatlantic FAK Contaainer and Charter Freight Rates Investigation*, Docket 27557.[1] TIA and World request the Board to delete footnote 13 from the order; and further request the Board to supply interested parties in Docket 27557 with copies of Board studies or other information on which the alleged conclusions in footnote 13 were based, for examination and rebuttal in the *Transatlantic FAK and Charter Rates Investigation* to avoid an ex parte determination on a critical matter in that proceeding. TIA and World allege further that it is inappropriate for the Board to reach even tentative conclusions on the issue of relative costs of cargo charter and scheduled services; and that even the final sentence of the challenged footnote, stating that the issue will be decided in Docket 27557, in no way diminishes the prejudicial atmosphere created by these alleged tentative conclusions.

The Board has concluded to deny the petition. The challenged language in footnote 13 is not based on any ex parte or other "studies" or information concerning the costs of cargo charters vs. scheduled cargo operations, and makes no conclusion, tentative or otherwise, as to their relative levels. It is clear from the language used, that no issues have been predetermined by Order 76-12-98 and that *all* pertinent issues will be determined on the basis of the record in Docket 27557.

Accordingly, *it is ordered*, That:

The petition of Trans International Airlines, Inc., and World Airways, Inc., for reconsideration of Order 76-12-98 be and hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

PHYLLIS T. KAYLOR,
Secretary.

[FR Doc.77-2822 Filed 1-27-77;8:45 am]

[1] Footnote 13 an page 9 of Order 76-12-98 reads as follows:

As indicated above, the new high-weight-break SCR's would be set at levels equivalent to the new minimum charter rates. It is recognized that the board has previously taken the position that rates for scheduled services should generally be priced at higher levels than those for charter services, in view of the lower load factors and higher unit costs associated with scheduled services. However, under many circumstances, such as the critical time requirements of the charterer, the possibility of unusual shipment characteristics, the one-way nature of cargo charter flights, as well as the off-route operations frequently experienced, and in general the difficlty of arranging crews and equipment to satisfy the requirements, it may not be unreasonable to expect that the costs of cargo charter service are somewhat higher than those of scheduled service. We would emphasize that these factors as well as others are the subject of the ongoing *Transatlantic FAK Container and Charter Freight Rates Investigation*, Docket 27557, and will be determined in that proceeding.

[Order 77-1-130; Docket 27573; Agreement C.A.B. 26384]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Agreement Relating to Specific Commodity Rates

Issued under delegated authority January 24, 1977.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement names an additional specific commodity rate as set forth below, reflecting reductions from general cargo rates; and was adopted pursuant to unprotested notice to the carriers and promulgated in an IATA letter dated January 12, 1977.

Specific Commodity Item No.	*Description and rate*
0003	Foodstuffs, spices, and beverages, excluding caviar and hatching eggs, 232 cents per kilograms,[1] minimum weight 200 kg 222 cents per kilograms,[1] minimum weight 500 kg from Johannesburg to New York.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, *it is ordered*, That:

Agreement C.A.B. 26384 is approved, provided that (a) approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications; (b) tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing; and (c) where a specific commodity rate is published for a specified minimum weight at a level lower than the general commodity rate applicable for such weight, and where a general commodity rate is published for a greater minimum weight at a level lower than such specific commodity rate, the specific commodity rate shall be extended to all such greater minimum weights at the applicable general commodity rate level.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board unless within such period a petition for review is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

PHYLLIS T. KAYLOR,
Secretary.

[1] Expires March 31, 1978.

[Order 77-1-126; Docket 29860]

TRANS WORLD AIRLINES, INC.

Category Y Tariffs; Order Denying Petition for Reconsideration

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 21st day of January, 1977.

The Board, by Order 76-10-48, served October 12, 1976, suspended the Category Y tariffs[1] of Trans World Airlines, Inc. (TWA) pending an investigation. A petition for reconsideration was filed by TWA on October 22, 1976, and answers by Pan American World Airways, Inc. (Pan Am) and Member Carriers of the National Air Carrier Association (NACA) were filed in opposition.

TWA alleges that the Board's findings that its Category Y services present the possibilities of regular passenger displacement during peak travel periods and self-diversion of Category A and Z traffic are speculative and unsupportable. Despite its inability to conduct Category B charter flights as alternative service, TWA argues that the problem of displacement of regular fare traffic by Category Y traffic is no different in the case of TWA than in the cases of Pan Am and Northwest Airlines Inc. (Northwest), whose Category Y tariffs were not suspended. The carrier claims that the scheduling procedures it has arranged with the Department of Defense (DOD) prevent anticipated conflicts between Category Y traffic and regular traffic, and that a Category Y tariff provision allows for reaccommodation of the military passengers on later flights when there is conflict. Regarding the Board's conclusion that higher fare Category A and Z traffic could be diverted to TWA's proposed Category Y service, TWA argues that this is not a problem unique to TWA, and that all of the projected Category Y passengers will be "new" traffic, and will not consist of diverted Category A or Z passengers.

Pan Am and NACA concur in the Board's decision to suspend TWA's tariff and urge the Board to deny TWA's petition for reconsideration. Pan Am argues that the New York-Mediterranean routes are not suited for Category B operations, and that in the absence of a Category Y program all of the military traffic would move on Category Z service. In addition, Pan Am argues that Category Y should be limited to a true substitution for Category B services, and that TWA's tariff represents an attempt by DOD to expand Category Y in order to secure the advantages of scheduled service at planeload charter rates.

Upon consideration of the petition and answers, we find that TWA has not raised sufficient facts to warrant reconsideration of Order 76-10-48. TWA's allegation that the Category Y passengers will be "new" traffic is unsubstantiated by any data, and the remainder of TWA's arguments do not contain any information about military procurement of civilian airlift or the Category Y program in particular that was not considered previously. Thus, TWA has failed to demonstrate error in the Board's conclusion that there are significant differences between the circumstances surrounding the TWA Category Y proposal and those of Pan Am and Northwest, and that these differences require suspension of the TWA tariff.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly Sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

The petition filed by Trans World Airlines, Inc. for reconsideration of Order 76-10-48 be and hereby is denied.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,
Secretary.

Minetti and West, members, concurring:

We concur in the decision to deny the petition for reconsideration. We continue to object, however, to the majority's insistence on distinguishing this tariff from those of Northwest and Pan American which we would have suspended. See our concurring statement to Order 76-10-48, September 30, 1976; our dissent from Order 76-3-45, March 8, 1976; and, our concurrence and dissent in Order 75-7-104, July 22, 1975.

G. JOSEPH MINETTI.
LEE R. WEST

[FR Doc.77-2874 Filed 1-27-77;8:45 am]

[1] Local Military Passenger Fares Tariff No. MAC-1 C.A.B. No. 308, filed September 1, 1976 to become effective October 1, 1976. The suspension was made effective December 1, 1976.

CIVIL SERVICE COMMISSION

DEPARTMENT OF DEFENSE

Revocation of Authority To Make Noncareer Executive Assignment

Under authority of § 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission revokes the authority of the Department of Defense to fill by noncareer executive assignment in the excepted service the position of Deputy Assistant Secretary (Near East, African and South Asian Affairs), ODAS (Near Eastern, Africa and South Asian Affairs), OASD (International Security Affairs), Office of the Secretary of Defense.

UNITED STATES CIVIL SERVICE COMMISSION,

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1977

Additions

Notice of proposed additions to Procurement List 1977, November 18, 1976 (41 FR 50975) of the commodity and service listed below was published in the FEDERAL REGISTER on December 3, 1976 (41 FR 53126) and November 30, 1976 (41 FR 52512).

After consideration of all the relevant data presented, the Committee has determined that the commodity and service listed below are suitable for procurement by the Government under Pub. L. 92-28, 85 Stat. 77. Accordingly, they are hereby added to the Procurement List.

Class 5940

Terminal Lug (SH), 5940-00-549-6581.

SIC 7542

Vehicle Detailing (SH), Duluth, Minnesota, plus 10-mile radius.

By the Committee.

C. W. FLETCHER,
Executive Director.

[FR Doc.77-2604 Filed 1-27-77;8:45 am]

PROCUREMENT LIST 1977

Deletions

Notice of proposed deletions from Procurement List 1977, November 18, 1976 (41 FR 50975) was published in the FEDERAL REGISTER on December 10, 1976 (41 FR 54021).

After consideration of all the relevant data presented, the Committee has determined that the commodity and service listed below are no longer suitable for procurement by the Government under Pub. L. 92-28, 85 Stat. 77. Accordingly, they are hereby deleted from the Procurement List.

Class 3990

Cap, Wood.
3990-00-366-6824.

SIC 7331

Mailing Service, U.S. Coast Guard Academy, New London, Connecticut.

By the Committee.

C. W. FLETCHER,
Executive Director.

[FR Doc.77-2789 Filed 1-27-77;8:45 am]

PROCUREMENT LIST 1977

Proposed Deletion

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 77 of the proposed deletion of the following service from Procurement List 1977, November 18, 1976 (41 FR 50975).

SIC 7331

Mailing Service, Center for Disease Control, Bethesda, Maryland.

Comments and views regarding the proposed deletion may be filed with the Committee on or before March 2, 1977. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Sreet North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled six months from the date of this FEDERAL REGISTER.

By the Committee.

C. W. FLETCHER,
Executive Director.

FOREST SERVICE

Final

William B. Bankhead National Forest Timber Plan, Winston, Lawrence, and Franklin

Counties, Ala., January 19: Proposed is the implementation of a Timber Management Plan for the William B. Bankhead National Forest covering the period July 1, 1976 to September 30, 1986. The Bankhead National Forest contains 179,294 acres of which 162,728 acres are classified as commercial forest land. The plan proposes even-aged forest management for that part of the Forest which is suitable for sustained yield timber production and not reserved for some other use. Average annual potential yield is 10.4 million board feet of saw timber and 2,279 thousand cubic feet of small roundwood products. Negative impacts include loss of pleasing forest scenery and temporary increases in turbidity and stream flow. Comments made by: FPC, USDA, AHP, COE, DOI, HEW, ERDA, and EPA. (ELR Order No. 70077.)

Santa Fe National Forest, Geothermal Leasing, Rio Arriba and Sandoval Counties, N. Mex., January 19: Proposed is the leasing of a 51,571 acre Known Geothermal Resource Area (KGRA) in Santa Fe National Forest and a 29,000 acre area of noncompetitive leasing interest outside the KGRA. The Statement also covers a larger area of about 496,950 gross acres extending southward and northeastward known as an area prospectively valuable for geothermal resources, which includes both the KGRA and noncompetitive area. Potential adverse effects include displacement of soils, removal of surface vegetation, and changes in the quality and quantity of water produced from this area. Comments made by: DOI, USDA, EPA, DOC and State and local agencies, and concerned citizens. (ELR Order No. 70074.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-967-4335.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Draft

Haddock, Cod, and Yellowtail Flounder, Management Plan, January 21: Proposed is a management plan for the domestic harvesting of haddock (Melanogrammus aeglefinus), cod (Gadus Morhua), and yellowtail flounder (Limanda ferruginea) off the Northeastern United States. These fisheries were regulated under the terms of the 18-member International Commission for the Northwest Atlantic Fisheries (ICNAF), as amended until December 31, 1976, when the U.S. withdrew from the convention. This plan proposes regulatory measures and restrictions are recommended regarding quotas, fishing areas, mesh size, and minimum size limits. Beneficial effects are expected. (ELR Order No. 70091.)

Final

Seamount Trawl Fishery Resources, Preliminary Management Plan, January 21: The proposed action sets forth a preliminary management plan for the seamount trawl fishery resources in the western Pacific Region (Hawaii, Guam, and American Samoa). There is presently no U.S. harvesting of armorheads or alfonsins. Armorheads make up over 90% of the foreign trawl catches on the seamounts; alfonsins are only a minor constituent. The proposed action temporarily restricts the foreign harvest to a 2,000 metric tons catch quota, which may be taken with a trawling effort not to exceed 60 vessel-days, beginning March 1, 1977. Comments made by: COE, EPA, Japanese fishing agency, and University of Hawaii. (ELR Order No. 70085.)

Western Pacific Precious Corals, Preliminary Management Plan, January 21: This statement sets forth a Preliminary Management Plan for the precious coral resources of the Western Pacific Region (Hawaii, Guam, and American Samoa). The proposed action prohibits the direct foreign harvest of precious corals from any bed in the zone until such bed has been surveyed and scientifically assessed, and until the level of surplus yield for foreign vessels has been determined. The action also prohibits the incidental killing or harvesting of precious corals, except when the same is judged by the Secretary of Commerce to not seriously damage U.S. interests. Comments made by: DOC, COE, Japanese fishery agency, and concerned persons and groups. (ELR Order No. 70086.)

E. Bering Sea and Gulf of Alaska Shrimp, Preliminary Management Plan, January 21: Proposed is the adoption and implementation of a preliminary fishery management plan for northern pandalid shrimp in the eastern Bering Sea and Gulf of Alaska. No foreign fishery is to be permitted since the domestic fishery has the capacity and desire to harvest the total allowable catch of 50,000 metric tons. Foreign application to continue the fishery is anticipated. Comments made by: COE, DOI, USDA, USCG, EPA, STAT, DOT, and State and local agencies, and concerned citizens. (ELR Order No. 70087.)

High Seas Salmon Fisheries of Japan, Preliminary Management Plan, January 21: Proposed is the adoption and implementation of a preliminary fishery management plan for the salmon of U.S. origin taken in the high seas salmon fishery of Japan. Although the Fishery Conservation and Management Act of 1975 (P.L. 94-265) would require no allowable catch of salmon by Japan within the U.S. fishery zone and beyond, the North Pacific Fisheries Treaty remains in force until one year after any signatory nation gives notice of its intention of terminating the Convention. Consequently, the foreign fishery for the highseas can be expected to continue at least through the 1977 season. Comments made by: EPA, USCG, 2 State and local agencies, and concerned citizens. (ELR Order No. 70088.)

Pacific Coast Troll Salmon Fishery, Preliminary Management Plan, January 21: Proposed is the adoption and implementation of a preliminary fishery management plan for the troll salmon fishery of the Pacific Coast. The purpose of the plan is to manage the troll salmon fishery off the coast of the U.S. for the optimum sustainable yield, and to allocate harvest between domestic and foreign fishermen. The plan recommends that there be no decision on the total allowable levels of foreign (Canadian) fishing until a new salmon treaty is consummated. Comments made by: USCG, EPA, and State and local agencies, and concerned citizens. (ELR Order No. 70090.)

Trawl Fishery of the Washington-Oregon-California Region, Preliminary Management Plan, Washington, Oregon, and California, January 21: The proposed action is to adopt and implement a preliminary fishery management plan for the trawl fishery of Washington, Oregon, and California. Specific TACs are given for Pacific hake (150,000 metric tons), rockfishes (19,000 metric tons), flounders (31,100 metric tons), sablefish (7,000 metric tons), and jack mackerel (55,000 metric tons). Conservation and management measures recommended are designed to regulate the foreign fisheries and preserve options for U.S. entry when economic conditions permit. Comments made by: USCG, EPA, and State and local agencies, and concerned citizens. (ELR Order No. 70089.)

Supplement

Fort Belvoir Family Housing Project (S-1) Fairfax County, Va., January 21: This statement supplements a final EIS filed with CEQ in May 1976. Proposed is the construction of 444 four bedroom units of family housing for members of the Army, Navy, and Coast Guard stationed in the Washington, D.C. area. This is a reduction of 1,856 units from the total reported in the final EIS. Adverse impacts include destruction of 90 acres of wildlife, slight increases in air and noise pollution, increased storm water run-off, increased traffic, and increased strain on some service facilities at the Fort. (ELR Order No. 70084)

DEPARTMENT OF DEFENSE

ARMY CORPS

Draft

Mamaroneck, Sheldrake, Byram R.'s Flood Control, New York and Connecticut: Proposed is a flood control plan for the Mamaroneck and Sheldrake Rivers Basin (Village and Town of Mamaroneck, N.Y.) and for Byram River Basin (Greenwich, Connecticut and Port Chester, N.Y.). The project is broken down into four component parts: Village of Mamaroneck-Mamaroneck River, Village of Mamaroneck-Sheldrake River, Town of Mamaroneck-Sheldrake River, and Port Chester and Greenwich-Byram. Each respective section is discussed at length. Adverse effects include removal of vegetation, and some loss of fish and wildlife habitat. (New York District) ELR ORDER No. 70076)

Coal Transfer Facility, Ohio R. Mile 314.5, Lawrence County, Ohio, January 19: Proposed is the construction, operation, and maintenance of a proposed coal loading facility consisting of a floating dock made up of two barges, a crusher, and a conveyor system. Coal from the Tri-State area would be delivered to the facility by truck over existing roads, dumped into a 25-foot square bin, and moved by an enclosed conveyor to the crusher. The coal would then be moved by an enclosed conveyor equipped with side boards and a catch pan to the barges. Adverse effects include some increase in water pollution to the Ohio River. (Huntington District) (ELR ORDER No. 70078)

Final

Humboldt Harbor and Bay, Navigation Improvements, Humboldt County, Calif., January 18: Proposed are navigation channel improvements for Humbolt Harbor and Bay, California. Projected improvements include widening of three North Bay channel bends up to an additional 200 feet; deepening the North Bay, Samoa and Eureka Channels to 35 feet; widening part of the Samoa Channel to 400 feet; and constructing a turning basin at the end of the Samoa Channel. Project implementation will necessitate the removal of about two square miles of benthic habitat. Shallow groundwater supplies near the disposal site may become saline (San Francisco District). Comments made by: AHP, USDA, HEW, DOC, DOI, EPA, state and local agencies, and concerned citizens. (ELR Order No. 70066).

Redwood Shores Regional Shopping Center, Permit, San Mateo County, Calif., January 18: Mobil Oil Estates Limited, Redwood City, California, has applied for a Department of the Army permit to fill and do storm drainage improvements on the approximately 210-acre area and to improve the existing dike along Steinberger Slough in preparation for the eventual construction of a regional shopping center. Adverse effects include: change in land use from open space to urban area, loss of levee-impounded marshland, changes in air and water quality, change in noise levels, and water runoff alteration (San Francisco District). Comments made by: USDA, DOC, HEW, DOI, DOT, EPA, state and local agencies, concerned groups and persons. (ELR order No. 70068).

Supplement

Hawaii Kai Marina (S-1), Oahu County, Hawaii, January 17: The statement supplements a final EIS filed with CEQ in January 1976 regarding permit actions in the Hawaii Kai Marina. The supplement introduces the concept of the general permit and conditions under which the construction of individual docks and similar structures for small boats in the Hawaii Kai Marina will be authorized. As discussed in the final EIS, construction of boat docks in the marina would shade bottom areas, limiting benthic growth, would possibly interfere with water circulation and mixing, and would be a potential source of petrochemical pollutants. (Honolulu District) (ELR Order No. 70062).

DEPARTMENT OF DEFENSE

NAVY

Draft

Ready Missile Test Facility, Project P-875, Ventura County, Calif., January 19: The proposed action is entitled Military Construction Project P-875: "Ready Missile Test Facility." This action involves the construction of 15 small buildings on 5 acres of mudflat at the Pacific Missile Test Center, Point Mugu, California. It will involve dredging about 25,000 cubic yards of mud out of an intertidal mudflat and filling it in with about 100,000 cubic yards of sand. The purpose of the project is to provide facilities for testing air-launched missiles with line warheads and motors. Few adverse effects are anticipated. (ELR Order No. 70080).

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350, 202-692-3227.

Final

POL Bulk Pipelines, Naval Supply Center, Norfolk, Va., January 19: Proposed is the construction of a 10" multipurpose (DFM and JP-5) fuel line to connect the 2,740,000 barrel tankage at the U.S. Naval Bulk Storage Facility, Craney Island, with the smaller tankage at the Naval Station, Destroyer-Submarine Piers (D&S), and with the contiguous Naval Air Station. An 8" sludge line (ballast and only wastewater) will also be constructed connecting the Naval Fuel Depoot, Craney Island, with the D&S piers. Short term impacts to wtaer quality are expected from the dredging and redistribution of sediments. Comments made by: COE, EPA, DOI, DOT, state and local agencies, and concerned citizens. (ELR order No. 70031.)

Contact: Mr. W. Herbert Pennington, Office of Assistant Adminstrator, E-201, ERDA, Washington, D.C. 20545, (301)—973-4241.

Draft

Safety Research Experiment Facilities, Idaho Lab, Idaho, January 18: This statement was prepared in support of ERDA's proposal for legislative authorization and appropriations for the Safety Research Experiment Facilities (SAREF) Project. The purpose of the proposed project is to modify some existing facilities and provide a new test facility at the Idaho National Engineering Laboratory for conducting fast breeder reactor (FBR) safety experiments. The proposed facilities provide for the in-reactor testing of large bundles of prototypical FBR fuel elements under a wide variety of conditions. (ELR Order No. 70072).

Nevada Test Site Testing Activities, Nye County, Nev., January 18: This statement considers underground nuclear detonation with yields of one megaton or less, along with the preparations necessary for such detonations at the Nevada Test Site (NTS). The testing activities considered also include other continuing and intermittent activities, both nuclear and nonnuclear, which can best be conducted in the remote and controlled area of the NTS. Provision is also made for the study of geologic formations at the NTS for possible use in the ERDA program for management of commercially generated high-level radioactive wastes. (ELR Order No. 70070).

Intermed. Level Radioactive Waste Management, Roane County, Oak Ridge, Tenn., January 17: The proposed action is the selection of a preferred technique for the management of intermediate level radioactive liquid waste (ILW) and the construction and operation of a facility to implement the technique at the Oak Ridge National Laboratory (ORNL) in Roane County, Tennessee. Current ERDA activities at ORNL annually generate about 2 million gallons of ILW which is evaporated to reduce the volume. Three alternative management techniques are assessed: hydrofracture, shale-cement fixation, and glass fixation. The overall impact of any of the techniques would be expected to be beneficial, since each would remove large volumes of radioactive waste from existing storage facilities. (ELR Order No. 70061).

FEDERAL ENERGY ADMINISTRATION

Contact: Dr. Robert Stern, Director, Office of Environmental Impact, Federal Energy Administration, New Post Office Building, Room 7119, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461, 202-566-9760.

Draft

Kleer Mine, SPR, Van Zandt County, Tex., January 21: This statement involves the implementation of the Strategic Petroleum Reserve, Title I, Part B, of the Energy Policy and Conservation Act of 1975 (P.L. 94-163). The Reserve will store 150 million barrels of oil by December of 1978 in the Early Storage Reserve (ESR), and 500 million barrels by 1982 under the entire program. The candidate site discussed would be part of the ESR and would involve storage of 30 million barrels of oil in a conventional salt mine located in Grand Saline, Texas. The storage of oil at Kleer Mine would be implemented at an existing underground salt mine presently owned and operated by the Morton Salt Company. (ELR Order No. 70083).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street, S.W., Washington, D.C. 20410, 202-755-6308.

Draft

Merrillville Terrace Multifamily Project, Lake County, Ind., January 18: Proposed is the development of Merrillville Terrace on 60.2 acres over a period of 5 years. The first phase of development will be 425 multifamily units (out of a total of 797) on 36.33 acres. Plans call for an open space recreation area with clubhouse, pool, and tennis courts. Commercial development is planned on 17.2 acres adjoining on the west by a different developer. Construction of Merrillville Terrace will result in slightly increased vehicular use of existing streets in the area. (ELR Order No. 70069.)

Memorial Parkway Subdivision, Harris Co., Harris County, Tex., January 19: The proposed action is the acceptance for HUD/FHA mortgage insurance purposes of the 1,109-acre Memorial Parkway Subdivision located in Harris County, Texas. When completed in approximately 6 years, the subdivision will contain 3,842 single-family homes plus some attached single-family and multi-family housing, and shopping and recreational facilities. Adverse impacts will be removal of agricultural land from production and an increased demand for fossil fuels through heavy dependence on the automobile for transportation. (ELR Order No. 70075.)

Final

Trans Union Development, Diamond Path Addition, Dakota County, Minn., January 18: Developers of this 1,200 housing unit development propose that HUD provide mortgage insurance for 149 single-family homes in the first stage. The development covers 322 acres of cultivated agricultural land. Adverse effects include removal of farmland from production, increased noise and air pollution, increased traffic, increased demand for public services and facilities, and lack of low and moderate income housing. Comments made by: DOT, EPA, GSA, DOD, HEW, DOI, (ELR Order No. 70067.)

SECTION 104(H)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD).

Final

Upper Ashbury Rehabilitation Assistance Program, San Francisco County, Calif., January 19: Proposed is the application of Community Development Block Grant funds to the Upper Ashbury area of San Francisco, containing approximately 3,700 dwelling units and 8,700 persons. The San Francisco Rehabilitation Assistance Program is a financial assistance and code enforcement program, designed to carry out the City's policy of residential rehabilitation and neighborhood conservation. The impacts of the proposed Upper Ashbury program are evaluated in this EIS in light of the controversy in the proposed area regarding the social and economic impacts associated thereto. Comments made by: HEW, HUD, EPA, State and local agencies, concerned citizens. (ELR Order No. 70082.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF RECLAMATION

Draft

Coronado Project, Maricopa County, Ariz., January 17: Proposed is a joint project, involving the Department of Interior and the Department of Agriculture, associated with the Salt River Project's proposed electrical generating plant at St. John's, Arizona. The facilities are intended to meet the future needs of Maricopa County and of the "Eastern Mining Area." The generating plant, wellfields, pipelines, limestone source, and railroad would occupy 3,516 acres of land and

the transmission line would occupy 526 acres. Negative effects include the impact of access roads, tower sites and staging areas on soils, forage, vegetation, and archeological resources. (ELR Order No. 70064.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, U.S. Department of Transportation, 400 7th Street, S.W., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

Ocean Boulevard, Morris-Ocean Ave., Monmouth County, N.J., January 19: Proposed is the construction on new alignment of an urban highway, Ocean Boulevard, from its present terminus at Morris Avenue north to Ocean Avenue (N.J. Route 36) in the City of Long Branch, New Jersey. The total project length is approximately 9000 feet or 1.6 miles. The minimum right-of-way of 110 feet will provide for a land-service facility with two travel lanes plus paved shoulders in each direction separated by a narrow grassed mall. Adverse effects include the displacement of 67 to 254 individuals and 8 to 12 businesses. A preliminary 4(f) discussion is also included. (Region I). (ELR Order No. 70073)

Relocated U.S. 32, Dallas to Hickory, Lincoln, Catawba, and Gaston Counties, N.C., January 18: Proposed is the construction of a 4-lane divided highway on new location, connecting the existing improved section of U.S. 321 at Dallas, to the existing (new) interchange with I-40 at Brookford, just south of Hickory, North Carolina. New corridor locations under consideration vary from 30 to 32 miles in length. The new roadway will generally parallel and replace existing U.S. 231, which extends about 37 miles between Dallas and Brookford. Adverse impacts will result from taking homes, businesses, farms, woodlands, and other natural areas for right-of-way. (Region 4). (ELR Order No. 70065.)

Final

Street Improvements (U.S. 122, U.S. 7), Chicago, Cook County, Ill., January 18: This statement concerns the following roadway improvements in Chicago, Illinois: a 4,600 ft. segment of Columbus Drive; a 3000 ft. segment of Randolph Street between N. Michigan Avenue and N. Lake Shore Drive; a 5,220 ft. segment of Nort Lake Shore Drive (US 122); and Wacker Drive Extension (US 7). The project would result in increased air, water, and noise pollution, and the taking of portions of Grant Park, Navy Pier Park, and the Lakefront Promenade, and the Monroe Street Yachting Harbor. A 4(f) statement is included. Comments made by: EPA, DOT, State and local agencies, concerned citizens. (ELR Order No. 70071.)

Route 36, St. Joseph and Missouri River, Kansas County, Missouri, January 19: The proposed action is the acquisition of limited access right-of-way from the Missouri River to 17th Street in St. Joseph, grading, multilane paving, interchanges, and a six lane bridge over the Missour River from a point in Buchannan County, Kansas to 17th Street in St. Joseph. Total project length is 1.5 miles. Adverse impacts include the relocation of 77 families and 22 businesses, and the reassignment of approximately 30 acres of industrial, commercial and residential land to a transportation corridor. Comments made by: HUD, DOI, EPA, HEW, USDA, DOT, COE, State and local agencies, concerned citizens. (ELR Order No. 70079.)

DAVID W. TUNDERMAN,
Acting General Counsel.

DEPARTMENT OF DEFENSE

Department of the Army

SCIENTIFIC ADVISORY BOARD OF THE ARMED FORCES INSTITUTE OF PATHOLOGY

Establishment, Organization and Functions

In accordance with the provisions of Pub. L. 92-463, Federal Advisory Committee Act, notice is hereby given that the Scientific Advisory Board of the Armed Forces Institute of Pathology has been found to be in the public interest in connection with the performance of duties imposed on the Department of Defense by law. The Office of Management and Budget has also reviewed the justification for this Advisory Committee and concurs with its reestablishment.

The nature and purpose of the Scientific Advisory Board of the Armed Forces Institute of Pathology is to serve in the public interest as a scientific advisory body to The Director, Armed Forces Institute of Pathology, to provide him and his staff with scientific and professional advice and guidance in matters pertaining to operational programs, policies and procedures of the Armed Forces Institute of Pathology central laboratory of pathology for the Department of Defense and other federal agencies with responsibilities for consultation, education and research in pathology.

Specifically, the advisory board will serve in the public interest by advising The Director, Armed Forces Institute of Pathology, on matters pertaining to:

(a) The character, scope, and adequacy of educational and experimental, statistical, and morphological research programs undertaken by the Institute, to include their correlation with other medical specialties.

(b) The correlation of education and research conducted in the Institute with that of other institutions to avoid unnecessary duplication and to facilitate the work of the Institute.

(c) The utilization for education and research purposes of the vast accumulation of pathologic material in the Institute to include their use in the Medical Museum.

(d) The character, scope, and adequacy of the technical and professional training programs of the Institute for Medical Department personnel and others.

(e) The use of new techniques, equipment and scientific apparatus in consultation, education and research.

(f) The character, size and adequacy of consultation services to include the development and evaluation of new pathologic tests and diagnostic procedures.

(g) The continuation of review for quality control of pathologic diagnoses for the medical services.

(h) Such other matters as are deemed of benefit to the Institute.

In view of the foregoing, the reestablishment of the Scientific Advisory Board of the Armed Forces Institute of Pathology is in the public interest. There is no existing committee, agency, or activity within the Federal Government that can perform the functions of the advisory board.

In order to assure balanced membership, the Board shall be composed of not more than 20 members, 16 selected from the civilian community on the basis of their national or international prominence in medicine and science allied to the functions of the Institute, and one representing the Professional Directorate of each military medical service and the Veterans Administration. No non-Federal civilian member of the Board shall be eligible to vote on or participate in any discussion or decision of the Scientific Advisory Board affecting research projects of their own or research projects of the organization or institution which employs them. Each civilian member will be appointed upon the advice of the Director, Armed Forces Institute of Pathology, and the concurrence of the Institute's Board of Governors by the Secretary of Defense or his designee. The basic term of office of the civilian members shall be two years. No civilian member may serve more than two terms in succession. Terms shall be staggered to provide a rotating membership. Federal members shall be appointed by and serve at the discretion of their respective agencies.

The Board shall report to the Director, Armed Forces Institute of Pathology. The Executive Officer, Armed Forces Institute of Pathology, who is a full-time salaried Federal Officer, shall serve as the agency representative and as Executive Secretary of the Board with full authority to adjourn any meeting not considered to be in the public interest.

The Scientific Advisory Board of the Armed Forces Institute of Pathology shall meet at least once annually for a two-day period. The Board will operate in accordance with the provisions of Pub. L. 92-463, Executive Order 11769, and implementing OMB, DOD and DA directives for Federal Advisory Committees.

The Scientific Advisory Board of the Armed Forces Institute of Pathology will terminate one year from this date unless rechartered for an additional period prior to termination.

Dated: January 25, 1977.

MAURICE W. ROCHE,
Director for Correspondence and Directives, OASD (Comptroller).

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

ERDA ADVISORY COMMITTEES

Renewal

JANUARY 24, 1977.

Notice is hereby given that the following ERDA Advisory Committees have been renewed for a 2-year period, i.e., beginning from the date that copies of the charters have been filed with the standing committees on Congress and the Library of Congress (approximately February 1, 1977) and ending February 1, 1979:

Advisory Committee on Geothermal Energy; Committee of Senior Reviewers; High Energy Physics Advisory Panel; Historical Advisory Committee.

ERDA's Procurement Policy Advisory Committee has been renewed for a 1-year period, i.e., beginning from the date that copies of the charter have been filed with the standing committees of Congress and the Library of Congress (approximately February 1, 1977) and ending February 1, 1978.

Renewal of these Committees is necessary and in the public interest. The Committees will continue to operate in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), ERDA policy and procedures, OMB Circular No. A-63 (Revised), and other directives and instructions issued in implementation of that Act.

This determination follows consultation with the Office of Management and Budget pursuant to the relevant sections of the Federal Advisory Committee Act and OMB Circular No. A-63 (Revised).

ROBERT F. ALLNUTT,
Acting Advisory Committee Management Officer.

[FR Doc.77-2814 Filed 1-27-77;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

SCIENCE ADVISORY BOARD, TECHNOLOGY ASSESSMENT AND POLLUTION CONTROL ADVISORY COMMITTEE

Open Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the Technology Assessment and Pollution Control Advisory Committee will be held beginning at 9 a.m., February 18, 1977, in room 3305, U.S. Environmental Protection Agency, Waterside Mall, 401 M Street, SW., Washington, D.C.

This meeting is a regularly scheduled meeting of the Committee. The Committee will draft a report regarding its assessment of the quality of EPA's research and development activities related to pollution control technology. Further, the Committee will be briefed on relevant activities of the Science Advisory Board and will discuss members items of interest.

The meeting is open to the public. Any member of the public wishing to attend or submit a paper should contact Lloyd T. Taylor, Executive Secretary, Technology Assessment and Pollution Control Advisory Committee, (703) 557-7720, by c.o.b. February 11, 1977.

THOMAS D. BATH,
Staff Director, Science Advisory Board.

[FR Doc.77-2747 Filed 1-27-77;8:45 am]

SCIENCE ADVISORY BOARD, ENVIRONMENTAL POLLUTANT MOVEMENT AND TRANSFORMATION ADVISORY COMMITTEE

Open Meeting

In accordance with Pub. L. 92-463, the Federal Advisory Committee Act, notice is hereby given of an open meeting of the Environmental Pollutant Movement and Transformation Advisory Committee of the Science Advisory Board of the U.S. Environmental Protection Agency. The meeting is scheduled for February 14, 15 and 16, 1977, and will be held at the Conference Room 1112A of Crystal Mall Building No. 2 (1921 Jefferson Davis Highway, Arlington, Virginia). Each day's session will begin at 9 a.m.

For the February 14, 1977 session, the topics are: current activities of the Science Advisory Board, and programs of the Robert S. Kerr Research Laboratory dealing with groundwater pollution. For the February 15, 1977 session, topics include presentations of the activities of selected researchers sponsored by the U.S. Environmental Protection Agency who are presently engaged in modeling efforts dealing with the movement and environmental fate of selected types of pollutants. For the February 16, 1977 session, the topic is a discussion of how the Committee should write its report of findings on the quality of research programs observed and visited within the Agency's laboratories.

Persons wishing to attend the meeting should contact the Science Advisory Board Secretariat. The address is: U.S. E.P.A., Science Advisory Board (A-101), Washington, D.C. 20460. The telephone number is (703) 557-7710. Please ask for Miss Carolyn Osborne. In order to plan for the meeting, it is requested that persons intending to attend the meeting notify the Secretariat by close of business (c.o.b.) on February 10, 1977.

THOMAS D. BATH,
Staff Director, Science Advisory Board.

JANUARY 21, 1977.

ENVIRONMENTAL POLLUTANT MOVEMENT AND TRANSFORMATION ADVISORY COMMITTEE

PRELIMINARY AGENDA
4TH MEETING

February 14, 1977

9:00 a.m.—Welcome and opening remarks, Dr. Montroll.
9:20 a.m.—Discussion of SAB activities from January 4-5, 1977, executive committee meeting, Dr. Wei.
10:00 a.m.—Advisory statement on post-doctoral fellows, Dr. Levine.
10:45 a.m.—Break.
11:00 a.m.—Discussion of EPMTAC transmittal to ORD on sulfates research plan, Dr. Montroll.
12:30 p.m.—Lunch.
2:00 p.m.—Opening remarks and planning for next meeting, Dr. Montroll.
2:30 p.m.—Groundwater research programs of the Robert S. Kerr research center (Ada, Oklahoma), Dr. Riordan and associates.
4:30 p.m.—Recess.

February 15, 1977

9:00 a.m.—Opening remarks, Dr. Montroll.
9:30 a.m.—Modeling discussions with grantees, Invited guests.
12:00 p.m.—Lunch.
1:30 p.m.—Modeling discussions with grantees, Invited guests.
4:30 p.m.—Recess.

February 16, 1977

9:00 a.m.—Opening remarks, Dr. Montroll.
9:15 a.m.—Discussion of report writing activities on the quality of ORD laboratories: visits to laboratories, other presentations and discussions, Dr. Montroll.
11:00 a.m.—Future committee activities and items of member interest, Dr. Montroll.
12:30 p.m.—Adjourn.

[FR Doc.77-2748 Filed 1-27-77;8:45 am]

FEDERAL ELECTION COMMISSION

[Notice 1977-8, AOR 1977-3]

ADVISORY OPINION REQUESTS

Pursuant to 2 U.S.C. 437f(c) and the procedures reflected in Part 112 of the Commission's Proposed Regulations, published on August 25, 1976 (41 FR 35954), Advisory Opinion Request 1977-3 has been made public at the Commission. Copies of AOR 1977-3 were made available on January 21, 1977. These copies of the advisory opinion request were made available for public inspection and purchase at the Federal Election Commission, Public Records Division, at 1325 K Street, NW., Washington, D.C. 20463.

Interested persons may submit written comments on any advisory opinion request within ten days after the date the request was made public at the Commission. These comments should be directed to the Office of the General Counsel, Advisory Opinion Section, at the Commission. Persons requiring additional time in which to respond to any advisory opinion requests will normally be granted such time upon written request to the Commission. All timely comments received by the Commission will be considered before the Commission issues an advisory opinion. Comments on pending requests should refer to the specific AOR number of the requests and statutory references should be to the United States Code citations rather than to the Public Law citations.

A description of the request recently made public as well as the identification of the requesting party follows hereafter:

AOR 1977-3: Whether office account may be established by Senator seeking re-election in 1978 who holds official Senate leadership position and may be used to pay expenses incident to his duties as a "Senate leader only;" whether office account funds may be used to pay the Senate leader's costs of appearing at "political functions" involving other Senators "up for election."—Requested by Senator Ted Stevens, United States Senate, Washington, D.C.

Dated: January 25, 1977.

VERNON W. THOMSON,
Chairman for the Federal Election Commission.

[FR Doc.77-2875 Filed 1-27-77;8:45 am]

FEDERAL ENERGY ADMINISTRATION

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of December 17 through December 24, 1976

Notice is hereby given that during the week of December 17 through December 24, 1976, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments of the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

Dated: January 21, 1977.

DAVID G. WILSON,
Acting General Counsel.

List of cases received by the Office of Exceptions and Appeals, Dec. 17 through Dec. 24, 1976

Date	Name and location of applicant	Case No.	Type of submission
Dec. 17, 1976	David Crow, Shreveport, La. (If granted: FEA's remedial order would be rescinded and David Crow would not be required to refund overcharges made on its sales of crude oil to Solito.)	FRA-1092 FES-1092	Appeal of remedial order; stay requested.
Do	Earl F. Wakefield, Inc., Wichita, Kans. (If granted: FEA's Dec. 8, 1976, remedial order would be rescinded and Earl F. Wakefield would not be required to refund overcharges made on its sales of crude oil to Cities and Apco.)	FRA-1093 FES-1093	Do.
Dec. 20, 1976	Al Jones Oil Corp. (General Oil Distributors, Inc., Jamaica, N.Y. (If granted: Al Jones Oil Corp. would receive an increase in its base period use of motor gasoline and General Oil Distributors, Inc., would be assigned as its base period supplier.)	FEE-3528	Exception to increase base period use (sec. 211.13).
Do	Algonquin SNG, Inc., Washington, D.C. (If granted: Algonquin SNG, Inc., would receive a stay of the requirements of the FEA's Mar. 22, 1976, decision and order issued to the Petrochemical Energy Group.)	FES-0018	Stay request.
Do	EDG, Inc., Los Angeles, Calif. (If granted: EDG, Inc., would receive a stay of the requirement of the FEA's Nov. 5, 1976, decision and order to purchase $1,029,310 additional entitlements during the period November 1976 through October 1977 pending a final determination of its appeal of that order.)	FES-1083	Request for stay of decision and order in Beacon Oil Co., et al., 4 FEA par. 87,024 (Nov. 5, 1976).
Do	Exxon Co., U.S.A., Washington, D.C. (If granted: The FEA's Nov. 17, 1976, decision and order would be rescinded and Louisiana Land & Exploration Co.'s crude oil supplier purchase relationship with Exxon Co., U.S.A. would be reinstated.)	FXA-1096	Appeal of decision and order in Louisiana Land & Exploration Co., 4 FEA par. .... (Nov. 17, 1976).
Do	Independent Gasoline Marketers Council: Society of Independent Gasoline Marketers of America, Washington, D.C. (If granted: The members of the Independent Gasoline Marketers Council, the Society of Independent Gasoline Marketers of America and other independent retailers of motor gasoline which purchase product from more than 1 supplier and sell in more than 1 marketing area would be recognized by the FEA as a proper class for the purposes of granting exception relief to permit the retroactive application of the separate inventories amendment.)	FXA-1095	Appeal of decision and order in Retroactive Application of the Separate Inventories Amendment, 4 FEA par. 83,099 (Sept. 24, 1976).
Do	Laketon Asphalt Refining, Inc., Evansville, Ind. (If granted: Laketon Asphalt Refining, Inc., would receive an exception from the old oil entitlements program.)	FEE-3525	Exception from oil entitlements program (sec. 211.67).
Do	Mobile Oil Corp., New York, N.Y. (If granted: The FEA's Nov. 5, 1976, order would be rescinded and Mobile Oil Corp. would continue to be supplied motor gasoline by the Gulf Oil Corp.)	FEA-1094 FES-1094	Appeal of FEA's Nov. 5, 1976, order; stay requested.
Do	F. H. Rhees, Tulsa, Okla. (If granted: Crude oil produced by Rhees from wells located in Nowata County, Okla., would be sold at upper tier ceiling prices.)	FEE-3526	Price exception (sec. 212.74).
Do	Rickelson Oil & Gas Co., Tulsa, Okla. (If granted: Crude oil produced from Rickelson's Vanbuskirk lease located in Seminole County, Okla., would be sold at upper tier ceiling prices.)	FEE-3527	Do.
Do	Texaco, Inc., Houston, Tex. (If granted: Texaco, Inc., would be permitted to increase its prices to reflect nonproduct cost increases in excess of $0.005 per gallon for natural gas liquid products produced at the following natural gas plants: Enville, Hitchcock, Kittie, Mermentau, and Ozona.)	FEE-3529— FEE-3533	Price exception (sec. 212.165).
Do	Warrior Asphalt Co. of Alabama, Inc., Washington, D.C. (If granted: Warrior's entitlement purchase obligation for the month December 1976 representing crude oil receipts and runs to stills for October 1976 would be partially stayed.)	FEX-0105	Supplemental order.

Date	Name and location of applicant	Case No.	Type of submission
Do	Warrior Asphalt Co. of Alabama, Inc., Washington, D.C. (If granted: Warrior Asphalt would receive an extension of the entitlement relief granted in FEA's June 17, 1976, decision and order.)	FEX-0106	Do.
Dec. 21, 1976	Batzell, Nunn & Bode, Washington, D.C. (If granted: The FEA's Dec. 2, 1976, information request denial would be rescinded and Batzell, Nunn & Bode would receive access to FEA material regarding FEA's proposal to exempt naphthas, gas oil and other products from the mandatory petroleum allocation and price regulation.)	FEA-1097	Appeal of FEA's information request denial.
Do	Bloes Oil Co., Bowman, N. Dak. (If granted: The FEA's Nov. 8, 1976, decision and order would be rescinded and Bloes Oil Co. would be permitted to retain the revenues which it realized during the period Nov. 1, 1973, through Sept. 30, 1974, from charging prices for propane which exceeded maximum level permitted by sec. 212.93.)	FEA-1098	Appeal of FEA region VIII's decision and order dated Nov. 8, 1976.
Do	Bloes Oil Co., Bowman, N. Dak. (If granted: Bloes Oil Co. would receive a stay of the requirements of the FEA's Dec. 6, 1976, remedial order and would not be required to refund overcharges made in sales of propane during the period Nov. 1, 1973, through Sept. 30, 1974.)	FES-0099	Request for stay of remedial order dated Dec. 6, 1976.
Do	Memphis Aero Corp., Washington, D.C. (If granted: Memphis Aero Corp. would be permitted to increase its selling price for aviation fuel above the maximum allowable price levels computed pursuant to sec. 212.93.)	FEE-3530	Price exception (sec. 212.93).
Do	Petrochemical Energy Group, Washington, D.C. (If granted: The FEA's Oct. 18, 1976, decision and order issued to Brooklyn Union Gas Co. would be rescinded and Brooklyn Union Gas would not be assigned a base period use of 733,000 mcf of butane for its entitlement.)	FEA-1100	Appeal of FEA's Oct. 18, 1976, decision and order issued to Brooklyn Union Gas Co.
Do	Standard Oil Co. (Indiana), Chicago, Ill. (If granted: Standard Oil Co. (Indiana) would be permitted to increase its prices to reflect nonproduct cost increase in excess of $0.005 per gallon for natural gas liquid products produced at the following natural gas plants: Elmwood, Lake Boeuf, Monahans, South Thornwell and TSMA.)	FEE-3534 FEE-3538	Price exception (sec. 212.165).
Do	Varibus Corp., Beaumont, Tex. (If granted: Varibus Corp. would receive a stay of the requirements of the FEA's Sept. 20, 1976, remedial order to refund to Thomas P. Reidy & Rolfe Petroleum overcharges by Varibus in sales of No. 2 fuel oil.)	FES-0084	Request for stay of remedial order dated Sept. 20, 1976.
Dec. 22, 1976	Caldo Oil Co., Curtesy Oil Co., Ranco Oil Co., Rinehart Oil Co., San Francisco, Calif. (If granted: Caldo Oil Co., Curtesy Oil Co., Ranco Oil Co., and Rinehart Oil Co. would receive a stay of the provisions of the FEA's Nov. 5, 1976, decision and order issued to Gulf Oil Corp. pending a final determination of their appeal of that order, and thereby continue to receive their base period use of petroleum products from Gulf.)	FES-0084— FES-0087	Request for stay of decision and order dated Nov. 5, 1976, issued to Gulf Oil Corp.
Do	Major Oil Co., Miles Oil Co., and Olympian Oil Co., San Francisco, Calif. (If granted: Major Oil Co., Miles Oil Co., and Olympian Oil Co. would receive a stay of the provisions of the FEA's Nov. 5, 1976, decision and order issued to Gulf Oil Corp. pending a final determination of their appeal of that order, and thereby continue to receive their base period use of petroleum products from Gulf.)	FES-0088 FES-0089 FES-0090	Do.
Do	Minnesota Gas Co., Minneapolis, Minn. (If granted: Minnesota Gas Co. would receive an exception to sec. 212.92 and sec. 212.93 for purposes of computing its increased product costs and its selling price of propane.)	FEE-3541	Price exception (sec. 212.93).
Do	OKC Corp., Washington, D.C. (If granted: The FEA's Nov. 22, 1976, decision and order would be rescinded and OKC Corp. would be relieved of any obligation to purchase entitlements with respect to its crude oil runs to stills and old oil receipts for the months of April through September 1976.)	FEA-1101	Appeal of decision and order in OKC Corp., 4 FEA par. .... (Nov. 22, 1976.
Do	Skelly Oil Co., Tulsa, Okla. (If granted: The FEA's Dec. 12, 1976, remedial order would be rescinded and Skelly Oil Co. would not be required to determine its imputed May 15, 1973, selling price for unleaded gasoline in accordance with 10 CFR 212.112(b)(1).)	FRA-1096	Appeal of remedial order dated Dec. 12, 1976.
Do	Standard Oil Co. (Indiana), Chicago, Ill. (If granted: The FEA's Oct. 1, 1976, and Nov. 12, 1976, decisions would be modified to reflect increased 3d quarter nonproduct costs for the following natural gas plants: Luby, Old Ocean, Burnell, Midland, and Peoria.)	FMR-0073 FMR-0077	Request for modification of decisions and orders in Standard Oil Co. (Indiana), 4 FEA par. 83,134 (Oct. 1, 1976); Standard Oil Co. (Indiana), 4 FEA par. ---- Nov. 12, 1976).
Do	Sun Co., Inc., Washington, D.C. (If granted: Portions of a document as to which a decision was reserved in the order issued to Sun pursuant to the Freedom of Information Act on Nov. 19, 1976, would be released.)	FEX-0107	Supplemental order to decision in Sun Co., Inc., 4 FEA par. ---- (Nov. 19, 1976).

Date	Name and location of applicant	Case No.	Type of submission
Do.....	James Taylor Wilson, Leroy, Ala. (If granted: James Taylor Wilson would be assigned a new, lower priced supplier of petroleum products to replace its base period supplier, Bedwell Oil Co.)	FEE-3540	Exception to change base period supplier (sec. 211.9).
Dec. 23, 1976	Southwestern Refining Co., Inc., Salt Lake City, Utah. (If granted: Southwestern Refining Co., Inc., would receive a stay of the requirements of the entitlement notice issued Dec. 22, 1976, that it purchase 1,213 entitlements by Dec. 31, 1976.)	FES-0051	Stay request.
Do.....	UCO Oil Co., Whittier, Calif. (If granted: UCO Oil Co. would receive an extension of the exception relief granted in the FEA's Oct. 15, 1976, decision and order and would be assigned new, lower priced suppliers of motor gasoline on the basis that it is continuing to experience a serious hardship.)	FXE-3542	Extension of relief granted in UCO Oil Co., 4 FEA par. 83,155 (Oct. 15, 1976).
Do.....	Union Oil Co. of California, Los Angeles, Calif. (If granted: The FEA's Dec. 6, 1976, decision and order would be modified to (i) include all California heavy-high sulfur crude oil; (ii) remove the requirement that Union pay maximum ceiling prices on all crude oils used in computing the measure of relief; and (iii) make the order effective 3 mo from the date on which it is modified on appeal.)	FXA-1102	Appeal of decision and order in Union Oil Co. of California, 4 FEA par. ---- (Dec. 6, 1976).

CASES FILED WITH THE OFFICE OF EXCEPTIONS AND APPEALS

Week of December 24 through December 31, 1976

Notice is hereby given that during the week of December 17 through December 24, 1976, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Federal Energy Administration's Office of Exceptions and Appeals.

Under the FEA's procedural regulations, 10 CFR, Part 205, any person who will be aggrieved by the FEA action sought in such cases may file with the FEA written comments of the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of those regulations, the date of service of notice shall be deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first.

Dated: January 21, 1977.

DAVID G. WILSON,
Acting General Counsel.

List of cases received by the Office of Exceptions and Appeals, Dec. 24 through Dec. 31, 1976

Date	Name and location of applicant	Case No.	Type of submission
Dec. 27, 1976	City of Long Beach, Long Beach, Calif. (If granted: FEA's Dec. 3, 1976, decision and order would be modified to increase the relief granted to the fault block 11 unit working interest owners.)	FXA-1105	Appeal of FEA's decision and order in City of Long Beach, 4 FEA par. ---- (Dec. 3, 1976).
Do.....	Lee Brooks Oil, Inc., Wichita, Kans. (If granted: FEA's Nov. 24, 1976, remedial order would be rescinded.)	FRA-1104 FES-1104	Appeal of FEA's remedial order; stay requested.
Do.....	Midland Cooperatives, Inc., Washington, D.C. (If granted: FEA's Nov. 5, 1976, decision and order would be rescinded and Midland Cooperatives would not be required to purchase $1,057,841 additional entitlements during the period November 1976 through October 1977.)	FXA-1103	Appeal of FEA's decision and order in Midland Cooperatives, Inc., 4 FEA par. ---- (Nov. 5, 1976).
Do.....	Ozona Gas processing plant, Dallas, Tex. (If granted: Ozona Gas processing plant would be permitted to increase its prices for natural gas liquid products to reflect nonproduct cost increases in excess of $0.005 per gallon.)	FEE-3544	Price exception (sec. 212.165).
Do.....	R. V. Whitmer Thermogas Co., Akron, Ohio. (If granted: R. V. Whitmer Thermogas Co. would not be required to refund overcharges in propane sales and would be permitted to establish its base price as of July 30, 1973.)	FEE-3543	Price exception (sec. 212.93).
Dec. 28, 1976	Boswell Oil Co. of Louisiana, Houston, Tex. (If granted: Boswell Oil Co. would be awarded entitlements on the basis of imputed crude oil runs to stills during the 2 mo prior to the initiation of operations at its St. John Parish refinery.)	FEE-3548	Allocation exception (sec. 211.67).
Do.....	Cities Service Co., Tulsa, Okla. (If granted: Cities Service Co. would replace Peacock Oil Co. as base period supplier for a retail outlet located at 501 West 31st St., Chicago, Ill.)	FEE-3546	Exception to change supplier (sec. 211.9.)
Do.....	Getty Oil Co., New York, N.Y. (If granted: FEA's July 21, 1976, decision and order would be rescinded and Getty Oil Co., Getty Eastern and Skelly would be considered a single firm.)	FMR-0078	Rescission of FEA's decision and order in Getty Oil Co., 2 FEA par. 80,046 (July 21, 1975).
Do.....	Good Hope Industries, Inc., Springfield, Mass. (If granted: The FEA would review the entitlements exception relief granted to Good Hope Industries, Inc., during its 1976 fiscal year in order to determine whether the level of exception relief approved was appropriate.)	FEX-0108	Review of entitlements exception relief (supplemental order).
Do.....	Pryor Interprises, Inc., Griffin, Ga. (If granted: Pryor Interprises, Inc., would be assigned a new, lower priced supplier of motor gasoline to replace its base period supplier, Triton, Inc.)	FEE-3547	Exception to change suppliers (sec. 211.9).

Date	Name and location of applicant	Case No.	Type of submission
Dec. 29, 1976	Earl W. Sander, Emporia, Kans. (If granted: FEA's Nov. 4, 1976, remedial order would be rescinded and the Babinger-Perrier, Possillon, and Jones-Rathke lease would be classified as a stripper well property retroactive to November 1976.)	FRA-1106 FES-1106	Appeal of FEA's remedial order; stay requested.
Do.....	Mobil Oil Corp., New York, N.Y. (If granted: Mobil Oil Corp. would receive a temporary stay of FEA's Nov. 5, 1976, order and would not be required to fulfill a portion of Gulf Oil Corp.'s supply obligations in the northern California, northern Nevada, Oregon, and Washington areas.)	FST-0024	Request for temporary stay of FEA's Nov. 5, 1976 order.
Do.....	OKC Corp., Washington, D.C. (If granted: The FEA would review the entitlements exception relief granted to OKC Corp. during its 1976 fiscal year in order to determine whether the level of exception relief approved was appropriate.)	FEX-0109	Review of entitlements exception relief (supplemental order).
Dec. 28, 1976	Phillips Petroleum Co., Bartlesville, Okla. (If granted: FEA's Dec. 3, 1976, special report order would be rescinded and Phillips Petroleum Corp. would not be required to file a special report with respect to its exchanges involving refined petroleum products.)	FSO-0033	Request for special redress.
Dec. 29, 1976	Tenneco Oil Co., Houston, Tex. (If granted: Tenneco Oil Co. would receive a temporary stay of the refund which the firm is required to make to the West Coast Oil Co. pending judicial review.)	FST-0023	Request for a temporary stay of FEA's decision and order in Tenneco Oil Co., 3 FEA par. ---- (Dec. 21, 1976).
Dec. 30, 1976	Amtane, Inc. (Burmah LP-Gas, Inc.), Tulsa, Okla. (If granted: The FEA's Dec. 3, 1976, decision and order issued to Small's LP Gas Co. would be rescinded.)	FXA-1107	Appeal of FEA's decision and order in Small's LP Gas Co., 4 FEA par. ---- (Dec. 3, 1976).
Do.....	Flying Tiger Line, Inc., Los Angeles, Calif. (If granted: Flying Tiger Line, Inc., would receive a temporary stay of FEA's Dec. 16, 1976, order and Texaco would supply the firm with kerosene-base aviation turbine fuel.)	FST-0025	Temporary stay of FEA's Dec. 16, 1976, order.
Do.....	Flying Tiger Line, Inc., Los Angeles, Calif. (If granted: FEA's Dec. 16, 1976, order would be rescinded and Flying Tiger Lines would be supplied kerosene-base aviation turbine fuel for its base period use.)	FEA-1109 FES-1109	Appeal of FEA's Dec. 16, 1976, order; stay requested.
Do.....	Mid-Michigan Truck Service, Inc., Grand Rapids, Mich. (If granted: Mid-Michigan Truck Service, Inc., would be assigned a new, lower priced supplier of motor gasoline on the basis that it is continuing to experience a serious hardship.)	FXE-3371	Extension of relief granted in Mid-Michigan Truck Service, Inc., 4 FEA par. 87,015 (Oct. 6, 1976).
Do.....	Shell Oil Co., Houston, Tex. (If granted: Shell Oil Co. would be permitted to retroactively compute increased nonproduct cost recoveries under a proportionate recovery method.)	FEE-3545	Price exception (sec. 212.83).

FEDERAL ENERGY ADMINISTRATION

ISSUANCE OF DECISIONS AND ORDERS BY THE OFFICE OF EXCEPTIONS AND APPEALS

Week of November 22 Through November 26, 1976

Notice is hereby given that during the week of November 22 through November 26, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

Atlantic Richfield Co., Los Angeles, Calif.; FEA-0863; Refined Petroleum Products

The Atlantic Richfield Company (Arco) appealed from a Decision and Order issued to it and the C F Petroleum Company (CFP) in which the FEA considered requests by those firms for various types of administrative relief in connection with the proposed acquisition by CFP of a refinery owned by Arco. *Atlantic Richfield Co.*, 3 FEA Par. 83,177 (May 14, 1976). Arco limited the scope of its Appeal to a challenge to the determination reached in the May 14 Decision that the firm should not be permitted to recoup the costs which it incurs under a proposed crude oil conversion agreement with CFP as either increased product or nonproduct costs. In considering Arco's Appeal, the FEA observed that these costs constitute processing fees which are not included in the categories of increased costs specified in 10 CFR 212.83 which a refiner may recover in the form of higher selling prices. The FEA therefore rejected Arco's claim that the FEA Price Regulations permit the firm to recover the crude oil processing fee which it pays to CFP. Contrary to Arco's contention that the Emergency Petroleum Allocation Act of 1973, as amended, requires the FEA to permit the recovery of processing fees, the FEA found that the statute only imposes on the FEA an obligation to permit the recovery of increased product costs. With respect to Arco's claim that the FEA erred in failing to find that Arco would experience a gross inequity if it were not permitted to recover the costs incurred under its processing agreement, the FEA generally noted that processing agreements are common among refiners and that a rulemaking proceeding rather than the exceptions process is the appropriate forum in which to present a request for administrative relief which would apply to alleged inequities being experienced by a broad sector of the petroleum industry. Nevertheless, the FEA determined that the additional information submitted by Arco on Appeal materially distinguishes Arco's situation in this case from the situation of other refiners which are parties to processing agreements. In this regard, the FEA found that the processing agreement is an integral part of CFP's acquisition of the Arco refinery and that, in the absence of the agreement, it is uncertain whether CFP would be able to operate the refinery in an economically efficient manner. Furthermore, on the basis of the material submitted by Arco, the FEA determined that, in the absence of exception relief, the refiners' price rule would substantially impede CFP's acquisition of the refinery. Moreover, in the May 14 Decision the FEA had concluded that since the acquisition by CFP of the Arco refinery would further significant national energy objectives, exception relief was appropriate to facilitate the acquisition. The Arco Appeal was therefore granted in part and exception relief was approved which permits Arco rather than CFP to recover the increased non-product costs, as defined in Section 212.83, which are incurred by CFP in producing the refined products delivered to Arco under the processing agreement.

Exxon Co., U.S.A.; Houston, Texas; FEA-0846, FEA-0870, FEA-0917, FEA-0938, FEA-0953, FEA-0972, FEA-1012; Crude oil

Exxon Company, U.S.A. (Exxon) appealed from the Entitlement Notices which the FEA issued for the months of February through July 1976. In the Appeals, Exxon alleged that the total quantity of old oil which was actually produced in the United States during the period November 1974 through July 1976 exceeded the old oil receipts stated in the Entitlement Notices by approximately 93.2 million barrels. Exxon contended that this apparent disparity distorted the adjusted national old oil supply ratio and thereby increased the number of entitlements which Exxon was required to purchase. In analyzing Exxon's assertion, the FEA noted that, on February 1, 1976, amendments to the crude oil price regulations had been adopted which were intended to result in a weighted average first sale price for all domestic crude oil during February 1976 which would comply with the $7.66 per barrel limitation established for that month by Section 401 of the Energy Policy and Conservation Act (EPCA). In order to monitor the first sale price of domestic crude oil, the FEA had, commencing with the month of February 1976, implemented a new monthly reporting system for "first purchasers" which receive a first sale certification from the producers of domestic crude oil. The FEA observed that as a result of this new reporting system, it now has precise data as to the amount of old oil which was actually produced in the United States in each month and is consequently able to verify the old oil receipts which refiners reported for purposes of the Entitlements Program. In considering the Exxon Appeals, the FEA found that the data which has been collected from the First Purchaser System for the period from February through July 1976 demonstrates conclusively that the amount of old oil produced in the United States during that period was approximately equal to the old oil receipts specified in the Entitlement Notices which the FEA published during the months of April through September 1976. The FEA further determined that any variance between the amount of old oil reported in the different regulatory programs is attributable to the existence of reporting errors, compliance violations and the correction process of the Entitlements Program. The FEA also determined that Exxon has substantially overestimated the amount of old oil which was produced during the period since the inception of the Entitlements Program. In view of the various FEA actions which have already been commenced to collect data reported in the operation of the Entitlements Program and the fact that the data which has been collected tends to verify the accuracy of the figures used for purposes of the Entitlements Program, the FEA concluded that Exxon failed to establish the existence of any prejudicial error of fact that is not already in the process of being corrected. The Appeals which Exxon filed wehre accordingly denied.

Kerr-McGee Corp.; Oklahoma City, Okla.; FEA–0882; Refined Petroleum Products

The Kerr-McGee Corporation (Kerr-McGee) filed an Appeal from a Decision and Order issued to it by the Federal Energy Administration. *Kerr-McGee Corp.*, 3 FEA Par. 83,179 (May 7, 1976). In the prior determination, the FEA granted retroactive exception relief from the provisions of 10 CFR 212.83(c)(2) for the period June 28, 1974 through January 31, 1976 which permitted Kerr-McGee to allocate its increased crude oil costs to refined products in the proportion that the products were refined by the firm rather than on the basis of the volumes sold. The FEA denied the Kerr-McGee exception request in all other respects. The present Appeal, if granted, would reverse the previous determination and result in the approval of exception relief which permits the firm to: (i) calculate increased costs and determine maximum allowable prices as though each of its refining subsidiaries were a separate firm; (ii) allocate increased product costs on the basis of refinery yield for the period August 1973 through June 27, 1974; and (iii) apply prospectively and retroactively its increased costs to the selling prices it charged to its various classes of purchaser without regard to the provisions of Section 212.83(c)(1) and Section 212.83(h) (the equal application rule). With respect to the requirement of consolidated pricing on a firm-wide basis, the FEA found no error in its previous conclusion that Kerr-McGee and its subsidiaries lacked the "completely separate and distinct operations" which are necessary for the approval of separate pricing under FEA precedents. *See Getty Oil Co. (Eastern Operations), Inc.; Skelly Oil Co.*, 2 FEA Par. 83,041 (February 11, 1975).

With respect to the Kerr-McGee request for additional retroactive exception relief from the provisions governing the allocation of increased crude oil costs, the FEA noted that the May 7 Decision attempted to arrive at an appropriate balance of a number of equitable considerations in arriving at the conclusion that exception relief should be approved for the period June 28, 1974 through January 31, 1976. Since Kerr-McGee received significant benefits from the prior Decision, the FEA found no merit to Kerr-McGee's position that the denial of relief for the period prior to June 28, 1974 was arbitrary. The FEA also rejected Kerr-McGee's contention that the prior application to it of the equal application rule results in a penalty to the firm. In this connection, the FEA noted that even though Kerr-McGee may not have recovered revenues in excess of its total cost increases, it could nevertheless have overcharged some of its customers by applying unequal increments of costs in determining its selling prices. The FEA found that the mere fact that overcharges to some customers may have been offset by undercharges to other customers did not provide grounds for granting an exception which would relieve Kerr-McGee of all liability but fail to provide redress to those customers whom it overcharged.

In response to Kerr-McGee's contention that the FEA had departed from its precedents by denying it retroactive exception relief from the equal application rule, the FEA reiterated the requirement that a firm seeking retroactive relief must first make a preliminary showing of serious hardship or gross inequity before the issue of retroactivity is even addressed, and Kerr-McGee had not made such a showing. The FEA also found no merit to Kerr-McGee's argument that precedential value should be accorded to a consent order which partially relieved it of liability for violating the equal application rule, since consent orders issued in compliance proceedings are governed by different criteria from those which the FEA employs in resolving adjudicatory cases in the exceptions process. In addition, the FEA determined that the firm's projection that it might incur an operating loss during its present fiscal year if it were required to make refunds was speculative at the present time and provided no basis for retroactive exception relief inasmuch as the FEA Office of Compliance had not made any finding as to the precise amount of overcharges or the appropriate method of restitution. Since Kerr-McGee had failed to demonstrate that the May 7 Decision was erroneous in fact or law or was arbitrary or capricious, its Appeal was denied.

Luke Bros., Inc.; Bryan County, Okla.; FEA–1004; Propane

Luke Brothers, Inc. (Luke) appealed from a Remedial Order in which the Federal Energy Administration, Region VI, found that subsequent to November 1, 1973 Luke had been selling propane at prices which exceeded the maximum price levels permitted by 6 CFR 150.359 and 10 CFR 212.93. The Remedial Order directed Luke to immediately reduce the prices which it charges for propane to lawful levels. In its Appeal, Luke contended that as a result of unusual and anomalous events which occurred during May 1973, the application to the firm of the provisions of Section 212.93 constitutes a gross inequity. Luke further contended that it would incur a serious hardship if it were required to refund the $28,035.41 in alleged overcharges cited in the Remedial Order. In considering Luke's Appeal, the FEA noted that the arguments presented by Luke had already been considered at length and rejected by the FEA in two prior exception proceedings. The FEA further noted that Luke failed to assert in its Appeal that the factual or legal findings contained in the October 5 Remedial Order are erroneous. Accordingly, Luke's Appeal was denied.

Standard Oil Co. of Calif.; San Francisco, Calif.; FEA–0889, FEA–0911

Atlantic Richfield Co.; Los Angeles, Calif.; FEA–0913, FEA–0915

Texaco, Inc.; New York, N.Y.; Gulf Oil Corp.; Los Angeles, Calif.; Motor Gasoline Allocation

The Standard Oil Company of California (Socal), the Atlantic Richfield Company (Arco), Texaco, Inc. (Texaco), and the Gulf Oil Corporation (Gulf) filed Appeals from the Decision and Order which the Federal Energy Administration issued to the UCO Oil Company (UCO) on June 11, 1976. *UCO Oil Company*, 3 FEA Par. 83,219 (June 11, 1976). Pursuant to the provisions of the June 11 Decision, the Regional Administrator of FEA Region IX directed Socal, Arco, Texaco and Gulf to make available for sale to UCO during the period June through August 1976 a total of 5,659,220 gallons of motor gasoline in place of higher priced supplies which UCO would otherwise have been entitled to receive from two of its base period suppliers, The Oil Shale Corporation (Tosco) and the Macmillan Ring-Free Oil Company, Inc. The firms' Appeals of the June 11 Decision, if granted, would result in an order vacating the June 11 Order. In considering the Appeals in a consolidated proceeding, the FEA determined that, contrary to the appellants' assertion, the FEA specifically adjusted the measure of relief granted UCO in the June 11 Decision to take into account the fact that a significant extent of the financial difficulties which UCO is experiencing is a result of the firm's own discretionary business decision. The FEA also found that the appellants' had shown no basis for their claim that the exception relief which had been approved unreasonably permits UCO to obtain its historic markup on sales of motor gasoline, since the June 11 Decision did not in any way guarantee UCO its historic markup in those sales. With respect to the appellants' contention that the FEA failed to adequately consider UCO's surplus product position in the exception proceeding, the FEA found that UCO's position with respect to surplus motor gasoline had been fully considered in the previous proceeding, and that UCO was able to alleviate only a minor portion of the serious financial hardship it was experiencing through purchases of surplus product. With respect to the appellants' argument that the relief granted in the June 11 Decision frustrated several important national energy policy objectives, the FEA held that the June 11 Decision attempted to arrive at an appropriate balance of a number of the objectives specified in the Emergency Petroleum Allocation Act of 1973, as amended, and that no showing had been made by the appellants that the conclusions reached were erroneous, arbitrary or capricious. Finally, the FEA found the appellants' claim that they were deprived of their due process rights to be without merit. During the course of the initial UCO exception proceeding, the appellants were not readily ascertainable as being aggrieved parties, and they have been afforded a full opportunity to challenge any part of the exception determinations during the course of their present Appeals. Based on these findings, the FEA denied the Appeals.

REQUESTS FOR EXCEPTION

Robert G. Cagwin, d.b.a. Lincolnway Mobil; New Lenox, Ill.; FEE–2835; Motor Gasoline

Lincolnway (Lincolnway) filed an Application for Exception from the provisions of 10 CFR 211.9. The exception request, if granted, would have resulted in the assignment of a new, lower-priced supplier of motor gasoline to replace the firm's base period supplier, the Marcley Oil Company. Although Lincolnway claimed that it was experiencing a serious financial hardship as a result of a disparity between the price it paid Marcley for motor gasoline and the prevailing price paid for that fuel by its competitors, the firm failed to submit any data to substantiate that contention. In view of the fact that Lincolnway refused to submit any financial or operating data in support of its contention, despite repeated requests to do so, the FEA denied the firm's exception request.

ECO Petroleum Corp.; Houston, Tex.; FEE–3075; Motor Gasoline

ECO Petroleum Corporation (ECO) filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would result in the assignment by the FEA of a new, lower-priced supplier of motor gasoline to replace ECO's base period suppliers. In considering ECO's exception request, the FEA determined that the firm's current cost of motor gasoline is less than one cent higher than the average price charged by wholesale purchaser-resellers of motor gasoline which supply ECO's competitors. The FEA further found that ECO has operated profitably in the past despite the fact that its cost of motor gasoline has historically been higher than the price paid by some of its competitors. Therefore, the FEA concluded that ECO's current financial difficulties are not solely attributable to the higher prices which it must pay its base period suppliers for motor gasoline, and its request for exception relief was denied.

Farmland Industries, Inc.; Kansas City, Mo.; FEE–3219 (Gillette), FEE– 3220 (Lamont), FEE–3221 (Mertzon), FEE–3222 (Quitman); Natural Gas Liquid Products

Farmland Industries, Inc. (Farmland) filed four Applications for Exception from the provisions of 10 CFR 211.165 which, if granted, would permit Farmland to increase the selling prices for the natural gas liquid products produced at certain of its natural gas processing plants. In those applications, Farmland requested that the exception relief previously granted to the firm on August 31, 1976, be extended for an additional period of time. *Farmland Industries, Inc.*, 4 FEA Par. 83,074 (August 31, 1976). In considering Farmland's requests, the FEA determined that during the fourth quarter of 1976 Farmland had experienced non-product cost increases at four gas plants which substantially exceeded the $.005 per gallon passthrough permitted under the provisions of Section 212.165. Based on the criteria set forth in *Superior Oil Co.*, 2 FEA Par. 83,271 (August 29, 1975) and other previous Decisions, the FEA granted exception relief for each of these plants.

Kamur Industries, Inc.; Oakland, Calif.; FEE–2956; Motor Gasoline

Kamur Industries, Inc. (Kamur) filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would result in the assignment of a new supplier of motor gasoline to replace the Mobil Oil Corporation (Mobil), Kamur's base period supplier for its East 14th Street Outlet. In its submission, Kamur requested that the Standard Oil Company of California (Standard) be designated as the new supplier. In considering Kamur's exception application, the FEA found that, contrary to Kamur's contention, the FEA regulations do not prevent Kamur from terminating its supply contract with Mobil and entering into a contract to purchase motor gasoline from Standard, provided that Standard has surplus product available and complies with the provisions of 10 CFR 211.10(g). In accordance with the precedents established in prior decisions, Kamur's claim that the provisions of Section 211.9 were adversely affecting the firm was analyzed in terms of the effect on its entire petroleum-related activities. The FEA found that although Kamur's East 14th Street Outlet has operated at a loss, the firm as a whole has operated on a profitable basis. Consequently, Kamur had not demonstrated that it would incur a serious hardship as a result of the FEA regulatory requirement that its existing base period relationship with Mobil be maintained, and its exception application was therefore denied.

Oil Properties Co., Inc.; Augusta, Kans.; FEE–3133; Crude Oil

Oil Properties Company, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would result in the approval of retroactive exception relief which would relieve Oil Properties of the obligation to refund any revenues which the firm may have realized as a result of improperly charging exempt prices for the crude oil which it produced from the Lang Lease during 1974. In its exception application, Oil Properties contended that it had properly classified the Lang Lease as a stripper well lease pursuant to the provisions of 10 CFR 210.32 which were promulgated on January 15, 1974. However, the firm contended that it was unaware of a subsequent amendment to Section 210.32 under which the Lang Lease could not be properly classified as a stripper well lease and that, as a result, it had overcharged its customers. In considering Oil Properties' application, the FEA determined that the firm had failed to meet its affirmative obligation to become cognisant of the correct application of FEA Regulations to its operations. The FEA further determined that Oil Properties had failed to show that it would experience a severe financial hardship if it were required to refund the alleged overcharges. The FEA concluded that the firm had failed to satisfy the standards for approval of retroactive exception relief, and its Application for Exception was denied.

OKC Corp.; Dallas, Tex.; FEE–2777; Crude Oil

OKC Corporation filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve OKC of any obligation to purchase entitlements during the period April through September 1976. In its submission, OKC contended that exception relief is necessary to permit the firm to attain a profit margin and a return on invested capital in its fiscal year ending September 30, 1976, which is at least comparable to the firm's historical operating results. In considering OKC's request, the FEA observed that a sharp reduction in OKC's allocation of United States Geological Survey (USGS) royalty oil, which was the firm's principal source of old crude oil, had caused OKC's entitlement purchase obligations to be concentrated in the three month period from April through June 1976. In order to correct this problem, the FEA had on its own motion issued a Supplemental Order which stayed the firm's purchase obligations during that period and permitted OKC to apply one-third of its total entitlement purchase obligations for the months of April through June 1976 against the entitlement sales revenues which the firm anticipated receiving during the period July through September 1976. *OKC Corp.*, 3 FEA Par. 83,231 (June 14, 1976). In the present proceeding, the FEA determined that this prior relief had mitigated any adverse effects on OKC's sudden change in status under the Entitlements Program. In view of the fact that OKC remained a net seller of entitlements during the six month period from April through September 1976, the FEA concluded that the firm is not being adversely affected by the Entitlements Program and that exception relief which would enhance the benefits which OKC already realizes under the Program is not appropriate. The firm's exception application was therefore denied.

Sid Richardson Carbon and Gasoline Co.; Fort Worth, Tex.; FEE–3331 (Keystone); Natural Gas Liquid Products

Sid Richardson Carbon and Gasoline Company (Richardson) filed an Application for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit Richardson to increase the selling prices for the natural gas liquid products produced at its Keystone natural gas processing plant. In that Application, Richardson requested that the exception relief previously granted to the firm on August 19, 1976, be extended for an additional period of time. *Sid Richardson Carbon and Gasoline Company*, 4 FEA Par. 83,058 (August 19, 1976). In considering Richardson's request, the FEA determined that during the third quarter of 1976 Richardson had experienced a non-product cost increase at the Keystone gas plant which substantially exceeded the $.005 per gallon passthrough permitted under the provisions of Section 212.165. Based on the criteria set forth in *Superior Oil Co.*, 2 FEA Par. 83,271 (August 29, 1975), and previous Decisions, the FEA granted exception relief for the Keystone plant for the period December 1, 1976 through May 31, 1977.

Western Slope Fuel Co.; Denver, Colo.; FEE–3077; Butane

Western Slope Fuel Company (Western Slope) filed an Application for Exception from the provisions of 10 CFR 212.93. The exception request, if granted, would permit Western Slope to increase the prices which it charges for butane products above the maximum levels permitted under the Mandatory Petroleum Price Regulations to reflect non-product cost increases which it experienced. In addition, Western Slope would be permitted to retain any revenues which it may have realized by charging prices for isobutane which exceeded the maximum levels permitted under Section 212.93. In considering the application, the FEA determined that Western Slope had failed to provide any evidence to support its claims that it had actually experienced significant non-product cost increases which adversely affected the profitability of the firm's butane resale operations. Western Slope also failed to provide evidence that it would experience an irreparable injury in the absence of retroactive exception relief. The FEA further determined that the firm's contention that butane resellers in general should be permitted to increase their selling prices by $.005 to reflect non-product cost increases was not an issue which should appropriately be resolved in an exception proceeding. The Application for Exception filed by Western Slope was therefore denied.

Whitco, Inc.; Dallas, Tex.; FEX–0101; Motor Gasoline

Whitco, Inc. filed an application for an extension of the exception relief previously granted the firm from the provisions of 10 CFR 211.25. *Whitco, Inc.*, 3 FEA Par. 87,011 (September 8, 1976) (Supplemental Order). Under the terms of the September 8 Order, the Regional Administrator of FEA Region VI was directed to determine whether Whitco would continue to experience a gross inequity unless it received additional exception relief and then to recommend to the FEA Office of Exceptions and Appeals whether exception relief should be extended. Based on the new data submitted by the firm and the recommendation of the Regional Administrator, the FEA determined that unless Whitco received additional relief it would continue to experience a serious hardship and gross inequity. The exception relief previously granted was therefore extended through March 31, 1977.

REQUESTS FOR STAY

Emond Oil Company; Pawtucket, R.I. FES–1002; No. 2 Fuel Oil

Emond Oil Company (Emond) filed an application for Stay of a Remedial Order which was issued to the firm by FEA Region I on September 27, 1976. In considering Emond's stay request, the FEA determined that the firm would experience inordinate difficulty in complying with the refund provisions within the time period specified in the Remedial Order and that the immediate implementation of the refund requirements could impair the firm's continuing operations. Moreover, since a temporary delay in implementing the refund provisions would not cause hardship to Emond's customers, the FEA determined that a stay of the refund provisions was warranted. The FEA also found that if the firm were required to immediately place the full amount of the required refunds in an escrow account, its operating cash would be depleted to such an extent that its continued activities would

be in serious jeopardy. The FEA therefore stayed the Remedial Order on the condition that Emond place a portion of the disputed funds in escrow immediately and deposit the remaining amount in escrow in the form of monthly payments pending a final determination of its Appeal.

Louisiana Land and Exploration Co.; Washington, D.C.; FES-1062; Refined Products

The Louisiana Land and Exploration Company (LL&E) filed an Application for Stay in which it requested that the provisions of a Decision and Order issued to LL&E by the FEA on October 15, 1976 be stayed pending a determination of an appeal from that Order which LL&E intends to file. In the October 15 Order, exception relief was approved which permitted LL&E to sell the refined products which it produced at its Mobile, Alabama refinery and sold during the month of January 1976, at price levels which exceeded the firm's maximum allowable prices. However, as a condition of the relief, LL&E was required to deduct the amount of revenues which it realized as a result of charging prices in excess of its maximum allowable prices from its bank of unrecouped increased costs during the period November 19 through April 19 . In its Application for Stay, LL&E contended that it is impossible for the firm to fulfill the requirements of the October 15 Order. In considering the Application, the FEA found that LL&E has no bank of current unrecouped costs which could be reduced to satisfy the provisions of the Order. In addition, the FEA determined that since only a small proportion of LL&E's refined products are now covered by FEA Price Regulations, it is unlikely that the firm will accumulate a bank of unrecouped costs within the foreseeable future. The FEA also found that if LL&E were required to comply with the Order by reducing its selling prices for covered products to offset the excess revenues it realized in January 1976, it would be forced to reduce its prices for butane so significantly as to cause price distortions and would possibly be unable to recover the revenues in the event its Appeal is granted. Based on these considerations, the FEA granted LL&E's Application for Stay.

Peters Fuel Corp.; Oakland, Md.; FES-1005; Diesel Fuel; Kerosene; No. 2 Fuel Oil

Peters Fuel Corporation requested a Stay of the requirements of a Remedial Order issued to the firm by FEA Region III on October 6, 1976. The Remedial Order found that during the period November 1, 1973 through August 28, 1975, Peters had charged its customers prices for No. 2 fuel oil, diesel fuel and kerosene which were in excess of the maximum permissible levels specified in 10 CFR 212.93. The Remedial Order directed Peters either to remit to each of its identifiable customers the amount which it had overcharged that customer plus interest, or to credit that amount to the accounts of the customers. Approval of the Stay would relieve Peters of the obligation to comply with the provisions of the Remedial Order pending a final determination of its Appeal from the Order. In considering Peters' request, the FEA determined that if a Stay were not granted and the firm were ultimately successful on the merits of its Appeal, Peters would incur an irreparable injury because of the extensive efforts which would be necessary to recover the refunds which it made pursuant to the Remedial Order. The FEA also determined that the Peters' Appeal had raised substantial issues concerning the propriety of the Remedial Order and that it was therefore appropriate to preserve the status quo ante. Under these circumstances the FEA concluded that a stay of the refund provisions of the Remedial Order was warranted. However, as a condition of the Stay, the FEA required Peters to place the funds in question into an escrow account.

Quincy Oil, Inc.; Quincy, Mass.; FES-1031; No. 6 Fuel Oil

Quincy Oil, Inc. (Quincy) filed an Application for Stay of a Remedial Order which FEA Region I issued to the firm on November 2, 1976. The Remedial Order directed Quincy to refund to the Taunton Municipal Lighting District revenues which the firm had realized by charging prices for No. 6 fuel oil which exceeded the maximum permissible price levels permitted by 6 CFR 150.-359 and 10 CFR 212.93. Approval of a stay would relieve Quincy of the obligation to comply with the provisions of the Remedial Order pending a final determination on an Appeal from the Remedial Order which Quincy had filed. In considering Quincy's request, the FEA applied the principles established in *General Crude Oil Co.*, 3 FEA Par. 85,040 (June 25, 1976), *modified*, 3 FEA Par. 85,040 (July 8, 1976). On the basis of these principles, the FEA concluded that a stay should be granted since Quincy might suffer an irreparable injury if it is required to refund the revenues involved prior to a determination on its Appeal. The FEA further concluded, however, that in accordance with the considerations discussed in *General Crude*, the stay should be conditioned upon Quincy's placing the funds in question into an escrow account. Since the financial data submitted by Quincy demonstrated that it would be inappropriate to require the firm to immediately deposit the entire amount of the refunds in escrow, the FEA directed Quincy to place a portion of the refunds in the escrow account immediately and to deposit the remaining refunds in the escrow account on a monthly basis during the period January through April 1977.

DISMISSALS

The following submission was dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Krum Oil Co., Inc.; Krum, Tex.; FEE-3277

TEMPORARY STAYS

The following Applications for Temporary Stay were denied on the grounds that the applicant had failed to make a compelling showing that temporary stay relief was necessary to prevent an irreparable injury:

Southland Oil Co.; Washington, D.C.; FST-0018

Time Oil Co.; Los Angeles, Calif.; FST-0020

The following Application for Temporary Stay was dismised on the grounds that alternative regulatory procedures existed under which relief might be obtained:

Arizona Fuels Corp.; Washington, D.C.; FST-0019

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B-120, 200 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

DAVID G. WILSON,
Acting General Counsel.

JANUARY 24, 1977.

ISSUANCE OF DECISIONS AND ORDERS BY THE OFFICE OF EXCEPTIONS AND APPEALS

Week of November 29 through December 3, 1976

Notice is hereby given that during the week of November 29 through December 3, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

REQUESTS FOR EXCEPTION

Anadarko Production Co.; Houston, Tex.; FEE-3242; Crude Oil

The Anadarko Production Company filed an Application for Exception in which it requested that the relief previously granted to the firm be extended for an additional period of time. *See Anadarko Production Company*, 3 FEA Par. 83,221 (June 15, 1976). The request, if approved, would permit Anadarko to continue selling a portion of the crude oil which it produces from the Herrin-Burson Harris Sand Unit located in Creek County, Oklahoma for the benefit of the working interest owners at upper tier ceiling prices. In considering Anadarko's exception request, the FEA determined that the Unit is continuing to incur such significant increased operating costs that the working interest owners lack an economic incentive to continue secondary recovery operations at the Unit if the crude oil produced must be sold at the lower tier ceiling price. In view of this determination and on the basis of the operating data which the firm submitted for its most recently completed fiscal period, the FEA concluded that the exception relief previously granted should be extended and that Anadarko should be permitted to sell 55.97 percent of the crude oil produced from the Unit for the benefit of the working interest owners at upper tier ceiling prices.

City of Long Beach, Calif.; Long Beach, Calif.; Fee-3157; Crude Oil

The City of Long Beach, California, filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D which, if granted, would permit Long Beach and all the other working interest owners to sell the crude oil which they produce from Fault Block Unit 2 located in the western half of the Wilmington Field in California at a price which exceeds the lower tier ceiling price. In considering the Long Beach exception request, the FEA determined that: (1) the crude oil production costs incurred with respect to Unit 2 currently exceed, and are reasonably projected to exceed, the revenues which would be obtained from charging the applicable lower tier ceiling prices; (ii) consequently, Long Beach and the other working interest owners no longer have an economic incentive to continue to operate Unit 2 if the crude oil produced must be sold at the lower tier ceiling price; and (iii) it is highly unlikely that the crude oil in the geological formation underlying Unit 2 could be recovered by wells in other areas of the Wilmington Field. The FEA therefore concluded that, in order to prevent the application of the FEA Regulations in this particular situation from frustrating the effectuation of natural energy policy objectives and from reducing the available supply of domestic crude oil, appropriate exception relief should be approved. On the basis of the standard established in similar previous Decisions and the financial data submitted by Long Beach, the FEA granted exception relief which permits Long Beach and the other working interest owners to sell 16.0791 percent of the crude oil produced for their benefit from Unit 2 at upper tier ceiling prices.

Colonial Oil Co.; Jacksonville, Fla.; Fee-3330; Motor Gasoline

On July 3, 1975, the FEA granted exception relief to Colonial Oil Company (Colonial) on the ground that the Application to it of the provisions of 10 CFR, Part 211, which require adherence to the base period supplier/purchaser relationship, resulted in a serious hardship to the firm. *Colonial Oil Co.*, 2 FEA Par. 83,201 (July 3, 1975). In that Order the Regional Administrator for the FEA, Region IV, was directed to assign to Colonial a supplier whose wholesale prices for motor gasoline, No. 2 fuel oil and kerosene were within the range of prices paid for those products in Colonial's marketing area by wholesale marketers. The Order further provided that upon the submission of certain financial and operating data Colonial could request that the exception relief granted to the firm be extended for an additional period of time. On the basis of the data submitted by Colonial in connection with its present Application and the recommendation of the Regional Administrator, the FEA determined that: (1) the serious hardship which Colonial experienced in the past as a result of the provisions of 10 CFR 211.9 would continue to exist unless further exception relief were granted with respect to its motor gasoline supplies; and (ii) in order to alleviate this hardship Colonial should be assigned a lower-cost supplier for the months of December 1976 and January and February 1977 for the entire volume of gasoline which it is entitled to receive from its principal base period supplier.

Continental Oil Co.; Houston, Tex., FEE-3259; Natural Gas Liquid Products

Continental Oil Company filed an Application for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the prices it charges for natural gas liquid products to reflect non-product cost increases which the firm has incurred at its Thomas natural gas processing plant. In considering the application, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products which is permitted under Section 212.165. The FEA found that Continental had made such a showing with respect to its Thomas gas plant and therefore granted appropriate exception relief with respect to that plant for the period December 3, 1976 through June 30, 1977.

Eason Oil Co.; Oklahoma City, Okla.; FEE-3235; (Crescent) Natural Gas Liquids

Eason Oil Company filed an Application for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit Eason to increase the selling price it charges for natural gas liquids to reflect non-product cost increases which the firm has incurred at its Cresent natural gas processing plant. In considering the application, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experience since May 1973 have increased substantially in excess of the $.00375 per gallon passthrough for natural gas liquids which is permitted under Section 212.165. The FEA found that Eason had made such a showing with respect to its Crescent gas plant and therefore granted Eason appropriate exception relief with respect to that plant for the period December 3, 1976 through April 30, 1977.

Getty Oil Co.; Los Angeles, Calif., FEE-3295 (Buena Vista Hills), FEE-3296 (Cocodrie), FEE-3297 (Cymric), FEE-3298 (Dollarhide), FEE-3299 (Elk City), FEE-3300 (Elmwood), FEE-3301 (Fuller), FEE-3302 (Hitchcock), FEE-3303 (Katy), FEE-3304 (Kermit), FEE-3305 (Kettleman Hills), FEE-3306 (Levelland), FEE-3307 (Mooreland), FEE-3308 (New Hope), FEE-3309 (Normanna), FEE-3310 (North Cowden), FEE-3311 (O'Keene), FEE-3312 (Old Ocean), FEE-3313 (Palacios), FEE-3314 (Snyder), FEE-3315 (South Peacan Lake), FEE-3316 (Stevens Caliden), FEE-3317 (Ventura), FEE-3318 (Vermillion), FEE-3319 (West Bernard), FEE-3320 (Yates); Natural Gas Liquids and Products

Getty Oil Company filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the prices it charges to reflect non-product cost increases which the firm has incurred at 26 of its natural gas processing plants. In considering the applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products and the $.00375 per gallon passthrough for natural gas liquids which are permitted under Section 212.165. The FEA found that Getty had made such a showing with respect to 21 of the 26 plants and therefore granted Getty appropriate exception relief with respect to those plants. However, the FEA denied exception relief for the remaining five plants on the grounds that the non-product cost increases experienced at those plants were not materially in excess of the passthrough permitted under Section 212.165.

Harris Enterprises, Inc.; Portland, Oreg.; FEE-2820; Motor Gasoline

Harris Enterprises, Inc. (Harris) filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would have resulted in the issuance of orders assigning Harris new, lower-cost suppliers for a portion of the firm's total base period use of motor gasoline to replace its four principal suppliers: Aminoil U.S., Lion Oil Company, Mercury Oil Company and Powerine Oil Company. In considering the application, the FEA determined that, contrary to Harris' allegations, the average price which Harris pays Aminoil, Powerine, Mercury and Lion is only marginally higher than the average of the prices which the firm's competitors are required to pay their suppliers. The FEA also found that Harris is able to offset the marginally higher price of the gasoline received from the four suppliers by making other purchases of lower-priced gasoline. As a result, the weighted average price which Harris pays for its motor gasoline supplies is not significantly different from the prices which the firm's competitors pay to their suppliers for motor gasoline. The FEA concluded that Harris had therefore failed to establish that the maintenance of its base period supplier/purchaser relationship with Aminoil, Mercury, Lion and Powerine resulted in a serious hardship or gross inequity to Harris and the firm's exception application was denied.

Oklahoma Natural Gas Co.; Tulsa, Okla.; FEE-3201 (Garvin County); Natural Gas Liquid Products

Oklahoma Natural Gas Company (ONGC) filed an Application for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit ONGC to increase the selling prices it charges for natural gas liquid products to reflect non-product cost increases which the firm has incurred at its Garvin County natural gas processing plant. In considering the application, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products which is permitted under Section 212.165. The FEA found that ONGC had made such a showing and therefore granted ONGC appropriate exception relief with respect to that plant for the period December 3, 1976 through May 31, 1977.

Small's LP Gas Co.; Wyatt, Mo.; FEE-3042; Propane

Small's LP Gas Company filed an Application for Exception to the provisions of 10 CFR 211.9 which, if granted, would result in the issuance of orders by the FEA assigning Small's a new, lower-priced supplier of propane to replace its base period supplier, Burmah LP-Gas, Inc. In considering Small's exception application, the FEA found that the prices which Burmah charged Small's for propane were substantially above the prices which Small's competitors paid their suppliers. Although Small's had drastically reduced its markup in order to remain competitive in retail sales, the situation which the firm was encountering was nevertheless so severe as to threaten its continued existence as an independent marketer. The FEA also found that Small's had been unable to alleviate the severe financial difficulties which it was experiencing by purchasing surplus propane at competitive price levels. On the basis of these findings, the FEA concluded that the application of Section 211.9 resulted in a serious hardship to Small's and, pursuant to the formula which had been applied in prior cases, exception relief was approved which permitted Small's to receive its base period use of propane for December 1976 and for the January through March 1977 allocation quarter from a new supplier.

Standard Oil Co. of Ohio; Cleveland, Ohio; FEE-2706; Refined Petroleum Products

The Standard Oil Company of Ohio (Sohio) filed an Application for Exception from the provisions of Subpart E of the Mandatory Petroleum Price Regulations. The request, if approved, would permit Sohio to reduce its May 1973 base cost of crude oil for purposes of calculating the maximum allowable prices which it is permitted to charge for refined products under Section 212.83. Sohio contended that as a result of an expansion project undertaken at its Marcus Hook refinery, the refinery now uses lower priced types of crude oil and yields different proportions of refined products than it did in May 1973. The firm claimed that as a consequence it was unable to maintain the same margin between its crude oil costs and the

selling prices of its products that existed in May 1973. In considering Sohio's Application, the FEA observed that although Section 212.83 generally permits a refiner to maintain the margin that existed between its May 1973 cost of crude oil and its May 15, 1973 selling prices for refined products, certain changes in the type of crude oil processed and the mix of products refined could result in a reduction of a refiner's gross margin. With regard to Sohio, the FEA found that although the firm had experienced a reduction in the gross margin realization of its Marcus Hook refinery, that reduction had not resulted in a serious hardship to Sohio since its overall refining and marketing operations were achieving a near record level of profitability. The FEA also found that Sohio failed to establish that the impact of Section 212.83 on the firm is significantly different from or more burdensome than its impact on other refiners which had experienced similar changes in the types of crude oil they process and the product mix which is produced. The FEA concluded that since the reduction in gross margin at the Marcus Hook refinery was not significantly impeding Sohio's operations or affecting the firm in a unique or disproportionate manner, Sohio had failed to establish that a gross inequity existed. Accordingly, Sohio's Application for Exception was denied.

REQUESTS FOR STAY

Glacier Park Co.; Osage, Wyo.; FES-1050; Crude Oil

Glacier Park Company requested that the FEA relieve it of the requirement that it purchase 30,513 of the 76,568 entitlements which it was obligated to buy in accordance with the Entitlement Notice which the FEA published on November 22, 1976. In considering the Application for Stay, the FEA determined that the Office of Regulatory Programs had incorrectly calculated the firm's September entitlement obligation by including certain entitlement obligations which the firm had previously satisfied. On the basis of the analysis conducted, the FEA concluded that Glacier Park had made a substantial *prima facie* showing that it would succeed on the merits of its Appeal, and its Application for Stay was granted.

T. D. Skelton d/b/a Skelton Oil Co.; Hobbs, N. Mex.; FES-1039; Crude Oil

T. D. Skelton d/b/a Skelton Oil Company (Skelton) requested that a Remedial Order issued to the firm by the FEA on November 5, 1976 be stayed pending a final determination of the firm's Appeal from that Order. In the Remedial Order, the FEA determined that Skelton had sold crude oil at prices which exceeded the maximum permissible levels specified in 10 CFR, Part 212, Subpart D. The Remedial Order therefore directed Skelton to refund the excess revenues it previously realized in twelve equal monthly payments. In considering the contentions raised by Skelton its stay request, the FEA observed that in the Appeal which Skelton filed in connection with its stay application the firm did not dispute the propriety of the refunds required by the Remedial Order but instead requested an additional period of time in which to remit the required refunds. The FEA determined that even if Skelton prevails in its Appeal, any refunds which the firm makes during the period of time in which its Appeal is pending could properly be applied towards Skelton's remaining total refund obligation over the entire period of time which is found to be appropriate in the Appeal proceeding. The FEA also determined that Skelton failed to show that it would experience any serious financial difficulties as a result of compliance with the terms of the Remedial Order prior to a final determination on the Appeal. With respect to Skelton's claim that if it complies with the Order it will lack sufficient funds to meet the repair costs of a major equipment malfunction, the FEA found that Skelton failed to submit any evidence which would indicate that the occurrence of this type of malfunction is likely during the pendency of its Appeal. The Application for Stay was therefore denied.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Husky Oil Co. of Delaware; Washington, D.C.; FEE-3158

Theodore Gore; Wichita, Kans.; FES-0055, FEA-1033

The following submission was dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Frank Katy; Rio Hondo, Tex.; FEA-0987

The following submission was dismissed after the applicant repeatedly failed to respond to requests for additional information:

Diamond Coal & Oil Co.; Chicago, Ill.; FEE-3148

The following submission was dismissed on the grounds that the request is now moot:

Luke Brothers, Inc.; Oklahoma City, Okla. FES-0054

The following submission was dismissed on the grounds that the applicant failed to provide any new material or arguments which would materially affect the basis of a prior final decision or otherwise justify re-opening that proceeding:

Golden Flame Fuel Co., Pittsburgh, Pa.; FMR-0067

The following submissions were dismissed on the grounds that alternative regulatory procedures existed under which relief might be obtained:

Jack Roland's Truck Stop; Marianna, Fla.; FEE-3397

Rock Island Refining Corp.; Washington, D.C.; FSG-0031

TEMPORARY STAYS

The following Application for Temporary Stay was denied on the grounds that the applicant had failed to make a compelling showing that temporary stay relief was necessary to prevent an irreparable injury:

Delta Refining Co.; Washington, D.C.; FST-0022

The following Application for Temporary Stay was granted on the grounds that the applicant had made a compelling showing that temporary stay relief was necessary to prevent an irreparable injury:

Southwestern Refining Co., Inc.; Washington, D.C.; FST-0021

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B-120, 2000 M Street, NW, Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

DAVID G. WILSON,
Acting General Counsel.

JANUARY 24, 1977.

ISSUANCE OF DECISIONS AND ORDERS BY THE OFFICE OF EXCEPTIONS AND APPEALS

Week of December 6 through December 10, 1976

Notice is hereby given that during the week of December 6 through December 10, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

Clark Oil & Refining Corp.; Milwaukee, Wis.; FEA-1030; Freedom of Information

Clark Oil & Refining Corporation filed an Appeal from an Order issued to it by the Information Access Officer denying a Request for Information which the firm had filed under the Freedom of Information Act, 5 U.S.C. 552. Clark had initially requested the FEA to release documents to it which revealed the weighted average cost per barrel of crude oil incurred by two groups of small refiners before and after adjustments for entitlement costs and revenues. The Information Access Officer denied Clark's request on the grounds that the documentary records containing the requested information do not exist. In its Appeal, Clark contended that the data which it sought exists in raw form and that the FEA can compile summaries with relative ease. In analyzing the Clark Appeal submission, the FEA noted that Clark's Appeal is moot with respect to the period February through July 1976 since the documentary material for that period was released to the firm subsequent to the date on which it filed its Appeal. However, the FEA found that the remainder of the requested data has not been compiled by any FEA office. Since the Freedom of Information Act does not place an affirmative duty on Federal agencies to create documents in response to Freedom of Information requests submitted under Section 552(a)(3), the FEA determined that Clark's Appeal should be denied.

Eastern Air Lines, Inc.; Miami, FL.; FEA-0847; Crude Oil

Eastern Air Lines, Inc. appealed from an Interpretation in which the FEA General Counsel determined that the unincorporated operating divisions of Atlantic Richfield Company (Arco) and Mobil Oil Corporation (Mobil) are "affiliated entities" within the meaning of 10 CFR, Part 212, Subpart E. Section 212.83(b) of that subpart provides that, in determining the maximum prices which a refiner may charge for covered products, "transactions between affiliated entities may be used to calculate increased product costs." In considering Eastern's Appeal, the FEA noted that the language used in Section 212.82 to define "transactions between affiliated entities" plainly means that an affiliated entity may be an entity which is part of the same firm. The FEA also stated that the definition makes no distinction as to the form of a firm's organization, nor is the language directed only to incorporated subsidiaries. Although Eastern asserted that no "transaction" can take place unless a transfer for value has occurred, the FEA found that the regulations expressly contemplate that transfers may occur between affiliated entities and that such a transfer is regulated under Section 212.72 as an imputed sale. The FEA further determined that the procedures followed by the General Counsel in issuing the Interpretation did not violate Eastern's due process rights. The FEA concluded in this respect that even though third parties are not entitled as of right to notice and an opportunity to participate in interpretation proceedings, Eastern had ample opportunity to submit its views and the material which Eastern did in fact file was taken into consideration. On the basis of the foregoing considerations, the FEA denied Eastern's Appeal.

Exxon Co., U.S.A.; Houston, Tex.; FEA-1060; Crude Oil

Exxon Company, U.S.A. appealed from the Entitlement Notice which the FEA issued for August 1976. In the Appeal, Exxon alleged that the quantity of old oil which was actually produced in the United States during the period November 1974 through August 1976 exceeded the old oil receipts stated in the FEA Entitlement Notices. Exxon contended that this apparent disparity distorted the adjusted national old oil supply ratio and thereby increased the number of entitlements which Exxon is required to purchase. In considering the Appeal, the FEA noted that Exxon's contention with respect to the inaccuracy of old oil receipts stated in the Entitlement Notices had previously been considered and rejected by the FEA in Decisions denying Exxon's Appeals from prior Entitlements Notices. The FEA held that since Exxon advanced no new arguments in support of its present Appeal, the previous determinations were controlling. Exxon's Appeal was therefore denied.

Frank Dupuis Co.; Pawtucket, R.I., FEA-0997; No. 2 Heating Oil

The Frank Dupuis Company (Dupuis) appealed from a Remedial Order which was issued to the firm by FEA Region I on September 30, 1976. The Remedial Order directed Dupuis to refund revenues obtained from charging illegally high prices for heating oil during the period November 1, 1973 through February 26, 1976. Dupuis contended on appeal that the FEA's use of May 15, 1973 to determine maximum permissible selling prices unconstitutionally deprives the firm of its property without due process of law. In the Decision which it issued with respect to the Dupuis Appeal, the FEA noted that the Congress had directed the FEA to promulgate an appropriate regulatory program which would govern prices which may be charged for refined petroleum products and that the use of May 15, 1973 as a reference date for computation of maximum permissible prices was a reasonable approach in achieving this objective. Since Dupuis had not shown that the use of May 15, 1973 as the reference date was in any way an abuse of agency discretion, the FEA concluded that Dupuis had failed to demonstrate that the Remedial Order was erroneous or arbitrary or capricious. The firm's Appeal was therefore denied.

D. C. Latimer; Jackson, Miss.; FEA-0975; Crude Oil

D. C. Latimer (Latimer) filed an Appeal from an Interpretation which had been issued to him by the Regional Counsel of FEA Region IV. The Interpretation held that crude oil which is produced in one month but sold in another is deemed to be "produced and sold" in the month of sale for purposes of determining the base production control level (BPCL) of a property. In sustaining the Regional Counsel's Interpretation, the FEA held that the phrase "produced and sold" was construed in the same manner by the Cost of Living Council and that this construction provides a rational and explicit manner for determining a property's base production control level. Accordingly, Latimer's Appeal was denied.

Santa Fuel, Inc.; Bridgeport, Conn., FEA-0936; No. 2 Fuel Oil

Santa Fuel, Inc. appealed from a Remedial Order which had been issued to the firm by FEA Region I. The Remedial Order found that during the period November 1, 1973 through June 30, 1974 Santa Fuel sold No. 2 fuel oil to the State of Connecticut at prices which exceeded the price levels permitted under Section 212.93 of the FEA Regulations and Section 150.359 of the Cost of Living Council (CLC) Regulations. Santa Fuel's Appeal, if granted, would relieve the firm of the obligation to refund the amount of the overcharges plus interest. In considering the Appeal, the FEA rejected Santa Fuel's assertion that the CLC Regulations and subsequent FEA Regulations did not apply to the firm's contracts executed prior to the promulgation of the FEA Mandatory Petroleum Price Regulations. The FEA observed that, although Subpart E of the CLC Regulations did exempt from price controls prices specified in contracts which were entered into before 9:00 p.m., June 18, 1973, with respect to delivery occurring after August 12, 1976, the Subpart E exemption was superseded by Subpart L which relates to the pricing of petroleum and petroleum products. The FEA held that since Santa Fuel's contract with the State was subject to price controls under Subpart L those regulations abrogated the price provisions of any private contractual arrangement to the extent that the contract specified prices in excess of those permissible under the FEA regulatory program. Consequently, the price provisions of preexisting contracts may not be relied upon as a defense to remedial action by the FEA Office of Compliance. In addition, the FEA determined that Santa Fuel failed to demonstrate that it would experience a serious hardship if it were required to refund the overcharges to the State. The firm's Appeal was accordingly denied.

REQUESTS FOR EXCEPTION

Blees Oil Co.; Bowman, N. Dak. FEE-3015, No. 2 Heating Oil

Blees Oil Company filed an Application for Exception from the requirement that it file Form P112-M-1 ("No. 2 Heating Oil Supply/Price Monitoring Report"). In considering the Blees Application, the FEA determined that the firm had failed to submit any material whatever in support of its claim that it is unable to supply the requisite information. The FEA also concluded that Blees failed to demonstrate that the inconvenience of supplying the information outweighs the benefits to be derived from the aggregate data which the FEA collects from a sample of firms, including Blees, as to the supply and price of No. 2 heating oil. Blees' request for exception relief was therefore denied.

BP Oil Inc.; Cleveland, Ohio; FEE-2691; Unleaded Gasoline

BP Oil, Inc. filed an Application for Exception from the provisions of 10 CFR 212.82 and 10 CFR 212.112 which, if granted, would have permitted BP, a wholly-owned subsidiary of Standard Oil Company (Sohio) to calculate its selling prices for unleaded gasoline separately from Sohio. In considering BP's Application, the FEA observed that in prior cases it had granted exception relief from the definition of "firm" as specified in 10 CFR 212.82 on the basis of a showing that an entity within a firm maintained completely separate and distinct operations from other parts of the firm. The FEA determined that BP had not established that the degree of independence which characterized the firms involved in prior cases in which exception relief had been approved also existed with respect to Sohio and BP. The FEA further determined that BP had not shown that it was uniquely affected by the FEA Regulations governing the pricing of unleaded gasoline. The FEA held in this respect that Section 212.112 does not produce a gross inequity merely because it may require a firm to sell unleaded gasoline at prices below those charged by similarly situated firms. The FEA also declined to regard BP's inability to price unleaded gasoline at one cent above regular gasoline as a gross inequity. Finally, the FEA determined that the financial material which the firm provided did not demonstrate that the combined BP and Sohio firm is experiencing serious financial difficulties as a result of the PEA regulatory program. Consequently, the FEA denied BP's Application for Exception.

Braden-Deem, Inc.; Wichita, Kans., FEE-3284; Crude Oil

Braden-Deem, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The request, if granted, would extend the exception relief previously granted to the firm on January 15, 1976, March 11, 1976, and June 29, 1976 and permit Braden-Deem to sell crude oil produced from the Cooper Cove Muddy-Dakota Unit (Cooper Unit) at prices which are in excess of the lower tier ceiling price. *See Braden-Deem, Inc.*, 3 FEA Par. 83,072 (January 15, 1976), *Braden-Deem, Inc.*, 3 FEA Par. 80,597 (March 11, 1976); *Braden-Deem, Inc.*, 3 FEA Par. 83,249 (January 29, 1976). In considering Braden-Deem's Application, the FEA found that during the period April 1976 through September 1976 the operating expenses at the Cooper Unit were lower than the revenues which would have been generated by selling the crude oil at the applicable lower tier ceiling price. The FEA therefore concluded that the firm has a clear economic incentive to continue production at the Cooper Unit in the absence of exception relief. On the basis of the facts presented in the case and the principles established in prior precedents, the exception request was denied.

Farmers Petroleum Cooperative, Inc., Lansing, Mich.; FEE-3200; Crude Oil

Farmers Petroleum Cooperative, Inc. filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D which, if granted, would result in a determination that the firm's Headquarters Richfield Unit (the Unit) is a stripper well property and that the crude oil produced from the Unit may be sold at exempt price levels. In considering the Application, the FEA noted that Ruling 1975-12 sets forth the criteria for determining which production facilities are multiple completion wells that qualify as two or more wells for the purpose of calculating the average daily production of a property. Based on the record in this proceeding, the FEA determined that the wells of the Unit failed to qualify as multiple completion wells and that the firm had failed to establish that this determina-

tion constituted a serious hardship or gross inequity. Accordingly, Farmers' Application for Exception was denied.

Jannetty Oil, Inc.; Waterbury, Conn.; FEE-3204; No. 2 Heating Oil

Jannetty Oil, Inc. filed an Application for Exception from the requirement that it file Form P112-M-1 ("No. 2 Heating Oil Supply/Price Monitoring Report"). In considering the exception application, the FEA determined that the firm had failed to submit any material whatever in support of its claim that it is unable to supply the requisite information to complete the form. The FEA also concluded that Jannetty failed to demonstrate that the inconvenience of supplying the information outweighs the benefits to be derived from the aggregate data which the FEA collects from a sample of firms, including Jannetty, as to the supply and price of No. 2 heating oil. Jannetty's request for exception relief was therefore denied.

Schkade Brothers Drilling Co.; Abilene, Tex.; FEE-2722; Crude Oil

Schkade Brothers Drilling Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The exception request, if granted, would have permitted Schkade to receive upper tier ceiling prices for the crude oil it sold from the Latham Lease during the month of February 1976. In its exception application, Schkade indicated that it failed to certify the Lease as a stripper well property in a timely manner as required by Section 212.131 and that as a result it did not receive upper tier prices for the crude oil which it produced from the Lease during February 1976. In considering Schkade's request, the FEA noted that all crude oil producers are subject to the certification requirements set forth in Section 212.131, and Schkade presented no evidence which indicated that the application of these requirements to Schkade is discriminatory or inequitable. The FEA further determined that Schkade failed to submit any material demonstrating that the firm will experience a serious financial hardship as a result of its inability to obtain the additional revenues. Moreover, retroactive exception relief is generally inappropriate unless the firm demonstrates that it would otherwise experience a severe and irreparable injury or that compelling reasons exist for the approval of retroactive relief. The FEA found that since Schkade had failed to satisfy those criteria the firm's Application should be denied.

Sound Refining, Inc.; Tacoma, Wash.; FEE-3154; Crude Oil

Sound Refining, Inc. filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would have relieved the firm of any obligation to purchase entitlements reflecting receipts of deemed old oil subsequent to October 1, 1976. The FEA determined that Sound was a net seller of entitlements during the first three quarters of its current fiscal year ending December 31, 1976 and would continue to be a net seller of entitlements during the final quarter of its fiscal year. Since the record indicated that Sound will obtain significant benefits under the Entitlements Program, the FEA concluded that the firm had failed to substantiate its contention that the Program would result in a serious financial hardship to the company. Sound's exception request was therefore denied.

Stovall Oil Co.; Casper, Wyo.; FEE-2557; Crude Oil

Stovall Oil Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, in which it requested permission to sell all of the crude oil it produces from its NPRR No. 3-3 Lease and its Olsen No. 1 Lease at upper tier ceiling prices. Stovall also requested retroactive relief which would permit it to retain revenues it realized subsequent to April 1975 from charging prices which exceeded maximum allowable levels. In considering Stovall's Application, the FEA determined that a secondary recovery (waterflood) operation which Stovall had initiated at the NPRR Lease has been profitable and would continue to be profitable even in the absence of exception relief. Since Stovall had not satisfied the criteria established in previous FEA Decisions concerning requests of this type, this portion of its Application was denied. However, the projections which Stovall submitted with respect to its operations on the Olsen No. 1 Lease indicated that it would incur a substantial operating loss in the absence of exception relief. The FEA found that Stovall would therefore have no economic incentive to continue production from the well and that a substantial amount of otherwise recoverable crude oil would be lost. The FEA concluded that the application to Stovall's Olsen No. 1 Lease of the lower tier ceiling price rule under these circumstances resulted in a gross inequity to the firm and that exception relief should be granted. Based on an analysis of the specific financial and operating data which Stovall had submitted, the FEA determined that the firm should be permitted to sell 100 percent of the crude oil produced from the Olsen Lease for the benefit of the working interest owner at upper tier ceiling prices for a period of six months. With respect to Stovall's request for retroactive relief, the FEA noted that the FEA Office of Compliance is investigating the full extent of Stovall's past overcharges but no determination has yet been made of the firm's full liability. Consequently, the FEA determined that it would be premature to consider the firm's request for retroactive relief.

Tenneco Oil Co.; Houston, Tex.; FEE-3222; Crude Oil

Tenneco Oil Company filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which would permit it to sell at upper tier prices the crude oil produced from a well which must be drilled to replace an existing well. In considering Tenneco's Application, the FEA determined that: (i) a substantial investment is necessary to drill the replacement well; (ii) this investment would be uneconomic if the crude oil which would be produced from the replacement well were sold at lower tier prices; and (iii) if the replacement well were not drilled, it would become increasingly difficult to recover substantial quantities of crude oil from the reservoir. On the basis of these findings, the FEA concluded that exception relief should be granted to the working interest owner which would provide a sufficient economic incentive to undertake the capital investment required to drill the replacement well. At the same time the relief provided should not permit the firm to receive windfall profits. The FEA concluded that these objectives would be effectuated if Tenneco were permitted to sell at upper tier prices the first 4,671 barrels of crude oil which it produces for its benefit in each of the first two years and the first 4,670 barrels of crude oil produced for its benefit in each of the third through tenth years of the project.

Union Oil Company of Calif.; Los Angeles, Calif.; FEE-2378; Crude Oil

Union Oil Company of California filed an Application for Exception from the provisions of 10 CFR 211.67(d)(2) which would permit the firm to earn entitlement benefits on its total volume of crude oil runs to stills without making an adjustment for the high sulfur, residual fuel oil which Union exports to Petroleos Mexicanos (PEMEX) in Baja California, Mexico, as required under Section 211.67(d)(2). In considering Union's exception application, the FEA observed that the provisions of Section 211.67(d)(2) which require Union to reduce the volume of its crude oil runs to stills used to calculate its entitlement benefits by the number of barrels of residual fuel oil that the firm exported to PEMEX substantially increase the effective cost of the Santa Maria Valley crude oil which Union processes. The FEA found that the effective cost of lower tier, Santa Maria Valley crude oil is higher than the effective cost of a low sulfur, lighter gravity imported crude oil and Union therefore has an economic incentive to discontinue purchasing the former type of crude oil. With respect to the Santa Maria Valley crude oil which Union itself produces, the FEA found that Union had presented no data to show that it lacked an economic incentive as a result of Section 211.67(d)(2) to continue production of crude oil from its own properties. *See Sun Oil Co.*, 4 FEA Par. 83,111 (September 24, 1976). The FEA also determined that independent producers of upper tier crude oil in the Santa Maria Valley could decrease their maximum permissible upper tier ceiling prices by an amount sufficient to provide Union with an economic incentive to continue purchasing the crude oil. Thus, in order to prevent the provisions of Section 211.67(d)(2) from inordinately impeding domestic crude oil production and providing an incentive to import crude oil, the FEA granted Union Oil Company sufficient entitlement benefits to provide it with an economic incentive to continue to purchase lower tier crude oil from independent producers in the Santa Maria Valley.

Francis Uthe; Dumont, Iowa; FEE-3076; Motor Gasoline

Francis Uthe d/b/a Uthe's Corner (Uthe) filed an Application for Exception from the provisions of 10 CFR, Part 211, which, if granted, would have resulted in the issuance of FEA orders assigning Uthe a new supplier of motor gasoline to replace the Ritchie Oil Company (Ritchie) and directing the new supplier to furnish Uthe with its base period use of motor gasoline. Uthe also requested that the Nielson Oil Company (Nielson), the firm from which Uthe is currently purchasing surplus motor gasoline, be assigned as Uthe's base period supplier. In considering the Application for Exception, the FEA determined that Uthe is able to purchase its entire supply of motor gasoline from Nielson and is doing so at favorable price levels. As a result, Uthe is not experiencing a serious hardship. In addition, the FEA found that Uthe had provided no data which indicated that its supplier/purchaser relationship with Ritchie had adversely affected the firm's operations in a significant manner, or that its operations would be significantly affected if the two firms resumed the relationship. The FEA therefore determined that Uthe did not meet the criteria set forth in *Eagle Point School District No. 9*, 2 FEA Par. 80,622 (July 1, 1975); or *George P. Rios*, 4 FEA Par. 83,008 (July 15, 1976), under which exception relief will be granted on gross inequity grounds. The Application for Exception was therefore denied.

Western Oil Lands, Inc.; Reno, Nev.; FEE-3051; Crude Oil

Western Oil Lands, Inc. requested an extension of the exception relief which was granted to the firm on May 18, 1976. *Western Oil Lands, Inc.*, 3 FEA Par. 80,633 (May 18, 1976). In that Decision, the FEA determined that it was not economically feasible for a refiner to purchase the crude oil which Western produces from the Pennington Federal Nos. 2, 4, and 5 Wells in Nye County, Nevada, because of the high transportation costs and entitlement obligations associated with the purchase. In order to remove this economic disincentive, exception relief was approved which permitted refiners to purchase crude oil produced by Western without incurring any entitlement costs. Western also requested in its present submission that the exception relief granted in the May 18 Decision be expanded to permit the firm to classify all of the crude oil which it produces as new oil for the purposes of the Entitlements Program. Western contended that this relief was necessary because it has been unable to locate a purchaser for the crude oil which it produces since the issuance of the May 18 Decision and has been unable to produce crude oil from its three Wells. In considering Western's exception request, the FEA determined that the firm made a strong showing that in the absence of continued exception relief it would be unable to market its crude oil. Consequently, the exception relief granted in the May 18 Decision was extended for an additional four months. However, with respect to Western's remaining request, the FEA found that difficulties which the firm encountered in marketing its crude oil subsequent to the issuance of the May 18 Decision were not directly attributable to the Entitlements Program since the relief approved in that Decision exempted the crude oil produced by Western from the Program. In view of Western's failure to show that the difficulties which it is experiencing result from the application of the FEA regulatory program, the FEA concluded that the modified form of relief sought by the firm was not warranted. Accordingly, Western's request that it be permitted to classify all of its crude oil production as new oil for purposes of the Entitlements Program was denied.

REQUESTS FOR STAY

Arizona Fuels Corp.; Salt Lake City, Utah; FES-0928; Crude Oil

Arizona Fuels Corporation requested that the application to it of 10 CFR 211.67 (the Old Oil Entitlements Program) be stayed pending a determination on an Appeal of a Decision and Order which was issued to Arizona Fuels on July 16, 1976. *Arizona Fuels Corp.*, 4 FEA Par. 83,002 (July 16, 1976). The stay request, if granted, would have relieved the firm of the obligation during November and December 1976 to purchase entitlements at a value in excess of $23,728 per month. In rejecting Arizona Fuels' contention that a Decision issued to it by the FEA on August 27, 1976 increased the firm's entitlement purchase obligation beyond the limit specified in the July 16 Decision, the FEA noted that the August 27 Decision did not itself create an additional entitlement burden but only made additional quantities of crude oil available for purchase by Arizona Fuels. The FEA therefore concluded that Arizona Fuel's claim that the FEA is responsible for the firm's additional entitlement obligation is without merit. The FEA also determined that Arizona Fuels had failed to demonstrate that it would incur an irreparable injury in the absence of stay relief and that Arizona Fuels had also failed to make the type of substantial *prima facie* showing of likelihood of success on the merits of its Appeal contemplated in *Pasco, Inc.*, 2 FEA Par. 85,012 (March 3, 1975). Therefore, the firm's request for a stay was denied.

Beacon Oil Co.; Hanford, Calif.; FES-1051; Crude Oil

Beacon Oil Company filed an Application for Stay of a Decision and Order which was issued to the firm on November 5, 1976 requiring it to purchase entitlements equal in value to $2,071,628 over a 12 month period in order to refund the excessive exception relief that the firm had received during 1975. *Beacon Oil Co., et al.*, 4 FEA Par. 87,024 (November 5, 1976). In considering the request for stay, the FEA observed that, if Beacon were to prevail on the merits of its Appeal from the November 5 Order, the FEA could adjust Beacon's entitlement obligation in subsequent months to compensate the firm for the additional entitlements it is required to purchase. Since Beacon had submitted no financial data which would indicate that its entitlement obligations would cause the firm to experience cash flow problems or otherwise seriously impair its continued operation, the FEA found no basis for concluding that Beacon would incur the type of irreparable injury which would warrant stay relief. In addition, the FEA found that the issues which Beacon raised had been considered in detail in the November 5 Order and that Beacon had failed to make a *prima facie* showing that the analysis contained in that Order was erroneous. The Application for Stay was therefore denied.

Beren Corp.; Kansas City, Mo.; FES-1059; Crude Oil

Beren Corporation requested that a Remedial Order which was issued to the firm by the Deputy Regional Administrator of FEA Region VIII on November 15, 1976 be stayed pending a final determination of the firm's Appeal. On the basis of a finding that Beren had erroneously classified certain leases as stripper well properties and had been improperly selling the crude oil produced from the leases at exempt price levels, the Remedial Order directed Beren to make refunds for these overcharges within 90 days. In considering the firm's Application, the FEA determined that the firm had satisfied the criteria for the approval of a stay set forth in *General Crude Oil Co.*, 3 FEA Par. 85,040 (June 25, 1976), by showing that it would raise substantial issues in its Appeal and that it would be unduly burdensome for the firm to recover the refunds which the Remedial Order required it to make if it succeeded on the merits of its Appeal. Consequently, in accordance with previous Decisions, stay relief was approved on the condition that the contested funds be placed in an escrow account.

With respect to the provisions of the Remedial Order which require Beren to calculate the average daily production from the affected leases in order to ascertain whether any of the properties qualified as stripper well properties during 1975 or 1976, the FEA determined that no showing had been made by the firm that these calculations would result in an irreparable injury. The FEA therefore declined to stay this requirement of the Remedial Order.

Delta Refining Co.; Memphis, Tenn.; FES-1052; Crude Oil

Delta Refining Company filed an Application for Stay of a Decision and Order which was issued to the firm on November 5, 1976 requiring it to purchase entitlements equal in value to $4,559,585 during the period November 1976 through October 1977 in order to offset the excessive exception relief which the FEA found Delta had received during 1975. *Beacon Oil Co., et al.*, 4 FEA Par. 87,024 (November 5, 1976). In considering Delta's contention that the November 5 Order would compel it to make certain irreversible business decisions, the FEA determined that Delta had failed to show that serious adverse consequences would result from postponing those decisions until a determination is reached on its Appeal or that it would be adversely affected to a material degree if it were to make the type of decisions referred to in its submission. The FEA therefore concluded that Delta's claim of irreparable injury appeared to be largely speculative. The FEA further determined that Delta's Application did not demonstrate a substantial likelihood that the firm would prevail on the merits of its Appeal. Although Delta stated its intention to challenge both an adjustment which was made in the firm's 1975 financial results in order to present those results on the same basis as its historical financial results and the standard which has been utilized for nearly two years in assessing the impact of the Entitlements Program on small refiners, the FEA found that the firm's unsupported challenge of agency action which is not on its face unreasonable does not constitute a *prima facie* showing that the firm will prevail on appeal. The FEA also found that Delta's contentions regarding the propriety and validity of the November 5 Decision were not so persuasive as to lead to the conclusion that stay relief was warranted. With respect to Delta's contention that the FEA cannot require the refund specified in the November 5 Order unless a finding is made that the firm's original projections on which the exception relief was based were materially inaccurate, the FEA observed that since Delta had not presented detailed arguments or cited authority in support of its position the FEA could not agree that the firm's position would be upheld on appeal. The FEA pointed out, moreover, that the fact that Delta's financial and operating results showed that the firm received a far greater measure of exception relief than it was entitled to have received certainly indicated that the firm's original projections were materially inaccurate. In rejecting Delta's further contention that it reasonably relied to its detriment on the expectation that it would be allowed to retain the benefits of the exception relief which it received during 1975, the FEA referred to several occasions on which it had stated that it intended to review the exception relief granted to small refiners during 1975 and to make appropriate adjustments.

Finally, the FEA held that equity considerations strongly led to the conclusion that stay relief should be denied. The FEA pointed out that Delta obtained nearly $4.6 million in excessive benefits from other refiners on the basis of inaccurate financial projections which it furnished and, after an extensive proceeding in which Delta participated, the determination was reached that the firm was not entitled to retain those funds. In view of these considerations, the FEA concluded that it would be grossly unfair to permit Delta to continue to use funds which it erroneously obtained from other refiners. The Delta Application for Stay was accordingly denied.

Pester Refining Co.; El Dorado, Kans.; FES 3376; Crude Oil, Refined Petroleum Products

Pester Refining Company requested that the application to it of certain provisions of the FEA Mandatory Petroleum Allocation and Price Regulations be stayed pending a determination of the firm's Application for Exception. According to the Pester submission, the firm proposed to acquire a refinery and related marketing assets located in El Dorado, Kansas owned by American Petrofina, Inc. (Fina). In considering the stay request,

the FEA concluded that the *status quo ante* would not be preserved by the approval of a stay since Pester would thereby effectively be permitted to consummate the transfer of the El Dorado refinery immediately. The FEA noted that this result would not be appropriate since the transfer of the refinery would become effective at a time when potentially aggrieved parties have not had an opportunity to comment on the stay request and the matter has not been fully considered by the FEA. Finally, the FEA found that Pester's claims that it will incur an irreparable injury in the event that a stay is denied were entirely speculative and unsubstantiated. The FEA noted that any injury that Pester might incur if the stay request were denied would be a direct consequence of Pester's and Fina's own business decision to attempt to consummate the proposed refinery acquisition on November 30, 1976 only 14 days after the parties filed their Application for Exception with the FEA. The FEA also noted that, even if Pester had substantiated its claim that it would incur significant hardships if stay relief were denied, the FEA must consider the effect which the approval of stay relief would have on other persons, and in this case the business activities of all the firms which purchase or sell products from or to the refinery could be severely disrupted by the approval of stay relief. Accordingly, the Application for Stay was denied.

Rock Island Refining Corp.; Indianapolis, Ind.; FES–0057; Crude Oil

Rock Island Refining Corporation requested a stay of a Decision and Order which was issued to the firm on November 5, 1975 directing it to purchase additional entitlements at a value of $2,642,065 during the period November 1976 through October 1977 in order to offset the excessive benefits which the FEA found the firm had obtained from exception relief provided to it during 1975. *Beacon Oil Co., et al.*, 4 FEA Par. 87,024 (November 5, 1976). In considering Rock Island's stay request, the FEA rejected the firm's contention that it would experience an irreparable injury simply because it would have to record the entire entitlement obligation specified in the November 5 Order as a charge against its current earnings in its financial statements for the fiscal year ending November 30, 1976. The FEA emphasized that Rock Island had not indicated how such an accounting entry would in any way affect its refinery operations. The FEA also noted that complex issues of statutory construction were raised by Rock Island's contention that the provisions of the November 5 Order which impose entitlement purchase obligations contravene Section 403 of the Energy Policy and Conservation Act of 1975. Since Rock Island did not cite any legislative history which might support its interpretation, the FEA found that the firm had failed to demonstrate a substantial likelihood that it would prevail on appeal. The FEA further concluded that Rock Island had failed to make a substantial *prima facie* showing that it would ultimately succeed on the merits of its contention that the November 5 Order contains various errors of fact with respect to the firm's historical profit margin, historical return on invested capital, and other financial indicia. Rock Island's request for a stay was therefore denied.

The Standard Oil Co.; Cleveland, Ohio; FES 0056; Crude Oil

On August 12, 1976, the Deputy Assistant Administrator for Compliance of the FEA issued a Remedial Order to the Getty Oil Company. A portion of that Remedial Order concerns crude oil transactions which occurred between Getty and The Standard Oil Company (Sohio) during the period October 1973 through October 1974. According to the Remedial Order, Getty sold 25,000 barrels per day (BPD) of predominantly old domestic crude oil to Sohio, and, in return, Sohio sold 25,000 BPD of foreign crude oil to Getty. The Remedial Order found that Sohio treated the crude oil transactions as an exchange and accordingly accounted for the domestic crude oil which it received from Getty at the price at which Sohio acquired the foreign crude oil while Getty had improperly treated the crude oil transactions as independent purchases and sales. Since Getty should have treated the transaction as an exchange the Remedial Order concluded that the transfer of old oil by Getty in return for higher-valued foreign crude oil from Sohio constituted the carging of a price by Getty which exceeded the ceiling price determined under 6 CFR 150.34 and 10 CFR 212.73. Getty was directed to refund to Sohio the difference between the value of the foreign crude oil which it received from Sohio and the applicable ceiling price for the domestic crude oil transferred to Sohio. In order to ensure that the refunds which Getty is required to make to Sohio are passed through to Sohio's purchasers of covered products, the Deputy Assistant Administrator for Compliance also issued an Ancillary Order to Sohio pursuant to the provisions of 10 CFR 205.195(b). In the present proceeding, Sohio requested that the Ancillary Order be stayed until 60 days after the final resolution of the Appeal which Getty has filed from the Remedial Order.

In Paragraph (1) of the Ancillary Order Sohio is directed to report detailed monthly cost and volume data regarding the Getty-Sohio crude oil transactions. Paragraph (3) of the Ancillary Order directs Sohio to submit a statement of alternative remedy which could be implemented in order to pass through the refunds. In considering the request for stay, the FEA noted that Sohio did not allege that it would incur an irreparable injury if the stay were denied. The FEA also found that Sohio failed to substantiate its assertion that the denial of a stay would result in a more immediate serious hardship or gross inequity to Sohio than the beneficiaries of the refunds. With respect to the information requested in Paragraph (1) of the Ancillary Order, the FEA concluded that Sohio made no showing that the effort which it would expend in compiling and reporting that information would be so inordinately burdensome in view of the public interest involved as to warrant a stay of the provision. The FEA also rejected Sohio's contention that a stay is warranted because Sohio would prevail on the merits of its Appeal. In view of the probable magnitude of the Getty violation, the complexities of the FEA refiner price regulations and the fact that certain products have recently been exempted from the FEA regulatory program, the FEA concluded that there is a substantial public interest which must be protected by designing a proper remedy in this case. The FEA therefore concluded that Sohio failed to satisfy the criteria for a stay which are set forth in Section 205.125(b). However, it was determined that good cause exists for the approval of an extension of time in which Sohio must comply with the provisions of the Ancillary Order.

Time Oil Co., Los Angeles, Calif., FES–0441; Crude Oil

Time Oil Company filed an Application for Stay of the provisions of 10 CFR 212.83. The Application for Stay, if granted, would permit the firm to treat the increased crude oil costs which the firm anticipates that it will incur in purchasing approximately 270,000 barrels of Indonesian crude oil during the first week of December 1976 as if the cost increases had been incurred during the month of November 1976. In considering Time's request, the FEA found that Time had failed to provide any financial material which would indicate that the inability of the firm to pass through the increased crude oil costs until the month of January 1977 would lead to a serious financial hardship. The FEA further held that, in view of the uncertainty of Time's future supply situation, it would be inappropriate to conclude that Time would be permanently deprived of the revenues involved in the proceeding if its request for stay were denied. With respect to Time's further contention that it would be unable to recover certain costs which it incurred in November in the absence of a stay, the FEA found that Time itself had stated that it incurred the costs with the sole intention of reflecting the costs in its December selling price and the firm submitted no material which indicates that it was unable to adhere to that procedure. The Application for Stay was therefore denied.

Zenith Oil Co., Inc.; Minneapolis, Minn.; FES–1047; No. 2 Heating Oil

Zenith Oil Company, Inc. requested that a Remedial Order which was issued to the firm on October 28, 1976 be stayed pending a final determination of the firm's Appeal from that Order. In the Remedial Order, the FEA determined that Zenith had sold No. 2 heating oil at price levels which were in excess of the maximum levels permitted by the provisions of 6 CFR 150.359 and 10 CFR 212.93 and consequently Zenith was directed to issue credit memoranda to the customers which it overcharged. In addition, Zenith was directed to maintain its current selling price for No. 2 heating oil to each of these customers until the refund to that customer has been completed. In considering the contentions raised by Zenith that the Remedial Order should be stayed, the FEA applied the principles previously established in *General Crude Oil Co.*, 3 FEA Par. 85,040 (June 25, 1976), *modified*, 3 FEA Par. 85,040 (July 8, 1976), and concluded that a stay should be granted with regard to the refund provisions of the Remedial Order. The FEA also stayed the provisions of the Remedial Order which specify the maximum permissible price which Zenith may charge while making refunds, since those provisions are intended to operate in concert with the refund provisions of the Remedial Order. The FEA further concluded, however, that in accordance with the considerations discussed in *General Crude*, the stay should be conditioned upon Zenith's establishing an escrow account into which it places the amount of the refunds contemplated by the Remedial Order.

REQUEST FOR MODIFICATION OR RESCISSION

Atlantic Richfield Co., Los Angeles, Calif., FMR–0059; Lessors

Atlantic Richfield Company (Arco) filed an Application for Modification or Rescission of a Remedial Order issued to it by the Director of Compliance and Enforcement of the FEA Region IX on March 6, 1975. In the Remedial Order, FEA Region IX found that Arco had charged rentals in excess of the base rent permitted under the provisions of 6 CFR 150.360(b) and 10 CFR 212.102 for Riley's Arco Truckstop, Inc. located in Yuma, Arizona (Riley). In its Application for Modification or Rescission, Arco requested that the FEA rescind that portion of the Remedial Order which required it to refund the difference between the rent actually collected and the base rent for the period subsequent to April 30, 1974. In support of its request, Arco contended that the Remedial Order had been rendered void by a decision of the Temporary Emergency Court of Appeals in *Shell Oil Co. v. Federal Energy Admin.*, 527 F.2d 1243 (Em. App. 1975). In evaluating Arco's contention, the FEA reexamined the TECA and District Court opinions in the *Shell* case and the record in those proceedings. On the basis of that analysis the FEA concluded that in view of the equities involved and the FEA's statutory responsibility to protect the economic viability of small independent marketers, the *Shell* determination should be regarded as having only prospective effect. Arco's Application for Modification or Rescission was accordingly denied.

REQUEST FOR SPECIAL REDRESS

Intercoastal Marine Supplies; Washington, D.C., FEA–0895, FSG–0026, FSG–0027, FSG–0028; Diesel Fuel

Intercoastal Marine Supplies appealed from an Assignment Order which the FEA Regional Office in Dallas, Texas (FEA Region VI) issued to Gulf Outlet and Marine Supply, Inc. (Gulf Outlet) on June 4, 1976. In the June 4 Order, FEA Region VI directed the Murphy Oil Corporation (Murphy) to supply Gulf Outlet with 8,633,730 gallons of diesel fuel per year. Intercoastal also submitted to the FEA Office of Private Grievances and Redress three Petitions for Special Redress which concern the assignment of diesel fuel to Gulf Outlet by FEA Region VI. In its Appeal, Intercoastal alleged that the June 4 Order was defective. However, since middle distillates (including diesel fuel) were specifically exempted from the provisions of the FEA Regulations effective July 1, 1976, all FEA Orders which were issued prior to that date affecting those products, including the June 4 Order, ceased to have any prospective effect. Accordingly, the FEA determined that the prospective remedies which Intercoastal requested in its Appeal were not applicable under existing regulations and dismissed the Appeal as moot. Intercoastal also submitted three Petitions for Special Redress in which it requested that the FEA investigate various alleged irregularities which occurred during the processing of Gulf Outlet's Application for Assignment. In considering Intercoastal's Petitions, the FEA found that Intercoastal had failed to provide any information to demonstrate that its base period supplier, the Gulf Oil Company, had illegally forced Intercoastal to accept changes in its credit terms during 1973, 1974 and 1975, or that Gulf had illegally withdrawn as a supplier of diesel fuel from the New Orleans, Louisiana market area during that period. The FEA also determined that Intercoastal failed to support its claims that Murphy had discriminated against Intercoastal by refusing to supply it with diesel fuel during the same time period in which it supplied Gulf Outlet and that Murphy and Gulf Outlet consciously cooperated to obtain an unjustifiably large allocation of diesel fuel. Intercoastal's Petitions for Special Redress were therefore denied.

DISMISSALS

The following submission was dismissed following a statement by the applicant that the relief requested was no longer needed:

K.L.M. Oil Co.; Long Beach, Calif.; FEE–3236

The following submissions were dismissed for failure to correct deficiencies in the firm's filing as required by the FEA Procedural Regulations:

Carroll Production; Drumright, Okla.; FEE–3340

Garland Petroleum Co., Inc.; Cumberland, Md.; FEA–1028

The following submission was dismissed on the grounds that the submission did not meet the criteria applicable to an Application for Modification or Rescission:

Standard Oil Co. of Ohio; Cleveland, Ohio; FMR–0062

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays. They are also available in Energy Management: Federal Energy Guidelines, a commercially published loose leaf reporter system.

DAVID G. WILSON,
Acting General Counsel.

JANUARY 24, 1977.

[FR Doc.77-2755 Filed 1-25-77;9:43 am]

ISSUANCE OF DECISIONS AND ORDERS BY THE OFFICE OF EXCEPTIONS AND APPEALS

Week of December 13 through December 17, 1976

Notice is hereby given that during the week of December 13 through December 17, 1976, the Decisions and Orders summarized below were issued with respect to Appeals and Applications for Exception or other relief filed with the Office of Exceptions and Appeals of the Federal Energy Administration. The following summary also contains a list of submissions which were dismissed by the Office of Exceptions and Appeals and the basis for the dismissal.

APPEALS

Bryant Oil Co.; Huntington Park, Calif.; FEA–1045; Motor Gasoline

Bryant Oil Company (Bryant) appealed from a Decision and Order which the FEA had issued to it denying an Application for Exception which it had previously submitted from the provisions of 10 CFR 211.9. *Bryant Oil Co.*, 4 FEA Par. 83,156 (October 22, 1976). In its Appeal, Bryant requested the FEA to reverse the previous determination and assign to the firm a new, lower-priced supplier of motor gasoline which would replace one of its base period suppliers, Lion Oil Company (Lion). Bryant did not challenge the validity of the earlier determination, but rather contended that economic conditions in its market area had changed so substantially since the issuance of the October 22 Decision as to warrant a reversal of that Decision. In support of this contention, Bryant presented recent data purporting to show that the price which Lion charged Bryant for motor gasoline exceeded the prices which Bryant's competitors paid to their motor gasoline suppliers. The FEA found, however, that the material submitted by Bryant did not reveal a significant disparity between the price charged by Lion for motor gasoline and the average price charged for motor gasoline in Bryant's market area. The FEA therefore concluded that the firm had failed to substantiate its claim that economic conditions in its market area and altered materially since the issuance of the October 22 Decision. Accordingly, the Appeal was denied.

C. D. Hollingsworth and Associates; Natchez, Miss.; FEA–0954; Crude Oil

C. D. Hollingsworth and Associates (Hollingsworth) filed an Appeal from a Decision and Order issued to it by the FEA denying a previous Application for Exception which the firm had filed from the provisions of 10 CFR, Part 212, Subpart D. *C. D. Hollingsworth & Associates*, 4 FEA Par. 83,073 (August 31, 1976). The Hollingsworth Appeal, if granted, would have permitted the firm to sell at upper tier ceiling prices additional quantities of crude oil produced from certain wells in the South Providence Field, Franklin County, Mississippi. In its Appeal, Hollingsworth asserted that the amendments to Subpart D which were promulgated on February 1, 1976 have the effect of reducing the volume of crude oil which it is entitled to sell at upper tier ceiling prices. Hollingsworth argued that this result deprives it of the full benefits of the investment which the firm has made in its properties and also contravenes the underlying purpose of the February 1 amendments. In considering the firm's arguments, the FEA noted that, since Hollingsworth had achieved an initial return of 55 percent on its investment, it did not appear to be subject to a disproportionate burden or gross inequity as a result of the regulatory amendments to Subpart D. With respect to the firm's other argument, the FEA determined that Hollingsworth had failed to furnish any evidence that its inability to sell as much crude oil at upper tier ceiling prices as it would have sold in the absence of the February 1 regulatory amendments was in any way contrary to the intent of those amendments. The Hollingsworth Appeal was therefore denied.

Consumers Fuel Co., Inc.; Martinsburg, W. Va.; FEA–0946; Middle Distillates and Residual Fuel Oil

Consumers Fuel Company, Inc. (Consumers) appealed from a Remedial Order which had been issued to it by FEA Region III on June 23, 1976. The Remedial Order found that from November 6, 1973 through July 16, 1974 Consumers sold kerosene and Nos. 2, 4, 5, and 6 fuel oils at prices which were in excess of the maximum levels specified in 6 CFR 150.359(c)(1) and 10 CFR 212.93(a). The Remedial Order directed Consumers to refund the previous overcharges and refrain from charging prices in excess of lawful levels. In considering Consumers' Appeal, the FEA determined that Consumers' reliance on regulations which were no longer effective did not constitute a justifiable basis for its noncompliance with applicable regulatory obligations. The FEA also found that Consumers had failed to show that any price reductions subsequent to July 16, 1974 were made for the sole purpose of making restitution of previous overcharges or that the prices subsequently charged differed from those which the firm would otherwise have charged under the existing market conditions. The FEA therefore determined that Consumers should not be permitted to offset alleged undercharges against the overcharges specified in the Remedial Order. However, the FEA also determined that the Remedial Order failed to make essential findings of fact in support of its conclusion as required by *Koch Industries, Inc.*, 2 FEA Par. 80,560 (May 2, 1975). The FEA found that in the absence of the essential findings, including Consumers' May 15, 1973 weighted average price for each product to each class of purchaser and weighted average unit cost for each product in inventory, Consumers is unable to comply with the Remedial Order, to vertify its accuracy, or to submit a meaningful Appeal. The FEA therefore rescinded the Remedial Order and remanded the matter to the Regional Administrator of FEA Region

III for further proceedings in accordance with the principles set forth in the Decision.

Eddy Refining Co.; Houston, Tex.; FEA–0004; Diesel Fuel

The Eddy Refining Company (Eddy) filed an Appeal from a Decision and Order which the FEA issued to it denying a previous request for exception relief which Eddy had filed from the provisions of 10 CFR, Part 212, Subpart E. *Eddy Refining Co.*, 4 FEA Par. 83,005 (July 16, 1976). The exception request, if granted, would have permitted Eddy to adjust its May 15, 1973 selling price and thereby both retroactively and prospectively increase its maximum allowable price for No. 2–D diesel fuel. The approval of retroactive exception relief would reduce or eliminate Eddy's liability to refund alleged overcharges in its sales of diesel fuel from September 1973 through June 1975. In the determination which it issued in connection with the Eddy exception proceeding the FEA found that recent amendments to the Mandatory Petroleum Price Regulations exempting middle distillates such as No. 2–D diesel fuel from price controls rendered Eddy's request for prospective relief moot. With respect to retroactive relief, the FEA determined that Eddy had failed to explain its lengthy delay in requesting exception relief, that the month of May 1973 reasonably reflected its operations prior to the promulgation of FEA Price Regulations, and that Eddy's profitable financial and operating posture in recent years contradicted the firm's claim that it would experience a severe and irreparable injury if it were required to make refunds to its diesel fuel customers. Accordingly, Eddy's Application for Exception was denied. In its Appeal, Eddy reiterated the same arguments which it advanced in the prior proceeding and contended that it relied in good faith on erroneous advice from the IRS regarding the correct procedure to pre-notify the FEA of nonproduct costs to be passed through in the form of higher selling prices. The FEA noted that in a number of previous Decisions it had concluded that actions by a firm based upon informal oral discussions with FEA personnel do not constitute appropriate justification for the approval of retroactive exception relief. The Appeal was therefore denied.

McMahan Oil Co.; Easton, Md.; FEA–0901; No. 2–D Diesel Fuel Oil

McMahan Oil Company (McMahan) appealed from a Remedial Order which had been issued to it by FEA Region III on July 6, 1976. In the Remedial Order, the FEA found that McMahan had sold No. 2–D diesel fuel to the Easton Utilities Commission (Easton) from August 19, 1973 through April 4, 1974 at prices which exceeded the maximum permissible selling prices specified in 10 CFR 212.93(a). The Remedial Order directed McMahan to refund the previous overcharges plus interest. In considering the Appeal, the FEA found that contrary to McMahan's assertions both the freight charges which McMahan incurred to transport No. 2–D diesel fuel into its inventory and the firm's rental expenses for storage facilities were properly accounted for in the Remedial Order. The FEA also found that McMahan had failed to establish that its alleged price reductions after the period of the overcharges were made for the sole purpose of making restitution. Accordingly, the FEA concluded that it was reasonable to have determined that McMahan should not be permitted to offset those alleged price reductions against the overcharges. The Appeal filed by McMahan was therefore denied.

Mobil Oil Corp.; Los Angeles, Calif.; FEA–1011; Motor Gasoline

Mobil Oil Corporation appealed from a Decision and Order which the FEA issued to UCO Oil Company on June 11, 1976. *UCO Oil Co.*, 3 FEA Par. 83,219 (June 11, 1976). Pursuant to the June 11 Decision and Order, Mobil was assigned by FEA Region IX to supply motor gasoline to UCO. Since Mobil failed to file its Appeal in a timely manner or demonstrate good cause for the impermissible delay, the Appeal was summarily denied in accordance with the provisions of 10 CFR 205.106(b)(1)(i).

Union Oil Co.; Los Angeles, Calif.; FEA–0947; Crude Oil

Union Oil Company of California appealed from a Decision and Order issued to it by the FEA denying the firm's request for exception relief from the provisions of 10 CFR Part 212, Subpart D. *Union Oil Co. of California*, 4 FEA Par. 83,039 (August 6, 1976). The Appeal, if granted, would have reversed the previous Order and permitted Union to determine the price of crude oil which it produces from the Trading Bay Unit in Alaska without regard to the current cumulative deficiency which has accrued on that property as a result of an explosion on the Unit's platform. In denying the Appeal, the FEA found that the August 6 Decision to deny exception relief must be sustained as correct since Union failed to challenge the Decision's underlying factual determination that the firm had sufficient economic incentive to restore production from the Trading Bay Unit even in the absence of exception relief. The FEA further noted that Union's Appeal was based to a large extent on the contention that the cumulative deficiency rule in 10 CFR 212.72 should be modified through exception relief so that it would not apply in any *force majeure* situation. The FEA observed that such a contention involved a broad issue as to the most desirable means of attaining national policy objectives and would be more appropriately resolved through rulemaking procedures.

Varibus Corp.; Beaumont, Tex.; FEA 1003; No. 2 Fuel Oil

Varibus Corporation appealed from a Remedial Order which was issued to the firm by Region VI of the FEA on September 20, 1976. The Order found that Varibus had sold fuel oil on two occasions during October 1973 to unaffiliated companies at prices which exceeded the maximum permissible selling prices and directed Varibus to refund with interest the revenues generated by the overcharges. In its Appeal Varibus contended that since its sales to unaffiliated entities were made under unusual circumstances, it is not consistently engaged in the business of reselling covered products and, thus, is not a reseller for purposes of the FEA Price Regulations. The FEA noted, however, that it had concluded in two recent Decisions that the applicability of the FEA Price Regulations to a particular sales transaction depends upon the nature of that transaction rather than the nature of the business customarily engaged in by the firm. With respect to the two sales which were the subject of the September 20 Remedial Order, the FEA determined that, since Varibus had purchased a covered product and resold it without substantially changing its form to two customers who were not ultimate consumers, the FEA was correct in concluding that Varibus was included within the regulatory definition of the term "reseller" and Varibus was therefore subject to the FEA Price Regulations governing sales by resellers. Accordingly, the Appeal was denied.

REQUESTS FOR EXCEPTION

Beacon Oil Co.; Hanford, Calif.; FEE–3279; Crude Oil

Beacon Oil Company (Beacon) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Beacon on June 8, 1976. That exception determination relieved the firm of its obligation to purchase entitlements during the period June through November 1976. *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976). In support of its exception request, Beacon submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Beacon's exception request the FEA determined that in the absence of exception relief, Beacon would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Beacon would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Based on the material which Beacon submitted a further determination was made that exception relief also appeared appropriate for the initial months of the firm's 1977 fiscal year beginning on January 1, 1977. Under the criteria set forth in *Beacon Oil Co., supra*, and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Beacon's Application for Exception relieving the firm of sufficient entitlement purchase obligations during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977, to permit Beacon to achieve its historical profit margin during the current fiscal year. However, the FEA noted in the Decision which it issued that the relief approved to Beacon would be reevaluated if the firm requested an extension of exception relief bevond May 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Beacon will be required to purchase or sell additional entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial result which it achieves.

B. F. Goodrich Chemical Co.; Cleveland Ohio; FEE–3197; Propane

On September 28, 1976, B. F. Goodrich Chemical Company (Goodrich) filed an Application for Exception from the provisions of 10 CFR 211.10(g)(8)(i) which, if granted, would result in the issuance of an Order increasing the firm's base period use of propane. In support of its Application, Goodrich contended that Section 4(c) of the Emergency Petroleum Allocation Act (EPAA) required the FEA to provide for the allocation of propane to an industrial user if no substitute product was available. Goodrich further argued that its current requirements for propane exceeded its base period use of the product and therefore it is incurring a gross inequity because it is the only manufacturer of ethylene in the United States which relies completely on propane as a feedstock. In considering Goodrich's exception request, the FEA noted that the FEA allocation regulations were designed to achieve an appropriate balance of all nine policy objectives contained in subsection 4(b)(1) of the EPAA. The FEA therefore determined that Section 4(c) of the EPAA did not require the FEA to grant exception relief to Goodrich. Moreover, the FEA determined that Goodrich was not experiencing the type of gross disparity between its current requirements and its base period use of propane which would warrant exception relief. The FEA consequently concluded that Goodrich had not demonstrated that the provisions of Section 211.10(g)(8)(i) significantly and uniquely impeded its operations and accordingly denied the firm's exception request.

Champlin Petroleum Co.; Fort Worth, Tex.; FEE–3458 (Block 31), FEE–3459 (Dorer-Hennessey), FEE–3460 (East Texas), FEE–3461 (Gulf Plains), FEE–3462 (Mayfield), FEE–3464 (Peoria), FEE–3465 (South Fullerton), FEE–3466 (Witcher); Natural Gas Liquid Products

Champlin Petroleum Company (Champlin) filed Applications for Exception from the provisions of 10 CFR 212.165, which, if granted, would permit the firm to increase the prices it charges to reflect non-product cost increases which the firm had incurred at eight of its natural gas processing plants. In considering the Applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products which is permitted under Section 212.165. The FEA found that Champlin had made such a showing with respect to its eight gas plants and therefore granted Champlin appropriate exception relief with respect to those plants.

Cities Service Co.; Tulsa, Oklahoma; FEE–3332 (Mooreland), FEE–3333 (Panola), FEE–3334 (Red Fish Bay), FEE–3335 (Star Lacey), FEE–3336 (West World); Natural Gas Liquid Products

Cities Service Company (Cities) filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the prices it charges to reflect non-product cost increases which the firm has incurred at five of its natural gas processing plants. In considering the Applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products which is permitted under Section 212.165. The FEA found that Cities had made such a showing with respect to its five gas plants and therefore granted Cities appropriate exception relief with respect to those plants for the period December 14, 1976 through June 30, 1977.

Clark Oil and Refining Corp.; Washington, D.C.; FEE–3214; Crude Oil

Clark Oil and Refining Corporation (Clark) filed an Application for Exception from the provisions of 10 CFR 212.83 which, if granted, would permit Clark to reduce its cost of crude oil in December 1976 to reflect a portion of the revenues which it received from the sale of entitlements in the months of October and November 1976. In its exception application, Clark asserted that its planned conversion of a catalytic cracking unit and the inspection and repair of the crude unit at the firm's Blue Island, Illinois, refinery reduced runs at the refinery and have necessitated adjustments to the firm's scheduled purchases and receipts of crude oil during the last three months of 1976. The firm anticipated that, as a result of these adjustments, it would receive revenues from the sale of entitlements during November 1976 which would be disproportionately large as compared to the aggregate cost of the crude oil which the firm intended to purchase during that month. In considering the firm's exception application, the FEA concluded that that the financial data which Clark submitted failed to support the firm's contention that it would incur a serious financial hardship unless exception relief were approved. The FEA found that, even without exception relief, the firm would achieve significant profits in 1976 and 1977 and that Clark's own projections indicated that in the absence of exception relief the firm would recover all of the increased costs which it incurred during the last three months of 1976. The Clark request for exception was accordingly denied.

Cleary Petroleum Corp., Payne County, Okla.; FEE–2783; Crude Oil

Cleary Petroleum Corporation (Cleary) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which, if granted, would permit the firm to charge upper tier ceiling prices for the crude oil which it produces from the March Skinner Sand Unit located in Payne County, Oklahoma (the March Unit). Cleary requested that the exception relief be made retroactive to November 1973. In its exception application, Cleary contended that it does not have the economic incentive to make certain capital expenditures which are necessary for the continuation of a waterflood project on the March Unit if it must continue to charge the lower tier ceiling prices specified in the FEA Regulations. In considering Cleary's exception request, the FEA found that Cleary's financial and production projections for the property demonstrated that the proposed investment would generate a substantial net cash flow during its first year of operation, even in the absence of exception relief. Based upon the precedents established by the FEA in several recent cases involving similar circumstances, the FEA determined that the firm's projected return on its investment should provide it with an adequate economic incentive to make the proposed investment in the waterflood project. Accordingly, the firm's request for both prospective and retroactive exception relief was denied.

Community Feed Stores; Eastlongmeadow, Mass.; FEE–3274; No. 2 Heating Oil

Community Feed Stores (Community) filed an Application for Exception from the requirement that it file a "No. 2 Heating Oil Supply/Price Monitoring Report," FEA Form P112–M–1. In considering the exception application, the FEA determined that the firm had failed to submit any financial material in support of its claim that it would incur significant expenses in providing the information required by the form. The FEA also concluded that Community failed to demonstrate that the inconvenience of supplying the information outweighs the benefits to be derived from the use of the aggregate data which the FEA collects from a sample of firms, including Community, as to the supply and price of No. 2 heating oil. Community's request for exception relief was therefore denied.

Confederated Tribes of the Warm Springs Reservation of Oregon; Warm Springs, Oreg.; FEE–3111; Motor Gasoline

The Confederated Tribes of the Warm Springs Reservation of Oregon (Confederated Tribes) filed an Application for Exception from the provisions of 10 CFR 211.9 which, if granted, would have resulted in the assignment of a new supplier to replace their base period supplier, Pugh Oil Company (Pugh). In their submission the Confederated Tribes claimed that Pugh had failed to maintain adequate supplies of motor gasoline at the Reservation Garage and had thereby jeopardized vital public services performed by the Confederated Tribes. In considering the exception application, the FEA determined that the Confederated Tribes had demonstrated that motor gasoline shortages had occurred from time to time on the Reservation but that there was no evidence that those shortages had in any way disrupted the performance of essential public services. Furthermore, the FEA found that the record in the proceeding indicated that the Confederated Tribes had contributed to the occasional gasoline shortages at the Reservation by failing to take reasonable measures to alleviate their supply difficulties. The FEA therefore determined that the Confederated Tribes had failed to demonstrate that the maintenance of their base period supplier purchaser relationship with Pugh resulted in a serious hardship or gross inequity. Accordingly, the exception request was denied.

Diamond Shamrock Corp.; Amarillo, Tex.; FEE–2761; Refined Petroleum Products

Diamond Shamrock Corporation (Shamrock) filed an Application for Exception from the provisions of 10 CFR 211.83. The exception request, if granted, would permit Shamrock to allocate its increased crude oil costs to motor gasoline in proportion to the volume of motor gasoline sold by the firm for purposes of calculating its maximum allowable prices. In considering Shamrock's exception request, the FEA found that Shamrock had, during February of 1976, elected to allocate its increased crude oil costs to its products in proportion to its refinery yield using the "R" allocator rather than its product sales using the "V" allocator. As a result, the effect of the regulatory amendments which accompanied the deregulation of No. 2 fuel oils (41 FR 24516; June 16, 1976) had been to preclude the firm from reallocating crude oil cost increases to motor gasoline. Since the FEA's intent in permitting refiners to elect the "R" allocator was to ensure a more representative volumetric allocation of the increased cost of crude oil in the maximum allowable price of each product, the FEA determined that under the particular circumstances presented in this case Shamrock's use of the "R" allocator resulted in a gross inequity to the firm. The FEA therefore granted Shamrock exception relief which permitted it to allocate those increased costs which were attributable to No. 2 fuel oils exchanged for motor gasoline to its sale of motor gasoline. The FEA also determined that under the facts presented, compelling reasons existed for granting exception relief to Shamrock on a retroactive basis. The FEA therefore granted the firm exception relief retroactive to May 1, 1976.

Dillman Oil Recovery, Inc.; Robinson, Ill.; FEE–2763; Crude Oil

Dillman Oil Recovery, Inc. (Dillman) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would relieve the firm of any obligation to purchase entitlements beginning with the month of December 1976. In support of its exception request, Dillman submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for the

fiscal year. In considering Dillman's exception request the FEA determined that in the absence of exception relief the firm would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Dillman would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historic levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Dillman exception relief reducing by $20,980 per month the firm's obligation to purchase entitlements during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Dillman would be reevaluated if the firm requested an extension of exception relief beyond May 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Dillman will be required to purchase or sell additional entitlements if it received excessive or insufficient benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Edgington Oil Co. (New Edgington); Long Beach, Calif.; FEE–3281; Crude Oil

Edgington Oil Company (New Edgington) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Edgington Oil Company on June 21, 1976. That exception determination relieved the firm of its obligation to purchase entitlements during the period April through September 1976. *Edgington Oil Co.*, 3 FEA Par. 83,240 (June 21, 1976). On September 21, 1976, the FEA issued a Decision and Order in response to a joint Application for Exception filed by Edgington Oil Company and New Edgington which the firms had submitted following the transfer by Edgington of its entire refinery operation and total assets to New Edgington. In making a determination with respect to that matter, the FEA transferred to New Edgington the exception relief which had previously been granted to Edgington in the June 21 Order. *Edgington Oil Co.-New Edgington Corp.*, 4 FEA Par. 83,102 (September 21, 1976). In support of its current exception request, New Edgington submitted projected financial statements for its current fiscal year ending June 30, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering New Edgington's request, the FEA determined that in the absence of exception relief, New Edgington would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which New Edgington would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976), and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1976), an extension of exception relief was warranted. Accordingly, the FEA granted New Edgington an exception relieving the firm of its obligation to purchase entitlements valued at $1,240,238 per month during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to New Edgington would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and would be further evaluated at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and New Edgington will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Husky Oil Co. of Delaware; Denver, Colo.; FEE–3231; Crude Oil

Husky Oil Company of Delaware (Husky) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Husky on June 21, 1976 which relieved the firm of its obligation to purchase entitlements during the period April through September 1976. *Husky Oil Co. of Delaware*, 3 FEA Par. 83,225 (June 21, 1976). In support of its current exception request, Husky submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Husky's request, the FEA determined that in the absence of exception relief, Husky would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Husky would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), an extension of exception relief was warranted. Accordingly, the FEA granted Husky an exception relieving the firm of any obligation to purchase entitlements during the six-month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Husky would be reevaluated if the firm requested an extension of exception relief beyond May 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Husky will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Kathol Petroleum, Inc.; Kearney, Mo., FEE–3079, FEE–3373, Natural Gas Liquids and Products

Kathol Petroleum, Inc. (Kathol) filed two Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit Kathol to increase the selling prices of natural gas liquids and natural gas liquid products which it charges to reflect non-product cost increases at its Indian Wells natural gas processing plant retroactive to August 1, 1973 and on a prospective basis. In considering Kathol's request for prospective exception relief, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor, which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.00375 per gallon passthrough for natural gas liquids and the $.005 per gallon passthrough for natural gas liquid products which are permitted under Section 212.165. The FEA found that Kathol had made such a showing and therefore granted Kathol exception relief with respect to its Indian Wells gas plant for the period December 16, 1976 through February 28, 1977. With respect to Kathol's request that relief be granted retroactive to August 1, 1973, the FEA determined that the firm made no showing that it would be irreparably injured in the absence of retroactive relief nor did it present any other compelling reasons for the approval of such relief. The FEA therefore denied the firm's request for retroactive exception relief.

Kern County Refinery, Inc.; Bakersfield Calif.; FEE–3287; Crude Oil

Kern County Refinery, Inc. (Kern) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Kern on June 18, 1976 which relieved the firm of its obligation to purchase entitlements during the period April through September 1976. *Kern County Refinery, Inc.*, 3 FEA Par 83,226 (June 18, 1976). In support of its current exception request, Kern submitted projected financial statements for its current fiscal year ending March 31, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Kern's request, the FEA determined that in the absence of exception relief, Kern would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Kern would incur during its current fiscal year, the firm's profit margin would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8 1976); and *Delta Refining Co.*, 2 FEA Par 83,275 (September 11, 1975), an extension of exception relief was warranted. Accordingly, the FEA granted Kern's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Kern would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Kern will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves

Little America Refining Co.; Washington, D.C.; FEE–2709; Crude Oil, Refined Products

Little America Refining Company (Larco) filed a submission with the Federal Energy Administration requesting administrative relief in connection with the acquisition by its subsidiary, the Sinclair Refining Company (Sinclair), of the refining and marketing assets previously owned by Pasco, Inc. Larco

acquired and began to operate those assets on July 1, 1976. In considering the Larco submission, the FEA determined that, in order to avoid the possibility that supply disruptions and dislocations would occur, Pasco's obligations to supply allocated products to its base period purchasers should be terminated and Larco should be assigned to supply those customers on a permanent basis. The FEA also determined that, since the Larco firm acquired Pasco's entire refining and marketing business, under the provisions of 10 CFR 211.11(d) Pasco's rights to receive allocations of petroleum products from its base period suppliers are deemed to have been transferred to the Larco firm concurrent with Larco's acquisition of the Pasco assets. Consequently, the FEA held that Larco does not require exception relief in order to receive as of right allocated products from Pasco's former base period suppliers. In considering Larco's request that it be permitted to utilize the banks of unrecovered increased costs accrued by Pasco in calculating its maximum allowable prices, the FEA observed that the Pasco assets had been the subject of a federal antitrust decree and Larco had indicated that in approving Pasco's sale of the assets the Federal Trade Commission had expressed concern that the refining and marketing activities previously conducted by Pasco continue to operate in a vigorous, competitive manner and that the customers who relied on Pasco not be adversely affected by the sale. The FEA found that, if Larco were afforded the opportunity to utilize the unrecovered increased costs incurred in the operation of the Pasco assets, its ability to ensure that the former Pasco operations function as a strong, competitive force would certainly be enhanced. The FEA also found that the position of Pasco's former customers would not be significantly affected by the approval of Larco's request since if Pasco had not sold the assets it would have been permitted to pass through its banked costs subject to the limitations specified in the FEA Regulations. In addition, by permitting Larco to utilize Pasco's banked costs the possibility that price fluctuations and distortions would occur would be mitigated. However, the FEA further determined that if Larco were permitted to base its maximum allowable prices to former Pasco customers only on its lower May 1973 costs and were also permitted to pass through the Pasco banked costs, Larco would receive an unwarranted benefit at the expense of the former Pasco customers. In order to prevent this result from occurring, the FEA conditioned the approval of Larco's request to utilize Pasco's banked costs on the requirement that Larco average its May 1973 costs with Pasco's May 1973 costs in computing its maximum allowable prices. Additionally, the FEA indicated that Larco would not be permitted to reflect the cost of any inventories which it purchased from Pasco in its selling prices in order to avoid a situation in which Larco would be able to recover the same costs twice.

Louis M. Mai Operations; Russell, Kans.; FEE–2839; Crude Oil

Louis M. Mai Operations (Mai) filed an Application for Exception from the provisions of 6 CFR, Part 150 and 10 CFR, Part 212, Subpart D. Mai's request, if granted, would permit the firm to sell the crude oil produced from its Sutton lease in November 1973 and the crude oil produced from its Johnson lease during the period November 1973 through December 1974 without regard to the ceiling price rule set forth in 6 CFR 150.354 and 10 CFR 212.73. In its exception application, Mai contended that the two wells on the Johnson lease should be considered as multiple completion wells. Mai indicated that if these wells were classified as multiple completion wells for the purpose of calculating the property's average daily production, the Johnson lease would qualify as a stripper well property for the month of November 1973 and calendar year 1974. In considering this contention, the FEA noted that before the issue of the propriety of retroactive exception relief may be addressed, a firm must make a showing that it is entitled to prospective exception relief. The FEA found that Mai had failed to make this initial showing since the firm had not demonstrated that the application of the multiple completion well ruling, Ruling 1975–12, significantly or uniquely impeded Mai's operations or frustrated the objectives which the Ruling was designed to achieve. Mai also contended that it should not be held liable for any overcharges which it obtained from the Johnson and Sutton leases during November 1973 since the firm had made a good faith effort to comply with the regulations governing the pricing of crude oil during a period of time in which some confusion existed as to the manner in which the regulatory requirements would be applied. The FEA found that this contention was unpersuasive inasmuch as Mai had failed to establish that the regulations governing crude oil pricing were unclear as a matter of law, and Mai's failure to familiarize itself with those regulatory requirements did not provide a basis for the approval of exception relief. Finally, Mai requested that the FEA determine that the Johnson lease was in fact a stripper well property in November 1973. The FEA noted that Mai appeared to be challenging a Notice of Probable Violation (NOPV) which had been issued to the firm and that the exceptions process is not the proper means by which a firm responds to a NOPV or secures a determination that it is applying the regulatory requirements in a proper manner. The Application for Exception which Mai filed was accordingly denied.

Lunday-Thagard Oil Co.; South Gate, Calif.; FEE–3229; Crude Oil

Lunday-Thagard Oil Company (Lunday-Thagard) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Lunday-Thagard on June 18, 1976 which relieved the firm of its obligation to purchase entitlements during the period April through September 1976. *Lunday-Thagard Oil Co.*, 3 FEA Par. 83,228 (June 18, 1976). In support of its current exception request, Lunday-Thagard submitted projected financial statements for its current fiscal year ending June 30, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Lunday-Thagard's request, the FEA determined that in the absence of exception relief, Lunday-Thagard would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Lunday-Thagard would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), an extension of exception relief was warranted. Accordingly, the FEA granted Lunday-Thagard's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Lunday-Thagard would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Lunday-Thagard will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

M. J. Mitchell; Dallas, Tex.; FEE–3289; Crude Oil

M. J. Mitchell (Mitchell) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The request, if granted, would result in an extension of the exception relief previously granted to Mitchell and would permit the firm to continue to sell a portion of the crude oil produced from the Mitchell State Minnelusa Sand Unit in Campbell County, Wyoming (the Unit) for the benefit of the working interest owners at upper tier ceiling prices. *M. J. Mitchell*, 3 FEA Par. 83,270 (July 8, 1976). In considering Mitchell's exception request, the FEA determined that the Unit was continuing to experience increased operating costs and the working interest owners lacked an economic incentive to maintain the production and sale of the crude oil from the Unit at lower tier ceiling prices. In view of this determination and on the basis of the operating data which the firm had submitted, the FEA concluded that the exception relief previously granted should be extended to permit Mitchell to sell 21.612 percent of the crude oil produced from the Mitchell State Minnelusa Sand Unit for the benefit of the working interest owners at upper tier ceiling prices for an additional six month period.

Mobil Oil Corp.; New York, N.Y.; FEE–3418 (Cameron), FEE–3419 (Cotton Valley), FEE–3420 (Cow Island-Riverside), FEE–3421 (Delhi), FEE–3422 (Elwood), FEE–3423 (Gulf-Knox), FEE–3424 (Heyser), FEE–3425 (Postle Hough), FEE–3426 (R. M. Stephens), FEE–3427 (Seeligson), FEE–3428 (South Sarepta), FEE–3429 (Union-Adena); Natural Gas Liquids and Products

Mobil Oil Corporation (Mobil) filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the prices it charges to reflect non-product cost increases which the firm has incurred at 12 of its natural gas processing plants. In considering the applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products and the $.00375 per gallon passthrough for natural gas liquids which are permitted under Section 212.165. The FEA found that Mobil had made such a showing with respect to its 12 gas plants and therefore granted Mobil appropriate exception relief with respect to those plants for the period December 13, 1976 through June 30, 1977.

Mohawk Petroleum Corp., Inc.; Los Angeles, Calif.; FEE–3321; Crude Oil

Mohawk Petroleum Corporation, Inc. (Mohawk) filed an Application for Exception from the provisions of 10 CFR 211.67 (the

Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA granted the firm on June 17, 1976. *Mohawk Petroleum Corp.*, 3 FEA Par. 83,230 (June 17, 1976). In support of its exception request, Mohawk submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Mohawk's exception request the FEA determined that in the absence of exception relief the firm would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Mohawk would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Based on the material which Mohawk submitted a further determination was made that exception relief also appeared appropriate for the initial months of the firm's 1977 fiscal year beginning on January 1, 1977. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Mohawk's Application for Exception relieving the firm of sufficient entitlement purchase obligations during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977, to permit Mohawk to achieve its historical profit margin during the current fiscal year. However, the FEA noted in the Decision which it issued that the relief approved would be reevaluated if the firm requested an extension of exception relief beyond May 1977, and also at the conclusion of the firm's current fiscal year. The decision further noted that an adjustment will be made and Mohawk will be required to purchase or sell additional entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Navajo Refining Co.: Artesia, N. Mex.; FEE–3400; Crude Oil

Navajo Refining Company (Navajo) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA granted the firm on November 17, 1976. *Navajo Refining Co.*, 4 FEA Par. ---- (November 17, 1976). In support of its exception request, Navajo submitted projected financial statements for its current fiscal year ending July 31, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Navajo's exception request the FEA determined that in the absence of exception relief the firm would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Navajo would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historic levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Navajo's Application for Exception relieving the firm of any obligation to purchase entitlements during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Navajo would be reevaluated if the firm requested an extension of exception relief beyond May 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Navajo will be required to purchase or sell additional entitlements if it received excessive or insufficient benefits because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

W. H. Porter; Midwest City, Okla.; FEE–3087; Crude Oil

W. H. Porter (Porter) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D. The request, if granted, would permit Porter to sell the crude oil produced from the Kirchmeir Lease (the Lease) at upper tier ceiling prices. In considering the exception application, the FEA found that Porter's production costs exceeded the price which he is permitted to charge for the crude oil which he sells and, consequently, Porter does not have an economic incentive to continue to operate the Lease. The FEA further found that if Porter abandoned the Lease, a substantial quantity of domestic crude oil would not be recovered. On the basis of the criteria which it applied in previous similar cases, the FEA concluded that exception relief should be granted and that Porter should be permitted to sell 42.52 percent of the crude oil produced from the Lease at upper tier ceiling prices for the benefit of the working interest owners.

Rock Island Refining Corp.; Indianapolis, Ind.; FEE–3209; Crude oil

Rock Island Refining Corporation (Rock Island) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlemnets Program) in which it requested that the exception relief granted to the firm on September 10, 1976 be extended for an additional period of time. *Rock Island Ref. Corp.*, 4 FEA Par. 83,086 (September 10, 1976). In the September 10 Decision, the FEA determined that exception relief should be granted to Rock Island which reduced its obligation to purchase entitlements during the six month period ending November 30, 1976. That determination was based on an application of the standards for exception relief from the Entitlements Program set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), to projections which Rock Island submitted as to its financial results and position under the Entitlements Program during the period April 1 through November 30, 1976. In the present proceeding Rock Island submitted actual financial data to replace certain of the projections which it previously furnished. In applying the standards for exception relief set forth in *Beacon* and *Delta* to Rock Island's current financial data the FEA determined that even without further exception relief from the Entitlements Program, the profit margin which Rock Island will attain during the April 1 through November 30, 1976 period will exceed the profit margin which the firm realized during its historical fiscal years 1968 through 1974. Since the *Beacon* and *Delta* standards were designed to prevent the purchase requirements of the Entitlments Program from impairing a small refiner's ability to operate at levels that are below its historical performance and the financial data which Rock Island submitted indicated that this situation would not occur in the absence of further exception relief, the firm's application for additional exception relief from the Entitlements Program was denied.

San Joaquin Refining Co.; Oildale, Calif.; FEE–3240; Crude oil

San Joaquin Refining Company (San Joaquin) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to San Joaquin on June 18, 1976 which relieved the firm of its obligation to purchase entitlements during the period April through September 1976. *San Joaquin Refining Co.*, 3 FEA Par. 83,234 (June 18, 1976). In support of its current exception request, San Joaquin submitted projected financial statements for its current fiscal year ending April 30, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering San Joaquin's request, the FEA determined that in the absence of exception relief, San Joaquin would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which San Joaquin would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), an extension of exception relief was warranted. Accordingly, the FEA granted San Joaquin an exception relieving the firm of its obligation to purchase entitlements valued at $400,272 per month during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to San Joaquin would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and San Joaquin will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

E. W. Sauder; Emporia, Kans.; FEE–3090; Crude oil

E. W. Sauder (Sauder) filed an Application for Exception from the provisions of 10 CFR, Part 212, Subpart D, which if granted, would result in the classification as stripper well leases of two properties which Sauder owned and operated during the period November 1973 through December 1975. In considering Sauder's exception request, the FEA noted that in evaluating requests for retroactive exception relief, the FEA has consistently held that retroactive exception relief will be granted only if an applicant, in addition to satisfying the criteria applicable to prospective exception requests, demonstrates compelling reasons why retroactive exception relief is warranted or shows that it would experience an irreparable and severe injury in the absence of retroactive exception relief. After considering the financial data which Sauder submitted, the FEA concluded that Sauder had failed to satisfy the standards for retroactive exception relief. The FEA found that Sauder had not established that he would experience a severe and irreparable financial injury sufficient to imminently jeopardize the financial viability of his operations in the absence of retroactive exception relief, and accordingly denied Sauder's exception request.

Southland Oil Co.; Jackson, Miss.; FEE–3322; Crude oil

Southland Oil Company (Southland) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA granted to the firm on September 10, 1976. *Southland Oil Co.*, 4 FEA Par. 83,087 (September 10, 1976). In support of its exception request, Southland submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Southland's exception request, the FEA determined that in the absence of exception relief the firm would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Southland would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Southland exception relief reducing by $994,663 per month the firm's obligation to purchase entitlements during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Southland would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Southland will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

Standard Oil Co. of California; San Francisco, Calif.; FEE–3343 (Birch Creek), FEE–3344 (21E Booster), FEE–3345 (Calumet), FEE–3346 (Carpinteria), FEE–3347 (Colonia Booster), FEE–3348 (Cymric), FEE–3349 (Greeley System), FEE–3350 (Hagood), FEE–3351 (Huntington Beach), FEE–3352 (Indian Basin), FEE–3353 (Kermit), FEE–3354 (Laperouse), FEE–3355 (Lisbon Valley), FEE–3356 (Murphy Coyote), FEE–3357 (Reserve-No. Tejon), FEE–3358 (Red Wash), FEE–3359 (Sherman), FEE–3360 (Sivells Bend), FEE–3361 (So. Coles Levee), FEE–3362 (S. E. Marietta), FEE–3363 (Stevens Calidon), FEE–3364 (Swanson River), FEE–3365 (Wilson Creek), FEE–3366 (Yates); Natural gas liquid products

Standard Oil Company of California (SOCAL) filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit the firm to increase the prices it charges to reflect non-product cost increases which the firm has incurred at 24 of its natural gas processing plants. In considering the Applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.005 per gallon passthrough for natural gas liquid products which is permitted under Section 212.165. The FEA found that SOCAL has made such a showing with respect to 21 of the 24 plants and therefore granted SOCAL appropriate exception relief with respect to those plants. However, the FEA denied exception relief for the remaining three plants on the grounds that the non-product cost increases experienced at those plants were not materially in excess of $.005 per gallon.

Sunland Refining Corp.; Los Angeles, Calif.; FEE–3234; Crude oil

Sunland Refining Corporation (Sunland) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to Sunland on June 14, 1976 which relieved the firm of its obligation to purchase entitlements during the period April through September 1976. Sunland Refining Co., 3 FEA Par. 83,236 (June 14, 1976). In support of its current exception request, Sunland submitted projected financial statements for its current fiscal year ending December 31, 1976 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Sunland's request, the FEA determined that in the absence of exception relief, Sunland would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Sunland would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), an extension of exception relief was warranted. Accordingly, the FEA granted Sunland an exception relieving the firm of its obligation to purchase entitlements valued at $798,180 per month during the six month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Sunland would be reevaluated if the firm requested an extension of exception relief beyond May, 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Sunland will be required to purchase or sell entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

The Eagle Oil Co.: Columbus, Ohio: FXE–3469; Motor Gasoline

On September 27, 1976, the Federal Energy Administration granted an exception to The Eagle Oil Company on the grounds that the application of the provisions of 10 CFR 211.9 resulted in a serious hardship to the firm. *The Eagle Oil Co.*, 4 FEA Par. 83,121 (September 27, 1976). In that Order, the Regional Administrator for the FEA, Region V, was directed to assign Eagle a supplier or suppliers for the months of November and December 1976 whose price for motor gasoline was within the range of prices paid by major marketers for such product in Eagle's marketing area. The Order specified that the assigned supplier(s) was to be required to furnish Eagle with 65 percent of its base period use of motor gasoline during this period. The Order further provided that the Regional Administrator, upon receiving a written request from Eagle for an extension of exception relief shall (i) make a determination for any month subsequent to December 1976 as to whether Eagle would continue to incur a serious hardship in the absence of further exception relief; and (ii) make a recommendation to the National Office of Exceptions and Appeals regarding the need for an additional assignment. Based upon the data which Eagle submitted to the Regional Administrator and the recommendation of the Regional Administrator, the FEA determined that adherence to the base period supplier/purchaser relationship with respect to motor gasoline would continue to result in a serious hardship to the firm. Accordingly, the exception relief which had previously been granted to Eagle was extended for the months of January, February, and March 1977.

The Permian Corp.: Houston, Texas, FEE–3401 (Possum Kingdom), FEE–3402 (Todd Ranch); Natural Gas Liquids and Products

The Permian Corporation (Permian) filed Applications for Exception from the provisions of 10 CFR 212.165 which, if granted, would permit Permian to increase the selling prices of natural gas liquids and natural gas liquid products it charges to reflect non-product cost increases which the firm has incurred at its Possum Kingdom and Todd Ranch natural gas processing plants. In considering the applications, the FEA noted that, as a general rule, exception relief will be granted to any natural gas processor which can demonstrate that the non-product costs which it has experienced since May 1973 have increased substantially in excess of the $.00375 per gallon passthrough for natural gas liquids and the $.005 per gallon passthrough for natural gas liquid products which are permitted under Section 212.165. The FEA found that Permian had made such a showing and therefore granted Permian appropriate exception relief with respect to those two gas plants for the period December 13, 1976 through June 30, 1977.

United Refining Co.: Texas American Oil Corp.; Washington, D.C. FEE–2948; Crude oil; refined products

The United Refining Company (United) and Texas American Oil Corporation (TAO) filed a joint submission in which they requested various types of administrative relief in order to facilitate the proposed acquisition by TAO of United's Osceola refinery and associated marketing operations. In the Decision which it issued the FEA noted that the Mandatory Petroleum Allocation and Price Regulations are not specifically designed to apply to unusual conditions arising from the purchase and sale of a refinery. Consequently, the many issues involved in the proposed transaction were consolidated for evaluation through the exceptions process. With respect to the request that various types of relief be made retroactive to the effective date specified in the firms' Purchase Agreement, the FEA found that United and TAO failed to demonstrate that they were unable to negotiate an agreement to delay the effective date of transfer until after the FEA reached a determination on their application. The FEA therefore determined that any relief in this case should be granted on a prospective basis only. Based on the material submitted by United and TAO and the precedents established in prior decisions involving refinery acquisitions, the FEA determined that TAO should be permitted to compute its maximum allowable prices for refined products by using the May 15, 1973 prices which United charged at the Osceola refinery. Similarly, United was required to exclude from its calculation of maximum allowable prices the May 15, 1973 prices and May 1973 costs of the Osceola refinery. The FEA also determined that a portion of United's unrecouped product and non-product costs should be allocated to

TAO but that the method of allocation proposed by the firms should be modified to permit TAO to assume a portion of United's "banks" based on the ratio between United's gasoline sales from the Osceola refinery within the twelve month period immediately preceding the acquisition and United's total gasoline sales in that period.

In considering the firm's proposed treatment of the revenues involved in the purchase and sale of the Osceola product inventories, the FEA found that the method prescribed in the firms' Purchase Agreement would permit United to receive a price from TAO which could include a margin in excess of United's laid-in cost of the inventories and that, contrary to the intent of the Emergency Petroleum Allocation Act, this method could result in a double recovery of costs which could be reflected in increased prices to TAO's customers. The FEA therefore approved exception relief which permitted the transfer from United to TAO of all product and non-product costs incurred at the Osceola refinery in the month preceding the refinery sale, and required United to exclude those costs from its calculations for purposes of Section 212.93. The FEA also granted United an exception from the equal application rule with respect to the revenues it receives from the sale of the Osceola inventories to TAO.

With respect to the issues presented by the firms involving the allocation of refined products, the FEA determined that in order to avoid a disruption in the Osceola refinery operations and supply dislocations to purchasers of refined products from the refinery: (i) United should be permitted to sell the Osceola product inventories to TAO without including them in its allocable supply; (ii) United's base period relationships with purchasers of products refined at the Osceola refinery should be terminated and TAO should be assigned to supply those purchasers; and (iii) United's rights to purchase refined products from its base period suppliers should be transferred to TAO. In addition, the FEA concluded that TAO should be permitted to participate immediately in the Old Oil Entitlements Program by beginning to earn entitlements with respect to the crude oil runs and receipts at the Osceola refinery during the month in which the refinery acquisition is consummated or the month in which this Decision and Order is issued, whichever is later. However, in order to avoid windfall benefits to United or price distortions in the selling prices charged to the customers of the Osceola refinery, United was required to remit to TAO the revenues which it receives from the sale of entitlements with respect to the Osceola facility during the two months prior to the time TAO begins earning entitlements. Consequently, the firms' submission was granted in part and denied in part.

Warrior Asphalt Co.; of Alabama, Inc.; Tuscaloosa, Ala.; FEE–3224; Crude Oil

Warrior Asphalt Company of Alabama, Inc. (Warrior) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) in which it requested that the exception relief granted to the firm on June 17, 1976 be extended for an additional period of time. *Warrior Asphalt Co. of Alabama, Inc.*, 3 FEA Par. 83,237 (June 17, 1976). In the June Decision, the FEA determined that in order to alleviate the serious hardship which Warrior would experience as a consequence of the Entitlements Program, exception relief should be extended which would relieve the firm of any obligation to purchase entitlements during the months of June through November 1976. In considering Warrior's request for extension of exception relief, the FEA applied the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Ref. Co.*, 2 FEA Par. 83,275 (September 11, 1975), to the Warrior submission. Based on the financial data which Warrior furnished, the FEA determined that even in the absence of further exception relief, Warrior would realize a profit margin in its current fiscal year which exceeds its historical profit margin. The FEA therefore concluded that Warrior failed to demonstrate that the application to it of the provisions of Section 211.67 results in a serious hardship or gross inequity. Accordingly, the exception request was denied.

Young Refining Corp.; Douglasville, Ga.; FEE–3258; Crude Oil

Young Refining Corporation (Young) filed an Application for Exception from the provisions of 10 CFR 211.67 (the Old Oil Entitlements Program) which, if granted, would result in an extension of the exception relief which the FEA originally granted to the firm on July 18, 1976. *Young Refining Co.*, 3 FEA Par. 83,239 (July 18, 1976). In support of its exception request, Young submitted projected financial statements for its current fiscal year ending March 31, 1977 and projected monthly crude oil runs to stills and receipts of old, new and imported crude oil for its current fiscal year. In considering Young's exception request the FEA determined that as a result of Young's crude oil runs and receipts during the current fiscal year, the firm would be required to purchase entitlements at a substantial cost commencing with the month of December 1976. As a result of the projected entitlements cost which Young would incur during its current fiscal year, the firm's profit margin and return on invested capital would be below historical levels. Based on the material which Young submitted, a further determination was made that exception relief also appeared appropriate for the initial months of the firm's 1978 fiscal year beginning on April 1, 1977. Under the criteria set forth in *Beacon Oil Co.*, 3 FEA Par. 83,209 (June 8, 1976); and *Delta Refining Co.*, 2 FEA Par. 83,275 (September 11, 1975), exception relief was therefore warranted. Accordingly, the FEA granted Young's Application for Exception relieving the firm of any obligation to purchase entitlements during the six-month period December 1976 through May 1977 to account for its crude oil runs to stills and old oil receipts during the period October 1976 through March 1977. However, the FEA noted in the Decision which it issued that the relief approved to Young would be reevaluated if the firm requested an extension of exception relief beyond May 1977, and also at the conclusion of the firm's current fiscal year. The Decision further noted that an adjustment will be made and Young will be required to purchase or sell additional entitlements if it received excessive or insufficient benefits in the past because of a discrepancy between the financial projections it submitted and the actual financial results which it achieves.

REQUESTS FOR STAY

Inexco Oil Co.; Houston, Tex.; FES–3456; Crude Oil

The Inexco Oil Company filed an Application for Stay of the provisions of 10 CFR 212.131(a)(3) which require a producer of crude oil from an unitized property to make certain written certifications to purchasers of crude oil from that property by November 30, 1976. Inexco requested a stay of the certification requirement with respect to the crude oil it produces and sells from unitized properties in the Redell Field in Louisiana, the Hilight Field in Wyoming, and the Brandon Field in Colorado pending a determination on the firm's application for Exception from Section 212.131(a)(3). In considering the stay request, the FEA found that each of Inexco's unitized properties in the Redell, Hilight, and Brandon Fields has an effective date of unitization prior to August 29, 1974. Accordingly, under a literal reading of the FEA Regulations, the properties would have a unit base production control level (unit BPCL) of zero—a result which was clearly not intended by the FEA when it promulgated Section 212.75 which provides for the determination of upper tier crude oil from unitized properties. In view of the substantial difficulty of correctly applying the definition of unit BPCL to Inexco's unitized properties in these three fields, the FEA determined that the certification requirement should be stayed with respect to those properties pending clarification of the manner in which Section 212.75 applies under the factual circumstances presented in this case.

Minnesota Gas Co.; Minneapolis, Minn.; FES–1071; Propane

Minnesota Gas Company (Minnegasco) requested that a Remedial Order which had been issued to the firm on November 24, 1976 be stayed pending a final determination of the firm's Appeal from that Order. The Remedial Order determined that Minnegasco had sold propane to its retail customers at prices which exceeded the maximum permissible price levels specified in 10 CFR 212.93 and directed the firm to (i) compile customer, sales and price data for the audit period and for the period November 1974 to the date of issuance of the Order, (ii) refund $97,397.91 plus interest to certain retail propane customers, and (iii) compute its maximum lawful selling price in accordance with the guidelines provided in the Order for all future retail sales of propane. On the basis of the principles previously established in *General Crude Oil Co.*, 3 FEA Par. 85,040 (June 25, 1976), *modified*, 3 FEA Par. 85,040 (July 8, 1976), the FEA concluded that a stay should be granted to Minnegasco with regard to the refund and data compilation provisions of the Remedial Order. The FEA further concluded, however, that, in accordance with the considerations discussed in *General Crude*, the stay should be conditioned upon Minnegasco's establishment of an escrow account into which it is required to place the amount of the refunds contemplated by the Remedial Order. The provision of the Remedial Order which requires Minnegasco immediately to reduce its current selling prices to lawful levels was not stayed since Minnegasco did not claim that this provision would be inordinately difficult to comply with or that it would cause irreparable and severe injury to the firm.

SUPPLEMENTAL ORDER

Pasco, Inc., New York, N.Y.; FEX–0092; Crude Oil

On June 18, 1976, Pasco, Inc. (Pasco) was granted an exception from the provisions of 10 CFR 211.67 which reduced the firm's entitlement purchase obligation for the period April through September 1976. *Pasco, Inc.*, 3 FEA Par. 83,232 (June 18, 1976). However, following Pasco's sale on July 1, 1976 of its entire refining and marketing operations, the FEA revoked the exception relief extended in the June 18 Order with respect to the months following the firm's divestiture. *Pasco, Inc.*, 4 FEA Par. 87,006 (August 11, 1976). On December 1, 1976, Pasco requested that the FEA review the exception relief from the Entitlements Program provided to the firm in 1976 so that Pasco could account for any obligation arising from that review in its pending liquidation proceeding. In its review, the FEA determined that Pasco had received a greater measure of relief than was necessary to enable the firm to attain its historical profit margin for the appropriate portion of its 1976 fiscal year. Pasco was therefore required to purchase entitlements to offset the excessive exception relief which it had obtained.

DISMISSALS

The following submissions were dismissed following a statement by the applicant indicating that the relief requested was no longer needed:

Marion Corp.; Wash., D.C.; FEA–1010
Molloy Manufacturing Co.; Fraser, Mich.; FEE–3387

The following submissions were dismissed on the grounds that alternative regulatory procedures existed under which relief might be obtained:

Petrochemical Energy Group; Wash., D.C.; FEA–1037

Western Stations; Portland, Oreg.; FSG–0032

The following submissions were dismissed on the grounds that the requests are now moot:

Great Atlantic & Pacific Aeroplane Co., Van Nuys, Calif.; FEE–3518, FEE–3519

Copies of the full text of these Decisions and Orders are available in the Public Docket Room of the Office of Private Grievances and Redress, Room B–120, 2000 M Street, NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1 p.m. and 5 p.m., e.s.t., except Federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

DAVID G. WILSON,
Acting General Counsel.

FEDERAL MARITIME COMMISSION

COMBI LINE AND TECOMAR, S.A.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before February 17, 1977. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. **An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.**

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

COMBI LINE AND TECOMAR, S.A.

Notice of agreement filed by:

Ralph Rugan, Jr., Biehl & Company, Inc., 416 Common Street, New Orleans, Louisiana 70130.

Agreement No. 10279 among the abovenamed parties is an equipment interchange agreement applicable to the services of the parties between the United States and Mexico.

Dated: January 24, 1977.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CP77–126]

COLUMBIA GAS TRANSMISSION CORP.

Order Authorizing Limited Term Importation of Natural Gas

JANUARY 18, 1977.

On January 18, 1977, Columbia Gas Transmission Corporation (Columbia) filed in Docket No. CP77–126 an application pursuant to Section 3 of the Natural Gas Act for authorization to import natural gas from Canada to the United States for a sixty-day term for use in its general system supply to meet the needs of its customers, all as more fully set forth in the application.

Columbia proposes to import 250,000 Mcf of gas per day from Canada for a sixty-day period to be purchased from TransCanada Pipelines, Ltd. (TransCanada), and delivered by TransCanada to Great Lakes Gas Transmission Company (Great Lakes) through existing authorized facilities at the international boundary at Emerson, Manitoba for the account of Columbia.

Great Lakes will transport and deliver this gas to Michigan Wisconsin Pipe Line Company (Mich-Wisc) at Crystal Falls, Michigan. The arrangements for the remaining transportation and displacement of gas have not been finalized according to Columbia; however, it is tentatively contemplated that Mich-Wisc would redeliver 195,000 Mcf of gas per day to Columbia Gulf Transmission Company (Columbia Gulf), an affiliate of Columbia, at various points of intersection between Mich-Wisc and Columbia Gulf in Louisiana offshore and onshore. The remaining 55,000 Mcf per day would be delivered by Mich-Wisc to Natural Gas Pipeline Company of America (Natural) at an intersection between those two systems, and Natural would redeliver an equivalent volume to Columbia Gulf at Erath, Louisiana. Columbia Gulf would deliver all volumes of gas under this arrangement to Columbia's existing facilities in Kentucky.

Columbia proposes to purchase the subject gas from TransCanada at a price of $1.94 per Mcf, the established Canadian export price, with the possibility of an additional payment of up to 25 cents per Mcf to TransCanada for reimbursement of expenses incurred by it and/or its customers for additional compression or storage operations necessary to accommodate the proposed sale. No contract for this purchase was submitted with the application by Columbia pursuant to Section 153.4 of the Commission's Regulations nor has the National Energy Board of Canada (NEB) issued an export license for such gas. In view of the emergency to be addressed, we will waive this requirement; however, the authorization herein granted will be conditioned upon the filing of such contract as required by Section 153.8 of our Regulations. Columbia states that the NEB will permit such exportation of gas but may require a pay-back of this gas to TransCanada between 1980 and 1985, inclusive, in the event there is a shortage of Canadian gas to fulfill contractul commitments under present export licenses issued by the NEB.

In its authorization, Columbia asserts that prompt authorization of this limited term importation and purchase is urgently needed to assist in mitigating the unprecedented emergency gas supply situation over its system. Columbia describes its supply situation as follows: it has experienced unusually cold weather throughout the 1976–1977 heating season to date as determined by heating degree days deficiency (DDD). During the last 16 days of October, Columbia's system experienced weather 91 percent colder than normal. The months of November and December 1976 were 35 percent and 17 percent colder than normal. This trend has continued during the month of January.[1] On November 1, 1976, Columbia imposed a curtailment level of 210 Bcf which equates to a curtailment of 63 percent of Priority 2 of Columbia's 3-priority plan. Due to the cold winter weather, on January 1, 1977, this level was increased to 70 percent of Priority 2 for the remaining 3 winter months. Columbia furthermore indicates that it is experiencing a dramatic drawdown of storage volume which reduces the amount of gas that can be withdrawn from storage on any given day during the remainder of the winter. Columbia expects subsequent to February 1, 1977, for the remainder of the winter daily deficiencies of up to 1,100,000 Mcf of gas under the optimistic forecast of normal weather and a projected flowing gas supply based upon historical temperatures.

[1] The months of October and November were the coldest experiences on Columbia's system in 30 years, and December was the fifth coldest in 30 years.

Columbia's best estimate of additional gas which might be purchased this winter from the intrastate market is 10 Bcf.

The Commission is cognisant of the unprecedented cold weather which has affected the eastern and southern portions of the country including Columbia's service region. On January 14, 1977, in the order issued in Docket No. CP77–116, Houston Pipeline Company, we noted that numerous natural gas pipelines are now facing, or shortly will face, natural gas supply shortfalls to meet high priority loads and that emergency measures are needed to cope with this situation (mimeo p. 2). The application by Columbia for a limited term authorization herein clearly demonstrates that additional gas is needed to assist Columbia in maintaining its ability to render natural gas service to its customers. The Commission reaches no conclusion as to the need of Columbia relative to other pipelines. Viewed in the context of Columbia's needs alone, we shall grant authorization for the proposed importation to the extent possible. The public interest requires that the authorization here issued be conditioned to allow a subsequent evaluation of the relative needs and appropriate response thereto. This authorization will be granted under the broad powers conferred upon the Commission by Sections 3 and 16 of the Natural Gas Act. *Public Service Commission of the State of New York* v. *FPC*, 327 F. 2d 893. *Niagara Mohawk Power Corporation* v. *FPC*, 379 F. 2d 153 (D.C. Cir. 1967).

At a hearing held on January 18, 1977, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the application submitted in support of the authorization sought herein, and upon consideration of the record,

The Commission finds:

(1) A natural gas supply emergency situation exists on the Columbia Gas Transmission Corporation system which has substantially diminished Columbia's ability to render natural gas service to its high priority customers.

(2) Approval of the proposed importation of gas by Columbia will materially assist in helping to alleviate curtailment of high priority customers and is consistent with the public interest.

(3) It is necessary and appropriate for the purposes of the Natural Gas Act and the Commission's Regulations thereunder to waive the Commission's Regulations as hereinafter provided.

The Commission orders:

(A) Columbia Gas Transmission Corporation is herein authorized to commence the importation of 250,000 Mcf of natural gas per day from Canada for a sixty-day period, as hereinbefore described and as more fully described in the application in Docket No. CP77–126, upon the terms and conditions outlined below.

(B) The authorization hereinabove granted is conditioned upon TransCanada Pipelines, Ltd.'s receiving appropriate authorization from the National Energy Board of Canada for the exportation of natural gas from Canada.

(C) The gas imported under the subject arrangement shall not be used to displace alternate fuel capability or cause other gas to displace alternate fuel capability.

(D) Columbia shall file within 10 days after the initial importation of gas herein its contract for the purchase of such gas with TransCanada and any other contracts which are designed to effectuate the transportation of the imported gas to its intended market.

(E) It could become necessary for Columbia to sell this imported gas, as directed by the Commission, to pipelines with a greater need to protect high priority users. This order is conditioned to allow a subsequent evaluation of the relative needs of Columbia and other natural gas pipelines to the subject gas and appropriate action by the Commission relative thereto.

(F) Pursuant to the provisions of Section 1.7 of the Commission's Rules of Practice and Procedure, the following sections of the Commission's Regulations are hereby waived to facilitate issuance of this order: Section 2.1 of the Commission's General Policy and Interpretations and Section 153.4 of the Commission's Regulations under the Natural Gas Act.

GAS POLICY ADVISORY COUNCIL

Meeting Agenda

Supply-Technical Advisory Task Force-Synthesized Gaseous Hydrocarbon Fuels, Conference Room 5200, Federal Power Commission, Union Center Plaza Building, 825 North Capitol Street, NE, Washington, D.C. 20426, February 15, 1977, 9:30 a.m. Presiding: Mr. William J. McCabe, FPC Coordinating Representative and Secretary, Gas Policy Advisory Council.

1. Call to Order and Introductory Remarks, Mr. William J. McCabe.

2. Remarks by Chairman and Vice Chairman, Dr. Alan G. Fletcher, Mr. Charles W. Margolf.

3. Working Session—Subgroup II: Siting and Environment, Mr. Charles W. Margolf:

(a) Review of circulated draft reports.

(b) Prepare draft reports for inclusion in final report.

4. Review of Economic Study, Dr. James J. Harris.

5. Other Business.

6. Adjournment, Mr. William J. McCabe.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the Committee—which statements, if in written form, may be filed before or after the meeting or if oral, at the time and in the manner permitted by the Committee.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP77–121]

NATURAL GAS PIPELINE CO. OF AMERICA AND UNITED GAS PIPE LINE CO.

Application

JANUARY 21, 1977.

Take notice that on January 10, 1977, Natural Gas Pipeline Company of America (Natural), 122 South Michigan Avenue, Chicago, Illinois 60603, and United Gas Pipe Line Company (United), 700 Milam Street, Houston, Texas 77001, filed in Docket No. CP77–121 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Natural and United to exchange up to 1,000 Mcf of natural gas per day, and to retain in place and operate facilities required to implement the exchange, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Natural and United have entered into an exchange agreement dated December 13, 1976, whereby Natuural would deliver up to 1,000 Mcf of natural gas per day purchased from Wynn Miller[1] in the Normanna Area, Bee County, Texas, to United at a point on its Bruni-Junction transmission system in Section 45, Hicks and Hall Cottonfield Addition, Bee County, Texas (Bruni-Junction Delivery Point), and United would deliver equivalent volumes to Natural at the outlet of Getty Oil Company's Normanna Gas Processing Plant, Bee County, Texas (Normanna Redelivery Point). Further, it is stated that the daily exchange volume is to be limited by United's supply at the outlet of the Normanna Gas Processing Plant which is dependent upon United's field supply.

The application states that Natural has constructed and is operating the facilities necessary to connect and measure the gas to be delivered to United at an existing tap connection on United's pipeline at the Bruni-Junction Delivery Point at an estimated cost of $16,825, and commenced deliveries to United on December 29, 1976, pursuant to Letter Order of the Commission dated December 21, 1976. Natural requests authorization to retain these facilities for the long-term exchange proposed herein.

It is stated that the exchange agreement is for a primary period of four years from the date of first delivery and on a month-to-month basis thereafter until canceled by either party.

It is asserted that the exchange agreement between Natural and United is mutually beneficial in that it provides a means for Natural to connect a remote source of gas supply into its system obviating the necessity to construct and operate extensive and/or duplicate facilities, and it enables United to receive gas directly into its transmission system downstream of the Normanna Redelivery Point. It is also asserted that the exchange would have no effect on any other sales or services now rendered nor would there be any change in Applicants' operations occasioned thereby.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 7, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–2809 Filed 1–27–77;8:45 am]

[1] Wynn Miller has filed for a small producer certificate pursuant to § 157.40(c) of the Regulations under the Natural Gas Act (18 CFR 157.40(c)), on December 20, 1976, in Docket No. CS77–195.

[Docket No. ER77–140]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

Filing of Agreement

JANUARY 21, 1977.

Take notice that Public Service Company of New Hampshire (PSNH) on January 10, 1977, tendered for filing as an initial rate schedule a Transmission Contract with Taunton, Massachusetts Municipal Lighting Plant (the Buyer).

PSNH states that under the Contract, PSNH transmitted through its system entitlements of power which the Buyer will be purchasing from Vermont Electric Power Company, Inc.

PSNH requests that the Commission waive the normal 30-day notice requirement and permit the rate schedule to be effective as of November 1, 1976.

According to PSNH, copies of the filing were served upon Taunton Municipal Lighting Plant and the New Hampshire Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 3, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. ER77–141]

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

Filing of Agreement

JANUARY 21, 1977.

Take notice that Public Service Company of New Hampshire (PSNH) on January 10, 1977, tendered for filing as an initial rate schedule a Transmission Contract with New Bedford Gas and Edison Light Company (the Buyer).

PSNH states that under the Contract, PSNH transmitted through its system entitlements of power which the Buyer will be purchasing from Green Mountain Power Corporation.

PSNH requests that the Commission waive the normal 30-day notice requirement and permit the rate schedule to be effective as of November 1, 1976.

According to PSNH, copies of this filing were served upon New Bedford Gas and Edison Light Company and the New Hampshire Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 3, 1977. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77–2811 Filed 1–27–77;8:45 am]

[Docket No. RP74–55]

SOUTHERN NATURAL GAS CO.

Order Approving Stipulation and Agreement

JANUARY 19, 1977.

On December 3, 1976, Southern Natural Gas Company (Southern) filed a proposed stipulation and agreement in the above-captioned docket with a motion for approval of the agreement. The proposed agreement would resolve all issues in this proceeding. Southern states that it will move for dismissal with prejudice of its pending appeal in the Fifth Circuit of the Commission's orders of August 20, 1975, and October 17, 1975, in this docket should the proposed agreement be approved. Southern's appeal is designated as *Southern Natural Gas Company* v. *FPC*, 5th Circuit No. 75–4309. For the reasons stated below, the Commission shall approve the proposed agreement.

By order issued January 7, 1974, in this proceeding, the Commission ordered a hearing to determine "the proper transportation charges to be included in the cost of the cushion gas in the Muldon storage project." The Commission affirmed the result reached in the Initial Decision in this proceeding by order dated August 20, 1975, that "Southern be permitted to capitalize only the incremental cost of .3665 cents per Mcf for transporting the cushion gas to storage . . ." The Commission, by Order Denying Rehearing issued October 17, 1975, reaffirmed its earlier ruling. Southern challenged the Commission's treatment in *Southern Natural Gas Company* v. *FPC*, *supra*.

The proposed agreement permits Southern to capitalize certain costs associated with the injection of volumes to Southern's Muldon Storage Field during the period April through June, 1972. First, the difference between the volumes underlying the settlement rates in Docket No. RP70–38 and Southern's actual sales volumes for the period July 1, 1971, through June 30, 1972, was calculated. This difference is 7,670,850 Mcf. Based upon a system average transmission rate, excluding return and taxes, in Docket No. RP70–38 of 10.11¢ per Mcf, the amount of transportation costs for these volumes is $775,523.00. Second, added to this figure is the incremental fuel cost associated with the remaining volumes injected into Muldon Field from April through June, 1972. The remaining volumes were 18,028,150 Mcf with an incremental fuel allowance of $.01126 per Mcf which equals $202,997.00. The total amount to be capitalized in Account 117 under the proposed settlement is $978,520.00. This contrasts with Southern's original request to capitalize $3,906,248, with return and taxes, or $2,598,169, excluding return and taxes.

Southern agrees to move to dismiss with prejudice its pending appeal should the proposed agreement be approved. Based upon its review of the agreement, the Commission believes that it represents a reasonable compromise concerning the amount in controversy here. Should the Fifth Circuit grant Southern's motion to dismiss with prejudice,

this proceeding will be terminated. Accordingly, the Commission believes good cause exists to approve the proposed agreement.

The Commission orders: (A) The proposed stipulation and agreement filed by Southern on December 3, 1976, and incorporated by reference herein, is hereby approved.

(B) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-2813 Filed 1-27-77;8:45 am]

[Docket No. RP77-28]

SOUTHERN NATURAL GAS CO.

Application

JANUARY 26, 1977.

Take notice that on January 19, 1977, Southern Natural Gas Company (Applicant), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. RP77-28 an application pursuant to Section 7 of the Natural Gas Act for authorization for the purchase of 540,000 gallons of propane per day for a period of 60 days, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

It is stated that Applicant is currently curtailing Priority 1 consumers on its system by 9 percent because of unprecedented cold weather. Further, it is stated that many of Applicant's customers are taking gas in excess of the gas allocated to them by Southern which puts an additional strain on Applicant's gas supply.

Applicant proposes to purchase propane from Enterprise Products Company (Enterprise) in the amount of 540,000 gallons per day for a period of 60 days for injection into its system. Applicant states that such propane is stored near Petal, Mississippi, and would be moved by truck and injected into Applicant's pipeline system at its Pearl River Compressor Station.

It is stated that these volumes of propane, the equivalent of approximately 50,000 Mcf of natural gas per day, would be sold to Applicant for approximately 32 cents per gallon, the controlled price of the Federal Energy Administration, and would equate to an equivalent price of approximately $3.46 per Mcf of natural gas. Applicant states that it requests advance authority to track these costs into the deferred account of its purchased gas adjustment, Section 17 of the General Terms and Conditions of its FPC Gas Tariff.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 8, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.77-3602 Filed 1-27-77;8:45 am]

SUN OIL CO., ET AL.

Amended Petition For Special Relief

JANUARY 25, 1977.

Sun Oil Company, Docket No. RI76-117; Anadarko Production Company, Docket No. RI76-119; Northern Michigan Exploration Company, Docket No. RI76-132; Clark Oil Production Company, Docket No. RI76-133; Diamond Shamrock Corporation, Docket No. RI 76-135.

Take notive that on January 14, 1977, Clark Oil Producing Company (Petitioner), 601 Jefferson, Houston, Texas 77002, filed a proposed settlement agreement in the above-captioned dockets which amends its petition for special relief filed June 24, 1976,[1] for natural gas produced in waters more than 250 feet deep, pursuant to Section 2.56a(g)(2) of the Commission's Rules of Practice and Procedure. By this amendment petitioner seeks a flat rate of approximately $1.57 per Mcf, commencing February 1, 1977, for all gas attributable to its 15 percent working interest in West Cameron Block 639, Offshore Louisiana. Petitioner, on the basis of the record submitted to date, was seeking a comparable rate of approximately $2.26.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 7, 1977, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[1] Notice issued July 9, 1976. Published in the FEDERAL REGISTER on July 19, 1976 at 41 FR 29750.

[Docket No. CI77-220]

TEXACO INC.

Application

JANUARY 25, 1977.

Take notice that on January 14, 1977, Texaco Inc. (Applicant), P.O. Box 2420, Tulsa, Oklahoma, 74102, filed in Docket No. CI77-220 an application pursuant to Section 7(c) of the Natural Gas Act for a limited-term certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Michigan-Wisconsin Pipeline Company (Mich-Wis) from the Cupp "D" Unit 1, Beckham County, Oklahoma, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas to Mich-Wis on January 1, 1977, within the contemplation of Section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for a period not to exceed six months, or until Applicant is able to begin the sale to the alternate and originally intended purchaser, whichever date is earlier. The contractually agreed initial rate for the gas is $1.44 per Mcf (at 14.73 psia), exclusive of all State or Federal production, severance or similar taxes; the escalation provided in subsection (a)(2) of Section 2.56a of the Regulations; and the quality and pressure conditions as set forth in the contract.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 4, 1977, file with the Federal Power Commission, Washington, D.C., 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.2806 Filed 1-27-77;8:45 am]

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive of December 20-21, 1976

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on December 20-21, 1976.[1]

The information reviewed at this meeting suggests that growth in real output of goods and services in the fourth quarter has remained at about the reduced pace of the third quarter. In both October and November retail sales increased substantially. Industrial production rose appreciably in November—following 2 months of decline—in large part as a result of termination of strikes in two major industries, although advances in output were widespread among other industries. Employment in manufacturing also recovered from the effects of strikes. According to household survey data, the gain in total employment was large, but the unemployment rate increased from 7.9 to 8.1 per cent as the civilian labor force—which had changed little over the preceding 3 months—increased considerably. The wholesale price index for all commodities rose as much in November as in October, reflecting another substantial increase in average prices of industrial commodities; average prices of farm products and foods changed little. The advance in the index of average wage rates over recent months has remained below the rapid rate of increase during 1975.

The average value of the dollar against leading foreign currencies has declined slightly in recent weeks. The pound sterling and also the currencies associated in the European "snake" arrangement strengthened against the U.S. dollar, while the Canadian dollar depreciated sharply. In October the U.S. foreign trade deficit remained substantial.

M-1, which had expanded sharply in October, was unchanged in November. Although growth in M-2 and M-3 moderated, it remained substantial as inflows of the time and savings deposits included in these broader aggregates continued strong. Interest rates have declined appreciably in recent weeks. In late November Federal Reserve discount rates were reduced from 5½ to 5¼ per cent, and in mid-December member bank reserve requirements were lowered somewhat.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions that will encourage continued economic expansion, while resisting inflationary pressures and contributing to a sustainable pattern of international transactions.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to maintain prevailing bank reserve and money market conditions over the period immediately ahead, provided that monetary aggregates appear to be growing at about the rates currently expected.

By order of the Federal Open Market Committee, January 21, 1977.

ARTHUR L. BROIDA,
Secretary.

Correction

In FR Doc. 77-1252, appearing at page 3027, in the issue for Friday, January 14, 1977, the following changes should be made:

On page 3028, the eleventh line from the bottom of the first column should read "amended, 15 U.S.C. 1601-65(a), (Supp. IV,".

On page 3028, in the second column, the sixth line of the third complete paragraph should read "to the place for the customer's signature on".

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEE

Meeting

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a)(1) and (2) of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770-776 (5 U.S.C. App. I)), and the FDA regulations, 21 CFR Part 2, Subpart D, relating to advisory committees. The following advisory committee meeting is announced:

Committee name	Date, time, and place	Type of meeting and contact person
Subcommittee of the Obstetries and Gynecology Advisory Committee.	Feb. 25, 9 a.m., Conference Room A, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open public hearing 9 a.m. to 10 a.m.; open committee discussion 10 a.m. to 5 p.m.; A. T. Gregoire, Ph. D. (HFD-130), 5600 Fishers Lane, Rockville, Md. 20857, 301-443-3510.

General function of the committee. Reviews and evaluates available data concerning safety and effectiveness of marketed and investigational prescription drugs for use in the practice of obstetrics and gynecology.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. The revision of guidelines for the clinical testing of systemic contraceptive products.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC-18), 5600 Fishers Lane, Rockville, MD 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 2, Subpart D, published in the FEDERAL REGISTER of November 26, 1976 (41 FR 52148).

Dated: January 19, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meeting

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)), and the FDA regulations, 21 CFR Part 2, Subpart D, relating to advisory committees. The following advisory committee meeting is announced:

Committee name	Date, time, and place	Type of meeting and contact person
Hemorrhoidal Panel.	Feb. 20 and 21, 9 a.m., Concord Room, Mayflower Hotel, 1127 Connecticut Ave. NW., Washington, DC.	Open committee discussion Feb. 20, 9 a.m. to 4:30 p.m.; open public hearing Feb. 21, 9 a.m. to 10 a.m.; open committee discussion Feb. 21, 10 a.m. to 4:30 p.m.; Thomas D. DeCillis, (HFD–510), 5600 Fishers Lane, Rockville, Md. 20857, 301–443–4960.

General function of the committee. Reviews and evaluates available data concerning the safety and effectiveness of nonprescription drug products.

Agenda—Open public hearing. Any interested person may present data, information, or views, orally or in writing, on issues pending before the committee.

Open committee discussion. The panel will review data submitted pursuant to the over-the-counter (OTC) review's call for data for this panel (see also 21 CFR 330.10(a)(2)).

The panel will be reviewing, voting upon, and modifying the content of summary minutes and categorization of ingredients and claims.

The panel will be reviewing, voting upon, and modifying its draft report in preparation for submission to the Commissioner.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this FEDERAL REGISTER notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be obtained from the Public Records and Documents Center (HFC–18), 5600 Fishers Lane, Rockville, MD 20857, between the hours of 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 2, Subpart D, published in the FEDERAL REGISTER of November 26, 1976 (41 FR 52148).

Dated: January 25, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

[FR Doc.77–2938 Filed 1–27–77;8:45 am]

[Docket No. 76N–0339; DESI 10598]

ANTIEMETIC COMBINATION PREPARATION

Opportunity for Hearing on Proposal to Withdraw Approval of Pertinent Parts of the New Drug Application

In a notice (DESI 10598) published in the FEDERAL REGISTER of July 8, 1972 (37 FR 13489), the Food and Drug Administration (FDA) announced its conclusion that the drug product described below is possibly effective for nausea and vomiting of pregnancy. On May 15, 1974 (39 FR 17343), a notice was published in the FEDERAL REGISTER permitting the drug to remain on the market pending completion and review of clinical studies to determine its effectiveness. An additional clinical study was submitted, but FDA has determined that it does not provide substantial evidence of effectiveness for the combination product. This notice announces that conclusion and proposes to withdraw approval of the product. Persons wishing to request a hearing may do so on or before February 28, 1977.

NDA 10–598; That part pertaining to Bendectin Tablets containing dicyclomine hydrochloride, doxylamine succinate, and pyridoxine hydrochloride; Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 East Amity Rd., Cincinnati, OH 45215.

On April 15, 1975, the firm submitted results of an eight-way multicenter study intended to establish substantial evidence of effectiveness of the drug product. The study, which was randomized and double-blind, was conducted over a 7-day period and involved 29 investigators and 2,308 patients, 1,599 of whom completed the study. The criterion for admission was morning sickness pattern of early pregnancy. The drugs used were dicyclomine/doxylamine/pyridoxine; dicyclomine/doxylamine/pyridoxine; dicyclomine/doxylamine; doxylamine; dicyclomine/pyridoxine; dicyclomine; pyridoxine; and placebo. The data were evaluated and determined not to provide substantial evidence of effectiveness of the three-component combination (Bendectin). In order to meet the requirements for proving the effectiveness of a fixed combination drug (21 CFR 300.50), it must be shown that each of the ingredients contributes to the claimed effects of the combination. The results of the study showed that doxylamine is the major effective ingredient and that pyridoxine has an independent antinauseant effect, but that dicyclomine does not significantly contribute to the effectiveness of the combination product. However, the results of the study did show that the combination of doxylamine and pyridoxine is effective for nausea and vomiting of pregnancy.

On March 11, 1976, Merrell-National Laboratories supplemented their new drug application to provide for a reformulated product containing only doxylamine succinate and pyridoxine hydrochloride. This product is being handled through the normal supplemental new drug application procedures.

On the basis of all of the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5) and 21 CFR 300.50 that provides substantial evidence of the effectiveness of the three-component combination drug product.

Therefore, notice is given to the holder(s) of the new drug application(s) and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505 (e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20857.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201 (p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before February 28, 1977, a written notice of appearance and request for hearing, and (2) on or before March 29, 1977, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20857.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk during working hours, Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–1053, as amended (21 U.S.C. 355)), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: January 17, 1977.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc 77–2776 Filed 1–27–77;8:45 am]

[Docket No. 76N–0473; DESI 4203]

CERTAIN GAMMA BENZENE HEXACHLORIDE TOPICAL PREPARATIONS

Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice and Opportunity for Hearing

In notices published in the FEDERAL REGISTER of September 17, 1970 (35 FR 14576) (Docket No. FDC–D–231 (now Docket No. 76N–0473)) and June 23, 1972 (37 FR 12418), the Food and Drug Administration announced its conclusions regarding the effectiveness of the drug products described below containing gamma benzene hexachloride. The drug products are used in the treatment of parasitic infestations, such as scabies and pediculosis. Final conclusions concerning the drugs were announced in the June 23, 1972 notice, classifying them as effective or lacking substantial evidence of effectiveness for various indications. The June 23, 1972 notice did not offer an opportunity for hearing concerning the indications which were reclassified in that notice to lacking substantial evidence of effectiveness. This notice offers an opportunity for hearing concerning them and states the conditions for marketing the drugs for the indications for which they continue to be regarded as effective. Persons who wish to request a hearing may do so on or before February 28, 1977.

The notice that follows does not pertain to the other drugs included in the September 17, 1970 notice. Products containing crotamiton were classified in the September 17, 1970 notice as lacking substantial evidence for a certain indication, and effective for other indications. No person requested a hearing concerning the indication lacking substantial evidence of effectiveness and it is no longer allowable in labeling. Any such product labeled for that indication is subject to regulatory action.

NDA 10–718; Kwell Shampoo containing gamma benzene hexachloride: Reed and Carnrick, 30 Boright Ave., Kenilworth, NJ 07033.

NDA 6–309; Kwell Cream containing gamma benzene hexachloride; Reed and Carnrick.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice applies to all persons who manufacture or distribute a drug product, not the subject of an approved new drug application, that is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD–310), 5600 Fishers Lane, Rockville, MD 20857.

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indications listed in the labeling conditions below. The drug lacks substantial evidence of effectiveness for the probably and possibly effective indications which were reclassified in the June 23, 1972 notice.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in cream or liquid form suitable for topical administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indications are as follows:

SHAMPOO

For the treatment of pediculosis such as: Pediculosis capitis (head louse) and pediculosis pubis (crab louse).

CREAM

For the treatment of pediculosis, such as: Pediculosis capitis (head louse) and pediculosis pubis (crab louse). It is also effective in the treatment of scabies. (*Sarcoptes scabiei*).

3. *Marketing status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before March 29, 1977, the holder of the application submits, if he has not previously done so, (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1 (f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained prior to marketing such product. Marketing prior to approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

C. *Notice of opportunity for hearing.* On the basis of all the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111 (a)(5), demonstrating the effectiveness of the drug(s) for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice.

Notice is given to the holder(s) of the drug application(s), and to all other interested persons, that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) and all amendments and supplements thereto providing for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have all the effects it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling. An order with respect to any application(s) supplemented, in accord with this notice, to delete the claim(s) lacking substantial evidence of effectiveness.

In addition to the ground for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6), e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant(s) and all other persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above (21 CFR 310.6), are hereby given an opportunity for a hearing to show why approval of the new drug application(s) providing for the claim(s) involved should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and all identical, related, or similar drug products.

If an applicant or any person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before February 28, 1977, a written notice of appearance and request for hearing, and (2) on or before March 29, 1977, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this proposal to withdraw approval. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of such drug product. Any such drug product labeled for the indication(s) lacking substantial evidence of effectiveness referred to in paragraph A. of this notice may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice of opportunity for hearing shall be filed in quintuplicate. Such submissions, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk (address given below) during working hours, Monday through Friday.

Communications forwarded in response to this notice should be identified with the reference number DESI 4203, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Supplements (identify with NDA number): Division of Anti-Infective Drug Products (HFD–140), Rm. 12B–45, Bureau of Drugs.

Original abbreviated new drug applications (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Request for Hearing (identify with Docket number appearing in the heading of this notice): Hearing Clerk, Food and Drug Administration (HFC–20), Rm. 4–65.

Requests for the report of the National Academy of Sciences-National Research Council: Public Records and Document Center (HFC–18), Rm. 4–62.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–501), Bureau of Drugs.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.31) (recodification published in the FEDERAL REGISTER of June 15, 1976 (41 FR 24262)).

Dated: January 17, 1977.

J. RICHARD CROUT,
Director, Bureau of Drugs.

ENDOCRINOLOGY AND METABOLISM ADVISORY COMMITTEE

Meeting Change

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)), the Food and Drug Administration announced in a notice published in the FEDERAL REGISTER of January 18, 1977 (42 FR 3348), public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act.

Notice is hereby given that the meeting of the Endocrinology and Metabolism Advisory Committee scheduled for February 17 and 18, 1977, will meet only on February 18, 1977, Conference Rms. G and H, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD, with the open public hearing beginning at 9 a.m. and the open committee discussion at 10 a.m.

Dated: January 21, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

[Docket No. 76N–0481]

NEW DRUG APPLICATIONS

Withdrawal of Approval; Correction

In FR Doc. 70–9292 appearing on page 11929 in the FEDERAL REGISTER of July 24, 1970 (35 FR 11929), under "[Docket No. FDC–D–135; Various NDA's]," the Food and Drug Administration announced the withdrawal of approval of a large number of new drug applications (NDA's) for failure of sponsors to submit required reports. The inclusion in the notice of NDA 10–124 for Serpalan (Reserpine) Tablets, manufactured by Lannett Co., 9000 State Rd., Philadelphia, PA, was in error. Accordingly, on page 11940, in the second column, under the name and address for Lannett Co., the notice is corrected by deleting the line "10–124. Serpalan Tablets 0.1, 0.25, 1.0 mg."

Dated: January 21, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

[FR Doc.77–2774 Filed 1–27–77;8:45 am]

[Docket No. 76N–0474]

SAFETY OF CERTAIN FOOD INGREDIENTS

Opportunity for Public Hearing

The Food and Drug Administration is announcing an opportunity for public hearing on the safety of certain food ingredients to determine if they are generally recognized as safe (GRAS), or subject to a prior sanction. Requests to make oral presentation at the public hearing must be postmarked on or before February 28, 1977.

The Commissioner of Food and Drugs issued, in the FEDERAL REGISTER of July 26, 1973 (38 FR 20053), a notice advising the public that an opportunity would be provided for oral presentation of data, information, and views at public hearings to be conducted by the Select Committee on GRAS Substances of the Life Sciences Research Office, Federation of American Societies for Experimental Biology (hereinafter referred to as the Select Committee), about the safety of ingredients used in food to determine if they are GRAS or subject to a prior sanction.

The Commissioner now gives notice that the Select Committee is prepared to conduct a public hearing on the following categories of food ingredients: adipic acid; formic acid, ethyl formate and sodium formate; and hydrogenated soybean oil. The public hearing will provide an opportunity, before the Select Committee reaches its final conclusions, for any interested person(s) to present scientific data, information, and views on the safety of these substances, in addition to those previously submitted in writing pursuant to notices published in the FEDERAL REGISTER of July 26, 1973 (38 FR 20051, 20053) and April 17, 1974 (39 FR 13796, 13798).

The Select Committee has reviewed all the available data and information on the categories of food ingredients listed above and has reached one of the five following tentative conclusions on the status of each:

1. There is no evidence in the available information that demonstrates or suggests reasonable grounds to suspect a hazard to the public when it is used at levels that are now current or that might reasonably be expected in the future.

2. There is no evidence in the available information that demonstrates or suggests reasonable grounds to suspect a hazard to the public when it is used at levels that are now current and in the manner now practiced. However, it is not possible to determine, without additional data, whether a significant increase in consumption would constitute a dietary hazard. (This finding does not apply to the substances covered by this notice.)

3. Although no evidence in the available information demonstrates a hazard to the public when it is used at levels that are now current and in the manner now practiced, uncertainties exist requiring that additional studies be conducted. (This finding does not apply to the substances covered by this notice.)

4. The evidence is insufficient to determine that the adverse effects reported are not deleterious to the public health when it is used at levels that are now current and in the manner now practiced. (This finding does not apply to the substances covered by this notice.)

5. The information available is not sufficient to make a tentative conclusion. (This finding does not apply to the substances covered by this notice.)

The following table lists each ingredient, the Select Committee's tentative conclusion (keyed to the five types of conclusions listed above), and the available information on which the Select Committee reached its conclusion.

Substance	Select committee tentative conclusion	Scientific literature review: Order No.	Scientific literature review: Cost	Animal study report order No. and cost	Other information
Adipic acid	1	PB–220–305/AS.	$3.25	Mutagenic evaluation (host mediated, dominant lethal, and cytogenetics) of adipic acid (71–50) by Litton Bionetics, Inc., under FDA contract (PB–245–469/AS, (5.75). Teratologic evaluation of adipic acid (71–50) by Food and Drug Research Labs., Inc., under FDA contract (PB–221–802, $3.75).	(a) Human intake data, taken from "A Comprehensive Survey of Industry on the Use of Food Chemicals Generally Recognized as Safe (GRAS)", available from the National Technical Information Service, PB Nos. 221–921 through 221–949. (b) Report on subacute feeding of adipic acid submitted to E. I. duPont de Nemours & Co. by Hazelton Lab. (c) Investigation of the toxic and teratogenic effects of GRAS substance to the developing chicken embryo: adipic acid. FDA in-house investigation.
Ethyl formate	1	PB–228–558/AS	$4.00		(a) Human intake data, taken from "A Comprehensive Survey of Industry on the use of Food Chemicals Generally Recognized as Safe (GRAS)," available from the National Technical Information Service, PB Nos. 221–921 through 221–949.
Formic acid (used in food-packaging materials).	1				
Sodium formate (used in food-packaging materials).					

Substance	Select committee tentative conclusion	Scientific literature review: Order No.	Scientific literature review: Cost	Animal study report order No. and cost	Other information
Hydrogenated soybean oil.	1	PB-228-557/AS	$4.00		(a) Letter dated July 1, 1976, from Corbin Miles, FDA.
Hydrogenated soybean oil (used in food-packaging materials).	1				(b) Letter dated Jan. 7, 1976, from G. F. Spencer, USDA. (c) Memorandum dated Mar. 27, 1974, from R. J. Dimler, USDA. (d) Carpenter, D. L., J. Lehmann, B. S. Mason, and H. T. Slover, 1976. Lipid composition of selected vegetable oils. J. Am. Oil Chem. (in press). (e) Mounts, T. L., 1976. Double bond position affects metabolism of cis-octadecenoates. Lipids (in press).

Reports in the table with "PB" prefixes may be obtained from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Rd., Springfield, VA 22151.

In addition to the information contained in the documents listed in the table above, the Select Committee supplemented, where appropriate, its reviews with specific information from specialized sources as announced in a previous hearing opportunity notice published in the FEDERAL REGISTER of September 23, 1974 (39 FR 34218).

The Select Committee's tentative reports on (1) adipic acid, (2) formic acid, ethyl formate, and sodium formate, and (3) hydrogenated soybean oil are available for review in the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20857, and also at the Public Information Office, Food and Drug Administration, Rm. 3807, 200 C St. SW., Washington, D.C. 20204. In addition, all reports and documents used by the Select Committee to review the ingredients are available for review in the office of the Hearing Clerk.

To schedule the public hearing, the Select Committee must be informed of the number of persons who wish to attend and the length of time requested to give their views. Accordingly, any interested person who wishes to appear at the public hearing to make an oral presentation shall so inform the Select Committee in writing, addressed to: The Select Committee on GRAS Substances, Life Sciences Research Office, Federation of American Societies for Experimental Biology, 9650 Rockville Pike, Bethesda, MD 20014. A copy of each such request shall be sent to the Hearing Clerk, address noted above, and all such requests shall be placed on public display in that office. Any such requests must be postmarked on or before February 28, 1977, shall state the substance(s) on which an opportunity to present oral views is requested, and shall state how much time is requested for the presentation. As soon as possible thereafter, a notice announcing the date, time, place, and scheduled presentations for any public hearing that may be requested will be published in the FEDERAL REGISTER.

The purpose of the public hearing is to receive data, information, and views not previously available to the Select Committee about the substances listed above. Information already contained in the scientific literature reviews and in the tentative Select Committee report shall not be duplicated, although views on the interpretation of this material may be presented.

Depending on the number of requests for opportunity to make oral presentations, the Select Committee may reduce the time requested for any presentation. Due to time limitations, individuals and organizations with common interests are urged to consolidate their presentations. Any interested person may, in lieu of an oral presentation, submit written views, which shall be considered by the Select Committee. Three copies of such written views shall be addressed to the Select Committee at the address noted above, and must be postmarked not later than 10 days before the scheduled date of the hearing. A copy of any written views shall be sent to the Hearing Clerk, Food and Drug Administration, and shall be placed on public display in that office.

A public hearing will be presided over by a member of the Select Committee. Hearings will be transcribed by a reporting service, and a transcript of each hearing may be purchased directly from the reporting service and will also be placed on public display in the office of the Hearing Clerk, Food and Drug Administration.

Dated: January 17, 1977.

JOSEPH P. HILE,
Associate Commissioner for Compliance.

[FR Doc.77-2222; Filed 1-27-77;8:45 am]

Assistant Secretary for Education

NATIONAL CENTER FOR EDUCATION STATISTICS

Comments on Collection of Information and Data Acquisition Activity

Pursuant to section 406(g)(2)(B), General Education Provisions Act, notice is hereby given as follows:

The U.S. Office of Education has proposed collections of information and data acquisition activities which will request information from educational agencies or institutions.

The purpose of publishing this notice in the FEDERAL REGISTER is to afford each educational agency or institution subject to a request under the proposed collection of information and data acquisition activities and their representative organizations an opportunity, during a 30-day period before transmittal to the Director of the Office of Management and Budget, to comment to the Administrator of the National Center for Education Statistics on the collections of information and data acquisition activities.

Descriptions of the proposed collections of information and data acquisition activities follow below.

Written comments on the proposed activity are invited. Comments must be received on or before February 28, 1977 and should be addressed to Administrator, National Center for Education Statistics, ATTN: Manager, Information Acquisition, Planning, and Utilization, Room 3001, 400 Maryland Avenue, S.W., Washington, D.C. 20202.

Further information may be obtained from Elizabeth M. Proctor of the National Center for Education Statistics, 202-245-1022.

MARIE D. ELDRIDGE,
Administrator, National Center for Education Statistics.

Dated: January 25, 1977.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA COLLECTION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY:

A Study of the State of Bilingual Materials Development and the Transition of materials to classrooms ("Evaluation of Bilingual Curriculum Development Activities").

2. AGENCY/BUREAU/OFFICE:
U.S. Office of Education, Office of Planning, Budgeting and Evaluation.

3. AGENCY FORM NUMBERS:
OE 515-1, OE 515-2.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY:

The Bilingual Education Program authorized under Title VII of the Elementary and Secondary Education Act (ESEA) provides funds to local education agencies (LEA's) for projects designed to meet the special needs of children who come from homes in which the dominant language is not English. The original 1968 legislation, P.L. 90-247 stipulates in Section 704(a)(b) that approved activities include "• • • the development and dissemination of special instructional materials for use in bilingual education programs • • •." The Education Amendments of 1974, P.L. 93-380, Section 742(c)(2) directs the Commissioner of Education to "develop and disseminate instructional materials and equipment suitable for use in bilingual education programs • • •." The Interim Rules and Regulations for the Title VII Program published in the Federal Register in 1975 (Section 123.12, "Authorized Activities") refers to the establishment of Resource Centers, Materials Development Centers, and Dissemination and Assessment Centers to carry out the development and dissemination plans.

Planning and evaluation activities are authorized under the General Education Provisions Act which provides appropriations for: "(1) planning for the succeeding year for any • • • program, and (2) evaluation of • • • programs." The law also states in part: "• • • the Secretary shall transmit to [appropriate Congressional committees] an annual evaluation report which evaluates the effectiveness of applicable programs • • • such report shall • • • contain information on progress being made • • • describe the costs and benefits of the applicable program • • • identify which sectors of the public receive the benefits of such program • • •" (20 U.S.C. 1226C).

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE:
Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED:

The information will be used by the Office of Education in its administration of the Bilingual Education Act, particularly to determine appropriate budget levels for material development and dissemination activities and to provide guidelines for improving the coordination of activities of Materials Development Centers, Dissemination and Assessment Centers, and Resource Centers funded under Title VII.

The inventory of materials in use and the survey of materials needs will be used by Materials Development Centers and by publishers in establishing priorities for the production of materials. The inventory will also assist the Office of Civil Rights in administering Title IV of the Civil Rights Act of 1974 by providing information to be used by Lau Centers for technical assistance to local education agencies.

The overall purpose of the study is to determine the status of the development of bilingual education curriculum materials and to analyze the process through which these materials are introduced into the classroom. There are five major objectives:

To assemble a list of currently available materials and of materials presently under development;

To identify shortages of materials;

To identify the likely market for materials in short supply;

To analyze procedures for field testing, publicizing, and disseminating bilingual materials by Title VII Centers; and

To synthesize and summarize information on the state of bilingual education to curriculum materials and to design a model management plan for bilingual materials development and dissemination.

Data collected in this study will also be used by the Commissioner of Education for a report to the Congress and to the President on the condition of bilingual education in the nation, including plans for future activities to be carried out. (Public Law 93-380, Sections 731(c) and 732(c).)

7. Data Acquisition plan:

a. METHOD OF COLLECTION: LEA mail survey, phone and mail survey of commercial publishers.

b. TIME OF COLLECTION: LEA—Spring 1977; Publishers—June 1977.

c. FREQUENCY: Single time.

8. RESPONDENTS:

a. TYPE: Local Education Agencies.

b. NUMBER: 614.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 0.5.

a. TYPE: Commercial Publishers.

b. NUMBER: 50.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 0.25.

9. INFORMATION TO BE COLLECTED:

RESPONDENT TYPE: Local Educational Agencies—

Lists of bilingual materials currently used by language, subject and grade.

Lists of materials developed by the LEA.

Lists of bilingual materials needed by language, subject and grade.

Numbers of students of limited English-speaking ability by grade.

How LEAs obtain information about bilingual materials.

How LEAs disseminate information about bilingual materials.

RESPONDENT TYPE: Commercial Publishers—

Lists of currently available bilingual materials, and materials to be developed in the near future.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY:

Evaluation of Emergency School Aid (ESAA) Implementation and Impact at the Regional Level: Case Study Interview Protocols and Mail Questionnaires.

2. AGENCY/BUREAU/OFFICE:

U.S. Department of Health, Education, and Welfare, Region II, Office of the Regional Director and U.S. Office of Education, Office of Planning, Budgeting, and Evaluation.

3. AGENCY FORM NUMBER:

OE 517-1.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY:

"• • • The Secretary shall transmit (to specified committees of the Congress) an annual evaluation report which evaluates the effectiveness of applicable programs • • •" (20 USC 1226c.)

"• • • the Assistant Secretary is authorized to make grants • • • and contracts • • • for the purpose of evaluating specific programs and projects assisted under this chapter." (20 USC 1612.)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE:

Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED:

This study is needed to provide information on the effect of Regional Office procedures and assistance upon the implementation and effectiveness of ESAA Basic and Pilot projects in school districts in New York and New Jersey. The quality and usefulness of local ESAA project evaluations will be determined. Differences among districts will be examined to determine if any characteristics predict local project implementation and effectiveness.

The ultimate purpose of the study is to support alternative administrative strategies for the Regional Office which are likely to increase the effectiveness of Basic and Pilot grant projects in achiving local objectives and national goals.

The results will also be included in the Annual Evaluation Report to Congress (20 USC 1226c). Such results will be used as part of a basis for legislative or executive proposals.

Summary results will be distribtued to State and local ESAA personnel in New York and New Jersey and to other interested parties.

7. DATA ACQUISITION PLAN:

a. METHOD OF COLLECTION: Mail and personal interview.

b. TIME OF COLLECTION: Spring.

c. FREQUENCY: 1977 only.

8. RESPONDENTS:

a. TYPE: Local Education Agencies.

b. NUMBER: 23.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 1.8.

a. TYPE: Principals.

b. NUMBER: 16.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 1.8.

a. TYPE: Teachers.

b. NUMBER: 32.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 1.8.

a. TYPE: Parents.

b. NUMBER: 32.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 0.8.

a. TYPE: Other (ESAA Community Advisory Board Members).

b. NUMBER: 8.

c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 1.8.

9. INFORMATION TO BE COLLECTED:

RESPONDENT TYPE: Local Education Agencies—

Implementation processes, problems and perceived causes: Adherence to proposed project schedules, perceived problems in implementing separate project components, and factors hindering implementation.

Regional office contacts: Number of site visits made by regional office staff, advance notice for site visits, and changes suggested and resulting from site visits.

Technical assistance: Agencies which supplied technical assistance, content of the assistance, importance of assistance to project.

Project organization: Perceived importance of groups or individual contributors to the ESAA project, description of the role of major contributors, procedures for selection of students, and staff, inservice training.

Project goals: Perceived achievement of goals, relation of goals to problems of desegregation, perceived needs of minority isolated students.

Evaluation activities: Established evaluation criteria by component, difficulties in evaluating component, contribution of evaluation procedures to project.

Next year's proposal process: Applications submitted, differences from previous years' suggestions for change in application processes.

RESPONDENT TYPE: Principals—

Project organization: Personal level of involvement, school eligibility, student eligibility, nature of ESAA activities, differences of ESAA from regular activities, contributions of individuals or groups.

Next year's awards process: Application submitted, level of participation, difference from previous years, support for ESAA activities without Federal funding.

RESPONDENT TYPE: Teachers—

Similar to principals but the questions are directed to the individual teachers' classrooms and not the total school.

RESPONDENT TYPE: Parents—

Role in ESAA process: Knowledge of ESAA activities, difference from regular school activities, role in decision making, evaluation of ESAA Advisory Committee.

Desegregation plan and/or minority isolation: Effect of plan on children, problems arising from desegregation plan, perceived needs of minority isolated children, relationship of ESAA process to problems.

RESPONDENT TYPE: Others (ESAA Advisory Committee Members)—

Project organization: Selection of Advisory committee, selection of chairperson, level of activity in project implementation, time requirements, membership in other advisory committees.

Implementation processes, problems and their perceived causes: Adherence to proposed project schedule, specific problems, causes of problems.

Regional office contacts: Number of site visits made by regional office staff, objectives of site visits, changes suggested and resulting from site visits.

Project goals: Perceived goals of LEA program, progress toward goals, perceived national goals of ESAA.

In-service training: Personal participation, objectives of training, evaluation of training, differences from regular training.

Desegregation plan and/or minority isolation nature of problems resulting from desegregation plan; needs of minority isolated students, relation of ESAA activities.

Evaluation activities: Description of activities, difficulties in evaluating activities, progress toward meeting criteria, alternative criteria for project success.

Implementation processes, problems and their perceived causes: Adherence to proposed project schedule, perceived problems in implementing separate project components.

Regional Office contacts: Number of site visits made by regional office staff, objectives of site visits, changes suggested and resulting from site visits.

Project goals: Perceived achievement of goals, progress toward goals, relation of goals to problems of desegregation, perceived needs of minority isolated students.

Evaluation activities: Nature of evaluation activities, alternative criteria for project success.

Next year's proposal process: Application submitted, level of participation, differences from previous years, suggestions for change in application process.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY:

A Review of State Oversight in Postsecondary Education.

2. AGENCY/BUREAU/OFFICE:

U.S. Office of Education, Office of Planning, Budgeting, and Evaluation.

3. AGENCY FORM NUMBER:

OE 526.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY:

"The term 'institution of higher education' means an educational institution in any State which • • • is legally authorized within such State to provide a program of education beyond secondary education • • •" (Sec. 1201(a), Higher Education Act of 1965 as amended, 20 USC 1141.)

"The Commissioner shall publish a list of agencies which he determines to be reliable authority as to the quality of public postsecondary vocational education in their respective States for the purpose of determining eligibility for all Federal students assistance programs." (Sec. 438(b), Higher Education Act of 1965 as amended, 20 USC 1087.)

"The Secretary shall transmit to the Committee on Education and Labor of the House of Representatives and the Committee on Labor and Public Welfare of the Senate an annual evaluation report which evaluates the effectiveness of applicable programs in achieving their legislated purposes together with recommendations relating to such programs for the improvement of such programs which will result in greater effectiveness in achieving such purposes." (Sec. 417(a), General Education Provisions Act, 20 USC 1226(c).)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE:
Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED:

Since State agencies are responsible for charting/licensing, and in a number of States approving, postsecondary institutions that thus become eligible to participate in federal assistance programs, this study is designed to provide the Office of Education (OE) with an accurate appraisal of the current status of State agencies legislative authorization for licensing and accrediting. The relationship of these laws and regulations to the practices and processes of the States in the licensing and accrediting of postsecondary institutions is the primary thrust of the study. Since postsecondary institutions become eligible to participate in (OE) programs because of such licensing and accrediting, the information will be used by the Division of Eligibility and Agency Evaluation (DEAE) of the (OE) to evaluate these State activities as well as to maintain a current file on the status of these activities.

7. DATA ACQUISITION PLAN:

a. METHOD OF COLLECTION: Telephone interviews.
b. TIME OF COLLECTION: Spring, 1977.
c. FREQUENCY: Once.

8. RESPONDENTS:

a. TYPE: State Authorizing and/or Regulating Agencies for Public and Private Postsecondary Institutions.
b. NUMBER: 182 (estimated).
c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 2.

9. INFORMATION TO BE COLLECTED:

The survey will collect information on the States' practices for determining the eligibility of postsecondary institutions that may participate in federal assistance programs. Questions will be designed to ask State agencies about their general structure and function in this area of licensing and eligibility; specific operational responsibilities regarding institutional practices; preferred federal technical assistance; and with aspects of their laws, detailing the agency's postsecondary institutional responsibilities, have allowed them to function particularly effectively or ineffectively.

DESCRIPTION OF A PROPOSED COLLECTION OF INFORMATION AND DATA ACQUISITION ACTIVITY

1. TITLE OF PROPOSED ACTIVITY:
Comprehensive Career Guidance Programs: Interview Schedules.

2. AGENCY/BUREAU/OFFICE:
Office of Education, Bureau of Occupational and Adult Education.

3. AGENCY FORM NUMBER:
OE Form 552.

4. LEGISLATIVE AUTHORITY FOR THIS ACTIVITY:

"Section 408. (a) Each administrative head of an education agency, in order to carry out functions otherwise vested in him by law, is, subject to limitations as may be otherwise imposed by law, authorized—. . . . (4) without regard for section 3648 of the Revised Statutes of the United States (31 U.S.C. 529), to enter into and perform such contracts, . . . as may be necessary for the conduct of such agency. . . ." (P.L. 93-380, sec. 502(a)(1); 20 U.S.C. 1221e-3)

5. VOLUNTARY/OBLIGATORY NATURE OF RESPONSE:
Voluntary.

6. HOW INFORMATION TO BE COLLECTED WILL BE USED:
Information collected on comprehensive career guidance programs and projects will be used by the Bureau of Occupational and Adult Education in (1) formulating future national policy directions and priorities concerning research, development, and implementation of comprehensive systems of career guidance and (2) assisting state and local education agencies in improving their capacities to provide comprehensive systems of career guidance.

7. DATA ACQUISITION PLAN:

a. METHOD OF COLLECTION: Personal Interview.
b. TIME OF COLLECTION: Spring, 1977.
c. FREQUENCY: Once.

8. RESPONDENTS:

a. TYPE: State Career Guidance Specialists in State Education Agencies.
b. NUMBER: 51 (Universe).
c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 3.

a. TYPE: Project Directors of Career Guidance grants in State Education Agencies, colleges and universities, local education agencies, and nonprofit organizations.
b. NUMBER: 38 (Universe).
c. ESTIMATED AVERAGE MAN-HOURS PER RESPONDENT: 3.

9. INFORMATION TO BE COLLECTED:

The following types of information will be requested about career guidance and development: definitions; concerns of minority racial and ethnic groups, the handicapped and disadvantaged, and other special groups; needs assessment; goals and objectives; personnel development and utilization; development of materials, procedures, and techniques; placement and follow-through components; information and/or communications networks; program planning and program management components and procedures; and research and evaluation provisions.

Redelegations of Authority Pertaining to the Reimbursement of Suppliers of End-Stage Renal Disease Services Under the Medicare Program, and to the Withdrawal of Approval of Medicare Coverage of Such Suppliers of Services

Correction

In FR Doc. 37112, appearing at page 55242 in the issue of Friday, December 17, 1976, and corrected at 42 FR 3901, January 21, 1977, is further corrected, on page 55243, in the ninth line, in the first column, following the words "subsection (g)", delete the words "of section (g)".

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Interstate Land Sales Registration Office

[Docket No. N-77-678]

ELCONA HOMES CORP. AND ROBERT P. MYER

Hearing

Pursuant to 42 U.S.C. 5414(g) and 24 CFR 3282.152(c) Notice is hereby given that:

1. Elcona Homes Corporation and Robert P. Myer, President, hereinafter referred to as "Respondent," being subject to the provisions of the National Mobile Home Construction and Safety Standards Act of 1974 (Pub. L. 93-383, 42 U.S.C. 5401 et seq.) received a Notice of Preliminary Determination and Opportunity for Hearing issued November 23, 1976, which was sent to the Respondent pursuant to 42 U.S.C. 5414, 24 CFR 3282.151, 24 CFR 3282.407(a)(2), and 24 CFR 3282.408(b) informing the Respondent of information obtained by the Office of Consumer Affairs and Regulatory Functions—Mobile Home Standards Division alleging that an imminent safety hazard as defined at 24 CFR 3282.7(g) may exist in certain mobile homes manufactured by Respondent.

2. The Respondent filed an Answer received December 7, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Preliminary Determination and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 42 U.S.C. 5414(g), 24 CFR 3282.151 and 24 CFR 3282.152(g), it is hereby ordered that a public hearing for the purpose of taking evidence on the question set forth in the Notice of Preliminary Determination and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 Seventh Street, SW, Washington, D.C. on February 3, 1977 at 10 a.m., and all inquiries concerning these proceedings should be directed to him.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, Room 10278, Washington, D.C., 20410 on or before January 31, 1977. Copies of all documents filed should be served at the same time on all parties of record.

This Notice shall be served upon the Respondent forthwith pursuant to 24 C.F.R. 3282.152(c)(1).

By the Secretary.

Dated: January 21, 1977.

JAMES W. MAST,
Chief Administrative Law Judge.

[FR Doc.77-2782 Filed 1-27-77;8:45 am]

[Docket No. N-77-679]

MASON HOMES INC.

Hearing

Pursuant to 42 U.S.C. 5414(g) and 24 CFR 3282.152(c) Notice is hereby given that:

1. Mason Homes, Inc. and John F. Dearwester, President, hereinafter referred to as "Respondent," being subject to the provisions of the National Mobile Home Construction and Safety Standards Act of 1974 (Pub. L. 93-383, 42 U.S.C. 5401 et seq.) received a Notice of Preliminary Determination and Opportunity for Hearing issued November 19, 1976, which was sent to the Respondent pursuant to 42 U.S.C. 5414, 24 CFR 3282.151, 24 CFR 3282.407(a)(2), and 24 CFR 3282.408(b) informing the Respondent of information obtained by the Office of Consumer Affairs and Regulatory Functions—Mobile Home Standards Division alleging that an imminent safety hazard as defined at 24 CFR 3282.7(g) may exist in certain mobile homes manufactured by Respondent.

2. The Respondent filed an Answer received December 2, 1976, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Preliminary Determination and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 42 U.S.C. 5414(g), 24 CFR 3282.151 and 24 CFR 3282.152(g), it is hereby ordered that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Preliminary Determination and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 Seventh Street, SW, Washington, D.C. on February 3, 1977 at 10 a.m., and all inquires concerning these proceedings should be directed to him.

5. The following time and procedure is applicable to such hearing: The parties are directed to file all affidavits and a list of all witnesses with the Hearing Clerk, HUD Building, Room 10278, Washington, D.C., 20410 on or before January 31, 1977. Copies of all documents filed should be served at the same time on all parties of record.

This Notice shall be served upon the Respondent forthwith pursuant to 24 C.F.R. 3282.152(c)(1).

By the Secretary.

Dated: January 21, 1977.

JAMES W. MAST,
Chief, Administrative Law Judge.

Office of the Secretary

[Docket No. D-77-478]

REGIONAL ADMINISTRATORS AND AREA DIRECTORS

Delegation of Authority With Respect to Labor Standards Administration for New Communities

Each Regional Administrator and Area Director is hereby authorized to exercise the power and authority of the Secretary of Housing and Urban Development to administer and enforce departmental labor standards for New Communities projects assisted by guarantees under Title IV of the Housing and Urban Development Act of 1968 (Pub. L. 90-448, 81 Stat. 476, 513; 42 U.S.C. 3901 et seq.) and Title VII of the Housing and Urban Development Act of 1970 (Pub. L. 91-609, 84 Stat. 1791; 42 U.S.C. 4501). Each Regional Administrator shall be responsible for coordination and supervision of overall enforcement activities within the jurisdictional area of the Regional Office as well as day-to-day enforcement activities for jurisdictional areas assigned to Insuring Offices within the Region. The Area Director shall be responsible for day-to-day enforcement activities within the jurisdictional area of the Area Office.

Authority to redelegate. Each Regional Administrator and Area Director is authorized to redelegate to subordinate employees any of the authority set forth above.

(Sec. 7(d), Department of HUD Act, 12 U.S.C. 3535(d)).

Effective date: This delegation of authority is effective as of January 8, 1977.

CARLA A. HILLS,
Secretary of Housing and Urban Development.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR 13512]

OREGON

Order Providing for Opening of Public Lands

JANUARY 21, 1977.

1. In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934, 48 Stat. 1269, 1272, as amended and supplemented, 43 U.S.C. 315g (1970), the following lands have been reconveyed to the United States:

WILLAMETTE MERIDIAN

T. 33 S., R. 32¾ E.,
Sec. 23, SE¼SE¼;
Sec. 24, E½SW¼, SW¼SW¼, NW¼SE¼, and E½SE¼;
Sec. 25, SE¼NE¼;
Sec. 26, N½NE¼, SW¼NE¼, and SE¼NW¼.
T. 34 S., R. 32¾ E.,
Sec. 1, lots 1 and 2, S½NE¼, S½SW¼, and SE¼;
Sec. 2, S½SE¼;
Sec. 12, N½N½.
T. 33 S., R. 33 E.,
Sec. 8, S½N½, S½SW¼, NE¼SE¼, and SW¼SE¼;
Sec. 9, N½SW¼, W½SE¼, and SE¼SE¼;
Sec. 10, S½SW¼;
Sec. 15, N½NW¼;
Sec. 16, E½, E½NW¼, NW¼NW¼, and SE¼SW¼;
Sec. 17, SW¼NW¼;
Sec. 20, S½S½;
Sec. 21, S½NW¼, N½S½, and SE¼SE¼;
Sec. 22, SW¼, E½SE¼, and SW¼SE¼;
Sec. 23, SW¼SW¼;
Sec. 26, NW¼NW¼ and SW¼SW¼;
Sec. 27, S½;
Sec. 28, SE¼NE¼, NW¼NW¼, S½SW¼, and SE¼SE¼;
Sec. 29, N½N½, SW¼NW¼, SW¼, and S½SE¼;
Sec. 32, N½NE¼, SE¼NE¼, and NE¼NW¼;
Sec. 33, N½NE¼ and NW¼;
Sec. 34, NW¼NE¼, N½NW¼, and SE¼NW¼.

The areas described aggregate 4,680.24 acres in Harney County.

2. The United States did not acquire any mineral rights with the following land:

WILLAMETTE MERIDIAN

T. 33 S., R. 33 E.,
Sec. 16, S½NE¼, SE¼NW¼, SE¼SW¼, and SE¼.

3. All the minerals in the following described lands were and continue to be in United States' ownership and open to operation of the mining laws (Ch. 2, Title 30 U.S.C.) and the mineral leasing laws:

WILLAMETTE MERIDIAN

T. 34 S., R. 32¾ E.,
Sec. 1, lots 1 and 2, S½NE¼, S½SW¼, and SE¼;
Sec. 2, S½SE¼;
Sec. 12, N½N½.
T. 33 S., R. 33 E.,
Sec. 20, S½S½;
Sec. 21, SE¼NW¼ and SE¼SE¼;
Sec. 22, SE¼SW¼, E½SE¼, and SW¼SE¼;
Sec. 23, SW¼SW¼;
Sec. 26, NW¼NW¼ and SW¼SW¼;
Sec. 28, S½SW¼;
Sec. 29, N½N½ and SW¼SW¼;
Sec. 32, SE¼NE¼, NW¼NE¼, and NE¼NW¼;
Sec. 33, N½NE¼, NE¼NW¼, and S½NW¼;
Sec. 34, NW¼NE¼, N½NW¼, and SE¼NW¼.

4. The subject lands are located on the western slope of Steens Mountain approximately 70 miles south of the City of Burns. Elevation ranges from 6,000 to 9,000 feet above sea level, and the topography is characterized by three glaciated gorges, containing the Little Blitzen River, Big Indian Creek, and Little Indian Creek, with moderately steep to very steep slopes. Vegetation consists primarily of native brush and grasses with large stands of aspen and willow near the streams. In the past, the lands have been used for livestock grazing purposes. The lands will be managed, together with adjoining national resource lands, for multiple use.

5. Subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, the lands described in paragraph 1 hereof are hereby open (except as provided in paragraphs 2 and 3 hereof) to operation of the public land laws, including the mining laws (Ch. 2, Title 30 U.S.C.), and the mineral leasing laws. All valid applications received at or prior to 10 a.m., February 26, 1977, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

6. Inquiries concerning the lands should be addressed to the Chief, Branch of Lands and Minerals Operations Bureau of Land Management, P.O. Box 2965, Portland, Oregon, 97208.

HAROLD A. BERENDS,
Chief, Branch of Lands and Minerals Operations.

INTERNATIONAL TRADE COMMISSION

[TA-203-2]

CERTAIN ALLOY TOOL STEEL

Change of Date of Hearing

Notice is hereby given that the public hearing in this matter previously scheduled for January 25, 1977, has been rescheduled to begin at 10 a.m., e.s.t., on Monday, January 31, 1977 in the Commission's Hearing Room, United States International Trade Commission Building, 701 E Street, NW., Washington, D.C.

Notice of the investigation and the hearing was published in the FEDERAL REGISTER of January 19, 1977 (42 FR 3715).

Issued: January 24, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.77-2739 Filed 1-27-77;8:45 am]

GOVERNMENT IN THE SUNSHINE

Deletion of Agenda Items

At its meeting of January 24, 1976, the United States International Trade Commission, acting on the authority of 19 U.S.C. 1335 and in conformity with proposed 19 CFR 201.38, voted to delete the following items from its agenda for the meeting of January 24, 1977:

4. Status report on self-initiated studies;
6. Sugar (Inv. TA-201-16)—briefing by the staff (to be held after 3 p.m., EST);
8. Footwear (Inv. TA-201-18)—further consideration of the Commission's determination, if necessary.

Commissioners Minchew, Leonard, Bedell, and Ablondi voted by unanimous consent that Commission business requires the change in subject matter by deletion of these agenda items, affirmed that no earlier announcement of the deletion of these agenda items were possible, and directed the issuance of this notice at the earliest practicable time. (Commissioners Parker and Moore were not present for the vote.)

Issued: January 24, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.

GOVERNMENT IN THE SUNSHINE

Emergency Meeting

Interested members of the public are invited to attend and to observe the meeting of the United States International Trade Commission to be held on January 21, 1977, beginning at 5:15 p.m., in the Hearing Room of the United States International Trade Commission, 701 E Street, NW., Washington, D.C., 20436. The Commission plans to consider the following agenda item in open session:

1. Sugar (Inv. TA-201-16)—see memorandum from the General Counsel of January 21, 1977, subject: "U.S. International Trade Commission v. American-Maize Products Company et al.", Misc. No. 77-0005.

Commissioners Minchew, Parker, Leonard, Moore, and Bedell determined by recorded vote that Commission business requires that the meeting of January 21, 1977, be called with less than one week's prior notice and directed the issuance of this notice at the earliest practicable time. (Commissioner Ablondi was not present during the vote.)

If you have any questions concerning the agenda for the January 21, 1977, Commission meeting, please contact the Secretary to the Commission at (202) 523-0161. Access to documents to be considered by the Commission at the meeting is provided for in Subpart C of the Commission's rules (19 CFR 201.17-201.21).

On the authority of 19 U.S.C. 1335 and in conformity with proposed 19 CFR 201.39(a), when a person's privacy interests may be directly affected by holding a portion of a Commission meeting in public, that person may request the Commission to close such portion to public observation. Such requests should be communicated to the Office of the Chairman of the Commission.

Issued: January 21, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.77-2741 Filed 1-27-77;8:45 am]

GOVERNMENT IN THE SUNSHINE

Emergency Meeting

Interested members of the public are invited to attend and to observe the meeting of the United States International Trade Commission to be held on January 27, 1977, beginning at 11 a.m., in the Hearing Room of the United States International Trade Commission, 701 E Street, N.W., Washington, D.C., 20436. The Commission plans to consider the following agenda item:

1. Reorganization.

Commissioners Minchew, Parker, Leonard, Moore, Bedell, and Ablondi determined by recorded vote that Commission business requires that the meeting of January 27, 1977, be called with less than one week's prior notice and directed the issuance of this notice at the earliest practicable time.

If you have any questions concerning the agenda for the January 27, 1977, Commission meeting, please contact the Secretary to the Commission at (202) 523-0161. Access to documents to be considered by the Commission at the meeting is provided for in Subpart C of the Commission's rules (19 CFR 201.17-201.21).

On the authority of 19 U.S.C. 1335 and in conformity with proposed 19 CFR 201.39(a), when a person's privacy interests may be directly affected by holding a portion of a Commission meeting in public, that person may request the Commission to close such portion to public observation. Such requests should be communicated to the Office of the Chairman of the Commission.

Pursuant to the specific exemptions of 5 U.S.C. 552b(c) (2) and (6), on the authority of 19 U.S.C. 1335, and in conformity with proposed 19 CFR 201.37(b) (2) and (6), Commissioners Parker, Moore, Bedell, and Ablondi voted to hold the portion of the January 27, 1977, meeting with respect to the selection of personnel under reorganization (agenda item No. 1) in closed session. Commissioners Minchew and Leonard voted against closing this portion to the public.

A majority of the entire membership of the Commission felt that this portion of the meeting should be closed to the public since: (1) The discussion would only concern internal personnel practice and procedures; and (2) the information discussed in such portion would be likely to disclose information of a personal nature which could constitute a clearly unwarranted invasion of personal privacy.

Those persons expected to be present at this closed portion, and their corresponding affiliations, are listed as follows:

Daniel Minchew, Chairman
Joseph O. Parker, Vice Chairman
Will E. Leonard, Commissioner
George M. Moore, Commissioner
Catherine Bedell, Commissioner
Italo H. Ablondi, Commissioner
Kenneth R. Mason, Secretary
E. Bernice Morris, Staff Assistant
Charles R. Ramsdale, Acting Director, Personnel
Norma H. Warbis, Personnel Management Specialist (if Mr. Ramsdale is not available)
Bruce N. Hatton, Assistant to Commissioner Leonard

The General Counsel to the Commission certified that it is his opinion that the Commission's action in closing this portion of its meeting of January 27, 1977, was properly taken by a vote of a majority of the entire membership of the Commission pursuant to 5 U.S.C. 552b(d)(1) and in conformity with proposed 19 CFR 201.37(e). The discussion to be held in closed session is within the specific exemptions of 5 U.S.C. 552b(c) (2) and (6) and proposed 19 CFR 201.37 (b) (2) and (6).

Issued: January 24, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.
RUSSELL N. SHEWMAKER,
General Counsel.

[FR Doc.77-2742 Filed 1-27-77;8:45 am]

GOVERNMENT IN THE SUNSHINE

Emergency Meeting

Interested members of the public are invited to attend and to observe the meeting of the United States International Trade Commission to be held on January 28, 1977, beginning at 10 a.m., in the Hearing Room of the United States International Trade Commission, 701 E Street, NW., Washington, D.C., 20436. The Commission plans to consider the following agenda item:

1. Reorganization.

Commissioners Minchew, Parker, Leonard, Moore, Bedell, and Ablondi determined by recorded vote that Commission business requires that the meeting of January 28, 1977, be called with less than one week's prior notice and directed the issuance of this notice at the earliest practicable time.

If you have any questions concerning the agenda for the January 28, 1977, Commission meeting, please contact the Secretary to the Commission at (202) 523-0161. Access to documents to be considered by the Commission at the meeting is provided for in Subpart C of the Commission's rules (19 CFR 201.17-201.21).

On the authority of 19 U.S.C. 1335 and in conformity with proposed 19 CFR 201.39(a), when a person's privacy interests may be directly affected by holding a portion of a Commission meeting in public, that person may request the Commission to close such portion to public observation. Such requests should be communicated to the Office of the Chairman of the Commission.

Pursuant to the specific exemptions of 5 U.S.C. 552b(c) (2) and (6), on the authority of 19 U.S.C. 1335, and in conformity with proposed 19 CFR 201.37(b) (2) and (6), Commissioners Parker, Moore, Bedell, and Ablondi voted to hold the portion of the January 28, 1977, meeting with respect to the selection of personnel under reorganization (agenda item No. 1) in closed session. Commissioners Minchew and Leonard voted against closing this portion to the public.

A majority of the entire membership of the Commission felt that this portion of the meeting should be closed to the public since: (1) The discussion would only concern internal personnel practice and procedures; and (2) the information discussed in such portion would be likely to disclose information of a personal nature which could constitute a clearly unwarranted invasion of personal privacy.

Those persons expected to be present at this closed portion, and their corresponding affiliations, are listed as follows:

Daniel Minchew, Chairman
Joseph O. Parker, Vice Chairman
Will E. Leonard, Commissioner
George M. Moore, Commissioner
Catherine Bedell, Commissioner
Italo H. Ablondi, Commissioner
Kenneth R. Mason, Secretary
E. Bernice Morris, Staff Assistant
Charles R. Ramsdale, Acting Director, Personnel
Norma H. Warbis, Personnel Management Specialist (if Mr. Ramsdale is not available)
Bruce N. Hatton, Assistant to Commissioner Leonard

The General Counsel to the Commission certified that it is his opinion that the Commission's action in closing this portion of its meeting of January 28, 1977, was properly taken by a vote of a majority of the entire membership of the Commission pursuant to 5 U.S.C. 552b(d)(1) and in conformity with proposed 19 CFR 201.37(e). The discussion to be held in closed session is within the specific exemptions of 5 U.S.C. 552b(c) (2) and (6) and proposed 19 CFR 201.37(b) (2) and (6).

Issued: January 24, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.
RUSSELL N. SHEWMAKER,
General Counsel.

PRELIMINARY DRAFTS OF PARTS OF AN ENUMERATION OF ARTICLES TO PROVIDE FOR COMPARABILITY AMONG U.S. IMPORT, PRODUCTION, AND EXPORT DATA

Release for Public Comment

Notice is hereby given that the United States Departments of the Treasury and Commerce and the United States International Trade Commission are releasing for public comment the following preliminary drafts of parts of an enumeration of articles which will provide for comparability among U.S. import, production, and export data pursuant to section 484(e) of the Tariff Act of 1930 (19 U.S.C. 1484(e)), as amended by section 608(a) of the Trade Act of 1974 (19 U.S.C. 2101):

Nonmetallic minerals and products, except ceramic products and glass and glass products—schedule 5, part 1, *Tariff Schedules of the United States Annotated* (TSUSA);
Luggage; women's and children's handbags; and billfolds, card cases, coin purses, and similar flat goods—schedule 7 part 1D, *TSUSA;*

Motion pictures; tape recordings, phonograph records and other recordings; recording media; scrap and waste photographic film—schedule 7, part 2G, *TSUSA*; Fishing tackle; wheel goods; games and sporting goods; models; dolls, toys, party favors—schedule 7, part 5, subparts B, C, D, and E, *TSUSA*.

Background. The preparation of the drafts by the three agencies has generally proceeded from recommendations made in a joint report of the Secretary of Commerce and the U.S. International Trade Commission, dated August 1, 1975, submitted to Congress and the President pursuant to section 608(b) of the Trade Act of 1974, and entitled "Principles and Concepts Which Should Guide the Organization and Development of an Enumeration of Articles Which Would Result in Comparability of U.S. Import, Production, and Export Data."

The report noted that the principal advantages of achieving comparability among import, production, and export data are—

1. To permit the development and implementation of a more coordinated and efficient program for the administration, interpretation, and maintenance of national systems;
2. To improve and facilitate the publication of trade data most useful for international economic analysis;
3. To permit more reliable analysis of the impact of external trade on domestic industry.

In making specific recommendations concerning the organization and development of an enumeration of articles which would result in comparability, the report recognized various prerequisites to achieving comparability, such as adhering to sound nomenclature principles, employing identical descriptive techniques and product definitions, using compatible standards of valuation and measurement, and providing for centralized responsibility for interpretation and coordinated responsibility for maintenance. The report also acknowledged many of the practical considerations involved in achieving comparability among the three generally discordant classification systems presently used for the collection of import, production, and export data, including reconciling differences among the three existing systems, preserving statistical continuity, and achieving useful levels of product comparability with the least disruptive impact on current programs and reporting.

In summary, the specific recommendations provided that—

1. The organizational framework of the TSUS should be adopted as the basis for the enumeration of the export schedule.
2. The review and development of an enumeration should take into account the current import, production, and export product classes, with the primary aim of obtaining comparability at a common level.
3. Changes may be proposed to any system, including combinations, subdivisions, and modifications of existing language and content. In particular, consideration should be given to updating of definitions and terms to make them more reflective of current practice in the trade. It must be borne in mind that the TSUS structure and detail are legally based. Therefore, the enumeration should consist of individual TSUSA classifications, or combinations of individual TSUSA classifications (current or as proposed by this program), since this is the only way to attain comparability to the relatively rigid classifications of imports. Combinations may be made of commodities falling in different TSUS classes, if necessary, as long as they consist of aggregations of individual TSUSA classifications.

Continuing program for statistical annotation. The establishment of an enumeration for statistical purposes is, and should be looked upon as, a continuing program. It is intended that the initial modifications to the import, production, and export schedules will serve as a basis for further refinement and change. Modifications to each of the systems will be made from time to time to reflect changing statistical needs and also to improve the comparability of U.S. trade data with trade data reported by other countries on the basis of the Standard International Trade Classification (SITC). The publication of trade data by the Department of Commerce on the basis of the SITC will continue.

Modifications to the Tariff Schedules of the United States. Any proposals to modify the TSUS (other than statistical annotations thereto) could not be implemented without legislative approval. After comments have been recovered and reviewed, consideration may then be given to the extent of, and need for, amendatory legislation.

Comments by interested parties. Over the next several months further preliminary drafts will be released for public comment and consideration. Interested parties are invited to comment on all aspects of the comparability program. Specific recommendations and proposals are invited with respect to the extent to which the drafts would—

Recognize the specific needs of users of statistics; Facilitate economic analysis; Reflect sound principles of commodity identification and specification; and Impose undue reporting burdens for business establishments.

We would also welcome comments with respect to modifications which would provide greater comparability with the SITC (revision 2).

Copies of the drafts are available from the Chief, Industry and Commodity Classification Branch, Economic Surveys Division, U.S. Bureau of the Census, Washington, D.C. 20233.

Written comments should be submitted at the earliest practicable date, but, to be assured of consideration, not later than 60 days after release of the drafts. Such statements should be submitted to the Chief, Industry and Commodity Classification Branch, at the address shown above.

Issued: January 24, 1977.

By order of the Commission.

KENNETH R. MASON,
Secretary.

INTERNATIONAL TRADE COMMISSION

[332-82]

TEXTILE IMPORTS

Probable Domestic Impact of Changing From "Chief Value" Method of Classification to "Chief Weight" Method

In response to a request dated January 5, 1977, by the President of the United States, the United States International Trade Commission instituted an investigation on January 7, 1977, under section 332(g) of the Tariff Act of 1930, as amended (19 U.S.C. 1332(g)), to determine the probable domestic impact of changing from the current "chief value" method of classifying textile imports to a method by which textiles would be classified according to the fiber that constituted their "chief weight." The full text of the request is as follows:

DEAR MR. CHAIRMAN: Most textile imports composed of two or more fibers currently are classified for tariff purposes according to the value of the component fibers. For example, a cotton-polyester blended shirt is classified as a cotton shirt if the cotton component has a greater value than the polyester component. This practice is consistent with the current General Headnotes of the Tariff Schedules of the United States (TSUS).

The "chief value" method of classifying textile articles has been criticized on the grounds that it is unstable and unduly difficult to adminnster. It is argued that these problems would not exist if textile articles were classified on the basis of the weight of the component fibers, rather than on the basis of their value.

In order to assist the Executive Branch in deciding whether to recommend a change in the basis for classifying blended textile imports, I hereby request the USITC, pursuant to section 332(g) of the Tariff Act of 1930 (19 U.S.C. 1332(g)), to undertake a study of the probable domestic impact of changing from the current "chief value" method of classifying textile imports to a method by which textiles would be classified according to the fiber that constituted their chief weight. This study should include a consideration of the probable impact of such a change on United States customs procedures, on rates of duty, on reliability of trade data, and on U.S. production, consumption, and marketing of textiles and apparel, as well as any other domestic effects of such a change that the USITC considers relevant.

It is understood that much of the basic data that the USITC will require for this study will have to be developed by the Customs Service in connection with the processing of import entries. I am, therefore, requesting the Secretary of the Treasury to ensure that the USITC has the assistance and cooperation of the Customs Service in the conduct of this study.

I further request that this study be completed as quickly as possible, and that the results be reported to the Chairman of the Textile Trade Policy Group, the Special Representative for Trade Negotiations, for receipt on the President's behalf. Following receipt of this report, the interagency Textile Trade Policy Group will review the legal and policy effects of changing to a "chief weight" method of classification, including the potential international effects of such a change upon U.S. obligations under the General Agreement on Tariffs and Trade, under the Arrangement Regarding International Trade in Textiles, and under U.S. bilateral international textile agreements.

Sincerely,

GERALD R. FORD.

HEARINGS

Public hearings in connection with the investigation will be held in Charlotte, N.C., on April 26, 1977, New York, N.Y., on May 10, 1977, Los Angeles, Calif., on May 24 1977, and Washington, D.C., on June 7, 1977. The location of the hearings will be announced later. All interested persons will be given an opportunity to be present, to produce evidence, and to be heard at such hearings. Requests to appear at the public hearings should be addressed to the Secretary, United States International Trade Commission, 701 E Street, NW., Washington, D.C. 20436, and should be received not later than noon of the fifth calendar day preceding the hearing at which an appearance is requested.

WRITTEN SUBMISSIONS

In lieu of or in addition to appearances at the public hearings, interested persons may submit written statements. Any business information which a submitter desires the Commisison to treat as confidential shall be submitted on separate sheets, each clearly marked at the top "Confidential Business Data." All written submissions, except for confidential business data, will be made available for inspection by interested persons. To be assured of consideration by the Commission, written statements should be submitted at the earliest practicable date but not later than June 17, 1977. All submissions should be addressed to the Secretary at the Commission's office in Washington, D.C.

By order of the Commission:

Issued: January 25, 1977.

KENNETH R. MASON,
Secretary.

[FR Doc.77-2885 Filed 1-27-77;8:45 am]

DEPARTMENT OF LABOR

Employment and Training Administration

EMPLOYMENT TRANSFER AND BUSINESS COMPETITION DETERMINATIONS UNDER THE RURAL DEVELOPMENT ACT

Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed for the purposes given in the attached list. The financial asistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 USC 1924 (b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is caculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other asistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.
2. Employment trends in the same industry in the local area.
3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same area.
4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).
5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice to: Deputy Assistant Secretary for Employment and Training, 601 D St., NW, Washington, D.C. 20213.

Signed at Washington, D.C. this 24th day of January 1977.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

Applications received during the week ending Jan. 21, 1977

Name of applicant	Location of enterprise	Principal product or activity
Brookwood Lodge, Valley Springs, Inc.	Warrior, Ala.	Alcoholic treatment center.
Mountain Enterprises, Inc.	Artemus, Ky.	Manufacturing of asphalt paving mixtures and paving blocks.
Modern Electric Supply, Inc.	Lawrenceville, Ga.	Wholesale distributor of electrical materials.
Ingersoll-Rand Co. (tenant of town of Davidson).	Davidson, N.C.	Manufacturing of air compressors.
Milla A. Kollinger	St. Marie, Ill.	Nursing home.
Hopedale Service Center	Hopedale, Ill.	Provides storage facilities for material and equipment used in the construction of residential housing and confinement hog houses and other farm buildings.
Janssen Manufacturing Co.	Beresford, S. Dak.	Fabricate panelised homes and all weather wood foundations and treat lumber under an osmose franchise.

[FR Doc.77-2669 Filed 1-27-77;8:45 am]

FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Availability of Federal Supplemental Benefits in the State of Delaware

This notice announces the beginning of a new Federal Supplemental Benefit Period in the State of Delaware, effective January 23, 1977.

BACKGROUND

The Emergency Unemployment Compensation Act of 1974 (Pub. L. 93-572, enacted December 31, 1974) (the Act) created a temporary program of supplementary unemployment benefits (referred to as Federal Supplemental Benefits) for unemployed individuals who have exhausted their rights to regular and extended benefits under State and Federal unemployment compensation laws. Federal Supplemental Benefits are payable during a Federal Supplemental Benefit Period in a State which has entered into an Agreement under the Act with the United States Secretary of Labor. A Federal Supplemental Benefit Period is triggered on in a State when unemployment in the State or in the State and the nation reaches the high levels set in the Act. During a Federal Supplemental Benefit Period the maximum amount of Federal Supplemental Benefits which are payable to eligible individuals will be up to 13 weeks or 26 weeks, depending upon the level of the rate of insured unemployment in the State.

There is a Federal Supplemental Benefit "on" indicator in a State for a week if the United States Secretary of Labor determines with respect to the State that, (a) there is a State or National "on" indicator for the week, as determined for the purposes of payment of extended benefits under the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and (b) the employment security agency of the State has determined that the average rate of

insured unemployment in the State for the period consisting of that week and the immediately preceding twelve weeks equalled or exceeded 5.0 percent. The Federal Supplemental Benefit Period actually begins with the third week following the week for which there is an "on" indicator, and lasts for a minimum period of not less than 26 weeks.

Similarly, an "off" indicator ending a Federal Supplemental Benefit Period occurs in a week when the Secretary of Labor determines that the average rate of insured unemployment (as determined by the State employment security agency) for the period consisting of that week and the immediately preceeding twelve weeks is less than 5.0 percent. The Federal Supplemental Benefit Period actually ends with the third week after the week in which there is an "off" indicator, but not earlier than the end of the twenty-sixth week of the period.

DETERMINATION OF "ON" INDICATOR

The Secretary of Labor has determined under section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and 20 CFR 615.13(a), (Title 20 of the Code of Federal Regulations, § 615.13 (a)), that there is a National "on" indicator in effect which is applicable to every State, as announced in the notice published in the FEDERAL REGISTER on February 21, 1975, at 40 FR 7722. The employment security agency of the State of Delaware has determined under the Act and 20 CFR 618.19(a)(2) (published in the FEDERAL REGISTER on March 23, 1976, at 41 FR 12151, 12157) that the average rate of insured unemployment in the State for the period consisting of the week ending on January 8, 1977, and the immediately preceding twelve weeks equalled or exceeded 5.0 percent.

Therefore, I have determined in accordance with the Act and 20 CFR 618.19 (a), and as authorized by the Secretary of Labor's Order 4–75, dated April 16, 1975 (published in the FEDERAL REGISTER on April 28, 1975, at 40 FR 18515), that there was a Federal Supplemental Benefit "on" indicator in the State of Delaware for the week ending January 8, 1977, and that a Federal Supplemental Benefit Period therefore commenced in that State with the week beginning on January 23, 1977.

INFORMATION FOR CLAIMANTS

There will be a 5-per centum period in effect in the new Federal Supplemental Benefit Period, commencing at the beginning of the new period. During the 5-per centum period an individual who is eligible for Federal Supplemental Benefits will be entitled to a maximum amount of up to 13 times the individual's weekly benefit amount, or, if less, the balance in the individual's Federal Supplemental Benefit Account.

In the event that a 6-per centum period subsequently takes effect in the new Federal Supplemental Benefit Period, because the rate of insured unemployment in the State has risen to an average of 6.0 percent or more over a period of thirteen weeks, the maximum amount of Federal Supplemental Benefits payable to an eligible individual will increase. In that event an eligible individual will be entitled to a maximum amount of Federal Supplemental Benefits of up to 26 times the individual's weekly benefit amount, or, if less, the balance in the individual's Federal Supplemental Benefit Account.

The State employment security agency will furnish a written notice of potential entitlement to Federal Supplemental Benefits to each individual who is an "exhaustee" (as defined in the Act and 20 CFR 618.5) of regular and extended benefits payable under State and Federal unemployment compensation laws, and to each individual who has a previously established Federal Supplemental Benefit Account in which there is any balance as of the beginning of the new Federal Supplemental Benefit Period. The State employment security agency also will furnish a written notice to each individual for whom a Federal Supplemental Benefit Account has been established, of the beginning or ending of a 6-per centum period in the new Federal Supplemental Benefit Period, and its effect on the individual's entitlement to Federal Supplemental Benefits.

Persons who believe they may be entitled to Federal Supplemental Benefits in the State of Delaware, or who wish to inquire about their rights under this program, should contact the nearest State Employment Office of the Delaware Department of Labor in their locality.

Signed at Washington, D.C., on January 24, 1977.

WILLIAM H. KOLBERG,
Assistant Secretary for Employment and Training.

[FR Doc.77-2872 Filed 1-27-77;8:45 am]

Occupational Safety and Health Administration

REVIEW AND EVALUATION OF NIOSH CRITERIA DOCUMENTS

Procedures for Review; Request for Information on Cadmium

•*Purpose.* This notice describes the procedures that will be followed by the Occupational Safety and Health Administration (OSHA) in evaluating NIOSH criteria documents and, where appropriate, in developing proposed standards on the basis of these criteria documents. This document also requests information from the public in relation the NIOSH criteria document for cadmium, with special attention to areas where additional information is needed.•

INTRODUCTION

Under section 20(a)(3) of the Occupational Safety and Health Act of 1970 (84 Stat. 1610, 29 U.S.C. 669), the Secretary of Health, Education and Welfare, acting through the National Institute for Occupational Safety and Health (NIOSH), is directed to:

Develop criteria dealing with toxic materials and harmful physical agents and substances which will describe exposure levels that are safe for various periods of employment, including but not limited to the exposure levels at which no employee will suffer impaired health or functional capacities or diminished life expectancy as a result of his work experience.

In addition, section 22(c) of the Act authorizes NIOSH to develop recommended occupational safety and health standards. These criteria and the recommended standard developed by NIOSH are intended to be a principal source of information to OSHA concerning many aspects of standards proposals. As noted by the United States Court of Appeals for the District of Columbia Circuit in "IUD v Hodgson", 499 F. 2d 467 (D.C. Cir. 1974), while NIOSH criteria documents do not address all of the elements relevant to OSHA rulemaking and while OSHA is to consider all of the information available to it, the NIOSH recommendations were intended to be an important aid of OSHA in the rulemaking process.

PROCEDURE

As of December 31, 1976, NIOSH has transmitted a total of 57 criteria documents to OSHA (see Appendix A) for consideration as the basis for the development of mandatory occupational safety and health standards. OSHA has initiated rulemaking on a significant number of the hazards identified by the Criteria Documents, and in some instances published Advance Notices of Rulemaking or Notices of Receipt of Criteria Document in order to elicit public comment on key issues during the early stages of the respective proceedings, and to encourage public involvement in determining the appropriate course of regulatory action and in the formulation of future proposed standards.

In the past year, NIOSH has published as many criteria documents as had been published in the preceding years of its existence. This rate of criteria document development is expected to continue. OSHA recognizes the need to establish rational priorities for the initiation of rulemakings on the basis of the NIOSH recommendations. We further recognize that public comment on the relative need for OSHA standards on the hazards addressed by the NIOSH criteria document can be of substantial benefit in setting these priorities. Therefore, OSHA proposes the continued use of Advance Notices of Proposed Rulemaking, published on a routine basis as new criteria documents are received, to invite public comment on the need for OSHA rulemakings to establish mandatory standards, and if standards should be deemed necessary, on the relative priority of developing these standards. We believe such a procedure will assist OSHA in determining the best allocation of its staff resources to address the most serious hazards. We also believe that the Advance Notice should continue to identify key issues on which data and other information are requested from the public to be used in the development of proposed standards. There have been a number of recent criteria documents for which OSHA has not published any notice of receipt or other advance notice of rulemaking. Beginning with this notice, OSHA will publish notices in the FEDERAL REGISTER for all criteria documents received to date and will continue to publish such notices as new recommendations are received.

In addition to noting the availability of new criteria documents containing NIOSH's recommended standards for occupational exposure to toxic substances or other work place hazards, the notices will summarize the hazards presented; the types and extent of use; the major affected parties, as identified in the criteria document; the source of the present standard; the NIOSH recommended standard; and the basis for the recommended standard. While public comment is invited on any issue raised by the NIOSH recommendations, comment and information are specifically requested on the following issues to assist OSHA in fulfilling its responsibilities:

1. Whether the criteria document adequately demonstrates the need for and appropriateness of regulating this substance or other hazard.
2. What benefits are expected to result from the regulation, i.e., what mortality and morbidity are associated with current exposures, and to what extent would that be reduced by the recommended standards.
3. Are affected industries and employee groups, number of employees exposed and conditions of exposure correctly described in the criteria document.
4. Description of current engineering and work practice controls for major affected processes/industries.
5. What is the technological and economic feasibility of the NIOSH recommendations (e.g., control measures, methods of measurement)?
6. Whether the sampling and analytical methods recommended are appropriate and can be feasibly complied with by affected employers.
7. What are the environmental impacts of the recommended standard?

These comments will become part of the record of rulemaking which will be used in deciding on the appropriate course of regulatory action, if any, for each criteria document and will also assist in preparing the proposed standards for those hazards chosen to be addressed in an OSHA standards development project.

CADMIUM—BACKGROUND

Cadmium, atomic number 48 and atomic weight 112.40, is a metallic element with a silver-blue-white appearance. It is soft and ductile and highly corrosion resistant due to the formation of the oxide which resists further oxidation. Cadmium is mined in conjunction with other metals, principally zinc. Cadmium occurs in nature as cadmium sulfide, or greenockite, which is the most common cadmium ore, although it is found in economically recoverable form only with the sulfides of other metals (e.g. zinc sulfide). Cadmium is obtained as a by-product of zinc, lead-zinc, and cooper-lead-zinc ore refining.

NIOSH estimates U.S. cadmium production in the 1961–70 period to be 4.2 to 6.9 million kilograms. Electroplating accounts for 45–60 percent of cadmium use. About 1 million kg/year are used for stabilizers for plastics, particularly polyvinyl chloride. A like quantity is used for pigments. One quarter to one half million kilograms of cadmium are used annually as an alloying agent in low-melting-point brazing alloys, in copper for automobile radiators, in silver-cadmium electrical contacts and in other alloys. These uses account for 80–90 percent of cadmium consumption. Other minor uses include nickel-cadmium batteries, fungicides, photograph, and television picture tubes.

Dusts, fume, and mists of cadmium are commonly present in smelting processes involving zinc, copper, and lead as well as in specific processes for extracting cadmium, according to NIOSH.

NIOSH estimates that there are 100,000 workers potentially exposed to cadmium in the occupations listed in Table I.

TABLE I—POTENTIAL OCCUPATIONAL EXPOSURES

Alloy makers
Aluminum solder makers
Battery makers, storage
Cadmium compound collecting bag cleaners
Cadmium compound collecting bag handlers
Cadmium plates
Cadmium smelters
Cadmium vapor lamp makers
Cadmium workers
Ceramic makers
Dental amalgam makers
Electric instrument makers
Electroplaters
Engravers
Glass makers
Incandescent lamp makers
Lithographers
Lithopone makers
Metalizers
Paint makers
Paint sprayers
Photoelectric cell makers
Pigment makers
Small arms ammunition makers
Smoke bomb makers
Solderers
Solder makers
Textile printers
Welders, cadmium alloy
Welders, cadmium plated object
Zinc refiners

EFFECTS OF CADMIUM EXPOSURE

Numerous toxic effects resulting from exposure to cadmium or cadmium compounds reported in the scientific literature are cited in the NIOSH document. Clearly demonstrated effects include anemia, kidney dysfunction, and pulmonary changes including emphysema. Less clearly demonstrated effects, cited by NIOSH, include effects on the gonads, adrenal glands, thyroid, pancreas, and the liver.

Exposure to cadmium can result in kidney malfunction characterized primarily by proteinuria (Ref. 54, 55, 65).[1] This may be a sign of decreased tubular reabsorption although the precise etiology is unknown. Although other evidence of renal tubular dysfunction such as glucosuria and amino aciduria, have been reported, proteinuria is the most common abnormality found in exposed workers and is probably the earliest sign of renal dysfunction in cadium intoxication.

Pulmonary effects can result from both acute and chronic cadium exposure. Acute effects result from exposure to cadium fume of several milligrams per cubic meter concentration and consist of the delayed (4–10 hours) appearance of dyspnea, cough, and the feeling of chest constriction. Substernal pain, chills and myalgia may also be present. In most cases the symptoms resolve within one week, although, in about 20% of the people exposed, the dyspnea is progressive and wheezing and hemoptypsis may develop. Pulmonary edema and interstitial pneumonia may occur. In progressive cases, death characteristically occurs within the first week after exposure. A probable lethal concentration of cadmium oxide fume is about 5 mg/m³ during an 8-hour period (equivalent to 2,400 mg-min/m³). Chronic sequelae include pulmonary fibrosis and "honeycomb lung." Changes may occur in the muscles of the pulmonary and bronchial blood vessels.

Chronic cadmium inhalation has been reported to cause pulmonary emphysema in humans (Ref. 53–56, 59). The exposure times varied in these studies from 2 years to 39 years. Other studies cited by NIOSH have reported no pulmonary effects from chronic cadmium intoxication (Ref. 61–64), but as NIOSH states, at least some of these involved exposures at lower concentrations or for shorter exposure times.

Anosmia (loss of the sense of smell) and hyposmia (reduced sensitivity to smells) are other potential consequences of cadmium exposure reported by NIOSH (Ref. 55, 65, 78, 79). As with lung and kidney damage, duration and concentration of exposure are probably important factors. Although concurrent nickel exposures were reported in some of the studies (55, 65, 78) one study reported insensitiveness to smells without evidence of nickel exposure (79).

Moderate anemia has been described in workers exposed for a long time to cadmium oxide dust and fume (38, 55, 81). No bone marrow pathology was found in one group of workers (Ref. 55).

The possible role of cadmium in hypertension is unclear. Studies cited by NIOSH have shown a positive correlation between cardio-vascular disease and ambient cadmium levels (82) and hypertension and urinary cadmium (83). Higher than normal kidney cadmium levels were found at autopsy in 17 adults who were hypertensive (84). NIOSH states, however, that "no definitive relationship between cadmium levels in the kidney and cardiovascular disease has been demonstrated."

Cadmium has been reported to cause certain bone changes (Ref. 34, 71) and

[1] Numbers are reference cited in the NIOSH criteria document.

back and extremity pain (Ref. 38). The bone changes, similar or identical to osteomalacia (softening of bone) are of unknown etiology, although impaired renal tubular regulation of calcium/phosphorus balance may be responsible (Ref. 1).

The "Itai-itai" (ouch-ouch) disease reported by several investigators (Ref. 1, 7, 40, 41, 89) which occurred in certain areas of Japan may be due to contamination of crops and water with industrial wastes containing cadmium. The disease is apparently osteomalacia and involves painful joints and bones, especially in the back and legs. Other factors, such as diet and hormone levels, may also play a role.

The development of a yellow ring at the neck of the tooth was cited by NIOSH to have been reported in early epidemiologic studies of cadmium exposed workers and was at one time suggested to be a warning sign of chronic cadmium poisoning. The etiology and significance of this effect remains unclear.

One study (Ref. 55), cited by NIOSH, reported abnormal liver function tests in workers exposed to cadmium oxide dust for a mean exposure time of 20 years. This was considered as an unusual finding and the extent of liver abnormalities in exposed workers is unknown.

Studies in animals have suggested that cadmium may exert some destructive effect on the gonads (Ref. 91, 92, 162). These studies found testicular necrosis in rats after injection of cadmium chloride solution. Other studies reported by NIOSH, demonstrated that injection of cadmium had a sterilizing effect on the ovaries of rats and gerbils (Ref. 166–169). One study (Ref. 94) reported high levels of cadmium in the tests of men exposed to cadmium fume. NIOSH cautions, however, that further study is necessary before any conclusion can be drawn concerning the possible effects of cadmium on gonadal function in workers exposed to cadmium.

A Russian study, cited by NIOSH, reported reduced birth weights in children born to mothers who had been occupationally exposed to cadmium (Ref. 95). Teratological effects of cadmium have been demonstrated in animals. Severe malformations (e.g., anophthalmia, microphthalmia, hydrocephaly, renal agenesis) have been reported after injection of rats, mice, or hamsters with cadmium chloride (Ref. 172–176). One study (Ref. 174) found no increased rate of malformations in mice at a dose of 0.33 mg/kg but did find a dose-related increase at higher doses (0.63 mg/kg, 2.5 mg/kg, and 5 mg/kg).

Chromosomal damage due to cadmium has also been studied. Male mice were killed 3 months after mating to ascertain fertility, and dividing spermatocytes were examined for chromosomal rearrangements but none were found. In humans, no significant differences in chromosomal aberrations were found in exposed and control groups from Sweden and Japan (Ref. 111). In leukocytes, from Itai-Itai patients, cultured in vitro, and in human leukocytes, cultured with cadmium sulfide, increases in chromosomal aberrations were found (Ref. 112, 113). An increased incidence of aberrations was found in chromosomes cultured from leukocytes of workers exposed to cadmium, zinc, and lead (Ref. 114). The effects of such mixed exposures are difficult to interpret as pointed out by both the authors of the study and NIOSH.

NIOSH included a report of one study which concluded that cadmium exposure can cause central nervous system changes (Ref. 116). Changes in cutaneous, optical and motor nerve chronaxy were reported.

The carcinogenic potential of cadmium has been examined in both exposed human populations and in experimental animals.

Surveys of cadmium workers have indicated that cancer of the prostate may be more frequent in these groups than in the general population (Ref. 65, 96). In one study (Ref. 65), 74 men with greater than 10 years exposure were surveyed. There were 8 deaths in this group, 3 from prostate cancer. In another study (Ref. 96), 4 prostate cancer deaths were found in a cohort of 248 workers. This is significantly more than expected. There may be some overlap in these two studies and one group of investigators, quoted by NIOSH, warned against drawing conclusions until further studies are done (Ref. 96). A study of 92 deaths among 292 cadmium smelter workers revealed 4 prostate cancers compared to 1.15 expected (Ref. 97). This was not considered significant. If only workers alive 20 years after their first exposures were considered 0.88 deaths would have been expected vs. the 4 observed. This was reported to be significant at the 0.05 level.

NIOSH states that these studies are suggestive of a link between occupational exposure to cadmium and prostate cancer but that the number of cases are small and some of these studies may be overlapping.

A significant excess (12 obs. vs. 5.11 exp.) of cancer of the respiratory tract has been reported in workers exposed to cadmium (Ref. 97). These authors also noted a significant excess of all neoplasms (27 obs. vs. 17.5 exp.).

In a study of patients hospitalized due to suspected neoplastic disease, Kolonel (Ref. 101) found a significant increase in renal cancer and a nonsignificant increase in pancreatic cancer in patients through to have had cadmium exposure. No increase in prostate cancer was found. NIOSH views the result of this study as uncertain due to the deficient occupational histories.

Elevated blood and tissue cadmium levels were found in lung cancer patients in a study by Morgan (Ref. 103). But whether this was a cause or effect is unknown.

Cadmium chloride produced tumors at the injection site in 3 of 30 rats 12–16 months post-injection (Ref. 182). Injection site sarcomas have also been induced by suspensions of cadmium oxide, sulfide, sulfate, and metal powder (Ref. 183–187). Cadmium chloride injection of 30μ mole/kg also caused interstitial cell tumors of the testes (Ref. 188, 189). No increase in tumors occurred in rats given drinking water containing 5 ppm cadmium acetate. (Ref. 192). No increase in prostate cancer was found in rats and mice given cadmium sulfate by injection or intragastric catheter (Ref. 105–107). Testicular changes and Leydig cell tumors did occur but no prostate neoplasms or preneoplastic changes occurred in either rodent species.

The International Agency for Research on Cancer (IARC) reviewed the potential carcinogenicity of cadmium. The IARC review, cited by NIOSH, suggested that the data were insufficient to permit conclusions on whether or not cadmium is carcinogenic.

Basis of the Current Standard

The present OSHA standard for cadmium fume is an 8-hour average of 0.1 mg/m³ with a ceiling concentration of 0.3 mg/m³. The standard for cadmium dust is an 8-hour average of 0.2 mg/m³ with a ceiling concentration of 0.6 mg/m³ (29 CFR 1910.1000, Table Z–2). The standard was originally developed in 1941, by the American Standards Association (now American National Standards Institute, or ANSI) as an American Defense Emergency Standard of 1 mg/m for cadmium and its compounds. ANSI revised the standard in 1970 to the present levels (ANSI Z37.5) which was subsequently adopted by OSHA under section 6(a) of the Occupational Safety and Health Act of 1970. The ANSI report briefly reviewed cadmium toxicity but the specific basis for the standard was not stated.

In 1946, the American Conference of Governmental Industrial Hygienists (ACGIH) recommended a Maximum Allowable Concentration (MAC) Value of 0.1 mg/cu m for cadmium, continuing it for several subsequent years but changing the name MAC Values to Threshold Limit Values (TLV's) in 1948 (these 1946–1949 MAC or TLV lists were unpublished but privately circulated). In 1956, the TLV of 0.1 mg/cu m was assigned to CdO fume, rather than Cd. In 1965, a tentative value of 0.2 mg/cu m for cadmium (metal dusts and soluble salts) was added, and changed to a recommended value in 1967. More recently, the ACGIH recommended several changes in the TLV's of cadmium dusts and fumes. In 1970, the TLV of cadmium dusts and salts was continued at 0.2 mg/cu m as a ceiling. In 1973, the ACGIH announced its intent to change the TLV of fume to 0.05 mg/cu m, also as a ceiling. In 1974, the intention to change the TLV of cadmium dusts and salts to 0.05 mg/cu m as a TWA concentration was announced. In 1975, a note was added indicating that cadmium oxide production involved a carcinogenic or co-carcinogenic potential. In a supplement to the 1971 TLV documentation, a review by Bonnell and the report of Tsuchiya were cited as reasons for a lowering of the TLV of cadmium fume to a ceiling concentration to 0.05 mg Cd/cu m. The basis for indicating that there is a carcinogenic or co-carcinogenic potential in cadmium oxide production was not stated.

Several foreign countries have set limits for exposure to cadmium. Some of the limits, reported by NIOSH, are 20μg/m³ for dust and 10 mg/m³ for fume in Finland; 0.05 mg/m³ total and 0.02 mg/m³ (respirable) in Sweden; and 0.1 mg/m³ for cadmium oxide in the USSR. Bulgaria, Czechoslovakia, Hungary, Japan, Poland, and Rumania all have adopted 0.1 mg/m³ for cadmium or cadmium oxide.

Basis for the Recommended Standard

The environmental limit recommended by NIOSH for exposure to cadmium is a time-weighted-average (TWA) concentration of 40μg/m³ and a 15 minute ceiling limit of 200μg/m³. A 1967 report by Tsuchiya (Ref. 63), cited by NIOSH, recommended a TWA of 50μg/m³. This author did state that this limit may only be valid for Japanese workers. A limit of 50μg/m³ was suggested in another study, by Lauwerys, et al (Ref. 133), which found no effects in workers exposed at 31μg/m³ and proteinuria and reduced pulmonary function in workers exposed at 66μg/m³. NIOSH cautions that the presence of toxic effects at the 66μg/m³ level suggests that a limit of 50μg/m³ would not have a large safety factor. NIOSH notes further that it is possible that workers exposed at 66μg/m³ were also exposed to higher concentrations but this is uncertain. A study by Piscator (Ref. 131) found no effects in a group of women workers exposed to less than 100μg/m³ (mostly about 40μg/m³). One elderly woman was found to have proteinuria but that was attributed to earlier exposures at higher levels.

Because of the low margin of safety afforded by a limit of 50 μg/m³, NIOSH recommends a limit of 40 μg/m³. NIOSH reports that it appears likely that the threshold for the development of adverse effects on pulmonary function is higher than the threshold for adverse effects on renal function, this has not been clearly established. The recommended limit is intended to protect against the development of renal damage. The recommended medical surveillance protocol for exposed employees includes examinations of both renal and pulmonary function.

The recommended ceiling limit of 200 μg/m³ for 15 minutes is based on evidence of acute pulmonary disease at 2,500–2,900 mg-min/m³ (about 5 mg/m³ for 8 hours). NIOSH reported that there have been cases of exposures up to 25 mg/m³ without acute pulmonary disease but such instances may have been only very brief exposures or exposures may have been to primarily non-respirable dust. Another study NIOSH cites, reported acute cadmium intoxication at an estimated concentration range of 10–140 μg/m³ for a cumulative exposure of almost 10 hours. Because of the contradictory evidence, NIOSH recommends a ceiling limit based on what NIOSH believes to be realistic limitations on excursions and the belief that acute pulmonary disease, possibly fatal, can develop at around 2500 mg-min/m³.

Although there is some evidence of the teratogenic effect of cadmium in both experimental animals and humans (see Effects of Exposure), the data, particularly in humans, NIOSH believes to be incomplete. NIOSH states that human fetal abnormalities may be related to zinc retention in the mother caused by cadmium absorption which created a zinc deficiency in the fetus. Injection of zinc into pregnant rats has been reported to exert a protective effect on the fetuses against the development of cadmium-induced abnormalities (Ref. 177, 178). NIOSH, therefore, concludes that reduction of cadmium exposure to a level that does not result in abnormal zinc requirements should allow sufficient zinc to the fetus for normal development. This has not been proven and NIOSH suggests further research be done.

The data on the potential carcinogenicity of cadmium is contradictory. Among men working with cadmium, small numbers of cases of prostatic cancers, mainly in the elderly, have been found (Ref. 65, 96, 97). Other epidemiologic studies (Ref. 101, 102) and animal studies (Ref. 105–7) have not found excess prostate cancers. These studies are considered inadequate by NIOSH as the human subjects were not known to have had cadmium exposure and the animals were not given large enough doses of cadmium. The findings of excess total cancers and lung cancers among cadmium smelter workers is confounded by the concomitant exposure to arsenic. (Ref. 97.) Due to the uncertainties of the presently available data on the carcinogenicity of cadmium, NIOSH did not feel that a limit based on this effect was appropriate.

The NIOSH recommended limits for cadmium are based on total dust sampling and not limited to only the respirable portion. NIOSH feels that large particles of cadmium and its compounds, while not reaching the alveoli, may still be toxic because they may be cleared from the upper respiratory tract and swallowed and be absorbed through the gastrointestinal tract.

The past and present standards for cadmium have separate limits for dust and fume due to the greater penetrability in the lungs of the smaller fume particles. The recommended standard does distinguish different forms of cadmium. NIOSH states that the evidence of proteinuria in populations exposed to either dust or fume demonstrates that the effects found are comparable at similar concentrations of either form of cadmium. NIOSH feels that the data does not show that a given amount of cadmium is more toxic as small particles than as large particles; therefore, a standard expressed as total dust is an effectively lower standard and is therefore more protective. Lack of good data precludes NIOSH from recommending different standards for different compounds of cadmium based on their individual toxicities.

Public Participation

In addition to the general issues, listed under Introduction, on which comment and information are requested, OSHA requests comment and information on the following specific issues raised by the NIOSH recommendations for a standard for occupational exposure to cadmium:

The exposure limit recommended by NIOSH is based on protection against kidney damage—is this a correct approach?

Are there other significant toxic effects of cadmium not discussed in the NIOSH criteria document?

Is the evidence sufficient for cadmium to be considered a teratogen and/or a carcinogen? If so, what steps should be taken to protect exposed workers?

Should all forms of cadmium be considered in a single exposure limit, as recommended by NIOSH, or should separate standards be set for dust and fume?

Should the cadmium standard be expressed in terms of total particulate, as recommended by NIOSH, or should it be based upon only the respirable fraction?

Are the NIOSH recommendations for limiting employee exposure to cadmium technologically and economically feasible? If not, what alternatives are appropriate?

Are there effective substitutes which can be used to replace cadmium in some of its applications?

Is the NIOSH estimate of exposed workers (100,000) accurate?

Are there employee groups not listed which are potentially exposed to cadmium?

The NIOSH criteria document, all references, and comments on the document from the NIOSH review consultants and other groups (Tab Document) are available for review and copying at the OSHA Technical Data Center at the address listed below for the Docket Officer. The NIOSH recommendations are reprinted in Appendix B.

Comments should be addressed to Docket Officer, Docket HO57, Department of Labor—OSHA, Room N3620, 3rd and Constitution Avenue, NW., Washington, D.C. 20210, and should be submitted by March 20, 1977.

Dated at Washington, D.C., this 19th day of January 1977.

MORTON CORN
Assistant Secretary of Labor

Appendix A—Criteria Documents Transmitted to OSHA

Asbestos: Received January 21, 1972. As a result of a petition to OSHA, an Emergency Temporary Standard on asbestos had been issued on December 7, 1971. Current standard published on June 7, 1972. Proposed revision published October 9, 1975. New NIOSH recommendations received by OSHA on December 15, 1976.

Hot Environments: Received June 30, 1972 OSHA Advisory Committee established on subject on January 24, 1973. Committee recommendations submitted January 11, 1974. Inadequate information on which to establish a mandatory standard.

Beryllium: Received June 30, 1972. Proposed standard published October 17, 1975.

Carbon Monoxide: Received August 3, 1972.

Noise: Received August 10, 1973. OSHA Advisory Committee established on subject on January 26, 1973. Committee recommendations submitted December 20, 1973. Proposed revision to existing OSHA noise standard published on October 24, 1974. Hearings held in June and July 1975, and September and October 1976.
Ultraviolet Radiation: Received December 20, 1972.
Inorganic Lead: Received January 5, 1973. Proposed standard published October 3, 1975.
Coke oven Emissions: Received February 28, 1973. Advisory Committee established August 12, 1974. Committee recommendations submitted May 24, 1975. Proposed standard published July 24, 1975. Final standard promulgated October 22, 1976.
Chromic Acid: Received July 17, 1973. (see Hexavalent Chromium).
Toluene: Received July 23, 1973. Proposed standard published October 6, 1975.
Toluene Diisocyanate: Received July 13, 1973.
Trichloroethylene: Received July 23, 1973. Proposed standard published October 20, 1975.
Inorganic Mercury: Received August 13, 1973.
Inorganic Arsenic: Received January 21, 1974. Proposed January 21, 1975. Hearings held April 1975 and September 1976. Revised Criteria Document received June 23, 1973.
Sulfur Dioxide: Recieved February 11, 1974. Proposed November 24, 1975.
Sulfuric Acid: Received June 6, 1974.
Ammonia: Received June 15, 1974. Proposed November 25, 1975.
Benzene: Received July 24, 1974.
Chloroform: Received September 11, 1974.
Cotton Dust: Received September 26, 1974. Proposed December 28, 1976.
Silica: Received November 11, 1974.
Identification System for Hazardous Materials: Received December 20, 1974. Advisory Committee established September 19, 1974. Committee recommendations submitted May 24, 1975.
Xylene: Received May 30, 1975.
Inorganic Fluorides: Received June 30, 1975.
Sodium Hydroxide: Received October 9, 1975.
Zinc Oxide: Received October 10, 1975.
Hexavalent chromium: Received December 3, 1975. Combined as single OSHA project with Chromic Acid.
Carbon Tetrachloride: Received January 23, 1976.
Isopropyl Alcohol: Received March 9, 1976.
Methylene Chloride: Received March 9, 1976.
Hydrogen Fluoride: Received March 9, 1976.
Phosgene: Received March 3, 1976.
Nitric Acid: Received March 9, 1976.
Ethylene Dichloride: Received March 9, 1976.
Methyl Alcohol: Received March 22, 1976.
Nitrogen Dioxide: Received March 22, 1976.
Chlorine: Received May 25, 1976.
Methyl Chloroform (1,1,1 Trichloroethylene): Received July 1, 1976.
Perchloroethylene (Tetrachloroethylene): Received July 1, 1976.
Acetylene: Received June 30, 1976.
Malathion: Received June 30, 1976.
Phenol: Received June 30, 1976.
Parathion: Received June 30, 1976.
Carbon Dioxide: Received August 11, 1976.
Cadmium: Received August 24, 1976.
Epichlorohydrin: Received September 17, 1976.
Allyl Chloride: Received September 21, 1976.
Methyl Parathion: Received September 30, 1976.
Carbaryl: Received September 30, 1976.
Cyanide and Cyanide Salts: Received October 5, 1976.
Organotin Compounds: Received November 12, 1976.
Acrylamide: Received December 1, 1976.
Boron Trifluoride: Received December 17, 1976.
Formaldehyde: Received December 30, 1976.

APPENDIX B

1. RECOMMENDATIONS FOR A CADMIUM STANDARD

The National Institute for Occupational Safety and Health (NIOSH) recommends that worker exposure to cadmium in the workplace be controlled by adherence to the following sections. The standard is designed to protect the health and safety of workers for up to a 10-hour workday, 40-hour week over a working lifetime. Compliance with all sections of the standard should prevent adverse effects of ex posure to cadmium on the health and safety of workers. The standard is measurable by techniques that are valid, reproducible, and available to industry and government agencies. Sufficient technology exists to permit compliance with the recommended standard. The criteria and the standard will be subject to review and revision as necessary. "Cadmium" refers to elemental cadmium and all cadmium compounds. An "action level" is defined as half the time-weighted average concentration environmental limit of cadmium. "Occupational exposure to cadmium" is defined as exposure to cadmium at a concentration greater than the action level. Exposure at lower environmental concentrations will not require adherence to the following sections, except for Section 6(b) and 7(d).

SECTION 1 *Environmental (Workplace air)*—(a) *Concentration.* Occupational exposure to cadmium shall be controlled so that workers are not exposed to cadmium at a concentration greater than 40 micrograms per cubic meter of air (40(μ)g Cd/cu m determined as a time-weighted average (TWA) exposure concentration for up to a 10-hour workday, 40-hour workweek, or at a ceiling concentration greater than 200 (μ) g Cd/cu m for any 15-minute sampling period.

(b) *Sampling and analysis.* Sampling in the work environment shall be performed by the method provided in Appendix I or by a method with at least equivalent efficiency. Samples shall be analyzed by the method provided in Appendix II or by a method shown at least equivalent in precision and sensitivity.

SEC. 2 *Medical.* Medical monitoring shall be made available to all workers subject to occupational exposure to cadmium.

(a) Preplacement examinations shall be made available to new or reassigned employees prior to job placement, and, within 6 months of the promulgation of a standard based on these recommendations, to employees already engaged in work involving exposure to cadmium.

Preplacement examinations shall include a comprehensive work and medical history, a 14" x 17" P.A. chest x-ray, measurement of forced vital capacity (FVC) and forced expiratory volume during the first second (FEV 1), measurement of blood pressure, blood analysis (blood urea nitrogen, complete blood count, and serum glutamic oxaloacetate transaminase or other liver enzymes), and urinalysis (microscopic examination, sugar determination, quantitative protein determination, and specific gravity measurements). A judgment of the worker's ability to work in positive or negative pressure respirators shall be made.

The method for protein determination in urine shall be quantitative and capable of detecting low molecular weight protein (see Appendix III). Determination of urine cadmium levels is also recommended.

(b) Periodic examinations shall also be made available, except for urine protein determinations, which shall be made available every 4 months, these examinations shall be offered yearly, or as otherwise directed by the responsible physician.

These periodic examinations shall include interim work and medical history, urinalysis (with quantitative protein determinations every 4 months) pulmonary function tests (FVC and FEV 1), and blood pressure. Chest radiographs shall be taken if judged necessary by the responsible physician.

In addition, blood analysis, palpation of the prostate in male workers over 40 years old, and monitoring of urine cadmium concentrations are also recommended. If the concentration of cadmium in the urine rises above 10 (μ)g/liter, an investigation of the cause, such as environmental exposures, personal and industrial hygiene practices, and nonoccupational exposure, should be conducted.

Reassessment of occupational exposure, work practices, and personal habits shall be undertaken if FVC or FEV 1 becomes reduced 15 percent or more or the ratio FEV 1/FVC is reduced 10 percent or more than would be expected from the age and smoking habits of the person examined, if persistent symptoms of respiratory tract disease develop, if there are frequent upper or lower respiratory infections, or if persistent proteinuia or other abnormal laboratory or clinical findings relatable to cadmium toxicity develop.

Smokers should be counseled on their possibly increased risk of chronic respiratory disease.

(c) At termination of or transfer from employment involving occupational exposure to cadmium, a comprehensive examination including the components of (a) above shall be offered.

(d) Pertinent medical records shall be retained for 20 years after the last occupational exposure to cadmium. These records shall be made available to the designated medical representatives of the Secretary of Labor, of the Secretary of Health, Education, and Welfare, of the employer, and of the employee or former employee.

SEC. 3 *Labeling and Posting*—(a) *Containers.* Shipping and storage containers or package containing cadmium or cadmium compounds shall bear the following label:

DANGER!

CONTAINS --------[1]

POISONOUS FUMES MAY BE FORMED ON HEATING

HARMFUL IF INHALED OR SWALLOWED

AVOID CONTACT WITH SKIN, EYES, AND CLOTHING

WASH HANDS THOROUGHLY AFTER HANDLING

Avoid breathing fume, dust or mist

Keep container closed

Use only with adequate ventilation

(b) Work areas

Locations or areas where cadmium dust or fumes are likely to be generated shall be designated with clearly visible warning signs as shown below:

DANGER!

CADMIUM (Cd)

Cadmium Fume (or Dust) Areas

Authorized Personnel Only

Breathing Fume (or Dust) May Cause Immediate or Delayed Injury

No Smoking

Respirators Are Located --------[2]

[1] Complete by inserting "cadmium" or

[2] Give location of respirators.

This sign shall be printed in English and in the predominant language of non-English-speaking workers. All employees shall be trained and informed of the hazards and the hazardous areas. All illiterate workers shall receive special attention.

SEC. 4. *Personal Protective Equipment.* Engineering controls shall be used if needed to maintain airborne cadmium concentrations at or below the limits recommended in Section 1. Compliance with these workplace environmental limits by the use of respirators is permitted only during emergencies. When use of a respirator is permitted, it shall be selected and used in accordance with the following requirements:

(a) For the purpose of determining the type of respirator to be used, the employer shall measure the concentrations of cadmium in the workplace initially and thereafter whenever control, process, operation, worksite, or climate changes occur that are likely to increase the concentration of airborne cadmium.

(b) The employer shall ensure that no worker is exposed to cadmium in excess of the recommended limits because of improper respirator selection, fit, use, or maintenance.

(c) A respiratory protection program meeting the requirements of 29 CFR 1910.134, which incorporates the American National Standard Practices for Respiratory Protection, Z88.2–1969, shall be established and enforced by the employer.

(d) The employer shall provide respirators in accordance with Table I–1 and shall ensure that employees use the respirators provided in a proper manner when wearing of respirators is required.

(e) Respirators selected from those described in Table I–1 shall be those approved under the provisions of 30 CFR Part 11.

(f) The employer shall ensure that employees are properly instructed in the use of respirators assigned to their use and on how to test for leakage, proper fit, and proper operations.

(g) Respirators specified in Table I–1 for use in atmospheres of higher concentrations of airborne cadmium may be used in atmospheres of lower cadmium concentrations.

(h) The employer shall establish and conduct a program of cleaning, sanitizing, inspecting, maintaining, repairing, and storing of respirators, to ensure that employees are provided with clean respirators that are in good operating condition.

(i) The employer shall periodically monitor the use of respirators to ensure that the proper type of respirator is worn, to evaluate the effectiveness of the respiratory protection program, and to eliminate any deficiencies in use and care of respirators.

Table I–1.—Respirator selection guide

Air concentrations	*Respirator type*
Less than or equal to 0.4 mg/m³.	(1) Half-mask respirator with high efficiency filter(s). (2) Type C demand type (negative pressure) supplied air respirator with half-mask facepiece.
Less than or equal to 2.0 mg/m³.	(1) Full facepiece respirator with high efficiency filter(s). (2) Type C demand type (negative pressure) supplied air respirator with full facepiece. (3) Self-contained breathing apparatus with full facepiece in demand mode (negative pressure).
Less than or equal to 40 mg/m³.	(1) Powered air-purifying (positive pressure) respirator with high efficiency filters. (2) Type C continuous flow (positive pressure) supplied air respirator.
40 mg/m³ or greater or unknown.	(1) Combination supplied air respirator, pressure-demand type, with auxiliary self-contained air supply. (2) Self-contained breathing apparatus with full facepiece in positive pressure mode.

SEC. 5 *Inform Employees of Hazards from Cadmium.*—(a) Workers initially assigned or reassigned to jobs involving occupational exposure to cadmium shall be informed of the hazards, symptoms of overexposure (including information on the characteristics of onset and stages of illness), appropriate procedures to be taken in the event of an emergency, and precautions to ensure safe use and to minimize exposure. They shall be advised of the availability of relevant information, including that prescribed in (c) below. This information shall be accessible to each worker occupationally exposed to cadmium.

(b) A continuing education program, conducted by a person or persons qualified by experience or special training, shall be instituted to ensure that all workers have current knowledge of job hazards, proper maintenance procedures and cleanup methods, and that they know how to use respirators correctly. It shall include a description of the general nature of the medical surveillance procedures and why it is advantageous to the worker to undergo these examinations.

(c) Required information shall be recorded on a "Material Safety Data Sheet" as specified in Appendix IV or on any other form approved for the purpose by the Occupational Safety and Health Administration, U.S. Department of Labor.

SEC. 6 *Work Practices*—(a) *Exhaust Systems.* Operations creating workplace exposure to cadmium shall be enclosed to the maximum extent practicable and be provided with local exhaust ventilation unless appropriate air sampling and analysis have demonstrated that concentrations are at or below the environmental limits. Methods other than enclosure and ventilation for meeting exposure limits to cadmium may be used if they bring concentrations in workplace air to or below the environmental limits. Effluent air shall be cleaned to meet any emission standards that may become promulgated. Air from the exhaust ventilation system shall not be recirculated into the workplace.

Enclosures, exhaust hoods, and ductwork shall be kept in good repair so that design airflows are maintained. Airflow shall be measured at each hood at least semiannually and preferably monthly. Continuous airflow indicators are recommended, such as water or oil manometers properly mounted at the juncture of fume hood and dust throat (marked to indicate acceptable airflow). A log showing design airflow and results of semiannual inspectione shall be kept.

(b) *Welding, Brazing, and Thermal Cutting.* Welding, brazing, or thermal cutting of material containing cadmium shall be performed using local exhaust ventilation demonstrated by air sampling and analysis to keep cadmium concentrations within the limits of Section 1. For single operations where local exhaust ventilation is not available, where air sampling has not been performed, or where air sampling has demonstrated a likelihood of overexposure to cadmium fume or dust, respirators shall be provided and worn as specified in Section 4.

Where molten cadmium is used or formed, temperatures should be kept as low as possible consistent with the requirements of the operation to prevent excessive fume generation. Additions of cadmium should be made in the manner generating the least fume. Wherever possible this should be accomplished by automatic controls, with recording of temperature and use of alarms or indicators for higher temperature.

(c) *Emergency Procedures.* Emergency procedures shall be established for any event which may result in substantial release of airborne cadmium. Such procedures shall include provision for appropriate respirators as specified in Section 4.

Specific emergency procedures shall be designed for fires, to protect both in-plant workers and firefighters.

(d) *Work Clothing.* Workers shall wear work clothing consisting at the least of hat, shirt, or blouse, pants or skirt, and shoes. Work clothing and street clothing shall be exchanged at the beginning and the end of each workday, so that work clothing will not be worn outside the workplace. The employer shall provide for proper laundry of clothing and shall instruct launderers on procedures to be taken to avoid inhalation of cadmium-containing dusts.

SEC. 7 *Sanitation Practices.*—(a) Where there is cadmium-containing dust, cleaning should be performed by vacuum pickup or wet mopping. No dry sweeping or blowing shall be permitted.

(b) Emphasis shall be placed upon prompt cleanup of spills, repair of equipment and leaks, proper storage of materials, and collection of cadmium-containing dust.

(c) Cadmium-containing and cadmium-plated metal parts should be kept separate from parts not containing cadmium and marked appropriately so that accidental exposures resulting from welding and cutting will not occur.

(d) Facilities shall be maintained to protect foodstuffs and food consumption areas from contamination by materials containing cadmium. Food storage, handling, and consumption shall be separate from cadmium work areas. Smoking or carrying uncovered tobacco or tobacco products in cadmium work areas shall be prohibited.

(e) Adequate handwashing and shower facilities shall be provided. Workers shall wash their hands before eating or before using tobacco to prevent their absorbing additional amounts of cadmium compounds.

SEC. 8 *Monitoring and Recordkeeping.* Workers are not considered to be occupationally exposed to cadmium if environmental concentrations, as determined on the basis of an industrial hygiene survey to be performed within 90 days of the promulgation of a standard, do not exceed the action level, i.e., half the recommended TWA environmental limit, or if there is no operation, storage, or handling or cadmium in any form or contamination of workplace air by cadmium from other sources. These industrial hygiene surveys shall be repeated at least every 3 years and within 30 days after any process or operating change likely to result in increases of airborne concentrations of cadmium. Records of these surveys, including the basis for concluding that airborne concentrations of cadmium are at or below the action level, shall be maintained until the next survey has been completed.

The following requirements apply to occupational exposure to cadmium, ie, to work-

place where the action level is exceeded.

(a) *Personal monitoring.* A program of breathing zone or personal monitoring shall be instituted to identify and measure the exposure of all employees occupationally exposed to cadmium. This sampling and analysis shall be conducted every 3 months on at least 25 percent of the workers so that each worker's exposure is measured at least every year; this frequency and fraction of employees sampled may be different if so directed by a professional industrial hygienist. Sufficient numbers of samples shall be collected and analyzed to permit construction of valid estimates of the TWA and ceiling concentration exposures of workers during each workshift; the number of TWA and ceiling concentration determinations for an operation shall be based on such factors as mobility and job functions of workers in that operation. If monitoring of any worker shows exposure in excess of either recommended environmental limit, additional monitoring shall be promptly initiated. If confirmed, control procedures shall be instituted as soon as possible; these may precede and obviate confirmatory monitoring if the employer desires. Affected employers shall be advised that exposures have been excessive and be notified of the control procedures being implemented. Monitoring of these employees' exposure shall be conducted at least as ofter as every 30 days and shall continue until successive samplings at least a week apart confirm that exposure no longer exceeds recommended limits. Normal monitoring may then be resumed.

(b) *Recordkeeping.* Environmental monitoring records shall be maintained for at least 20 years. These records shall include methods of sampling and analysis used, types of respiratory protection used, and TWA and ceiling concentrations found. Each employee shall be able to obtain information on his own environmental exposures. Environmental records shall be made available to designated representatives of the Secretary of Labor and of the Secretary of Health, Education and Welfare.

Pertinent medical records shall be retained for 20 years after the last occupational exposure to cadmium. Records of environmental exposures applicable to an employee should be included in the employee's medical records. These medical records shall be made available to the designated medical representatives of the Secretary of Labor, of the Secretary of Health, Education and Welfare, of the employer, and of the employee or former employee.

Occupational Safety and Health Administration

[V-77-1]

RICHMOND ENGINEERING COMPANY, INC.

Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that RECO Constructors, Inc., Box 25189, 7th & Hospital Streets, Richmond, Virginia 23260 has made application pursuant to section 6(d) of the Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance and interim order, pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1926.451 (a) (4), (5), and (10) dealing with scaffolds.

The place of employment affected by the application is as follows:

Richmond Engineering Company, Inc., 7th & Hospital Streets, Richmond, Virginia 23260.

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is providing a place of employment as safe as that required by § 1926.451(a) (4), (5), and (10). Section 1926.451(a) (4) and (5) read as follows:

(4) Guardrails and toeboards shall be installed on all open sides and ends of platforms more than 10 feet above the ground or floor, except needle beams scaffolding and floats (see paragraphs (p) and (w) of this section). Scaffolds 4 to 10 feet in height having a minimum horizontal dimension in either direction of less than 45 inches, shall have standard guardrails installed on all open sides and ends of the platform.

(5) Guardrails shall be 2 x 4 inches, or the equivalent, approximately 42 inches high, with a midrail, when required. Supports shall be at intervals not to exceed 8 feet. Toeboards shall be a minimum of 4 inches in height.

The applicant states that its business is of a specialized nature involving steel plate erectionb y members of the boilermaker's trade.

The applicant contends that the scaffolds used in building tanks are mobile and are frequently raised as are the tank sections, in order to position the next set of steel plates. The scaffolds used do not have toeboards because tools are placed in well designed "loose tool" containers provided for that purpose. In addition, the applicant proposes to rope off the area directly below and in close proximity to the scaffold and to permit only those employees, and tools currently being used by them, on the scaffolds. As a further precaution, a taut wire is installed midway between the innermost plank face of the scaffold platform and the tank face. The applicant states that because the scaffolds must be moved frequently, it would be more hazardous to constantly remove and replace toeboards.

The applicant also proposes to place guardrail supports at 10'6" intervals in lieu of the 8' requirement of § 1926.451 (a)(5). This would allow consistent bracket spacing since the applicant further desires to use 10'6" spans for its scaffold planking although § 1926.451(a) (16) allows a maximum span of 10'. The planks proposed to be used are rough full-dimensioned 2" x 12" x 12' planks of Douglas Fir or Southern Yellow Pine of select structural grade. The Douglas Fir has a fiber stress of 1,900 and a modulus of elasticity of 1,900,000, while the Southern Yellow Pine has a 2,500 fiber stress and a modulus of elasticity of 2,000,000. The applicant contends that the scaffolds he is using are safe, even though the span is one-half foot longer than the maximum length allowed, because of the increased strength of the wood.

A copy of the application will be made available for inspection and copying upon request at the Office of Variance Determination, U.S. Department of Labor, Room N-3668, 200 Constitution Avenue, NW., Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor, Occupational Safety and Health Administration, Gateway Building—Suite 15220, 3535 Market Street, Philadelphia, Pennsylvania 19104.

U.S. Department of Labor, Occupational Safety and Health Administration, Federal Building (P.O. Box 10186) Room 8018, 400 North 8th Street, Richmond, Virginia 23240.

All interested persons, including employers and employees who believe they would be affected by the grant or denial of the application for variance are invited to submit written data, views, and arguments relating to the pertinent application no later than February 28, 1977. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than February 28, 1977, in conformance with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Variance Determination at the above address.

II. *Interim Order.* It appears from the application for variance and interim order that the proposed scaffolding described in the application, with certain variations, will provide a place of employment as safe as those which would prevail if the applicant were to comply fully with 29 CFR 1926.451(a) (4), (5), and (10). It further appears that an interim order is necessary, pending a decision on the application, in order to prevent undue hardship to the applicant and its employees. Therefore, it is ordered, pursuant to section 6(d) of the Occupational Safety and Health Act of 1970, and 29 CFR 1905.11(c), that the Richmond Engineering Company, Inc., be, and is hereby authorized to use scaffolds in accordance with the following conditions, in lieu of complying with the toeboard and span requirements in § 1926.451(a) (4), (5), and (10):

(a) The applicant's loose tools and equipment shall be kept in well-designed tool containers. This does not include fitup bars, key plates, key channels, or long handled maul which may be placed on the scaffold plank during the time they are required for work. The loose tool containers shall be secured to prevent their upset or dislodgment from the scaffold area.

(b) Areas beneath and far enough away from the base of the scaffold to contain anything that falls from above shall be roped off and posted with clearly visible signs stating: "Danger Overhead Work."

(c) The space between the innermost edge of the scaffold platform and the curved plate structure of the tank shell shall not exceed 12" without protective measures. A taut wire rope supported on scaffold brackets at plank level may be used to divide any space exceeding 12" in lieu of using a guardrail or tie-off system.

(d) Not more than three employees shall be working on a 10'6" span of scaffold planking at any time.

(e) The maximum distance between brackets to which scaffolding and guardrail supports are attached shall be 10'6". These brackets shall be welded to the steel plates.

(f) Scaffold planks of rough full-dimensioned 2"×12"×12' Douglas Fir or Southern Yellow Pine of select structural grade or equivalent planking shall be used. The Douglas Fir shall have at least a 1,900 fiber stress and 1,900,000 modulus of elasticity, while the Yellow Pine shall have at least 2,500 fiber stress and 2,000,000 modulus of elasticity. Three planks with full thickness 2"×10"×12' dimensions may be used in lieu of two 2"×12"×12' planks provided that they are clamped or bonded together at the midpoint of the span, in order to spread the weight of the employees.

(g) All planking shall be secured from movement or overlapped in accordance with § 1926.451(a)(12).

(h) Guardrails shall be constructed of taut wire rope, and shall be supported by angle irons attached to brackets welded to the steel plates. These guardrails shall be at least of equivalent strength, stability and height as those required for the 8 foot span of 2" x 4" wood rails by 29 CFR 1926.451(a)(5). Guardrail supports shall be located at no greater than 10'6" intervals.

Richmond Engineering Company, Inc., shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date: This interim order shall be effective as of January 28, 1977, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 19th day of January 1977.

B. M. CONCKLIN,
Deputy Assistant Secretary of Labor.

ADVISORY COUNCIL ON EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

Cancellation of Meeting

Through Notice published on January 18, 1977 (FEDERAL REGISTER, Vol. 42, No. 12 42 FR 3364) it was announced that pursuant to section 512 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1142) the January 11, 1977 meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans will reconvene at 9 a.m. on Friday, February 4, 1977, in the Federal Ballroom North, Quality Inn—Capitol Hill, 415 New Jersey Avenue, NW, Washington, D.C.

Notice is hereby given that the above meeting is cancelled.

Signed at Washington, D.C., this 24th day of January 1977.

WILLIAM J. CHADWICK,
Administrator of Pension and Welfare Benefit Programs.

Office of the Secretary

[TA-W-1372]

BERN INDUSTRIES, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the result of TA-W-1372: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on December 1, 1976 in response to a worker petition received on December 1, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel, alloy, copper, and brass fittings valves, couplings, flanges, etc. at the Brooklyn, New York plant of Bern Industries, Inc.

The Notice of Investigation was published in the FEDERAL REGISTER on January 4, 1977 (42 FR 870). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Bern Industries, Inc. and United Steelworkers of America.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any other criteria have been met, criterion (1) has not been met.

The Brooklyn, New York plant of Bern Industries, Inc. produces only small brackets fabricated from iron and steel.

Evidence developed in the Department's investigation reveals that no involuntary separations occurred at the plant from November 1, 1975, one year prior to the signature date of the petition, to the present.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that employees at the Brooklyn, New York plant of Bern Industries, Inc. have not become totally or partially separated as required in section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2836 Filed 1-27-77;8:45 am]

[TA-W-141T]

BROWN SHOE CO.

Revised Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223(d) of the Trade Act of 1974, the Department of Labor herein presents the results of TA-W-141T: investigation regarding termination of certification of eligibility to apply for worker adjustment assistance as prescribed in section 223(d) of the Act.

On November 12, 1975, workers producing women's shoes at the Owensville, Missouri plant of the Brown Shoe Company were certified as eligible to apply for trade adjustment assistance. The Notice of Determination was published in the FEDERAL REGISTER on November 26, 1976 (40 FR 54889-54890).

The investigation regarding termination of certification was initiated on July 28, 1976 to determine whether the group of workers specified above continue to meet the group eligibility requirements of section 222 of the Act. The Notice of Investigation was published in the FEDERAL REGISTER (41 FR 33594) on August 10, 1976. No public hearing was requested and none was held.

During the course of the investigation, information was obtained from officials of the Brown Shoe Company, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or

subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Whenever it becomes evident that any of the above criteria are no longer met, the certification as issued must be revised to include a termination date. The termination date would apply only with respect to total or partial separations occurring after this date as specified in the revised certification.

Without regard to whether the other criteria are satisfied, the investigation reveals that the first and second criteria are no longer met with respect to workers at the Owensville, Missouri plant of the Brown Shoe Company.

Significant Total or Partial Separations. Subsequent to the November 12, 1975 finding, the average number of workers employed at the Owensville, Missouri plant of the Brown Shoe Company decreased 1 percent from 1974 to 1975. Employment increased 17 percent in the last 6 months of 1975 compared to the like period of 1974, and 22 percent in the first nine months of 1976 compared to the like period of 1975. Employment increased in the first, second, and the third quarters of 1976, 29 percent, 39 percent, and 18 percent, respectively, compared to the same quarters of 1975.

Sales or Production, or Both, Have Decreased Absolutely. Subsequent to the November 12, 1975 finding, sales of women's shoes at the Owensville, Missouri plant of the Brown Shoe Company decreased in quantity and value, 15 percent and 10 percent, respectively, from 1974 to 1975. Sales increased in quantity and value, 21 percent and 25 percent, respectively, in the last 6 months of 1975 compared to the like period of 1974. Sales increased in quantity and value, 47 percent and 56 percent, respectively, in the first nine months of 1976 compared to the like period of 1975. Sales increased in the first, second and third quarters of 1976, 38 percent, 82 percent and 55 percent, respectively, compared to the same quarters in 1975.

Subsequent to the November 12, 1975 finding, production of women's shoes at the Owensville, Missouri plant of the Brown Shoe Company decreased 14 percent in quantity from 1974 to 1975. Production increased 21 percent in quantity in the last 6 months of 1975 compared to the like period of 1974, and 41 percent in the first nine months of 1976 compared to the like period of 1975. Production increased in the first, second and third quarters of 1976, 44 percent, 67 percent and 39 percent, respectively, compared to the same quarters of 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that total or partial separations of workers engaged in employment related to the production of women's shoes at the Owensville, Missouri plant of the Brown Shoe Company are no longer attributable to the conditions specified in section 222 of the Trade Act of 1974. In accordance with section 223(d) of the Act, I hereby revise the certification of November 12, 1975 to read as follows:

That all workers of the Owensville, Missouri plant of the Brown Shoe Company (TA-W-141) who became or will become totally or partially separated on or after October 3, 1974 and before January 31, 1977 be certified eligible to apply for trade adjustment assistance under Title II, Chapter 2 of the Trade Act of 1974. All employees who became or will become totally or partially separated from employment after January 31, 1977 are denied certification of eligibility to apply for adjustment assistance.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc 77 2828 Filed 1-27-77;8:45 am]

[TA-W-1154]

DANA CORP.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1154: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in Section 222 of the Act.

The investigation was initiated on October 12, 1976 in response to a worker petition received on October 12, 1976 filed by United Steelworkers of America on behalf of workers and former workers producing automobile and light truck frames, heat treated truck side rails and miscellaneous stampings and weldments at the Reading Plant, Parrish Division of Dana Corporation, Reading, Pennsylvania.

The notice of investigation was published in the FEDERAL REGISTER on October 29, 1976 (41 FR 47620). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of the Dana Corporation and its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales, or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation revealed that with respect to those workers engaged in employment related to the production of automobile and light truck frames, the second criterion has not been met and with respect to those workers engaged in employment related to the production of heat treated truck side rails, that the third and fourth criteria have not been met.

Significant Total or Partial Separations. Employment of production workers decreased 27.8 percent in 1974 compared with 1973, decreased 10.2 percent in 1975 compared with 1974 and increased 6.1 percent in the first three quarters of 1976 compared with the first three quarters of 1975. Employment of salaried workers increased 3.7 percent in 1974 compared with 1973 and increased 19.3 percent in 1975 compared with 1974.

Sales or Production, or Both, Have Decreased Absolutely. Production of heat treated truck side rails in terms of quantity decreased 13.0 percent in 1974 compared with 1973, decreased 24.0 percent in 1975 compared with 1974 and increased 20.6 percent in the first three quarters of 1976 compared with the first three quarters of 1975.

Production of automobile and light truck frames in terms of quantity increased 2.1 percent in 1975 compared with 1974 and increased 54.7 percent in the first three quarters of 1976 compared with the first three quarters of 1975.

Sales of automobile and light truck frames in terms of quantity increased 2.3 percent in 1975 compared to 1974 and increased 42.8 percent in the first three quarters of 1976 compared to the first three quarters of 1975.

Increased Imports. Imports of frames for automobiles and light trucks decreased 31.3 percent in 1974 compared with 1973, decreased 18.2 percent in 1975 compared with 1974 and increased 40.0 percent in the first half of 1976 compared with the first half of 1975. The ratio of imports to domestic production decreased from 21.7 percent in the first half of 1975 to 20.6 percent in the first half of 1976 and the ratio of imports to domestic consumption increased from 16.3 percent in the first half of 1975 to 17.8 percent in the first half of 1976. Industry sources report no imports of heat treated side rails for trucks.

Contributed Importantly. Customers purchasing heat treated truck side rails verified that they relied on the Reading Plant, Parrish Division of Dana Corporation and one other domestic manufacturer of heat treated truck side rails for these products. Purchases of heat treated truck side rails by the trucking industry have increased in 1976 compared with 1975 when the industry experienced a decline in sales as it suffered through the general economic downturn.

Full sized automobile frames are produced by the Reading Plant, Parrish Division of Dana Corporation for one particular customer and light truck frames for another. While customers purchase some imported frames from Canada, purchases of frames from the Reading plant increased both in 1975 and in the first three quarters of 1976 reflecting increased activity within the automotive industry.

Conclusion. After careful review of the facts, it is concluded that imports of articles like or directly competitive with heat treated truck side rails produced at the Reading Plant, Parrish Division of Dana Corporation have not increased and that sales and production of automobile and light truck frames produced at the Reading Plant, Parrish Division of Dana Corporation have not declined as required for certification under section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 19th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2829 Filed 1-27-77;8:45 am]

[TA-W-1382]

E. W. BOHREN TRANSPORT, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1382: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on December 7, 1976 in response to a worker petition received on that date which was filed by the Teamsters Union on behalf of workers and former workers at E. W. Bohren Transport, Incorporated, Woodburn, Indiana who were engaged in providing transportation services to steel companies.

The Notice of Investigation was published in the FEDERAL REGISTER on January 4, 1977 (42 FR 876). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of E. W. Bohren Transport, Inc. and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number of proportion of the workers in such workers' firm, or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely, and

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separation, or threat thereof, and to the decrease in sales or production. The term 'contributed importantly" means a cause which is important but not necessarily more important than any other cause.

If any of the above criteria is not satisfied a negative determination must be made.

E. W. Bohren Transport does not produce an article within the meaning of section 222(3) of the Act and this Department has already determined that the performance of services are not covered by the adjustment assistance program. See Notice of Determination in Pan American World Airways, Incorporated (TA-W-153, 40 FR 54639). The only question in this case is whether any of the steel companies with which business is conducted i.e., firms which produce an article, namely steel, and for whom the service is provided, can be considered the "workers' firm". The Department has also previously determined that an independent firm for which such services are provided cannot be considered the "workers' firm." See Notice of Determination in Nu-Car Driveaway, Incorporated (TA-W-393, 41 FR 12749).

E. W. Bohren Transport is a transport business incorporated in the state of Indiana and licensed and regulated by the state and the Interstate Commerce Commission. E. W. Bohren competed for available business with other carriers in the Pittsburgh to Chicago area and each was free to haul for any business requesting their services.

Neither the steel companies on one hand, nor E. W. Bohren Transport on the other, is financially or otherwise involved in the business of the other. E. W. Bohren either owns or leases the facilities necessary to the operation of its business and owns or leases all its trucks and equipment.

The workers upon whose behalf this petition was filed were hired and are paid by E. W. Bohren Transport. They are supervised by and subject to the control of E. W. Bohren personnel only. All employment benefits which they enjoy are provided and maintained by E. W. Bohren Transport.

Conclusion. After careful review of the issues and facts involved, I have determined that services of the kind provided by E. W. Bohren Transport, Inc., Woodburn, Indiana are not "articles" within the meaning of section 222(3) of the Trade Act of 1974, and that none of the steel companies can be considered the "workers' firm." The petition for trade adjustment assistance is, therefore, denied.

Signed at Washington, D.C. this 19th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2837 Filed 1-27-77;8:45 am]

[TA-W-1346]

GENERAL SIGNAL CORPORATION, MARSH INSTRUMENTS

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1346: investigation regarding certification of eligibility for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on December 1, 1976 in response to a worker petition received on December 1, 1976 which was filed by the United Steelworkers of America on behalf of workers and former workers producing steel, alloy, copper, and brass fittings, valves, couplings, flanges, etc. at the Skokie, Illinois plant of General Signal Corporation, Marsh Instruments Division.

The notice of investigation was published in the FEDERAL REGISTER on December 21, 1976 (41 FR 55607). No public hearing was requested, and none was held.

The information upon which the determination was made was obtained principally from General Signal Corporation, Marsh Instruments Division and the United Steelworkers of America.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any other criteria have been met, criterion (1) has not been met.

The Skokie, Illinois plant of General Signal Corporation, Marshall Instruments Division produces only bourdon tube pressure gauges.

Evidence developed in the Department's investigation reveals that there

have been no involuntary separations from the Skokie, Illinois plant since November 1, 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that employees at the Skokie, Illinois plant of General Signal Corporation, Marsh Instruments Division have not become totally or partially separated as required in Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2835 Filed 1-27-77;8:45 am]

[TA-W-1169]

GTE SYLVANIA

Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1169; investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 14, 1976 in response to a worker petition received on October 14, 1976 which was filed by the International Union of Electrical, Radio and Machine Workers on behalf of workers and former workers producing color televisions at the Batavia, New York plant of GTE Sylvania.

The notice of investigation was published in the FEDERAL REGISTER on November 5, 1976 (41 FR 48809). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of GTE Sylvania, its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof and to the decrease in sales and production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The Department's investigation has revealed that all of the above criteria have been met for the Batavia plant.

On July 14, 1975 a certification of eligibility to apply for adjustment assistance was issued for all workers who became separated from employment related to the production of flybacks at the Batavia, New York plant of GTE Sylvania. (TA-W-25).

On November 14, 1975, a certification of eligibility to apply for adjustment assistance was issued for all workers who became separated from employment related to the production of monchrome televisions at the Batavia, New York plant of GTE Sylvania. (TA-W-151).

Significant Total or Partial Separations. The average number of production workers at the Batavia plant decreased 24 percent from 1974 to 1975 and increased 14 percent in the first ten months of 1976 compared to the first ten months of 1975.

Approximately 90 percent of production employment at Batavia was terminated in December 1976.

Sales, Production, or Both, Have Decreased Absolutely. Production of color televisions at Batavia declined 52 percent from 1974 to 1975. Production at Batavia ceased in December 1976, when several lines of production were moved to Juarez, Mexico and Smithfield, North Carolina with the exception of three component operations.

Plastic knob production, circuit board fabrication, and automation (machine placement of components into circuit boards) remained at Batavia along with the company headquarters and television warehouse. Batavia is the only Sylvania plant equipped for fabrication and automation.

Increased Imports. Imports of color televisions increased absolutely in each year from 1971 through 1973. Imports increased relative to domestic production from 1973 to 1974 and from 1974 to 1975. In the first nine months of 1976, imports increased 156 percent compared to the first nine months of 1975. The ratio of imports to domestic production increased from 24.3 percent in the first nine months of 1975 to 54.5 percent in the first nine months of 1976.

Contributed Importantly. The Department's investigation revealed that Sylvania's color television customers, who were surveyed, also purchase imported color televisions. Over 50 percent of the customers surveyed had reduced their purchases of color televisions from Sylvania, while increasing their purchases of imported color televisions. The customers agreed that imports are capturing an increasing share of the color television market because they offer a lower price and greater quality than domestically manufactured televisions.

The declines in color television production at Batavia in 1975 and 1976 compared with 1974 illustrate importantly the impact of increased import competition. In an effort to maintain price competitiveness with imports major elements of Batavia's television production were transferred to various foreign and domestic locations to reduce production costs.

Presently three component operations, employing less than 10 percent of total production employment, remain at Batavia, along with the company headquarters and warehouse.

Conclusion. After careful review of the facts obtained in the investigation I conclude that increases of imports like or directly competitive with color televisions produced at the Batavia, New York plant of GTE Sylvania contributed importantly to the total or partial separation of the workers of that plant. In accordance with the provisions of the Act, I make the following certification:

All workers engaged in employment related to the production of color televisions at the Batavia, New York plant of GTE Sylvania who became totally or partially separated from employment on or after August 1, 1976 are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2830 Filed 1-27-77;8:45 am]

[TA-W-1194]

HONEYCOMB INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1194: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on October 19, 1976 in response to a worker petition received on October 19, 1976 which was filed by the International Ladies' Garment Workers' Union on behalf of workers and former workers producing women's dresses at the Philadelphia, Pennsylvania plant of Honeycomb, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 48809) on November 5, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Honeycomb, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (1) has not been met. The evidence developed in the Department's investigation reveals that employment increased 9 percent in the first nine months of 1976 compared to the first nine months of 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that employees at the Philadelphia, Pennsylvania plant of Honeycomb, Incorporated have not become totally or partially separated as required by Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2831 Filed 1-27-77;8:45 am]

[TA-W-1229]

LESANDE SHOE COMPANY, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1229: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 8, 1976 in response to a worker petition received on November 8, 1976 which was filed on behalf of workers and former workers producing women's shoes at the Haverhill, Massachusetts plant of the Lesande Shoe Company, Inc.

The notice of investigation was published in the FEDERAL REGISTER on November 30, 1976, (41 FR 52563). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lesande Shoe Company, Inc., its customers, the U.S. Department of Commerce, the U.S. International Trade Commission, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

The investigation has revealed that although criterion (3) has been met, criteria (1), (2), and (4) have not been met.

Significant Total or Partial Separations. The average number of workers (both hourly production and salaried) employed at the Lesande Shoe Company, Inc. declined 3.3 percent in 1975 compared to 1974 and then increased 2.4 percent in the period January-November 1976 compared to the corresponding time period in 1975. The average number of hours worked per week by hourly production employees increased 0.4 percent in 1975 compared to 1974 and 14.8 percent in the period January-November 1976 compared to the corresponding time period in 1975.

Sales or Production, or Both, Have Decreased Absolutely. Sales of women's shoes at the Lesande Shoe Company, Inc. declined 10.3 percent in quantity in 1975 compared to 1974 and then increased 20.1 percent in the period January-November 1976 compared to the corresponding time period in 1975.

Increased Imports. Imports of women's and misses' nonrubber footwear increased absolutely and relatively in 1972 compared to 1971 and in 1973 compared to 1972. Imports declined absolutely and relatively in 1974 compared to 1973 and then increased absolutely, but declined relatively in 1975 compared to 1974. The ratios of imports to domestic production and consumption declined from 102.6 percent and 50.6 percent, respectively, in 1974 to 101.1 percent and 50.3 percent, respectively, in 1975. Imports increased absolutely but declined relatively in the first six months of 1976 compared to the first six months of 1975. The ratios of imports to domestic production and consumption declined from 107.8 percent and 51.9 percent, respectively, in the first six months of 1975 to 94.6 percent and 48.6 percent, respectively, in the first six months of 1976.

Contributed Importantly. Customers of Lesande Shoe Company, Inc. indicated that they have increased purchases from the Lesande Shoe Company, Inc. and therefore have not been switching their purchases to imported women's shoes.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with the women's shoes produced by the Lesande Shoe Company, Incorporated did not contribute importantly to the total or partial separations of the workers of such firm or subdivision.

Signed at Washington, D.C. this 19th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2833 Filed 1-27-77;8:45 am]

[TA-W-1216]

LOCKHEED-CALIFORNIA CO.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1216: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 2, 1976 in response to a worker petition received on November 2, 1976 which was filed by the International Association of Machinists and Aerospace Workers on behalf of workers and former workers producing aircraft components and subassemblies for the P-3 Orion Anti-Submarine and the L-1011 Tristar airliner at the McAlester, Oklahoma plant of the Lockheed-California Company.

The notice of investigation was published in the FEDERAL REGISTER on November 23, 1976 (41 FR 51631). No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Lockheed-California Company, the U.S. International Trade Commission, the U.S. Department of Commerce, industry analysts and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely,

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion four (4) has not been met.

Lockheed Aircraft Corporation is a multi-product, multi-plant firm specializing in the manufacture of aerospace parts and products. The McAlester plant produces aircraft subassemblies, parts and products for commercial and military uses.

The Department's investigation revealed that Lockheed Aircraft Corporation was the successful bidder to supply aircraft to the Canadian government. The terms of the contract contained an offset agreement provision. This agreement required the prime contractor to assure that Canadian firms would receive subcontract work on certain airframe subassemblies, parts and products for use in the aircraft. In January 1977, as a result of this agreement, Lockheed initiated the transfer of some equipment from the McAlester plant to Canadian firms for use in subcontracting work on certain subassemblies, parts and products. All completed aircraft under the terms of this contract will be exported to Canada.

The balance of current production of airframe subassemblies, parts and products at the McAlester plant for use in commercial and military aircraft will be transferred to Lockheed's Burbank, California facility.

Several factors contributing to some of the current separations from the McAlester plant and the scheduled closing of this plant in the last quarter of 1977 include the offset agreement requiring the production of certain airframe subassemblies, parts and products by Canadian firms, the decline in new aircraft orders, and the transfer of production from one domestic facility to another domestic facility. This transfer of production will lead to increased production and employment at the Burbank, California plant.

Company officials indicated that the imports of airframe subassemblies from Canada to the United States are expected to begin about June or July 1977. As of this date no subassemblies have been imported, and, until such importation takes place, there is no basis for certification.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that increases of imports like or directly competitive with subassemblies, parts and products for commercial and military aircraft produced at the McAlester, Oklahoma plant of the Lockheed-California Company did not contribute importantly to the total or partial separation of workers of that plant as required under Section 222 of the Trade Act of 1974. Therefore eligibility to apply for adjustment assistance is denied.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[FR Doc.77-2832 Filed 1-27-77;8:45 am]

[TA-W-1270]

SPORTABLES, INC.

Negative Determination Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 the Department of Labor herein presents the results of TA-W-1270: investigation regarding certification of eligibility to apply for worker adjustment assistance as prescribed in section 222 of the Act.

The investigation was initiated on November 24, 1976 in response to a worker petition received on November 24, 1976 which was filed by the International Ladies Garment Workers' Union on behalf of workers and former workers producing women's suits at the Philadelphia, Pennsylvania plant of Sportables, Incorporated.

The notice of investigation was published in the FEDERAL REGISTER (41 FR 53553) on December 7, 1976. No public hearing was requested and none was held.

The information upon which the determination was made was obtained principally from officials of Sportables, Incorporated, the U.S. Department of Commerce, the U.S. International Trade Commission, and Department files.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Trade Act of 1974 must be met:

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated;

(2) That sales or production, or both, of such firm or subdivision have decreased absolutely;

(3) That articles like or directly competitive with those produced by the firm or subdivision are being imported in increased quantities, either actual or relative to domestic production; and

(4) That such increased imports have contributed importantly to the separations, or threat, thereof, and to the decrease in sales or production. The term "contributed importantly" means a cause which is important but not necessarily more important than any other cause.

Without regard to whether any of the other criteria have been met, criterion (1) has not been met. The evidence developed in the Department's investigation reveals that average employment increased 9 percent in the first nine months of 1976 compared to the first nine months of 1975.

Conclusion. After careful review of the facts obtained in the investigation, I conclude that employees at the Philadelphia, Pennsylvania plant of Sportables, Incorporated have not become totally or partially separated as required by Section 222 of the Trade Act of 1974.

Signed at Washington, D.C. this 17th day of January 1977.

JAMES F. TAYLOR,
Director, Office of Management, Administration and Planning.

[TA-W-1,545]

WESTERN LEATHER PRODUCTS CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 4, 1977 the Department of Labor received a petition dated December 13, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Western Leather Products Corporation, Milwaukee, Wisconsin (TA-W-1,545). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with heels, counters and welting for shoes and leather for waist belts produced by Western Leather Products Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address show below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C., this 4th day of January 1977.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

Office of the Secretary

[TA-W-1,574]

AMBOY MANUFACTURING CO.

Investigation Regarding Certification of Eligibility to Apply for Worker Adjustment Assistance

On January 17, 1977 the Department of Labor received a petition dated December 17, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Amboy Manufacturing Company, Perth Amboy, New Jersey (TA-W-1,574). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with children's coats produced by Amboy Manufacturing Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 17th day of January 1977.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

A & T LADIES' GARMENT CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 18, 1977 the Department of Labor received a petition dated January 7, 1977 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of A & T Ladies' Garment Corporation, Brooklyn, New York (TA-W-1,581). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with ladies' coats and suits produced by A & T Ladies' Garment Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject mater of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 18th day of January 1977.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

HANSEN SEAWAY SERVICE LTD.

Investigation Regarding Certification of Eligibilty To Apply for Worker Adjustment Assistance

On January 2, 1977 the Department of Labor received a petition dated December 2, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the International Longshoremen's Association on behalf of the workers and former workers of Hansen Seaway Service Ltd., Milwaukee, Wisconsin (TA-W-1,551). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with the storing of import and export products provided by Hansen Seaway Service Ltd. or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 2nd day of January 1976.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

INTERNATIONAL HARVESTER CO.

Investigation Regarding Certification of Eligibility to Apply for Worker Adjustment Assistance

On January 5, 1977 the Department of Labor received a petition dated December 14, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of the New Orleans, La. plant of International Harvester Company, Chicago, Ill. (TA-W-1,552). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with industrial twine produced by International Harvester Company or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 5th day of January 1977.

On January 18, 1977 the Department of Labor received a petition dated December 20, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Oil, Chemical and Atomic International Union on behalf of the workers and former workers of the Marietta, Ohio, Metals Division plant of Union Carbide Corporation, New York, New York (TA-W-1,582). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with ferro chrome, ferro manganese, silicon manganese and electrolytic manganese produced by Union Carbide Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200

Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 18th day of January 1977.

MARVIN M. FOOKS,
Director, Office of Trade Adjustment Assistance.

UNITED AUTOMOBILE, AEROSPACE & AGRICULTURAL IMPLEMENT WORKERS OF AMERICA

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 7, 1977 the Department of Labor received a petition dated December 7, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Automobile, Aerospace & Agricultural Implement Workers of America on behalf of the workers and former workers of United Automobile, Aerospace & Agricultural Implement Workers of America, Kenosha, Wis. (TA-W-1,577). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with secretarial services provided by United Automobile, Aerospace & Agricultural Implement Workers of America or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 7th day of January 1977.

U.S. STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 10, 1977 the Department of Labor received a petition dated December 23, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United States Steelworkers of America on behalf of the workers and former workers of Lorain, Ohio plant of United States Steel Corporation, Pittsburgh, Pa. (TA-W-1,563). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with furnace for pig iron produced by United States Steel Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 10th day of January 1977.

U.S. STEEL CORP.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 10, 1977 the Department of Labor received a petition dated December 23, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Irvin ET Works, Braddock and Dravosburg, Pennsylvania of U.S. Steel Corp., Pittsburgh, Pa. (TA-W-1,564). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with carbon sheet and strip, coded sheet, slabs and tin mill products produced by U.S. Steel Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a subtantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue N.W., Washington, D.C. 20210.

WEYENBERG SHOE MANUFACTURING CO.

Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On January 10, 1977 the Department of Labor received a petition dated December 10, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the Boot and Shoe Workers Union on behalf of the workers and former workers of Weyenberg Shoe Manufacturing Co., Milwaukee, Wisconsin (TA-W-1,570). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with insoles and outsoles for men's shoes produced by Weyenberg Shoe Manufacturing Co. or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, D.C. 20210.

WHEELING-PITTSBURGH STEEL CORP.

Investigation Regarding Certification of Eligibility to Apply for Worker Adjustment Assistance

On January 1, 1977 the Department of Labor received a petition dated December 1, 1976 which was filed under section 221(a) of the Trade Act of 1974 ("the Act") by the United Steelworkers of America on behalf of the workers and former workers of Martins Ferry, Ohio plant of Wheeling-Pittsburgh Steel Corp. Pittsburgh, Pa. (TA-W-1,572). Accordingly, the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in section 221 (a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with galvanized sheets, coils & metal ware products produced by Wheeling-Pittsburgh Steel Corporation or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a substantial interest in the subject matter of the investigation may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

Interested persons are invited to submit written comments regarding the subject matter of this investigation to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than February 9, 1977.

The petition filed in this case is available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 19, 1977 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

Requests for extension which appear to raise no significant issues are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503, (202–395–4529), or from the reviewer listed.

NEW FORMS

DEPARTMENT OF DEFENSE

Department of the Navy, U.S. Navy paid broadcast media mix and media weight, attitude and awareness study, single time, nonprior service males age 17–21, National Security Division, Maria Gonzalez, 395–4734.

DEPARTMENT OF STATE

[Public Notice 514]

US–UK AIR SERVICES AGREEMENT (THE BERMUDA AGREEMENT)

Current Renegotiation

On June 22, 1976, the United Kingdom notified the United States of its intention to terminate one year hence the United States-United Kingdom Air Services Agreement, commonly referred to as the Bermuda Agreement.[1] The United Kingdom requested consultations under the terms of Article 13 of the Bermuda Agreement.

The Department of State is responsible for the negotiation of international agreements, including air transport agreements. Under Section 802 of the Federal Aviation Act, the Secretary of State is required to "consult with the Secretary of Transportation, (the Civil Aeronautics) Board, or Secretary (of Commerce), as appropriate, concerning the negotiations of any agreements with foreign governments for the establishment or development of * * * air routes and services." The Department of State is coordinating with other agencies regarding United States positions for negotiations with the United Kingdom looking to a new United States-United Kingdom air transport agreement. Consultations between the two countries aimed at developing a new bilateral agreement have begun and will continue during 1977.

Traffic rights between the United States and the United Kingdom were exchanged in 1946 when the Governments of the two nations entered into the Bermuda Agreement. This document has become a model not only for numerous subsequent agreements between the United States and other countries but also for bilateral agreements between other countries. As amended, the provisions of the Bermuda Agreement have continued to serve as the foundation for commercial air services between the United States and the United Kingdom.

Any new agreement which may ultimately be concluded could have significant effects both on the United States aviation industry and on shippers and travelers involved in trade and transport between the United States and the United Kingdom and its territories. Furthermore, the fact that many other bilateral air transport agreements have adopted the Bermuda Agreement as a model suggests that a new agreement could have significance beyond its effect on US–UK air transport relationships.

The Department of State, the Civil Aeronautics Board, and on occasion other interested federal agencies have in the past solicited the views of interested parties prior to the commencement of significant aviation negotiations. Because renegotiation of the Bermuda Agreement portends significant consequences for United States relations with many aviation partners, the Department of State has decided more formally to invite the submission of written views and data from interested members of the United States public relating to the renegotiation. This general solicitation of views does not constitute a proceeding governed by the Administrative Procedures Act, as agency actions involving foreign affairs functions of the United States are specifically exempted from the requirements of the Act by 5 U.S.C. 553(a)(1). Although the Department welcomes any relevant submission or presentation, the public is particularly invited to address the following issues raised by the United Kingdom or of interest to the United States Government.

1. *Capacity.* Under the Bermuda Agreement, it is anticipated that the amount of capacity to be provided on a route will be decided by each carrier individually, subject to review by governments after a reasonable period of experience to determine whether the capacity operated has been consistent with certain specified principles relating to market demand, undue effect on the carriers of the other country, and to the origin and destination "freedom" composition) of traffic. The United Kingdom proposes that some form of capacity control be introduced which would require agreement on capacity levels either among the carriers or between the governments.

2. *Routes.* Under the Bermuda Agreement, the United States has rights for its carriers to operate an extensive route system between the United States and the United Kingdom and beyond, between the United States and Bermuda and British possesions in the Caribbean, and between the United States and Hong Kong and beyond. The United Kingdom also has extensive route rights to and from the United States, some of which are not currently being exercised. The United Kingdom has proposed that all transatlantic routes be turnaround routes (i.e., no operations by United States carriers beyond United Kingdom points), that the United States rights to operate beyond Hong Kong be terminated, and that, to the extent the United Kingdom may not request reciprocal routes involving Bermuda, the Caribbean, and Hong Kong, it be accorded additional routes in other market areas.

3. *Designation of Carriers.* Under the Bermuda Agreement, each government has the right to designate one or more carriers to operate over each route. The United Kingdom has proposed that no more than one combination carrier of each country be allowed to operate on any city-pair route in transatlantic markets and that only one carrier of each country be allowed to operate all-cargo services.

4. *Fares.* Under the Bermuda Agreement, proposed air fares must be filed with the aeronautical authorities and are subject to disapproval if, after notice and consultations, the two governments are not able to agree on the appropriate air fare. The British have expressed dissatisfaction over how this system works, but have not proposed a specific alternative. Among the relevant issues are:

(a) What role, if any, should governments play in establishing air fares or in providing guidance or criteria to the carriers?

(b) What role should governments play when either IATA cannot agree or an IATA resolution is disapproved by one or more governments?

(c) What revisions should be made in the rate article in the Bermuda Agreement?

(d) If some form of capacity control were to be agreed, should there be greater price competition and, if so, how can the latter be achieved?

(e) Should commission rates be subject to the same provisions in a new agreement as air fares?

5. *Charter Services.* The Bermuda Agreement governs only scheduled air services. Charter air services are not subject to an overall United States-United Kingdom agreement, although there was in effect until December 31, 1976, a bilateral understanding addressed mostly to the charterworthiness issue (Understanding Relating to Passenger Charter Air Services (TIAS 8303)). Among the relevant issues are:

(a) Should any new air transport agreement with the United Kingdom cover both scheduled and charter air services? Or, alternatively, should there be separate, but otherwise coequal, agreements on scheduled and charter air services?

(b) If charter air services are to be governed by a full agreement, how should it address such questions as charter traffic rights, number of carriers that may be designated, capacity, price (charter air fares), and the relationship of scheduled and charter air services?

6. *User Charges.* The Bermuda Agreement does not address user charges, except to confirm the general language in Article 15 of the Convention on International Civil Aviation (61 Stat. 1180, TIAS 1591, 15 UNTS 295). Among the issues is whether any new agreement should establish user charge standards and, if so, what these standards should be.

Any member of the United States public desiring to submit views and data relating to the foregoing should address his submission in writing to the Director, Office of Aviation, Department of State, Washington, D.C. 20520. Material should be captioned "Bermuda Renegotiation" and should be supplied in original and 15 copies. In order to be of maximum usefulness, material should be received as soon as feasible.

Unless valid legal cause is demonstrated, all submissions will become part of a public record to be maintained by the Office of Aviation, Department of State. Any party who believes that all or any part of the material he is submitting may be withheld from public disclosure under the Freedom of Information Act, either because it contains commercially competitive information or for any other reason, should identify such material in his submission.

The Department will give thorough consideration to each of the submissions it receives. It may contact parties who submit material in response to this notice or other interested parties to seek clarification or elaboration of the views and data they have conveyed, or to seek views and data on other issues of a subsidiary nature which may be posed by the negotiation, particularly as the negotiations progress to the consideration of specific matters. As United States negotiating positions are formulated and developed, the Department's policy in favor of public disclosure of comments submitted on the Bermuda renegotiation will inevitably conflict with the need to maintain a degree of confidentiality in order not to reveal our negotiating posture piecemeal or prematurely. The Department will attempt to include in its public record the above responses to requests for clarification or elaboration to the greatest extent consistent with this requirement of confidentiality of negotiating positions.

Dated: January 19, 1977.

JULIUS L. KATZ,
Assistant Secretary for
Economic and Business Affairs.

[1] Agreement Between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America Relating to Air Services Between Their Respective Territories, February 11, 1946, 60 Stat. 1499, TIAS 1507, 3 UNTS 253. Amended May 27, 1946, 17 UST 683, TIAS 6019, 573 UNTS 274.

DEPARTMENT OF COMMERCE

National Bureau of Standards

COMMERCIAL STANDARD

Intent To Withdraw

In accordance with § 10.12 of the Department's "Procedures for the Development of Voluntary Product Standards" (15 CFR Part 10, as revised; 35 FR 8349 dated May 28, 1970), notice is hereby given of the intent to withdraw Commercial Standard CS 132-46, "Hardware Cloth." It has been tentatively determined that this standard is technically inadequate and that revision would serve no useful purpose. The subject matter of CS 132-46 is adequately covered by American Society for Testing and Materials ANSI/ASTM A 740-76, "Standard Specification for Hardware Cloth (Woven or Welded Galvanized Steel Wire Fabric)."

Any comments or objections concerning this intended withdrawal of this standard should be made in writing to the Standards Development Services Section, National Bureau of Standards, Washington, D.C. 20234, on or before February 28, 1977. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action terminates the authority to refer to a published standard as a voluntary standard developed under the Department of Commerce procedures from the effective date of withdrawal.

Dated: January 21, 1977.

ERNEST AMBLER,
Acting Director.

National Oceanic and Atmospheric Administration

NALCO ENVIRONMENTAL SCIENCES

Receipt of Application for Endangered Species Permit

Notice is hereby given that the following Applicant has applied in due form for a Permit to take an endangered species of fish for scientific purposes as authorized by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) and the National Marine Fisheries Service Regulations Governing Endangered Fish and Wildlife Permit (50 CFR Parts 217-222).

Nalco Environmental Sciences, 6720 Thompson Road, Syracuse, New York 13211, to take for research purposes, an endangered species of fish, the shortnose sturgeon (*Acipenser brevirostrum*) in the Hudson River in the State of New York during the next 5 years.

The Applicant will in the course of assessing the status of fish populations and the impact of power generation facilities on these populations, occasionally take shortnose sturgeon by such means as gill netting or trawling. Live specimens so captured will be measured, weighed and returned immediately to the Hudson River. Any specimen found dead upon the retrieval of the collecting gear will be preserved after being weighed and measured. Such specimens will be deposited in scientific collections.

The data collected from these occasionally captured specimens will be provided to other researchers who are conducting more extensive work on shortnose sturgeon.

Documents submitted in connection with this application are available for review in the following offices:

Director, National Marine Fisheries Service, Department of Commerce, 3300 Whitehaven Street, N.W., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930.

Written data or views, or requests for a public hearing on this application, should be submitted to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, on or before February 28, 1977. The holding of such a hearing is at the discretion of the Director. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular application would be appropriate.

Any statements and opinions that may be contained in this notice in support of this application are summarized from information supplied by the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: January 21, 1977.

ROBERT J. AYERS,
Acting Assistant Director for Fisheries Management, National Marine Fisheries Service.

NEW ENGLAND REGIONAL FISHERY MANAGEMENT COUNCIL AND MID-ATLANTIC REGIONAL FISHERY MANAGEMENT COUNCIL

Fishery Conservation and Management Draft Fishery Management Plan Concerning Atlantic Cod, Haddock, and Yellowtail Flounder; Receipt of Public Comment

Notice of a series of public meetings for the purpose of receiving public views and comments concerning the enclosed Draft Fishery Management Plan for Atlantic Cod, Haddock, and Yellowtail Flounder pursuant to section 302(h) of the Fishery Conservation and Management Act of 1976, Pub. L. 94-265 has already been made by publication in the FEDERAL REGISTER. The purpose of this publication is to ensure that the public has the greatest possible opportunity to review the contents of the draft fishery management plan which was prepared by the New England Regional Fishery Management Council in consultation with the Mid-Atlantic Regional Fishery Management Council.

Persons desiring to comment or submit their views may do so by directing their comments to either:

John C. Bryson, Executive Director, Mid-Atlantic Regional Fishery Management Council, c/o Senator Roth's Office, Federal Building, North New Street, Dover, Delaware 19901.

Patricia Pelczarski, New England Regional Fishery Management Council, c/o National Marine Fisheries Service, State Fish Pier, Gloucester, Massachusetts 01930.

Written comments on the draft plan may be submitted by interested members of the public no later than February 23, 1977 to either of the addresses above.

This notice was prepared and published at the request of the New England Regional Fishery Management Council in consultation with the Mid-Atlantic Regional Fishery Management Council.

Dated at Washington, D.C. this 24th day of January, 1977.

WINFRED H. MEIBOHM,
Associate Director,
National Marine Fisheries Service.

c. Area and season restrictions
III. Minimum Size Limits
1. Suggested Regulations

I. Introduction. The Fishery Conservation and Management Act of 1976 (Pub. L. 94-265) provides for the conservation and management of fishery resources of the United States by establishing a fishery conservation zone of 200 nautical miles, within which the United States has exclusive management authority over all fishery resources except highly migratory species. The Act calls for the preparation and implementation of fishery management plans to meet the objectives of a National Fishery Management Program.

This fishery management plan, prepared under authority of the Fishery Conservation and Management Act of 1976 (FCMA), addresses only haddock, cod, and yellowtail flounder. Other demersal species will be evaluated in the future.

Harvesting of haddock, cod, and yellowtail flounder off the Northeastern United States was, until December 31, 1976, regulated under terms of the International Commission for the Northwest Atlantic Fisheries (ICNAF), and subsequent agreements between the 18 signatory nations. The FCMA, enacted and signed into law on April 13, 1976, is effective March 1, 1977. Management of seriously depleted New England stocks, such as are addressed in this plan, is not provided for in the interim. Management plans for offshore New England waters are to be formulated by the New England Regional Fisheries Management Council, one of eight such Councils provided for by the FCMA.

The management plan proposes management measures for the groundfish fisheries for haddock, cod, and yellowtail flounder to achieve historic levels of maximum sustainable yield. Since the stocks in question have substantially declined as a result of overfishing and other factors, quotas, areas, mesh size restrictions, and minimum size regulations are recommended for implementation.

II. The Fishery Management Plan

1. Description of the fishery.

II. 1.a. Cod.

II.1.a(1) Areas and Stocks Involved.

Wise (1958, 1962) proposed three or possibly four separate groups of cod in the waters off the eastern U.S. coast. The areas inhabited by these groups were defined as 1) Georges Bank, east of the 68th meridian; 2) Gulf of Maine, north of Provincetown, Massachusetts; 3) southern New England, south and west of Nantucket Sholas, and 4) a New Jersey coastal group which spends part of the year mingled with a group in the southern New England area. For management purposes the cod stocks have been grouped as Gulf of Maine ICNAF 5Y and Georges Bank and southward ICNAF 5Z and 6 (See Fig. 1). Historically, the majority of the commercial landings have come from Georges Bank.

Similar groupings can be identified in the waters immediately adjacent to the north of Georges Bank but the degree of intermixing appears to be minimal.

II.1.a(2) Statistical History of Exploitation.

Cod have been exploited off the eastern U.S. seaboard since the seventeenth century. They have been fished both commercially and for recreation throughout their range.

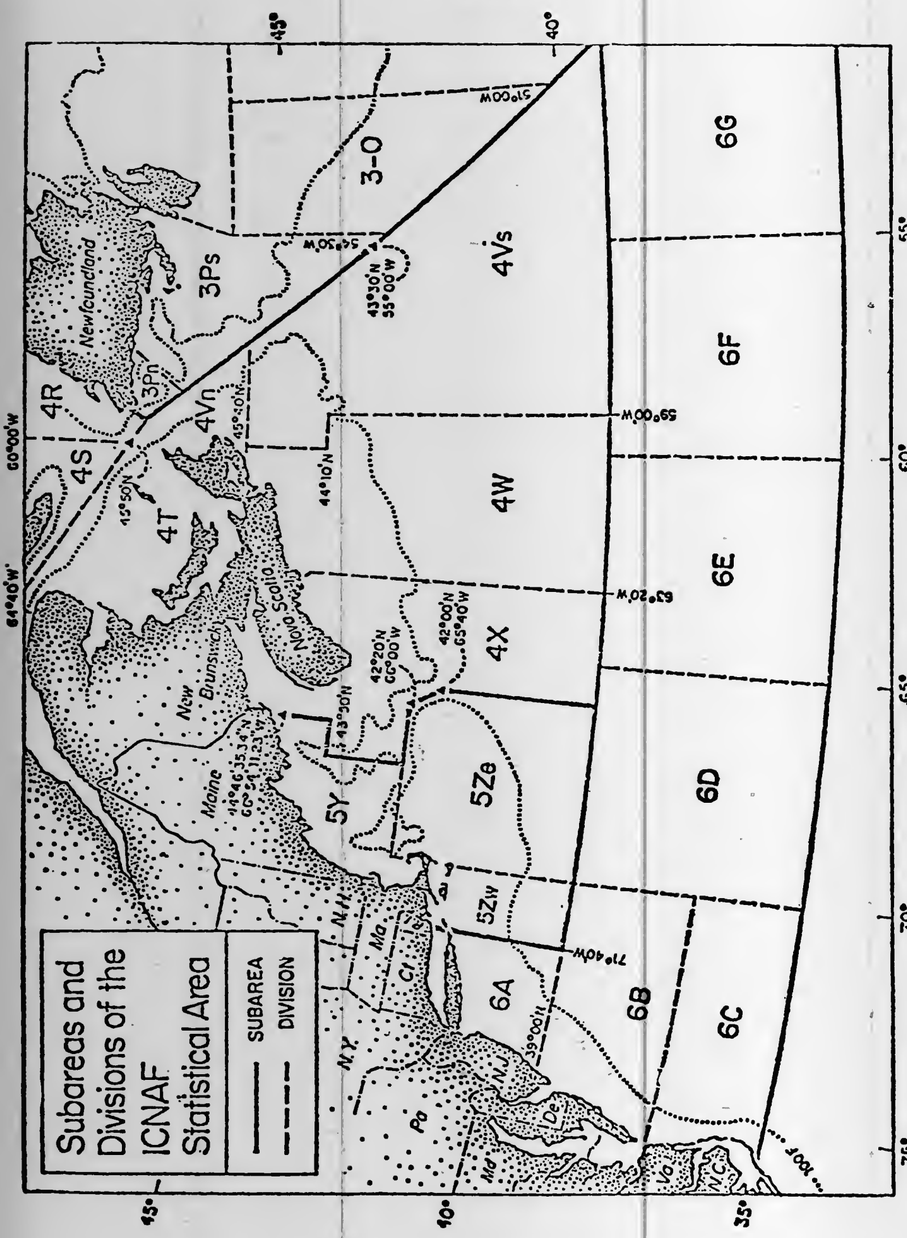

Figure 1. Northwest Atlantic from Cape Hatteras to Newfoundland, showing ICNAF Areas referred to in the Management Plan.

FEDERAL REGISTER, VOL. 42, NO. 19—FRIDAY, JANUARY 28, 1977

In the Middle Atlantic-New York Bight area the commercial fishery has been seasonal, with peak catches taken from December through February. The fishery at one time extended as far south as the Chesapeake Bay region, with pound nets, longlines, and trawls being used, but catches were never large in comparison with the more northerly stocks; i.e., in the New York Bight area, peak catches in 1930 approached 5,000 metric tons (m.t.) and the Chesapeake Bay region yielded a maximum catch of only 450 m.t. (1962). In contrast, cod landings from New England waters have exceeded 50,000 m.t. several times since 1900. The shift in fishing practices for the southern cod stock has resulted in the current harvest of cod mainly as an incidental catch associated with other groundfish fisheries. Commercial landings from the New York Bight area in 1970 approximated only 260 m.t. However, with the increasing trend in the number of salt water anglers and the growing popularity of winter sportfishing, the cod has taken on a new importance, particularly in the New York area.

Marine recreational surveys conducted in 1960, 1965, 1970, and 1974 estimated the recreational catches of cod to be 6,349, 13,560, 16,281, and 12,381 m.t. respectively. The U.S. commercial landings of cod in 1970 for this same area, New York to Maine were only 24,000 m.t. with the greatest share of the catch coming from offshore waters not generally fished by the recreational fishermen.

Landings statistics for the major offshore commercial fisheries for cod are available since 1893. Up until 1960, the stocks were exploited almost exclusively by U.S. fishing vessels, but following 1960, exploitation by foreign nations increased the total landings of cod threefold. This fishery may be separated into three periods: The early period from 1893–1910 in which years of record high landings in 1895 and 1907 were followed by much reduced catches; the middle period from 1910–1950 during which landings remained fairly steady; and the latest period from 1950–1975 when landings first rose to near record high levels and then returned to the long-term average levels (Fig. 2, Table 11). The mean annual catch for the total fishery since 1893 is 32,000 m.t. Approximately 80 percent of the catch comes from Georges Bank.

Nominal catches for the Gulf of Maine have fluctuated between 2,700 and 14,500 m.t. since 1932 and have averaged 7,100 m.t. over the past 10 years (1966–1975); almost all of this catch has been taken by the U.S. In 1975, the provisional catch approximated 9,400 m.t. In addition, this stock has supported undetermined, but apparently increasing, levels of recreational fishing for some time.

During the period 1932–1960, nominal U.S. commercial catches for the Georges Bank stock complex fluctuated between 8,100 and 32,300 m.t. With increased Canadian fishing and the advent of distant water fleets, landings rose very sharply to 52,900 tons in 1966. Landings declined sharply thereafter and then stabilized around 26,000 m.t. annually during 1970–75. In 1975, nominal catch approximated 24,000 m.t.

*Provisional

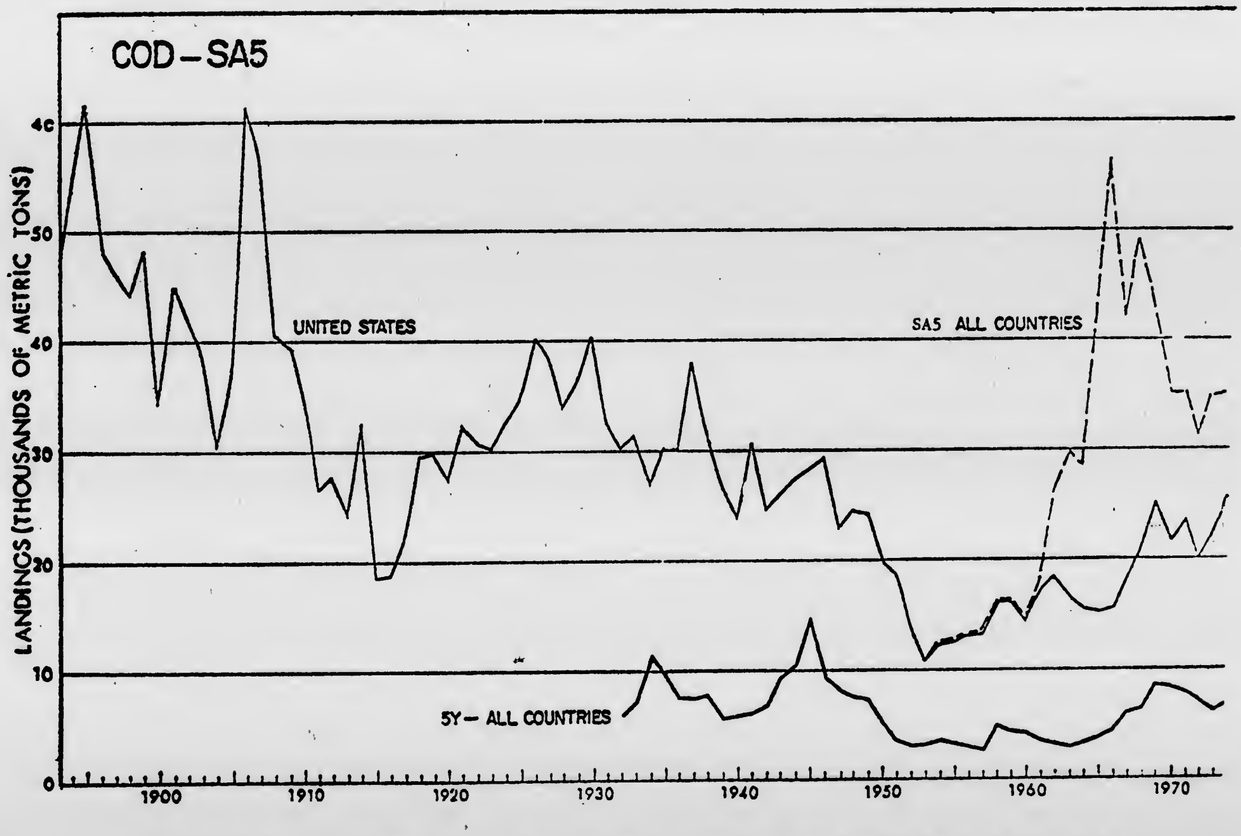

Figure 2. Landings of cod since 1893 for Subarea 5, US and all countries, and for Division 5Y, all countries. Prior to 1956 US landings represented all landings in Division 5Y.

II.1.b. Yellowtail.

II.1.b.(1) Area and Stocks Involved.

Prior to the 1970's yellowtail flounder was primarily sought on three fishing grounds along the Atlantic coast of the United States. They are the Southern New England, Georges Bank and Cape Cod grounds (Figure 3). Tagging experiments and parasite studies performed by Lux (1963) indicated that there is relatively little mixing between yellowtail flounder from the three New England grounds. In general, the Southern New England ground has been the most productive although in recent years, catches from the Georges Bank ground have been higher than from Southern New England. During the 1970's significant catches of yellowtail flounder have been reported from Subarea 6 south of the Southern New England ground. The degree of intermixing between this most recent fishing area and the population of the Southern New England ground is unknown. In practice, the yellowtail flounder west of 69° W. and Subarea 6 (including the Cape Cod and Southern New England grounds) have been managed as a unit. Yellowtail flounder east of 69° W. (including Georges Bank) are also managed as a unit.

II.1.b.(2) Statistical History of Exploitation.

The yellowtail flounder, *Limanda ferruginea*, is an important food fish. It is sought primarily by Massachusetts and Rhode Island otter trawlers from the ports of New Bedford, Provincetown, and Point Judith. The species is also landed in Connecticut, New York, and in the past by foreign fishing fleets.

Yellowtail flounder was unexploited prior to 1935. With the decline in abundance of the thicker-bodied winter flounder, the yellowtail flounder fishery in Subarea 5 west of 69° W. developed rapidly. The fishery prospered through the 1940's declined during the 1950's, then recovered during the 1960's and has once again declined in the 1970's. The fishery for yellowtail flounder in Georges Bank (east of 69° W.) developed more slowly than the Southern New England fishery. The Georges Bank fishery did not yield more than 10,000 m.t. prior to the 1960's while the yield from the Southern New England exceeded this level during the 1930's. The annual catch of yellowtail flounder for each area from 1935 to the present is given in Table 12. Catch data include discard estimates of small fish by domestic vessels. These are based on samples taken at sea and on interviews with vessel captains. In the past, discards have comprised as much as ½ of the total catch, although the percentage of discards appears much lower at present. Few, if any, yellowtail flounder are taken by marine recreational fishermen.

II. 1.c. Haddock.

II. 1.c.(1) Areas and Stocks Involved.

Biological data and tagging studies indicate that haddock on Georges Bank east of the Great South Channel are a relatively localized and distinct population. This population is largely separated from stocks in Subarea 4 by the Fundian Channel and the Gulf of Maine, however, some interchange has been documented between this area the areas to the west (Grosslein, 1962). In addition, two small populations may exist inshore in Subarea 5; a southern group has been identified in the Nantucket Shoals and Jeffreys Ledge area, while to the north, migration into Subarea 5 as far south as the Nantucket Shoals and Jeffreys Ledge area has been documented from haddock tagged in Passamaquoddy Bay. Some movement of haddock tagged in the Nantucket Shoals and Jeffreys Ledge areas into the Georges Bank area east of the Great South Channel has also been documented but does not appear to be extensive. In view of the relatively small size of the population resident to the Gulf of Maine-Nantucket Shoals area and uncertainty relative to interchange between this population and the population on Georges Bank, haddock on Georges Bank and in adjacent areas east of Cape Cod (Subdivision 5Ze) have been considered for assessment purposes as a discrete stock, recognizing that an unknown, but apparently slight, amount of interchange may occur between Subdivision 5Ze and areas to the north (Division 5Y) and west (Division 5Zw).

II.1.C.(1) Statistical History of Exploitation.

The decline in market for salt fish early in the century coupled with increased demand for fresh (iced) fish and technological innovations (otter trawling, and adoption of diesel engines) contributed to rapid growth of the Georges Bank haddock fishery during the 1920's. Landings rose steadily to a peak of 115,500 m.t. in 1929, dropped to 59,500 m.t. in 1931, and subsequently fluctuated around 47,000 m.t. annually from 1935–1960. During this period, this was an almost exclusive U.S. fishery (very small catches were made by Canada). In the 1960's, however, foreign nationals (primarily the U.S.S.R. and Canada) intensified their fishing effort upon this stock. Recruitment of the outstanding 1963 year-class in 1965 attracted greatly increased effort by these two countries, while U.S. effort remained relatively

constant, and as a result landings from this stock rose dramatically to an all-time high of 150,000 m.t. Since that year, landings have declined drastically and in 1969 totalled 22,100 m.t. (the final year of unrestricted fishing). Since 1970, annual landings have averaged 7,100 m.t. under quota management. Historical statistics for the New England fishery are given in Table 13; landings by ration since 1960 are given in Table 14.

It can be seen that the U.S.S.R., Canada and Spain have accounted for most of the catch by foreign nationals in recent years.

Recreational catches for Subarea 5 have been significant on occasion with salt-water angling surveys indicating catches of 800, 9,700, 1,100, and 200 m.t. for 1960, 1965, 1970, and 1974 respectively. Almost all of the above catches were taken in Subarea 5.

1 Includes landings for Bulgaria, France, FRG, GDR, Japan and non-members.
2 From ICNAF statistical bulletins 10-24.
3 Landings not allocated by subdivision (5Ze or 5Zw).
4 From provisional ICNAF statistics for 1976 (incomplete).
5 Subarea 5 HX landings were added into 5Z.
6 No statistical area 6 landings data are available prior to 1966, but haddock landings for the area were apparently negligible.

II.1.d. Significance of the Historical Domestic Fisheries.[1]

II.1.d.(1) Introduction.

The FMP is designed to address haddock, cod, and yellowtail flounder. However, other species are also landed by the same vessels that land the subject species. Since the available performance data relate to the groundfish fishery in general, the discussion below also relates to the entire groundfish sector, with particular reference to the subject species. Further, the vast majority of these species are landed in New England ports. Therefore, the discussion below is essentially on the New England groundfish industry (harvesting level). The following section first discusses the industry during the period 1950–62. The second section presents similar data for the period 1960–1971. Recent conditions are contained in the final section. This section does not address the significance of the recreational fisheries. An economic assessment of the recreational fisheries will be included as the requisite studies are completed.

II.1.d.(2). The Industry 1950–62.

II.1.d.(2)(a) Overview.

The New England groundfish fleet (mostly otter trawlers) is usually considered a separate segment of the entire New England Fishing Industry. These vessels land haddock, ocean perch, flounder, cod, whiting, pollock, hake and cust. The groundfish fleet reached its peak of 795 vessels in 1951. By 1962 this fleet had dwindled to 592 vessels, a decline of 25.5 percent. During the same period, the number of fishermen employed on these vessels dropped from 5,298 to 3,189. This represented a considerable attrition of both capital and labor from one of the largest segments of the New England fishing industry. With this loss of factors of production, the groundfish catch declined from 681.3 million pounds in 1951 to 515.8 million pounds in 1962—a decline of 24.3 percent. It should be pointed out that although the groundfish segment comprised 81.4 percent of the capital in the industry (using the number of vessels as a rough indicator) it employed only 14.8 percent of the industry's fishermen. This is due presumably to the high capital/labor ratio in groundfishing compared to lobstering and shell fishing. In addition, employment in fisheries other than groundfish is somewhat overstated since it includes more part-time workers. The movement of both capital and labor from the industry produced three investigations by the United States Tariff Commission. The Commission found in two investigations that under the competitive pressure of increased imports of groundfish fillets, the size of the New England groundfish fleet had been reduced significantly. The Tariff Commission's recommendation to increase import duties in each case was turned down because it was felt that such an increase might lead to retaliation and thus jeopardize our relations with Canada and Iceland. Although not leading to any specific action, the Tariff Commission studies did provide a great deal of data useful in assessing the financial returns in the groundfish industry at that time. It should be pointed out that the increased imports were partially the results of the rebuilding of foreign fishing fleets under the Marshall Plan and other subsidies that were made by foreign governments to their fleets. Such benefits were not made available to the domestic fisheries.

[1] Portions of this section are based on Bell (1966) and Vondruska (1972).

In 1951, the average share (or annual earnings) per groundfisherman was 5 percent above those in all U.S. industry. By 1953, however, groundfishermen's earnings were 23 percent below those received in all U.S. industry. Table 15 indicates the slow but steady deterioration of the earnings position of both capital and labor in the groundfish segment of the New England industry during this period.

II.1.d.(2)(c) Prices, Productivity and Costs.

Although New England groundfish prices fluctuated from year to year, during the 1952–60 period they exhibited no pronounced secular trend over the post-war period. Because of the withdrawal of factors of production, the decline in groundfish landings would lead (*ceteris paribus*) to higher ex-vessel prices (i.e. prices received by fishermen for their landed catch). However, the industry would experience lower total revenue since the demand curve for most groundfish species is highly elastic at the primary market level. This highly elastic nature of the demand curve is due to the existence of foreign substitutes and competing products such as meat and poultry. On the other hand, increases in consumer demand (i.e. expansion in population, etc.) will result in a shift in the demand curve, a rise in ex-vessel prices, and consequently total revenue. Even though U.S. population or consumer demand expanded rapidly in the postwar period there was no secular increase in ex-vessel prices as foreign imports supplied an increasing share of the market for groundfish. In fact, both revenue and output in the New England groundfish industry declined by the same percentage over the 1951–62 period, thereby resulting in constant prices during that decade. It may be concluded that the secularly constant New England ex-vessel price was partially produced by the increased pressure of foreign imports even though consumer demand increased and domestic landings fell.

Figure 6

LANDINGS AND REVENUE PER VESSEL AND COST INDEX OF INSURANCE, REPAIR, AND MAINTENANCE IN THE NEW ENGLAND GROUNDFISH INDUSTRY, 1950 – 1962

Source (i) Cost Index - Shipbuilding, Construction and Repair—U.S. Maritime Administration, Miscellaneous Textile Products-Fish Gear—Bureau of Labor Statistics, Insurance and Administration Expenses—Prices and Costs a American Industries C.E.D. Publication, (ii) Output and Value Indices—Fishery Statistics of the United States

The groundfish industry had apparently experienced some technological advance which raised labor productivity (hence money wages). The data revealed that output and revenue declined by 24 percent while employment dropped 40 percent over the 1951–62 period. However, fishermen's wages failed to keep pace with the rest of the economy and this deterioration resulted in an attrition of labor from the industry. Figure 4 shows the course of groundfish output per fisherman on an annual basis over the 1950–62 period. From 1950–53 labor productivity actually declined and did not reestablish its 1950 level until 1955. The slow growth of labor productivity is certainly not surprising since groundfish vessels and their equipment had not changed greatly over the postwar period. The side trawling fishing technique has been used for years in the industry.

Figure 5 shows the change in labor productivity, average ex-vessel prices for groundfish and fishermen's money wages. Upward movements in labor productivity seem to have produced a rising wage in the fishing industry. However, labor left the fishing industry due to the steadily deteriorating relative wage levels and because of the flight of capital (or decline in the fleet).

Profits in the groundfish industry were greatly influenced by rising fixed costs. Landings per vessel (or firm) changed little over the postwar period. Over the 1951–62 period, the number of groundfish vessels and pounds landed decreased by approximately the same percentage. As indicated before, ex-vessel prices failed to increase; therefore, revenue per vessel did not increase from 1951–62. On the other hand, such fixed costs as repair and maintenance, insurance, and administrative expenses increased over this period. A rough fixed cost index was constructed from these components. Results show that the index increased much more rapidly than value of the landings per vessel (or firm) (Figure 6). As a result, return on capital declined as did new investment in the industry.

The basic conclusion is that ex-vessel prices were an important factor in the postwar decline of groundfishing in New England. The secular consistency of ex-vessel prices resulted partly from an increasing supply of foreign imports which offset rising demand for groundfish products. The secularly constant ex-vessel prices coupled with rising costs for repair, insurance and maintenance produced a pressure on profits as revenue per vessel remained the same throughout the period. The adverse profit position created disinvestment (a decline in the fleet). Money wages in groundfishing increased slowly, presumably due to rising labor productivity. The deterioration of relative wages and the attrition of capital resulted in a contraction in employment. Again the increase in imports was partially the results of subsidies being made available to foreign vessels that were not made available to U.S. fishermen.

II.1.d.(2)(d) Selected Data for Haddock, Cod and Yellowtail Flounder, 1950–62.

HADDOCK

Table 16 contains data on total U.S. haddock landings in thousands of pounds and thousands of dollars for the 1950–62 period. Tables 17 and 18 contain data on New England landings of haddock for selected years during the 1952–62 period. Clearly, New England landings constitute essentially all of the U.S. haddock landings, and Massachusetts landings account for almost all of the New England landings. While landings declined during the 1950's, there was an upturn during the early 1960's. The actual value of the haddock landings in 1962 was essentially the same as in the early 1950's. Thus, the deflated value (while not presented here) was less in 1962 than in the early 1950's.

Table 16. U. S. Landings and Ex-Vessel Value of Haddock 1950 - 1962

	Haddock

1961	227	3	9,666	4	1
1962	196	3	10,701	2	1

YELLOWTAIL

Table 19 contains data on U.S. landings of yellowtail flounder during the 1950–62 period. Landings during this period more than doubled between 1950 and 1962. Massachusetts again was the dominant state for yellowtail landings. Within Massachusetts, New Bedford was the dominant port.

COD

Table 20 contains data on U.S. landings of cod in thousands of pounds and thousands of dollars. Table 21 contains data on cod landings by state in New England. Again, New England accounted for essentially all of the U.S. landings and Massachusetts accounted for essentially all of New England landings. Cod landings declined by 30% between 1950 and 1960, however, there was some increase during 1961 and 1962. Here too, with the actual value of the catch in 1962 and 1952 being equal, the value in real terms had declined.

PRICES

Table 22 presents the actual ex-vessel prices for cod, haddock, and flounders during the 1950–62 period in Massachusetts. As stated previously, prices for all groundfish were essentially constant despite the decline in landings and increases in consumer demand (yellowtail landings increased, however, during this period). These data reflect the overall trend. The role of foreign supply and its impact on prices was discussed previously.

II. 1.d.(3) The Industry During the Early 1960's-70's with Massachusetts.

II.1.d.(3)(a) Overview.

Declines continued to occur in the New England landings of several major fish species between 1960 and 1971, namely: herring, ocean perch, sea scallops, yellowtail flounder, haddock and whiting. Despite the decline in landings, the total number of fishermen in New England was virtually the same in 1960 and 1970, although the number of fishermen on vessels followed a downward trend, from 5,927 in 1950 to 3,236 in 1970. (Table 23).

The New England fishing fleet declined by 56 vessels, 1960–70. At least 92 vessels were added to the fleet and at least 125 were lost at sea. Scrapping, retirement, and shifts to other regions or to nonfishing activities account for other parts of the decline.

Table 23--New England Fishermen and Fishing Craft, 1950-70.

Year	Fishermen				Motor Vessels			Boats 2/	
	On Vessels	On Boats and Shore		Total	Number	Gross Tonnage 1/		Motor	Other

Source: Prices Received by Fishermen, 1939-1974, Current Fishery Statistics, No. 6600, 1975

*These are the prices for all flounder

Massachusetts fish otter trawling operations account for about 50–60 percent of the number of New England vessel fishermen, vessels and vessel tons, and largely explain declines in the numbers. Haddock was the leading species caught by Massachusetts otter trawl fishermen, and haddock landings declined from 114 million pounds, valued at $9 million in 1960 to 25 million pounds in 1970, valued at $6 million. The deflated average ex-vessel price of Massachusetts otter trawl landings of haddock increased from 8.9 cents to 19.4 cents per pound between 1960 and 1970.

Despite the decline in fishermen and vessels, the deflated value of catch was higher in 1970 than in 1960, although not as high as in 1965. Also, the average tonnage of vessels increased and the total tonnage decreased far less than is suggested by the decline in vessel numbers, comparing 1960 and 1970.

Expressed in 1967 dollars, the value of output per full-time equivalent fisherman was $12,413 in 1970, compared to $9,894 in 1960, but below that in 1965.

Data presented in Table 24 are for all Massachusetts fish otter trawlers and do not reveal the species emphasized by vessels operating out of different ports. Boston vessels have emphasized cod and haddock landings; New Bedford, flounder, especially yellowfish; and Gloucester, whiting and haddock. The weight of landings of these species declined since 1960, but ex-vessel prices increased. Among these species, foreign landings surpassed U.S. landings in 1965–66 for haddock in ICNAF Subarea 5. Canada, U.S.S.R. and Spain were the leading countries besides the United States. A similar story applies to cod. For yellowtail flounder, however, the United States has been the leading catcher in all years, with substantial secondary harvests by U.S.S.R. vessels only in 1969.

Note: Catch and deflated value of catch per man are for full-time fisherman equivalents (the sum of vessel fisherman, regular boat and shore fisherman, and one-half casual boat and shore fisherman).

II.1.d.(3)(b). Vessel Earnings.

Table 25 contains data on the vessel earnings in the Boston fleet during the mid-1960's and Table 26 presents data on the New Bedford vessel earnings during the mid-1960's. For both ports, the net return on sales was extremely low, and even negative for the New Bedford vessels in 1967. However, this represented a considerable improvement as compared to the performance during the 1950's.

II.1.d.(3) (c). Fishermen's Earnings.

Tables 27 and 28 present data on fishermen's earnings during the mid-1960's in Boston and New Bedford. In both ports, earnings of the fishermen were above the real wage in Massachusetts manufacturing. Again this was a considerable improvement over the 1950's performance.

II.1.d.(3)(d) Species Trends.

HADDOCK

Tables 29 and 30 show the weight and value of haddock landings during the 1963–1970 period. A drastic decline in haddock landings occurred during the period with the 1970 catch being only about 25 percent of the 1963 catch. The value of the haddock landings also declined to about 50 percent of the 1963 level.

YELLOWTAIL

Tables 31 and 32 contain data on the weight and value of yellowtail flounder landings. The decline in the catches of this species was not nearly as severe as the decline in the haddock catch during the 1963–1970 period. The drastic decline in yellowtail flounder landings occurred during the 1970's. Yet, the smaller catch had a greater value than in 1963.

COD

Table 33 presents data on the weight and value of cod landings during the 1963–71 period. Overall, cod landings increased both in weight and value during this period.

Table 29. -New England haddock landings.

1970	53,225	5,742
1971	52,824	6,345

II.1.d.(3)(e) Prices, 1963–71.

Table 34 presents data on prices during the 1963 to 1971 period. As can be seen, the decline in landings for haddock and yellowtail coupled with increasing consumer demand during this period led to almost tripling the price of haddock and a doubling the price of yellowtail. The price of cod also increased, in spite of increased supplies. Clearly, the demand situation for cod improved during the period.

II.1.d.(3)(f) Summary.

While the number of vessels and fishermen continued to decline during the 1960's, the average profit and the average real earnings of the vessels and fishermen that remained in the fishery improved in the mid-1960's compared to mid-1950's. The productivity of these vessels was higher in 1965 than in 1960 but declined by 1970. In spite of increasing imports throughout the decade, the ex-vessel prices of the principal groundfish species (haddock, cod, and yellowtail flounder) increased considerably, reflecting apparent increases in demand (and also domestic supply conditions). By 1970, the production of the remaining vessels and crew decreased, but the rising prices resulted in increases in the real value of the catch per vessel and per fisherman. No information on the net revenue of the vessels in 1970 is available.

Finally, while haddock landings underwent a tremendous decline during the 1960's, the decline in yellowtail flounder landings was moderate; cod landings even increased.

Table 34. Ex-vessel Prices for Cod, Haddock and Flounders in Massachusetts (¢/lb)

Year	Cod	Haddock	Flounder 2/
1963	7.1	9.5	8.4
1964	7.6	8.9	8.0

1971	12.4	26.1	16.7

2/ This is for all flounders

II.1.d.(4) Recent Trends—1971–75.

II.1.d.(4)(a) Overview.

The decline in the number of vessels and fishermen in the New England groundfish fishery continued during the 1971–1975 period. In Massachusetts, the number of otter trawls (vessels) declined 8 percent from 343 in 1970 to 315 in 1975 (Table 35). The number of fishermen on these vessels declined by 19 percent from 1887 to 1533.

Total landings of all fish species by these vessels declined by 24 percent from 227 to 172 million pounds. However the prices of the principal species increased considerably during the period. The ex-vessel value of this reduced level of landings was approximately $43 million in 1975 compared to $27 million in 1970, an increase of about 60 percent.

While the productivity of the remaining units declined, the increase in prices resulted in the deflated value of the catch per fisherman increasing by 39 percent and the deflated value of the catch per vessel increasing by 20 percent compared to 1970. Regretably there are no data available to determine the performance of these units in terms of profits, return on sales, return on assets, fishermen's real earnings, etc.

Table 35- Massachusetts fish otter trawl vessel and boat fishery--1975.

Catch quantity, pounds	
haddock	14,219,600

II.1.d.(4)(b) Species Trends.

HADDOCK

Haddock landings in New England continued to decline from 21 million pounds worth $5.6 million in 1971 to 8 million pounds worth $3.0 million in 1974 (Table 36). However, New England landings in 1975 increased to 16.2 million pounds valued at $5.3 million. Catch restrictions on haddock were in place during most of this period due to the condition of the haddock stocks.

COD

Landings of cod in New England remained above the 50 million pound mark during most of the period (Table 37). By 1975 the value of the cod catch was approximately 2½ times greater than the value of the haddock catch.

YELLOWTAIL FLOUNDER

During the 1971 to 1975 period, yellowtail landings peaked at 64 million pounds in 1972 (Table 38). By 1975, they had declined by about 35 percent to 41 million pounds. A significant price increase resulted in the value of this reduced catch being worth about $14.7 million, the most for the entire period and was the largest value for any finfish in New England.

While the data in Tables 36, 37, and 38 are for all catching methods and the data in Table 35 are for otter trawls alone, it is clear that cod, haddock and yellowtail flounder constitute the resource base for the groundfish fleet. In 1972 for example, the value of the catch of these three species alone comprised about two-thirds of the total value of the catch for Massachusetts otter trawls. In 1973, these species accounted for approximately 60 percent of the total value of the Massachusetts otter trawl catch.

II.1.e. Types and Number of Vessels Employed.

II.1.e.(1) Cod.

Table 39 gives the number of vessels in 1965, 1970, and 1975 which landed some cod and the number whose catch for the year consisted of 50 percent or more cod (by weight). There has been a consistent increase in the numbers of vessels landing some cod from 1965–1975 as well as an increase in the number of vessels whose total catch for the year was 50 percent or more cod.

Table 40 contains data on the number of trips (by all gears), days fished, and catch per day fished for those New England trips where 50 percent or more of the trip catch consisted of cod for the years 1965, 1970, and 1975. These data emphasize even more the general shift toward a directed fishery for cod in the ground-fish fishery. Between 1965 and and 1975 the number of trips directed toward cod doubled and the number of days fished increased 3-fold.

The number of recreational fishermen seeking cod is unknown but recent NMFS statistics indicate that there are approximately 10.8 million people participating in marine recreational fisheries (including shellfishing) from the states of Maine through Virginia, West Virginia, Vermont, and Washington, D.C., suggesting that recreational fisheries may be of considerable importance in the total harvest of cod, particularly for those components of the cod stocks most closely related to nearshore areas and in the mid-Atlantic winter fishery.

Table. 39 Number of vessels in the cod fishery, 1965, 1970, and 1975.

1970	1661	4106.5	4.62
1975	1987	6272.6	3.57

Foreign Vessels—In 1961, Soviet fleets made their appearance on Georges Bank, 150 miles east of Boston. The maximum number of vessels observed on the grounds at any one time was around 50, but for the year the Soviet expedition included 100 individual vessels. In subsequent years, 300–400 different Soviet vessels fished seasonally on Georges Bank, primarily for herring. By 1965, during peak fishing seasons (summer and fall), 200–250 Soviet vessels were fishing for herring, red and silver hake, haddock, and cod on Georges Bank and in southern New England. Throughout that year more than 450 individual vessels were sighted. Soviet fleets were joined each year, beginning in 1966 and continuing into the early 1970's, by numbers of vessels from Poland and Romania, followed closely by vessels from East and West Germany and Japan. Other nations followed, including Bulgaria, Spain, France, Greece, and Italy. Recently, nations such as Cuba, South Korea, and Ireland have been represented. During this period, 900–1000 foreign vessels annually fished in international waters off the U.S. east coast from the southern tip of Nova Scotia to Cape Hatteras. Depending on the season, 250 to 300 vessels were observed at one time or another, whether it be off North Carolina-Virginia in winter or on Georges Bank during the summer.

[a]In addition, small numbers (<10) of stern trawlers belong to France, Cuba, South Korea, Ireland, and Greece have been observed in SA 5 and 6 in recent years.

Between 1971 and 1975 the annual number of foreign vessels declined from 956 to under 800 (Table 41). It can reasonably be assumed that foreign fleets have dwindled even more during 1976 in response to greatly reduced fish stocks and increasingly more stringent catch restrictions, such as low quotas, closed areas, etc. Despite these restrictions, at the peak seasons (winter and spring, 1975–1976), 200–250 vessels were observed at one time on the fishing grounds. However, during other times of the year activity has been at its lowest level in many years.

It is difficult to make an accurate evaluation of actual numbers and types of foreign vessels involved in the yellowtail flounder fishery, as such evaluations must be based on surveillance data collected for approximate numbers of vessels fishing a variety of species. Foreign fishing for yellowtail flounder peaked in 1969 when 33 percent of the total catch was taken by foreign vessels. However, since 1972, foreign fleets have caught only about 2 percent of the total yellowtail flounder catch in Subarea 5 and Statistical Area 6. Table 42 indicates the relative amount of fishing pressure exerted by foreign nationals and the U.S. (note that these data do not take fishing power into account) for 1974. Note that almost all of the fishing pressure exerted on flounder was by the United States.

II.1.e(2) Yellowtail Flounder.

Domestic.—Table 43 contains data on the number of U.S. vessels which recorded some yellowtail flounder landings in 1965, 1970, and 1975, and those vessels whose yellowtail flounder catch was 50 percent or more of their total catch.

Foreign Vessels—See II.1.e.(1) Cod for details.

II.1.e.(3) Haddock.

Domestic—Prior to the entrance of Canada and the U.S.S.R. to the fishery, the bulk of the U.S. catch was taken by otter trawlers ranging in size from 51–150 gross registered tons, which spent 5 to 7 days at sea. Smaller amounts were also taken by vessels of from 0–50 tons making trips of shorter duration in inshore waters (off Cape Cod, long-liners have been of local importance). In recent years, the number of larger vessels in the U.S. fishery has declined steadily.

Table 44 shows the number of U.S. vessels in 1965, 1970, and 1975 which landed some haddock and also gives the numbers for 1965 and 1970 whose catch for the year was composed of 50 percent or more of haddock (by weight). It can be seen that during this ten year period there was a drastic decline in the number of U.S. vessels involved in directed fisheries for this species. Performance data for vessels pursuing directed fisheries for haddock (1965 and 1970) reveal essentially the same trend (Table 45).

Foreign Vessels—See II.1.e.(1) Cod for details.

Table 44 Number of vessels in the haddock fishery.

Year	Vessels landing some haddock	Vessels whose total catch was 50% or more of haddock
1965	443	111
1970	437	11
1975	425	-[1]

Year	Trips	Days fished	Catch/Day (000 lbs)
1965	3,676	11,387	8.69
1970	538	1,411	6.61

[1]Directed fishing was not permitted for this species in 1975.

II.1.f. Types of Gear.

The traditional U.S. fisheries for these species were prosecuted primarily by means of otter trawls, and the bulk of the catch is still taken by otter trawling. In addition, small amounts of these species are taken in the course of line trawling, hand lining, and gillnetting.

The U.S. recreational fisheries for these species employ hook and line gear fished by anglers from shore, small boats, and chartered party boats.

II. 1.g. Historical Impacts of Foreign Fishing on Domestic Fishery.

II.1.g(1). Cod.

U.S. and foreign landings of cod for the period 1960–1975 are given in Table 46 for Division 5Y and 5Z. For the Gulf of Maine stock (Division 5Y), competition has been minimal with foreign landings exceeding five percent of the total only once (1966) since 1960. For the Division 5Z stock, however, major shifts in the distribution of the total catch are evident throughout the 16 year period. With the advent of the distant-water fleets in the early 1960's, the percentage contribution of the U.S. domestic fishery decreased steadily from virtually 100% (1960) to a low of only 22 percent (1966). Following 1966, the U.S. portion of the total landings began to increase again reaching 64 percent by 1975. During this period total landings increased from 10,400 tons (1960) to 52,800 tons (1966) and then decreased to 24,000 tons (1975). In the area south of Division 5Z the reported landings of cod are a consequence of by-catch in other directed groundfish fisheries.

Table 46 USA, foreign, and total landings (metric tons) for the Division 5Y and 5Z cod stocks expressed as relative percentages of the total catch, 1960-1975.

Year	USA Landings	USA Percent of total	Foreign Landings	Foreign Percent of total	Total

[1]Provisional

II.1.g.(2) Yellowtail Flounder.

U.S. and foreign landing data for yellowtail flounder in Subarea 5 and Statistical Area 6 are given in Table 47. Total U.S. landings have varied widely since 1935. Competition between the U.S. and foreign fishing fleets (particularly of the U.S.S.R.) for yellowtail flounder was most intensive during 1969 on the Southern New England ground. Following the highest catches of yellowtail flounder on the Southern New England ground since 1942, catches since 1969 have declined sharply. Catches of yellowtail flounder on Georges Bank have remained relatively steady in recent years although some decline has occurred.

II.1.g.(3) Haddock.

U.S. and foreign landing data for haddock in Subarea 5 and Statistical Area 6 are given in Table 48. It can be seen that in the mid-1960's the U.S. share of the total catch declined from approximately 100 percent in 1960 to 37 percent in 1965;

since that year, the relative percentage has increased although the overall volume of landings has declined.

mid-1960's. There can be little doubt that greatly increased levels of fishing by foreign nationals at this time resulted in a significant reduction in stock abundance and in long-term productivity and yield.

Table 49 shows the magnitude of Canadian and U.S.S.R. landings during the

Table 47 Yellowtail flounder catch. Catches for SA5 includes discards.

1975[6]	1,353	-	-	-	-	8	3,985	-	5,346

1 Includes landings for Bulgaria, France, FRG, GDR, Japan and non-members.
2 From ICNAF statistical bulletins 10-24.
3 Landings not allocated by subdivision (5Ze or 5Zw).
4 From provisional ICNAF statistics for 1976 (incomplete).
5 Subarea 5 MIX landings were added into 5Z.
6 No statistical area 6 landings data are available prior to 1966, but haddock landings for the area were apparently negligible.

II.2. Status of the Fishery Stocks.

II.2.a. Cod.

II.2.a.(1) Distribution of Exploited Stocks.

Cod are distributed generally throughout the entire region of their involvement off the U.S. coast showing a more southerly extension in distribution and a tendency to inhabit shoaler waters of the area during the spring months of the year. As the waters warm during the spring and summer and cod move toward deeper waters. For the stock in Division 5Z the cooler waters of the Great South Channel provide a favorable habitat while the stock in the Gulf of Maine are found between the 10 and 140 meter contours, summer or winter. Differences in growth rates between these two stocks of cod and the results of tagging studies (Wise, 1958; 1962) would suggest that the amount of intermingling is minimal. However, the extent to which these are nearshore localized cod stocks which support nearshore recreational fisheries with minimal interaction with the more offshore cod stocks is unknown.

II.2.a.(2) Abundance of Exploited Stocks.
